The success of Maud Keswick as indicated above will be pleasing news to the many horsemen here who know the fast little mare. She has trotted on this track, and it was here that she got her mark of 2.21 1-4. She is a full sister to Dollie Keswick, and a half sister to Jim K. Mr. Fife, of Otonabee, owned this mare, and she has passed successively through the hands of Messrs. Gibbs, Fitzgerald, Willoughby and Shepherd.

This is an indication of the fact that Canadian horses when properly trained make good racing stock.

HARD LUCK LOST YESTERDAY'S GAME

Despatch from Oshawa Says Teams Are Well Balanced.

The story of the game in Oshawa is told in a special despatch to the Toronto Mail and Empire as follows:

Oshawa, Ont., July 27.—The Bowmanville baseball team defeated the Peterborough Midland League team in an exhibition game played on the Athletic grounds here to-day for a prize of $200, by a score of 10 to 3. There is great rivalry existing between these two teams, and it was on Saturday evening last, after Peterborough defeated Bowmanville in a Midland League schedule game in Peterborough, by a score of 6 to 2, making the two teams a tie for first place in the league, that this match was arranged. Each team arrived here to-day about noon, accompanied by great crowds of supporters, the Peterborough team coming up by special train and bringing with them about six hundred followers.

It was an easy victory for Bowmanville, not because of their extra ability in playing good ball, but because the Peterborough pitcher, Douglas, was off colour, and the first two innings let Bowmanville pile up a score of nine runs. Quinlan then went in the box for Peterborough, and during the remaining seven innings Bowmanville only secured one run. It was simply a case of hard luck with Peterborough, as both teams are well balanced and evenly matched. Following is the score:—

Bowmanville... ... ... 4500001000—10
Peterborough... ... ... 1010000100— 3

Umpire—Jack Rosevear, Port Hope.

BOWLING-ON-THE-GREEN.

Result of games played last evening:—

J H Fergusson	J Cunningham
W M Wallace	W Belleghem
W H Dalyman	G E Elliott
A R Kidd, sk 9.	D Belleghem, sk 11.
Wm Smith	A Belleghem
G E Perry	W S Robson
S Stamps	H Runnels
D H Moore, sk 15.	F H Dixon, sk 22.
H Mellish	W Aitchison
Dr. Marshall	W M Long
J E A Fitzgerald	G J Loch
G H Giroux, sk 16.	A Moore, sk 11.

Schedule for to-night:—
Stratton vs. Gibson.
Greer vs. Matthews.
Kerr vs. McClelland.
Martin vs. Moore.
Lash vs. Simpson.

BASEBALL.

On Monday night the second half of the game between Charlotte street and St. Andrew's will be played on the McDonel street grounds.

GOLF.

The following golfers went to Port Hope this morning for a game with the representatives of the club of that place: R. M. Hamilton, S. Ray, H. D. Burnett, Dr. Eastwood, A. Lang, A. H. Stratton, R. M. Dennistoun, D. Walker, P. Campbell, H. M. D. Hall.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of Itching, Blind, Bleeding and Protruding Piles. You use medicine and you have to wait for relief. Dr. Chase's Ointment gives relief at once. 60 cents a box. All dealers or Edmanson, Bates & Co., Toronto.

CHARLOTTE ST. GOT BIG LEAD

Score of First Four Innings Was 6-3 in Their Favor.

First Part of Semi-final Game in Guild League Played Last Night.

Last night the first part of the game between Charlotte street and St. Andrew's, in the final series, to decide the Guild League championship, was played, and resulted in a win for the Methodists, the score for four innings being 6—3.

The game was played on the McDonel street grounds, and was witnessed by the largest crowd of the season, a goodly number of the supporters of both teams turning out "to root" for their favourites. On form, as indicated by the game last night, the Charlotte street team played the better game, and deserved the win, but the St. Andrew's team towards the end of the game were playing better ball, and in the remaining three innings may surprise their opponents.

Patterson was in the box for St. Andrew's, and was hit rather freely, and, coupled with this, was the fact that he was not supported as well as he should have been, a number of costly errors being made. On the other hand, Roddy's support was about perfect, while he also pitched good ball.

In the first innings the Methodists, who went first to bat, scored four runs, Lang, McWilliams, Crowe, and Williamson crossing the plate on hits and errors. In the second half of this innings St. Andrew's was blanked. McDonald grounded to 2nd, Thornton hit to the left field for a two bagger, but Dunsford fanned, and Thornton, who tried to score on Dobson's hit to centre, was caught off third.

In the second the Methodists batted twice. After Thornton had grounded to short, Long hit over third, stealing second, and on a throw to that base reached the plate. McWilliams and Crowe got to first on errors, the former earning on Roddy's sacrifice. St. Andrew's again failed to score in their half, and in the first of the third Charlotte street were shut out. In the last half, however, St. Andrew's took a batting streak and scored two runs the same pipe hitting. Patterson fanned, but McDonald got a nice hit to left and came home on Thornton's pretty hit to centre. Dunsford was safe on Roddy's error. Dobson was hit by the pitcher, and Swanston, with the bases full, drove a nice one to shoal, scoring Dunsford, after Thornton had been caught at the plate. Foley flew out. The score then was 6—2.

In the fourth two more runs were added to the score for Charlotte street, while St. Andrew's made only the total score being 6—3.

The teams were:

St. Andrew's.	Charlotte st.
Pitcher.	
Patterson	W.H. Roddy
Catcher.	
McDonald	Lang
1st b.	
Dunsford	Thornton
2nd b.	
Cameron	Crowe
3rd b.	
Thornton	Williams
Short stop.	
Dobson	McWilliams
Left field.	
Swanston	Rossiter
Centre field.	
Foley	Ryan
Right field.	
Butcher	Roddy

Mr. Stacey umpired to the satisfaction of both teams.

BASEBALL.

The patrons of the Maple Leaf Hotel would like to arrange a game with the Peterborough ball team that played in Oshawa man for man, Quinlan barred, for money or marbles—marbles preferred as they think that would be more suitable to Peterborough ball team.

* * * *

Referring to the Bowmanville-Peterborough game at Peterborough, an exchange from Bowmanville wonders if Bandmaster Bill Rennick, of Lindsay, kept their players up late Friday night and what had that man accountable for their defeat the next day.

SICK AT NIGHT WELL IN THE MORNING.

A MOST WONDERFUL CHANGE IN EVEN A FEW HOURS CAN BE EASILY ACCOMPLISHED IN NATURE'S WAY.

Your head aches and feels heavy. Perhaps your throat is a little dry. You have little appetite, and occasionally chilly feelings creep along the spine. Your eyes are hot, tongue furred, and you are about half knocked out. You know what the trouble is. You have been drinking and eating too much. You have felt this way before and it took you a week to get well. You are just "bilious" and your stomach has gone back on you. Now if you do the right thing at the very start you will feel better tomorrow. Just take two or three of Smith's Pineapple and Butternut Pills, take them now, and tonight when you retire take one or two more, and you will feel one hundred per cent better tomorrow morning and before the day is passed you will forget all about it. These wonderful little pills, combining the antiseptic and resolvent properties of pineapple with the laxative and cleansing effects of butternut, will quickly relieve a congested circulation, and drive out of the blood the bile accumulations, restoring harmonious action to the digestive organs. Just one day's use of these little pills will cure any threatened bilious attack. They are good for young or old, never gripe or weaken, nor leave behind any unpleasant after effects. They always cure sick headache, constipation and biliousness in one night. 25 cents at all dealers.

All genuine signed W. F. Smith.

FATAL WRECK ON ENGLISH RAILWAY

First Serious Accident on Electric Railway There—Twenty-three Passengers Killed—Train Dashed Into Another at Railway Station and Only Six Occupants of One Car Escaped---Terrible Scene After the Wreckage Burst Into Flames--Women and Children Among the Victims.

Liverpool, July 28.—An electric express train on the Lancashire & Yorkshire Railroad, bound from Liverpool to Southport, collided last evening with an empty stationary train at the Hall road station, causing the death of twenty-three persons and the injury of many others. The first car of the express, which was crowded, was smashed to pieces and only six of its occupants escaped. The road was recently given an electric equipment.

This is the first serious accident that has occurred on an electric railway in England, and it filled with horror the numerous waiting passengers standing at the Hall road station, who were spectators of the disaster. The collision lifted the first car of the express completely off the steel frame and crashed it down again on the unfortunate passengers, twenty of whom were killed outright.

More of them would have been killed but for the presence of mind of a Liverpool architect, who seeing that a collision was inevitable, shouted to his fellow passengers to throw themselves upon the floor of the car.

Almost immediately after the crash the wreckage burst into flames. The mangled bodies of the dead and the cries of the injured vainly beseeching that they be extricated from the burning wreckage formed a terrible scene, and many women on the platform fainted. The victims included several women and children. Fortunately, the badly injured number comparatively few.

The cause of the collision is unknown.

Fifty May Be Dead.

Detroit, Mich., July 28.—A Tribune special from Ironwood, Mich., says:—"A passenger train is reported wrecked near here on the Duluth, South Shore & Atlantic Railroad. It is feared that fifty people have been killed. Most of the victims were Finns on their way to a temperance convention in Ironwood."

Six Killed and Three Hurt.

Amsterdam, N. Y., July 28.—Six men were killed and three others probably fatally injured by being struck by train No. 56 on M. Y. Ct, at Tribe Hill, six miles west of this city, shortly before noon yesterday.

Woman Killed By Train.

Belleville, July 28.—An accident occurred on the Bay of Quinte Railway, near Allan's. Mrs. Geo. Young, who had been out berry-picking, was walking on the track, and, being deaf, did not hear the whistle of an approaching train, which struck and mangled her terribly. She died shortly after being picked up.

Harbor Dragged; Body Found.

Picton, July 28.—Thomas Fegan was missing from his home since Monday night, when he was last seen going towards Rathbun's dock. His friends became alarmed and instituted a searching party to drag the harbor for his body. A grapple was put down off the Rathbun dock and the very first time the body was brought up. Deceased was 40 years old, the son of the late Capt. John Fegan. He was a sailor and carpenter.

Killed By a Slab.

Burk's Falls, July 28.—While working in the Knight Bros. Co. mill a slab thrown upon a revolving saw was projected backwards with great velocity, striking Frank Hunter, a young man about 25 years of age, in the abdomen. Internal complications set in, and he died last night.

A Dynamite Pencil.

Guelph, July 28.—Edward Hefferman, a young man of this city, picked up what he thought to be the head of a pencil, and while hammering at it an explosion occurred, and his two hands were badly lacerated and his chest burned. The object contained dynamite. Blood poisoning may develop.

WANDERED IN WOODS.

Young Man Found After Eight Days a Raving Maniac.

Temiskaming Station, July 28.—District Engineer Molesworth has returned from a trip of inspection of the transcontinental surveying parties under his charge.

At one of the camps visited they found a young Englishman who had been lost in the woods for eight days, and it was only by chance some Indians had found him and brought him in. When found he was almost in a state of nudity and was a raving maniac. For several days he remained in this condition, but has gradually regaining his mental balance.

Many such cases are reported from the north, and in two instances the searching parties found only the remains of the men who had gone astray.

STORM AT MERRICKVILLE.

Poles and Wires Downed and Other Damage Done.

Merrickville, July 28.—The recent electric storm was very severe in this vicinity. All the wires and poles, telegraph, telephone, etc., were down for three days, and every available man had to be put at work trying to open up connection with outside points. Such a storm was never before experienced in this part of the country.

Shade and fruit trees, fences, barns, etc., were levelled in all directions, while the growing crops in many instances are seriously damaged, and in a few places totally destroyed.

The hail where it fell in force stripped the leaves from all growing vegetables and fruit trees not blown down were stripped of their very promising crops.

The roads in the village and country were rendered impassable from fallen trees, some of these being four feet in diameter. The passenger steamer Queen, on her usual trip from Ottawa to Kingston, had to be run on shore below Becket's Landing. The track of the storm was not over a mile wide. The Electric Light Co. was temporarily put out of business.

FROM HEAD TO FOOT

you feel the good that's done by Doctor Pierce's Golden Medical Discovery. It cleanses, regulates and invigorates Stomach, Liver and Bowels and so purifies the blood. And through the blood, it cleanses, repairs, and invigorates the whole system.

In recovering from "grippe," or in convalescence from pneumonia, fevers, or other exhausting diseases, nothing can equal it as an appetizing, restorative tonic to build up needed flesh and strength. It rouses every organ into natural action, promotes all the bodily functions, and restores health and vigor.

For every disease that comes from foul or Weak Stomach, a torpid Liver or impure Blood, Dyspepsia, Indigestion, Biliousness, and the most stubborn Skin, Scalp, or Scrofulous affections, the "Discovery" is a sovereign remedy. Don't be hypnotized, wheedled, or over persuaded into accepting a substitute only that some selfish medicine seller may make a greater profit on the inferior article. The "Discovery" has a great record of nearly forty years with thousands of cures behind it.

Dear Sir—Several years ago my blood became impoverished and I became run down in health. I had no appetite, could not sleep, and was practically unfitted for work. Suffered from innumerable boils and was in bad shape. Dr. Pierce's Golden Medical Discovery relieved me of my wretched condition. The medicine built up my system and restored me to a normal condition of health. I can speak most highly also, of Dr. Pierce's Favorite Prescription, as it has been used in my family for years in cases of female trouble.

VALENTINE FRANK.

Turpentine—Spirits dull, 43s 3d.

NEW YORK DAIRY MARKET.

New York, July 27.—Butter—Firm; receipts, 8439.

Cheese—Quiet but firm, unchanged; receipts, 5141.

Eggs—Steady, unchanged; receipts, 10,759.

CATTLE MARKETS.

Cables Unchanged—American Markets Quiet and Steady.

London, July 27.—Cattle are quoted at 10¼c to 11¼c per lb.; refrigerator beef, 8¾c to 9c per lb.; sheep, 13c to 14c per lb.

TORONTO LIVE STOCK.

Receipts of live stock at the city market since Tuesday, as reported by the railways, were 85 car loads, composed of 1178 cattle, 790 hogs, 1847 sheep and lambs and 130 calves.

Exporters.

Owing to unfavorable reports from foreign markets prices for exporters were easier. Prices ranged from $4.20 to $4.75 and one prime lot at $4.80, the bulk selling around $4.50 to $4.60 per cwt.

Butchers.

Owing to light receipts of butcher's cattle last Thursday and then again on Monday and Tuesday of this week prices for good cattle were firm at Monday's prices; in fact they were, if anything, better than for two weeks past. Prime lots of picked cattle sold at $4.50 to $4.70, loads of good at $4.25 to $4.40, medium at $3.75 to $4, common at $3.25 to $3.50, inferior and rough at $2.50 to $3 per cwt.

Stockers and Feeders.

There were few feeders or stockers offered, but plenty for the demand, as few farmers can find time to come to market owing to haying and harvest engaging their attention during this fine weather. One load of feeders, 1070 lbs. each, were reported as being sold at $3.55 per cwt., and another lot of 12, weighing 830 lbs., at $3.10. A few eastern stockers were reported at $2.60 per cwt.

Milch Cows.

About 20 milch cows and springers sold all the way from $30 to $47 each.

Veal Calves.

About 130 veal calves, the quality of which was better than usual, sold all the way from $3.50 to $5.75 for the bulk, with an odd calf of prime quality at $6 and $6.25 per cwt.

Sheep and Lambs.

Trade for sheep and lambs was brisk at $4 to $4.15 per cwt. for export ewes; bucks, $3 to $3.25; lambs at $6.50 to $7 per cwt.

Hogs.

Deliveries light, with prices firmer at 25c per cwt. of an advance. Mr. Harris quotes having paid $6.75 for selects and $6.50 for lights and fats.

EAST BUFFALO CATTLE MARKET.

East Buffalo, July 27.—Cattle—Receipts, 200; light demand; steady; prime steers, $5.25 to $5.55; shipping steers, $4.60 to $5.15; butchers', $4.15 to $5; heifers, $3.25 to $4.75; cows, $2.75 to $4.25; stockers and feeders, $2.50 to $4; stock heifers, $2.50 to $3.

Veals—Receipts, 100; active, 25c higher; $5.25 to $7.75.

Hogs—Receipts, 1700; fairly active and steady; heavy, $6.25 to $6.30; mixed, $6.30 to $6.40; Yorkers and pigs, $6.35 to $6.40; roughs, $5.10 to $5.40; stags, $3.25 to $4; dairies, $5.90 to $6.25.

Sheep and Lambs—Receipts, 1600; steady; lambs, $5.50 to $7.50; yearlings, $5.75 to $6; wethers, $5.25 to $5.50; ewes, $4.25 to $4.50; sheep, mixed, $2.50 to $4.75.

NEW YORK LIVE STOCK.

New York, July 21.—Beeves—Receipts, 44; nothing doing; feeling steady; exports to-morrow, 60 sheep.

Calves—Receipts, 447; steady; veals, $5 to $7.50; tops, $7.75; throw-outs, $4 to $4.50; grassers and buttermilks in very limited supply, sold at $3.25 to $3.50.

Sheep and Lambs—Receipts, 4170; good hardy sheep firm; others steady, but heavy sheep slow; lambs 25c higher; common to good sheep, $3 to $4.65; culls, $2.50; lambs, $7 to $7.75; one car at $7.85; culls, $5.

Hogs—Receipts, 1008; steady; good, 170 and 220 lbs. state hogs, $6.40 to $6.50.

CHICAGO LIVE STOCK.

Chicago, July 27.—Cattle—Receipts, 8000; good to prime steers, $5.25 to $5.90; poor to medium, $3.75 to $5.10; stockers and feeders, $2.25 to $4.25.

Hogs—Receipts, 20,000; mixed and butchers', $5.40 to $6.05; good to choice heavy, $5.90 to $6.02½; rough heavy, $5.25 to $5.75; light, $5.50 to $6.10; bulk of sales, $5.75 to $5.95.

Sheep—Receipts, 18,000; good to choice wethers, $4.60 to $4.85; fair to choice, mixed, $4 to $4.50; native lambs, $5 to $7.

Mrs. Roselle Acquitted.

London, July 28.—Mrs. Roselle, charged with bigamy, who married a boy, 17 years old, less than half her own age, was acquitted yesterday. The Crown witness was William Scott, who admitted he married Jennie Gough before he met the prisoner, and that Jennie is still living. He was married to Mrs. Roselle many years, and by her was the father of four children. When Mrs. Roselle discovered Scott's real wife was living she left him.

Escaped an Operation.

"I had itching piles for six years, and the doctors told me there was no cure for me unless an operation. Dr. Chase's Ointment completely cured me in one week. As that was six months ago, and there has been no return of the old trouble I believe no return of the old trouble I believe that the cure is a permanent one."—Mr. J. Mawor, Roden, Man.

WILL TRY WHEATLEY MEN.

The Crown Takes Action in the Dulmage Case.

Chatham, July 28.—The Crown authorities have decided to proceed against the Dulmage whitecappers, and yesterday laid informations against the men charged with being implicated in the midnight raid, in which a Wheatley grocery man suffered. These are Oscar Lounsbery, William Mills, Ewart Gibson, W. J. Martin, J. McDonald, William Curtis and Constable Tremblay. The last may lose his position.

The Corinthian Aground.

Montreal, July 28.—The Allan Line steamship Corinthian bound outward from Montreal for Glasgow, went aground opposite the lower part of the harbor shortly after daylight yesterday morning. The Corinthian is one of the fleet in the Glasgow-Montreal service. She is lying almost at right angles, with the island and the current, and the work of floating her is under way, but so far without success.

Train Kills Fat Cattle.

Toronto, July 28.—Last night while G.T.R. flyer No 48, in charge of Conductor F. Berry, about four miles south of Allandale, and running at a very high rate of speed, run into a herd of fat cattle. Engineer McKinley applied the brakes at once, but too late. Seven cattle were killed. The train was delayed about 35 minutes, taking dead cattle from under the engine and train.

Sues For Husband's Death.

Montreal, July 28.—Vincenzo Ferraro has entered action against the Canadian Pacific Railway for $5,000 for the loss of her husband, killed about a year ago by a hand-car near Mattawa.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for additions, etc., Post Office, Calgary," will be received at this office until Monday, Aug 7, 1905, inclusively, for additions and alterations to the Post Office, Customs, etc., building at Calgary, N. W. T., according to plans and specifications to be seen at the Department of Public Works, Ottawa, Ont., and at the office of Paul Paradis, Esq., Resident Engineer, Calgary, Alta.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,

FRED. GELINAS, Secretary.

Department of Public Works, Ottawa, July 5th, 1905

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for alterations and additions to Rideau Hall, Ottawa, Ont.," will be received at this office until Wednesday, July 26, 1905, inclusively, for an addition to Rideau Hall, Ottawa, Ont.

Plans and specifications can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

FRED. GELINAS, Secretary.

Department of Public Works, Ottawa, July 19, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

THOMAS MITCHELL TRIED HIS GAME IN MONTREAL

Confidence Man Who "Did" Local Clergymen Was Up to the Same Game in the Eastern Metropolis—Rev. J. G. Potter Received a Letter From a Brother Minister in Which His Methods Were Described—A Smooth Young Man Who May Be a Bad "'Un."

It appears that the man, Thomas Mitchell, who worked his confidence game on the ministers in this city, this week, has operated in a similar manner in Montreal. This afternoon Rev. J. G. Potter received the following letter from Rev. W. Patrick Walker, of Montreal, a Presbyterian minister, which will be read with interest here:

459 Elm avenue,
Westmount, Que., July 26, 1905.

Rev. Mr. Potter,—

Dear Sir, — Regarding a "Thomas Mitchell," who has been in Peterboro, permit me to state that he called for me, and said that he was from Ayr, in Scotland, the son of an officer in the Scotch Fusiliers; that he had been in the choir of Dr. McTavish's church, Toronto, in Lornesville, in Kingston hospital; and that Dr. McT. had promised to send letters of communication to the Rev. Mr. Oxley here; that he had called for Mr. O. but found him away from town, and that Mr. Carter had sent him to me; that he had secured board at Hillside avenue, but owing to expanse in the hospital, he had not enough to lift his trunk from the express; that next day he was to begin work at the G. T. or C. P. offices, at $38 per month, and if I would lend him $1.10 he would pay it back on Saturday. I did so. He did not call according to promise, and having seen his name, and a raid on you and others in Peterborough, I conclude that he is the Thos. Mitchell who was here. His visit here was on the 18th. He said when he applied for the situation Dr. McTavish's letter had not reached him, but the party to whom he applied sent a telegram to Dr. McTavish and found all satisfactory. He also showed me the express shipping bill for his trunk. He was young and well dressed. His story was plausible, and though I was somewhat doubtful I thought his need so small that I could not go far astray in helping him. It is my first fall into the dodger's pet. His youth, dress and the use of Dr. McTavish's name removed any suspicion from my mind. I asked him however to call on Mr. Carter and arrange to be in the choir on Sabbath. Mr. Carter is an elder in Mr. Oxley's church, and I am supplying for a few Sabbaths. I feel very sorry to think that one so young should try in a land where plenty of work is to be had, to live by such means. He did not call on Mr. Carter, and I do not expect my $1.10.

Yours truly,
Wm. Patrick Walker.

JOHN ROGERS WAS ASSAULTED

Wilson F. Crowthers Knocked Him Down on the Street.

Former was Intoxicated and Exasperated Crowthers.

This morning an assault occurred on Water street, opposite the office of the Big Dipper Gold Mining Company, and the circumstances are somewhat similar to those in connection with an assault which occurred on the same street a few days ago. Wilson F. Crowthers, an Englishman, about twenty-two years of age, who has lived in town for some months, and who has been employed as a bricklayer's helper, is now in the cells and came before the Magistrate at a special session of the police court at 8.30 — this afternoon, charged with having assaulted John Rogers, a man 76 years of age, whose home is in Cavan, and who is commonly known as "Jumping John Rogers."

The elderly man was, it appears, under the influence of stimulants, and was sitting on a doorstep just south of the Big Dipper Company's office, when Crowthers came along and aroused Rogers, telling him that he had better be moving along or the police would get after him and he would be taken up. He helped him to gather up some clothes which were scattered on the sidewalk, and placed them in a sack and got him up on his feet. But it appears that the old man did not take very kindly to what he considered interruption with his personal liberty, and getting out in the street, he set up a call for the police. With a laugh, Crowthers walked away to the corner near the Crown Hotel, where he stood talking, and Rogers followed him, and according to reports, tried to pick a quarrel. Crowthers took him by the arm and brought him up the street again, trying to get him to move away from the centre of the town, where he was afraid that he would get into trouble.

Believing that he was being abused, Rogers took out a knife, and struck Crowthers twice with it. This did not seem to affect the young man much for he was apparently anxious to help Rogers out of trouble, and again he picked up the bag in which his clothes were. The old man continued to abuse him and call him names, until at last the patience of the younger man was exhausted and, after having been called an objectionable name, he hit Rogers under the jaw and the old man fell like a log, on the granolithic walk. His head was cut rather seriously by the fall, and for some minutes he was stunned.

The Chief came along just as the affair happened, and placed Crowthers under arrest, and took the older man to the Police Station as well.

FLOWER SUNDAY AT PARK STREET

Special Services Will be Held on Sunday.

Next Sunday will be Flower Sunday at the Park Street Baptist church. The superintendent and teachers are preparing for a most enjoyable day.

The Flower and Programme Committee are at work; everybody is expected, for once, at the morning service with a few flowers or a bouquet as they are able to procure.

The church in the afternoon will present a fairy-like appearance when the children, parents and public will fully in force. The subjects to be treated by the pastor are arranged for the special day. Morning—"Our National Assets." Afternoon — "The Talking Flowers and What they Say." Evening—"Go a Borrowing, Go a Sorrowing." The children and parents are looking forward with great interest to next Sunday.

FORMER RESIDENT VISITS THE CITY

Mr. A. E. Mitchell, of Brandon, Man., Visiting Friends Here.

Mr. A. E. Mitchell, of Brandon, a former resident of Peterborough, is visiting with Mr. G. W. Mulligan, 626 Bathurst street.

Mr. Mitchell left town twenty-two years ago, and has since resided in the West, where he now has a well established and profitable clothing business.

Boxed Writing Papers

Whether writing paper is wanted for the vacation trunk or the home desk, it will be worth your while to see what our stationery department is offering in boxed papers at a quarter. Very dainty Abbotsford is a fine paper in plain white and tints. Linen Lawn is a very fashionable sheet, with envelopes, at 10c pkg., or 3 pkgs. for 25c.

A. H. Stratton & Co.

"THE DAYLIGHT STORE"

BIG SMASH IN PRICES

We know and the manufacturers know, that it is better to sell clothing at a reduction, and even at a loss, than to pack it away and pay the cost of investment and run the risk of changing fashions. It is for these reasons then that we are selling our

Two-Piece Suits

at such a reduction, and two full wearing months ahead. Prices like this:—

$12.00 Suits for $9.90
$10.00 Suits for $8.90
$8.50 Suits for $6.90

These prices are genuine and are attracting widespread attention.

Our Special Sale

Also continues on our large stock of Men's, Boys' and Children's Regular Suits.

Furnishings at Special Prices

We have Boys' Blouses at 25c, were 50c
Men's Shirts at 49c, were 75c and $1.00
Also several odd sizes at special prices to clear.
We don't mind the loss, we can use the money but not the goods.

LANG & MAHER,

CLOTHIERS AND FURNISHERS TO THE MAN WHO KNOW

SPORT NOTES.

Canoeing as a pastime appears to be in a somewhat anaemic condition this season in town and it is hoped that the approach of the regatta season will infuse new life and vitality into this truly characteristic Canadian sport. This condition of affairs can scarcely be attributed to a lack of interest in a healthy sport, which has during past years occupied so prominent a place in the development of athletics in the town. Peterborough citizens take a pride in pointing to the city as "the home of canoes." This title is one of which we may well feel proud, smacking as it does of the clear bracing air of the north, the forests resounding with the sound of the axe, the bright sparkling waters reflecting in their depths the splendors of the varied greens of the foliage above, and in fact all that has contributed to the building up of the vigourous young manhood of which conquerors are made. Would it not be well to consider as to whether we may not be reduced to the commercial variety of national pride characteristic of our American neighbours, and with finger smeared with varnish and reeking of the paint shop point to our city as the "home of canoe-factories."

The prospect is one which certainly should not appeal to the healthy Canadian boy, whose pride in what is distinctly national in sport, will prevent, we feel certain, the leading of his superior physique to the pursuit of the dyspeptic athletics which obtain across the line. The result could never be a gratifying one, in view of the means adopted to bring about the results desired, which are not to secure clean athleticism, or sport for the sake of the athletic development of the nation, but is rather the product of the commercial instinct which appears to reign supreme.

To the average Canadian mind there can be little doubt that the athletic pursuit which tends to the development of a healthy physique will be regarded as superior to that which has for its object little more than the acquirement of a slight-of-hand dexterity as exemplified in the "spit-ball" and similar crowning triumphs of the human intellect, which mark the opening of the 20th century.

We need adopt no apologetic tone in referring to what we may regard as distinctively Canadian in the realm of athletics. The sports which have been developed by our fathers, hand-in-hand with the development of the nation have brought to us world wide distinction, in the past, notwithstanding our relative numerical handicap.

Among our greatest triumphs have certainly been those in the realm of aquatic sports—and to demonstrate the practical utility of our development upon these lines it is only necessary to turn back the pages of history to find our fellow Canadians of the present generation with supremacy unchallenged upon the waters of the land of the Lotus. It appears need a moot question then to consider as to whether we are at present living up to the standard of the past, and are utilising to the extent which we might the matchless facilities afforded us by the magnificent chain of waters at our disposal.

The apparent listlessness which is at present exhibited toward the development of the art of canoeing is probably chiefly attributable to the lack of organisation among lovers of this form of amusement. The regattas of last year were far beneath the standard of former seasons in many respects. The canoeing events were, it must be admitted, very inferior exhibitions, and failed to awaken the interest of which they were deserving. There are in the city many paddlers of undoubted speed and dexterity, and who are quite capable to do credit to themselves and to the city, were they to compete in almost any company. It is by no means encouraging to note, however, that of the number who as late as two years ago engaged in regular training, many have apparently abandoned the sport. This in itself is not the most regrettable feature, but rather its demoralizing effect upon the production of new material for future years. It is to be hoped that the many inactive lovers of the sport will this season make a special effort to lend to it an impetus which will result in the creditable representation of the city in the events at the coming regatta.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Restrict Drink.

Dr. E. S. Sherlock, of Belmont asylum, London, England, giving evidence on the feeble minded before a British royal commission, strongly advocated idiots and degenerates being isolated until the present generation of the feeble minded dies out. Miss Rose Turner, medical attendant at homes for feeble minded children, said that out of ten fathers of forty feeble minded children, all of whom drank to excess, nine of them were excessive smokers and four chewed tobacco. She advocated the restriction of strong drink by every possible means.

350 ANGLICAN EXCURSIONISTS

Cannington Party Has Enjoyable Trip.

Arrived in the City at Noon by Regular Train—Will Return by Special at Ten O'clock.

The excursion of the Young Peoples' Society, of All Saints' Anglican church, Cannington, which arrived in the city about twelve o'clock by the regular G. T. R. train, brought down from that bustling western town a crowd of over 350 people.

The arrangements for the affair were complete in every detail, and the members of the party were most enthusiastic over the charming nature of the trip.

They embarked on the steamer Water Lily and barge at the Wolfe street wharf for the sail up the waters of the Trent Canal, via the Lift Lock, the mechanism of which the members of the party viewed with great interest.

They will return this evening, and leave for home by special train at ten o'clock.

The committee in charge includes a well known and popular old Peterborough boy, Mr. Dickson Jewett, who is now a resident of Cannington. The others members of the committee are Mr. Southworth, Miss N. Gibbs, and Miss Francis.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers who are invited to contribute suggestions, inquiries or notices. Anything of a scurrilous personal nature will be prohibited.

Dear Editor:

Residents of the Fifth Ward are anxious to know why it is the boats do not call at their wharf after the promise that they would do so. A party of seven waved their hats and parasols frantically but to no avail, in their endeavour to have the City of Peterborough pick them up for Gore's Landing yesterday afternoon. If it is just a chance shot that the boats call, the public should know, and there would be no one disappointed.

Yours truly,
FIFTH WARD.

BIRTHS.

MOORE.—At 650 Aylmer street, on Wednesday, July 26th, 1905, to Mr. and Mrs. B. Moore, of a son.

DIED

MOWRY.—At Toronto, on Friday, 28th July, 1905, Bessie Mabel, wife of Mr. R. B. Mowry, aged 24 years.

Funeral in Toronto on Saturday at 9 o'clock.

LAWN MOWERS

Sharpened, repaired and put in first-class order, at J. H. Mothersill's, 223-225 Hunter Street.

Crockery and Wall Paper News

When you want either of the above lines you'll be antagonistic to your own interest if you don't inspect our stock of all the best lines in the market. Our July-sale values we've put upon our stock beckon to all economists, and the grand variety calls to all buyers, even to those who want exclusive designs, because our stock is so large is the reason for price reductions that are out of place with the quality of the goods. You ought to take care of these savings. Buying your crockery here is getting value for your money. Wall papers more than generous too.

MR. C. TUCKER'S LONG JOURNEY

Will Start To-day for South Africa and South America.

In the Interests of the Sherwin-Williams Paint Company.

At noon to-day, Mr. Chas. Tucker, a traveller for the Sherwin-Williams Paint Co., who for the past month has been in Peterborough resting, left for New York, from whence he will start on another trip for his firm, of which the general manager is an old Peterborough boy, on a trip to South America and South Africa.

Mr. Tucker is one of a staff of 150 travellers employed in pushing the goods made by this enterprising company in America as well as in foreign countries. He has made several trips to South America, doing business in Brazil and the Argentine Republic, and has been very successful in his work there.

On this trip, in addition to working in those countries in which the trade is already well established, he will go to South Africa to open up a new field of enterprise.

Up to the present time his company has not had travellers in that continent and Mr. Tucker will endeavour to build up a trade there, and if past achievements are a criterion, he will doubtless be successful.

The operations of this company are carried on a gigantic scale. They have four large factories, the head office of the concern being in Cleveland, Ohio, and they have extended their business until now it includes nearly every country in the world.

Mr. Tucker on this trip will likely be away for a year or a year and a half.

LAMENTED DEATH OF MRS. BOLIN

Passed Away Yesterday at Advanced Age of 70 Years.

The death occurred at her residence, Charlotte street, Peterborough, yesterday afternoon, of Bridget Bolin, relict of the late John Bolin, at the age of 70 years. Death was due to senility and followed a period of illness of about six months duration.

The deceased was born in Mayo County, Ireland, removing thence to Canada in the year 1837, at which time she took up residence at Keene. She was married later to Mr. John Bolin, who predeceased her by about 17 years. She removed to Peterborough about 14 years ago, where she has since resided.

Sorrowing members of the family are seven sons and four daughters, Mrs. Hefferman, Hunter street, city; Mrs. Gartland, of Rochester, N.Y.; Katie and Gertrude, city; Patrick, Keene; Richard, of Pittsburg, Pa.; Hugh, of Junction City, Kansas; Michael, of Chicago; John, of Greeley, Neb., and Frank, city.

The funeral will take place tomorrow afternoon at three o'clock from the family residence, Charlotte street to St. Peter's Cemetery.

Boxed Writing Papers

Whether writing paper is wanted for the vacation trunk or the home desk, it will be worth your while to see what our stationery department is offering in boxed papers at a quarter. Very dainty Abbotsford is a fine paper in plain white and tints. Linen Lawn is a very fashionable sheet, with envelopes, at 10c pkg., or 3 pkgs. for 25c.

A. H. Stratton & Co.

NO HALF HOLIDAY FOR THE OLD BOYS

Probability That City Will Not Declare One.

Special Meeting of the Council Called for Monday Night.

There will be a special meeting of the City Council on Monday night when the regular business will be taken up. The fact that Monday is the last day of the month has probably influenced the Mayor in calling the meeting for that night instead of waiting until the following week.

A question which will come up for discussion at that meeting will be whether there will be a half holiday on Monday, Aug. 7th or not. This is Toronto's Civic Holiday, and on that day the Peterborough Old Boys in Toronto, to the number of several hundred, will pay the old town a visit.

A proposal was made that in honour of their visit the City should observe a half holiday. It is not probable, however, that the council will agree to that proposition. In the first place the Monday following will be the City's Civic Holiday, and it is felt by many that two holidays should not come so close together even though it is the holiday season. Then, again it is thought that to close all the stores on the day that the visitors were in town, would make it look quiet and dull, and if they were open it would give the City a much more business-like appearance.

In view of this fact it is not at all probable that the council will declare a half-holiday on that day.

At Monday's meeting it is likely that a committee to act as a Reception Committee for the occasion of the visit of the Old Boys will be formed.

Two years ago there was a very feeble attempt made to extend a civic welcome to the visiting Peterborough boys, and on this occasion there is reason to believe that the city will do more to impress the visitors with the fact that they are welcome, than was done at that time.

THROWN FROM STREET SPRINKLER

Mr. Zimri Blodgett Suffered Severe Injuries Yesterday.

Mr. Zimri Blodgett, driver of the sprinkling cart which operates on Water street, was yesterday afternoon severely injured by a fall from the lofty seat of the wagon.

The accident occurred at the corner of Antrim and Water streets and resulted from the breaking of a bolt in the whiffletrees, which caused the large vehicle to come to a sudden stop. The unexpected jolt threw Mr. Blodgett heavily to the ground, a distance of some six or seven feet. He alighted upon his head, the fall rendering him unconscious for a space of some minutes.

The team became frightened by the falling of the whiffletrees upon their hind legs, and broke away in a mad flight for several blocks before their capture was effected.

Mr. Blodgett is to-day in an improved condition and is able to be around the house. His many friends hope for an early recovery.

Triplets and Quadruples.

Mrs. Gregan, living at Cowra, New South Wales, has given birth to quadruples—three boys and a girl. She had previously borne triplets once and twins twice.

J. SUTCLIFFE & SONS

RATEPAYERS CLIMB STAIRS TO PAY THEIR TAXES

$40,000 Has Passed Over the Counter of the Tax Collector Up to Date—Many of Those Who Pay Their Money Object to Climbing the Stairs—They Also Object to Paying More Money Than They Paid Last Year—The Conundrum, "How is it That With Lower Rate They Pay More Taxes?"

"How is it that my taxes are higher this year than they were last year?" asked a lady at the tax-collector's office this morning. "The papers were telling us that the tax rate had been lowered but still I have to pay more this year than I have ever paid," continued this lady, who was at a loss to understand why she had to pay so much. The complaint of this lady was only one of many which were head at this office during the last few days.

Tax Collector Green has been a very busy man during this last week. To-day is the last Saturday during the term in which, if taxes are paid, the ratepayers get a discount, and as a result there was a constant stream of people, principally ladies, laboriously climbing the stairs to the office to pass in their pink tax bills, and have them returned receipted, in lieu of the necessary amount of coin of the realm being passed through the wicket.

Mr. Green stated to the Examiner at noon to-day that he calculated, that while he could not make a complete statement he had received about $40,000 up to date, but there is considerable of the "long green" to come in yet, and it is expected that Monday will see a couple of pretty busy men at the tax collector's office, in the person of Mr. Green and his assistant, Mr. J. W. Stacey.

The great majority of those who paid their taxes to-day, and in fact every day, are women, who, in the absence of their husbands at work, have to attend to the financial affairs of the home. A goodly number of those who were there to-day had children, either in their arms, or in carriages, and they had to carry the youngsters up the stairs, an operation which none of them relished, and which many rebelled against in none too mild language.

They thought that it was bad enough to have the taxes mount without having to themselves climb a flight of stairs to part with their hard-earned coin, and complaints both loud and long were heard.

Some of those with infants enlisted the services of Mr. C. N. Brown, whose flour and feed establishment is directly under the tax collector's office, to act as nurse while they went upstairs and paid their money, and in a number of cases, the task proved rather more than he had bargained for, since if there were many waiting the lady had to stay some time before her turn come to get an interview with Mr. Green.

ANOTHER SERIES OF NEW FEATURES

Examiner Presents the First in To-day's Issue.

Sherlock Holmes Stories are Supplemented by Other Illustrated Articles.

Ever on the lookout for new features, the Examiner to-day inaugurates what it believes will prove to be one of the most interesting innovations that this paper has presented to its readers for some time.

A few weeks ago the exclusive right to publish the Sherlock Holmes stories in Peterborough, was secured, and there is abundant reason to believe that this series of stories is being heartily appreciated by the Examiner's readers.

To-day another series of illustrated articles is started, and the Examiner is satisfied that its readers will show their appreciation of the interest which this paper shows in presenting to its readers new and entertaining features.

On page 7 the first of this series, "Why the Poor Boy Wins Out," appears, and this will be followed each Saturday by a special article.

HOT WEATHER MAKES RECEIPTS

The Street Railway Business Much Better on Sultry Days.

While a Cold Day or Two Brings Down the Receipts.

That the people do not care to ride on the street cars in cool weather has been evidenced at the counting house of the Peterborough Radial Railway Company during the few days this week, when the thermometer dropped a few points, for during those days the receipts were considerably below the amount they were on the warmer days.

It is noticed that during the very warm days and evenings, the open cars and especially that which makes the round trip are patronized very extensively, the people apparently liking to ride to the parks and to the river's edge. During the hot days of the past few weeks, the conductors' fare boxes told a story each night which was decidedly pleasing to the manager, but recently the daily receipts have been lower, until yesterday, when with the return of warm weather and the influx of the excursionists the number of passengers carried increased again, and the week will pull up pretty well. The weekly band concerts at Jackson Park have been a veritable gold mine to the Company, and as a result the receipts have increased by leaps and bounds. Next week, with the moving picture shows, which have been arranged for, it is expected that the park will be very popular, and that the number of passengers who will be carried there will be large, providing, of course, that the show is of such a nature that the people get any pleasure ion going to see it.

EDWARD LANG WAS THE FORGER

Who Signed W. C. Forman's Name to a Cheque.

Chief Rozel Recieved Word to That Effect To-day.

The Chief has received a letter from Chief Bond, of Port Hope, stating that Edward Lang, who was detected passing a bogus check in that town last week is no other than F. N. Wyllie, who is wanted here on a charge of forgery.

It will be remembered that Wyllie forged F. C. Forman's name to a cheque for $9. The forgery was discovered but the forger escaped and has not been caught until last week, when he was taken in by the Port Hope police and received one year in Central Prison for attempting to pass a bogus cheque.

The letter reads as follows:—

Port Hope, July 25, 1905.

Chief Constable,
Peterborough, Ont.

Dear Sir,—I received a post card from you, dated August 23, 1904, asking me to look out for F. N. Wyllie, charged with forgery.

I wish to inform you that I arrested Wyllie a week ago for passing a bogus check, and he was committed to the Central for one year. He gave his name here as Edward Lang, but I have since learned that his name is Frod. Wyllie.

Yours truly,
Wm. Bond.

A warrant was issued for Wyllie's arrest on August 23rd, 1904, but it has not been executed yet.

FIFTY WENT TO THOUSAND ISLANDS

On the Excursion Which Left Here This Morning.

This morning about fifty persons left Peterborough on the trip arranged by Rev. F. B. Stratton in the interests of the Methodist church of Lindsay. The special train left here at 7.30, and then there were about 100 passengers on board, coming from as far as Mariposa. The train would reach Belleville early this afternoon, and from there a steamer will convey the party to the Thousand Islands where Sunday will be spent.

This is a most delightful trip and those who participated in it are assured of an enjoyable voyage.

MONDAY LAST DAY FOR TAXES

If One Wishes to Get the Two Per Cent. Discount.

Monday will be the last day for paying taxes and getting the 2 per cent. discount. For all who pay half of their taxes before that date a discount of 2 per cent. is allowed but if it is neglected the whole amount will be exacted.

In view of these facts it is to the interest of all who are in debt to the city to "arse up" the money on Monday.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches.

Church Fittings Seized.

The altar, cross, linen, bells and other property of the Anglican church at Collingwood were seized yesterday to satisfy a judgment for $1,800 obtained by a former pastor, Rev. M. H. Kirkby.

Another Railway Accident.

While returning from Lake St. Clair, where she had been attending a church picnic, Mrs. Chris. Stevenson, o. Marsea Township, was thrown from her buggy in crossing the G. T. R. tracks at Stony Point.

Indian Mutiny Veteran.

A veteran of the Indian Mutiny has died at Warley, Essex, at the age of eighty-one, in the person of Mrs. Bolton, who served as an army nurse throughout the mutiny and saw nineteen years' service in India and Africa.

Death in Cement Works.

By a fall from a scaffolding in the oiling room of the Grey and Bruce Cement Works, yesterday, William Minners of Kincardine, was killed. He was oiling the shafting, when he fell and fractured his skull. He was unmarried.

Trestle Work Fell.

By the falling of the trestle work on the construction of the new C. P. R. road, about three miles south of Tottenham, six cars loaded with gravel fell some ten feet and buried beneath the debris four men, three of whom were extricated fatally injured. The fourth was instantly killed.

Steamer Hand Killed.

John McNally, of Prescott, fireman on the steamer Toronto, was killed on the G. T. R. tracks in Kingston, How the accident happened is unknown. Early this morning McNally's remains were found by the side of the track, his head severed from the body. The man was about 25 years of age.

Strange Disappearance.

Early on Wednesday morning of this week, John K. Strachan, son of Thos. Strachan, ex-reeve of Grey, left his home and has not been heard of since. He was a young man of an extremely quiet and retiring disposition. Large searching parties are out scouring the entire neighbourhood.

A Sudden Death.

With a physician in the act of pronouncing him physically perfect, after a rigid government annual examination, George W. Hennessy, for seven years keeper of the United States life-saving station at Spring Lake, N. J., dropped dead in New York yesterday of hemorrhage of the lungs.

Doukhobors Law-Abiding.

A story that a harem was kept by the Doukhobor head man at Yorkton settlement is denied by Mr. Sam Grigg in an interview with the London Advertiser. Mr. Grigg has timber interests on the Pelly River, and recently visited the settlement referred to. He says the Douks there are industrious, honest and law-abiding.

Rescued Portuguese Sailor.

The barque Normandvik arrived from sea, having on board a sailor rescued in a dory on the banks of Newfoundland. The man says he is from Lisbon, but cannot make himself any further understood. The dory bore the name Rasa Jupiter and the castaway is supposed to have belonged to a Portuguese fishing vessel and had become separated from his comrades by fog shutting down whilst he was handline fishing.

An Elopment.

Miss Florence D. Wetherill, a society girl of Chester, Pa., the beautiful daughter of Richard Wetherill, a millionaire manufacturer, eloped yesterday with Bennett Young Wilson, of Louisville, Ky., to New York and were married in the Little-Church-Around-the-Corner. The parents of the girl have forgiven the elopers by wire. Wilson is going to start in business for himself in London, Eng.

Mint Hands at Work.

After being idle for about a month nearly all of the two hundred and fifty employees of the United States mint at Philadelphia laid off on account of lack of work, have been called back to fill an order from the Panama Government for 1,000,000 pesos. A peso is equal in value to an American dollar, and has about the same quantity of silver in it. The work, it is expected, will last about three weeks.

Stomach and Liver Troubles.

Mr. Alex. M. Finn, Inkerman, B.B., writes: "I have used Dr. Chase's Kidney-Liver Pills for derangements of the kidneys and liver and stomach troubles, and can certify that they did me a good deal of good. I can heartily recommend them to anyone suffering as I did."

SOME WONDERFUL CURES REPORTED

Peterborough Pilgrims at Ste. Anne de Beaupre Saw Them.

Many Americans Who are Affected Have Been Cured.

Quebec, July 28.—Several miracles are reported from Ste. Anne de Beaupre. Six were wrought upon members of the Boston pilgrims who came here on Sunday last in charge of Rev. Father Saunders, of Ste. Anne Church, Somerville, Mass. Rev. Father Saunders and the three hundred pilgrims under his care reached Quebec from Ste. Anne de Beaupre yesterday. Father Saunders was delighted when seen in this city. He exclaimed: "I am indeed a happy man and have witnessed a sight that is much more wonderful than mere words can relate. I not only can never forget the spectacle of the imposing religous ceremony in the church of Ste. Anne and the solemn devotion of the thousands in attendance, but more wonderful than all were the miracles that it was our great privilege to behold.

Frank O'Neil, of Cambridgeport, suffering from hip trouble, after partaking of the blessed sacrament during the mass, walked away from the hospital, leaving one of his crutches behind him.

"Miss Annie A. Reynolds, of Revere, for years suffering from a deformed hand, was cured.

"Miss O'Reilly, of St. Joseph's Church, Union Square, Somerville, who suffered from acute knee trouble, was cured.

"Miss Edna Stoddard, of Melrose Highlands, who was blind from a cataract on her left eye, was also cured.

"Mrs. James Kane, of Lowell, Mass., afflicted with deafness for nine years, and who recently was told by specialists of Tuft's University and Carney Hospital that she was beyond cure, came with us and now returns cured.

"Miss Adele Poutin, of Sommerville, Mass., suffering from unbearable headaches for years, is also among the number of our party who was cured."

Father Saunders and his three hundred pilgrims will leave this afternoon by special train en route to Boston.

COMPLAINT MADE RE ENTRANCE REPORTS

Why Was Discrimination Made in Regard to Details?

To the Editor of the Examiner:

Dear Sir,—I wish to call the attention of the officials concerned in reporting the results of the Entrance examinations to a very peculiar condition, and what seems to me a very unfair discrimination against certain townships. In the published reports for Norwood, Keene, Havelock, Hall's Bridge and Apsley, the report gave in connection with the names of successful candidates the names of the school sections from which they come. In the case of those who wrote at Lakefield, the names were merely jumbled together, without any reference to the townships or the school sections in these townships from which the candidates come.

Now, Mr. Editor, I wish to point out that this discrimination is very unfair to the Townships of Ennismore and Smith, and the village of Lakefield, the candidates from which, wrote at Lakefield. Not a township or school section was mentioned, and no means afforded of comparing the relative efficiency of the several schools. Parents and teachers have a right to this knowledge as well as the other townships of the County, for they are naturally anxious to know the standing of the pupils who are members of their family or school. I fail to understand why the Inspector made such unfair discrimination. There must be some reason for it, and to my mind it can only be accounted for by indifference or animus in favour of the preferred townships, and I, as well as all others affected as I am, think that the matter should be looked into by the County Council, to whom the Inspector (or whoever is to blame for the discrimination shown) is responsible.

Another thing. I noticed that no number of marks gained by the successful candidates was given, and we do not know, as all concerned would like to know, what candidates obtained the highest number of marks in the County.

Trusting that some satisfactory explanation will be forthcoming for the error, carelessness or intention involved in the cause of my complaint, I am,

Yours truly,
ONE CONCERNED.

NOTE.—All that the Examiner knows in connection with the above is that the reports were printed as supplied, subjected to no change. Space will freely be given to any explanation the above letter may call forth.

GAME COMMISSION MAY NOT SIT HERE

Ottawa a Compromise Point Between Arnprior and Peterborough.

Mr. W. H. Casement a member of the Ontario Game Commission, was in the city this morning. He does not think another sitting is probable before the end of the summer holidays. He does not think there will be any session in Peterborough. He put in a claim for a session in Peterborough, and another commissioner one for Arnprior. As a compromise Ottawa was selected. It is probable that at the session at Windsor evidence may be taken as to the manner in which game preserves affect, especially, the duck shooting interests of the general public.

BURIED WITH HIGH HONORS

Remains of Late Major Walsh Buried At Brockville.

WHOLE TOWN PAYS TRIBUTE

Body of the Distinguished Dead on a Gun Carriage Draped With the Union Jack Followed to the Grave by a Notable Civil and Military Company — Impressive Services Held — "The Last Call."

Brockville, July 29.—The military funeral of the late Major Walsh yesterday afternoon was a most impressive spectacle, augmented as it was by an immense number of visitors from a distance and local sympathizers. The whole town turned out en masse to pay tribute to the memory of the dead soldier, and during the passing of the cortege through the main street to the cemetery business places were closed and flags flew at half-mast. The streets were crowded with people.

The 41st Regiment, Brockville Rifles, under command of Major Fisher, furnished the firing party, about 200 strong. In the cortege were representatives of the local civic bodies, South African and Fenian Raid veterans, the 4th Hussars, the 56th Regiment, Lisgar Rifles, and the Gananoque Field Battery. Col. Gordon, commander of the eastern district, and staff, were also present.

The body of Major Walsh, with the casket draped in a Union Jack, was borne on a gun carriage procurred from B Battery, Kingston, and to the music of "The Dead March," the 41st Regiment Band led the procession.

Rev. Norman MacLeod, Minister of the First Church, conducted the simple burial service of the Presbyterian Church, both at the house and grave, assisted by Rev. R. Strachan, chaplain of the 41st Regiment. The firing party discharged three rounds over the grave and the bugle sounded "The Last Call."

SULTAN RECOGNIZES GOD.

His Preservation From Bomb Due to Divine Protection.

Constantinople, July 29.—In reply to a Mussulman address of loyalty and gratification at his escape from assassination by the explosion of a bomb on Friday last, the Sultan says that the protection of divine Providence on that occasion was God's reward to him for his constant endeavors to promote the peace and happiness of his people.

The only feature of the incident which deeply affected him was the fact that so many of his dear, devoted soldiers and well-beloved people were killed or injured.

May Be Tested Again.

Bucharest, Roumania, July 29.—A plot against the life of the Sultan of Turkey has been discovered by the authorities of Kustenji. A search of houses occupied by Turks disclosed large quantities of revolvers, rifles, cartridges and compromising documents. The Roumanian officials subsequently discovered cases of rifles hidden in the hold of a Turkish steamer now at Kustenji.

ABDUCTION CHARGED.

Wheatley Man Used Bad Judgment and Is Jailed.

Wheatley, July 29.—On Wednesday afternoon Paul Laguee, porter in the Commercial Motel here, hired a rig, and Miss Fitch, a waitress in the same hotel, told her mother they were going to Leamington to see a ball game.

But, on driving away, instead of going west towards Leamington, they went north in the direction of Tilbury. This aroused suspicion and the girl's parents were notified. Constable Wellwood of Tilbury was 'phoned a description of them, and a few minutes after their arrival they were taken into custody and later on brought back to Wheatley.

Laguee was taken to Sandwich to await further trial. He is about 28 years of age, while the girl is only 15.

Hon. Edward Blake Home.

Quebec, July 29.—Hon. Edward Blake, M. P., arrived here yesterday morning on board the Dominion Line steamer Canada from England. He looked in good health, and is in excellent spirits. He said he intended leaving directly for Metis to spend a holiday before visiting Toronto.

Appointed to R. M. C.

London, July 28.—(C. A. P.)—Capt. De Bury of the Royal Garrison Artillery, garrison adjutant at the Windward Isles, has been appointed professor of artillery in the Royal Military College of Canada.

A Run-down Woman Cured by Dr. Hugo's Health Tablets for Women.

Mrs. W. H. Graham, of Halifax, N.S., writing to us about the great benefit she received from Dr. Hugo's Health Tablets for Women, says:

"If I had gone to Paris and consulted Dr. Hugo himself I could not have got more benefit that I did from his tablets."

And Mrs. Graham was right, for according to her statement, she was suffering from a run-down condition brought on by overwork. These tablets are just what Dr. Hugo would have given her.

Women are realizing more and more the value of a prescription of this great specialist, sold now in tablet form.

These tablets put within their reach the skill and experience that come from Dr. Hugo's forty years' treatment of diseases of women, and the latest and best in medical research and discovery.

They make healthy women. Improvement is noticed the first week. 50c. at dealers or by mail. E. N. Robinson & Co., Coldcook, Que.

THE CHURCHES

ST. PETER'S CATHEDRAL. — At St. Peter's Cathedral there will be three masses celebrated — at 8.00 a. m., low mass; children's mass at 9.15 a.m.; high mass at 10.30; Vespers at 7.00 p. m., with sermon.

HARPER BLOCK BEING IMPROVED

A Charlotte Street Business Block is Receiving Some Attraction.

The Harper block on Charlotte street has been freshly painted and considerably improved by several coats of paint in pleasing colours. The windows, doors and all wood work present a bright and attractive appearance. Mr. Godfrey O'Brien, grocer, who occupies one of the stores, is having the interior of his premises grained and varnished, and otherwise improved. This store is noted for its busy appearance and its up-to-date stock and service. Mr. O'Brien is bound to keep up with the progress and policy of our city merchants.

NOTICE TO CREDITORS

In the matter of the estate of William Jobe, of the City of Peterborough, in the County of Peterborough, Candy Maker, Insolvent.

Notice is hereby given that the said William Jobe carrying on business as a Candy Maker at the said City of Peterborough, has made an Assignment under R.S.O. 1897, chapter 147, of all his estate, credits and effects, to Ozias de Laplante, of the City of Peterborough, in the County of Peterborough, for the general benefit of his creditors.

A meeting of creditors will be held at the Office of the said Assignee, in the City of Peterborough, on Monday, the seventh day of August, 1905, at the hour of three o'clock in the afternoon, to receive a statement of affairs, appoint inspectors, and for the ordering of the affairs of the estate generally. Creditors are requested to file their claims with the Assignee, with proofs and particulars as required by the said Act, on or before the day of such meeting.

And notice is further given that after the seventh day of August, 1905, the Assignee will proceed to distribute the assets of the estate amongst the parties entitled thereto, having regard only to the claims of which notice shall then have been given, and that he will not be liable for the assets or any part thereof so distributed, to any person or persons of whose claims he shall not then have had notice.

97 Yonge Street, TORONTO.

IN the Imperial Oxford we have not only given to the women of Canada the most perfect baking and roasting range but we have also produced the most economical.

The oven of the ordinary range is raised to a baking temperature by the direct heat of the fire on the side of the oven. To keep that oven at a sufficiently high temperature to bake or roast by, you must be continually poking the fire and adding fuel to it.

As the oven of the Imperial Oxford Range is heated by our patented Diffusive Flue, the temperature of the oven remains steady until the baking is done, without the necessity of touching or adding fuel to the fire.

Imperial Oxford Range

This fact is easily demonstrated. If, when an Imperial Oxford is going, you were to stop the inlet of this flue in the bottom of the range you would find by the thermometer that the oven was getting colder, and that to keep it at a baking temperature you would have to keep poking the fire and adding more coal just as with an ordinary range.

If your dealer doesn't handle the Imperial Oxford, write to us for catalogue and information as to where you can see it. 20

Former Member of Collegiate Institute Staff Bereaved.

Deceased Was Inspector of Public Schools—A Prominent Gentleman.

The many friends in Peterborough of Dr. James McCaig, formerly a member of the teaching staff of the Collegiate Institute, now living in the Northwest, will learn with regret of the death of his father. The following despatch from Collingwood gives the details:

Collingwood, Ont., July 28.—Mr. Donald McCaig, Inspector of Public Schools, died at his residence here this morning at five o'clock after only a few days' illness.

The deceased was 74 years of age. He was born in Cape Breton, but with his family came to Guelph when quite young. For many years he conducted the Rockwood Academy, with the late J. Milligan. He retired to his farm in Puslinch for some time, and twenty years ago he accepted the position of Inspector of Public Schools for the district of Algoma, which he held until a couple of months ago. During this term and up to the time of his death, he was also Inspector of the Public Schools of this town. He leaves a widow and family. One son, Dr. James McCaig, is Superintendent of Education for the Edmonton district; another, Dr. A. S. McCaig, practices at Sault Ste. Marie; and another, Spencer, is in the Customs office at Lethbridge. The daughters are unmarried.

SUMMER COMPLAINTS.

The very best medicine in the world for summer complaints, such as cholera infantum, diarrhoea and dysentry is Baby's Own Tablets. During the hot weather months no wise mother should be without a box of Tablets in the house. These troubles come suddenly and unless promptly checked too often prove fatal. Baby's Own Tablets act almost like magic in these cases, and speedily remove all cause of danger. Mrs. Alex. Poulin, Caraquet, N.B., says: "I think Baby's Own Tablets the best medicine in the world for children. I have used them for cholera infantum, teething and other troubles, and it is astonishing how quickly they relieve and cure these ailments." An occasional dose of Baby's Own Tablets will keep the stomach and bowels right and prevent summer complaints. No mother need be afraid of this medicine—it is guaranteed to contain no opiate or harmful drug. It always does good—it cannot possibly do harm. Be sure that every box bears the full name Baby's Own Tablets and picture of four-leaf clover on the wrapper around the box. Anything else is a dangerous substitute. Sold by all druggists or sent by mail at 25 cents a box by writing the Dr. Williams' Medicine Company, Brockville, Ont.

ILLUSION SAVED THIS GIRL'S LIFE

Was Choking and Cured By a Pretended Operation.

A Most Remarkable Case Reported From Cincinnati, Ohio.

Cincinnati, July 27.—The life of Clara Hoffman, a patient at City Hospital, was saved to-day through either the verdict of charlatanism or the most scientific application of suggestive therapeutics. Miss Hoffman came to the hospital choking to death, apparently, with an imaginary bone in her throat. Her condition, especially that of her nerves, was pitiable and most dangerous. No persuasion could convince her that she had not swallowed a small chicken bone, which had lodged in her throat.

Dr. Langdon immediately secured a bone of the sort the girl described and by a feat of sleight-of-hand he pretended to withdraw it from her throat. In the next moment she was entirely cured and left the hospital happy and laughing. Dr. Langdon is certain that the girl would have died.

A POINTER WORTH HAVING.

The merits of Ozone are well known, but in buying it one must be sure to get the purest form. Also, Ozone should always be taken along with "Celery King" the famous tonic laxative. The purest form in which Ozone is put up is "Solution of Ozone" (the coupon kind) and each bottle of this brand contains a coupon entitling you to a package of "Celery King" free.

No other firm in the world can give "Celery King" with Ozone. We give because our Ozone thus brings the highest results. In addition, you get just about twice as much "Solution of Ozone" for your money as of other kinds, and you also get it in the purest and most concentrated form. You also get "Celery King" free, instead of having to buy it which you would need to do in order to have full benefit from the use of Ozone.

Your druggist should have "Solution of Ozone" (the coupon kind.) If not, write to the Public Drug Co. Bridgeburg. Sold by W. B. Warne.

TORONTO COLLEGE OF MUSIC PUPILS

Many Bright Peterborough Students Who Were Successful.

A Complete List of Those Who Took Honours and Passed.

Peterborough students in the Toronto College of Music have done well in their examinations, and the local musicians have brought credit upon their instructors. To-day's Globe contains a list of the pupils who were successful in the recent examinations. Those who are from Peterborough are:—

Third Piano.—Pass—Estelle Kelly, Peterborough.

Second Piano.—First-class Honours—Edith Aylmer, Peterborough; Mary Meldrum, Branksome Hall, Toronto.

Second-class honours.—Nora Shevlin, St. Mary's Convent, Peterborough; Janet Quinn, Peterborough; Beatrice Flynn, St. Mary's Convent, Peterborough.

First Piano.—First-class honours—Gladys Seward, Peterborough; Angie Simons, Conservatory of Music, Peterborough; Gwendoline Hall, Peterborough.

School-class honours.—Evelyn Morrow, Conservatory of Music, Peterborough; Jean Hall, Peterborough; Lottie Hatrick, St. Mary's Convent, Peterborough; Agnes Hall, Conservatory of Music, Peterborough; Lilian Fife, St. Mary's Convent, Peterborough.

Pass—Edith Aylmer, Peterborough; Lizzie Smith, Peterborough; Geraldine Rudkins, St. Mary's Convent, Peterborough.

Primary Piano.—First-class honours—Bernice Giroux, St. Mary's Convent, Peterborough; Marion Gorman, St. Mary's Convent, Peterborough; Ruby Fitzgerald, Peterborough; Gladys Roy, Cons. of Music, Peterborough.

Second-class honours—Lizzie Morrow, Cons. of Music, Peterborough; Jessie Titterson, Peterborough; Clara Collins, Cons. of Music, Peterborough; Angela Devlin, Peterborough; Kathleen O'Brien, St. Mary's Convent, Peterborough; Alice Neil, Peterborough.

Pass—Harold Brown, Peterborough.

Second Year Violin.—Second-class honours—Julia Choate, Cons. of Music, Peterborough.

First Year Violin—Ethel Girvin, Cons. of Music, Peterborough.

Senior Rudiments—Emily Walkoff, Peterborough; Janet Quinn, Peterborough; Lillian Fife, St. Mary's Convent, Peterborough.

INSTITUTE QUESTION AND TRADES COUNCIL

No Expression of Regret That the By-law was Defeated.

To the Editor of the Examiner:

Dear Sir,—I wish to make a correction in an article which appeared in your paper on Thursday night in reference to the action of the Trades and Labour Council on the question of the Collegiate Institute by-laws. Your paper reported that the "defeat of the Institute by-law was to be deplored," was expressed, which is not correct.

CHAS. P. MURTY.

Peterborough, July 29, 1905.

In reference to the above letter, the Examiner received reports of the meeting of the Trades Council from two different sources, which fact probably accounts for the slight discrepancy between the report and what actually took place.

FAKE HAIR PREPARATIONS

Do Hair No Good, But Often Cause It to Fall Out.

Many hair preparations are "fake" because they are merely scalp irritants. They often cause a dryness, making the hair brittle, and, finally, lifeless. Dandruff is the cause of all trouble with hair. It is a germ disease. The germ makes cuticle scales as it digs to the root of the hair, where it destroys the hair's vitality, causing it to fall out. To cure dandruff, the germ must be killed. "Destroy the cause, you remove the effect." Newbro's Herpicide is the only hair preparation that kills dandruff germ, thereby leaving the hair to grow luxuriantly. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, special agents.

PETERBORO' BOY RESISTED ARREST

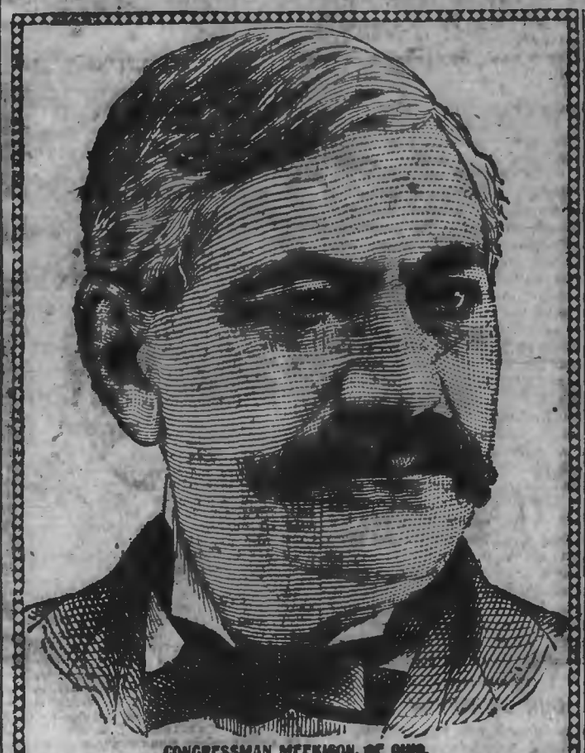
And Got Into Trouble in Belleville on the Head of It.

Was Fined $5. or a Month in Jail, But Sentence Was Suspended on Condition That He Leave City.

A young man, hailing from Peterborough, who has been in the city for some time, got drunk yesterday and along in the afternoon he started in to whip everybody in a local hotel, says the Belleville Ontario. He had off his hat, coat and vest when Constable Hayes appeared on the scene, and there was a lively struggle for a few minutes. The prisoner is not very old, but he is big and strong for his age and he attempted to resist. His resistance did not last long, because when Pat attempts to hand a prisoner he generally succeeds. He was taken to the cells and locked up, and this morning he was in a repentant mood and promised to leave the city if allowed to go. As he was pretty well used up the Magistrate imposed a fine of $5 or a month in jail. The sentence was suspended on condition that he leave the city.

FOR THIRTY YEARS

Congressman Meekison Suffered With Catarrh—Read His Endorsement of Pe-ru-na.



CONGRESSMAN MEEKISON, OF OHIO.

Hon. David Meekison is well known, not only in his own State but throughout America. He began his political career by serving four consecutive terms as Mayor of the town in which he lives, during which time he became widely known as the founder of the Meekison Bank of Napoleon, Ohio. He was elected to the Fifty-fifth Congress by a very large majority, and is the acknowledged leader of his party in his section of the State.

Only one flaw marred the otherwise complete success of this rising statesman. Catarrh with its insidious approach and tenacious grasp, was his only uncontquered foe. For thirty years he waged unsuccessful warfare against this personal enemy. At last Peruna came to the rescue, and he dictated the following letter to Dr. Hartman as the result:

"I have used several bottles of Peruna and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison, ex-Member of Congress.

Over fifty members of Congress endorse Peruna as a catarrhal tonic. Men of prominence the world over praise Peruna.

A TONIC is a medicine that gives tone to some part of the system. There are different kinds of tonics, but the tonic most needed in this country, where catarrh is so prevalent, is a tonic that operates on the mucous membranes.

Peruna is a tonic to the mucous membranes of the whole body. It gives tone to the capillary circulation which constitutes these delicate membranes.

Peruna is a specific in its operation upon the mucous membrane. It is a tonic that strikes at the root of all catarrhal affections. It gives tone to the minute blood vessels and the terminal nerve fibres. Catarrh cannot exist long where Peruna is used intelligently. Peruna seeks out catarrh in all the hidden parts of the body.

A. M. Ikerd, an employe of the C. B. & Q. R. R., West Burlington, Ia., writes:

"I had catarrh of the stomach and small intestines for a number of years. I went to a number of doctors and got no relief. Finally one of my doctors sent me to Chicago and I met the same fate. They said they could do nothing for me, that I had cancer of the stomach and there was no cure. I almost thought the same, for my breath was something awful. I could hardly stand it, it was so offensive. I could not eat anything without great misery, and I gradually grew worse.

"Finally I got one of your books, and concluded I would try Peruna, and thank God, I found a relief and a cure for that dreadful disease. I took five bottles of Peruna and two of Manalin, and I now feel like a new man. There is nothing better than Peruna, and I keep a bottle in my house all the time."—A. M. Ikerd.

Catarrh of the stomach is usually called dyspepsia. Catarrhal dyspepsia cannot be cured by pepsin powders or any other temporary relief. The only cure for real dyspepsia is a removal of the catarrh from the mucous membrane of the stomach. This Peruna will do. This Peruna has done thousands and thousands of times.

Congressman Botkin, of Kansas, was cured of catarrh of the stomach of many years' standing. Hundreds of other cases have been reported to us through unsolicited testimonials. Peruna is the only internal systemic remedy for catarrh yet devised. Every one afflicted with catarrh in the slightest degree ought to take a course of Peruna.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

ADVANCED PRICES ON THE MARKET

There Was a Good Showing But the Demand was Greater.

The attendance on the market is steadily increasing each week, and in spite of the impending rain, the size of the market this morning was greater than ever. There was a large quantity of garden products, and on the inside the quantity of dairy products offered was larger than ever. But the demand was equally good and good prices were asked. Butter was selling at 22 cents and eggs at 18 cents, being an advance of two cents on each product over last week.

There were also some fowl in evidence, and spring chickens sold at 75 cents, and last year's sold up to $1.00.

On the square there was also a good attendance, and a large quantity of garden products were disposed of. There were no old potatoes brought in, and new ones sold generally at 30 cents per peck, although some were sold at 25 cents.

There was a considerable quantity of raspberries at 11 and 12 cents per box or $1.00 per pail. Currants were also brought in, but the quantity was small and the price high.

Peterborough's market is the best in this section of the Province, and is still on the increase.

Chamberlain's
COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

PRICE, 25 CENTS.

Wells Cleaned
in a thoroughly satisfactory manner and guaranteed free from impurities, etc.

UNION LABEL

SATURDAY, JULY 29, 1905.

THE GROWING TIME.

The growing time has been with us for nearly ten years past and in in some respects it is more in evidence now than at any time since 1896. The latest returns issued by the Customs Department show that for the year ending last month the total trade of Canada has increased by about a quarter of a million of dollars. This trade having doubled since 1896. While the general trade of the country has increased it is a pleasure to be able to point out that Peterborough's share of the increase has been far in excess of the general betterment. The Customs receipts—a pretty reliable barometer of trade activity—were in June 1905, about $4,000 in excess of the total collections for the whole twelve months of the year 1895.

THE WHITNEY GUILLOTINE.

For the first six months the heads have been rolling into the basket almost as regularly and as rapidly as the heads of the aristocrats did in Paris in the merry day of the French Revolution. License Commissioners and License Inspectors who were guilty of the unspeakable crime of being Grits, were lopped off mercilessly, and a great multitude of other officials had to walk the plank, all to be replaced by deserving Conservatives. The Whitney Government in this matter were quite within their rights, and if they think such a course good policy, Liberals have no reason to complain any more than Conservatives would have in case the Dominion Government should apply the evil principle of the spoils system to Conservatives holding office since the time, ten years ago almost, when the Liberal Governments came into power at Ottawa.

Mr. Whitney has sharpened his axe again and is now to wipe out the whole commission of Justices of the Peace. Now, the office of Justice of the Peace is not a very vigourous money-maker, but it carries a certain degree of dignity and honour, and the wholesale wiping out of the present commission, to satisfy the thirst of Conservatives for the mere honour of the position shows a pleasing variation from the sordid greed of mere material graft represented by the pecuniary rewards of office. Fortunately pound-keepers and fence viewers are not within the jurisdiction of the Whitney Government, or their heads might be in danger.

THE SET UPON AN M. P.

The recent increase of sessional indemnity of members of Parliament, has created considerable comment and provoked considerable adverse criticism. There seems, however, to be two sides to the question and the St. Thomas Journal has the following which implies that the people who complain of the undue amount of indemnity are indirectly responsible for it. It says:—

"The trouble with the average Canadian elector is that he imagines the member of Parliament should be 'touched' for five or ten dollars for every sporting organization, picnic, new church; in fact, should be a contributor to everything. Many a man who has entered public life has been ruined by the People with the Begging Cry. We know of one man who sat for a western constituency for four years and in that time used all his indemnity and a mortgage on all his property in paying election expenses and meeting the demands of electors for gifts—simply bribes—for this thing and that. The People should not abuse the Men in Parliament for the increase, but blame the People. No M. P. should be expected to join athletic clubs, contribute to all the churches, all the picnics and all the other things where money is demanded, any more than other people."

The spirit of the above contention seems to be just. Between two classes of the electors the average member of parliament reposes on no bed of roses. One class lives up to the theory that he does not deserve to sit in parliament unless he pays soundly for the privilege of being voted for. After his election the second class operates. The member's pocket book is supposed to be always "on the latch"—to be open to every appeal from the claims of the Union Sunday School library in the little red school house to the building fund of a big church in Centre-town. The area of the good member's church affiliations widens with all prevading inclusiveness. He no longer belongs—in relation to his pocket book—to the church of his fathers, but every church organization and religious ism "cinches" its claim upon him. At the risk of his popularity at present, and, incidentally of votes in the future, he refuses to head every charity subscription list. In a word he is in a perpetual church bazaar—with his hand everlastingly in his pocket except when "forking over" for a bran-ted pincushion or paying for a throw on a tow-haired doll dressed by the wealthiest old maid in the congregation. From the day of his nomination to his election, from the day of his election to the day of his death, physical or political, the member of parliament is perpetually called upon to deal out bribes—not perhaps, according to the interpretation of the election law but virtually as much a bribe as the $2 bill slipped into John Graft's wife's hand on the evening before the polling day. If a member of parliament meets all the demands, made in the ways indicated, or others, he will not only get rid of his sessional indemnity if it were three thousand a session as well as a field or two of his farm, or a big slice of his business capital. All these reasons, however, may not justify an increased indemnity, but it excuses a member's willingness to accept it, in the faint hope of getting even with the multitudinous forms of "grafts" which assail him from his political cradle to his political grave.

OUR OWN PROVINCE.

A gentleman who has just returned from a journey through the United States to the western coast, says that he is more convinced than by a similar tour made through the United States by a different route, that the Province of Ontario is far superior as a place of residence to any region he visited. In regard to beauty, comfort and healthfulness of climate, beauty and variety of landscape scenery, and general appearance and thrift of the farmers of the province no comparison can be made that is not very largely to the advantage of Ontario. The climate of California is beautiful, the soil very productive and wild flowers bloom with indescribable profusion, but there is complete lack of the comforting and restful greenness of the landscape, even in the towns, there being no green sward as we have in Peterborough. The agreeable nature of the climate is even objectionable because it becomes monotonous and soon palls upon the visitor or dweller. The air has not the bracing vigour of that of Ontario, and one sees in very few of the States, the counterpart of beautiful rural scenery of Ontario, with its rolling meadows, comfortable farmsteads, and beautiful clumps of tree foliage which impart such a charming variety to the landscape. We have much to be proud of and thankful for in this favoured province, which can be regarded and cherished generally speaking, as one of the best countries in the world, where there is the most general distribution of intelligence, culture, comfort and competence, not to speak of the infinite superiority of our political institutions and social and moral elements.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be excluded.

To the Editor of the Examiner:

Sir,—There are many vacant pieces of property in Peterborough that are eye-sores in good localities, and cause strangers to wonder why a people who, as individuals, keep their lawns and residences in excellent order, permit this carelessness to exist.

Surely the owners of these vacant lots should be compelled to keep them in a tidy condition, and our aldermen should find a way to do it. Many of these lots are filled with burdock, dandelion and noxious weeds, which spread and people living nearby are kept constantly fighting against invasion. The speculative holder of vacant land should not be permitted to defeat the purpose of all residents along a street to make the surroundings tidy and attractive.

Yours truly,
TASTE.

To the Editor of the Examiner:

Dear Sir,—Though I am a stranger in your city, I take the liberty of asking whether or not your city engineer is cross-eyed. I have gone over your otherwise beautiful city and have noticed that some of your pavements are run at wonderful angles of crookedness both as to line and level. If your city engineer is cross-eyed he should use a cross-eyed transit so that one error of vision would correct the other.

Yours etc,
TOURIST.

Dear Mr. Editor.—When neighbor Hughes comes home from the West he will take a fit when he sees how his pet little park, corner of Park and Charlotte, has been neglected in his absence. The grass has been allowed to grow into hay, which has been cut with a scythe and now lies bleaching on the ground which has been burnt by the sun to a beautiful brown, and some of the young elms are dying. This is the only park in the South Ward and why do the town authorities so neglect it?

Yours inquiringly,
NEIGHBOUR.

Editor Post Card Column:—

Editor Dear Sir,—I noticed in your paper last night that there was less sickness during July of this year than existed last year in the same month. This statement following that to the effect that the doctors were increasing their charges has suggested to me that possibly that increasing is responsible for the decreased sickness. Perhaps people can't afford to be ill now.

HALE AND HEARTY.

Post Card Editor:

I was at the G.T.R. station this morning and saw about half a hundred persons from this city and twice as many from other places, board the the train for an excursion arranged by a Methodist Church, continuing Saturday morning till Monday night. Did the persons who arranged this excursion, do so because the Lord's Day Act has been declared ultra vires, or was it because the people of this generation have decided that the Ten Commandments are ultra vires.

INQUIRER.

Dear Mr. Editor,—Since our City fathers have made the taxes climb, they have made the taxpayers climb steep and high stares to the tax-collector's office. This is adding insult to outrage. Women have to come and pay the taxes while their husbands toil and some have to bring their baby carriages with them, and as they can't take them up the city ladder they have to leave them in charge of Mr. Brown whose business establishment is there. Now I know the care of these pro. tem. motherless kids is a pleasure to Mr. Brown, but as he is a conscientious gentleman and will discharge any trust he assumes faithfully, a large draft is made upon his time and the work is more onerous in view of his limited experience. Therefore I think the city should make some compensation.

Yours sincerely,
TAX-PAYING MOTHER.

Editor of the Examiner:

Last year you delighted your numerous readers with your excellently conducted column termed "Generally Speaking," which discussed topics of interest as well as of great instructiveness. Why should this column not be revived again?

Yours truly,
CITIZEN.

MORE STORIES OF MITCHELL'S WORK

The Rev. F. J. Scott Receives Letter From a Lachine Methodist Minister.

He Pursued the Same Methods There as in This City.

Evidence is accumulating against Thomas Mitchell, who has been sentenced to the County Jail on a charge of obtaining money under false pretences. Rev. F J. Scott, pastor of the Murray street Baptist church, who was the one to become suspicious of his methods here, after he had helped him, has received a letter from Rev. Mr. Williamson, a Methodist minister of Lachine, Quebec, who writes that a man giving the same name operated in the same way in that town. He came to Mr. Williamson's, representing that he was a member of Rev. C. O. Johnstone's church, Toronto, that he had been sick in the hospital at Kingston, and that he was in need of money with which to get his trunk from the express office. His appeal was successful, and Mrs Williamson gave him the money asked for.

It appears, therefore, that the man has a record for fraud which is not an enviable one, and the sentence which was imposed on him was a very light one in view of the fact that he is doubtless an old hand at the business, which he practiced so successfully in this city. This may have explained why Mitchell was so willing to plead guilty, and take his medicine, instead of undergoing a trial later, in which event his past misdeeds would doubtless have been recalled.

TRIO OF 'CYCLISTS EXCITING "STUNT"

One Member Thrown Violently to the Ground.

Accident Occurred on Ride in From Chemong This Morning—No Serious Results.

A "spill" which would have been amusing had it not been for the imminent peril of the participants occurred this morning as Messrs. Fred. Roy, "Doc" Shaw and Art. Weekes were wheeling in to the city from their camp at Chemong.

The three 'cyclists were proceeding at a somewhat strenuous clip, and when descending the hill near the residence of Mr. D. W. Dumble, a most unlooked-for event occurred. Shaw was in the lead by a few feet, when the rim of the rear wheel of his machine collapsed, precipitating him with great force over the handle bars to the ground. Mr. Roy, who was close behind, saved himself by a narrow margin from the wreck by a quick application of the coaster-brake, while Mr. Weekes, fortunately, was at a sufficient distance to avert a collision.

The only injury occasioned by the occurrence was a rather severe bump upon the shoulder, received by Mr. Shaw, whose wheel was also considerably shattered.

COMPLETES NINE YEARS AS PASTOR

Rev. J. G. Potter Has Been in St. Andrew's That Length of Time.

On August 1st. 1896, He Entered Upon His Pastorate.

On Tuesday, Aug. 1st, Rev. J. G. Potter will enter on his 9th year as pastor of St. Andrew's church. He commenced his pastorate on August 1st, 1896, and his nine year term here has been characterized by a successful ministry. During this time he has endeared himself to the

REV. J. G. POTTER,
Who on Tuesday Will Celebrate the 9th Anniversary of His Coming to St. Andrew's.

members of his congregation, and the membership has steadily increased under his ministration.

To-morrow will be the closing Sunday of his nine year term as pastor of that church, and he will leave on Tuesday to spend a month's holidays.

A Monster Separator.

Mr. W. L. Taylor, the enterprising manager of the Frost & Wood Agency, Water street, and general agent for farm machinery, has been successful in selling one of Case's complete steel separators, self-feeder and wind stack. This mammoth piece of machinery is said to be the first of the kind brought into Canada, and was purchased for Messrs. Reid & Wannamaker, of Otonabee. Ever since it arrived in town it has attracted a great deal of attention on account of its monster proportions. It has a 28-inch cylinder and a 50-inch wind case. The traction engine which accompanies it is of an entirely new pattern, and is rated at about 18 horse power. The driving-wheels are 61 inches high with 16-inch rims. This outfit is manufactured in Racine, Wisconsan. It has been on exhibition at the Frost & Wood Agency, Water street, all week, where progressive thresh-men have inspected it. Mr. Taylor has a customer for another of the Case separators in wood.

BEST CONCERT OF THE SEASON

Was Much Appreciated by the Cannington Visitors,

Good Programme Rendered in Victoria Park Last Night.

Although there was some promise of rain last night, it did not deter a good crowd from turning out to hear the regular weekly concert given by the 57th Band.

The time for the departure of the excursion train to Cannington was changed in order to give the visitors time to hear the concert.

Nearly all the visitors took advantage of the opportunity and went to the park, and judging from their expressions of praise they were all delighted with the splendid programme rendered.

The crowd which thronged the park last evening was greater than last week's, which was a record-breaker, and the music given by the band was the best ever.

There were a couple of changes in the programme from the one published, and a "hunting scene" and a paraphrase from a hymn, "Pleasant Are Thy Courts Above," were given by request.

The concert opened with a march, "The American Republic," which was well taken. Two selections, "Hoity Toity," and a medley, "Minstrel Songs," which are always popular, were especially well given and elicited applause from everyone. A waltz, "Under the Rose," was another selection, the stirring air of which delighted the promenaders. The other numbers on the programme were also exceptionally well rendered, and the visitors went away well satisfied, and sorry that they could not hear a few more such entertainments.

A "BEAR" SHOT AT STONY LAKE

Interesting Experience Which Two Young People Met With.

"No-Kix-Go" Club Returns to Pittsburg—Late Personal News From the Lakes.

Mr. Harold Armstrong went down to Peterborough yesterday morning.

Miss Forbes, of Toronto, returned home to-day after spending a pleasant holiday at Glenwood and the Victoria House.

Mr. John Carey and son were at the lakes yesterday looking for a suitable place on which to erect a cottage.

The steam, yacht "Mayflower" carried a large party of fishers from the Victoria House up to Jack's Creek yesterday. The party consisted of Mr. and Mrs. Cramer, Miss Etta Mae and Master Clifford Cramer, Mr. and Mrs. Bonfield and sons, Mr. Payne and sons, all of Cleveland, and the Affelder brothers, Pittsburg. A pleasant day was spent, including a shore dinner, and the party returned with the handsome catch of 41 bass.

Mr. Harry Long went down to the city yesterday.

Dr. Race and party of New York, came up on the handsome yacht "Estelle" to the American Syndicate, where they will spend the summer.

Miss Kutye Tough, Toronto, is the guest of Miss Gouinlock.

The Pittsburg "No Kix Go" Club returned home to-day after a two weeks' outing at the lake. The boys regret very much their departure from the Kawartha Land and express their desire to return again another season.

An exploring party consisting of a Toronto lady and two Pittsburg gentlemen were recently investigating Ferry Lake when they stumbled upon what they concluded to be a young bear. After a vain attempt to capture young brown they succeeded in getting him up a tree and then retreated in search of fire-arms and reinforcements. These, speedily arriving, the bear was easily dispatched by a well aimed shot, and carried home in triumph. It proved to be that species of bear that carries the "tooth-picks." Many snap-shots were taken of the animal so that in future the captors will be better able to distinguish the two.

Mr. and Mrs. Bonfiled and family have left for their home in Cleveland, to-day.

Miss B. Costello has returned from the lakes, after having spent a few days with Miss Young at Juniper Island.

Mr. Knapman came down from the lakes this morning.

A RESOLUTION

Was Passed at the Last Meeting of the Y. M. C. A. Board.

The following resolution was unanimously carried at the last regular meeting of the Board of Directors of the Peterborough Young Men's Christian Association :—

"Resolved that the Board of Directors of this Association place on record their deep regret at the resignation of Mr. Percy K. Holmes, who has been physical Director since September 1st, 1904.

They desire to express their high esteem for him as an all-round man of sterling character and attractive genial personality. His work as Physical Director has been of the most satisfactory nature and he has proved himself the most competent and energetic Director ever employed by the Association.

The Board have great confidence that his future success is assured in the Association movement.

Their prayer is that God may guide and richly bless him in the work of building up men and bringing them into His Kingdom."

Signed on behalf of the Board,—
E. B. EDWARDS,
President.
G. H. WILLIAMSON,
General Secretary.

PERSONAL MENTION

Miss Collins, of London, is home for a visit.

Mr. H. Stinson went to New York this morning.

Mr. Durham Collins went up to the lakes last evening.

Miss Alta Bradd went up to Stony Lake this morning.

Mr. J. H. Larmonth went up to Stony Lake this morning.

Miss Alice Dawson, of Peterborough, is visiting friends in town.....

Mr. Joseph White is spending a holiday with friends in Hastings.

J. W. Latimer of Peterborough, is in town.—Sault Ste. Marie News.

J. W. Bountley and family, Megantic, P.Q., are guests at the Oriental.

Mr. W. Cochrane went up to his cottage, Eagle Mount, Stony Lake, to-day.

Mr. T. E. Bradburn, M.P.P., went up to his cottage, Stony Lake, to-day.

Miss Clara Belleghem returned to-day from a two weeks' visit to Toronto.

Mrs. R. W. Simpson, of Detroit, is visiting her cousin, Miss Tucker, Reid street.

Miss Anna Quigley, Toronto, is the guest of Miss Mona O'Shea for the holidays.

Mr. T. J. Wallace, who is summering at Rice Lake, was in town spending the day.

Mr. and Mrs. R. H. Bradburn are spending a few days with relatives in Lindsay.

Mr. Clement Hancock, of Beaverton, spent a pleasant time in the city yesterday.

Mr. G. Howard Hughes, of Montreal, is visiting at the paternal residence, Park Place.

Miss Jessie Glover and Mr. T. Glover left this morning on a trip to the Thousand Islands.

Miss Minnie Sullivan, Mount Pleasant, Mich., is the guest of her aunt, Mrs. Jas. O'Shea.

Mr. W. Bunyon went up to Mr. Alexander's cottage, Stony Lake, today to spend Sunday.

Mr. Roy Kingsbury left this afternoon to spend a holiday at his home near Belleville.

Mr. R. E. Layfield and Mr. Thomas Barrie went up to the latter's cottage, Stony Lake, to-day.

Miss Greer and Miss B. Connors have gone to spend a visit with friends in Niagara Falls, N. Y.

Miss Kate Graham has recovered sufficiently from her recent illness to return from the Nicholls Hospital.

Miss Edna Nicholls, from Toronto, is visiting her mother Mrs. George Nicholls, Fifth Ward, for a few days.

Mrs. Lewis, Peterborough, is visiting at the home of her brother-in-law, Rev. H. T. Lewis.—The Cobourg World.

Miss Estella Wilson, of Peterborough, is spending a short visit with Miss Beatrice Hutcheson, of Beaverton. Orillia Times.

Messrs. R. J. Fitzsimmons and T. Cooke, of Peterborough, were guests at the Simpson House yesterday.—Lindsay Post.

Masters Michael and Jimmie O'Brien, Gilmour street, have returned home from the pilgrimage to St. Anne de Beaupre.

Mr. W. J. Campbell, of the teaching staff of the Deaf and Dumb Institute, is visiting in Peterborough.—Belleville Ontario.

Mrs. T. Cahill, Gilmour street, went to Hastings to-day where she will spend a few weeks the guest of her daughter, Mrs. English.

Miss Flossie Tinney has been visiting Mr. and Mrs. Nelson, Peterborough, the early part of the week.—Cobourg Sentinel-Star.

Mr. Robert Thompson-Currie, wife and daughter, of Peterborough, and Mr. Reg. Burch, of Toronto, are the guests of Mrs. Thomson-Currie.—Orillia Times.

Miss Jennie Glendening Manilla and Miss Winnie St. John, Toronto, were the guests of Mrs. Wm. Thompson, Stewart street, yesterday.

Mr. Geo. A. Howson, of the Union Bank staff, Norwood, spent a few days at "Cool Bawn," the summer home of Mr. and Mrs. James O'Shea.

Miss Eva Staples, of the East Ward, left for Peterborough yesterday to spend a couple of weeks with her friend, Miss Gertie Pollard.....

Miss Alma McCallum who, with her mother and sisters, is enjoying a delightful stay at their Stony Lake home, Halcyon, was in the city for a visit yesterday.

Mrs. George Brand and Mrs. Wm. Church returned last night from Stony Lake where they have been taking a holiday at the latter's summer home, 'Cedar Brae."

Rev. J. A. Wilson, of Hamilton, who is spending his vacation at Stony Lake will preach in St. Paul's Church on the last Sunday in July and the first Sunday in August.

Rev. J. A. Wilson, B. A., of Hamilton, arrived in town this evening and will preach in St. Paul's and Knox Presbyterian churches, morning and evening respectively.

Mr. Horace Ayers, formerly physical director of the local Y. M. C. A. Association, accompanied by Mr. P. K. Holmes, will leave Boston for a trip to England on Thursday next. The present physical director will leave here on Tuesday.

Miss Marion Elliott and Messrs. Archie Laing, Percy Gilbert, Harry Latimer and Frank Dawson left this afternoon for Rainy Point, to join other young ladies and gentlemen, who under the chaperonage of Mrs. Gilbert are already at the Point, to spend a two weeks' vacation.

Mr. and Mrs. John Leith, of Millbrook; Miss Maria Jones, of Peterborough; Miss Ola Jones, of Manvers; Mr. Frederick Wager, of Cameron; Mr. Edward and Miss Lizzie Lethangue, Mrs. Mitchell, of Ayr; Mr. and Mrs. Brien and family, of Bobcaygeon, were all guests at the home of Mr. and Mrs. W. D. Stinson recently.—Omemee Mirror.

Mrs. H. H. Stevens, of Elgin street, Port Elgin, gave a large "at home" on Wednesday afternoon in honour of her friends, Mrs. Parker and Miss Dawson of Peterborough. The hostess received in a very handsome black costume. Mrs. Parker was wearing a grey striped silk shirt-waist suit and white lace chemisette. Miss Dawson was prettily attired in cream canvas-cloth, silk and lace.—Toronto Star.

CITY NEWS OF TO-DAY

—The Charity Board will meet on Monday night.

—The brick for the new opera house is arriving on the spot.

—Show Case for sale cheap. Apply at the Framery, 2 doors west of post office.

—The baptismal service will not be held as announced to-morrow morning in Mark Street Church.

—To-morrow will be the last Sunday that Rev. F. J. Scott will occupy his pulpit until September.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonel street. 'Phone 199.

—The ordinance of the Lord's Supper will be observed at the evening service in Murray Street Church tomorrow. Reception of new members will also take place.

—We clean, press and do minor repairs to your wardrobe for a trifling fee. Telephone 575, and we will send for and deliver your parcels. "My Valet," George street.

—A handsome new mirror, 17 feet in size, has been installed in Rundle's barber shop by "The Framery." It is placed directly behind the chairs and adds greatly to the brightness of the interior of the shop.

—E. A. Baker, of Heintzman Piano Company will be in Peterborough for the next ten days. Orders for tuning pianos left at Ormond & Walsh's drug store will receive prompt attention. 'Phone 146. 3d23

—Mr. Richard Lillico, of the Gravel Road, reports to the police that a team of bay working horses came to his farm a few days ago. They being taken care of and the owner may have them by applying to Mr. Lillico.

—An electric cradle is a new device which should interest amateur papas whose slumbers are rudely awakened at night and who are forced to sing lullaby airs while they carry infant terrors from room to room in the interests of nocturnal peace.

—Mr. P. K. Holmes will lead the Summer Bible Club to-night. This will be Mr. Holmes' last meeting in connection with his work here, as he severs his connection with the Association on August 1st. All young men are invited to the Club's meeting to-night to hear him.

—The government yacht "King Edward" went north last week to replace old buoys and stake new ones so that there need be no accidents along the line of the Trent Valley waters, which is a step in the right direction towards the development of the same.—Bobcaygeon Independent.

—Negotiations are under way by which the Imperial Lock Company of Toronto and the Fader Company of Orillia will amalgamate and start operations at the Lock works in Orillia, as the company here have a fine plant which has been lying idle for some time owing to legal complications.

—The Trusts and Guarantee Company, Limited, 14 King street west, Toronto, has been appointed administrator of the estate of the late Mrs. Herman Ratstetter, of Niagara, who died in December last, leaving a large estate, divided among her sons and daughters.

—Housekeepers are being greatly encouraged to exhibit the product of their own hands by several special prizes for bread, given by the Central Canada Exhibition Association. The sum of $75 is divided this way. No doubt the good housewives of the Ottawa valley will take advantage of the generosity of the fair directors.

—Last night's Examiner contained an advertisement calling attention to the fact that an envelope containing a sum of money had been lost on the G. T. R. track, and by 8 o'clock the envelope had been returned to this office and this morning the owner got it. The moral of this story is that it pays to take a chance of an Examiner want ad., if one has lost thing.

—"Has your mamma any more like you?" Such was the wording of a melodious song which greeted the ears of the fireside campers down near Crawford's Grove a few evenings ago. The lady soprano who so effectually rendered the inspiriting ballad is requested to pay another visit down the river and repeat the song for the benefit of her numerous musical admirers.

—The Collingwood Bulletin says: "Without warning and without any direct request the rates for telephones in residences in town have been reduced to twenty dollars per year, a reduction of five dollars. The new schedule came into effect on July 4th, and will apply to all renewals thereafter. The change is much appreciated as would be a correspondind decrease in the tariff for business 'phones.'"

—Work on the Bobcaygeon station grounds is being resumed and further improvements will be made. The main line will be extended a few yards and the switch line north of it lengthened. Then a raised roadway is to be made beside the switch line to enable waggons to load on to the cars easily, and a road is to be made from the freight sheds, straight out through the Page lot to Sherwood street.

—There is a growing interest among thinkers and progressive people in such subjects as drugless healing, nature cure, psychic research, practical every-day psychology, auto-suggestion, will-power, memory culture, brain building and allied subjects. Those topics are discussed in the August issue of Suggestion, a journal of the New Psychology for health, happiness and success. The principle articles discuss stability, poise and determination in character building; hygiene; the cause and cure of old age, etc.

"THE DAYLIGHT STORE"

BIG SMASH IN PRICES

We know and the manufacturers know, that it is better to sell clothing at a reduction, and even at a loss, than to pack it away and pay the cost of investment and run the risk of changing fashions. It is for these reasons then that we are selling our

Two-Piece Suits

at such a reduction, and two full wearing months ahead. Prices like this:—

$12.00 Suits for $9.90
$10.00 Suits for $8.90
$8.50 Suits for $6.90

These prices are genuine and are attracting widespread attention.

Our Special Sale

Also continues on our large stock of Men's, Boys' and Children's Regular Suits.

Furnishings at Special Prices

We have Boys' Blouses at 25c, were 50c
Men's Shirts at 49c, were 75c and $1.00
Also several odd sizes at special prices to clear.
We don't mind the loss, we can use the money but not the goods.

QUINLAN GETS SOME BOUQUETS

Port Hope Guide Says He Pitched in Grand Style.

That Game in Oshawa, and How it Happened That Bowmanville Won.

The Port Hope Guide's sporting man was at the game in Oshawa on Thursday, and something on it, he says:—

It was just about 3.46 when the teams gathered around the plate for the toss up. Peterborough won the toss and trotted out on the field. "Mull" Douglas took the box and shot several at Chris Graham at first base and he appeared to be in great form. The big crowd settled away to see a battle royal, but oh, what a slaughter. "Mull" would shoot them up and the Bowmanville men would biff it out and they kept this work up until they had scored four runs and won their game. But that was not all; every man had a wallop at it in the first innings and Freddy Martyn started it off again in the second. Five more Bowmanville men crossed the plate and Mgr. Saunders was kicking himself that he had not made it $500. Peterborough scored one in their half of the first but were blanked in the second.

Quinlan, a lad of about eighteen summers, replaced Douglas in the third and why Peterborough should go to Toronto after a pitcher when that youngster is around is more than we can understand. He shot them over the pan in grand style and had the Bowmanville men guessing all the time. In the seven innings which he pitched Bowmanville only scored 1 run and that was on an error by Pilling. With one out and a splendid chance for a double play Pilling allowed a fly to get away from him and the man scored. The score for the last seven innings was 2-1 in favour of Peterborough and while it was a snappy ball it was not interesting, Bowmanville having secured too big a lead in the first two innings for Peterborough to overcome. And then the Peterborough team were very weak at the bat Pilling being about the only man to hit safely.

The game was not what the people expected and while it suited the Bowmanville people, the majority of the spectators were disappointed.

CLIPPERS WON FROM DUNDAS

Defeated Scots in One of Final Games.

Look Like Champions of Intermediate, O. F. A.

Locust Hill, the last year champions of the Midland League sprang a surprise on the Dundas Scots yesterday by defeating them by 2-0. It looks as if the Clippers will be the champions of the Intermediate series of the O.F.A. A despatch to the Globe from Dundas says:—

The first of the home and home games for the intermediate championship of Ontario was played here tonight between the Locust Hill Clippers and the Dundas Scots. The game was a surprise, ending in a victory for the visitors by two goals to nothing. The first half was very slow, neither team playing good ball, but just five minutes before time E. Maxwell scored for Locust Hill. This ended the scoring in this half. Ends were changed and without intermission the game was started again. Play was a little better in this half, but the local boys did not play their usual game. After fully twenty minutes' play the Clippers scored again on the ball bouncing back off M. Maxwell's face. Dundas tried harder to score now, and about five minutes afterwards Chatland scored for Dundas, but it was not counted on account of a foul, and Locust Hill was given a kick. The game closed with the score still standing 1 to 0. H. W. Brown of Berlin gave complete satisfaction as referee. The line-up was as follows:—

Dundas.—Goal, Jock Fletcher; backs, Schwartz, Hancock; half-backs, Stock, Walker, Jim Fletcher; forwards, Chatland, MacAulay, Reid, Lyons, McCardle.

Locust Hill.—Goal, Bennett; backs, Layman, Spearford; half-backs, Reesor, Robinson, Spearford; forwards, E. Maxwell, N. Reesor, Simpson, W. Maxwell, J. Routly.

BEACHMONT REPLIES TO STRICKLAND

Offers to Swim in a Series of Speed Contests.

The following letter from Mr. Thos. Beachmont appears in to-day's Mail and Empire in reply to Mr. Strickland's letter:

Sporting Editor, Mail and Empire,

Sir,—I see by the Mail and Empire Mr. Strickland has replied to my challenge of the 18th inst. Mr. Strickland's letter reads as if I was disputing his performance and the time he made. In this he is mistaken. His time was good—very good—and I have no reason to believe it was not correct. I want to give him credit and honour for his fine showing. I am merely disputing his claim to the Canadian championship, as all the leading papers have styled him. Mr. Strickland asked why I did not butt in at the time he made the record. Never heard of the event coming off until it was over, or I would have been pleased to accompany him. He invites me to go to Peterborough and try the same distance, under the same conditions, and if I can beat his time he will give me a race from Nassau to Peterborough. Now, if Mr. Strickland, or anyone else, will show me where I would benefit by going to the time and expense of making that swim, I will gladly make the attempt to beat his time, but I am not seeking notoriety—there is nothing in that. Let them make it an object for me and I will endeavour to do the rest; or I will swim Mr. Strickland a series of races of three, five and ten miles, the three races to come off the same week. I would be pleased to get Mr. Strickland's address.

Yours, etc.,
TOM BEACHMONT.

Gananoque, Ont., July 24.

It will be remembered that Mr. Thos. Beachmont challenged Mr. Strickland's right to claim the Canadian long distance swimming record, and proposed that they both swim over a ten-mile course to decide who should claim the honour. Mr. Strickland replied to the challenge and offered to swim with Mr. Beachmont in a speed contest in the Trent between Nassau and the Lift Lock.

The above letter is Mr. Beachmont's reply to Mr. Strickland's letter.

BOWLING-ON-THE-GREEN.

WHY THE POOR BOY WINS OUT

DID it ever strike you — began the married man — that *one* big reason why so many poor boys are winning out all the time is because their mothers are not to be numbered, among those women who, immediately that sons have been given them, start in to raise them up, not in the ways boys should go, but in the way marked out for girls?

One of the cardinal principles of this latter class of mothers is aptly illustrated in the instruction that Mrs. Howard gave her young hopeful when he was to start for the public school for the first time.

"Now, Willie, dear," she began, "I want you to remember that you will undoubtedly meet a lot of bad boys who will want to fight with you. But I hope that I shall never, never live to hear that my pet has been so brutal and unmanly as to hit another boy, no matter what the circumstances.

The Golden Rule.

"If any bad little boy does hit you, do not strike back, if you love your mother, because that would be very, very vulgar indeed, and very disgraceful. But if he will not leave you alone after you have asked him to politely, then tell your teacher, and when you come home, tell mother, and she will see the bad little boy's mother and get her to make him leave my little man alone. Do you understand, Willie, dear?"

Willie nodded: and when a "bad little boy" hit him a sturdy blow on the side of the head the second afternoon of school, by way of finding out what sort of a chap Willie was, Willie said as politely as the sting of the blow would let him, "Please stop." But the bad little boy kept gleefully on, and when Willie, calling to mind the second step for him to take, as per instructions, informed the bad little boy that he was going to tell teacher on him, Willie speedily found himself lying flat on his back under the bad little boy's knees: and he remained there until the other grew weary of pummelling him.

When Willie reached home that afternoon he looked much in need of liberal applications of the contents of the family arnica bottle. But first he had to assure his anxious mother that he had not once offered to strike back. Then he was clasped to her bosom and was told that he had remained steadfast under great provocation, that he was mother's really, truly little man.

How it Worked Out.

In such fashion was Willie received at home whenever he ran afoul the belligerent fists of other boys, with the result that he soon became "scared to death of his own shadder," in the language of the "fellers." He also became a confirmed whiner, and the disgust of his father grew apace; but the latter was held in restraint by his wife, who kept saying in a mollifying tone:

"But, Henry, just think how much more truly noble and manly it is of Willie not to fight, as you would have him, but instead always to remember that we should ever turn the other cheek when we are attacked by our enemies."

Luckily for Willie there came a day when his mother was compelled to go to a distant town to nurse an invalid sister, and no sooner had she taken the train thence than Willie's father took the youngster in hand, with these words:

The Dad's Way.

"See here, young man, don't let me hear you coming home to-night from school blubbering that Johnny Jones or Sammy Smith or some other kid has been jumping on you, and has blackened your eyes and bloodied your nose. You won't get any sympathy now that your mother is away, for your father has no use at all for a boy who hasn't enough sand in him to take his own part and fight back when some boy jumps on him.

Now, what I want you to do is to fight back, and fight back hard and be a man about it. Do you understand?"

Any boy, no matter how much he has been led astray from the masculine viewpoint by the advice of an erring but well-meaning mother, grasps readily such straight, but red-blooded talk, and so it was not long before William Quintard Howard developed a handiness with his fists that proved decidedly surprising and demoralising to some of his former tormentors. In fact he showed such a decided tendency to swing too far the other way in his exuberance over his new found prowess that it became necessary for his father who had been watching his son's fistic career with unconcealed pride to talk further to his son in this fashion.

Some More Advice.

"Young man, I told you not long ago to fight back whenever any of your schoolmates jumped on you. I meant it then, and I mean it now. But I've been noticing lately that you have been going further than I told you to go, and that you are doing a lot of jumping on other boys yourself. Now, let me tell you that that is just as cowardly and unmanly as when a boy fails to take his own part when he is attacked, or is being robbed of his rights. I don't want you to be a sissy or to run away from the other boys, and I'm glad to see that you aren't and don't. But you must not be a bully; I won't stand that, and so do not let me again hear of you jumping on any boy, as you did on the Smith boy yesterday, just for the sake of having a fight. And it makes no difference whether the boy is bigger or smaller than you. Do you understand?"

Again Willie saw a light, so that by the day his mother returned home he was skilled in knowing when and how to take care of himself and had lost all of his old whining habits, which had given place to sturdy masculine ones. The mother noted the change and vaguely wondered about it. But she was not much enlightened as to the cause until at the dinner table Willie triumphantly announced to his father between mouthfuls, that he had "knocked the stuffing out of that big Raymond kid when he jumped on me at school!"

Mrs. Howard promptly all but fainted dead away from the shock. When she had recovered sufficiently she started in to reprove Willie for such ignoble conduct, but she got no further than. "Why, my ——" Then Willie's father broke in with:

No Longer a Coward.

"Willie is no longer a coward. He is a boy. All boys who amount to a hill of beans, fight. They have to fight to get and to keep their rights. You were raising Willie in girl fashion. As a result he was getting licked at school all the time by the other boys, and had developed into an A1 coward by the time you had left for your sister's. Since you've been gone I have tried to raise him as a boy should be raised. And I think that I have succeeded. At least he knows how to take his part, and that's an accomplishment a boy can't learn too early in life; for if he does not learn to take his part among his school fellows he may never fully know how to take his part when he has to dig for himself in the grown up world. He is learning now to give and take in all manliness, and at the same time he is being taught that he who picks a quarrel for the quarrel's sake is as unmanly as he who runs away from a quarrel that is forced upon him. He is going to be continued in such instruction: for he is a boy, and not a girl, and must be trained while he is young, and there is time to play well the part that he will be called upon to play the moment he becomes a man. That part he cannot play well unless he has learned how to take care of himself in all emergencies, without infringing on the rights of others."

And this time Mrs. Howard undergirded, and since then she has been doing her part in rearing Willie in the way a red-blooded boy should go.

The Poor Boys Lead.

Still another way in which not a few mothers manage to give poor boys a great lead over their own darlings is by continuing to dress them as mere babies when they are somewhere between the ages of 3 and 7 or ten, when the man spirit begins to crop out.

The Pierces' only boy is in his sixth year, yet he has hair reaching down below his shoulders, and it is put up on curling kids at night by his fond mother, so that he will look "too cute for words," by day, when, incidentally, he is the butt of the boys in the street by reason of these same artificially prepared locks.

But his hair is not the only thing which has operated to give the youngster a feminine appearance, which is reflected in a decidedly girlish manner. Long since his playmates came into proud possession of clothes cut after the style of their father's, but he still appears in shoes that fasten with straps and buckles, like a girl's: things that look like bloomers serve him for trousers: his blouses are finished with ruffled cuffs and collars; at his neck a flaring bow of ribbon shows, and his hat cannot be distinguished from that which his sister wears. Small wonder that the boys of the neighbourhood unite in saying that "the Pierce kid is a namby-pamby and not a bit like us fellers, and ought to have been a girl."

But Mrs. Pierce, of course, cannot see that she is doing anything ill by her son.

The Curls Must Go.

"Cut off his curls!" she exclaimed to a neighbor who had diplomatically suggested that perhaps it was getting time for such an operation to take place. "Cut off his curles! Why, I don't see how you could suggest such a thing. He looks so cunning with them on, and I'm going to leave them on until he goes to school, and that will be when he is eight, for I don't believe in sending a child to school as early as most people do. And, oh my, I'll be awfully sorry to see the curls go—I know I'll cry—for he does look so cute with them, and it will mean that he is growing up and will soon be leaving me, and I can't bear to think that such a time will ever come.

It's too bad that this Pierce child, for his own good, has not sufficient temerity into his own hands, at least so far as his curls go. Johnny Hempstead's mother persisted in keeping curls on him in spite of his daily pleadings to the contrary, and his disgusted declarations that he was being called a sissy and made fun of by the boys. Finally, growing weary of pleas that availed naught, he said, with a serious tone in his voice, that his mother failed to notice:

"Mother, I'm going to ask you for the last time if you are going to take my curls off now?"

"Why, no, Johnny, how can you think I'd do such a thing when you are still a little boy?" (Johnny was 7 at the time.)

"All right, mother," said Johnny, resignedly; "but you'll be sorry soon."

Sorrow descended upon his mother that night when, in answer to the call for dinner, Johnny turned up from back of the barn with a head which his own hands had wonderfully sheared the obnoxious curls.

Boys Must be Boys.

Needless to say, the shock was great to Johnny's mother, but it awakened in her the comprehension that boys should be treated as boys; and the next day she took the child down town and fitted him out in clothes that delighted his masculine sense of the fitness of things, and no longer caused him to be the mark of his playmates' gibes.

Equally to be pitied with the boy, who is kept in curls and such geegaws long past the baby age is that boy who is not allowed to romp off with animal spirits in company with other youngsters of his age, as the average poor boy is permitted to do, to his decided advantage later on.

Peter Darlow is 6, going on 7, but in all his years it is doubtful if he has ever been permitted by his mother to relieve himself of one wholehearted whoop, or yell "Hoy, fellers!" over the back fence to a group of "kids," conspiring with heads together down the alley a piece. Peter's mother is one of the kind who believes in *repression* for growing boys. She says it is dreadfully vulgar for them to yell and be noisy at play, and that most of the games which boys delight in are destructive to their proper up-bringing. Peter, however, is permitted to play jackstraws, but not in the open, for he has to stay in the house the greater part of the time, so his mother can keep him free from dangers to which he would surely be subjected were he to mix with any of the young Philistines that live all about him.

Peter is Developing.

And Peter! Well, he is naturally developing none of the sturdy qualities that make boys manly and admired, and is daily growing more dependent and effeminate in his ways. And how many Peters there are in the boy world to-day, simply because all mothers do not recognize that a boy has a part to play in the world, as well as a man, and that if he is not permitted to play that part, naturally the chances are heavily against his playing the man's part well when it comes high time for him to do so.

Raise up a boy wholly in the way a boy should go, and not partly in the way a girl should go, and it's a safe guess to make, that the boy's name will not loom up later on among the names in life's book written under the heading, "Failure." The poor boy is almost invariably reared in orthodox fashion, and to this circumstance may be largely credited the fact that in every walk of life the poor boy has won out and is winning out in overwhelming numbers.

QUARTER OF A CENTURY AGO

Interesting Extracts From The Examiner of 25 Years Ago.

The Examiner continues to-day the publication of a series of news items taken from the files of this paper, published in the corresponding week of 1880:

• • • •

In the recent competitive examination between the Fraserville school and the County of Peterborough, the Fraserville school captured 25 out of 50 prizes, winning the general proficiency prize, and several of the first and second prizes in the respective classes.

• • • •

The large saw mill at Lakefield, belonging to Ross & Co., was burned this week. A special train from Peterborough, with the fire brigade and engine, arrived too late to save the mill, but assisted in preventing the fire reaching the lumber piles.

• • • •

The owners of the paper mill in the east ward, Lindsay, have asked permission to cut rice in Rice Lake for making paper pulp. The request is being strenuously opposed, however.

• • • •

The approach of the work on the Grand Junction Railway has brought to our doors the brigade of tramps who invariably follow works of this kind.

• • • •

George Bennett, the assassin of Hon. George Brown, was hanged on the 23rd. He protested his innocence to the last, claiming that the revolver was accidentally discharged.

• • • •

The annual picnic of the Bible Christian Sunday schools, was held at Idyl-Wild, the Golden Eye conveying the happy crowd.

• • • •

"Jemmie" Buchanan, the engineer of the steamer Cruiser, has placed another feather in his cap by his gallant efforts to save life. Last week he rescued Mr. R. C. Strickland's little boy from drowning; this week Dr. Bell's.

Escaped an Operation.

"I had itching piles for six years, and the doctors told me there was no cure for me unless an operation. Dr. Chase's Ointment completely cured me in one week. As that was six months ago, and there has been no return of the old trouble I believe that the cure is a permanent one."—Mr. J. Mawer, Roden, Man.

PUBLIC SCHOOL AND ITS WORK

Mr. Dumble, Answering Mr. Pringle, Says it Should Do Its Own Work.

Why Should Commercial Pupils Have to Pay for What They Should Get Free?

To the Editor of the Examiner:

Sir,—My attention has been called to a letter of Mr. Pringle in last Saturday's Examiner. I thank Mr. Pringle for his corrections. Being on the board he is more familiar with present conditions than I am. Mr. Pringle is very candid and for this I thank him. He admits that for all classes a commercial education is a requisite. The existence of commercial schools such as he so successfully conducts is demonstrative proof of this. Why then should it be necessary to send a pupil to the Collegiate to get this education?

Why should a pupil have to pay collegiate fees to get what the public school law provides for free.

That the Board has considered the matter and contemplated the propriety of making the first form in the collegiate free shows that the right of the people to this commercial education as realized by the Board. Let them have the courage of their convictions.

Mr. Pringle advocates putting all fourth form pupils in a separate school and favours using the Separate School building for this purpose. Does he not thereby admit the exigency of putting both fourth form and a fifth form of the public school in that building? If a fifth form were established it would be found that there would be a great shrinkage in the Collegiate Institute attendance, and as it is a very expensive luxury. What obligation is there on the trustees to try to maintain a big school when a smaller one would answer all our requirements, and save a lot of money?

A few years ago a daughter of the Rev. Alex. Bell, and later a daughter of Mr. Roy, through illness, were unable to take the full Collegiate course, and asked leave to attend some classes of our Collegiate — they were refused a privilege which they could have had at Oxford or Toronto University. An appeal to the Minister of Education proved abortive, and these girls were shut off from the school. Is the law changed, so that a pupil attending the First Form now can select only the commercials, or must he take all the programme or none? If he can select the commercials, then the Collegiate, in so far as that branch of education is concerned, simply doing Public school work, and charging for it. Why not let the Public school do its own work?

Yours,
D. W. DUMBLE.

CROP CONDITIONS IN THE WEST

Mr. J. S. Whetter, of Hartney, Man., Gives The Examiner a Call.

Crops are in Excellent Condition—Little Fear is Felt With Regard to Frost.

Mr. J. S. Whetter, of Cannington, who accompanied the excursion from that place yesterday, paid the Examiner a friendly call yesterday. Mr. Whetter has resided for twelve years at Hartney, Man., having removed there from the Township of Brock, and talked most entertainingly regarding the present conditions in the West. He left Hartney on June 22, and has taken up permanent residence in Cannington, having retired from active life.

Mr. Whetter is a stockholder in the Canadian Cordage Co., and states that the product of this company is giving excellent satisfaction, though the first output was inclined to become knotted and did not run smoothly.

Speaking with reference to the crop prospects, Mr. Whetter stated that he regarded them as the best in many years if no unforeseen difficulties arose. He does not regard the rust scare which is creating such a feeling of alarm in the Western States as of grave significance, though he admits that it may develop to an alarming extent later. Considerable damage was occasioned last year by rust, particularly in the more fertile sections in which there was a rank growth of straw. This had the effect of lowering both the yield and the grade, though its most injurious effect was upon the latter, much of which was lowered from No. 1 to No. 3. No signs of it are at present apparent in his locality. He believes that the present sensational attitude reached in the price of wheat is largely the result of the efforts of the large western mills to secure a corner. The Winnipeg price is now $1.30, and a feature of the situation is the fact that those who sold "short" are at present shipping wheat back from Kingston to the elevators at Fort William. $2.00 wheat is freely predicted. The supply is believed to be considerably smaller than usual.

Residing near Mr. Whetter's farm are a large number of former residents of Peterborough town and County, among whom are Messrs. William, Albert, Leonard and James Turnbull, brothers of Mr. J. C. Turnbull, whose son William is also engaged in extensive farming operations. Others in the vicinity are Mr. Edward Galvin and Mr. Henry Donnelly, both of Peterborough County. All have flourished in their occupation and are in a prosperous condition.

Speaking with reference to the Autonomy Bill, which it was alleged in certain quarters was creating the widest indignation and excitement in the West, Mr. Whetter states that it created practically no excitement and was, in fact, scarcely heard of.

Sturgeon Point Regatta.

The Regatta Committee of the Chemong Park Cottagers' Association have arranged for an excursion to the Sturgeon Point Regatta, on Thursday, August 3rd, by Steamer Ogemah. This will be a very enjoyable outing and a good day's sport will be provided at the Point. Boat will leave Chemong at 9.30 a.m., after the arrival of busses from Peterborough; returning will leave the Point at 5.30, arriving at Chemong about 8 p.m. Fare, return, 75 cents; from Indian Village or Oak Orchard, and return, 50 cents; from Bobcaygeon and return, 25 cents. McCallum Bros. will arrange for special busses to connect provided they receive notice from a sufficient number in advance.

Instantly Killed.

The twelve year old son of Mr. Wm. Corner, was instantly killed at his father's farm, about two miles west of Brooklin. A horse he was driving ran away, throwing the boy out, fracturing his skull.

The Bell Piano

Mr. Edward Fisher, Mus. Doc., *Musical Director Toronto Conservatory of Music, writes:*

"Allow me to compliment you on the qualities of the three BELL PIANOS ordered from you for the Toronto Conservatory of Music. The tone is remarkably pure and brilliant throughout, while the bass is deep and powerful; the mechanism is perfect, the touch elastic, and in appearance the pianos are works of art."

Edward Fisher

STONY LAKE AND LAKEFIELD

STEAMERS STONY LAKE, EMPRESS AND MAJESTIC

For the week ending July 29th, the steamer Empress will meet the morning train from Peterborough, returning in time to connect with the evening train.

The steamer Majestic will meet the noon train at Lakefield and return from the lakes in time to connect with the morning train from Peterborough.

The steamer Stoney Lake leaves the lake in time to connect with the 4.30 afternoon train for Peterborough and returns to the lakes on the arrival of the 6.10 p. m train, from Peterborough.

TO BORROW $25,000,000.

Sweden Concludes Arrangement With Banking Syndicate.

Stockholm, July 29.—In pursuance of the authorization of Parliament, the Government has concluded an arrangement with the Swedish National Bank and a syndicate of foreign banks represented by the Commercial Bank of Stockholm for a loan of $25,000,000. The whole amount is to be placed at the Government's disposal within a year from August 1.

Referendum Agreed On.

Christiania, Norway, July 29.—The special committee of the Storthing, to which was referred the Government's proposal for a referendum on the dissolution of the union with Sweden has unanimously decided to recommend the acceptance of the proposal.

Referendum August 13.

Christiania, July 29.—The Storthing last night unanimously adopted the proposal fixing August 13 for the submission of the question to the people.

CARRIES TROUBLE RIGHT WITH HIM

Fate of the Dyspeptic Who Has Not Learned the Relief that is Found in Dodd's Dyspepsia Tablets.

The Dyspeptic is the man who carries the troubles of the world on his shoulders. He is racked with pain and filled with despondency. Life's not worth living to him.

It's his own fault. Relief complete and permanent is within the reach of all. It is contained in Dodd's Dyspepsia Tablets. They digest the food themselves so there can be no indigestion where they are used. Listen to what Mr. R. A. Barton, 23 Tyndall avenue, Toronto, says:-

"I had Indigestion in its worst form. The doctors could not do me any good and I began to think my case was hopeless. As a last resort I tried Dodd's Dyspepsia Tablets. I am thankful to say they had the desired effect.

"I was afraid to eat many things that would have suited my taste. Now I can eat anything that is set before me, asking no questions."

HALFBREEDS AND THEIR SCRIP.

Witnesses Claim to Have Sold Under Pressure of Threats.

Killarney, Man., July 29.—The scrip inquiry continued yesterday before Judge Myers. A number of witnesses were examined, and the evidence was similar to that already adduced. The witnesses claimed to have sold to McDonald under pressure of threat or misrepresentation and without actual knowledge of the purport of the paper signed.

Find Loophole in Silly Law.

Boston, July 29.—The Duke of Cornwall's Own Rifles of Ottawa will pass through Boston with arms. They will not parade, neither will they drill, but they will not be subjected to the indignity of going through the city without their rifles. By this course of action the statute prohibiting drilling or parading with arms is respected absolutely during the stay of Canadians.

Ottawa, July 29.—The above evasion of the law the militia authorities here and the officers of the regiment will not accept. It is a case of with arms or not at all. Unless some change is made in the next few days the trip will be cancelled.

Shot by Drunken Man.

Cornwall, July 29.—A telegram from Bigstone Gap, Va., informs Cornwall friends that Alex. Hall, son of William Hall, formerly of Cornwall, has been shot and badly wounded by a drunken miner. It was at first feared that the wound was mortal, but a later telegram says that he is improving.

Low Vitality Invites Disease.

It is the run-down, Thin-Blooded Person Who Falls Easy Victim to Every Ailment Going.

When you feel lack of energy and ambition and are easily fatigued and discouraged, depend upon it your blood is thin and watery, your nerves are exhausted and your vigour is at low ebb.

It is under such circumstances that Dr. Chase's Nerve Food can be of greatest usefulness to you.

This great food cure possesses restorative and reconstruction powers which are not to be found in any other preparation.

In this regard it is different to any medicine you ever used. Instead of tearing down the tissues it builds them up and gives to the body the vigour which is required to throw off disease.

You are invited to test Dr. Chase's Nerve Food by keeping a record of your increase in weight while using it. Gradually and certainly the wasting process is overcome, and week by week new, firm flesh and muscle is added. 50 cents a box, six boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

JAPS OVER-RUN THE SAKHALIN

Japs Drive Russians to Luikoff, Where They Are Isolated—Result of Coming Fight—Japanese Will be Virtual Masters of the Whole of the Convict Island if They Win a Victory Over the Retreated Russians—The Mikado is Now in the Brotherhood of Civilized Monarchs.

Tokio, July 29.—Luikoff, on Sakhalin Island, to which point the Russians retreated, is some thirty miles southeast of Alexandrovsk, beyond a range of hills separating the Alexandrovsk district from the plain. Here the Russians are completely isolated owing to lack of roads. It is impossible for them to make a long stand, and it is expected that they will soon be subdued. A victory over them will make the Japanese virtual masters of the whole island.

Mikado to Be a Garter Knight.

London, July 29.—The Emperor of Japan is about to be created a Knight of the Garter.

Investiture will take place at Tokio during the coming winter. In view of the fact that the Kaiser conferred the order of the Black Eagle upon Prince Arisugawa, and of the possibility of the conflict in Manchuria being indefinitely prolonged, it has been determined to furnish to the Japanese a demonstration that the Court of St. James and the English people regard the ruler of Japan as forming one of the brotherhood of civilized monarchs.

It is understood the Prince and Princess of Wales, on the completion of their State progress through India in the late autumn, will proceed to Tokio for the purpose of paying a State visit to the Court of Japan, and that the British heir apparent will then undertake the ceremony of investing the Mikado with the Order of the Garter in the name of King Edward.

Japs Don't Want Armistice.

New York, July 29.—It was learned yesterday that the Japanese peace envoys do not want an armistice and will probably oppose any move for one made by the Russian Commissioners unless they are permitted to dictate terms and fix the time limit. Japanese plenipotentiaries feel that an armistice would militate against the success of Roosevelt's peace plans, and under its shelter the Russian Government would be less anxious to reach a settlement.

China Wants $100,000,000.

New York, July 29.—The Washington correspondent of The Tribune says:

Coincident with China's notice to the Powers that Manchuria must be restored to her intact, whatever may be the terms of agreement reached at the Portsmouth peace conference by the envoys of Russia and Japan, it is learned that the Chinese Government intends to follow this up by demanding of the belligerents a big indemnity as compensation for the occupation of Manchuria by hostile armies. The amount of the indemnity to be asked will be at least $100,000,000.

It is not believed that the Chinese themselves seriously expect reimbursement for the injury sustained, but the motive is further to define her position with regard to Manchuria to the world at large.

German Steamer Seized.

Tokio, July 29.—The German steamer Lydia, 1,000 tons, has been seized by the Japanese near Loochoo.

Shot Gun Quarantine.

New Orleans, La., July 29.—Although the unofficial reports made public yesterday showed a larger number of yellow fever deaths than Thursday, when there were only two, and the appearance of several new cases, the men of science who are warring against the yellow fever plague believe the situation well in hand. Owing to the increasing number of local quarantines it is almost impossible to go twenty miles through Mississippi without a health certificate. The shot gun quarantine is again in evidence and there is every indication of a revival of the panicky feeling of seven or eight years ago.

AN APPEAL IS GRANTED

Warship Will Not Take Up Canadian Captain's Case Yet.

A NEW TRIAL IN URUGUAY

Master of the Agnes Donohue, Sentenced to Three Years Imprisonment for Poaching, Will Have His Case Reviewed—British Government Regards Sentence as Monstrous, But Awaits Court's Action.

London, July 29.—The British Government does not intend to despatch a warship to Uruguayan waters or to take other threatening action until the appeal against the sentence pronounced against the Canadian fishing vessel, Agnes G. Donohue, for alleged poaching has been decided. The Government here regards the sentence of three years' imprisonment (not fifteen) passed on Capt. Ryan of the fishing vessel as monstrous, but the Uruguayan court has agreed to hold another trial, and the authorities here are content to await the result before proceeding.

Britain's New Armament Policy.

London, July 29.—In the course of a discussion of the vote for naval works in the House of Commons yesterday, Lieut.-Col. Arthur Hamilton Lee, Civil Lord of the Admiralty, announced that the Admiralty had decided not to proceed with the Chatham dockyard extension, but instead to push work on the new base at Rosyth, Firth of Forth, Scotland. The Chatham extension scheme contemplated the expenditure of $22,500,000.

Explaining the reasons for this step, Lieut.-Col. Lee said there was a probability that warships in the future would be fewer in number and greater in individual power. Hence the berthing and docking space must be of the largest size. The Admiralty had decided that Rosyth possessed greater strategical and other advantages than Chatham. The plans had been prepared for a naval base of the most complete description, so that extensions could be carried out as required. The initial works, complete in themselves, would cost $12,500,000.

Will Consider Empire Resolutions.

London, July 29.—Mr. Balfour has written the secretary of the British Empire League, promising that their resolutions passed at the meeting on the 3rd inst., will receive the careful attention of the Government.

The resolutions are to the effect that there should e a permanent council of the Empire, its members to consult by letter and telegram as well as by periodical meetings.

Thirteen Horses Burned.

Toronto, July 29.—At 2 o'clock this morning fire broke out in the stables and sheds of the Knickerbocker Ice Co., at the foot of Jarvis street, and the premises, valued approximately at about $4,000, were entirely destroyed, together with thirteen horses in the stables. Two families living at the front and rear of the burned buildings had a narrow escape.

Winnipeg Fair a Success.

Winnipeg, July 29.—The fair closed yesterday. The total attendance for the week is about 110,000 or 40,000 short of the aggregate for the Dominion Fair, which ran a full fortnight. In no other year have the total paid admissions passed the 100,000 mark.

SUICIDE OF JOHN A. RITCHIE.

Found in Rosedale With a Bullet in His Head.

Toronto, July 29.—John A. Ritchie of 18 Park road, a bookkeeper in the Menzie Wall Paper Co., King street, shot himself early to-day. He was found lying under the trees at the corner of Bismarck street and Park road with a bullet wound in his temple and dying.

A police ambulance conveyed him to the General Hospital, where he passed away shortly after 1 o'clock.

Mr. Ritchie was exceedingly well connected and was prominent in social circles. He leaves a wife and one child.

He had been drinking heavily recently and despondency is given as the cause of his rash act.

After Law Breakers.

Toronto, July 29.—Special officers of the License Department are investigating the observance of the liquor law in various parts of the Province. During the past week 18 informations were laid in Simcoe, Port Rowan and other municipalities in Norfolk County, and on Thursday the accused hotelkeepers were brought to trial, convictions being obtained in nearly every case. The Department was represented by T. R. Slaght, K. C., Crown Attorney W. E. Tisdale and Frank Reed of Simcoe, Slaght, K. C., Frank Reed of Simcoe, and the hotelkeepers by James Haverson, K. C., of Toronto, and Mr. Kelly of Simcoe.

Strained Kidneys While Ploughing

A New Hamburg Farmer's Mishap—The Only Remedy That Gave Relief.

The superior efficacy of Bu-Ju, the Kidney Pill, the remarkable specific for all derangements and disorders of the kidneys, finds general endorsement throughout Canada. Among those who unite in grateful acknowledgment of its benefits, we direct special attention to the case of a farmer of New Hamburg, Ont. He secured relief from the effects of a very painful mishap, after taking the first box, which did him more good than any other "remedy" he tried. Mr. Noah M. Cressman writes to the Claflin Chemical Co., Windsor, Ont.:

"Last August when I started to plough I pulled the plough back, and got a sudden intense pain in the kidneys just like a shot. I was unable to walk home alone. Went to a doctor and laid around for weeks. I tried different remedies without relief. The first box of Bu-Ju Pills relieved me wonderfully, and did me more good than all the other remedies.

NOAH M. CRESSMAN,
New Hamburg, Ont.

The good effects of "Bu-Ju" on the kidneys begins at once. This is a very simple and easy means of cure, and it is open to every one. Bu-Ju, the kidney pill, may be found at all drugstores. You should ask for Bu-Ju, the Kidney Pill, and firmly decline any substitute offered.

FRANCE AND GERMANY.

Rouvier and Von Radolin Unable to Get Together on Terms.

Paris, July 29.—France's relations with Germany are again showing signs of strain owing to the inability of Premier Rouvier and Ambassador Von Radolin to conclude a definite program for the Moroccan conference.

The agreement of July 8 contemplated a joint program, but the arrangement of this program is causing renewed difficulty, particularly in connection with France's right to police the territory adjoining Algeria and supervise the maintenance of order throughout the Empire.

It is the French view that those rights follow from the agreement of July 8, whereas Germany does not wish to define the extent of French police and financial reforms.

The indecisive status of the negotiations has caused renewed apprehension on the bourse, and the newspapers have renewed their sharp criticism of Germany's course.

It is expected that the Presidential election will be fixed for January 26, 1906, but the Government has not yet definitely announced the date owing to constitutional questions being affected.

ANOTHER VOICE ON THE PRAIRIES

Tells of Diabetes Cured by Dodd's Kidney Pills.

W. G. Bartleman Could Get No Relief Till He Tried the Great Canadian Kidney Remedy.

Wapella, Assa., N.W.T., July 26.—(Special.)—This thriving town furnishes one of the most remarkable cures of Kidney Disease that has ever been reported on the prairies. Mr. Wm. G. Bartelman, a well known farmer, is the man cured, and he makes the following statement:

"I had Kidney Trouble and it developed into Diabetes. I went to the doctor but his treatment was of no use whatever to me. I began to take Dodd's Kidney Pills in December, 1902. I took them all winter and summer while I was unable to work my farm. I took twelve boxes in all and in August I was able to work.

"Now I am quite strong. I worked all winter without pains in my back or any part of my body. Dodd's Kidney Pills cured me."

If the Kidney Disease is of long standing it may take time to cure it. But Dodd's Kidney Pills will do it.

$500 Saves Bluebeard's Life.

Chicago, July 29.—Alleged pitiless slayer and swindler of unnumbered women, "Bluebeard," Johann Hoch, was yesterday, by a woman's pity, given a respite of two hours from the hangman, and before the two hours were up had been reprieved for four weeks more. The four weeks were secured, not by pity, but by cold cash. The exact amount of money essential for an appeal of his case to the Supreme Court was $500. Miss Cora Wilson was the woman.

George Ham's Many Friends.

Montreal, July 29.—George Ham of the C. P. R. was yesterday morning declared by his physician to be practically out of danger. Since his illness his office staff has been able to do little but answer letters and telegrams from all over the continent as to his condition. Mr. Ham's room at the Western Hospital is simply a bower of flowers sent by friends from far and near.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c. at all dealers or EDMANSON, BATES & Co., Toronto.

DR. CHASE'S OINTMENT.

Any Troubles In Your BATHROOM?

If you are having any trouble with your CLOSET or BATHROOM CONVENIENCES, come round and have a talk with us.

A gentleman, attracted by the range of Sanitary Closets and excellent values we are offering, invested in a new one, although he already had one that was working not badly.

The way he looked over the Closets we arranged before him for inspection showed he had been sifting the matter, and knew how to prove and disprove the claims of dealers.

The saving of health and expensive plumbing repairs, warranted the investment, he said.

How is yours working? Bring your Bathroom Troubles to us. Our Toronto Stock is what we sell in our Peterborough Branch.

STR. CITY OF PETERBOROUGH

will run as follows:—

MONDAYS, TUESDAYS, WEDNESDAYS AND FRIDAYS, to Jubilee, Gore's Landing, (Harwood on flag) and Idyl Wyld. On the above days the steamer will leave the Peterborough wharf at 9.0 0a. m.; returning will arrive in Peterborough at 3.00 p. m.

(THURSDAY AND SATURDAY AFTERNOONS, the "City of Peterborough" will leave the Peterborough wharf at 1.30 p. m., for Jubilee and Gore's Landing; returning will arrive in Peterborough at 9.00 p. m

STR. WATER LILY

will leave Harwood every Saturday morning at 6.30 a. m., calling at Gore's Landing and Jubilee, and all points on the river; returning, will leave Peterborough at 3.45 p. m.

Parties desiring to spend Sunday at Idyl Wyld or intermediate points may leave town on afternoon boat on Saturday and return Monday at 9.00 a. m. Special arrangements will, however, have to be made in advance at Mr. Calcutt's office for return steamer.

FARE.—To Jubilee, Gore's Landing, Harwood, and Idyl Wyld, 50c, good to return same day only. Children half fare. Books of Family Tickets $5.0 0 for points between Peterborough and Idyl Wyld.

Special arrangements made for Sunday School and other excursions on application.

H. CALCUTT,
Telephone 98. Peterborough.

KAWARTHA LAKES

THE TRENT VALLEY NAVIGATION COMPANY, Limited

Bobcaygeon, Sturgeon Point, Lindsay

STEAMER RETURION

From June 1st to October 1st (service daily, except Sunday)

Leave Bobcaygeon	6.15 a. m.,	2.10 p. m
Leave Sturgeon Point	7.15 a. m.,	4.10 p. m.
Arrive Lindsay	8.00 a. m.,	5.30 p.m
Leaves Lindsay	11.00 a. m.,	5.45 p. m.
Leaves Sturgeon Point	12.10 p. m.,	6.55 p. m.
Arrives Bobcaygeon	1.15 p. m.,	8.10 p. m

During June, July, Aug. and Sept. Saturday's boat will wait arrival of G. T. R. and C. P. R. evening trains from Toronto, and G. T. R. evening trains from Port Hope. Meals served on board.

Connects at Sturgeon Point with Steamer Manita for Coboconk and intermediate points on Mondays, Wednesdays and Saturdays.

Lindsay, Fenelon Falls, Coboconk

STEAMER MANITA

June 19th to September—Tri-weekly service, Mondays, Wednesdays and Saturdays.

The Return of Sherlock Holmes

By A. CONAN DOYLE,

Author of "The Adventures of Sherlock Holmes," "The Hound of the Baskervilles," "The Sign of the Four," "A Study in Scarlet," Etc.

ILLUSTRATED BY F. D. STEELE

The Adventure of the Six Napoleons

No. 8 of the Series

(Copyright, 1904, by A. Conan Doyle and Collier's Weekly.)

(Copyright, 1905, by McClure, Phillips & Co.)

IT was no very unusual thing for Mr. Lestrade of Scotland Yard to look in upon us of an evening, and his visits were welcome to Sherlock Holmes, for they enabled him to keep in touch with all that was going on at the police headquarters, a return for the news which Lestrade would bring, Holmes was always ready to listen with attention to the details of any case upon which the detective was engaged and was able occasionally without any active interference to give some hint or suggestion drawn from his own vast knowledge and experience.

On this particular evening Lestrade had spoken of the weather and the newspapers. Then he had fallen silent, puffing thoughtfully at his cigar. Holmes looked keenly at him.

"Anything remarkable on hand?" he asked.

"Oh, no, Mr. Holmes—nothing very particular."

"Then tell me about it."

Lestrade laughed.

"Well, Mr. Holmes, there is no use denying that there is something on my mind. And yet it is such an absurd business that I hesitated to bother you about it. On the other hand, although it is trivial, it is undoubtedly queer, and I know that you have a taste for all that is out of the common. But, in my opinion, it comes more in Dr. Watson's line than ours."

"Disease?" said I.

"Madness, anyhow, and a queer madness too. You wouldn't think there was any one living at this time of day who had such a hatred of Napoleon I. that he would break any image of him that he could see."

Holmes sank back in his chair.

"That's no business of mine," said he.

"Exactly. That's what I said. But, then, when the man commits burglary in order to break images which are not his own, that brings it away from the doctor and on to the policeman."

Holmes sat up again.

"Burglary! This is more interesting. Let me hear the details."

Lestrade took out his official notebook and refreshed his memory from its pages.

"The first case reported was four days ago," said he. "It was at the shop of Morse Hudson, who has a place for the sale of pictures and statues in the Kennington road. The assistant had left the front shop for an instant when he heard a crash, and, hurrying in, he found a plaster bust of Napoleon, which stood with several other works of art upon the counter, lying shivered into fragments. He rushed out into the road; but, although several passersby declared that they had noticed a man run out of the shop, he could neither see any one nor could he find any means of identifying the rascal. It seemed to be one of those senseless acts of Hooliganism which occur from time to time, and it was reported to the constable on the beat as such. The plaster cast was not worth more than a few shillings, and the whole affair appeared to be too childish for any particular investigation.

"The second case, however, was more serious and also more singular. It occurred only last night.

"In Kennington road and within a few hundred yards of Morse Hudson's shop there lives a well known medical practitioner named Dr. Barnicot, who has one of the largest practices upon the south side of the Thames. His residence and principal consulting room is at Kennington road, but he has a branch surgery and dispensary at Lower Brixton road; two miles away. This Dr. Barnicot is an enthusiastic admirer of Napoleon, and his house is full of books, pictures and relics of the French emperor. Some little time ago he purchased from Morse Hudson two duplicate plaster casts of the famous head of Napoleon by the French sculptor Devine. One of these he placed in his hall in the house at Kennington road and the other on the mantelpiece of the surgery at Lower Brixton. Well, when Dr. Barnicot came down this morning he was astonished to find that his house had been burgled during the night, but that nothing had been taken save the plaster head from the hall. It had been carried out and had been dashed savagely against the garden wall, under which its splintered fragments were discovered."

Holmes rubbed his hands.

"This is certainly very novel," said he.

"I thought it would please you. But I have not got to the end yet. Dr. Barnicot was due at his surgery at 12 o'clock, and you can imagine his amazement when on arriving there he found that the window had been opened in the night and that the broken pieces of his second bust were strewn all over the room. It had been smashed to atoms where it stood. In neither case were there any signs which could give us a clew as to the criminal or lunatic who had done the mischief. Now, Mr. Holmes, you have got the facts."

"They are singular, not to say grotesque," said Holmes. "May I ask whether the two busts smashed in Dr. Barnicot's rooms were the exact duplicates of the one which was destroyed in Morse Hudson's shop?"

"They were taken from the same mold."

"Such a fact must tell against the theory that the man who breaks them is influenced by any general hatred of Napoleon. Considering how many hundreds of statues of the great emperor must exist in London, it is too much to suppose such a coincidence as that a promiscuous iconoclast should chance to begin upon three specimens of the same bust."

"Well, I thought as you do," said Lestrade. "On the other hand, this Morse Hudson is the purveyor of busts in that part of London, and these three were the only ones which had been in his shop for years. So, although, as you say, there are many hundreds of statues in London, it is very probable that these three were the only ones in the district. Therefore a local fanatic would begin with them. What do you think, Dr. Watson?"

"There are no limits to the possibilities of monomania," I answered. "There is the condition which the modern French psychologists have called the 'idee fixe,' which may be trifling in character and, accompanied by complete sanity in every other way. A man who had read deeply about Napoleon or who had possibly received some hereditary family injury through the great war might conceivably form such an 'idee fixe' and under its influence be capable of any fantastic outrage."

"That won't do, my dear Watson," said Holmes, shaking his head, "for no amount of 'idee fixe' would enable your interesting monomaniac to find out where these busts were situated."

"Well, how do you explain it?"

"I don't attempt to do so. I would only observe that there is a certain method in the gentleman's eccentric proceedings. For example, in Dr. Barnicot's hall, where a sound might arouse the family, the bust was taken outside before being broken, whereas in the surgery, where there was less danger of an alarm, it was smashed where it stood. The affair seems absurdly trifling, and yet I dare call nothing trivial when I reflect that some of my most classic cases have had the least promising commencement. You will remember, Watson, how the dreadful business of the Abernetty family was first brought to my notice by the depth which the parsley had sunk into the butter upon a hot day. I can't afford, therefore, to smile at your three broken busts, Lestrade, and I shall be very much obliged to you if you will let me hear of any fresh development of so singular a chain of events."

The development for which my friend had asked came in a quicker and an infinitely more tragic form than he could have imagined. I was still dressing in my bedroom next morning when there was a tap at the door, and Holmes entered, a telegram in his hand. He read it aloud:

Come instantly, 131 Pitt street, Kensington. LESTRADE.

"What it it, then?" I asked.

"Don't know—may be anything. But I suspect it is the sequel of the story of the statues. In that case our friend, the image breaker, has begun operations in another quarter of London. There's coffee on the table, Watson, and I have a cab at the door."

In half an hour we had reached Pitt street, a quiet little backwater just beside one of the briskest currents of London life. No. 131 was one of a row, all flat chested, respectable and most unromantic dwellings. As we drove up we found the railings in front of the house lined by a curious crowd. Holmes whistled.

"By George, it's attempted murder at the least! Nothing less will hold the London message boy. There's a deed of violence indicated in that fellow's round shoulders and outstretched neck. What's this, Watson? The top steps swilled down and the other ones dry. Footsteps enough, anyhow! Well, well, there's Lestrade at the front window, and we shall soon know all about it."

The official received us with a very grave face and showed us into a sitting room, where an exceedingly unkempt and agitated elderly man clad in a flannel dressing gown was pacing up and down. He was introduced to us as the owner of the house—Mr. Horace Harker of the Central Press syndicate.

"It's the Napoleon bust business again," said Lestrade. "You seemed interested last night, Mr. Holmes, so I thought perhaps you would be glad to be present now that the affair has taken a very much graver turn."

"What has it turned to, then?"

"To murder, Mr. Harker, will you tell these gentlemen exactly what has occurred?"

The man in the dressing gown turned upon us with a most melancholy face.

"It's an extraordinary thing," said he, "that all my life I have been collecting other people's news, and now that a real piece of news has come my own way I am so confused and bothered that I can't put two words together. If I had come in here as a journalist I should have interviewed myself and had two columns in every evening paper. As it is, I am giving away valuable copy by telling my story over and over to a string of different people, and I can make no use of it myself. However, I've heard your name, Mr. Sherlock Holmes, and if you'll only explain this queer business I shall be paid for my trouble in telling you the story."

Holmes sat down and listened.

"It all seems to center round that bust of Napoleon which I bought for this very room about four months ago. I picked it up cheap from Harding Bros., two doors from the High Street station. A great deal of my journalistic work is done at night, and I often write until the early morning. So it was today. I was sitting in my den, which is at the back of the top of the house, about 3 o'clock when I was convinced that I heard some sounds downstairs. I listened, but they were not repeated, and I concluded that they came from outside. Then suddenly, about five minutes later, there came a most horrible yell—the most dreadful sound, Mr. Holmes, that ever I heard. It will ring in my ears as long as I live. I sat frozen with horror for a minute or two; then I seized the poker and went downstairs. When I entered this room I found the window wide open, and I at once observed that the bust was gone from the mantelpiece. Why any burglar should take such a thing passes my understanding, for it was only a plaster cast and of no real value whatever.

"You can see for yourself that any one going out through that open window could reach the front doorstep by taking a long stride. This was clearly what the burglar had done, so I went round and opened the door. Stepping out into the dark, I nearly fell over a dead man who was lying there. I ran back for a light, and there was the poor fellow, a great gash in his throat and the whole place swimming in blood. He lay on his back, his knees drawn up and his mouth horribly open. I shall see him in my dreams. I had just time to blow on my police whistle, and then I must have fainted, for I knew nothing more until I found the policeman standing over me in the hall."

"Well, who was the murdered man?" asked Holmes.

"There's nothing to show who he was," said Lestrade. "You shall see the body at the mortuary, but we have made nothing of it up to now. He is a tall man, sunburned, very powerful, not more than thirty. He is poorly dressed, and yet does not appear to be a laborer. A horn handled clasp knife was lying in a pool of blood beside him. Whether it was the weapon which did the deed or whether it belonged to the dead man I do not know. There was no name on his clothing and nothing in his pockets save an apple, some string, a shilling map of London and a photograph. Here it is."

It was evidently taken by a snapshot from a small camera. It represented an alert, sharp featured simian man, with thick eyebrows and a very peculiar projection of the lower part of the face, like the muzzle of a baboon.

"And what became of the bust?" asked Holmes after a careful study of this picture.

"We had news of it just before you came. It has been found in the front garden of an empty house in Campden House road. It was broken into fragments. I am going round now to see it. Will you come?"

"Certainly. I must just take one look round." He examined the carpet and the window. "The fellow had either very long legs or was a most active man," said he. "With an area beneath, it was no mean feat to reach that window ledge and open that window. Getting back was comparatively simple. Are you coming with us to see the remains of your bust, Mr. Harker?"

The disconsolate journalist had seated himself at a writing table.

"I must try and make something of it," said he, "though I have no doubt that the first editions of the evening papers are out already with full details. It's like my luck! You remember when the stand fell at Doncaster? Well, I was the only journalist in the stand and my journal the only one that had no account of it, for I was too shaken to write it. And now I'll be too late with a murder done on my own doorstep."

As we left the room we heard his pen traveling shrilly over the foolscap.

The spot where the fragments of the bust had been found was only a few hundred yards away. For the first time our eyes rested upon this presentment of the great emperor, which seemed to raise such frantic and destructive hatred in the mind of the unknown. It lay scattered in splintered shards upon the grass. Holmes picked up several of them and examined them carefully. I was convinced from his intent face and his purposeful manner that at last he was upon a clew.

"Well?" asked Lestrade.

Holmes shrugged his shoulders.

"We have a long way to go yet," said he. "And yet—and yet—well, we have some suggestive facts to act upon. The possession of this trifling bust was worth more in the eyes of this strange criminal than a human life. That is one point. Then there is the singular fact that he did not break it in the house or immediately outside the house, if to break it was his sole object."

"He was rattled and hustled by meeting this other fellow. He hardly knew what he was doing."

"Well, that's likely enough, but I wish to call your attention very particularly to the position of this house in the garden of which the bust was destroyed."

Lestrade looked about him.

"It was an empty house, and so the fellow knew that he would not be disturbed in the garden."

"Yes, but there is another empty house farther up the street, which he must have passed before he came to this one. Why did he not break it there, since it is evident that every yard that he carried it increased the risk of some one meeting him?"

"I give it up," said Lestrade.

Holmes pointed to the street lamp above our heads.

"He could see what he was doing here, and he could not there. That was his reason."

"By Jove, that's true," said the detective. "Now that I come to think of it, Dr. Barnicot's bust was broken not far from his red lamp. Well, Mr. Holmes, what are we to do with that fact?"

"To remember it—to docket it. We may come on something later which will bear upon it. What steps do you propose to take now, Lestrade?"

"The most practical way of getting at it, in my opinion, is to identify the dead man. There should be no difficulty about that. When we have found who he is and who his associates are we should have a good start in learning what he was doing in Pitt street last night and who it was who met him and killed him on the doorstep of Mr. Horace Harker. Don't you think so?"

"No doubt, and yet it is not quite the way in which I should approach the case."

"What would you do, then?"

"Oh, you must not let me influence you in any way. I suggest that you go on your line and I on mine. We can compare notes afterward, and each will supplement the other."

"Very good," said Lestrade.

"If you are going back to Pitt street you might see Mr. Horace Harker. Tell him for me that I have quite made up my mind and that it is certain that a dangerous homicidal lunatic with Napoleonic delusions was in his house last night. It will be useful for his article."

Lestrade stared.

"You don't seriously believe that?" Holmes smiled.

"Don't I? Well, perhaps I don't, but I am sure that it will interest Mr. Horace Harker and the subscribers of the Central Press syndicate. For Watson, I think that we shall find that we have a long and rather complex day's work before us. I should be glad, Lestrade, if you could make it convenient to meet us at Baker street at 6 o'clock this evening. Until then I should like to keep this photograph found in the dead man's pocket. It is possible that I may have to ask your company and assistance upon a small expedition which will have to be undertaken tonight if my chain of reasoning should prove to be correct. Until then, goodby and good luck."

Sherlock Holmes and I walked together to the High street, where we stopped at the shop of Harding Bros., whence the bust had been purchased. A young assistant informed us that Mr. Harding would be absent until after noon and that he was himself a newcomer who could give us no information. Holmes' face showed his disappointment and annoyance.

"Well, well, we can't expect to have it all our own way, Watson," he said at last. "We must come back in the afternoon, if Mr. Harding will not be here until then. I am, as yet have no doubt surmised, endeavoring to trace these busts to their source in order to find if

Continued on page ten.

Who's your Ruler—your Brain or your Stomach?

Indigestion lost the battle of Waterloo. A box of Fruit-a-tives might have changed the map of Europe.

Napoleon abused his stomach by injudicious eating. At Waterloo, his stomach retaliated. Acute indigestion kept him from the field for some time. And the day was lost. A box of Fruit-a-tives—and the Bonapartes might still be on the throne of France.

Most people don't realize what a good friend, or a bitter enemy, their stomach can be. If they treat it right, they forget they have a stomach. If they abuse it, they never forget for a moment they have one—and a mighty uncomfortable one it is.

The stomach is a muscular churn that secretes gastric juice. When food enters a well-taken-care-of stomach, there's plenty of gastric juice ready to liquify the lumps, break up the fats, separate the starch, etc. To do this completely, the stomach churns the food—sends it whirling round and round until thoroughly mixed and dissolved.

If your stomach does all this with never a pain—heaviness—"heartburn"—then you don't need Fruit-a-tives.

Fruit-a-tives put a tired, overworked stomach on good terms with itself. They strengthen the stomach muscles so the churning will go on with all its old time vigor—assist the secretion of the digestive fluid and encourage complete digestion.

Heartburn, flatuleney, heavy feeling after eating, indigestion, dyspepsia, sour stomach—are simply the result of tired stomach.

Fruit-a-tives take away the CAUSE of all these troubles.

Fruit-a-tives

or Fruit Liver Tablets.

"I want to say a word in regard to Fruit-a-tives. I have had Stomach and Liver Trouble some ten years and have tried different remedies, but Fruit-a-tives are the best of all. I am better than I have been for years and cannot praise them too highly.

I have tried many different kinds of medicine for my son. He had Bilious Attacks ever since he was three years old, and since he began taking Fruit-a-tives he has been so well.

If it is ever my chance to recommend Fruit-a-tives, I will always be ready to say a good word for them."

Mrs. JOHN COLINE, Aylmer, Ont.

Fruit-a-tives are fruit juices in tablet form. An Ottawa physician discovered that by combining the juices of apples, oranges, figs and prunes in a peculiar way, the medicinal action of the fruits was intensified many times.

While Fruit-a-tives are helping the stomach to get strong and well, they are also making the liver active, curing Biliousness and Constipation, purifying the blood, making you eat and sleep well.

One 50c. box of Fruit-a-tives is a drug store in itself, as far as keeping the whole family in good health is concerned.

Make sure that your druggist gives you "Fruit-a-tives"—not something which is said to be "just as good."

For sale by druggists everywhere, 50c. per box, or sent direct by mail on receipt of 50c. for one box or $2.50 for six boxes.

Manufactured by FRUIT-A-TIVES LIMITED, OTTAWA.

Gin Pills

Cure that Pain in the Back

That sharp shooting pain—that dull, steady ache—means something wrong with the kidneys. Pain is nature's danger signal. Where there is pain in the back or through the hips, there is an unnatural condition, or disease of the kidneys.

GIN PILLS cure that pain in the back, by curing the kidneys.

They neutralize the acid urine—stop uric acid from poisoning the blood and inflaming the nerves—soothe and quiet the pain—make urination natural and regular—sharpen the appetite—make one sleep sound—build up the whole system.

GIN PILLS have saved hundreds from chronic kidney trouble and dreaded Bright's Disease.

If you have any kidney trouble, or suspect that the kidneys are not doing their work properly—and especially if you suffer with pain in the back—don't hesitate to get GIN PILS. They cure or your money back.

At all dealers, 50c a box, or 6 for $2.50.

The Return of SHERLOCK HOLMES

By A. CONAN DOYLE,

Author of "The Adventures of Sherlock Holmes," "The Hound of the Baskervilles," "The Sign of the Four," "A Study in Scarlet," Etc.

ILLUSTRATED BY F. D. STEELE

(Continued from page 9.)

there is not something peculiar which may account for their remarkable fate. Let us make for Mr. Morse Hudson of the Kennington road and see if he can throw any light upon the problem."

A drive of an hour brought us to the picture dealer's establishment. He was a small, stout man, with a red face and a peppery manner.

"Yes, sir. On my very counter, sir," said he. "What we pay rates and taxes for I don't know, when any ruffian can come in and break one's goods. Yes, sir, it was I who sold Dr. Barnicot his two statues. Disgraceful, sir! A nihilist plot—that's what I make it. No one but an anarchist would go about breaking statues. Red republicans—that's what I call 'em. Who did I get the statues from? I don't see what that has to do with it. Well, if you really want to know, I got them from Gelder & Co., in Church street, Stepney. They are a well known house in the trade and have been this twenty years. How many had I? Three—two and one are three—two of Dr. Barnicot's and one smashed in broad daylight on my own counter. Do I know that photograph? No, I don't. Yes, I do, though. Why, it's Beppo. He was a kind of Italian piece-work man, who made himself useful in the shop. He could carve a bit and gild and frame and do odd jobs. The fellow left me last week, and I've heard nothing of him since. No, I don't know where he came from nor where he went to. I had nothing against him while he was here. He was gone two days before the bust was smashed."

"Well, that's all we could reasonably expect from Morse Hudson," said Holmes as we emerged from the shop. "We have this Beppo as a common factor, both in Kennington and in Kensington, so that is worth a ten mile drive. Now, Watson, let us make for Gelder & Co. of Stepney, the source and origin of the busts. I shall be surprised if we don't get some help down there."

In rapid succession we passed through the fringe of fashionable London, hotel London, theatrical London, literary London, commercial London, and, finally, maritime London, till we came to a riverside city of 100,000 souls, where the tenement houses swelter and reek with the outcasts of Europe. Here, in a broad thoroughfare, once the abode of wealthy city merchants, we found the sculpture works for which we searched. Outside was a considerable yard full of monumental masonry. Inside was a large room in which fifty workers were carving or molding. The manager, a big blond German, received us civilly and gave a clear answer to all Holmes' questions. A reference to his books showed that hundreds of casts had been taken *from a marble copy of Devine's head of* Napoleon, but that the three which had been sent to Morse Hudson a year or so before had been half of a batch of six, the other three being sent to Harding Bros. of Kensington. There was no reason why those six should be different from any of the other casts. He could suggest no possible cause why any one should wish to destroy them—in fact, he laughed at the idea. Their wholesale price was 6 shillings, but the retailer would get 12 or more. The cast was taken in two molds from each side of the face, and then these two profiles of plaster of paris were joined together to make the complete bust. The work was usually done by Italians in the room we were in. When finished the busts were put on a table in the passage to dry and afterward stored. That was all he could tell us.

But the production of the photograph had a remarkable effect upon the manager. His face flushed with anger, and his brows knotted over his blue Teutonic eyes.

"Ah, the rascal!" he cried. "Yes, indeed, I know him very well. This has always been a respectable establishment, and the only time that we have ever had the police in it was over this very fellow. It was more than a year ago now. He knifed another Italian in the street, and then he came to the works with the police on his heels, and he was taken here. Beppo was his name—his second name I never knew. Served me right for engaging a man with such a face. But he was a good workman—one of the best."

"What did he get?"

"The man lived, and he got off with a year. I have no doubt he is out now, but he has not dared to show his nose here. We have a cousin of his here, and I dare say he could tell you where he is."

"No, no," cried Holmes; "not a word to the cousin—not a word, I beg of you. The matter is very important, and the farther I go with it the more important it seems to grow. When you referred in your ledger to the sale of those casts I observed that the date was June 3 of last year. Could you give me the date when Beppo was arrested?"

"I could tell you roughly by the pay list," the manager answered. "Yes," he continued, after some turning over of pages, "he was paid last on May 20."

"Thank you," said Holmes. "I don't think that I need intrude upon your time and patience any more." With a last word of caution that he should say nothing as to our researches we turned our faces westward once more.

The afternoon was far advanced before we were able to snatch a hasty luncheon at a restaurant. A news bill at the entrance announced: "Kensington Outrage. Murder by a Madman," and the contents of the paper showed that Mr. Horace Harker had got his account into print after all. Two columns were occupied with a highly sensational and flowery rendering of the whole incident. Holmes propped it against the cruet stand and read it while he ate. Once or twice he chuckled.

"This is all right, Watson," said he. "Listen to this: 'It is satisfactory to know that there can be no difference of opinion upon this case, since Mr. Lestrade, one of the most experienced members of the official force, and Mr. Sherlock Holmes, the well known consulting expert, have each come to the conclusion that the grotesque series of incidents, which have ended in so tragic a fashion, arise from lunacy rather than from deliberate crime. No explanation save mental aberration can cover the facts.' The press, Watson, is a most valuable institution, if you only know how to use it. And now, if you have quite finished, we will hark back to Kensington and see what the manager of Harding Bros. has to say on the matter."

The founder of that great emporium proved to be a brisk, crisp little person, very dapper and quick, with a clear head and a ready tongue.

"Yes, sir, I have already read, the account in the evening papers. Mr. Horace Harker is a customer of ours. We supplied him with the bust some months ago. We ordered three busts of that sort from Gelder & Co. of Stepney. They are all sold now. To whom? Oh, I dare say by consulting our sales book we could very easily tell you. Yes, we have the entries here. One to Mr. Harker, you see, and one to Mr. Josiah Brown of Laburnum lodge, Laburnum Vale, Chiswick, and one to Mr. Sandeford of Lower Grove road, Reading. No, I have never seen this face which you show me in the photograph. You would hardly forget it, would you, sir, for I've seldom seen an uglier. Have we any Italians on the staff? Yes, sir; we have several among our workpeople and cleaners. I dare say they might get a peep at that sales book if they wanted to. There is no particular reason for keeping a watch upon that book. Well, well, it's a very strange business, and I hope that you will let me know if anything comes of your inquiries."

Holmes had taken several notes during Mr. Harding's evidence, and I could see that he was thoroughly satisfied by the turn which affairs were taking. He made no remark, however, save that unless we hurried we should be late for our appointment with Lestrade. Sure enough, when we reached Baker street the detective was already there, and we found him pacing up and down in a fever of impatience. His look of importance showed that his day's work had not been in vain.

"Well?" he asked. "What luck, Mr. Holmes?"

"We have had a very busy day and not entirely a wasted one," my friend explained. "We have seen both the retailers and also the wholesale manufacturers. I can trace each of the busts now from the beginning."

"The busts!" cried Lestrade. "Well, well, you have your own methods, Mr. Sherlock Holmes, and it is not for me to say a word against them, but I think I have done a better day's work than you. I have identified the dead man."

"You don't say so?"

"And found a cause for the crime."

"Splendid!"

"We have an inspector who makes a specialty of Saffron Hill and the Italian quarter. Well, this dead man had some Catholic emblem round his neck, and that, along with his color, made me think he was from the south. Inspector Hill knew him the moment he caught sight of him. His name is Pietro Venucci, from Naples, and he is one of the greatest cutthroats in London. He is connected with the Mafia, which, as you know, is a secret political society, enforcing its decrees by murder. Now, you see how the affair begins to clear up. The other fellow is probably an Italian also and a member of the Mafia. He has broken the rules in some fashion. Pietro is set upon his track. Probably the photograph we found in his pocket is the man himself, so that he may not knife the wrong person. He dogs the fellow, he sees him enter a house, he waits outside for him, and in the scuffle he receives his own death wound. How is that, Mr. Sherlock Holmes?"

Holmes clapped his hands approvingly.

"Excellent, Lestrade, excellent!" he cried. "But I didn't quite follow your explanation of the destruction of the busts."

"The busts! You never can get those busts out of your head. After all, that is nothing; petty larceny, six months at the most. It is the murder that we are really investigating, and I tell you that I am gathering all the threads into my hands."

"And the next stage?"

"Is a very simple one. I shall go down with Hill to the Italian quarter, find the man whose photograph we have got and arrest him on the charge of murder. Will you come with us?"

"I think not. I fancy we can attain our end in a simpler way. I can't say for certain because it all depends—well, it all depends upon a factor which is completely outside our control. But I have great hopes—in fact, the betting is exactly two to one—that if you will come with us tonight I shall be able to help you to lay him by the heels."

"In the Italian quarter?"

"No; I fancy Chiswick is an address which is more likely to find him. If you will come with me to Chiswick tonight, Lestrade, I'll promise to go to the Italian quarter with you tomorrow, and no harm will be done by the delay. And now I think that a few hours' sleep would do us all good, for I do not propose to leave before 11 o'clock, and it is unlikely that we shall be back before morning. You'll dine with us, Lestrade, and then you are welcome to the sofa until it is time for us to start. In the meantime, Watson, I should be glad if you would ring for an express messenger, for I have a letter to send, and it is important that it should go at once."

Holmes spent the evening in rummaging among the files of the old daily papers with which one of our lumber rooms was packed. When at last he descended it was with triumph in his eyes, but he said nothing to either of us as to the result of his researches. For my own part I had followed step by step the methods by which he had traced the various windings of this complex case, and, though I could not yet perceive the goal which we would reach, I understood clearly that Holmes expected this grotesque criminal to make an attempt upon the two remaining busts, one of which, I remembered, was at Chiswick. No doubt the object of our journey was to catch him in the very act, and I could not but admire the cunning with which my friend had inserted a wrong clew in the evening paper, so as to give the fellow the idea that he could continue his scheme with impunity. I was not surprised when Holmes suggested that I should take my revolver with me. He had himself picked up the loaded hunting crop, which was his favorite weapon.

A four wheeler was at the door at 11, and in it we drove to a spot at the other side of Hammersmith bridge. Here the cabman was directed to wait. A short walk brought us to a secluded road fringed with pleasant houses, each standing in its own grounds. In the light of a street lamp we read "Laburnum Villa" upon the gatepost of one of them. The occupants had evidently retired to rest, for all was dark save for a fanlight over the hall door, which shed a single blurred circle on to the garden path. The wooden fence which separated the grounds from the road threw a dense black shadow upon the inner side, and here it was that we crouched.

"I fear that you'll have a long wait," Holmes whispered. "We may thank our stars that it is not raining. I don't think we can even venture to smoke to pass the time. However, it's a two to one chance that we get something to pay us for our trouble."

It proved, however, that our vigil was not to be so long as Holmes had led us to fear, and it ended in a very sudden and singular fashion. In an instant, without the least sound to warn us of his coming, the garden gate swung open, and a lithe, dark figure, as swift and active as an ape, rushed up the garden path. We saw it whisk past the light thrown from over the door and disappear against the black shadow of the house. There was a long pause, during which we held our breath, and then a very gentle creaking sound came to our ears. The window was being opened. The noise ceased, and again there was a long silence. The fellow was making his way into the house. We saw the sudden flash of a dark lantern inside the room. What he sought was evidently not there, for again we saw the flash through another blind and then through another.

"Let us get to the open window. We will nab him as he climbs out," Lestrade whispered.

But before we could move the man had emerged again. As he came out into the glimmering patch of light we saw that he carried something white under his arm. He looked stealthily all round him. The silence of the deserted street reassured him. Turning his back upon us, he laid down his burden, and the next instant there was the sound of a sharp tap, followed by a

WEAK MEN AND WOMEN

The Most Perfect Restorative Known and Invigorating Tonic Vitalizer —Greatest Health-Renewer

Nature's greatest cure for weak, pale men and women is Ferrozone. It is invaluable for run-down, overworked, delicate people, and will restore them to robust health more quickly, at smaller expense, than any other tonic you can select.

We quote the following cases to show what Ferrozone has done for others. In your case it will act just as efficiently:—

FOR BUSINESS MEN

The Experience of a Well-known Lawyer Proves Ferrozone an Ideal Tonic.

Mr. N. W. Burke, a well known lawyer in Meriden, says:—"When I first took Ferrozone I was in a nervous run-down condition, almost sick enough to give up work. I lacked strength, and felt as if I could not get down to work. Ferrozone at once gave me a good appetite, and drove away the nervous, apprehensive feelings that formerly made my life miserable. As I continued the use of Ferrozone I grew stronger, and am glad to say it has brought me back to perfect health. I know that Ferrozone is an excellent tonic for business men and people inclined to a sedentary life. I can recommend it to such."

FOR NERVOUS WOMEN

Nothing Compares With the Nerve-Strengthening Power of Ferrozone.

Mrs. E. D. Emmerson, of Centreville, says:—"I am glad to think that there is at least one honest remedy for nervous people. No one can imagine what I suffered with my nerves, and I sometimes wonder at the number of useless prescriptions and medicines I took. But Ferrozone acted differently from all the rest. It built up my system, and gradually the irritability left my nerves, and I got well. Ferrozone cured me by removing the cause of my trouble, and by giving me enough additional strength to overthrow the attack of nervousness. I can recommend Ferrozone strongly."

THOUSANDS ANNUALLY CURED BY FERROZONE

If you want to get well and keep well, by all means use Ferrozone. If you suffer from insomnia, nervousness, debility, loss of appetite, poor digestion, or any other symptom of disordered blood, nothing will tone up and vitalize your system like Ferrozone. Price 50c per box, or six boxes for $2.50. Sold by all druggists, or sent safely by mail to any address if price is forwarded to N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont.

FERROZONE

Your Ideal Cracker

Think of all the good kinds of crackers you ever tasted. The creamy whiteness of the first—the lightness of the second—the crispness of another—the appetising appearance of another—the delicious eating of the fifth. Then see how we've combined all these five points into one cracker.

Mooney's Perfection Cream Sodas

Conjure up your ideal—your perfect cracker—and you'll find it in Mooney's Perfection Cream Sodas.

MUNYON'S PAW-PAW PILLS

A positive cure for Constipation, Indigestion, Jaundice, Biliousness, Sour Stomach, Headache, and all ailments arising from a disordered stomach or sluggish liver. They purify the blood and are the best laxative and cathartic ever compounded. Get a 25-cent bottle and if you are not perfectly satisfied we will refund your money. MUNYON CO., Philadelphia.

Superfluous Hair

Removed by the New Principle,

De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues under the skin. Better than depilatories, because it is not poisonous; therefore it will not cause blood poisoning, or produce eczema, which is so common with depilatories, nor does it break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. De MIRACLE is not. It is the only method which is indorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

De MIRACLE mailed sealed in plain wrapper on receipt of $1.00. Your money back without question (no red tape) if it fails to do all that is claimed for it. Booklet sent free in plain, sealed envelope, upon request. Write for it to-day to De MIRACLE CHEMICAL CO., 23 Queen St. West, Toronto. For sale by

THE RETURN OF SHERLOCK HOLMES

(Continued from page ten.)

clatter and rattle. The man was so intent upon what he was doing that he never heard our steps as we stole across the grass plot. With the bound of a tiger, Holmes was on his back, and an instant later Lestrade and I had him by either wrist and the handcuffs had been fastened. As we turned him over I saw a hideous, sallow face, with writhing, furious features, glaring up at us, and I knew that it was indeed the man of the photograph whom we had secured.

But it was not our prisoner to whom Holmes was giving his attention. Squatted on the doorstep, he was engaged in most carefully examining that which the man had brought from the house. It was a bust of Napoleon, like the one which we had seen that morning, and it had been broken into similar fragments. Carefully Holmes held each separate shard to the light, but in no way did it differ from any other shattered piece of plaster. He had just completed his examination when the hall lights flew up, the door opened and the owner of the house, a jovial, rotund figure in shirt and trousers, presented himself.

"Mr. Josiah Brown, I suppose?" said Holmes.

"Yes, sir; and you, no doubt, are Mr. Sherlock Holmes? I had the note which you sent by the express messenger, and I did exactly what you told me. We locked every door on the inside and awaited developments. Well, I'm very glad that you have got the rascal. I hope, gentlemen, that you will come in and have some refreshment."

However, Lestrade was anxious to get his man into safe quarters, so within a few minutes our cab had been summoned and we were all four upon our way to London. Not a word would our captive say, but he glared at us from the shadow of his matted hair, and once when my hand was within his reach he snapped at it like a hungry wolf. We stayed long enough at the police station to learn that a search of his clothing revealed nothing save a few shillings and a long sheath knife, the handle of which bore copious traces of recent blood.

"That's all right," said Lestrade as we parted. "Hill knows all these gentry, and he will give a name to him. You'll find that my theory of the Mafia will work out all right. But I'm sure I am exceedingly obliged to you, Mr. Holmes, for the workmanlike way in which you laid hands upon him. I don't quite understand it all yet."

"I fear it is rather too late an hour for explanations," said Holmes. "Besides, there are one or two details which are not finished off, and it is one of those cases which are worth working out to the very end. If you will come round once more to my rooms at 6 o'clock tomorrow I think I shall be able to show you that even now you have not grasped the entire meaning of this business, which presents some features which make it absolutely original in the history of crime. If ever I permit you to chronicle any more of my little problems, Watson, I foresee that you will enliven your pages by an account of the singular adventure of the Napoleonic busts."

When we met again next evening Lestrade was furnished with much information concerning our prisoner. His name, it appeared, was Beppo, second name unknown. He was a well known ne'er-do-well among the Italian colony. He had once been a skilful sculptor and had earned an honest living, but he had taken to evil courses and had twice already been in jail—once for a petty theft and once, as we had already heard, for stabbing a fellow countryman. He could talk English perfectly well. His reasons for destroying the busts were still unknown, and he refused to answer any questions upon the subject, but the police had discovered that these same busts might very well have been made by his own hands, since he was engaged in this class of work at the establishment of Gelder & Co.

To all this information, much of which we already knew, Holmes listened with polite attention, but I, who knew him so well, could clearly see that his thoughts were elsewhere, and I detected a mixture of mingled uneasiness and expectation beneath that mask which he was wont to assume. At last he started in his chair, and his eyes brightened. There had been a ring at the bell. A minute later we heard steps upon the stairs, and an elderly, red faced man with grizzled side whiskers was ushered in. In his right hand he carried an old fashioned carpetbag, which he placed upon the table.

Copyright by Collier's Weekly.

He carried an old fashioned carpetbag.

"Is Mr. Sherlock Holmes here?"

My friend bowed and smiled. "Mr. Sandeford of Reading, I suppose?" said he.

"Yes, sir; I fear that I am a little late, but the trains were awkward. You wrote to me about a bust that is in my possession."

"Exactly."

"I have your letter here. You said, 'I desire to possess a copy of Devine's Napoleon and am prepared to pay you £10 for the one which is in your possession.' Is that right?"

"Certainly."

"I was very much surprised at your letter, for I could not imagine how you knew that I owned such a thing."

"Of course you must have been surprised, but the explanation is very simple. Mr. Harding of Harding Bros. said that they had sold you their last copy, and he gave me your address."

"Oh, that was it, was it? Did he tell you what I paid for it?"

"No, he did not."

"Well, I am an honest man, though not a very rich one. I only gave 15 shillings for the bust, and I think you ought to know that before I take £10 from you."

"I am sure the scruple does you honor, Mr. Sandeford. But I have named that price, so I intend to stick to it."

"Well, it is very handsome of you, Mr. Holmes. I brought the bust up with me, as you asked me to do. Here it is!" He opened his bag, and at last we saw placed upon our table a complete specimen of that bust which we had already seen more than once in fragments.

Holmes took a paper from his pocket and laid a ten pound note upon the table.

"You will kindly sign that paper, Mr. Sandeford, in the presence of these witnesses. It is simply to say that you transfer every possible right that you ever had in the bust to me. I am a methodical man, you see, and you never know what turn events might take afterward. Thank you, Mr. Sandeford. Here is your money, and I wish you a very good evening."

When our visitor had disappeared Sherlock Holmes' movements were such as to rivet our attention. He began by taking a clean white cloth from a drawer and laying it over the table. Then he placed his newly acquired bust in the center of the cloth. Finally he picked up his hunting crop and struck Napoleon a sharp blow on the top of the head. The figure broke into fragments, and Holmes bent eagerly over the shattered remains. Next instant, with a loud shout of triumph, he held up one splinter, in which a round, dark object was fixed like a plum in a pudding.

"Gentlemen," he cried, "let me introduce you to the famous black pearl of the Borgias."

Lestrade and I sat silent for a moment, and then, with a spontaneous impulse, we both broke out clapping, as at the well wrought crisis of a play. A flush of color sprang to Holmes' pale cheeks, and he bowed to us like the master dramatist who receives the homage of his audience. It was at such moments that for an instant he ceased to be a reasoning machine and betrayed his human love for admiration and applause. The same singularly proud and reserved nature which turned away with disdain from popular notoriety was capable of being moved to its depths by spontaneous wonder and praise from a friend.

"Yes, gentlemen," said he, "it is the most famous pearl now existing in the world, and it has been my good fortune, by a connected chain of inductive reasoning, to trace it from the Prince of Colonna's bedroom at the Dacre hotel, where it was lost, to the interior of this, the last of the six busts of Napoleon which were manufactured by Gelder & Co. of Stepney. You will remember, Lestrade, the sensation caused by the disappearance of this valuable jewel and the vain efforts of the London police to recover it. I was myself consulted upon the case, but I was unable to throw any light upon it. Suspicion fell upon the maid of the princess, who was an Italian, and it was proved that she had a brother in London, but we failed to trace any connection between them. The maid's name was Lucretia Venucci, and there is no doubt in my mind that this Pietro who was murdered two nights ago was the brother. I have been looking up the dates in the old files of the paper, and I find that the disappearance of the pearl was exactly two days before the arrest of Beppo for some crime of violence—an event which took place in the factory of Gelder & Co. at the very moment when these busts were being made. Now you clearly see the sequence of events, though you see them, of course, in the inverse order to the way in which they presented themselves to me. Beppo had the pearl in his possession. He may have stolen it from Pietro, he may have been Pietro's confederate, he may have been the go-between of Pietro and his sister. It is of no consequence to us which is the correct solution.

"The main fact is that he had the pearl, and at that moment, when it was on his person, he was pursued by the police. He made for the factory in which he worked, and he knew that he had only a few minutes in which to conceal this enormously valuable prize, which would otherwise be found on him when he was searched. Six plaster casts of Napoleon were drying in the passage. One of them was still soft. In an instant Beppo, a skillful workman, made a small hole in the wet plaster, dropped in the pearl and with a few touches covered over the aperture once more. It was an admirable hiding place. No one could possibly find it. But Beppo was condemned to a year's imprisonment, and in the meanwhile his six busts were scattered over London. He could not tell which contained his treasure. Only by breaking them could he see. Even shaking would tell him nothing, for as the plaster was wet it was probable that the pearl would adhere to it, as, in fact, it has done. Beppo did not despair, and he conducted his search with considerable ingenuity and perseverance. Through a cousin who works with Gelder he found out the retail firms who had bought the busts. He managed to find employment with Morse Hudson and in that way tracked down three of them. The pearl was not there. Then, with the help of some Italian employee, he succeeded in finding out where the other three busts had gone. The first was at Harker's. There he was dogged by his confederate, who held Beppo responsible for the loss of the pearl, and he stabbed him in the scuffle which followed."

"If he was his confederate, why should he carry his photograph?" I asked.

"As a means of tracing him if he wished to inquire about him from any third person. That was the obvious reason. Well, after the murder I calculated that Beppo would probably hurry rather than delay his movements. He would fear that the police would read his secret, and so he hastened on before they should get ahead of him. Of course I could not say that he had not found the pearl in Harker's bust. I had not even concluded for certain that it was the pearl, but it was evident to me that he was looking for something, since he carried the bust past the other houses in order to break it in the garden which had a lamp overlooking it. Since Harker's bust was one in three, the chances were exactly as I told you—two to one against the pearl being inside it. There remained two busts, and it was obvious that he would go for the London one first. I warned the inmates of the house, so as to avoid a second tragedy, and we went down with the happiest results. By that time, of course, I knew for certain that it was the Borgia pearl that we were after. The name of the murdered man linked the one event with the other. There only remained a single bust, the Reading one, and the pearl must be there. I bought it in your presence from the owner, and there it lies."

We sat in silence for a moment.

"Well," said Lestrade, "I've seen you handle a good many cases, Mr. Holmes, but I don't know that I ever knew a more workmanlike one than that. We're not jealous of you at Scotland Yard. No, sir; we are very proud of you, and if you come down tomorrow there's not a man, from the oldest inspector to the youngest constable, who wouldn't be glad to shake you by the hand."

"Thank you," said Holmes. "Thank you." And as he turned away it seemed to me that he was more nearly moved by the softer human emotions than I had ever seen him. A moment later he was the cold and practical thinker once more. "Put the pearl in the safe, Watson," said he, "and get out the papers of the Conk-Singleton forgery case. Goodby, Lestrade. If any little problem comes your way I shall be happy, if I can, to give you a hint or two as to its solution."

DODD'S KIDNEY PILLS

FOR ALL KIDNEY DISEASES

CURES RHEUMATISM BRIGHT'S DISEASE DIABETES BACKACHE

The public may be assured of the genuineness of this advertisement. Sold only in boxes.

The Song of the Cradle.

Bye, bye! Hope rises high!
There's a sweet little cradle hung up in the sky;
A dear little life that is coming to bless;
Two soft chubby hands that will pat and caress;
A pure little soul winging down from above;
A darling to care for, a baby to love.

One of the grandest agencies which enlightened Science has discovered to relieve motherhood from excessive suffering is the "Favorite Prescription" devised by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y.

This wonderful "Prescription" imbues the entire nervous system with natural, healthy vitality; gives elastic vigor to the delicate organism specially concerned in motherhood, and makes the coming of baby entirely free from danger and almost free from pain.

"I wish to state that I have used Doctor Pierce's Favorite Prescription with very good results," writes Mrs. Katie M. Annis, of Hodgson, New Hampshire. "Had been in poor health for over four years and had been twice in the hospital. My husband brought some of your 'Favorite Prescription,' and it has carried me easily through my last two confinements. We are now blessed with two healthy children, and I am sure your medicine has done me more good than all the other treatment I have ever received."

BAD HEADACHES generally arise from bad stomachs. Foul breath, bitter taste, coated tongue, sour eructations or belching of gas are common symptoms though not all present in every case. To cure, take small doses, only one or two each day, of Old Dr. Pierce's Pleasant Pellets, the Original Little Liver Pills, first put up by him over 40 years ago. One or two a laxative, three or four cathartic.

DIAMOND DYES Are Hummers and always ON TOP

Special Warning—The Manufacturers of the popular Diamond Dyes would direct the attention of our Canadian women to the fact, that crude, adulterated and worthless package dyes are now offered for sale by some merchants who care little about the ruin and trouble they cause.

The imitation package dyes are of poor in quality, that many ladies have reported that their materials and goods have been destroyed by their use.

Diamond Dyes never fail to give satisfaction. They produce the most lovely colours, on the heaviest and finest fabrics. See that each package of dyes you buy has the name "DIAMOND DYES," and you will be safe. The millions say, "It's easy to dye with Diamond Dyes."

Purely Vegetable.

CURE SICK HEADACHE.

There is nothing like Sunlight Soap for Household Utensils.

When you have to use hard water it is not an easy matter to wash household utensils. To do good washing you should have good soap and soft water (rain water). If you use hard water you must have good soap, and the best soap you can get is Sunlight Soap because it softens the hard water and makes a copious creamy lather. Use Sunlight Soap for all household purposes and the results will surprise you.

SUNLIGHT SOAP

ASK FOR THE OCTAGON BAR.

Sunligh. Soap washes the clothes white without injuring the hands.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader resides, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

WESTERN WHEAT A BUMPER CROP

Prospects are Good for Yield of 100,000,000 Bushels.

Canada Proving to be a Wheat Paradise —Some Interesting History.

A hundred million bushels of Spring wheat and 8,000,000 bushels of Fall wheat are now the crop prospects of the far West, says the Mail and Empire. An early frost or an epidemic of rust may modify the expectations represented by these figures; but it seems almost a certainty that the greatest yield of wheat in the history of the West will be garnered this year. Hardly less encouraging than the Spring wheat prospects are those for the Fall variety reported from Alberta. The 8,000,000 bushels in sight constitute the first fruits of an experiment yet in its infancy. Alberta's climate being much milder than that of Manitoba, milder in fact than Ontario, a method of sowing which is dangerous and unprofitable in the Prairie Province may there be adopted with great success.

Canada a Great Paradise.

What an ironical comment on the value of human knowledge is the standing crop of 1905, when we reflect that within the memory of many now living it was generally supposed that wheat would not grow in these northern latitudes! People spoke of frosts and shook their heads wisely. It was a rash and venturesome enterprise to attempt wheat raising on the western prairie. Even after the success of the experiment had been demonstrated, cautious folks whispered about impending disasters. They did not dream that a day was near at hand when all would concede that Canada had the best wheat fields in the world; that in the virgin prairies that had for, perhaps, millions of years awaited the wheat sower there were possibilities and probabilities far exceeding the wildest dreams of man; that that Western country would soon give the world the very best wheat known, and that that glorious crop would prove a loadstone for people in the four quarters of the world. Yet that is the sober truth. And not the least remarkable circumstance of this national romance is the fact that the Canadian wheat paradise has proven an irresistible attraction to thousands of workers in the greatest wheat-growing country in the world, the United States. This is what the founders of Canada predicted, but few others believed.

Experiments With Wheat.

The great fame of Manitoba as a wheat-producing country was delayed for years by Fall sowing, due to the fact that the frost penetrated the ground to such a depth that wheat sown in the Fall was usually killed. When Hudson's Bay Company factors proved by experiment, that wheat sowed in the spring in Manitoba was of extra quality, grave obstacles remained in the way of the practical farmer. Spring wheat, it was feared, would ripen so slowly that it would be injured by early autumn frosts before it could be cut; and in the past tremendous losses have been thus incurred. Settlers were encouraged, however, by the generous amends a good season made for a bad one. There was, it is true, a considerable gambling or sporting element in the early growing of wheat in the West. If the farmer "drew" a lucky season, he was recompensed for several bad ones, and in the very risks there may have been fascination.

Red Fife and Ladoga.

The charming uncertainty, however, did not prove alluring to settlers, and Sir John Macdonald's Government realized that one of the greatest problems of Canada concerned wheat growing in Manitoba. The experimental farms were put hard at work and Prof. Saunders opened communication with wheat growers all over the world. The puzzle was to find a fast maturing Spring wheat which would grow in a cold climate. From Northern India, Russia, and the wheat-growing countries of Europe came information and samples. After years of experiment the ideal grain was found in Scotland, the Red Fife, and to-day it is the Red Fife that is almost universally grown in Manitoba. From Russia some most valuable breeds of wheat were secured, notably the Ladoga, which ripens two weeks earlier than the Red Fife, but grades lower. Crosses of the two have been also successfully experimented with, and experiments of this sort, far from being concluded, are yet in their infancy. Experts do not hesitate to say that by the scientific breeding of wheat the world's yield will yet be vastly increased.

The Climate Makes the Wheat.

It is conceded everywhere that Manitoba No. 1 hard is the best wheat grown anywhere, and curiously enough, the climate, which was once supposed to be the foe of wheat, is wholly responsible for the great yields and the superior quality of the grain. The fierce frosts pulverise the ground, rendering it pliable, and enabling the roots to penetrate it to a remarkable depth. The coolness and moisture of Spring is favourable to a fine root growth. The well-watered roots are thus encouraged to throw out fibres, with the result that the crop feeds on eighteen inches of soil, instead of four inches, which is more usual. Then the dry air hardens the wheat and gives it that weight and flintiness for which Manitoba wheat is famous.

It has been found that where Manitoba No. 1 hard is grown in milder and moister climates, in Ontario, for example, it loses its peculiar features and deteriorates. It is the climate that makes the wheat, and here we have the guarantee of Manitoba's continued pre-eminence as a wheat-producing country. In Ontario less and less wheat is grown each year, the tendency being towards condensed farming; that is the raising of fruit and vegetables, dairy products and stock. In the North-western States it is the corn that is crowding the wheat out, the corn and the irresistible competition of our own great West. That Manitoba will in time grow the wheat for the rest of America seems sure. This year's crop will be an indication of her right to undertake this great responsibility.

In addition to the influences mentioned it may be suggested that the frost works an important part in affecting the quality of the grain. It is stated that in the Spring the seed wheat is sown practically on the ice—that the teeth of harrows and drills actually generate "cold chills" by scraping over the underground ice. This ice thaws gradually. The impalpable moisture in escaping directly upward into the air, far into the summer, must vitally aid the growth of the grain and may have some share in producing not only the yield, but the peculiar hardness of Canadian Northwest wheat. The influence of light is to be reckoned with also. Florists have produced unusual growth by forcing plants to grow by artificial light. In the northwest the days are much longer. Owing to the high latitude the sun rises earlier and sets later, the twilight lasting so that work has been known to be carried on in the fields till ten or eleven o'clock, long after the lights are lit in Ontario and thousands are in bed. While the growing crops of Ontario are having their night's rest the whole of the northwest is receiving the benign effects of light. Northern climes breed hardy races of men and our northern wheat—No. 1 hard the best wheat in the world is a product of the same environment.

"AN EXCELLENT FOOD, admirably adapted to the Wants of Infants."

SIR CHAS. A. CAMERON, C.B., M.D., Professor of Chemistry, R.C.S.I., Ex-President of the Royal College of Surgeons, Ireland.

WALTER NICHOLLS MAKING BOATS

Head of a New Motor Boat Company.

Well Known Young Man Who Has Branched out Into Business.

Mr. Walter Nicholls, son of Mr. Frederick Nicholls, is well known here and his many friends will read with interest the following article from the Toronto News:

The Walter Nicholls Motor Boat Co., who have been dealing in motor boats, particularly of the higher grade, are going to begin building within a few weeks. "There is a very strong demand for motor boats," said Mr. Nicholls. In spite of the duty of 25 per cent. we have handled a great many at from $400 to $4,000. We are now also going to begin building all sorts of small pleasure craft—dories, dinghies, yachts and launches. We are getting the latest ideas and designs, and will turn out a first-class launch. "Yes, Muskoka is a good market. We sent a $3,600 yacht there lately, guaranteed to go 17 miles per hour, and another beauty to the Kawartha Lakes. When we get started we will build boats to go 30 miles an hour. There will be no noise nor smell about these launches either. That will all come out below water. We will also build canoes and skiffs.

PERSONAL NOTES FROM LAKEFIELD

From Our Own Correspondent.

Lakefield, July 25.—Mr. and Miss Gaul, of Keene, were the guests of Mr. and Mrs. S. Spence, on Sunday.

Miss Maggie Kennealiy has returned to her home after a pleasant week's outing at Stony Lake.

Miss Lizzie Fox, of Peterborough, is the guest of Miss Alma Cox.

Mr. Percy Fisher, of Toronto Junction, is visiting at his home in the village.

Mrs. F. J. Tate and Mr. E. B. Tate have returned home from Tadousac, P. Q.

Miss Laura Grylls left this week for a month's vacation, visiting friends in Toronto and other places.

Mr. Burt Sherin, of the Baltimore, Md., News, is in the village visiting his parents.

Mr. Alford McIlroy and his mother, Mrs. H. McIlroy, of Port Hope, were in the village last week, being called here by the sad accident which befell Mr. Ed. McIlroy.

Miss H. E. Farrar, of aPrry Sound, has returned home after a pleasant visit with her brothers in the village.

Miss Halpin, of Peterborough, is in the village the guest of Miss Kennally.

Mrs. Knox, of Orillia, is in the village, visiting her brother, Mr. J. H. Sherin.

Mrs. Thomas Whatley, of Pontangushene, is visiting her daughter, Mrs. R. H. Alford.

Mr. W. McDonald, of Pittsburg, Pa., is visiting friends in the village.

Mrs. Lang, of Peterborough and Miss Day, of Rochester, N.Y., are the guests of Mrs. J. Maude.

Mr. Jas. Gerard, formerly of Peterborough, but who, for the past few weeks, has been employed at the Cement Works, left on Monday for Stratford where he has secured a situation.

Miss Webster, of Keene, was the guest of the Misses Spence on Sunday.

Miss Cullens, of Port Hope, who has been visiting her sister, Mrs. J. Hall returned home on Saturday.

Mr. Thos. Mason, Jr., of Lindsay, was in the village on Sunday.

Miss Vila Billings, of Leshard, spent a few days in the village this week, the guest of (Rev.)Mrs. Leggott.

A large excursion from Peterborough passed through the village to the upper lakes on Saturday.

Mrs. A. S. Butchart has returned after spending a few days at the lakes.

Miss E. Hendren, who has been visiting friends in Warsaw, has returned home.

Mrs. W. H. Sherbrooke, of Winnipeg, is visiting her sister, Mrs. W. Bates.

Mr. A. Bettis spent Sunday in Keene visiting friends.

The construction of the granolithic pavement on Regent street is rapidly progressing, and when finished will be a decided improvement to that part of the town.

Messrs. Lorne Mason and Howard Hendren took in the excursion to Rochester, N. Y., on July 25th.

Miss Lulu Miller, of Rochester, is in the village, the guest of Miss Ina Millage.

Business is very brisk at the Grand Trunk station these days. A great many people are flocking to the lakes and there is also a large amount of freight being shipped by the Dickson Co. and Cement Co. The Cement Co. are shipping on an average of six cars of cement a day.

Mr. J. McDonald, of Winnipeg, is visiting his sister, Mrs. H. G. Fitzgerald.

Mr. Jas. Allan, proprietor of the Lakefield House, has disposed of his business to Messrs. Lawless and Spellman, of Peterborough.

Mr. Will Montgomery, of Hawkesbury, was in the village over Sunday visiting his parents, Mr. and Mrs. S. Montgomery.

The Harmonica Club purpose having another moonlight excursion some time early in August. Watch for the posters.

Rev. A. W. McKenzie is spending a few days at Stony Lake.

Mr. J. Moffat is spending a week at Viamede.

Messrs. Wilson, Ballah and Walker, of Port Hope, were in the village Monday.

Mr. J. W. Kilbaum, Owen Sound, was in the village this week on business.

BABY'S TERRIBLE FACE HUMOUR

Would Scratch and Tear Away the Flesh — Neighbours Called it Worse Case Ever Seen — Grew Worse Under Doctors.

CURED BY ONE SET OF CUTICURA REMEDIES

"My baby's face was a mass of sores. The doctor called it eczema, but the child grew worse, the disease eating the flesh away from his nose, and spreading to his body. Neighbours said it was the worst case they had ever seen. His suffering was terrible, and he would scratch and tear away the flesh. We then used the Cuticura Remedies, one set curing him completely, and healing his face without scar or blemish.—Wm. Cridland, 35 Winchester St. Pentonville Rd., N. London, Eng."

BABY QUIRK'S CURE

Of Torturing, Raw, and Scaly Eczema By Cuticura

"My baby was afflicted with a loathsome running eczema on the face. Two doctors treated him for three months, but he grew worse. We then started to use Cuticura, and noticed an improvement at once. In a fortnight the running had ceased, the scabs nearly all dried off, and in a month his face was perfectly clear.—W. H. Quirk, No. 1 West End Cottages, Knywood Road, N. Southampton."

CUTICURA A BLESSING

To Skin-Tortured Babies

The suffering which Cuticura Soap and Ointment has alleviated among the young, and the comfort they have afforded worn-out and worried parents, have led to their adoption in countless homes as priceless curatives for birth humours, milk crust, scalled head, eczemas, rashes, and every form of skin and scalp humours, with loss of hair, of infancy and age.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney. Potter Drug & Chem. Corp., Boston, Sole Props.

Mailed free, "How to Cure for Baby's Skin."

METHODS OF THE BREWERS

Stated That the Toronto Beer Makers are Hotel Owners.

Men Who Are Supposed to be Owners Are Simply Managers.

In view of the fact that the Toronto brewers have, according to reports, been trying for some time to live up to the reputation of Toronto (Hogtown) in respect to its attempted inroads on the business of the local brewery by offering this product in Peterborough at a lower price than that charged in other towns and cities, the following despatch from Toronto in reference to their operations there will be of interest:

It is not generally known, although it is a fact, that about 40 per cent. of the liquor license-holders in the city of Toronto are only nominal proprietors of their respective establishments.

The hotels in the city are so heavily mortgaged to the brewing and distilling companies that the men whose names are gilded on the windows are practically nothing but managers for the wholesale concerns.

Many of these nominal owners get a percentage of the profits, others a salary. In many cases the interest on indebtedness to the brewing companies is so great that the alleged proprietors would gladly turn over their small interest to the companies and accept a straight salary, if the license laws would permit this course.

It is noticeable that while the profits of most bars are large, few city hotelkeepers die leaving big fortunes.

Liquor licenses in Toronto have become so high-priced that few men who care to go into the business have the money necessary to purchase them. Thus was the system originated. During the past five years the lowest price paid for a license in Toronto has been $10,000.

This was the permit purchased by the proprietors of the King Edward Hotel from Thomas Meagher, who had a saloon on Jarvis street. Not a bottle of liquor or a piece of furniture accompanied the license.

The late board of license commissioners for Toronto have given their consent to 65 transfers of liquor and shop licenses.

The prices paid for these licenses ran all the way from the $10,000 before mentioned to $65,000.

When a licenseholder becomes so entangled with chattel mortgages that he has little financial interest in his hotel he probably runs foul of the license commissioners.

It is considered necessary in the interests of the proper conduct of bar-rooms that the proprietors should have something to lose. Otherwise they do not feel sufficiently their responsibility.

Less than ten per cent. of the hotel proprietors in Toronto now own the premises where they carry on their business.

Thus the landlord's interest as re the third proposition which the commissioners have to consider.

The cutting off of a license considerably reduces the value of a property, as in many cases the building used as a hotel is not suitable for any other kind of business.

EXPLORING IN NEW QUEBEC

Commander Low Examining Mineral Belt.

Gold, Copper and Asbestos in This Region—50,000,000 Acres of Rich Land Has Only One White Man.

That Canada has a new Quebec as rich in resources as New Ontario, is the opinion of Dr. Robert Bell, acting director of the geological survey. Some time ago he sent Commander Low into the wealthy region of the lower province, and he has just now reached his destination and is beginning work. He will explore the west of Lake Chibougamo to determine the extent of a mineral belt discovered some years ago by Dr. Bell. It is of the Huronian formation and promises to be rich in minerals. This part of Quebec is fertile and geological investigation has revealed the fact that it may possess millions of dollars worth of gold, copper and asbestos. The territory which would comprise New Quebec is the northwest corner of the province, forming a square about the area of England. Much of it is in the valley of the Nottaway River, a stream which is larger than the Ottawa. Dr. Bell says there are fifty million acres of farm land there. He has made a personal test which shows its suitability for wheat-growing. There is also some iron there. Some of the region is as yet unexplored. Commander Low will return in October with further information as to the mineral deposit and will report on the extent of the mineral belt which starts at Lake Chibougamo.

In all this rich portion of Quebec there is said to be but one white man, a Hudson Bay Company's officer, enjoying permanent abode.

Toadstools Poisoned.

Four members of the family of Joseph Franzoi, Mineola, N. J., who ate either toadstools or poisonous mushrooms, are now dead, and it is probable that the entire family will be wiped out, the two remaining children being in a most serious condition.

Diarrhoea, Dysentery, Summer Complaint,

Stomach Cramps, Colic, Cholera Morbus, Cholera Infantum, and all Looseness of the Bowels

may be rapidly and effectually cured by the use of that old and sterling remedy

Dr. Fowler's Extract of Wild Strawberry.

It has a reputation of 80 years' standing and never fails to either relieve or cure.

There are many imitations of this remedy on the market that sell for less per bottle. Dr. Fowler's is 35 cents, so be sure and get the genuine. The cheaper articles may be dangerous to your health.

HAS USED IT FOR YEARS.

Mrs. Chas. Woods, Waubaushene, Ont., writes: "I have used Dr. Fowler's Extract of Wild Strawberry in my house for years, and I find it a splendid remedy for Diarrhœa and Bowel Complaints, especially in children teething."

The Red Rose Flavor and Strength

NO Ceylon tea nor Indian tea alone can have the "rich fruity flavor" of Red Rose Tea, because neither variety in itself possesses all the qualities of strength, richness, delicacy, and fragrance.

Each has its own peculiar qualities, but each has its weaknesses.

By combining the two in the Red Rose proportions, I produce a tea with the "rich fruity flavor" and strength of Red Rose Tea, a flavor and strength found in no brand of Ceylon alone.

Red Rose Tea

is good Tea

NEW OFFICIALS ARE APPOINTED

The Ontario Government Announces Some Changes.

Mr. J. L. Squire Gets Position Vacated by Mr. Thos. Fraser.

The last issue of the Ontario Gazette contains notice of some appointments which have been made by the Government and which are of interest locally. Among them is that of J. L. Squire, of the Village of Norwood, to be clerk of the Second Division Court of the County of Peterborough, instead of Thomas Fraser, resigned.

Other appointments are: George Beemister, of the Village of Haliburton, to be clerk of the Second Division Court of Haliburton, instead of William Prust.

J. H. Phelps, of the Village of Brighton, to be clerk of the Eighth Division Court, of the United Counties of Northumberland and Durham, instead of E. O. Butler.

Favorite Note Papers.

Try "A. H. S." note size writing tablets in ivory, white, pure linen and Irish linen, 15c each. "A. H. S." letter size writing tablets in pure linen, Irish linen, ivory, white and Grecian Bond, 25c each. Envelopes to match all tablets, 10c per package.

WHERE WHEAT GROWS FIFTY INCHES HIGH IN THE CANADIAN WEST

Mr. D. Little Returns From the West and Tells of the Splendid Crop Prospects There—An Enormous Yield of Wheat is Promised—Local Man's Impression of the Great West--Towns Growing Rapidly--Many Americans Who are Settling in the Canadian West--Regina is a Prosperous Western Town.

Mr. David Little, local agent for the Singer Sewing Machine Company, has just returned from a five weeks' trip to the West. Mr. Little met several Peterborough people out there, some of whom were on a tour and others were looking for a good section to take up land for farming.

The towns and cities in the West are growing at a rapid rate and if one took a walk along one of the streets to-day and went along a week hence he would hardly recognise it on account of the great number of houses which were being erected. In Regina there were about four hundred houses in the course of construction at the time of his visit there; but the houses are of a cheap character, to suit the different classes of people who are taking up their residence there. Many retired farmers, who have made their fortune in grain, move into the city and build a good class of house to reside in.

Mr. Little says emigrants from every European country are arriving in Winnipeg by the train load, the better classes putting up at a hotel while the poorer classes camp out in a tent or a shack until they can secure land to settle on.

Mr. Little was out as far as Prince Albert and Saskatoon and reports the country in that district well settled. To the south-west of Saskatoon there is a large colony of Americans. These people sell their farms in the States for $50 or $60 an acre, and come over to Canada and take up better land at $10 or $12 an acre.

The crops in the west are very heavy, and if there are no early frosts, or an epidemic of rust the yield of wheat will be enormous. Mr. Little states that he saw wheat fifty inches long with the head four or five inches in length and well filled with grain. Grain like this is found in many sections and with an increased acreage under cultivation the yield this year will be the greatest in the history of the West, and yet grain raising is only in its infancy. There are large tracts of virgin land yet to be broken, and when the country is well cultivated, Canada's wheat fields will be among the greatest in the world, will be able to produce such enormous crops as will prove a loadstone to the people in the four quarters of the world.

Mr. Little said that he heard very little about the Autonomy Bill and there was very little interest taken in political questions.

MR. A. HAMILTON WANTS ONE THOUSAND MEN FOR STURGEON FALLS MILLS

Local Man Has Been Appointed General Manager of These Immense Mills, Which Manufacture Sixty-three Tons a Day—Send Their Pulp to Almost Every Civilized Country in the World—A Sulphide Mill Will be Erected in the Near Future—Men Wanted to Cut Spruce for the Mills.

Mr. Alex. Hamilton, who, a few days ago, was inducted as manager of the Imperial Pulp and Paper Company, Sturgeon Falls, was in town on Saturday. His object was in search of men, and he wants a thousand of them—bush rangers, lumbermen acquainted with work in the lumber woods—to take out pulp wood for the use of the mills. Manager Hamilton wants the men at once, and any man out of work, willing to work and able to work will find steady employment at the highest current wages for good men. Mr. Hamilton does not hope to get all his men in a busy centre like Peterborough, and he will go to Ottawa on a similar errand. Those in need of employment may apply to Mr. T. Cavanagh, who has been authorized by Mr. Hamilton to contract with workmen.

The Imperial Pulp and Paper Company is an immense concern, in whose operations two and a half millions of dollars is invested, turning out tons and tons of paper every day, which finds a market in almost every civilized country in the world, though the bulk of the paper output is absorbed by the great dailies of London, England. With a daily output of 63 tons, there is hardly a carload of stock on hand now. The works have been operating altogether on ground pulp in which spruce alone is used, but a sulphur pulp mill is being erected which will bring into use all kinds of wood, poplar, Jack, pine, tamarac, etc., for all these woods are available by the chemical process.

The mechanical as well as economic and industrial importance of the country is shown by the fact that the monthly pay-roll is between $30,000 and $40,000.

FUNERAL OF LATE REV. T. J. EDMISON

Beautiful Evidence of Public and Fraternal Respect.

Rev. J. P. Wilson Ex-President of Conference Conducts the Ceremony.

The funeral of the late Rev. T. J. Edmison, which took place at Brighton on Friday last in the character and impressiveness testified with solemn eloquence to a large measure of love, respect and esteem in which the reverend gentleman was held. Not only was there an extremely large attendance of the people of the town where he laboured, but nearly all his brethren in the ministry of the Brighton District, about twenty-five in number, as well as others from outside the district, including Rev. Prof. Reynar, of Victoria University, Toronto, and Rev. J. G. Lewis, of Peterborough. The funeral service was conducted by Rev. J. P. Wilson, of Belleville, chairman of that district and ex-president of the Bay of Quinte Conference, assisted by Rev. R. Bamforth, B.A., Trenton, and Rev. W. Johnston, chairman of the Havelock district. There was no special sermon but several short addresses, bearing testimony to the great loss the ministry and the church had sustained by the death of Mr. Edmison, and paying affecting tribute to his fidelity and zeal as a Christian minister and his high character as a Christian gentleman, were made by Rev. J. P. Wilson, Rev. Prof. Reynar, Rev. G. W. McColl, B. A., B.D., Odessa, and Rev. J. A. McCamus.

During the funeral services the shops of the town were closed, business was completely suspended, and the whole population seemed to unite in showing the deepest respect to the memory of the departed divine. The pall bearers were four of the fellow ministers of the deceased, Rev. W. Limbert, Rev. T. H. McDonald, Rev. G. E. Ross, Rev. J. G. Lewis, and two members of the church where Rev. Mr. Edmison once laboured, Mr. Wm. Harper and Mr. Geo. Brown.

The remains were laid at rest in the Brighton Cemetery.

CITY PAYS MORE TO THE COUNTY

For the Administration of Justice Accounts.

The Amount This Year is $2840 an Increase of $615.

To-day Messrs. John Carnegie and W. H. Cascment, the arbitrators, the former appointed by the city and the latter by the county, to fix the amount to be paid by the city for the administration of justice, signed the award, and the amount agreed upon is $2,840 annually. For some time these gentlemen have been going over the books and have been investigating the matter in their endeavour to arrive at a satisfactory conclusion. The amount agreed upon this year is an increase over that of former years, the amount last year being $2,225.

Crossman's

MR. G. H. ROPER WAS APPOINTED

To the Position of Assistant Secretary of Y. M. C. A.

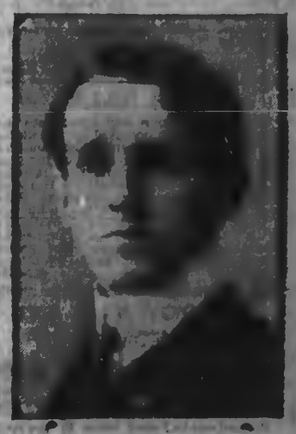
In Succession to Mr. T. H. Hutchinson—Leader for Senior Classes Being Considered.

A special meeting of the Board of Directors of the Y. M. C. A. was held on Friday night, July 28th.

The principal questions discussed were in regard to arrangements for the physical department work for next season, and the appointment of an assistant secretary in place of Mr. Hutchinson, who resigned some months ago.

A special committee composed of Messrs. Harding, Campbell and Bennett was appointed to look after these matters.

At a meeting of this committee on Saturday, Mr. Geo. H. Roper, of the



MR. T. H. HUTCHINSON,
Late Assistant Secy. of the Y.M.C.A., Whose Place Mr. Roper is to Fill.

West End Y. M. C. A., Toronto, was appointed assistant secretary and physical director of the Boys' Dept. Mr. Roper was called to the city on Saturday by the committee, who were highly pleased with him and his qualification, resulting in his appointment as stated.

Mr. Roper has assisted with the boys' classes in the West End Association, some of the classes he had in charge numbering upwards of one hundred on the floor at once. He is young and gives promise of good service for our boys of Peterborough. He will also assist Mr. Williamson in the general work of the Association, entering upon his duties on September 1st.

The question of a leader for the senior gymnasium classes is yet under consideration by the committee.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches.

Cromwell's Mask.

Eight guineas was the price realized by the death mask of Oliver Cromwell, which was put up for auction at Messrs. Stevens in London.

Lost for Thirty Years.

Captain Thurston, a lake captain, turned up at Dundas looking for his mother, Mrs. Mary Wilkins, whom he has not seen or heard of for thirty years.

Called Out Militia.

A special despatch to the New York Tribune from New Orleans says:—Governor Vardaman of Mississippi, late last night called out the militia of that State to protect the line of that State against the entrance of people from Louisiana.

Aliens in the Navy.

At the present time the British merchant service employs the following large number of aliens on its vessels:—611 alien captains; 2,991 alien petty officers; 40,000 alien seamen. These figures were given by Lord Muskerry at a recent meeting in London in aid of the extension of religious help to seafaring men.

Loan Companies.

Dr. J. H. Hunter, provincial registrar of loan companies, in his annual report, just issued, shows the total mortgages held by the companies, 72 in number, aggregate $108,327,499.84, in addition to $1,341,941.52 on land now offered for sale. The average interest secured on realty mortgages was $6,102 in 1904 against $6,242 in 1903.

Lawn Mower Inventor.

Thomas Coldwell, President of the Coldwell Lawn Mower Company, and an inventor of note, died late last night at his home in Newburg, N.Y. He was born in England in 1838 and came to America when a lad. He was a pioneer manufacturer of the lawn mower and the development of the modern mower is largely due to his inventions.

Cemetery Safe Rifled.

Safe blowers last night riddled the safe in the offices of the Oakwood Cemetery Association, in the outskirts of Syracuse, N.Y., securing only $5.96. A small safe located in a large vault was literally blown to pieces, the explosive evidently being nitro-glycerine. The Delaware, Lackawana and Western Railroad tracks run near the cemetery grounds and it is thought that after blowing the safe the burglars caught a southbound coal train.

Good Crop Prospects.

Back from a tour of Manitoba, Mr. James Hartney, Immigration Agent for that province, reports that there is every prospect of an unusually bountiful crop. West of Portage la Prairie,' he says, "the crop has never looked better in my twenty-five years' experience. East of the Portage, in the Red River Valley, there has been a little too much rain, but although this may do damage in spots, there will be a big yield anyway.

Ministers are Scarce.

The extraordinary dearth of candidates for holy orders in England is regarded in influential church circles as a serious menace to the future usefulness of the established church. The average number of candidates per annum for the decade 1891 to 1901 was 67.4 per annum less than that for the previous decade. The average for the next decade bids fair to be 100 per annum less than the average for 1891 to 1901. Decrease in clerical incomes is the chief cause.

Baloon Factory.

The balloon department of the Royal Engineers, aided by a special grant, are constructing a new war balloon factory on Cove Plateau, Aldershot. When completed the new factory will be large enough to contain side by side three fully-inflated balloons. From the factory complete balloon equipments will be sent out to India and to all the colonial and foreign stations of the British army. These balloons will be made by a secret process known only to the officers of the balloon department, of which Colonel Templer, himself a daring aeronaut, is head.

Use Unloading Machines.

In transferring coal from the U. S. side of Lake Erie at Conneaut to the Canadian side at Rondeau, the Marquette and Bessemer colliery now in use brings over 2,500 tons on each trip, emptied into a continuous hold from ten hopper cars on two tracks running the whole length of the steamer, instead of loaded cars being carried across the lake and transferred to the railways on the Canadian side as on the regular coal ferries. Four unloading machines in the hold remove the entire cargo in eight hours. Another and much larger M. and B. collier is being built for the service.

Monkey Brand Soap makes copper like gold, tin like silver, crockery like marble, and windows like crystal.

PARK ST. BAPTIST 17TH ANNIVERSARY

Celebrated Yesterday in An Appropriate Manner.

School Has Made Remarkable Progress During Past Year.

Yesterday was one of special interest to the members of Park Street Baptist Church, it being the celebration of the seventeenth anniversary of the establishment of the school. The pastor, Rev. A. H. Brace preached to large congregations both morning and evening, and in the afternoon an address appropriate to the occasion was given.

In her opening remarks, the superintendent, Miss Mann, gave a brief sketch of the school's history from the time when it was first established as the South Ward Baptist Mission School on Dalhousie Street, up to the present with a fine brick edifice in prospect.

It is seventeen years ago to-day since the Sunday School, which in this case was the forerunner of the church was first begun. During the first year the school came in to a legacy of $500, left by the late Mrs. Charlotte Nicholls. After a hard struggle the school began to grow and in 1892 $170 out of the Nicholls bequest was expended in the purchase of the lot now occupied by the present building.

The school has progressed steadily under the supervision of Miss Mann who has been superintendent since January, 1893, but the church has increased so rapidly that a new building is necessary and all the members of the school have worked faithfully to help the trustees to buy the adjoining lot and collect money for the building expense. Two special efforts on the part of the school during the past year resulted in the raising of $191.63. Of

REV. A. H. BRACE,
Pastor of Park Street Baptist Church, in Which Flower Service Was Held Yesterday.

this amount $67.03 was raised last August and $124.60 in March last. With the school setting such an example the church ought surely to be in readiness for the erection of the prospective new building.

Yesterday the pulpit was prettily decorated by the scholars with plants and flowers, some of which will be sent to a member of the church who has been very ill for a year and a half, others will be sent to Lindsay to decorate the grave of a former scholar while the remainder will be sent to the hospital.

In the morning the pastor gave an instructive sermon on "Our National Assets", and took his text from Gen. 18-19, "For I know him that he will command his children and his household after him, and they shall keep the way of the Lord to do justice and judgment."

Our National Assets do not consist in our broad acres, our inland seas, our mighty forests, or our mineral wealth; but our children are the assets of the nation. The boy of to-day is the man of to-morrow, and will hold the reins of government, fill the pulpits and guard our homes from foreign foes.

While we have the children under our care we should guard it jealously, and pay particular attention to its education and see to it that he is well developed mentally and physically.

God's delight is in a well regulated family with the whole household under Divine law, and the children trained in the fear of God. God delighted to honour Abraham for his example in setting up a family altar, and for his open-handed generosity, but Lot's family did not have the fear of God, and left a record of shame, and they all perished save Lot and two of his daughters.

The last section of the sermon was on our relation to the young. We should keep command and authority over them, while we eventually seek to win them for the Saviour.

The Saviour loves the children, for He became a child in order to bring a life of gladness to all those who love His name. "All praise be thine Lord Jesus for love so full and free, for Thou dost bring the children to put their trust in Thee."

In conclusion the pastor said that "He serves his country best who leads a pure life and doeth righteous deeds."

Wreck at Burlington.

Three heavy steel cars jumped the G. T. R. bridge over the canal at Burlington Beach, Hamilton, yesterday and badly damaged part of the structure. Traffic was completely blocked the whole of the day.

Windsor Whirlwind.

A whirlwind visited Windsor on the 19th. Although there was no movement of the air elsewhere, a cone of dust suddenly rose on the river bank, and ascended to a height of nearly half a mile. As it rose it drew up with it a mass of rubbish which was lying near.

THE RUSSIANS BADLY ROUTED

Japs Kill 200 and Capture 500 Out of Force of 800 on the Island of Sakhalin—M. Witte Tells of the Scope of His Commission as Envoy Extraordinary, and Says He Will Not Entertain Demands of Japan Based on Expected Military Successes in the Future.

Tokio, July 31.—The following despatch has been received from Japanese headquarters:

"Our independent cavalry, which entered Rykoff (on Sakhalin Island, 45 miles northeast of Port Due), July 27, withdrew on finding order in the city unfavorable to its occupation. Our army, intending to crush the enemy's force before they retreated from the eminences west of Rykoff, commenced to advance at 3 a. m., on July 29. The van, together with an independent body of cavalry, advanced by forced march, attacking and dislodging the enemy holding the northern extremity of Rykoff, and rushed into the town. Confused street fighting ensued, but the town was completely taken at 8.30 o'clock in the morning.

"The enemy's main strength, which opposed our right column, fled in disorder southward, taking the short route leading to Pareono.

"On July 28, a detachment, which was sent south in pursuit of the enemy, met the enemy's infantry, some 800 strong, at a point six miles south of Rykoff, and killed over 200 and captured 500.

"The enemy's strength opposed to our right column was of some 3,000 infantry and four guns and four machine guns, and that opposed to our left column some 2,000 infantry and four guns.

"The enemy's loss in trophies is under investigation."

True to Russia.

St. Petersburg, July 31.—The Emperor has issued the following note in answer to an appeal from the clergy of Orenburg not to conclude a shameful peace: "The Russian people can rely upon me. Never will I conclude a shameful peace, or one unworthy of great Russia.

What Witte Will and Won't Do.

London, July 31.—The Daily Telegraph's correspondent on board the Kaiser Wilhelm Der Grosse, on which M. Witte, the Russian peace plenipotentiary is a passenger, sends an interview which he has had with M. Witte in which the latter said that if Russia and Japan had agreed upon a common basis before appointing peace plenipotentiaries it would have been much better.

As it was, M. Witte said, he regarded himself rather as an Imperial courier sent to ascertain the terms of Japan. He was prepared to make peace, nevertheless, he added, as his powers were very complete, and he would discuss the demands based on Japan's actual military and naval successes, in a business-like spirit of give and take.

"But I can't and will not," continued M. Witte, "entertain demands based on expected military successes, in the future. I am conversant with the humane intentions of my Imperial master, and I will do anything compatible with Russia's honor and dignity to establish that work of which I have been an unswerving advocate.

"My first task, however, in the new world will be to search for a basis for fruitful discussion."

Russian Press Warlike.

St. Petersburg, July 31.—The tone of the Russian press grows more warlike as the peace conference draws nigh and the Government on all sides is urged to resist humiliating demands, even at the cost of continuing the war.

Has Talked Too Much.

New York, July 31.—Almar Sato of the Japanese peace delegation made a statement to the Associated Press Saturday night, in which he denies that he has ever in any interview given any outline of the terms upon which Japan will negotiate peace, or that he has announced that Japan will make any demands whatever. Mr. Sato said: "Sensational articles have been published, which are fabrications, and in which I have been misquoted. I do not know upon what terms peace may be negotiated."

Electoral College System.

St. Petersburg, July 31.—The following are the principal parts of an electoral system, approved by the Council of Ministers for the proposed national assembly. The aim has been to elaborate a scheme eliminating as far as possible class representation. The only classes excluded from the franchise are soldiers, persons under the age of 25 years, foreigners, women, governors and vice-governors of Provinces, prefects and police authorities, nomads and persons deprived of civil rights.

For St. Petersburg, Moscow and 18 of the larger towns, there will be a system of electoral colleges numbering 160 members. For St. Petersburg, Moscow and 50 other towns these members will be elected by electors of the first degree, comprising owners of land and house property exceeding $1,500 in value, the electors in the case of St. Petersburg, Moscow and 1,500 other towns to include also the holders of industrial patents and paying specified taxes, with no distinction as to religion.

For the Provinces, similar system of colleges will be elected by voters of three categories, namely, landowners, electors of other towns than the before-mentioned large towns and cantonal representation of peasants. Here also a property qualification is required of $750 and similar tax qualifications. The elections will be by secret ballot and an absolute majority is required.

Novoe Vremya is Outspoken.

St. Petersburg, July 31.—The Novoe Vremya prints this morning a despatch from Khersu that there is great discontent among the reservists in Manchuria at the distress inflicted on their families because of the negligence of the authorities, who have failed to provide proper support for them. This outspoken admission from a Russian source is looked upon as significant.

Kaiser Urged Peace.

Berlin, July 31.—The Foreign Office, taking cognizance of statements from St. Petersburg, particularly those published in French and English journals, authorizes the Associated Press to say that Emperor William in the interviews off the Island of Bjoerkoe not only did not encourage Emperor Nicholas to continue the war, but gave his influence directly in favor of President Roosevelt's peace policy. The Foreign Office again with the utmost positiveness says that the meeting took place at the wish of Emperor Nicholas.

Stoessel is Relieved.

St. Petersburg, July 31.—Gen. Stoessel has been relieved of his command of the Third Siberian Army Corps.

Bakers' Strike Causes Riots.

Warsaw, July 31.—The bakers' strike, in which 25 bakeries are involved, is the cause almost daily of murders and excesses. The police appear to be powerless to ferret out the perpetrators of the crimes.

Stomach and Liver Troubles.

Mr. Alex. M. Finn, Inkerman, B.B., writes: "I have used Dr. Chase's Kidney-Liver Pills for derangements of the kidneys and liver and stomach troubles, and can certify that they did me a good deal of good. I can heartily recommend them to anyone suffering as I did."

FORTY-THREE WERE HURT.

Four of Them May Die — Twenty Hurt In Another Wreck.

Fort Smith, Ark., July 31.—The Little Rock & Arkansas City special train on the Little Rock and Fort Smith branch of the St. Louis, Iron Mountain & Southern Railway, was wrecked at Ozark Saturday, injuring forty-three persons, four of whom may die. Spreading rails caused the wreck.

Accident on Santa Fe.

Chicago, July 31.—The California express on the Atchison, Topeka & Santa Fe Railroad ran off the track and threw two cars into a ditch Saturday night at Lemont, Ill. One man was taken from the wreck crushed beyond recognition. Three others were probably fatally injured and a score of others sustained slight injuries.

Killed By a Train.

Uxbridge, July 31.—An unknown man, about 25 or 30 years of age, was killed by a train on the railway about five miles north of here yesterday. He had closely-cropped brown hair, grey tweed suit, no vest, and a gold-filled watch with a Newmarket jeweller's name on it. He was sitting or lying on the track when struck by the engine.

Motorman Killed.

Cleveland, Ohio, July 31.—Motorman George Searles of Rocky River was electrocuted and Conductor James Porter of Cleveland severely injured yesterday when a special newspaper car on the Lake Shore Electric Railway jumped the track and was wrecked near Clifton Park.

Canoeist Seized With Fit Drowns.

Toronto, July 31.—Ashbridge's Bay claimed another victim yesterday afternoon, when Reginald James Stocks, a young C. P. R. fireman of West Toronto Junction, met death in its waters. Young Stocks, in company with a companion named Clarence Payne, of 43 Melville avenue, left the beach at the foot of Morley avenue in a canoe, shortly after three o'clock. Stocks fell out of the canoe in a fainting spell, and being afterwards seized with cramps was drowned. Stocks was barely 19 years of age and his mother was prostrated when told of the death of her only son. At a late hour last night the gravest fears were expressed regarding her recovery.

WEAK, SICKLY, PLAYED OUT?

You are ailing—robbed of desire to work—find it difficult to think clearly. Life is dull and unhappy.

There is a remedy—**FERROZONE**—that quickly braces and tones. Gracious! but Ferrozone makes you feel good; it makes you sleep, makes you eat, sharpens the appetite like a razor.

BLOOD? Ferrozone makes lots of it—the rich, red kind that vitalizes the whole body.

FERROZONE

Quickens, strengthens and builds up instantly. It gives you staying power, reserve energy, buoyant health. No tonic half so good as Ferrozone. Avoid substitutes!

Price 50c per box or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Any Troubles In Your BATHROOM?

If you are having any trouble with your CLOSET or BATHROOM CONVENIENCES, come round and have a talk with us.

A gentleman, attracted by the range of Sanitary Closets and excellent values we are offering, invested in a new one, although he already had one that was working not badly.

The way he looked over the Closets we arranged before him for inspection showed he had been sifting the matter, and knew how to prove and disprove the claims of dealers.

The saving of health and expensive plumbing repairs, warranted the investment, he said.

How is yours working? Bring your Bathroom Troubles to us. Our Toronto Stock is what we sell in our Peterborough Branch.

GOOD RESULTS BOUND TO FOLLOW CANADIAN MANUFACTURERS' RECENT TRIP TO ENGLAND

First of Peterborough Gentlemen Who Went With Manufacturers to Return is Mr. B. F. Ackerman—He Gives The Examiner an Interview in Which He Expresses the Greatest Satisfaction at the Incidents of the Trip—English People Deeply Interested in Everything Pertaining to Canada—Were Entertained by Royalty—Canadian Manufacturers Generally Fully Up to Their English Brethren in Modern Ideas.

Although in the estimates as published by the Dominion Government there will appear no report of any appropriation having been made for immigration purposes, payable to the members of the Canadian Manufacturers' Association, there is no doubt that the recent trip to England which about two hundred and fifty members of that excellent organization took will do more to stimulate immigration from the Old Country to Canada, and to create a favourable impression upon the minds of the people of the old land in reference to Canada than a great deal of the money which in the past has been spent for that purpose through the regularly organized immigration agencies, excellent as they may be.

The steamer Victorian, the official steamer of the Association on this trip has recently arrived from England bringing back the first contingent of manufacturers who took the trip. About fifty, out of the two hundred and fifty who went to England returned on the Victorian, and among that number was Mr. B. F. Ackerman, of Peterborough, who is the first of those who went from this city to return. He arrived on Saturday evening, and this morning received a representative of the Examiner and gave a most interesting recital of the events of his trip, which had proved decidedly pleasant not only to himself but, he thought, to everyone of those who had participated in it.

A Delightful Trip.

The official programme of the trip has already been published, consequently it is not necessary to refer to it other than to say that it was faithfully carried out, and that every feature of the trip was carefully planned, and was arranged in such a way that the maximum amount of pleasure was given to those who accompanied, or formed the party. Nothing but praise is expressed for the way in which provision was made by the steamship company for the comfort of the members of the Association, and the trip both going and coming, and especially the latter, since the steamer was not nearly as crowded, was most enjoyable.

Good Results.

Speaking of the results of the trip, Mr. Ackerman was strongly of the opinion that it would have a good effect, in fact good results were bound to follow the visit of the two hundred odd leading manufacturers of Canada to the old land, for in the itenerary of the trip they met and and talked with the most influential of the business men of that country, and everywhere they found them most eager to learn of Canada. some few years ago, it will be remembered, a party of English manufacturers came through Canada, as the guests of the Dominion Government, and on that occasion, the party, about three hundred went from one coast to the other through Canadian territory, and what they were able to see in that hurried trip only had the effect of whetting their appetite to learn more of this wonderful country, and, Mr. Ackerman stated in every city they visited they ran across men who had been on that trip, and they were the first to welcome them, and were most anxious to get into conversation with the Canadians that they might obtain more information in reference to the country about which there has in the past been such a lamentable lack of reliable knowledge in the average English mind.

Business Men Hospitable.

The Canadian manufacturers on this trip were rally the guests of the Chambers of Commerce of England, bodies which represent there what our Boards of Trade do in Canada, and it seemed that they could not show enough hospitality to their visitors. The most elaborate preparations were made for their entertainment, and they were treated in a way which must have made royalty feel jealous. In this case the British Government did not have any part in the reception of the visitors, but in their honour an unprecedented action was taken by the Administration. Instructions were given to the customs authorities to the effect that they were, on no consideration to subject the baggage, or luggage, as it is called there, of the Canadiaens to inspection. It is stated that this is the first time that such a thing has occurred in England since the laws in reference to inspection of baggage were passed. In going to France the same consideration was shown by the Government of that Republic. In view of the fact that the British Government had not prepared any programme for the entertainment of teh visitors, the business men of the country thinking, evidently that all the greater responsibility devolved upon them literally enveloped their guests with kindnesses, and it was a continual round of banquettings and feastings, going here, and going there, and in every place that they visited they were treated almost as if they were inhabitants from another planet, the people suspending ing work to come and gaze upon them as long as they were visible.

Little Speechmaking.

To give a detailed report of the incidents of the visit, said Mr. Ackerman, would require days, but it is sufficient to say that everything possible was done to render the trip enjoyable, and in this they succeeded. There was very little speechmaking as far as the Canadians were concerned. They were toasted at every banquet, and the duties of replying to these toasts usually fell to the officers of the Association, Mr. W. K. George, the President, and Mr. Young, the Secretary, while Messrs. Ballantyne, an ex-President, Hon. E. J. Davis, and a few others also gave addresses, but the majority of the visitors looked upon it as more of a holiday trip, and speechmaking was not what they went for. In this respect this visit was different from that of the English manufacturers to Canada, for they were over here strictly on business, and indulged in very little of the pleasures which were here for them to enjoy had they been so disposed. But the English business man is a very different person from the Canadian man of affairs. The former takes life very seriously, while the latter although he is equally as closely attentive to business believes that the "all work and no play" way of living is not the ideal way.

Presented With Souvenirs.

In nearly every city they visited the Chamber of Commerce or the City Corporation had prepared some souvenir for them, and these usually took the form of an elaborate booklet, in most cases beautifully bound and printed describing and illustrating the city, and its special features. These were presented to the visitors, and, needless to say they will be very highly prized by them, and will serve for years to come as very pleasant reminders of this delightful trip.

As is to be supposed, since it was a party of manufacturers, they visited principally the manufacturing centres, and, since England is preeminently a manufacturing country, there were many of these to visit. In all of them they were very cordially received, and the manufacturers took a special delight in showing the Canadians through their works, which in many instances were immense, as for example, the great gun manufacturing establishment of the Armstrongs at Newcastle-on-Tyne, in which 25,000 men are employed. The shipyards at the same city were also most interesting. At the present time these yards are not very busy, but they are turning out ships aggregating 750,000 tons per year, while their normal output is considerably larger than that. Speaking generally, the manufacturers of England, are not enjoying any great prosperity at the present time. The approaching close of the war has had the effect of reducing the demand for a great many articles which are made there, and many of the factories are either running on short time, or are closed.

Canadians in the Lead.

Mr. Ackerman noticed that while of course, in some lines of manufacture, iron goods, especially, their methods of manufacture were thoroughly modern, in others, in harness for example, the Canadian manufacturer is away ahead of his English competitor. They can hardly be called competitors either, for the Canadians do not care to accept trade from that country, even if they could get it, that is, of course, to supply goods similar to those made in England. One evidence of the extreme conservatism as noticed in the harness factories, was the fact that while in Canada the harness is now being very largely sewn by machinery, in England it is hand work altogether, or nearly so, and they have not even reached the stage of the "stitching horse," the old fashioned clamp still being used. Another peculiar fact is that girls are very largely employed in harness factories, and they do the very heaviest work; work which in Canada even men would not do.

House Maids' Hard Time.

The relations of the employer to his employee in England are very different from those prevailing here, and one of the examples of this was furnished. It appears that the general custom there is for dinner to be served at night, and on one occasion Mr. Ackerman inquired of his host how the servants got their evenings off when dinners were always served at night, and since it must be late when the work would be completed. The gentlemen to whom the question was addressed was quite surprised that it should have been asked and replied that the servants never had any evenings to themselves there. They were supposed to spend their whole time in the service of those by whom they were employed. In view of this statement it should not be difficult, one would think, to induce servants (to migrate) to this country, where conditions are so different, and where the average householder is usually glad to grant a maid the privilege of having every evening to herself if her services can only be secured for a few hours during the day.

Guests of King Edward.

As is, of course natural, London had a great attraction for the colonials, and a considerable portion of the time was spent there taking in the sights of the world's greatest city. They saw it all too, shams and Windsor Castle, and cigars donated the visitors on the occasion of their call on King Edward are prized very highly by the Canadians. To have taken lunch at Windsor Castle, the guests of his majesty, is an honour which falls to few of us, and if those who were fortunate enough to have passed through that experience may be pardoned if they display some pride in chronicling the fact. Not that the gentleman who accorded the interview from which the facts quoted were learned, gave any evidences of feeling especially or unduly elated over the fact that he was one of those entertained by the King, for it was by accident that this circumstance was mentioned.

Canadians Were Generous.

During this trip the Canadians gained a reputation for generosity and in many places where they went they threw pennies to the children on the streets, and as soon as they started this there was a wild scramble not only among the children but also participated in by the older people to reap the benefit of the liberality of the visitors. It is recorded that one old lady who followed them for a considerable distance one day told that as a result of her agility she had gathered in a whole pound, which to her, doubtless was almost a fortune. The practice of throwing pennies to the people on the streets was tried in Edinburgh, but the cabbies who were driving the Canadians protested against it and requested them not to do so, for they said, 'if you continue to do this the whole street will become blocked with people and you will not be able to proceed." It was pretty hard on the visitors, who were on the trip to spend money to be denied the pleasure which they derived from watching the scramble which resulted when one of their number threw a penny on the street, and the pleasure its recovery brought to the lucky one who procured it.

Story of the Champagne.

They were not all so generous, however, and a good story was told of one of the visitors, a man who bears a very common name, but, who it is needless to say, was not one of Peterborough's contribution to the trip. It appears that this manufacturer was very partial to champagne and in addition to his fondness for beverage he possessed a great reluctance to part with his money, consequently, on the steamer, where wine was charged extra, he was a very temperate man, but after they arrived in England and attended the banquets where usually there was an abundant supply of the sparkling beverage, this gentleman suddenly developed a strong appetite for it. On one occasion, however, to the great delight of the members of the party who had witnessed his peculiarities, he was, to use an expression which doubtless none of the members of the Association know the meaning of, "soaked." It appears that at this banquet, or dinner, wine was not on the free list, and those who wished it had to pay. Our friend, the nameless manufacturer, was not, however, aware of this fact, and when he saw others drinking champagne and he was getting none, he called the waiter, and in a tone in which there was considerable feeling of displeasure evidenced, at the seeming neglect of that person, he ordered a bottle of champagne. He took a drink, another and still another, and bye and bye, another series, and was beginning to feel quite satisfied with himself again.

His Ten Shillings' Drink.

At the conclusion of the dinner he was, however, considerably surprised to receive a bill for ten shillings, ($2.50) for champagne. After some objections he paid his bill, but at subsequent banquets he made inquiries before ordering his drinks as to whether they were going to cost him anything.

This man was an exceptional character, the great majority displaying a liberality which gave them as a body a reputation which places them in high favour with the English people.

A Close Relationship.

Mr. Ackerman is greatly pleased with the trip, and is of the opinion that the results will be most beneficial to Canada in the future. As this country becomes better understood by the people of the old land, the Dominion will be drawn closer to her, and a more intimate relationship will prevail, which will extend into the business dealings of the two countries. On every hand people were very anxious to learn of the prospects in Canada for immigrants, and it is not unreasonable to expect that even as a direct result of the visit of the manufacturers, the number of persons coming to this country from England will be increased. Mr. Ackerman is looking exceedingly well after his trip, and this morning was busy in his office picking up the threads of the business which he has been trying to forget during the last six weeks.

"OZONE" IT'S BEST FORM

The prompt and permanent removal of any internal germs is most surely affected by the use of "Solution of Ozone" if it's 'the coupon kind.' It means the liquified oxygen is in the most concentrated form and that in addition is given free with either the fifty cent size or the one dollar size of the solution a coupon good for a twenty-five cent package of "Celery King." This splendid tonic laxative is needed to obtain the best results in the use of the stringent "Ozone" without lessening its curative properties. The Public Drug Co., Bridgeburg, Ont. control exclusively the manufacture of both "Solution of Ozone" and "Celery King." Sold by W. B. WARNE. 10

Chamberlain's
COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.
It has been used in nine epidemics of dysentery with perfect success.
It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.
It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.
When reduced with water and sweetened it is pleasant to take.
Every man of a family should keep this remedy in the house. Buy it now. It may save life.
Price, 25 Cents.

VICHY
CELESTINS

Kidney Disease for Twenty Years.

Mrs. Caswell Reid, Orrville, Muskoka, Ont., writes: "For nearly twenty I was was troubled with kidney disease and have recently been completely cured by using three boxes of Dr. Chase's Kidney-Liver Pills. I have tried a great many remedies but never seemed to get anything that did me so much good until I used these pills."

Announced Elopment.

A beautiful young woman, richly attired, accompanied by a young man making manegrammed cigarettes, entered one of the newspaper offices in Albany the other night and announced that they had eloped and wanted their friends to know it. They gave their names as Belle Miller Maxon, of Baton, and Harry Martin Hollister, of New York, son of a wealthy business man. They came here yesterday and were married by Rev. Frank J. Knapp, of St. Peter's church. The young couple then left for Lake Placid.

THE NEW OTTAWA MINT.

There are several interesting questions relating to currency, apart from the purchase of the gold supplies of the Yukon that will come up for practical treatment when the new mint is opened in Ottawa.

The opening of the new mint is, says the Ottawa Free Press, more of national than of local significance, but its importance as one of the productive institutions of the capital is beyond question. In more senses than one it means the production of wealth.

One of the earliest effects of the mint will be seen in the lessening of the quantity of worn and defaced silver in circulation. This has long been the subject of complaint. The withdrawal of this low grade currency and its replacement by bright and shining new coins will be hailed with pleasure.

It is a noteworthy fact that many of the worst specimens of the defaced coins are of American origin, and these, as Mr. Fielding announced, in Parliament, it is the government's intention to deport through the banks.

This deportation it may be remarked incidentally is fully justified by teh fact that Canadian currency is not accepted in the United States at face value, and a Canadian bank bill is rarely accepted as legal tender.

But to return to the mint, its importance in the transformation of the currency and in the elevation of its standard will be considerable.

The mintage of the currency will consume quite a large proportion of the output of the precious metals; and will put a stop to the present large exportation of gold from the Yukon and other producing centres through American channels; while the silver mining districts should experience very material benefit indeed. In this respect the new silver discoveries in the Temiskaming district would seem to have been made at an opportune time.

One of the interesting questions that will come up for serious consideration in connection with the mint will be the suggested adoption of nickel for coinage purposes.

There is a strong prejudice against the American nickel on five-cent piece; but that is largely due to its dirty appearance, its dull and unattractive colour, and its form and size. Its objectionable appearance is largely owing to the fact that it is not manufactured from pure nickel, but from alloy of copper and nickel in which the copper finds so large a place that the coin can only be correctly described as a copper-nickel alloy.

A nickel coin would certainly be a good advertisement for Canada's valuable nickel resources, and the minting of the Sudbury nickel for coinage of a low denomination would be an interesting mineral diversion to the capital.

Among the advantages of using nickel for coinage purposes may be included durability, its untarnishable qualities and its high scrap value when removed from circulation.

DECEASE OF MRS. ALFRED GARLICK

After an Extended Illness — Funeral To-morrow Morning.

There passed away on Saturday, a well known and highly respected lady, in the person of Mrs. Garlick, wife of Mr. Alfred Garlick, 33½ Water street.

The deceased was 49 years of age, and has been ill for over four years, with rheumatism. Although a great sufferer, she was always most patient and cheerful.

She leaves besides her husband, four sisters and two brothers. Her sisters are Mrs. J. Nelson, Washington; Mrs. J. McGee, Parry Sound; Miss R. McLaughlin, Rochester; Miss Ellen McLaughlin, Peterborough. Her brothers are Messrs. Peter McLaughlin, of Wisconsin; and Edward, of Sturgeon Bay.

The funeral will take place tomorrow morning at nine o'clock to St. Peter's Cathedral, and thence to the Roman Catholic Cemetery for interment.

FORMER PASTOR PREACHED HERE

Rev. J. A. Wilson Occupied Local Pulpits Yesterday.

Preached in St. Paul's and Knox Churches Yesterday.

Yesterday the members of the congregations of St. Paul's and Knox Churches had the pleasure of listening once more to sermons preached by Rev. J. A. Wilson, who, for some years was the associate pastor of St. Paul's and St. Paul's Mission, now Knox Church, and for some months now a most successful pastor in a Hamilton church.

At the morning service he was heard in St. Paul's, and in the evening he preached at the church in the south end of the city, which he had so much to do with the building up of, and, in spite of the disagreeable weather both morning and evening, both churches were well filled to greet the former pastor. His expositions of gospel were much enjoyed, and it was seen that he had lost none of the fervour which characterized his ministry while here.

The life and experience of Enoch, the Old Testament character, formed the subject of his discourse in the morning, and his text was found in

REV. J. A. WILSON,
Of Hamilton. Former Associate Pastor of St. Paul's Church Who Preached Here Yesterday.

Gen. v. 24, "And Enoch walked with God, and he was not for God took him." The chapter in which these words were recorded formed the lesson of the morning service, and the speaker remarked that to most people it was long and uninteresting, containing nothing but names. A long category of bible names, with a statement of the ages of men, who they begat and their age at death. The reading of this chapter makes us think that the same expression will be used of us, that "he died." As far as this life is concerned it will be the end of our lives, but, said the speaker, it need not be our end, since Jesus Christ has died and has risen, and has gone to prepare a place for us.

When, in our reading of this chapter we come to the name of Enoch, we reach what may be well termed an oasis in a desert of names. It is it is recorded of him that "He walked with God." This list leads up to Enoch, who was one of God's noblemen, and who went to be with God. The lesson he drew from this circumstance was that the plain, ordinary lives may lead up to something higher and holier. He pointed out that while the fathers and grandfathers of his hearers may not have stood high in this work, their lives may have been designed to lead up to those to whom he spoke, which might be beautiful and pure.

He made an appeal to the young people in the congregation, and said that they had the power within them to rise above their surroundings in life and make themselves powers for good in the world.

In this life some men are renowned because of their wickedness, but Enoch was singled out by the writer because of his extraordinary goodness, and he counselled his hearers to so conduct their lives that they too would be pointed out as men and women who were examples of goodness.

It is impossible, he remarked, to walk with God if one is in his life going in an opposite direction. What, he asked, does walking with God imply? It means in the first place a giving up of those things in our lives which are contrary to the will of God. Enoch walked with God after he had begat a son, and the speaker belived that the advent of that little life had turned his face towards God, and had given him a new inspiration and a new start in life. The same results should be seen in homes to-day. Children, too, were sent that they might bind us closer to God.

Referring to the results which followed this walking with God, the speaker said that Enoch was one of only two men of whom it was said that "God took him." If we follow the example set by this Old Testament character death will have no terrors for us, for it simply be a translation into heaven.

At the morning service yesterday Miss Helen Davies, during the offertory, rendered a solo very sweetly.

Boxed Writing Papers

Whether writing paper is wanted for the vacation trunk or the home desk, it will be worth your while to see what our stationery department is offering in boxed papers at a quarter. Very dainty Abbotsford is a fine paper in plain white and tints. Linen Laws is a very fashionable sheet, with envelopes, at 10c pkg., or 3 pkgs. for 25c.

GOOD FISHING AT YOUNG'S POINT

Many Large Catches Are Reported.

Funeral of the Late John Hendershott --Many Guests at Lakeview House.

The fishing is good at Young's Point, and notwithstanding the large demands upon the finny tribe in Kawartha waters during the past decade, it remains one of the best fishing grounds on the continent.

The following are among the recent arrivals at the Lakeview House, Young's Point:—Mr. and Mrs. W. H. McKay, Rochester, N.Y.; Messrs. R. Hoch, F. Messer, Buffalo; Mr. J. Carley, W. Watt, Hamilton; Miss Margaret O'Connell, Peterborough: J. Hamilton and F. Wood, Pittsburgh: J. Sholtz, Niagara Falls, Harry Gough, Pittsburgh, Pa.

Mr. Remington Hoch, who has been rusticating at the Lakeview House, Young's Point, during the past two weeks, left on Saturday for his home in Buffalo, well satisfied with the result of his fish. Mr. Hoch, while at Young's Point, captured his limit of bass and lunge each day, and stated when he was leaving that his annual trips to Canada saved him a doctor's bill each year.

Mrs. J. Hendershott, whose husband died recently in Cincinnatti, arrived in Young's Point last week, accompanying the remains. The funeral took place on Monday to St. Mary's Catholic Cemetery, Young's Point. Mrs. Hendershott's large circle of relatives and friends in Young's Point extend to her their sympathy in her bereavement.

Miss E. Tierney, of Ottawa, is visiting with friends in Young's Point.

Rev. Father Teefy, of St. Michael's College, Toronto, is visiting with Rev. Father Phelan.

A large number of drives have passed through the Point recently. Among these were Hazlitt's, Tate & Lillicrap's and Rathbun's, which passed down the river last week in succession and are now being sorted at Lakefiled. One of the Dickson Company's drives is at present there.

HOW TO LIVE ON $1.27 PER WEEK

Two Young Men Have Solved the Problem.

The Bill of Fare for a Week—Were Vegetarians.

Can a man subsist on $1.27 worth of food per week and retain his full vigour and strength? Many experiments have been tried to ascertain just how little a person requires to keep in a sound physical condition. The facts adduced reveal many of our most glaring food faults. They tend to show that the most nutritious foods, such as cereals, are the simplest and cheapest, while many of the foods that are almost lacking in tissue building or strength-giving elements are the most costly.

Two lads who had to "work their way" through a local educational institute, solved this question in a unique way. The necessity for adopting a cheap but nutritious diet led them into by-paths of dietetic knowledge. They discarded meat entirely, using pecan nuts which they purchased in the form of butter at 35 cents a pound. They also avoided white flour products, eating largely of whole wheat foods, rolled oats, milk, oysters, vegetables, eggs and fruits. They gave their expenditures for an average week as follows:

Wednesday, shredded wheat, 11c; milk, 15c; Thursday, bread, 25c; butter, 25c; Friday, bananas, 5c; Saturday, shredded wheat, 11c; blackberries, 15c; Sunday, milk, 10c; oysters, 10c; Monday, fish, 10c; Tuesday, shredded wheat, 11c; total for the week, $1.48 actual expense for food.

The average weekly expenditure for food for the entire college year was $1.27. These young men made a high average in their studies, and took an active part in outdoor athletics. Their daily programme also called for physical exercise morning and evening, and a cold bath in the morning. Under such a regime their health was perfect.

FIRE ENGINE QUESTION WILL BE DISCUSSED

At the Meeting of the Committee of the Whole Council To-night, When an Expert Will be Present to Advise the Council--Tenders for Different Engines Will be Again Considered--The Question of a Reception for the Old Boys Will be Taken Up at the Meeting of the Aldermen To-night.

To-night at the special meeting of the City Council in Committee of the Whole, the question of a fire engine will be among the many matters to be considered, and an expert will address the aldermen on the respective merits of the different engines upon which tenders have been received.

The members of the Council realized that they were, because of their lack of technical knowledge of fire engines, unable to form an intelligent opinion as to the capability of the various engines, consequently they have secured the services of an expert who will advise them.

Another matter which will engage the attention of the city legislators at the meeting to-night will be that of the reception of the Old Boys next Monday. The chairman of the Finance Committee states that as yet as far as he has been advised, the matter of the reception has not been considered by the Council or by any committee. It is probable that something may be done at the meeting to-night.

CITY NEWS OF TO-DAY

—To-morrow the annual picnic of the S. A. Band will take place.

—Quaker Bitters, the Great Blood Purifier, at Ormond & Walsh, Druggists. 15eod

—The bricklayers commenced work this morning on the wall of the new Opera House.

—Show Case for sale cheap. Apply at the Framery, 2 doors west of post office.

—Ald. W. J. Johnston commenced work this morning on the improvements to the Golden Lion.

—Mr. George Curtis is racing his horse, Minnie Keswick, in U. S. territory this week at Oakville.

—The Charity Board will hold a meeting to-night in the City Clerk's office, preceding the meeting of the Council.

—The work of replanking the Brock and Aylmer street bridge has been completed, and it is safe to drive over.

—To-day is the last day of July. The summer which we have found so much fault with will soon have merged into fall.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonel street. 'Phone 199.

It pays to buy from

THE BEST STOVE CO.

—To-night the Radial Railway Co. will give a special service to Jackson Park, where a moving picture show will be given.

—Work will be commenced on the outfall sewer in the Fifth Ward as soon as the contractor gets his material on the ground.

—Mr. Ed. Manning landed a fine 18-lb. lunge on Thursday last. He has had great luck fishing during his two weeks' stay on Stony Lake.

—During the month of August a number of the ministers of the city will enjoy their annual holidays, and the pulpits will be filled by supplies.

—To-night a special meeting of the City Council will be held, when it is expected that a number of important matters will come up for discussion.

—Rev. E. A. Langfeldt will conduct a cottage meeting at the residence of Mr. Edwin Curtis, Sr., Douro Road, on Friday, August 4th at 8 o'clock.

—Congregations in the city churches yesterday, by reason of the wet weather and the fact that many of the citizens are away on their vacations, were small.

—We clean, press and do minor repairs to your wardrobe for a trifling fee. Telephone 575, and we will send for and deliver your parcels. "My Valet," George street.

—The usual list of Civic Holiday excursions are being announced, and, according to present indications there will only be the police and the firemen left in town that day.

—"Coal Shed" Murphy intends removing from his residence to-day. He says he has no friends in town and is not even given police protection, and he says he is going to get out.

—Work was commenced on the brick work of the new opera house this morning, when contractor McPherson started a gang of men at work. He will rush the construction of the walls.

—On Sunday next the sessions of St. Paul's Sunday School will be held in the afternoon, and following that day the afternoon sessions will be resumed. During this month the school has met in the morning.

—Mr. J. E. A. Fitzgerald gave the old people of the Protestant Home an enjoyable outing to Jackson Park this afternoon. Mr. Fitzgerald provided conveyances to drive them to the park, where they will take tea.

—Saturday afternoon Mr. R. B. Rogers, engineer of the Trent Valley Canal, took his house boat, "The Lotus" from the city. It will be towed through the canal to Lakefield, and thence to his summer cottage on Clear Lake.

—E. A. Baker, of Heintzman Piano Company will be in Peterborough for the next ten days. Orders for tuning pianos left at Ormond & Walsh's drug store will receive prompt attention. 'Phone 146. 3d23

—Yesterday in Charlotte street church, in the absence of the pastor, Rev. W. J. Jolliffe, sermons were preached by Rev. T. G. Brown, of Lakefield, who will continue to act as supply pastor until the return of the pastor, about the end of August.

—Court Peterborough, No. 29, C. O. F., will hold a special meeting to-night, at 8 o'clock, to make arrangements for the funeral of their late Bro. Wm. Long.

—Mr. J. C. Snook will lead the study at the Summer Bible Club at the Y.M.C.A., on Saturday night, Aug. 5th. The interest in the club is being well sustained during the summer. All young men are welcome to the weekly meetings.

—The first of Peterborough's deputation to England with the Canadian manufacturers has returned, and is greatly pleased with the way the people in the "Old Country" treated their Canadian friends. They simply smothered them with kindness.

—Complaint is made that the fountain in the Fifth Ward, intended to refresh the horses, has been dry practically all summer, and the suggestion is made that if it is not the intention of those who are responsible to have water supplied, it might be sold for scrap iron.

—The window facing on Charlotte street at Demestre Bros. confectionery, was broken last night, about 9 o'clock. A number of boys were sitting there, and one of them hit the glass with his elbow and cracked it. "The Framery" has been given the contract for supplying a new plate glass window which will cost $50.

—Mr. W. R. Morris, chartered accountant has moved his office from the present location, corner George and Simcoe streets, to that formerly occupied by the Cold Storage and Provision Company, in the front of Messrs. Roger and Bennet's office, Water street.

—At a funeral in Picton, Rev. W. L. Armitage said that undeniably the deceased was given on Sabbath the liquor which practically caused his death by drowning. He urged men to abstain from the dreaded curse. The fact that liquor could be obtained on Sunday was something to be sadly deplored.

—The attention of farmers is called to the new class in the live stock department of the Central Canada Fair Association's prize list. It is for bacon hogs, and six prizes are offered in each class. The fair directors accept every suggestion in the interests of the stock-breeder and farmer, with a hope of pleasing their many patrons.

—A week from to-day and the Peterborough Old Boys will be with us. Citizens should do a little decorating in honour of their visit. Many who were in Belleville last week on the occasion of the Old Boys' Reunion say that the decorations were simply gorgeous, the people of that city seeming to vie with each other in making their residences and business places look bright and gay.

—A New Orleans despatch says that the Sanitary Committee in the Italian quarter found a full-grown cow in the third story of a building on Chartress street. They wondered how the animal got there, as the stairs were old and rickety, and would scarcely hold up the weight of a man. It was ascertained that the Sicilans carried the animal up the stairs, while it was a calf, and raised it there.

PERSONAL MENTION

Mr. A. Franklin Lane is in Montreal for a few days.

Mr. A. L. Davis, of Toronto, spent Sunday in the city.

Hon. Senator Cox was in Peterborough, spending the Sunday.

Mrs. Peter Glover left Saturday on a trip to Kingston and the Thousand Islands.

The Misses Maud Hallihan and Minnie Connors left to-day for Stony Lake.

Mr. Tom Noyes, of Madoc, is spending a few days with friends in this city.

Miss Eva Staples, of Lindsay, is in town the guest of Miss Gertrude Pollard.

Miss Laura Beileghem has returned home after spending a holiday in Owen Sound.

Miss Rena Hall, of Orillia, is in the city, visiting her cousins, Misses Edna and Lillian Hall.

Mr. J. J. Thompson, cutter for H. LeBrun & Co., is holidaying at Glenora, and Glen Island.

Mrs. G. F. Marsh, of Huntsville, is the guest of her daughter, Mrs. C. E. Frost, at the National.

Miss Eva Noyes is spending her holidays at her brother's, Mr. William Noyes, Parkdale.

Mrs. Wm. McGregor, left on Saturday night to spend a few days with Port Hope friends.

Miss M. Kitney and Mr. Roy Speirs were the guests of the Misses Swinton, "Dunkeld," on Sunday.

Rev. A. H. Brace leaves to-morrow for a month's vacation to Grimsby Park and western points.

Miss Mabel Sutton, who has been visiting Miss Mabel Cookson, returned to Oshawa this morning.

Mr. and Mrs. Henderson, of Norwich, are on a two months' visit to Mr. and Mrs. A. W. Cressman.

Mr. and Mrs. J. C. Anderson, of the Fifth Ward, have gone on a visit to Port Hope and Rochester.

Mr. R. F. Choate, of the Examiner staff, left Saturday to spend a holiday at Stony Lake.

Miss M. McWilliams left to-day on a vacation to visit Peterborough and Cobourg friends.—Lindsay Post.

Mr. F. D. Mackay, general manager of the Canadian Machine Telephone Company, Toronto, is in town to-day.

Mr. J. L. Picard and Mr. F. O. Alison, of H. LeBrun & Co's. are enjoying their two weeks' summer vacation.

Mr. B. F. Ackerman returned on Saturday from England, where he went with the Manufacturers' Association.

Miss A. Roseborough, of city, and Mr. Ray Markle, of Hamilton, spent a very pleasant time at "Dunkeld" over Sunday.

Miss Clara Garnett, of Port Hope, who has been visiting in Oshawa, Bowmanville and Stony Lake, spent the week end in town.

Mr. C. H. Allison, secretary of the President of the Illinois Central Railway, New York, accompanied by Mrs. Allison, is in Peterborough for a holiday.

Mrs. H. Greene, of this city, and her sister, Mrs. A. Wilde, of Havelock, left on Saturday for an extended visit to friends and relatives in Mapleton, Minn., U.S.A.

The Misses Lillian and Ethel Primeau left this morning for Philadelphia, via. Rochester. They will be accompanied from the latter city by their cousin, Mr. Gerald Homan.

Mr. D. C. Gilmour, of the Bank of Montreal staff, has received word of his transfer to the Toronto offices, and his place here will be taken by Mr. A. T. Reid, of Chicago.

Miss Mary Jenkins, Miss Muriel Somerville and Master Lynn Somerville, who have been the guests of the Misses Jenkins, Stewart street, returned home to Toronto this afternoon.

Mr. B. Tovey, Mr. B. Cranfield, Miss F. Butcher, Miss S. Free have returned from Jubilee Point Hotel, after spending a most enjoyable week at the Point as well as having many catches of the finny tribe.

Rev. J. C. Davidson, rector of St. John's Church, will start this week on a month's vacation. During his absence Rev. E. A. Langfeldt will celebrate Holy Communion on the first and third Sundays in August.

Rev. A. H. and Mrs. Brace took leave of their congregation yesterday, receiving many hearty good wishes. They leave on Tuesday for Chatham, with a month's check in advance, to spend their vacation with their daughter and her husband, Mr. and Mrs. Black.

SOME FACTS ABOUT ADVERTISING COST

American Journals Which Get Big Prices for Space.

What it costs to advertise in some papers would make the ordinary newspaper advertiser stand aghast, but it may be of interest to some of our readers to know what advertisements in the magazines cost. Everybody's of "Frenzied Finance" will shortly increase its rate to $1,000 a page each issue. The highest priced medium in the United States is the Ladies' Home Journal, in which you pay $4 per agate line. It takes fourteen of these lines to make one inch and a microscope or a strong pair of glasses to read one. A single page for one insertion brings about $4,000. A four inch one-time ad costs $336 payable in advance with no discounts. A Chicago trade journal recently got $6,000 for a single ad in one issue. Mr. Post, of "Postum Cereal" fame, made himself a millionaire by advertising in the short space of five years. He was not one of that kind you meet who think $35 an awful price to pay for an ad nor was he one of those who claimed to know everybody and everybody knew him.

Barber's Meeting.

The regular monthly meeting of the Barbers' Union will be held in Rundle's barber-shop to-night at 8.30. Archie Brault, Secretary.

Court Peterborough No. 29.

A special meeting of Court Peterborough, No. 29, C. O. F., will be held this evening at eigth o'clock to make arrangements for attending the funeral of their late brother, Wm. Long, which takes place to-morrow afternoon at 2.30 o'clock.

At Oke's.

We are receiving fine raspberries, blue berries, and cherries. Would advise early buying, especially of cherries, as they will soon be done. O. A. OKE, 376 George street. Telephone, 18.

FIRST FRUITS OF PEACH PARADISE

The First Peaches of Native Production in Hamilton Saturday.

What Constitutes a Genuine and Perfect Peach.

Peaches—what a luscious and suggestive sound in the word, whether applied to the fruit or a blooming damsel, sometimes weakly described by this fruity title. Peaches for 1905, of native growth for the first time made their appearance on the Hamilton market on Saturday last, June 29th. Toronto may jeer at Hamilton as slow but in some respects the Ambitious City is a "peach". Toronto can't board a street car and take a run to a suburban peach orchard, or pick peaches in the back garden, anyway, as Hamilton can do. Speaking of the luscious quality of peaches, the people of Peterborough and other places distant from the place of growth, don't know what a peach is, that is in the fullest degree of its luscious toothsomeness. Nobody who has not visited a peach orchard and plucked the tree-ripened fruit ready to drop, which will almost melt in the mouth in ambrosial juiciness, can know what a peach means. Some faint idea of what such a peach must be can be formed from the specimens we get on the home market. They are delicious, but nothing comparable to the tree-ripened fruit. The tree expends all its nectar, evolved in the mysterious laboratory of nature in ripening the fruit, and all this is all stored up in the exquisite flesh of the perfect peach. Peaches which have to be shipped to distant markets have to be picked before they are mature, and though they may seem ripe when we get them in Peterborough that condition is not the result of the rich natural ripening, but of a sort of decay. The only way to get a full appreciation of a peach is to have it pass from the bough to the hand and from the hand to the mouth, where, when fully ripe by the natural process, it melts in ambrosial sweetness upon the ecstatic palate.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

THE BELL TELEPHONE COMPANY OF CANADA has been operating for twenty-four years. Its operations were at first confined to the Provinces of Quebec and Ontario, but later it also undertook business in the Northwest.

The amount expended by the Company during this time in building up its system is $10,558,686.79, over $3.00 per head of the population of the country served.

Considering that large sections of these Provinces are sparsely settled, that there are large areas where the Bell Company does not operate, but which are served by other Companies, the amount invested will compare favorably with any other country.

THE BELL TELEPHONE COMPANY OF CANADA has secured from investors this large sum of money upon the record of its management. While scores of other telephone organizations both in this country and the United States have either failed to pay dividends or gone to the wall, involving the loss of millions of capital, the stock of this Company has always been sold at par or upwards. The Company has survived the keenest competition in important centres,—all of which is a practical endorsement of the Company's management.

Is it not an advantage to telephone users and to the commercial interests of Canada, particularly during this period of national development, that so important a factor as the local and long distance telephone service should be in the hands of a strong company which commands the confidence of capitalists? Confidence and cash go hand in hand in the up-building of a telephone system, and both are an absolute necessity to continuous development. It is certain that the development of the next ten years will exceed that of the past twenty years. It is essential that the confidence of capitalists shall be maintained if the requirements of this growing country are to be met. This cannot be unless returns upon the investment are assured by reasonable rates, careful administration and an energetic and continuous policy.

SUICIDE OR ACCIDENT?

C. E. George of Devercourt Found With Top of Head Blown Off.

Toronto, July 31.—About 6 o'clock Saturday night Charles E. George retired to his bedroom at his residence on Main street, in Dovercourt Village, and shortly afterwards a shot was heard. On his family going to the room Mr. George was found lying on the floor with the top of his head blown off and the wall covered with blood. His legs were across the stock of the shotgun and both hands were holding the muzzle, which was pointing towards his head.

It was quite evident that death was caused by the discharge of the gun, but whether by accident or design does not seem to be quite clear. His wife attributes his death to accident and spouts the idea of suicide, as she says there was no reason whatever why he should take his own life.

The victim of the tragedy was at one time a market gardener, but lately he has been in the employ of the Canada Foundry Co. He worked Saturday forenoon in the foundry. He was about 50 years of age, and leaves a wife, two grown-up sons and three daughters. His home life was happy and, so far as is known, he was not given to fits of depression.

Dr. Conboy of Bloor street was called in, and afterwards Dr. C. W. Clendenan, coroner, of Toronto Junction, was sent for, but after investigation the latter did not deem an inquest necessary.

Sentenced as Vags.

St. Catharines, July 29.—Three young men, who said they were from Toronto, John and James Walsh and Frederick Brophy, were yesterday afternoon sentenced by Magistrate Comfort to six months in the Central for vagrancy.

MANAGER McEWAN DENIES RUMOURS

Says That Douglas Did Not "Throw" Thursday's Game.

Believes That Peterborough Has a Better Team Than Bowmanville Yet.

Mr. R. W. MacEwan has written the Examiner a letter in reference to the game in Oshawa on Thursday, in which Bowmanville defeated the local team. The rumours to which he refers may have been street talk, but they were not given expression to in the Examiner. The letter follows:

Peterborough, July 31, '05.

Sporting Editor,

Dear Sir,—Rumours have been circulated to the effect of Douglas, our pitcher, throwing the game at Oshawa with Bowmanville on the 27th. This I wish to give a most emphatic denial. Douglas to-day is the best of any pitcher in the Midland League, and our defeat was the cause of him being too anxious and wtih lack of confidence in third-baseman Stayne, who simply didn't try to play. Our defeat has been taken by the players and myself as it should be taken. Bowmanville won, and we extend congratulations. But we are not satisfied that Bowmanville is the best team by any means. We have the best pitchers by a good margin. The best first-baseman; the best shortstop, and the rest of the players are on a par with the players in Bowmanville. It was simply a case of luck being against us. We are tied for first place in the Midland League, and from present indications we will meet again, and we will do the best we can to regain the support of those we lost so easily. We feel our position in not being able to return the price to one so honourable as Mr. Graham, who, by the way, takes our defeat with the grace and spirit that becomes a true sport. I trust, Mr. Editor, that this will set aside all rumours that have been set afloat connecting any player of wilfully losing the game on the 27th. I remain,

Yours respectfully,

Robert P. MacEwan,

Manager for Peterborough B.B.C.

REGATTA WILL BE A SUCCESS

Prospects are Excellent for the Chemong Aquatic Event.

Committees Were Appointed on Saturday Night—A Band Concert Probable.

On Saturday night a meeting of the committee arranging for the Chemong Park Regatta on August 22nd, was held at the park hotel, when the several committees were appointed and details discussed. The prospects for a successful regatta are excellent, and the cottagers are entering into the spirit of the affair with enthusiasm. It is probable that the 57th Band will be secured to render a programme on the night of the regatta, and other interesting features will be provided for the benefit of those who favour the committee with their presence.

The races promise to be most interesting and perhaps exciting, and it is probable that this feature of the regatta will prove more interesting than it has in the past.

THE ANGLERS AT HALE'S BRIDGE

A Pleasant Outing Was Enjoyed on Saturday.

Angler Brown Secured the Prize for Largest Catch.

The C.G.E. Angling Club had a delightful outing on Saturday afternoon per steamer Rob Roy, to Hale's Bridge. The weather was rather murky, but this did not dampen the spirits of the local nimrods. After a pleasant run to the bridge everyone was eager to try his luck at the finny tribe. Fish rods, pike poles, clothes props, grappling hooks were very soon gotten out, and each armed with a tomato can proceeded to the most likely place in the vicinity of Hale's Bridge. The competition for the prize for the greatest number of fish was very keen. At six o'clock the boys were called in for supper. After the inner wants were satisfied the fish were weighed. This was done by balancing a 10-foot board, then placing the fish on each end. It was found that Angler Brown had the heaviest catch by a sunfish. Angler Hicks was a close second with a small perch. It was whispered among the boys that Angler Brown had been seen talking to a red-skin. This Angler Brown strenously denied, so the prize of a cigar case was presented with cheers for the victor. In response Angler Brown thanked the boys and donor with a few remarks. Hale's Bridge was left at 6.45 p.m., when singing and stories were indulged in till the locks were reached. The boys are delighted to go with Boss Admiral Roy at all times, and he was voted a jolly good fellow. The wharf was reached in due time, all pleased with the outing. It is the intention of the club to run their annual excursion in the near future of which further particulars will be given later.

BASEBALL.

The locals journey to Port Hope next Saturday to play the bunch in that place. Douglas will probably hold down third and Quinlan will try to dish up the kind of ball he served in Bowmanville.

* * * *

The local management have secured a third baseman among the Shovel Company's employees. He hails from Pennsylvania and is said to be a dandy.

* * * *

The local sailors have a contract to play the Royal Canadians next Monday. The Royals have never yet been defeated this season and a good game for the holiday is a sure thing.

* * * *

The team to represent St. Andrew's to-night will be picked from the following:—Dunsford, Cameron, Dobson, Miller, Thornton, Butcher, Foley, Swanston, Patterson and McDonald.

* * * *

It was Oshawa with the Royal Canadian battery that gave Bowmanville their first defeat.

SWIMMING.

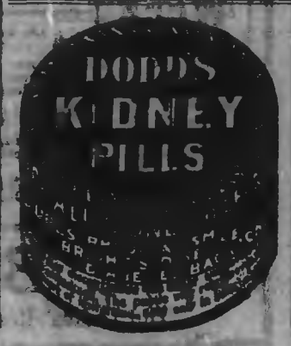
The Toronto News says:—The achievement of Mr. H. F. Strickland, of this city, who the other day swam ten miles in the Trent Valley Canal, near Peterborough, in remarkably fast time, adds additional interest to the ability displayed by Miss Annette Kellerman, the 19-year-old girl from Australia, who has broken the record for long-distance swimming in the Thames river, England. She successfully covered 123-4 miles in three hours, 54 minutes and 16 seconds. Miss Kellerman used the overhand trudgeon stroke without variation the whole way, and on emerging, declared she could have gone another 12 miles, but she was hungry. Prior to going to England Miss Kellerman swam ten miles in 4 hours and 52 minutes, a result that is scarcely without a parallel in the history of amateur pastime. Miss Kellerman, on this occasion, wore only the scanty and picturesque costume of the latter-day swimmer, and, although she described the water as "lovely", an immersion of nearly five hours rendered it a trifle chilly toward the end.

LAMENTED DEATH OF WM. L. LONG

Deceased was Highly Respected Young Man of 27 Years.

The death occurred yesterday at the home of his parents, Mr. and Mrs. Wm. Long, 710 Water street, of Mr. Wm. Lewis Long, their eldest son, at the age of 27 years and 10 months. The deceased had been ailing for the past six years, and during the past two months had been seriously ill, so that his death was not altogether unexpected. The late Mr. Long was a young man who was very highly respected by his large circle of acquaintances, and his death will be deeply regretted by them. Deceased was a brother of Mr. Herb. Long, a member of the Junior O.H.A. team of Peterborough. The funeral will take place on Tuesday, at 2.30, to the Little Lake Cemetery, where interment will take place.

—Dr. Oronhyatekha left Toronto on Saturday to attend the triennial session of the supreme body of the I.O.F., which will convene next week at Atlantic City. Merely routine matters will be discussed, and as far as known there will be no radical changes proposed. The chief executive stated before leaving that there would be no discussion of changes in rates, and that in all probability there would be no recommendations or proposals advanced on this topic at this session.



We Tell Our Friends there isn't any soap made, as good as "SURPRISE," which is "A Pure Hard Soap" that washes well and wears well.

THE ST. CROIX SOAP MFG. CO., St. Stephen, N.B.

CANDIDATES AT LAKEFIELD

Names of Those Who Wrote on the Entrance There.

An Addition to the Report of the County Public School Inspector.

Below will be found the names of the candidates for entrance to who wrote at Lakefield, and the schools at which they were prepared. The schools were not at hand when the previous list was published. Those who failed throughout the county will receive their marks in a few days:—

Clarence Baptie, Lakefield.
William Barrie, 7, Douro.
Ella M. Bates, 1, South Burleigh.
Allen Bravender, Lakefield.
Florence Brooks, 3, Douro.
Annie Condon, 7, Douro.
Phoebe Crapp, 9, Douro.
Georgina Davidson, 4, Smith.
Arthur Edmison, 3, Smith.
Rose Farley, 8, Douro.
Teresa Flood, 4, Ennismore.
Michael Foley, Lakefield.
Elwin Fowler, 9, Smith.
Nellie Galvin, 4 Ennismore.
Zeta Galvin, 2, Ennismore.
Eliza Gilgore, 4, Smith.
Eric Harvey, 16, Otonabee.
J. Arthur Houlden, 16, Otonabee.
Kline Gordon, Lakefield.
Lizzie Leahy, 3, Douro.
Helena Maloney, 4, Ennismore.
John McConkey, 9, Smith.
Anatrasia McGarrity, 7, Douro.
Anastasia McGarrity, 7, Douro.
Kathleen Maloney, 1, Ennismore.
Paul Maloney, 3, Douro.
Josephine O'Brien, 7, Douro.
David O'Connor, 4, Ennismore.
Florence Preston, 7, Smith.
Mary Quinlan, 4, Douro.
Eliza Richardson, 1, Smith.
Hazel Sanderson, 7, Smith.
Walter Shannon, 3, Douro.
Lessie Stillman, 1, Smith.
Gladstone Telford, 3, Ennismore.
Kate Tobin, 4, Douro.
Hazel M. Walsh, 1, S. Burleigh.
Lottie Walsh, 7, Douro.
James Watson, Lakefield.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

On Saturday night I had occasion to ride on a street car on George street in which there were a number of ladies. Three men got on the car, all smoking. This they continued to do during the whole time they were in the car, and apparently pretty well intoxicated, disgusted the other passengers with their filthy conversation. As far as I saw the conductor made no effort to induce them to either stop smoking or to refrain from using language which no one, and, especially ladies, should have to listen to on a street car.

Probably if Manager Larmonth's attention was called to this it might be remedied.

IN ONE NIGHT.

Wonderful Effects of Smith's Pineapple and Butternut Pills.

TRY THEM. YOU WILL USE NO OTHER

When the liver refuses to perform its functions of secreting bile and the bowels become inactive and loaded with foul waste materials, the effect on the mind is most distressing.

Under such conditions the brightness of living fades, and gloomy, unwelcome forebodings settle down. Fretfulness and nervousness with vague fears of impending danger like phantoms distort the mental vision.

What ails you? It's your liver, congested, torpid, sulky. What's to be done? Take two of Smith's Pineapple and Butternut Pills after dinner and again at night. What then? you ask. Just wait till morning. You will see things in a new light then, the light of renewed liver activity. Your brain will be cleared, your appetite returned and life again attractive. Keep this treatment up for a week, and your blood will be bright red, purged of impurities. Your bowels regulated, your stomach natural and the bile functions of the liver acting in harmony with digestion and nutrition.

Don't worry! Cheer up! Two great mansions for us all. Nor will we have any occasion to if we keep our livers and bowels healthy. Smith's Pineapple and Butternut Pills contain every element needed to assist Nature in establishing liver activity and regularity of the bowels. Keep them in the house ready for use. They are purely vegetable, always efficient, never failing to give prompt results.

Smith's Pineapple and Butternut Pills always cure constipation, biliousness and sick headache in one night. All dealers, 25 cents. All genuine signed W. F. Smith.

THE STEAMER ARGYLE RAN FOUL OF ROCKS

Large Passenger Steamer on Lake Ontario Carrying Excursion on Saturday Runs Aground in a Fog Off Oshawa—Passengers Were Transferred to Wrecking Tug—An Exciting Experience for Employees of the Toronto Carpet Company.

Toronto, July 31.—Lost in a heavy fog, the steamer Argyle ran foul of the rocks at Corbett's Point, about two miles from Oshawa, Saturday morning, where she still lies with two large jagged holes in her hull. Her passengers, 150 excursionists from the Toronto Carpet Works, were safely landed by a tug of the Donnolly Wrecking Co. of Kingston. They were sent home by train. When the boat struck the shock was so sharp and sudden that dozens of the excursionists were thrown to the deck on their faces. The women screamed and many of them fainted.

Two Miles Out of Course.

As the Argyle is pointing it is evident the vessel had got a couple of miles out of her course and too near shore in steering through the fog which prevailed on the lake Saturday morning. Had soundings been taken the accident would have been averted. She ran on with full head steam and injuries to the hull were so serious that her pumps were wholly inadequate to keep down the water which poured into the boiler-room until the stokers were working waist deep and were helpless in keeping up the fires against the rising flood. At last the fires were put out by water and shortly the steamer was unable even to sound her whistle.

Resting on Bottom.

No one knows definitely yet just how much damage is done to the hull. The vessel is resting squarely on the bottom, at about a foot above normal draught, at the prow, and as much lower at the stern. All Sunday the Donnelly Wrecking Co.'s steamer Donnelly of Kingston was moored to the lakeward side of the Argyle and the crew were engaged in lightering the stranded vessel. No effort has yet been made to plug the holes in the hull and pump out the water preparatory to an attempt at pulling her off. Very fortunately the wind veered several points to the northward Sunday morning, so that Saturday's easterly storm has become a land breeze, perfectly harmless to the Argyle. So long as this continues there is a possibility of saving her.

The Argyle was formerly the Empress of India.

This Steamer Turned Turtle.

New York, July 31.—The sidewheel steamer Manoneteng, plying Lake Hopatcong, N. J., struck a rock and sank Saturday in the channel known as the River Styx. One hundred and twenty passengers, men, women and children, were transferred from the sinking boat to the Aida. Fifteen minutes after the last member of the crew had left the sinking steamer she turned turtle and sank.

Rev. Dr. Ure Dead.

Goderich, July 31.—Rev. Robert Ure, D. D., died suddenly Saturday whilst sitting in his garden. Dr. Ure was born at Lanarkshire, Scotland, in January, 1823. When 19 years of age, he settled in Hamilton, and shortly afterwards entered Knox College, completing his theological course in 1850, and receiving ordination and a call from Streetsville, where he remained for 12 years. Queen's University conferred upon him the degree of doctor of divinity in May, 1876. He lectured for two years on apologetics at Knox College, and also on homiletics at Queen's. In 1862 he removed to Goderich as minister of Knox Church, and labored until failing health compelled him to relinquish his charge.

LIGHTNING HAS MANY VICTIMS

Electric Storm Brings Death and Panic to Coney Island.

NINE SERIOUSLY INJURED

Lightning Passes Through the Crowd Assembled Under Big Bath House and Prostrates Fifty Persons—Bolt Traveled Down the Flagstaff—Deaths by Lightning Elsewhere —Dams Burst in Connecticut.

New York, July 31.—During a thunderstorm of terrific intensity which passed over New York yesterday afternoon, five men were struck by lightning and instantly killed and nine were seriously injured at the Parkway baths at Coney Island. At the same time one man was killed and three were prostrated at Gravesend Beach.

A few minutes before 5 o'clock a bolt struck the flagstaff on the big bath house and grounded in the thickest of the crowd. Nearly 50 persons were prostrated, and the rest, screaming with terror, rushed out into the storm. Those who had remained in the water were also panic-stricken and fled in all directions, not daring to enter the bath house, which appeared to be on fire.

Ambulances were summoned from all the nearest hospitals, and on their arrival five persons were found dead and nine unconscious under the bath house. The bodies of all were scorched by the electric fluid. The nine injured were removed to a hospital, where it was said that some probably will die.

About the same time Henry Ransweller was struck and killed while standing under a tree at Gravesend Bay, and his son, William, with John Apple and Daniel McCauley, were rendered unconscious.

DAM BREAKS, WATER RAMPANT.

Loss of Life and Immense Damage to Property in Connecticut.

Bridgeport, Conn., July 31.—Loss of life and immense damage to property followed the bursting of reservoirs north of this city, as a result a 7-inch fall of rain Saturday night and early yesterday.

At Easton and Trumbull the rainfall was even greater and the dam at Ward's mill at Easton went out early yesterday morning, sending a great body of water down through the town of Trumbull. The dam at the paper mill reservoir broke and the body of water swept down into Berkshire pond.

There was no warning to the people who lived on the banks of what is usually a small water course. The home of John Lesco was picked up by the flood and carried a mile below. The Lesco family were all rescued after a perilous journey. A house occupied by Michael Moran was hurled against the Berkshire bridge and wrecked, and it is expected that Moran was drowned.

The overflow of Pembroke Lake, in North Bridgeport, wrecked the Barney avenue bridge when a wagon was crossing it. In the wagon were William Kowzeski and John Starkiln. The wagon and horses were swept away and Kowzeski was drowned.

Barn and Stock Burned.

Cooksville, July 31.—An electrical storm of almost unprecedented violence passed over this district at an early hour yesterday morning. Various minor accidents are reported from lightning, the most serious being the destruction of the barn and stables of Ross Goldthorpe, Toronto Township. Goldthorpe lost one cow, four pigs and about 50 tons of hay. The total loss is over $2,000.

DROWNED OFF ARGYLE.

Norman Hill of Oshawa, Aged 14, Slips From Steamer's Deck Into Lake.

Oshawa, July 31.—Norman Hill a 14-year-old bell boy at the Queen's Hotel, fell overboard from the steamer Argyle on Friday night, and by some error the boat went on without making an effort to rescue him. The body has not been recovered.

The lad was on a moonlight excursion out of Oshawa, and, passing Newcastle, was standing near the rail. He lost his grip and fell from the upper deck. Other passengers heard the splash and gave the alarm.

The boat commenced to go back to the rescue in the direction of the drowning lad's cries, but some bungle occurred, and the steamer turned and proceeded on her course.

Hill had been at the Queen's Hotel for some time. His parents live at Whitby.

Free Gifts of Toilet Soaps

Use SUNLIGHT SOAP and SAVE THE COUPONS.

The Coupons are the same as cash because they can be exchanged for Toilet Soaps for which you have to pay out money every week.

Users of SUNLIGHT and CHEERFUL SOAPS can get their TOILET SOAPS for nothing.

DARING HIGHWAYMEN.

Hold Up Father of Mr. Sutherland, M. P. P., But Unsuccessfully.

Ingersoll, July 31.—During highwaymen held up Robert Sutherland, father of Donald Sutherland, M. P. P., on Thames street bridge, as he was on his way home about 11 o'clock Friday night. For a man of his years Mr. Sutherland offered a plucky resistance, which, together with his cries for help, put his assailants to flight. In the mix-up Mr. Sutherland was rather roughly handled, receiving a vicious kick on the wrist and another heavy blow in the face, both of which left large bruised spots. To H. D. McCarty, who went to his rescue, he explained that he had been attacked and robbed, but at the bridge Mr. McCarty picked up his pocketbook and cane.

Crossing a Dangerous One.

Mount Forest, July 31.—The coroner's jury, empaneled to enquire into the cause of the death of Catherine Curran, after hearing the evidence of the train hands and others Saturday, were of the opinion that death was caused by being struck by engine 359 on regular train No. 53, on Grand Trunk Railway; that the train hands are in no way to blame for the accident; that they believe the crossing to be a very dangerous one, and recommend that the Grand Trunk replace the board fence on both sides of the track with wire fence for at least 200 yards west of the crossing, and also that arrangements be made with Mrs. Foster to remove that part of her orchard that obstructs the view of an approaching train from Main street.

Miss Curran, who was injured when her mother was killed, died yesterday afternoon.

They'll Go to Boston.

Ottawa, July 31.—The Forty-third Regiment will go to Boston on Friday next after all. The final telegram was received by Col. Rogers from Adjutant-General Stopford for the State of Massachussetts, saying:

"Satisfactory arrangements arrived at with your officers yesterday. There can be no friction under the conditions. I shall expect to see your regiment."

A SUDDEN TWINGE

Of pain is generally the first warning of an attack of rheumatism. It feels as if the disease were in the bones or muscles, but the real cause of rheumatism is found in impure blood. In order to cure rheumatism the blood must be cleansed of the poisonous impurities which are the cause of the disease.

Dr. Pierce's Golden Medical Discovery has been very successful in the cure of rheumatism, because it entirely cleanses the blood from the poisonous uric acid which is the cause of the disease.

"Your 'Golden Medical Discovery' cured me of rheumatism after I had tried a dozen remedies without relief and also gone West in search of health," writes Harry Kitter, of No. 1065 6th Street, Denver, Colo. "Only those who have suffered from this dread malady know the pain and misery I endured for over five years. Whenever the weather was damp or cold my troubles were increased and my joints would be so stiff and sore that I was hardly able to move about, and often unable to dress myself. I used a number of highly recommended medicines, but they had no effect whatever on me, and I came to Colorado hoping to regain my health, but failed to obtain the relief I had prayed for. A gentleman in the house where I lived advised me to use Dr. Pierce's Golden Medical Discovery, and in four months and a half after I began using it I was a well man, and have had no touch of it for the past seven months."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

These tiny, sugar-coated anti-bilious granules regulate and invigorate Stomach, Liver and Bowels. Do not boast the "pill habit," but cure constipation. One or two each day for a laxative and reguiator, three or four for an active cathartic. Once tried always in favor. Put up in vials; always fresh and reliable.

GRIMSBY GIRD WAS DRUGGED

Lottie Graham's Terrible Experience in Tonawanda.

LURED TO NOTORIOUS HOUSE

Went to Buffalo to Secure Situation, But Hackman Ignored Address Given Him and Took Miss Graham to a Place of His Own Choosing—Indistinct Memories of Wrong —Shock Was Terrible.

Tonawanda, July 31.—Lottie Graham, 21 years old, handsome, and in appearance younger than her age, was discovered wandering down the Military road in this city early Saturday morning, and, in a half-dazed condition, was taken to the home of Town Constable Kaye.

Miss Graham, whose home is in Grimsby, Ont., came to Buffalo Friday night to accept a position as housekeeper in a Delaware avenue home. She arrived at the Central depot shortly before midnight, and, unfamiliar with the city, enquired the nearest route to the place on Delaware avenue. A hackman told her that the street was several miles away, and advised her to ride. She hesitated, but finally took the hansom, giving the driver explicit directions as regards street and number. Her two trunks were placed on the rig, and she was driven rapidly from one street to another, and it was sooner than she expected that the carriage stopped, the driver alighted, and she found herself before a house, into which her luggage was being taken. Glad that she had arrived at her destination so soon, the young woman from the country entered the place, and says that she soon became drowsy.

From that time on she has only a vague recollection of what occurred until she was discovered in the Military road Saturday morning. She is positive that the place to which she was taken is on Gay street, that having been the last street sign she noticed as the cab whirled around the corner. She thinks a man accompanied her on a trolley later, but is uncertain whether or not he got off with her. A small sum of money was missing when she was taken to Constable Kaye's home.

The affair has been such a shock to Miss Graham that she insisted upon returning to her people in Grimsby yesterday afternoon.

RELEASED ON BAIL.

Wheatley Reformers Appear Before Chatham Magistrate.

Chatham, July 31.—The Wheatley whitecappers, seven in number, were arraigned before Magistrate Houston Saturday morning on two charges of riot and assault. They pleaded not guilty. The parties against whom the informations have been laid are: William J. Martin, Ewart Gibson, Oscar Lounsbury, William Mills, William Curtis, James McDonald and William Tremblay, the latter a county constable for Essex. No attempt was made by any of them to evade arrest.

There are two charges. The first is that the parties charged did unlawfully assemble with intent to assault and do actual bodily harm to one Thomas Dulmage and did tumultuously disturb the peace.

The prisoners after pleading not guilty elected to be tried by a jury at the next fall assizes, which will be held on Sept. 18 at Chatham.

To the second charge, that of assault and doing actual bodily harm, they entered the same plea.

The preliminary hearing was then adjourned till Thursday next at 10.30 o'clock, the prisoners being released on $500 bail.

No Dissolution This Year.

London, July 31.—The Daily Telegraph makes the authoritative announcement that Parliament will not be dissolved this year unless the Government is again defeated before prorogation.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

MANY PETERBOROUGH CITIZENS SPEND SUNDAY AT THE KAWARTHA LAKES.

In Spite of Wet Weather a Delightful Week-End Was Enjoyed—Services Held Yesterday in Juniper Island Pavilion—Many of Those Who Are Spending a Few Weeks or Days in Kawarthadom—The Round of Pleasure Still Continues—Cottagers Who Went Up to the Lake to Spend the Sunday—Interesting Personal Items Concerning Peterborough People.

In spite of the fact that Saturday was dull and rainy a great many of the Peterborough people went up to Stony Lake to spend the week-end and Saturday night and yesterday were, notwithstanding the unfavourable climatic conditions, most enjoyably spent.

Yesterday in the Juniper Island pavilion a sermon was preached by Rev. W. K. Codar, of Livermore, Pa., from St. John 3:16. On account of the wet weather the attendance was small, but a very enjoyable service was held.

Mr. Ernest Payne, who has spent a few days at Stony Lake, returned home this morning.

Mr. J. B. McWilliams went up to Stony Lake this morning.

Mr. J. Harris McClellan and Miss Gertrude McClellan spent Sunday up the lake, the guests of Mr. and Mrs. W. H. Meldrum.

Mrs. John Crane went up to Stony Lake on this morning's boat.

Mr. Frank Bradburn is spending a three weeks' vacation at the lakes.

Mr. D. Carlyle and the Misses Carlyle spent Sunday at Stony Lake.

Mr. Sutherland, of Toronto, has returned to "Inglestane."

Miss Alta Bradd is a guest of Miss Etta Mae Cramer, at the Victoria House.

Mr. T. O'Brien is at Glenwood for a two weeks' vacation.

Mr. Logan is a guest of Mr. Hunter's cottage, Crowe's Landing.

Mr. LeMay is a guest at "Belle-chasse," Mr. H. LeBrun's cottage.

Judge Hudspath, of New York, has brought up his yacht, "Jessie" from Lakefield, where it was stationed over the winter.

Mr. Ed. Manning and party who have been spending a holiday at Mr. Croly's cottage, returned to the city on Saturday.

The Misses Jones, of Toronto, came up to their cottage, Eagle Mount, last week.

Mr. Ronald McKee is a guest at the Victoria House for a few days.

Mr. R. Hall was the guest of Mr. Graham Ferguson over Sunday.

The following cottagers went up to the lakes on Saturday evening. Messrs. R. Neil, B. Shorty, W. G. Ferguson, R. B. Rogers, John Crane, Bell and Fred Orgie, J. J. McBain.

Mr. C. Young spent Sunday at Stony Lake.

Mr. Ross Cameron spent Sunday at the lakes.

Mr. and Mrs. John Carslile and family have rented Mrs. Croly's cottage, Boschink, for August.

Miss Nell Sike and Miss Lou Kinsman, of Rochester, are guests at "Kilkenny."

Mrs. Jack Wallis and children are camping on Juniper Island.

Mr. Jas. H. Connal, Mrs. Connal and little daughter, Margaret, will spend the next couple of weeks at their cottage, Boschink.

Miss Edith Goulnlock left for her home in Toronto this morning. She will return at the end of the week.

Miss Madeline Wilson, Peterborough, is the guest of Miss Effie Munroe.

Miss Ethel Goodfellow came down from the lake this morning after a two weeks visit at "Idle Side."

Mrs. Ostrom and son, who have been guests at Mr. Thos. Barrie's cottage, came down this morning.

Mr. J. McCready, of Toronto, is visiting his father at "Blarney Castle," Boschink.

Among those registered at Glenwood are:—Mr. and Mrs. Rose, Mr. and Mrs. Briggs, Mr. S. Crooker, Miss Shaw, the Misses Hoyle, Hammond Trebblecock, Tennstun, Mr. and Mrs. Gardner, Mrs. Foster, Mrs. Cottrell, Toronto.

Miss Mattie Robertson, Peterborough, is the guest of Mrs. John Nugent.

Mr. H. M. Wheaton, of Buffalo, is visiting at "Kenmore."

Mrs. J. Lea, the Misses Edna and Hazel Lea, Miss Pope, Miss Angel Durken, Messrs. Gus Pope, Chas. Starr, Dick Meredith and Arthur Fallows, of Toronto, went up to Kilkenny Saturday for a couple of weeks.

Mr. J. Blackburn, Peterborough, is a guest at "Glenwood."

Mr. Wm. Robinson went around the lakes Saturday.

Mr. Davidson, of Norwood, is having a new cottage erected near the head of Stony Lake.

Mr. H. P. Lindsay has returned home after spending a few days at Mr. McCarthy's cottage.

A party consisting of Mrs. F. L. Fast, Mrs. N. E. Fast, Mrs. R. M. Erwin and Mr. Bevington, who have been stopping at the Victoria House for three weeks, and Messrs. F. L. and Jno. F. Fast, Dr. R. M. and J. Clyde Erwin, and Dr. Ma Groff, Satisfaction Camp, have returned to their homes in Pittsburgh.

Miss E. Scollard and Miss B. Costello have returned to Peterborough from their camp on Juniper Island.

Mr. Keith Loch went down to the city Friday and returned in the evening.

Among those who took in the round trip Friday on the steamer Empress were Dr. Colville, Peterborough; Mr. Gilliespie, Lakefield; and Mr. and Mrs. Robert Dixon, of Oshawa.

Mr. Edwards and family have arrived at their cottage on Juniper Island for the summer.

Mrs. R. S. Davidson and the Misses Sadge and Helen Davidson spent a few days at the Victoria House this week.

Mr. Hubert McBain came up to "Bona Vista" Friday.

Mr. Eakins returned to his cottage Friday night from a trip to Toronto.

Arrivals at the Victoria House within the last few days were Mr. and Mrs. E. G. Eboinil, Mr. and Mrs. Henry Bames and daughter, Mr. W. C. Jackman, all of Cleveland, O., and Mr. Alex. Reason, Toronto; Mr. J. A. Chess, Toledo, O.

Mr. W. J. Fuller, from the Department of Public Works, is at the lakes investigating the high water.

Miss Gouinlock and her friend, Miss Tough, left for Toronto Saturday.

Mr. S. M. Payne and family, Cleveland, O., returned home Saturday after spending a week at the Victoria House.

On Saturday night when the boat was at Breeze's wharf Mr. Stanley Fife accidentally fell off the wharf into the water. Fortunately he was rescued from the watery elements and suffered only the inconvenience of a ducking.

Mr. Sidney Crocker, a guest at Glenwood, got a ducking yesterday. He was standing too near the edge of the wharf, and slipped into the "briny deep," no serious results following.

Mr. Chas. Seymour delighted the guests at Glenwood with selections on his violin.

Miss Dewitt, of Auburn, N.Y., went to Stony Lake on Saturday to spend a few days' visit at Mr. Choate's cottage, McCracken's Landing.

Mrs. W. H. Munro returned this morning from Stony Lake.

Mr. Fred Addison, of Toronto, came down from his cottage, "Clandeboy," Stony Lake, where he spent Sunday.

Mr. Ross Cameron spent Sunday at Stony Lake, and Mr. Bob Hall was up as his guest for the day.

Mrs. Buhl, of Rochester, N.Y., who has spent some weeks at Stony Lake, returned home to-day.

The Messrs. Gould and Miss Gould, of Toronto, returned home this morning, after spending a vacation at the lakes.

Miss Olive Goodfellow went up to Idle Side to-day, to spend a few weeks.

Mr. Cecil Sherin, of Toronto, has been visiting at his uncle's, Mr. D. H. Moore, and accompanied by Mr. Reg. Orr, he left this morning for Stony Lake.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

"THE DAYLIGHT STORE"

BIG SMASH IN PRICES

We know and the manufacturers know, that it is better to sell clothing at a reduction, and even at a loss, than to pack it away and pay the cost of investment and run the risk of changing fashions. It is for these reasons then that we are selling our

Two-Piece Suits

at such a reduction, and two fall wearing months ahead. Prices like this:—

$12.00 Suits for $9.90
$10.00 Suits for $8.90
$8.50 Suits for $6.90

These prices are genuine and are attracting widespread attention.

Our Special Sale

Also continues on our large stock of Men's, Boys' and Children's Regular Suits.

Furnishings at Special Prices

We have Boys' Blouses at 25c, were 50c
Men's Shirts at 49c, were 75c and $1.00
Also odd sizes at special prices to clear.
We don't mind the loss, we can use the money but not the goods.

LANG & MAHER,

CLOTHIERS AND FURNISHERS TO MEN WHO KNOW
276-278 GEORGE STREET, PETERBOROUGH

HOW ENGLISH MEN ENTERTAIN

Programme of the Visit of the Canadian Manufacturers.

A Delightful Six Weeks Spent Inspecting the Wonders of the Old Land.

In another column is given an interview with Mr. B. E. Ackerman, in which he gives some interesting facts in reference to his trips to England with the Canadian Manufacturers' Association. In that interview he did not attempt to give a detailed account of the different places visited by the party; simply a few in which to state his impressions generally. For the benefit of those, therefore, who have not had an opportunity of reading in the despatches from day to day the summary of the programme as presented below will give one an idea of the length to which the English business men went to promote interest for their Canadian relations, and will show that if the latter did not have a good time it was not because facilities were not provided:

Headquarters.—The members of the Association arrived at Euston Station (terminus of the L. & N. W. Railway) by special train from Liverpool on Saturday, June 17th, proceeding to Hotel Cecil, Strand, which was the headquarters during the stay in town of the visitors.

Sunday, June 18, 10.30 a.m.—Seats reserved for 100 (more if required) at Westminster Abbey morning service (by kind permission of the Very Rev. the Dean of Westminster).

High mass at the Roman Catholic Cathedral at Westminster. Reserved seats for 100; (by kind permission of the Archbishop of Westminster, the Most Reverend Francis Bourne).

3.15 p.m.—Afternoon service at St. Paul's Cathedral. Reserved seats for 100; (by kind permission of the Dean of St. Paul's, the Very Reverend Robert Gregory, D.D.)

Monday, 19th June, 10.00, 10.45 and 11.30 p.m.—Visit to the Royal mint, limited to three parties of six each.

3.00 p.m.—Garden party was given by Mr. S. B. Boulton, D.L., J.P., at Cappen Hall, Totteridge.

Evening free.

Tuesday, 20th June, 9.30 a.m.—Visit to Tilbury, Royal Albert and Victoria Docks, by special invitation of the London and India Docks Company (limited to 200). Inspection of H. M. S. Black Prince, which is being fitted out by the Thames Iron Works Shipbuilding and Engineering Co., Limited.

9.00 p.m.—Reception by the President and Council of the London Chamber of Commerce at the Grafton Galleries, Bond street W.

Wednesday, 21st June.—Visit to H. M. Tower of London (by kind permission of General Lord William F. Seymour, K.C.V.O., His Majesty's Lieutenant of the Tower).

10.00 a.m., 10.45 a.m. and 11.30 a.m.—Visit to the Royal mint (limited to three parties of six each). Visit to the Baltic Mercantile and Shipping Exchange, St. Mary Axe, E. C.

12.30 to 1.00 p.m.—Visit to the Royal Exchange and Lloyds.

10.00 a.m., 10.45 a.m., 11.30 a.m.—Visit to the Bank of England (limited to three parties of six each).

1.30 p.m.—Luncheon by Mr. Thos. F. Blackwell, D.L., J.P. (President of the London Chamber of Commerce), at Salter's Hall, by kind permission of the Worshipful Company of Salters.

The afternoon was devoted to industrial visits.

7 p.m.—Annual dinner of the London Chamber of Commerce, to meet the members of the Canadian Manufacturers' Association, Grand Hall, Hotel Cecil. The President of the Chamber (Mr. Thos. F. Blackwell, D.L., J.P.) in the chair.

Thursday, 22nd June.—Cup day at Ascot.—Arrangements were made for members to attend Ascot in the enclosure of the Grosvenor Club at an exclusive charge of 25s. each (covering railway fare, lunch, tea, and cab fare).

Industrial visits.

Evening free.

Friday, 23rd June, 9.30 a.m.—River trip, starting from London Bridge wharf. Visit to the Royal arsenal at Woolwich. Industrial visits. Visit to the Royal mint.

11.35 a.m.—Visit to the Crystal Palace, Sydenham, by special invitation from the President and Council of the West Indian Committee. Inspection of colonial exhibits.

9 p.m.—Entertainment at the gardens of the Royal Botonical Society, Regent's Park, by the President, Sir George Hayter Chubb, Bart., and the Council of the Imperial Industries Club.

Saturday, 24th June.—Garden party and luncheon at 12.30 a.m. by the Hon. T. A. Brassey at Battle. Visit to Battle Abbey—whole-day excursion. For those who did not take part in the visit to Battle, an excursion had been arranged to the Cement Works of the Associated Portland Cement Manufacturers, Limited, Northfleet.

Provincial Tour.

On Monday, June 26th, the provincial tour by special train to the principal manufacturing cities began. The visitors were received at Walsall, the first place visited, by the President of the Chamber, S. B. Wheway, Esq., J. P. and the representatives of the Joint Committees of the town council and Chamber of Commerce. Then followed a reception by the Mayor and President of the chamber and after that luncheon in the drill hall.

At 12.30 there was a visit to Dudley by invitation of the Dudley Chamber of Commerce, visiting the views of Dudley Castle and Priory, the Earl of Dudley's Round Oak Iron Works and other works.

At 2.30 p.m., the party visited Walsall institutions, including Walsall Hospital, Science and Art Institute, Nurses' Home, Sister Dora Statue and Arboretum, and also many manufactories.

3.00 p.m., —Visit to Lechfield Cathedral and Dr. Johnston's birthplace.

4.30 p.m.—Afternoon tea by invitation of the President of the Chamber, S. B. Wheway, Esq., J. P., and Mrs. Wheway, at his residence, "The Shrubbery."

6.30 and 6.39 p.m.—The delegates left by special train for Birmingham in time for dinner, theatres and other places of interest in that city.

In Birmingham, the members were the guests of the Chamber of Commerce.

At 10.00 a.m., the Right Hon. the Lord Mayor of Birmingham and the Right Hon. Jesse Collings, M.P., the president of the Birmingham Chamber of Commerce, afforded a cordial welcome to the visitors. From 10.30 to 12.30 parties were driven to the Works of the Birmingham Small Arms Company, the University Buildings at Bournbrook, the Engineering Works of the General Electric Company, Limited, at Witton, the Jewellers' and Silversmiths' School in Victoria street, the glass works in Lodge Road, the City Museum and Art Gallery, the Corporation Electricity Generation Station, and other points of interest.

At one o'clock the party was entertained at luncheon by the Birmingham Chamber of Commerce, and immediately afterwards, the President interviewed the Right Hon. Chamberlain, who addressed the members.

At 2.40 the visitors were conducted to the model village at Bournville, where they were entertained by Messrs. Cadbury Bros. to afternoon tea.

At 9.00 p.m. a reception was given in the Grosvenor Room of the Grand Hotel by the chairman of the Birmingham Chambers of Commerce.

On the morning of June 29th, the party proceeded to Sheffield, where they were received by the Sheffield Chamber, and dividing into parties, they visited several manufactories. At 9.00 p.m., they were tendered a reception by the Lord Mayor and Lady Mayoress of Sheffield at the town hall.

The Canadians arrived at Leeds on the morning of Thursday, 29th June, as guests of the Leeds Chamber of Commerce, and in that city several large manufactories were visited. Afternoon tea was served at Roundhay Park.

As guests of the Bradford Chamber of Commerce and Corporation on Friday, June 30th, the visitors were tendered a reception at the town hall by the Mayor and President of the Chamber and during the day visits were made to the manufactories. At 1.30 p.m., luncheon was served at the Cartwright Memorial Hall and Mountrghan Park.

Returning to London on Saturday, July 1st, the Canadians were guests at a garden party given by Mr. Alfred Mosely, C.M.G., at the Botanical Gardens, Regent's Park. Considerable interest centred in the Dominion Day celebrations in London. At 6.30 the annual banquet of the London Chamber of Commerce was held, and at 10.00 p.m., a reception was tendered by Lord Strathcona and Mount Royal.

On Sunday, July 2nd, the Canadians left for Liverpool as guests of the Liverpool Chamber of Commerce. On Monday, at 12.30 p.m., 125 of the members of the Association proceeded to the works of Messrs. Lever Bros. at Port Sunlight, where they were entertained at luncheon. The remainder of the party visited Messrs. Bryant & May's match factory, where luncheon was served.

In the afternoon a reception was given at the town hall by the Lord Mayor of Liverpool.

The members left Liverpool on Tuesday morning, July 4th, for Newcastle-on-Tyne, where they were received at the station by the Reception Committee of the Newcastle Chamber of Commerce. At one o'clock luncheon was served in the Guild Hall, and at 2 o'clock the members were conducted upon visits to the various works, shipyards, places of historical interest, river excursions, etc., and at 8.30 p.m. a reception was tendered by the Mayor and Mayoress of Newcastle-on-Tyne in Laing Art Gallery.

On Wednesday and Thursday, July 5th and 6th, the party did Edinburgh and other places of interest in Scotland and returning to London on Friday, July 7th, they were entertained at a reception by Their Graces the Duke and Duchess of Sutherland at Stafford House.

On Saturday, July 8th, a garden party was given at Knebworth Park, by the Right Hon. Lord Strathcona and Mount Royal, G.C.M.G. (Hon. Pres. of the 5th Congress of Chambers of Commerce of the Empire) and Lady Strathcona.

The above was the extent of the programme as arranged by the London Chamber of Commerce and on its conclusion the members of the Canadian Association visited Paris, after which they divided into individual parties.

Crockery and Wall Paper News

When you want either of the above lines you'll be antagonistic to your own interest if you don't inspect our stock of all the best lines in the market. Our July sale values we've put upon our stock beckon to all economists, and the grand variety calls to all buyers, even to those who want exclusive designs, because our stock is so large is the reason for price reductions that are out of place with the quality of the goods. You ought to take care of these savings. Buying your crockery here is getting value for your money. Wall papers more than generous too.

EXCURSION BOAT RAMMED COALER

Exciting Experience Which 1000 Island Excursionists Met With.

Incessant Rain Marred to a Considerable Extent Pleasure of the Trip.

Nearly all the excursionists who went to the Thousand Islands on Saturday on the excursion under the auspices of the Queen street Methodist church, Lindsay, returned last evening. About fifty boarded the train when it left here on Saturday, and small parties got on at every station between here and Belleville. At this place the commodious steamer Niagara was in waiting, which conveyed the four hundred pleasure seekers down the beautiful Bay of Quinte to the Thousand Island Park. Unfortunately the rain, which had been falling gently all morning now developed into a downpour, which, together with a strong east wind, marred the pleasure, to a great extent, of what would otherwise have been a most delightful sail. Hopes were expressed that when the park was reached Jupiter Pluvius would turn off his watering can, but it was not to be, and the rain continued with but little abatement all day Sunday, and forenoon of Monday.

Sunday was spent in viewing the many cottages in the park—of which there are said to be six hundred—all laid out in streets and avenues. Many cement sidewalks are in evidence, and the place is supplied with water works, electric light, post office, public library, and in fact, all the conveniences of a large town. Many of the cottages in the more aristocratic portion of the park are equal in appearance to the finest private residences in Peterborough. The excursionists had the pleasure of listening to a sermon in the tabernacle in the morning by Rev. Karl Schwartz, a Bishop in the Methodist Episcopal church. In the afternoon there was a large gathering of delegates of the Women's Foreign Missionary Society of New York State, and in the evening a missionary convention, at which addresses were delivered by returned missionaries from India, China, Armenia, and a lady who was engaged in mission work in the Southern States. All the meetings were largely attended.

A start was made for home at 7 o'clock, in a heavy shower, and Kingston was reached at 9.30. Here a little accident happened, and the Niagara endeavoured to punch a hole in the stern of a coal-laden schooner lying at the dock, and almost succeeded in sending her to the bottom. Some delay was caused through appraising the damage done and coming to a settlement with the irate captain of the schooner, but peace was finally made, and the vessel continued on her trip, Belleville being reached at 4.30, in the ever-present rain. A short stop was made in the Bay City, and home reached on the regular train.

J. Sutcliffe And Sons' REMNANT SALE

- Table Napkins less than one doz. of a kind
- Single Towels, Etc.,

all marked down to

QUICK CLEARING PRICES

FIFTY DOLLARS FOR RECEPTION

City Council Will Spend That Sum for the Old Boys.

Will Give Them a Band and do Some Decorating.

The sum of fifty dollars will be expended by the city in their entertainment of the Peterborough Old Boys on the occasion of their trip here next Monday.

At the meeting of the Committee of the Whole last night, which was attended by His Worship Mayor Best, Ald. Crowe, Adams, Mason, Scott, Johnston, Begley, Hicks, Leary, Hatton, McIntyre and Tovey, the matter of a reception for the Old Boys was discussed, and it was finally decided to grant the Reception Committee $50, to be expended in any way which the thought best.

It was suggested that the band might be engaged to be at the station to meet the visitors, and that she might be played at the disposal of the Old Boys for the rest of the day, the expenses to be paid by the city. With the balance of the money it is expected that some decorations will be put up, though nothing elaborate along the line will be attempted.

It was decided that it would not be advisable to declare a half holiday on Monday, in view of the fact that Monday of the week following will be Civic Holiday, and it is believed that there would be a general objection taken to any holiday being observed on the occasion of the Old Boys' visit.

In the absence of Ald. Hall, who is the chairman of the Reception Committee, Ald. Leary was appointed to fill that office. It is probable that the members of this committee will meet the Old Boys in a body upon the arrival of the train, and extend an official civic welcome to the visitors.

MR. V. EASTWOOD GETS CONTROL

Of the Peterborough Hardware Company (Ltd.)

Has Acquired the Interest of the Estate of the Late R. S. Davidson.

An important business change has recently taken place in one of the largest mercantile establishments of the city. By this change Mr. V. Eastwood assumes control of the Peterborough Hardware Company, having purchased from the executors of the late R. S. Davidson estate, their interest in the business.

This purchase by Mr. Eastwood will make him the largest shareholder in the Company and give him a controlling interest.

It is understood that Mr. Eastwood bought the stock at its par value.

From this date the control of the business will be in the hands of Mr. Eastwood, though the interests held by the estate of the late R. S. McKee are still retained.

Mr. Eastwood has been identified with the Peterborough Hardware Company since its inception and is a thoroughly practical hardware man. There is no doubt that under his control the business will continue to prosper as it has done in the past.

The same policy of progress, which has characterized the management of this concern will be maintained.

Clark's Potted Meat.

The best of the beef delicately seasoned. Very appetizing when spread on bread and butter or in sandwiches.

EXPERT WILL REPORT

ON BEST MAKES OF CANADIAN FIRE ENGINES

Mr. Eugene Gibbs Commissioned to go to Brantford and London to Investigate and Report on Respective Merits of the Two Engines--Council Has Not Decided Yet, However, Whether it is Desirable to Purchase a New Engine--A Lack of Unanimity of Opinion Among the Aldermen on This Question—Some of the Members Believe That a New Fire Hall Should be Built First.

The question of providing improved fire protection is proving a very difficult problem for the City Council to deal with. It appears that they cannot bring themselves to one mind as to which is really the best way to go about the matter to improve the system. Some are of the opinion that to purchase a new engine will solve the problem, at any rate for the present, while others express the view that the first thing to do is to build a new fire hall and secure the inside equipment afterwards. Now that tenders have been received on fire engines there is a feeling among some of the aldermen that it would be throwing money away to invest in an engine which would be used very seldom.

The chief, as evidenced by his statements at the meeting of the Committee of Whole last night, holds the view that an alarm system is needed more than an engine. He pointed out that the new engine which it was proposed to buy would weigh in the neighbourhood of 4 1-2 tons, and he did not know where it was to be stored in case it was bought. In the second place, he said that the department had no hose which was strong enough to carry the pressure which would be developed by an engine of the capacity of that upon which tenders had been received. It would be necessary to buy three ply hose to equip the new engine with. He made the statement that the city needed a new alarm system more than it needed anything else in the way of fire apparatus.

All these opinions were brought out at the meeting last night of the Committee of the Whole Council, called to discuss the question which has agitated the minds of the aldermen for some time, and which still seems to be as far from solution as ever. Mr. Eugene Gibbs, superintendent of the Wm. Hamilton Mfg. Co., had been commissioned by the Fire, Water and Light Committee to go over the specifications of the engines for which tenders had been received, namely, those from the Waterous Engine Works, Brantford, and the Canadian Fire Engine Co., of London. Ald. Johnston introduced the question at last night's meeting and stated that he had asked Mr. Gibbs to appear at the meeting to state his conclusions to the Council, and in response to a motion that Mr. Gibbs be heard, that gentleman stated that he had carefully read over the specifications sent by the two companies with their tenders, and, in the absence of any definite information as to weights and sizes, he had been unable to form a definite conclusion as to the respective merits of the two engines. As far as he had been able to judge with the information available, which was only a general character, the two engines appeared to be practically the same. Where sizes were mentioned they were almost identical.

This was in reality all the information which he had been able to impart to the Council, and the question as to what action should be taken was discussed. It was finally decided, on motion of Ald. Tovey, seconded by Ald. Hicks, that Mr. Gibbs be commissioned to go to the factories of both companies and prosecute his investigations still further to ascertain as to which of the two machines offered was the better. He will go to London and Brantford, and will afterwards prepare a report and submit it to the council.

After this had been decided, the discussion turned on the question as to whether after all the better course was being pursued. Ald. Mason was of the opinion that they were starting at the wrong end of the business. He believed that they should first build a new hall, and afterwards get an engine to put in it. In this course he thought the people would support the council.

Ald. Hicks did not incline to this opinion, and said that a fire hall would not put out a fire, while an engine would. His idea was that the first thing to do was to get the engine, and afterwards, perhaps, get an engine to put in it. While it was true that in all probability, the engine would be used but seldom, it was a protection, and should be looked upon in the same light as an insurance policy. He did not believe that an alarm system was an urgent need. It must be remembered that at the present time there were about 200 more telephones in the city than there were a year ago, and in another year there will be 500 more. All of these are to a certain extent fire alarms, and he thought that the city could get along very well without an alarm system in the meantime, and in any case it would be out of the question to instal an alarm system in the present hall.

It was decided that whether the city bought an engine or not, the action which they had decided upon last night would not complicate matters and they would not be committed in any way. If they did not decide to purchase an engine in the near future the information gained by Mr. Gibbs would be useful when it would be necessary to purchase one.

THE OTONABEE WATERS ARE WELL CONSERVED

Rathbun Superintendent Pays Tribute to Good Condition in Which the Waters are for Driving Logs--Mr. Thos. Callaghan Has Been in the Employ of That Firm for Thirty-two Years—Water Better for Driving Than it Has Been in Thirty-two Years—Drive Will Reach Trenton This Year.

Mr. Thomas Callaghan, Superintendent of operations for the Rathbun Company was in town to-day and very kindly accorded the Examiner an interview, concerning his experience with the water of the Trent system during the past thirty-two years.

Mr. Callaghan certainly has a record to be proud of, having been in the employ of the Rathbun Company continuously for the past forty-five years. He was a very young man when he first entered the employ of his company. Mr. Callaghan has superintending the driving of logs down the Trent system of waterways as well as down the Moira river during the past 32 years. He is therefore, quite an authority upon navigation matters on these waters so far, at least, as it pertains to the lumbering interests.

Asked concerning the water in the Otonabee river and other streams through which their present drive of logs is passing, Mr. Callaghan said:—"The water is the best I have seen in my entire thirty-two years' experience on the Trent system. I positively have never before seen it as good. It will be possible for us to make Trenton with our drive this fall instead of being compelled to remain at Hastings or Crow Bay as is generally the case. This is a great advantage and means much to our Company."

"How do you find the water in the Moira river, Mr. Callaghan?"

"It is very low. Just the same as it is every year at this season, making it difficult to drive."

"And how do you account for the fact that the water in the Trent system is so much better this year while the waters of the Moira remains practically the same as other years?"

"It is," said Mr. Callaghan, "entirely due to the excellent manner in which the waters of the Trent system have been conserved and regulated. The spring freshets have been held back until the season was well on, and until the water was needed below. Then it was let down in proper quantities. Had this not been done we would have experienced the same difficulty as we have experienced in the past and as will be experienced in the Moira."

Mr. Callaghan intimated that to his mind the rain had nothing to do with the present abundance of water in the Otonabee river, which was due entirely to the proper conservation of the spring freshets and the business-like manner in which the entire water has been managed.

The present drive of the Rathbun Company consists of 30,000 pieces and comes from the Townships of Anstruther, Cardiff and Chandos.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches.

A Serious Charge.

Provincial Detective Mahoney of Windsor, has received a letter from Mrs. Thomas Walpole, Clandeboye, Ont., who says her husband deserted her in Toronto on June 29, taking with him their three year old boy. Mrs. Walpole thinks her husband is Cleveland, Jackson or Toledo.

A Gigantic Enterprise.

One of the most important business enterprises in history of Western Canada is now projected among abattoir operators in Winnipeg, who contemplate organizing a joint stock company capitalized at half a million dollars, to operate a big canning factory patterned after the Armour Chicago plant.

Drowning Swimming.

William C. Francis, 21 years old, was drowned in the Northwest Arm, Halifax. He could not swim, but was bathing in comparatively shallow water with a couple of companions. A leak in the valve in his water wings, allowed the water to enter them and they collapsed. The young man sank and did not rise.

Power at Fort William.

Ald. John King, of Fort William, who is in Toronto, states that 300 men are at work installing a power plant at Kakabeka Falls, and the company hopes to have electric energy available in Fort William this fall. The foundation of the great Ogilvie mill has also been finished, and work on the superstructure begun.

A Divorce Suit.

Eugene M. Macoy, the wealthy president of the Chicago National Printing and Engraving Company, is charged in divorce proceedings instituted by the present Mrs. Macoy with having two undivorced wives, and it is intimated that a third woman has been deceived by Macoy, and will soon make him the defendant in another divorce suit.

Charge of Abduction.

Walter Weir, wanted at St. Thomas, for the alleged abduction of Florence Mowers, 15 years of age, was arrested in Detroit yesterday, and last night consented to return to Windsor. Weir alleged that he had no home, but it is said that he deserted a wife and three children at Port Bruce to elope with the Mower's girl. The girl returned to her home last week after staying three days in Windsor with Weir.

Drowned at Kenora.

A sad drowning accident occurred at Kenora yesterday afternoon resulting in the death of Miss Bella Milne and the narrow escape of her companion, Miss Shallyou. Both were employed as domestics at F. L. Patton's cottage. They, with two others, were bathing off Lemon's Island, when Miss Milne got beyond her depth and sank. Miss Shallyou gallantly attempted a rescue, but unsuccessfully, and was in turn rescued by her other companions. She is now in a critical condition.

Coal Combine.

Coal, railroad and dock properties conservatively estimated to be worth $50,000,000, have been combined at a meeting held in New York. J. H. Wander of Columbus, is the president. It will be the second largest coal corporation in the world and will be known as the Sunday Creek Company. Seven coal corporations, own properties scattered throughout Ohio and West Virginia, and employing in the neighbourhood of 16,000 men, now are to operate under one directorate and set of officers.

PERCY RUBIDGE'S STRENUOUS GAME

Mixed Up in a Hard Game in Chicago.

Chicago, July 31.—Heads were broken in a dozen fights that occurred yesterday afternoon at a lacrosse game between the Calumets and Chicago at the South Side Ball Park. A wagon load of policemen arriving on the scene cut short what promised to develop into one of the worst battles ever seen on a ball ground. At the height of the fracas Charlie Comiare, leader of the White Sox, ran upon the field, grabbed Percy Ralph, one of the most belligerent of the players, and turned him over to a policeman. Bad blood had been aroused early in the game when Ralph swung his stick rather viciously on a Calumet player. He was warned repeatedly, but did not take the hint. Percy Rubidge, of the opposing team became enraged and swung his stick with all his force on Ralph's head. Ralph dropped to the grass stunned, and like a flash the crowd swarmed upon the grounds and broke up the game. The players themselves had first taken up the gage of battle, and attacked each other like fiends. The crowd lined up according to where its sympathy lay, and was just getting warmed up to a bloody conflict when the police arrived and quelled the disturbance.

CHANGES IN THE BUILDING BY-LAW

Are Suggested as Result of Ald. Crowe's By-law for Moving Buildings.

Many Clauses of the Latter are Objectionable—Present By-law Will be Amended.

Ald. Crowe's Building Bylaw was discussed last night at the meeting of the Committee of the Whole Council, but there is not much prospect that it will pass the council in its present form. It was felt that there were some of the clauses which were somewhat drastic, and that to pass them would be a hardship upon many of the citizens. One of these was that referring to obtaining permission from owners of property within a certain radius of the location upon which it is proposed to move the building, and it was pointed out that this would probably mean that a proposal to remove a house would be blocked, because the persons owning property in the vicinity would probably object to having an old house moved near them.

It was also pointed out that it would be detrimental to the interests of the town to restrict unduly the removal of buildings, since in the majority of cases, the old buildings were moved to the outskirts of the city, and in their place, usually, better houses were constructed.

The provisions of the bylaw which makes it necessary for those moving buildings pay the city something for the use of the streets, was regarded as reasonable.

It was finally decided that the present building bylaw would be amended to include the provisions suggested.

It was felt that this would be preferable to passing a new bylaw. The present Building Bylaw will have to be amended in any event to permit sheds to be constructed of 9-inch brick walls, within the fire limit.

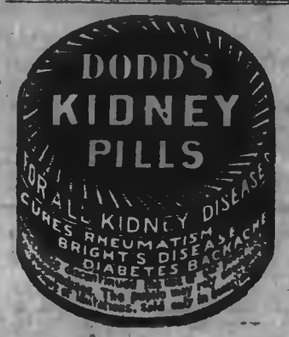
MANY GUESTS WERE REGISTERED

At Viamede During Month of July.

A Popular Summer Resort — Those Who Paid it a Visit.

July has been a very busy month at the summer resorts on Stony Lake and Viamede has been visited by a very large number of guests, those registered there during the month being:

Bohmah, Auburn, N.Y.; Miss Edna Watkins, Pittsburg, Pa.; Wm. J. Wilson, Toronto; Mrs. Eph. Lyon, Wilkinsburg, Pa.



GRIMSBY CAMP OF YEARS AGO

Dr. Shaw, of Keene, Gives a Picture to Mr. W. C. Wilkinson.

Was Present, Though a Small Boy, when the Picture was Taken.

President W. C. Wilkinson, of Grimsby Park, has just received from Dr. Shaw, of Keene, Ont., son of Rev. D. Shaw, late president of Toronto Methodist conference, a unique picture of a camp meeting held at Grimsby on August 25, 1859. The picture appears to be a photograph of a drawing, and its genuineness is attested by the crinolines and Quaker bonnets of the women, and the garments of the men. Instead of the electric lights of to-day there were blazing pine knots on platforms about seven feet high at each corner of the open air auditorium, and instead of the trim cottages of the present time there were rough shacks and tents.—Ottawa Citizen.

Dr. Shaw was in town to-day, and in reference to the above said that he was present on the occasion when the picture was taken. He was at that time a youth of tender years but remembers the occasion well. He also said that the seats for the worshippers were rough planks resting on logs.

PRODUCE POWER NEAR GLENORA

Great Possibilities for Power Production at Lake of the Mountain.

A Lake Perched High on a Cliff 400 Acres in Extent—Near Bay of Quinte.

An article in the Belleville "Ontario" refers to the power possibilities at the Lake of the Mountain, near Picton, in Prince Edward County. Many local persons are interested in this locality, and the article reproduced below will be read with interest on that account. The "Ontario" says:—

The present is eminently a time of harnessing the all but unlimited waterpower of Canada to bear the burden of producing the power, the wealth and utilities needed by the people of this country. One of the great water privileges, and at the same time a wonder of scenic beauty, but little known, is the Lake-on-the-Mountain at Glenora removed back only 300 feet from the edge of the high limestone cliffs overlooking the Bay of Quinte. The lake has an area of about 160 acres, and by reason of its lofty elevation and the delightful breezes that blow over it has been the glory of the limited number of tourists that have hitherto visited its crystal water.

To the enterprising of thought who knew of the great reserve force of hydraulic power lying dormant in the lake, it was ever a source of wonderment that its capacity for work was not being developed. Some years ago J. C. Wilson & Co. erected large flour mills and a foundry down at the bay shore and demonstrated the power of the waters by running their entire plant with a four and one-quarter inch turbine wheel, with a head of about 175 feet. The Wilson Company held their option on the lake, and refused all offers made them until after the death of the senior member of the firm, when the Glenora Power Company secured an option on the lake power. The purpose of the company is to develop electric power and build an electric railway line in Prince Edward county, which by reason of the fertility of its soil, the well-to-do character of its people and the special scenic attractions of the place offers an excellent opening for a railway line.

The company also purpose doing a big business in stone crushing, stone being available in large quantities, and shipments to Toronto and other points by water will make possible good trade. Another probable industry is a sugar factory at Picton for which light and power and water could well be supplied. They also propose furnishing cheap power to Deseronto and Belleville.

MILITANT MESSAGE FROM RUSS CZAR

Stirs the Russian People to Fear Humiliation in Peace—Revival of War Spirit—Merchants of Moscow Issue an Address to the Army Expressing Confidence in Linevitch—Birthday Anniversary of Czar's Heir to be Celebrated by an Act of Justice to the People.

St. Petersburg, Aug. 1.—Emperor Nicholas's martial message to the Orenburg clergy, in which he expressed his determination never to conclude a peace dishonorable to Russia or unworthy of her greatness, has struck a responsive chord in many quarters, even among the friends of peace.

The merchants of Moscow, who are largely old believers, and who control much of the wealth of the nation, are sending an address to Gen. Linevitch, to express confidence that the army will defend Russia's honor and that a humiliating peace will not be made.

In significant connection with the peace conference is the meeting of the Emperor's chosen counsellors, 22 in number, which will be held to-morrow to pass their verdict on the national assembly project. The Emperor wishes to reach a conclusion before August 12, the birthday anniversary of the Grand Duke Alexis Nicolaievitch, heir to the throne, and a manifesto generally is expected on that day.

The promulgation of an acceptable reform project would make the acceptance of the decision of the peace conference much easier.

No Time For Peace.

New York, Aug. 1.—Nasujiro Ishikawa, editor of The Hachi Shimbun of Tokio, one of the men officially accompanying Komura, the Japanese peace envoy, yesterday said: "My people feel that this is no time for peace.

"First we must get Harbin and Vladivostock for unless we get them we fear that by and by we shall have to fight again. We must stop Russian ambition now, once for all. We do not wish to fight the Russians again once peace has been concluded."

Assembly Meets in October.

St. Petersburg, Aug. 1.—It is understood that the selections of members for the proposed national assembly will be held on October 14, and that the first meeting of the assembly will be held at St. Petersburg on November 14. The Emperor has the right to prorogue or dissolve the assembly, as well as to determine the duration of the session.

Mikado Sees Roosevelt.

Oyster Bay, Aug. 1.—President Roosevelt entertained at luncheon yesterday Baron Rosen, who succeeded Count Cassini as Russian Ambassador to the United States, and who is associated with Mr. Witte as an envoy of the Emperor of Russia to the peace conference.

Rojestvensky's Condition.

Tokio, Aug. 1.—Admiral Rojestvensky's condition has made satisfactory progress since the operation was performed on his forehead. He was able to leave his bed and sit in a chair Sunday. Pains in one foot, however, prevent his walking freely.

COREA FEELS JAP INFLUENCE.

Free Coast and Interior Navigation Privileges Secured.

Seoul, Corea, Aug. 1.—Japanese influence has finally secured free coast and interior navigation privileges in Corea. The concession was passed by the Cabinet after several weeks' consideration. Several Cabinet Ministers who were unwilling to grant the concession resigned and thus shirked an unavoidable responsibility.

Tired all the Time.

Mrs. George Beattie, Carr's Brook, Colchester Co., N. S., writes: "Last spring I was very much run down, felt tire all the time, and did not seem to have life or energy enough to do my work. Three boxes of Dr. Chase's Nerve Food did me a world of good, and made work a pleasure to me. I have not had occasion to use any medicine since, and have recommended Dr. Chase's Nerve Food to all my friends."

Germans Buy Coal.

English papers just to hand confirm the story of the sale of the Whitworth Welsh coal fields to a German syndicate. The estate is estimated to contain 200 million tons of steam coal, but not the quality known as Welsh smokeless used by the British admiralty and principal British steamship companies.

Any Troubles In Your BATHROOM?

If you are having any trouble with your CLOSET or BATHROOM CONVENIENCES, come round and have a talk with us.

A gentleman, attracted by the range of Sanitary Closets and excellent values we are offering, invested in a new one, although he already had one that was working not badly.

The way he looked over the Closets we arranged before him for inspection showed he had been sifting the matter, and knew how to prove and disprove the claims of dealers.

The saving of health and expensive plumbing repairs, warranted the investment, he said.

How is yours working? Bring your Bathroom Troubles to us. Our Toronto Stock is what we sell in our Peterborough Branch.

IN STRICT CONFIDENCE.

Women Obtain Mrs. Pinkham's Advice and Help.

She Has Guided Thousands to Health.—How Lydia E. Pinkham's Vegetable Compound Cured Mrs. Fred Seydel.

It is a great satisfaction for a woman to feel that she can write to another telling her the most private and confidential details about her illness, and know that her letter will be seen by a woman only, a woman full of sympathy for her sick sisters, and above all, a woman who has had more experience in treating female ills than any living person.

Over one hundred thousand cases of female diseases come before Mrs. Pinkham every year, some personally, others by mail, and this has been going on for twenty years, day after day.

Surely women are wise in seeking advice from a woman of such experience, especially when it is absolutely free.

Mrs. Pinkham never violates the confidence of women, and every testimonial letter published is done so with the written consent or request of the writer, in order that other sick women may be benefited as they have been.

Mrs. Fred Seydel, of 413 North 54th Street, West Philadelphia, Pa., writes:

Dear Mrs. Pinkham:—

"Over a year ago I wrote you a letter asking advice, as I had female ills and could not carry a child to maturity. I received your kind letter of instructions and followed your advice. I am not only a well woman in consequence, but have a beautiful baby girl. I wish every suffering woman in the land would write you for advice, as you have done so much for me."

Just as surely as Mrs. Seydel was cured, will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ills.

No other medicine in all the world has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound. Therefore no prudent woman will accept any substitute which a druggist may offer.

If you are sick, write Mrs. Pinkham, Lynn, Mass., for special advice. It is free and always helpful.

Yardmaster Killed.

Daniel Cameron, yardmaster for the I. C. R., at Point Tupper, was killed last evening. He was engaged in cutting off cars and caught his foot in a frog. One wheel of the car passed over him, tearing his leg from the body. He only lived forty-five minutes. He belonged to Orangedale, was 25 years of age, and unmarried.

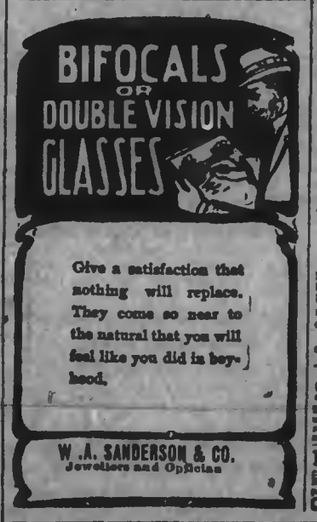
Drug Cures for Headache

You can't take the drugs these remedies contain, without paying the penalty sometime.

Give Zutoo, the Japanese vegetable remedy, just one trial, and you will never want to take a drug cure again.

Better still, you will never need to. It will cure your headache just as quickly, and leave you feeling good every time. This is always the result from taking

Zutoo, the Vegetable Cure.



Give a satisfaction that nothing will replace. They come so near to the natural that you will feel like you did in boyhood.

Rapid Circulation in the "Bison" Heater

The expansion of hot water in the heater causes circulation.

If the water heats at the bottom first, it cannot circulate till the water in the upper sections is also heated. Most heaters heat the bottom water first.

The "Bison" heats the water at the top first.

That is why it gets almost instantaneous circulation of hot water into the radiators—it is one of ten reasons why the "Bison" is the best heater.

BISHOP SCOLLARD EXTENDS WELCOME

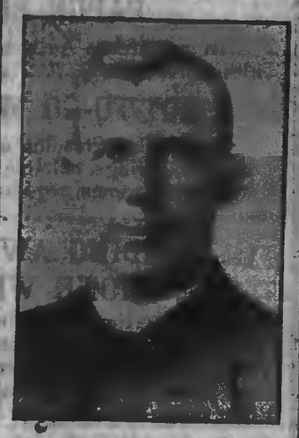
Mgr. Sbaretti, Papal Delegate, Visits the Soo.

Former Peterborough Priest Spoke of the Great Extent of the New Diocese.

(Soo News.)

As the steamer Saronic came into port shortly after 6 o'clock yesterday on her trip from Sarnia a large crowd of citizens stood on the government dock to welcome one of her passengers, namely, Mgr. Sbaretti, the popes' delegate to Canada. While yet some distance out his excellency could be distinguished among the passengers on the hurricane deck and courtesies passed between him and the people on the wharf. After raising his hat as an acknowledgment of the greeting of the people he hurried away and when the boat had tied up appeared at the gangway, where he was informally welcomed to the diocese of Sault Ste. Marie by His Lordship Bishop Scollard and to the parish by the Rev. Father Lussier of the Sacred Heart church, and by Mayor Plummer on behalf of the town. Among the people on the dock when the boat arrived were the boys of the separate school, also the men of the parish who marched there in a body.

His Excellency, Mgr. Sbaretti, and His Lordship Bishop McEvay, of London, by whom he was accompanied, were escorted to carriages and driven up town to the Sacred Heart church, where another large crowd was gathered to greet him. The church was beautifully decorated with orange, white and blue bunting and Sacred Heart flags and the altar was adorned with a profusion of flowers, candles and electric lights.



HIS LORDSHIP BISHOP SCOLLARD, Who Welcomed Mgr. Sbaretti to Sault Ste. Marie.

On the visitors entering the church special music was rendered by the choir and at the altar Bishop Scollard addressed the papal delegate in words of welcome to the diocese. Bishop Scollard spoke for about 20 minutes, referring particularly to the recent organization of the diocese and giving some figures as to its extent which is such as to include 30,000 church members, of whom 4,000 are Indians. J. J. Kehoe, Judge O'Connor and S. Marchildon entered the sanctuary and the former read an address of welcome from the parishioners and societies. Mgr. Sbaretti made an extended reply in which he congratulated the people on the organization of a new diocese, which he found to have been done in an excellent and admirable manner. He spoke also of the education of the young and laid great stress upon it as the fundamental necessity of both their religious and secular life.

The church ceremonies were closed by his excellency performing benediction of the blessed sacrament.

Mgr. Sbaretti will remain in the Soo a couple of days and then continue his trip to Port Arthur and Duluth.

Killed on Track.

Ian McKenzie, son of Alexander McKenzie, was killed on the Grand Trunk track near Oakville on Friday. The lad was about eighteen years of age.

"OZONE" IT'S BEST FORM

The prompt and permanent removal of any internal germs is most surely affected by the use of "Solution of Ozone" if it's 'the coupon kind.' It means the liquified oxygen is in the most concentrated form and that in addition is given free with either the fifty cent size or the one dollar size of the solution a coupon good for a twenty-five cent package of "Celery King." This splendid tonic laxative is needed to obtain the best results in the use of the stringent "Ozone without lessening its curative properties. The Public Drug Co., Bridgeburg, Ont. control exclusively the manufacture of both "Solution of Ozone" and "Celery King." Sold by W. B. WARNE. 10

A CHARMING SOCIAL EVENT TOOK PLACE IN JUNIPER PAVILION

Delightful Dance Was Given There Last Night—The Most Enjoyable Event of the Season—Some of Those Who Were Present—Preparations Being Made for Masquerade Ball on Saturday Evening Next—Interesting Personal Happenings From the Lakes.

Special Examiner Correspondence.

Stony Lake, Aug. 1.—A charming dance was held last night at the Juniper pavilion, and was attended by one of the largest and jolliest crowds of the season. The increased attendance was probably due to the fact that many were prevented from being present on Saturday evening, owing to the roughness of the weather. Those present last night were, however, more than compensated for their enforced absence at the week-end and entered into the spirit of mirth and jollity last night, with an added zest. Among the large crowd in attendance were:—Hon. J. J. R. and Mrs. Stratton and party, Mr. Henderson, of Toronto, and party; Mr. and Mrs. and Miss Etter, M. Cramer, Cleveland, Ohio; Miss Alta Bradd, Miss Barnes, Cleveland; Misses Annette and Florence Collins, Miss Mollie Meldrum, Miss Maxwell, Misses Mollie and Gertrude Young, Misses Helen and Dot Routley and Miss Lambe, Miss Alice Dennel, Mrs. Lee and Miss Edna and Hazel Lee, Miss Pope, Miss Angel Durkin, Miss Cade, Miss Reid, Miss Evelyn DeWitt, Miss J. Choate, Miss Sykes, Miss Strauman, The Misses Elms, Miss Thomas, Mr. Starr, Mr. Pope, Mr. Meredith, Mr. Gallon, Mr. J.m. Eakins, Mr. Fred Collins, Mr. Graham Ferguson, Mr. Gerald Rackham, Mr. Rupert Donnet, Mr. Kosk, (Pittsburg) Mr. Leo Young, Mr. Harry Sutherland, Mr. Ronald McKee. A number of the launches from different parts of the lake each brought large parties.

Everyone in looking forward with great interest to the Masquerade Ball, which will take place at the pavilion on Saturday evening. This is always one of the most fascinating social events of the summer season, and an increasing interest is manifested in it each succeeding year. A Peterborough orchestra has been engaged for the occasion and the committee is sparing no pains to add many new features which will increase the enjoyment of this year's function.

Mr. Reg. Orr came up the lakes yesterday.

Mr. J. H. McWilliams went up to his cottage yesterday.

Mr. Ernest Payne has returned home after spending a few days at the lake.

Dr. J. R. Fraser, of Lakefield, was up the lake yesterday.

Rev. Geo. Warren, of Lakefield, came up to Wabamo yesterday.

Mr. F. W. Sterling who has been a guest at The Victoria House during the past six weeks, left yesterday for a business trip to the Lewis & Clark Exhibition, Portland, Oregon.

Mr. Fred A. Clarke came up to Stony Lake yesterday.

The Misses Cahill, of Peterborough, and Miss Coleman, of Trenton, returned home yesterday after spending two weeks at South Beach House, Young's Point.

Mr. John Green returned to the city after a week's holiday at Vlamede.

Mrs. Kirn and Miss Henry, of Toronto, are guests of Mrs. P. P. Young, Young's Point.

Mr. F. R. Follett, Toronto, is a guest of Mr. L. Acton at Chateau du Lac.

Among the recent arrivals at the Victoria House are: Mr. and Mrs. F. G. Cummings, Rochester; Miss K. M. Cummings, Denver, Col.; Miss Ella and Miss Mary Callahan, Buffalo, N. Y.; Miss Mary L. Nolan, Rochester; Mr. Geo. S. East, Utica, N. Y.; Mr. Lewis L. Warren, Rome, N. Y.; Miss O. Marie and Miss Rose Clark, Toronto.

Rev. Mr. Wilson, of Hamilton, came up the lakes yesterday.

Misses Helen and Dot Routley and Miss Edith Lambe came up to Mr. Routley's cottage, Rockport, yesterday.

The following party is at Juniper Island: Lt.-Col. and Mrs. E. B. Edwards, Misses Isabel and Hattie Edwards and Miss Bertha Brown.

Mr. R. Genard, Toronto, is at "Mahawewa."

Mr. Herbert Geale, of Toronto, is at "The Hermitage."

Messrs. J. G. McCready and Alex. McCready are at "Blarney Castle."

Mr. and Mrs. P. A. Foy, of Quebec, are at Dunlogie.

Messrs. Horace B. Dale, H. Vivian Knowland, W. M. McKenzie, W. Williams and F. W. Armstrong, of Toronto, are at "Mahawewa."

The following party is occupying Mr. Jones' cottage, Eagle Mount:—Misses Nelle Downard, Skies, Crofton, Ethel McBeaton and Mae Jones, of Toronto.

Miss M. Robertson, Peterborough, Miss M. Caldwell and Mr. J. D. Caldwell are at "Medawawhock."

Mr. and Mrs. J. H. Sherin are at Mr. Julian.

Misses Maude S. Campbell and Ella M. Olmsted, of Niagara Falls, N. Y., are guests at Dulce Domum.

Mr. Ernest R. Phillips, of London, is a guest at Chateau du Lac.

Mrs. M. E. Crouch and Miss Eva H. Cottrell are guests at Viamede.

Mr. F. E. Bastion, Mr. Frank Turrant and Mr. A. J. Bristol, of Rochester, are at Burleigh.

Miss Cramer, of Cleveland, was fortunate enough to secure an unusually large lunge yesterday.

REPORTS FOR THE INSTITUTE

Instruction to Members Who Have Not Received Them.

Mr. T. M. Hunter, the Newly Elected President of the Institute, Asks Members to Notify Him.

Mr. T. M. Hunter, the energetic president of the West Peterborough Farmer's Institute, has asked the Examiner to quote an extract from a letter which he has received from Mr. Geo. A. Putnam, head of Farmer's Institutes for the Province, in reference to the non-receipt of their usual amount of literature. Mr. Hunter wrote the head office in reference to the matter, and in reply received a letter in which the following paragraph appeared:

"We are receiving a number of enquiries from institute members as to why they have not received more literature during the present year. I may state that it is not usual for more than one or two reports to be published during the first six months of the year, and members will receive most of the literature during the last six months of the year. The only reports mailed thus far this year to the members of the institute are the Ontario Agricultural College and Part I. of the Farmer's Institute Report. All members will be entitled to the following additional reports: Experimental Union, Dairyman's Association, Live Stock Association, Bulletins 143 and 144, and probably one or two additional Bulletins. The Experimental Union report is now printed and has been mailed to some of the members; the others may expect to receive a copy within a few weeks. The explanation of this is, that the reports which were formerly issued separately by the Eastern Dairymen's Association, the Western Dairymen's Association, and the Butter Makers' Association are now brought out in one volume. You will also notice that the separate reports which were formerly issued by the Sheep Breeders, Swine Breeders, Cattle Breeders and the Poultry Association, are now compiled in one volume. The members receive reports of as many societies as in former years, with the exception of the Fruit Growers' Report, but in a less number of publications.

Yours very truly,
Geo. A. Putnam.

In case any of the members of the Institute do not receive the reports which they are entitled to, the president requests them to notify either the secretary, Mr. Wm. Collins, or himself, and the matter will be attended to promptly.

IS MRS. HUBBARD RACING FOR GOLD?

Former Peterborough Lady Who is on Her Way to Labrador.

Her Husband is Said to Have Discovered Gold Mines.

New York, July 31.—Are the separate expeditions into Labrador, of Mrs. Leonidas Hubbard, jr., widow of the explorer who lost his life in the barren regions and Dillon Wallace, who accompanied Hubbard on his fatal tour, a race for gold? Information obtained from friends of Mrs. Hubbard indicate that the Hubbard and Wallace parties are not in search of unexplored lands but of mines which Hubbard is said to have discovered before his death.

Before her departure for the north Mrs. Hubbard told several of her confidants in this city that she had in her possession letters from her husband telling of his unexpected find and also giving the exact location of the mines.

In these letters Mr. Hubbard intimated that in view of his good fortune he probably would discontinue his exploration work and return to the United States to interest capitalists in the development of his gold mines. Mr. Hubbard told his wife that these mines were worth several millions of dollars.

Mrs. Hubbard is expected to reach the mines within four weeks. When she returns here her friends say she will issue a statement vindicating Wallace of the charge of desertion in connection with her husband's death.

To cure Constipation, Sick Headache and Biliousness, take Smith's Fruit-a-tives and Smith's Fruit-a-tives Pills. 25 cents at dealers.

QUICKLY CURED.
Pollard, Ark.
"Received Pleasure and fifty cents for two boxes of Smith's Fruit-a-tives. After taking half a box of the second box I will be entirely cured. I am finishing up the third box, and when I commenced using the pills I had to get up out of bed several times during the night to attend to nature, and the calls were fully as frequent every day. I have discontinued to get up during the night and often not at all. I feel confident that they will cure any sensible case if used according to directions and for a reasonable length of time. Hoping to receive the bill in return mail, I remain, and your much obliged friend, Truesdale, very truly yours."
G. W. R. McDONALD.

UNION LABEL

TUESDAY, AUGUST 1, 1905.

WELCOME THE "OLD BOYS".

Next Monday the "Old Boys" of Peterborough will come home in a body for their annual visit to the old town and the new city. Let us give them a warm welcome. No doubt they will be individually welcomed with great cordiality, but the city as a city should do its share. A civic reception committee is preparing a reception, but not on an elaborate scale. There will be a few decorations, but it depends upon the citizens to dress the town in a blaze of beauty. If such citizen who has a flag would hang it out upon the outer wall the general effect would be excellent. Though the "old boys" will always speak a good word for the town, they will do so with far greater zeal if they are made to feel that they are appreciated by the town generally. Let all citizens unite to give the "old boys" a rousing general as well as personal welcome. In view of the unique character of the Lift Lock and the attention it always commands, would it not be a good idea for the civic reception committee to arrange for a trip to the [illegible] Lift Lock. They will come from all quarters, and if they have personal experience of its operation they will speak of it with greater intelligence and thus do mission work for the cause of canal completion.

THE TRENT CANAL.

The very elaborate preparations in connection with the semi-centennial of the opening of the locks at Sault Ste. Marie on the American side of the channel, are characteristic of our cousins. About $55,000 will be expended in the celebration which will be of international importance, the Dominion Government having contributed $4,000 to the fund, in recognition of Canadians having enjoyed the use of the American lock for forty years before the construction of the Canadian locks. The celebration is going forward to-day and to-morrow, (Aug. 2nd and 3rd.) While the demonstration in itself is and will be a splendid affair, its chief importance is derived from the emphasis the occasion will place upon the importance of canals and waterways as freight carriers. The value of the locks and canals at the "Soo" for freight purposes is enormous. During the season of 1904 the freight which passed through the lock and canal on the American side alone, amounted to 31,546,106 tons, an amount greater than the tonnage passing through the Suez Canal. The canal and locks at the "Soo" have cost twelve million dollars and the amount will be swollen to fifteen millions by the time contemplated improvements are completed. This has a direct bearing upon the Trent Canal enterprise. If it is found a paying investment to expend fifteen millions upon a canal a mile long and a system of locks, it is certainly worth while to expend four or five millions additional to complete the Trent Canal, whose importance as a freight carrier cannot be too strongly insisted upon. With a bumper wheat crop in the North-west this year, all avenues of transportation will be taxed far beyond their capacity and the Trent Canal if completed would afford a great relief to, if it would not overcome, the congestion of traffic, which it is bound to ensure this season. Under these circumstances the importance of pushing on the completion of the Canal with the greatest possible vigour. We have the money, the necessity is great and the work should not be neglected. It becomes the people of Peterborough and those interested in national development to urge the matter upon the Government in the strongest way.

EDITORIAL NOTES.

If an ordinary man wishes to develop into an extraordinary nobody let him marry a superior woman.

A Boston newspaper has a strong editorial in favour of annexation with Canada. As Mr. Fielding has just announced his $9,000,000 surplus the Montreal Star thinks, it rather looks as if Uncle Sam wanted to marry us for our money.

A factory for making money at Ottawa comes in at a convenient time — post, if not, propter, the increase in sessional indemnity and the increase of salaries. The Dominion mint will soon be in operation coining Canadian money from Canadian gold and silver and nickel.

Only four of the fathers of Confederation survive: Sir Charles Tupper, Sir Hector Langevin, Senator A. A. McDonald, of Prince Edward Island, and Sir Ambrose Shea, of Newfoundland. Sir Ambrose Shea is 87, Sir Charles Tupper was 84 on July 12, Sir Hector Langevin is 79, and Senator McDonald 76.

The Montreal Star says the Auditor General is the only check on improper outlay. Rubbish! Two hundred and fourteen checks should be represented by the two hundred and fourteen members whose sessional indemnity checks of $2,500 each amount to, in the aggregate, $535,000. Is the Auditor Genral more important than this costly collection of representative wisdom?

Canadian fruit growers should unite in the crusade against the dishonest packing of fruit. Near Hamilton a fruit grower packed berries with good fruit on top and rubbish and rotten fruit beneath. The man that does things like that commits a double crime especially if the fruit is shipped abroad—to the Old Country, where purchasers have learned to have pretty high confidence in the honesty of Canadian producers. They expect sharp practices on the part of our American cousins, but expect better things from their Canadian fellow subjects. Persons who pack fruit dishonestly not only seek to obtain money under false pretenses—a jail offence—but they injure Canadian credit which is worth more than money.

Winning Boers Hearts.

Lord Selborne, according to a Pretoria despatch in the London Daily Mail, is winning the hearts of the Boer people through his sympathetic references to the hardships caused by the late war, and by privately relieving cases of distress brought to his notice. He has publicly referred to the war as "a hideous calamity," and has said that the government of the Orange Free State "was respected and honoured throughout the civilized world," adding that good government means justice, liberty and freedom from any kind of fraud. Frequent conferences are taking place between Lord Selborne and the Boer leaders.

WATER TRANSPORTATION AN IMPORTANT FACTOR

With Trade Development of the Resources of the Country —An Evidence of This in the Great Growth of Canal Traffic at the Soo—Semi-Centennial Celebration of Their Opening to be Held Next Month---The Traffic 30,000,000 Tons Per Year.

In view of the fact that the people of this district in their belief in the advantages offered by water transportation are agitating for the completion of the Trent Canal, the following article, prepared in connection with the semi-centennial celebration of the opening of the locks at Sault Ste. Marie, will be read with interest here:

Fifty years ago navigation between Lakes Superior and Huron was made possible by the construction of a canal around the falls in St. Mary's River. It is now the highway for more ship traffic than any other canal on earth.

The fiftieth anniversary of this important event is to be observed in the first week of August, with a celebration of international importance. Men whose names are known the length and breadth of the continent will attend. Among them will be vessel owners, mine owners and capitalists, many of whom have great fortunes that were made possible by the canal. There will be engineers and a host of others interested in the waterway. Visitors to the number of 10,000 are expected. Charles T. Harvey, who supervised the construction of the first canal, will be here. The visitors will be sheltered in the big summer resort hotels and the homes of residents of this city.

Congress and the State of Michigan have given recognition to this celebration by appropriating money for it. Congress gave $10,000, Michigan gave $15,000, and $25,000 was raised by the people of this section.

Hon. Peter White, of Marquette, is at the head of the commission having charge of the celebration. He is an owner of iron mines and steamship lines.

An important feature of the affair will be the unveiling of a bronze monument designed by St. Gaudens.

The programme includes the dedication and unveiling of this new monument, a review of the Third Regiment of the State Militia, and a reception to Governor Warner on the first day, with a grand pyrotechnic display in the evening, a marine parade, speeches by Vice-President Fairbanks, Senator Burrows, Peter White and others on the second day, to be followed by another display of fireworks in the evening. Both fireworks displays will be shown from an elevation on the outermost pier in full view of the American shore of the river, where a grand stand large enough to seat thousands of people has been erected.

Originally freight and passengers were transported around the falls over a portage about one mile in length. The first ship canal, constructed by Michigan in consideration of a government land grant of 750,000 acres was completed June 4, 1855. It was a little over a mile in length and cost $1,000,000. The year before the canal was built 12,600 tons of freight passed over the portage. The year in which the canal was opened showed a tonnage of 14,503. Since that time the annual average increase has been about 20 per cent. During the season of 1904 the freight that passed through the canal amounted to 31,546,106 tons.

The first canal served from 1855 to 1881, when the Weitzel lock was built to accommodate the larger vessels of that period. It was made 515 feet in length and is still in use.

Between 1887 and 1896 the Poe lock was built on the site of the old state lock. It is 800 feet in length and has a chamber 100 feet in width from end to end.

The canal since 1892 has been deepened to 25 feet. The Poe lock will accommodate vessels drawing 21 feet of water. The canal varies in width from 300 to 1,000 feet, and is more than one and a half miles in length. The cost of the canal and locks since 1881 has been as follows:

State lock and canal of 1855	$1,000,000
Weitzel lock	1,000,000
Poe lock	3,000,000
Widening and deepening of canal	3,000,000
Improving the channel through lower courses of St. Mary's River	4,000,000
Total	$12,000,000

Some Other Facts of Interest.

Hydraulic power from Lake Superior is used in operating the locks. A pressure of 200 pounds per square inch is secured in the machinery on the Poe lock.

The Poe lock can be filled or emptied in seven minutes. The Weitzel lock is smaller, but requires as much time to operate.

Before 1881 when the old lock was controlled by the State of Michigan, a toll of 6 1-2 cents a ton was imposed to cover repairs and expenses of operating, but since the locks have been operated by the Federal Government, there has been no charge.

Nearly 100 men are employed by the Government in charge of the canal and the parks or government grounds along the water front.

The total operating expenses for 1904 were $93,248.

Government engineers are making plans for another widening of the canal and a new lock, the total cost of which will be about $3,300,000.

NEW FEATURE AT JACKSON PARK

Moving Pictures Put on Last Night—Good Views Shown.

Last night a new feature was added to the programme arranged for the Street Railway Company. Mr. George Mahl of the New York Kinetograph Company, has been brought to Peterborough, and last night a series of moving pictures were shown by him. These pictures are of a good variety and will be shown again to-night, but on Wednesday and Monday nights there will be an entire change in the character of the views shown.

The 57th Band was also at the park and gave a number of selections which were well appreciated.

There was a good crowd at the park last night, but owing to the unfavourable weather conditions it was not as large as the crowds on previous band concert nights.

Co-operative Heating.

There is a fair prospect, says the Hamilton Spectator, that by the time the snow flies Hamilton's steam heating plan will be in operation and ready to heat a number of blocks in the centre of the city.

HE SAW LIFT LOCK FOR FIRST TIME

The Man Who Had Described it a Score of Times.

And Another Who Had Lived in the City Since its Construction was Begun.

There are thousands born and living within hearing of the roar of Niagara Falls and grown to adult years, who have never visited them, while thousands have crossed oceans and continents on purpose to view them. So it is with wonderful places in cities always visited by tourists but never seen by residents; so it is with the lift lock. It has been visited by hundreds from abroad—by many from such great distances as England, France, Russia and China, and there are hundreds in Peterborough who have never even seen the lift lock. They doubtless argue that they will see it to-morrow, or next week, and so the matter is postponed from time to time till indifference results.

A concrete example is afforded in the visit of Mr. C. H. Allison to the city. He has, as is known, very widely advertised the lift lock by contributing illustrated descriptive articles to many important United States magazines and journals. On the occasion of his present visit to town he took occasion to visit the lift lock which he had written so much about and had the pleasure of being taken up the lift in the houseboat "Lotus." He was accompanied by his brother who lived in the town during the whole time of the construction of the lock and had never yet visited it, and the jocular remark was made that he had come all the way from New York to show his brother the lift lock.

NEW INSPECTOR ARRIVES IN CITY

Mr. Richard Lees, Associated School Inspector for County Here.

Mr. Richard Lees, M.A., associate Public School Inspector, for the County of Peterborough, returned from the lakes this morning to remove his furniture to his residence on Smith street, immediately west of the railway track. Mrs. Lees and family are at their cottage, "Waterlee," at the head of Stony Lake, for the summer months, and will take up residence in Peterborough on the first of September.

PIONEER LADY PASSES AWAY

Late Mrs. Scott Was Wife of First White Man Born Here.

A Well-known Lady who was Highly Respected Died this Morning.

A lady who was the connecting link between the Peterborough of the present and the hamlet of the old days, Mrs. Ann Scott, widow of the late Walter Scott, who was, it is claimed, the first white child born in Peterborough, passed away this morning at the home of her son, William Scott, Lot 1, Con. 1, of Smith.

The late Mrs. Scott was in her 80th year, and until about two months ago was in almost perfect health. Since that time, however, she had been failing and her end came gradually, old age being the cause of death. Her maiden name was Ann Fowler, of North Monaghan, and she had resided in this County all her lifetime. She was married to her late husband many years ago, and during his lifetime they lived in Smith, where, near Bridgenorth, Mr. Scott owned a mill. He was one of the most widely known men in the County and was, as has been stated, the first white child born in Peterborough, his father, Adam Scott, having built the first house in this town. At the time of her husband's death, twenty-five years ago, they lived in North Monaghan, and the circumstances connected with his death were pathetic. He was killed at the viaduct at Port Hope, where he was, attending a trial as a witness.

After her husband's death, Mrs. Scott removed to Smith, and had lived with her son there ever since. She leaves to mourn her loss six sons and two daughters, as follows:—Adam, of San Francisco, Cal.; James, of Lethbridge, N.W.T.; Mrs. J. P. L. Walton, Estevan, Assa.; John, of Peterborough; William, of Smith; Walter, of Peterborough; Mrs. A. Robinson, of Peterborough, and Robert, of Toronto. A number of brothers and sisters are also left, their names being: Mrs. A. Grant, of Peterborough; Mrs. Geo. Tully, of Iowa; Mrs. Robt. Leich, Cleveland, Ohio; Mrs. Rich. Lillico, North Monaghan, John Fowler, North Monaghan; Mrs. John Dobbin, of Yellow Grass, N.W.T.; William Fowler, Peterborough; George, of Peterborough, and James, of Toronto.

The late Mrs. Scott was a consistent member of the Lakevale Presbyterian church, and was a lady noted for her exemplary Christian character. Her death will bring sorrow to many of her friends.

The funeral will take place on Thursday at 2 o'clock from her son's residence, lot 1, concession 1, Smith, to the Little Lake Cemetery.

THE DELEGATES WERE ELECTED

To Attend High Court Meeting of I. O. F.—Excursion Arrangements.

At the last meeting of Court Chemong, 536, I. O. F., the following were elected as delegates to the high court of Eastern Ontario: Bros. T. N. Greer, G. W. Powell, Wm. Miles, Thos. Dale, the alternate delegates being Bros. E. W. Gray and Geo. W. McKee. The court also completed arrangements relating to the I. O. F. excursion on Civic Holiday, August 14th, to Belleville, Forester Island Park, Deseronto and Lake on the Mountain. This trip was very highly appreciated by all those who took advantage of it last year, and the pleasant sail across the Bay of Quinte and beautiful scenery proved a great attraction, as did also the famous and wonderful Lake on the Mountain. The public will be pleased to know that they will be given another opportunity to view these places on our Civic Holiday.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

PERSONAL MENTION

Mr. Ed. Clark left for Chicago this morning.

Dr. Shaw, of Keene, was in town this morning.

Mr. L. Johnston left this morning on his vacation.

Miss Rose Clarke and Miss Marks are spending a few days at the Victoria House, McCracken's Landing.

Mrs. Keane, of Loretto Convent, Toronto, is visiting friends in Peterborough, renewing old acquaintences.

Geraldine Gough, daughter of Mr. Rich. P. Gough, of Toronto, is visiting with Mrs. H. Le Brun, Stony Lake.

Miss Brooks and Miss Margaret Brooks left yesterday for Rochester, the former to visit and the latter to remain.

Miss Floyd, who has been spending some pleasant days with Mrs. H. Le Brun at Stony Lake, returned to the city last night.

Miss Edith Maud, violinste of Galt, is in town for a visit the guest of her uncle, Mr. J. L. Maud, Sr., "Diamond Home," Watton street.

Mr. H. Wightman, D. D. S., has returned from attending the meeting of the National Dental Asaociation held in Buffalo last week.

Messrs. A. M. Regan and Barlow, of the Beaverton lacrosse team, were in town to-day. Mr. Barlow left later to visit his mother at Stirling.

Miss Susie Campbell of Gilmour street, an accomplished musician, will take Miss Clarry's duties as organist during the latter's absence on her holidays.

Miss Bryce, of Keene, leading soprano of St. Andrew's church choir, is engaged to sing at an English church concert in Bobcaygeon to-morrow night.

Miss Clarry, the popular and efficient organist of the Charlotte street Methodist church, left last night for Sturgeon Point on her holiday vacation.

Mr. and Mrs. C. H. Allison, of New York, accompanied by Mr. and Mrs. Fred. O. Allison and family, went to Stony Lake for a few days, going up this morning.

Mrs. P. Roche and her daughter-in-law, Mrs. Jack Roche, left to-day for Rochester, where they will visit the former's daughters, Mrs. Gleason and Mrs. Grievson. They will also visit Buffalo.

Mr. and Mrs. Fred. Tilston, of Toronto, have been the guests of Mrs. H. Le Brun at "Bellechasse" cottage, Stony Lake. Mr. Tilston passed through the city this morning on his return home.

The many friends of Mr. Harry Daly, formerly of this city, will be interested in hearing that he has been making a name for himself in athletics in Winnipeg.

Miss Eva Strang, of Rochester, who has been the guest of Miss Clara Connors, 331 George street, returned home accompanied by Miss Connors, who will spend a month's vacation there.

The Misses Mamie and Nellie Thompson, of Peterborough, who had been visiting friends in Whitby and Bowmanville for the past week, passed through town on the return journey this morning.—Lindsay Post.

Mr. Percy K. Holmes left last night en route for England, on receipt of a despatch stating that the steamer upon which he was to sail for England left a day earlier than was expected.

Mr. and Mrs. K. G. Loch will go up to the Lakes to-morrow to open their cottage and will remain there during August. Messrs. Keith and Cyril Loch have been camping at Joseph's Island, and report having had a splendid time.

Mrs. J. S. Clark and Miss Clark, of Alta Vista, Kansas, who have been the guests of their cousin, Mrs. W. Kinzeid, Stewart street, for the past week, left yesterday to visit friends in Bethany, Lindsay, Kinmount, Toronto, Niagara Falls and Chicago, before returning to their home in Kansas.

Mr. J. L. Hughes, Park Place, returned yesterday from a six weeks' trip to the Pacific Coast. He went west through the Northern States of the Union to Seattle, returning by way of British Columbia and the Canadian North-west and Winnipeg. He had a very pleasant journey and with him came Mr. Alex. Stout of St. Peter's Reserve, near Selkirk. Mr. Stout is an old Hudson's Bay employee, he having served the Company 44½ years. He is in town a day or two, en route for the Maritime Provinces, where he will visit friends.

FREIGHT RATES ARE INCREASED

Packing Houses Have to Pay Higher Rate.

How it Will Affect the Local Company —No Serious Matter.

A despatch from Toronto says:—"Freight rates on the products of the packing houses will advance on August 7th on both the Canadian Pacific and the Grand Trunk lines. The packing houses at Toronto, Collingwood and Peterborough will be mainly affected. The advance will amount to between two and three cents per cwt."

The George Matthews Company, of this city, the only firm affected by the increase, was communicated with this afternoon, and they stated that advices had been received by them to the effect that the rate to Montreal, which was formerly 15 1-2 cents, had been increased by 2 1-2 cents, and was now 18 cents per hundred pounds. The increase to Portland, and St. John, N.B., which was the same rate, had been increased 4 1-2 cents and is now 20 cents.

The increase, while it is considerable, comparatively, it is not worrying them very much, since the rates are constantly been increased and reduced again.

DECEASED WAS A FORMER RESIDENT

Late Mr. J. W. Smith, of Cobourg, was well known in Peterborough.

The many friends in Peterborough of Mr. J. W. Smith, for some time connected with the Crown Timber Lands Department of the Ontario Government, but more recently Bursar of the Victoria Asylum at Cobourg, will learn with regret of his death, which occurred in Cobourg after his recent serious illness.

Mr. Smith came to Peterborough from Sarnia a number of years ago, and during his residence here was very highly respected. He was a genial gentleman and one in whom the utmost confidence was placed. He was a warm friend of the late T. B. Pardee, head of the Department of Crown Lands.

In his official capacity he was a most capable man, and his death will be deeply regretted by his wide circle of friends.

HAIR WON'T FALL OUT

You Kill the Dandruff Germ With the New Treatment.

John N. Fuller, a well known citizen of Colfax, Wash., says: "I had dandruff so badly that it caked on my scalp. Herpicide completely cured me." George H. McWhirk of Walla Walla, Wash., says: "Herpicide completely cured me of a bad case of dandruff of thirty years' standing." They took the only really sensible treatment, a remedy that destroys the dandruff germ—Newbro's Herpicide. Stop dandruff, hair won't fall out, but will grow naturally, luxuriously. Allays itching instantly and makes hair glossy and as soft as silk. One bottle will convince any doubter of its merits. Sold by leading druggists. Send ten cents in stamps for a sample to the Herpicide Co., Detroit, Mich. Ormond & Walsh, special agents.

To Burleigh Falls.

On Thursday the Riverdale Sunday School will run an excursion over the Lift Lock to Burleigh Falls, per the Steamer Water Lily. Doubtless many citizens will take advantage of this opportunity to enjoy a pleasant sail through the Kawartha Lakes—the region of smiling waters and sunshine.

ENGINEER TO MAKE REPORT

Mr. W. J. Fuller Returns to the City From Stony Lake.

Has Investigated Conditions of the Water There—Was Entertained by Mr. J. S. Knapman.

Mr. W. J. Fuller, the engineer of the Public Works Department, returned to-day from Stony Lake, where he has been conducting an investigation in reference to the complaints that the water was too high. He is of the opinion that the people of Peterborough, who are interested in the development of power, should do all that they possibly can to maintain the water at a reasonable height, but at a height which would not inconvenience or cause damage to the cottages at the Lakes. What the nature of his report to the Department will be, he would not state.

Mr. Fuller during his stay at the Lake, was looked after by Mr. J. S. Knapman, secretary of the Stony Lake Cottagers Association, who piloted him around the lake. He speaks very highly of the kindness shown him by Mr. and Mrs. Knapman on his trip.

THE TORONTO FAIR THREE WEEKS OFF

Prospects are Excellent for a Successful Exhibition.

The Canadian National Exhibition, to be held in Toronto from August 30th to September 13th, is only three weeks off. Entries for live stock, dairy products, fine arts, natural history, women's and children's work, are due next Monday, the 7th inst.; entries for grain, field roots, garden vegetables, floricultural and horticultural products and honey, close a week later, namely on Monday the 14th inst., while for poultry, pet stock, cats and dogs, the entries close on Saturday the 19th, inst. For the special trials, premiums for which amounting to $2,300 are to be given, entries close on Tuesday, the 15th, inst. In each and every case the entries must be accompanied by the necessary fees where any are required, and must be made on the prescribed form, copies of which, along with the prize list, and any other information deserved can be had on application to J. O. Orr, City Hall, Toronto.

At Oke's.

We are receiving fine raspberries, blue berries, and cherries. Would advise early buying, especially of cherries, as they will soon be done. H. A. OKE, 376 George street. Telephone, 18.

Glass Eyes

We make a speciality of fitting ARTIFICIAL EYES and carry a large assortment. When buying articles like that, it's not what you pay for it, but what you get for what you pay, that satisfies you. Have you ever thought of it in that way?

Why Tea Quality Varies

YOU know how the quality of strawberries from the same patch will sometimes vary from one day to another.

One day sweet, compact, well ripened, well colored, richly flavored—next day it rains, is cloudy,—following picking is soggy, sour, green, coarsely-flavored, poor.

Tea, also, on account of its volatility of flavor, after picking and during the curing process is very susceptible to weather changes. A few hours of sunshine or bad weather after picking may make the difference between good and poor tea.

So that while one picking may be first class, the next from the same garden may be very poor.

I select only the pickings which come up to the Red Rose standards of richness and strength in Indias, and delicacy and fragrance in Ceylon teas, and thus that "rich, fruity flavor" of Red Rose Tea is produced and maintained.

Red Rose Tea is good Tea

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Editor Examiner:—

The assistant to the Chief of Police on Stewart street has a vicious dog, that, to use a common phrase "tackles" almost every dog that passes that street and the policeman himself does not seemingly make any endeavour to stop the conditions that prevail. Is there any law that punishes a man for keeping a dog that worries with almost every dog that passes his way. He is a common nuisance to the neighborhood and dog fights are not an uncommon thing on Stewart street gotten up by the instigating of this policeman's collie. What can we do to prevent this condition of affairs remaining?

Yours truly,
A PASSER BY.

To the Editor:

I notice that the telephone company men in placing new poles leave the surplus earth in the gutter opposite the pole that has been set. This is left there until it is removed by the street commissioner at the town's expense. Isn't it enough that our streets are disfigured with forests of poles, without the town being fined for giving the privilege of erecting poles? I would also like to have a return showing what amount of money has been spent by the town in repairing streets after sewer contractors, who were paid for leaving the streets as they found them.

Yours, etc.
TAXPAYER.

Mr. Editor,—Though only a woman, I want to know why in the world the town doesn't do the little work required to drain streets so that pools and mud will not form in front of our houses every time it rains. If the town people want to know what I refer to, if they appeal to you, you may give them my name—my residence is Mud-view Villa, every time it rains.

Yours sincerely,
HOUSEKEEPER.

Dear Mr. Editor,—What is the reason the town do so stingy with its gates. The police threaten arrest to respectable citizens who "dare" to take a pitcher of water from the fountain at the City Hall. The water is running away continually—and a farmer's team from Durham County may stand at the fountain and drink a barrel of water. The prohibition is based on the latter of the law, but the taxpayers have paid for the waterworks and these should not be vexatious enforcement of the law. If law were strictly enforced half of us would be in jail.

Yours, etc.
MODERATION

—A vacation from one's vocation is one's avocation.

Chamberlain's COLIC, CHOLERA AND Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

Price, 25 Cents.

CHARLOTTE ST. TAKE FIRST GAME

Good Exhibition of Ball Given Last Night.

Methodists' Defeat St. Andrew's in First of Finals—Score 12-4.

St. Andrew's and Charlotte Street Guild League teams met on the McDonel street grounds last night in the second half of the first final game to decide the Guild League championship and, incidentally which team will hold the Examiner trophy for the next year. From this distance it looks as if the cup will remain again with Charlotte street.

Last night's game was a good exhibition, and outside the first of the last innings the game was always close and the runs column did not mount up. There was a good crowd of spectators on the field to witness the game, many of them being of the fairer sex. Neither team was in want of rooters and the play was kept lively all the time.

Charlotte Street went to bat first, but there was nothin' doin' for the Methodists. Williams' grounders to second was fatal, Haemlip waited for four wide ones, but Squires was out on his dump in front of the plate, and Thornton flew out to pitcher.

In their half St. Andrew's went out in order; Dunsford grounded to pitcher, Dobson flew out to short, and Swanston failed to connect.

The sixth opened by Laing fouling out to Thornton and McWilliams and Crowe fell victims to Swanston's shoots.

There was rejoicing in the Presbyterian camp in their half. Foley hit safely along third and Cameron followed with a timely hit between first and second. Butcher was looked for to keep up the performance but the best he could do was to strike out taken care of by McWilliams. Patterson flew out to centre and Foley and Cameron were advanced a base on a pass ball. McDonald looked to be an easy out on his pop fly, but Roddy dropped it and Foley crossed the pan. With men on second and third, Thornton sent one right into Haemlip's mit, and the chance for more tallies was lost.

But the Methodists got busy in their half—very busy, and when the smoke had cleared four runs had been chalked up for them. The fun began by Roddy getting free transportation, Ryan hit safely between first and second and Roddy scored. Williams hit to pitcher who played the ball to third and nipped Ryan. Williams stole second and went to third on a wide throw to catch him napping. Haemlip sauntered, Squires fouled out, but Thornton hit safely in the favourite spot between first and second, scoring Williams, Laing followed by a hit through short, sending in Haemlip. Still the game went on, McWilliams hit to right garden and Laing scored. But McWilliams was nipped pursloining third, retiring the side.

St. Andrew's could do nothing in their half. Dunsford hit over second and went to second on a low throw to first, Dobson flew out to short, and Swanston, and Foley only made status in the atmosphere.

The evening's play ended with the score 4-1 in the Methodists' favour; the total score for the game being 12-4 in the champions favour.

The teams took the field as follows:—

Charlotte Street (12)—Roddy, p.; Laing, c.; Haemlip, 1 b.; Squires, 2 b.; Williams, 3 b.; McWilliams, s. s.; Crowe, l. f.; Ryan, c. f.; Thornton, r. f.

St. Andrew's (4)—Swanston, p.; Dunsford, c.; McDonald, 1 b.; Cameron, 2 b.; Thornton, 3 b.; Dobson, s. s.; Foley, l. f.; Butcher, c. f.; Patterson, r. f.

CLIPPERS ARE NOW CHAMPIONS

Holders of Stratton Cup Defeat the Dundas Scots.

Are now Intermediate Champions of the Ontario Football Association.

Markham, July 31.—Before a crowd of 2,500 people on the Athletic Grounds here, to-night the Locust Hill Clipper football team met the Scots of Dundas in the final home and home games for the championship of Ontario. The grounds were very wet, which many thought would militate against the home team, but the little fellows succeeded in holding their heavy opponents down to a tie of 1 goal each, which, with the score of 2 to 0 at Dundas makes the final score of 3 to 1 for the Clippers and gives the holders of the Stratton Cup the intermediate championship of Ontario also. The play certainly demonstrated the superiority of the Clippers, and shows them to be much the better balanced team, and capable of going the distance up the mark as they had all the best of the play in the last half. The first goal was scored after eight minutes play in the first half, by "Bill" Maxwell. The Scots scored theirs in the second half, Caldwell doing the trick after 12 minutes, in which the Clippers looked to have all the best of the play. Mr. Brown, of Berlin, made a satisfactory referee. The teams were as follows:—

Dundas Scots—Jack Fletcher, Jim Fletcher, Schwartz, Walker, Stock, Reid, Caldwell, Campbell, Lyon, Challange and McCauley.

Clippers—MacKay, P. Spoffard, Tehman, Simpson, Robinson, Spoffard, Maxwell, Rennor, Maxwell, Rowley.

The Clippers now intend to try for a game with the Seaforth champions.

MR. G. H. CORSAN ON SWIMMING

Says "Expert Swimmers" are not Drowned

Weeds are not to be much Dreaded by Good Swimmers.

Mr. G. H. Corsan, life-saving instructor of the Toronto Swimming Club, speaking of the recent drowning accidents in Ashbridge's Bay, says it is a mere mistake to suppose that the weeds growing in that vicinity are a serious menace to swimmers. The weeds are soft and tender and either break or slip from the limbs of a swimmer almost as freely as the water itself. He is confident that Reginald J. P. Stocks, who was drowned Sunday was not an expert swimmer, or he was suffering from a fit of some kind, possibly from a fit of terror, caused by finding himself among weeds, which many good swimmers dread as much as the cramp. Mr. Corsan strongly objects to the frequent statements in newspaper paragraphs of drownings, the victims being described as "expert swimmers". The effect upon the average man or woman is to lead them to think it is mere nonsense to trouble to learn them to be totally ignorant of the art. Mr. Corsan intends to give a free lecture and demonstration on the subject of Hanlan's Point, on Monday, the entrance to the lacrosse grounds on Wednesday evening at 7 o'clock, when he will show that the swimmer has a better chance in case of accident on the water than the man who cannot swim.—Globe.

LACROSSE.

The team is practising energetically in preparation for the next game. A practice will be held to-morrow night and after the practice an important meeting will be held.

Died on Operation.

Two or three days ago Walter Thomson received a splinter in his eyes while at work in the Robb Engineering Works, Amherst. It was decided to administer chloroform, and remove the eye. This decision was reached after a thorough examination of the seeing man, and the conclusion that it would be perfectly safe to give the anaesthetic. The eye was removed to-day, but Thomson's heart never resumed its beating.

Teething Eczema and Scald Head

Bring Much Suffering to Babies and Young Children—Certain Cure in Dr. Chase's Ointment

In the home where there are young children Dr. Chase's Ointment is found useful almost every day of the year. During the teething period, especially, there is almost sure to be an attack of eczema, scald head or some form of itching skin disease.

Besides the keen distress which such ailments bring to the little ones, there is always the danger of eczema becoming chronic and clinging to them through life.

There is no reason for any child to suffer in this way so long as Dr. Chase's Ointment is obtainable, for it is a prompt and thorough cure.

Only a few applications are required to bring relief from the itching, stinging sensations, and the skin is left in a clear, smooth and healthful condition. Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates & Company, Toronto.

GIRL SLAVERY IN NEW YORK

Immigrants are Compelled to Work for a "Syndicate."

Agents in Europe Induce Them to Come to America by Promises of Lucrative Employment.

Atlantic City, July 31.—Startling revelations concerning the white slave traffic in New York and the larger cities of the country, were made at yesterday's session of the Jewish Chautauqua by women who have had charge of caring for unprotected immigrant girls. These women said that white slavery is carried on by powerful organizations, of which the general public has no conception.

The topic discussed was "The Unprotected Immigrant Girl", and the speakers were women who have worked among the immigrant girls at Ellis island, and heard from them confessions of the plans that brought them to this country. Girls told them how they were lured to the United States by men who approached them in the native cities, offering them lucrative positions, and how, on landing, they learned that they were to become inmates of houses of ill-repute, or compelled to walk the streets of New York and earn money for those who brought them to this country.

Miss Rose Sommerfield, superintendent of the Clara De Hirsch home, New York, was chairman of the meeting. She is identified with the New York Council of Jewish Women, which is directing its efforts toward relieving the unprotected immigrant girls of the dangers that surround them. The first speaker was Mrs. Sally Myerowitz, of New York, who was selected to work at Ellis Island because of her ability to speak many languages.

Mrs. Myerowitz declared that there is a powerful organization of men who deal in white slaves. She said this organization has agents working in every country in Europe, who select the pretty girls and bring them to this country. Good places are promised, she said, and all are taught a story to repeat to the immigrant officials. Often an agent of the white slave organization in this country makes a trip to Europe to bring the girls here in order to assure their safe arrival.

Miss Helen Hullis, of New York, one of the committee appointed by the Council of Jewish Women to study the need of organizing a regular travellers' aid bureau, referred to the supposed independence of the average American girl to travel alone to all places and at all hours of the night. Among other things she said:—

"In this day in this country the young girl is push in evidence. She goes to college and returns from it alone, she goes to work to take alone, she packs her suit cases at a moment's notice and starts for the lakes of the sea alone. How is she protected and what may not happen to her?

"The American girl, you may say, can take care of herself anywhere. Her wit, her self-possession are her best protection. As a matter of fact, they do not protect her. The anxious fathers, mothers, brothers, sisters and relatives at the station prove that. If girls of a superior calibre are not safe, what shall we say of the more ignorant and innocent ones?"

The statements made yesterday have aroused the Chautauqua association and active developments are expected to fight the white slave evil.

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. One application brings relief. You can rest at night after using it. 60 cts. a box, at all dealers or Edmanson, Bates & Co., Toronto.

FORMING ANGLO JAP ALLIANCE

Considerable Progress is Being Made With New Treaty--Terms Indicate Advance--They Will be More Comprehensive Than Those Governing the Present Treaty—Will be Promulgated as Soon as Completed--Compensation to be Claimed From Russia for Sinking British Steamers.

London, Aug. 1.—Considerable progress is being made with the new Anglo-Japanese treaty of alliance, which the Foreign Office hopes will be concluded at an early date. Some of the details have not yet been fully settled, but it can be definitely stated that the terms will be decidedly more comprehensive than those governing the present alliance. The treaty will be promulgated as soon as completed, there being no desire on the part of the British Government to make its publication dependent on the conclusion of peace.

Britain Expects Japan to Ask.

As to the suggestions that Great Britain should advise Japan to be lenient, the Associated Press learns that the British Government's presumption is that its advice will be asked by Japan in the course of the peace negotiations, and that it will then gladly offer what counsel may seem to it best calculated to assure a permanent peace.

Will Press For Compensation.

In reply to a question in the House of Lords yesterday, Lord Lansdowne said the Government had intimated to Russia that its claims for compensation to the respective owners and crews of the British steamers St. Kilda and Ikhona, sunk by Russian auxiliary cruisers after the battle of the Sea of Japan would be pressed irrespective of the finding of the original prize court.

Thinks He Was Mis-Reported.

A question was raised in the House of Lord yesterday regarding the recent remarks of Sir Robert Stout, Chief Justice of New Zealand regarding delays in hearing of appeals by the Privy Council.

Lord Halsbury, being asked whether his attention had been drawn to the matter, ventured to suggest that Sir Robert Stout's words were not reported correctly as the statement attributed to him was wholly and absolutely inaccurate.

The Lord Chancellor is having a return of the Privy Council cases made for the last two years.

DEADLY LIVE WIRE INJURIES.

Death of John Sykes of Brantford at St. Catharines.

St. Catharines, Aug. 1.—John Sykes, aged 22, son of B. D. Sykes, Brantford, died at the hospital here Saturday night. He was employed by the Bell Telephone Co. at Niagara Falls. One day last week, while at work on a pole, he touched a live wire by mistake and fell to the ground, receiving fatal injuries.

COL. MONTIZAMBERT'S FUNERAL.

Remains of Distinguished Officer Will be Buried With Military Honors.

Kingston, Aug. 1.—The remains of the late Col. Montizambert will be laid to rest in Cataraqui cemetery this afternoon. A military funeral will be accorded the distinguished officer, who served his country so gallantly and faithfully. The remains reached here at noon from Ovid, Mich., and were taken to the armories, where they rest, watched over by a guard of honor. Dr. Montizambert, brother of the deceased, is here from Ottawa. The funeral will take place at 3 o'clock this afternoon, and it is expected that there will be a large attendance of officers from the district.

Horse Cholera Epidemic.

Chatham, Aug. 1.—Horse owners in the vicinity of Amherstburg are much alarmed over the appearance of a particularly virulent type of horse cholera. Some twenty-five horses have already succumbed and many others are affected. Dr. Perdue, official inspector, has gone to make an official investigation.

Will Purchase Mountain Driveway.

Hamilton, Aug. 1.—Last evening the Council decided to purchase the Mountain Driveway. The vote was 15 to 5. A bylaw was passed providing for the issuing of $17,000 debentures. The parks board will pay the annual payments from its appropriation.

Bit Man's Finger Off.

Toronto, Aug. 1.—In an altercation over a trifling sum of money, Ab. Maybee had a finger of his left hand bitten off yesterday afternoon by David Rowntree at the Union Stock Yards. So far the perpetrator has not been arrested.

Quarantine Officer Dead.

Sarnia, Aug. 1.—John McDougall, quarantine officer at Point Edward, died yesterday, aged 76. He was member of the Legislature for North Middlesex from 1874 to 1882.

The New Bishop.

Montreal, Aug. 1.—Mgr. Bernard, vicar general of St. Hyacinthe, has been appointed bishop of that diocese in place of the late Mgr. DeCelles.

When life's autumn comes, women, worn out by the burdens of motherhood, yearn from that second "change of life" which will banish these burdens forever. They fear a change in form, in feature, in personal attractiveness. Such fears are largely warranted by the effects which this change produces in many women. But no woman need let these fears fret her.

Those who have used Dr. Pierce's Favorite Prescription do not suffer from the change of life either in face, form or feelings as do other women. This fact is due to the intimate connection of the general health with the health of the organs peculiarly feminine. By preserving the health of these organs, and relieving the system from the debilitating drains, ulcers and inflammations which sap its health, "Favorite Prescription" paves the way for this natural change to come in Nature's way, without the loss of capacity to please others or personal inability to enjoy life.

"Your 'Favorite Prescription' brought me safely through that difficult period, called 'change of life,'" writes Mrs. Mary Kessinger, of 264 E. Ankeny St., Portland, Oregon. "This change made a very unpleasant disturbance through my entire system. I had hot and cold flashes, sick headaches, became excited, flustrated, nervous and irritable. My appetite was fitful and for days I was unable to eat a fair meal. My aunt recommended me to try Dr. Pierce's Favorite Prescription and it made a great change for the better. Within two weeks the unpleasant feelings had disappeared. I have a husband and eight children so have the care of a large family but was able to attend to my household duties without any difficulty and passed the period without any more trouble. I can recommend your 'Favorite Prescription' as a grand medicine for women."

You may be willing that somebody else shall say that their baby is "just as good" as yours, but you don't want that baby substituted for yours. Let dealers say what they like about other medicines being "just as good" but don't let them substitute anything for "Favorite Prescription." It is absolutely unequaled.

EDMONTON LADY WAS D UGGED

Young Woman Chloroformed and Taken From Bedroom.

FRENZIED SCREAMS HEARD

Brought Father to the Rescue, and He Found His Daughter Unconscious Lying In a Vacant Room—Terrible Affair in a Strathcona Boarding House — Tonawanda Police Doubt Lottie Graham's Story.

Edmonton, Aug. 1.—A villainous outrage was perpetrated in Strathcona Sunday morning, when the daughter of Mr. Joseph Tuck, proprietor of the Ontario boarding house, was drugged and removed from her bedroom by parties unknown. About 4 a. m. Mr. Tuck heard frenzied screams, and the sound of people running down the back stairs. He rushed out of his room and found his sister-in-law already in the yard in a great state of excitement. She had been sleeping with his daughter and implored him to see after her. He rushed back upstairs and found his daughter chloroformed, lying in a vacant room. With assistance he succeeded in restoring consciousness, but no clue to the perpetrators of the outrage has been discovered.

LOTTIE GRAHAM'S STORY.

Police of Tonawanda Think 'Twas Concocted to Obtain Sympathy.

Tonawanda, Aug. 1.—The police think the story told to Constable Kaye by Lottie Graham of Grimsby, Ont., (who claimed to have been inveigled into a place on Gay street in Buffalo and plied under the influence of some drug which caused her to become oblivious of her surroundings until she found herself in a trolley car on the Military road), was concocted to work on the sympathy of the Tonawandans, if such was her object she was successful.

The police also think that she is the woman who fainted on the sidewalk in front of the home of Clancy Suits on Niagara street Thursday and was taken into the home of the Suits, revived and given refreshments. This woman declined to give her name or to divulge any information about herself, other than that she was from Grimsby and was walking to Buffalo.

She asked for financial assistance and was referred to the commissioner of charities.

SYDNEY ENTERTAINS GOVERNOR.

Saw Steel Rods Being Turned Out at the Rate of a Mile a Minute.

Sydney, N. S., Aug. 1.—Their Excellencies Earl and Countess Grey and party, who reached this city Sunday, landed yesterday morning and paid a private visit to the plant of the Dominion Iron and Steel Co. Every department of the works was visited, and much interest shown in the different operations. The vice-regal party saw pig iron being manufactured at the blast furnaces, saw ingots made, blooms rolled, and steel rails manufactured, and also rods turned out at the rate of a mile per minute. His Excellency expressed much satisfaction at the visit, and remarked that the works would no doubt prove of great commercial importance to Canada.

Earl Grey opened the Sydney carnival in the afternoon.

Horse Shot, Man Arrested.

Toronto, Aug. 1.—J. E. Milner, a suspect in a horse shooting case, was arrested last night by County Constable Burns. The story is that Milner, who had been a hired man for J. A. Garbutt of Vaughan Township, had trouble with his boss. He decided to leave and asked for his pay. More trouble came over the amount of money. Finally Milner got his money and went his way. Shortly afterward Garbutt found a valuable horse in the meadow with two bullets in its head. Milner will be tried before Magistrate Ellis this morning.

THE PACIFIC CABLE.

Good Results Expected From Recent Conference Discussions.

London, Aug. 1.—The Canadian Associated Press learns that the Pacific Cable Board on Friday reached unanimous conclusions regarding all the matters referred to it. The reports will be signed by the different Government representatives this week, and cabled by the Imperial Government to the other Governments. Good results are likely to follow from the discussions.

Sir William Mulock had gone to Glasgow to consult with Glasgow municipal corporations regarding the working of the telephone system and also to examine the tubes being manufactured for the Toronto and Montreal pneumatic tube system. He sails on the Campania next Saturday. Sir Sandford Fleming has also gone to Scotland.

The C. A. P. understands Lord Muncaster has asked Earl Grey to present the plate, the gift of Cumberland County, to the man-of-war Cumberland, which is expected to arrive shortly in a Canadian port. The plate has been sent to Canada.

GALLOWS FOR A MINISTER.

Found Guilty of Child Murder in a Georgia Feud.

Valdosta, Ga., Aug. 1.—Rev. J. G. Rawlins early Monday morning was found guilty of the murder of two children of Rev. and Mrs. W. L. Carter, and unless a higher court intervenes, Rev. Rawlins and his sons, Milton and Jesse, and Alf. Moore, a negro, will have to hang.

Both Rawlins and Carter were for years ministers in the Methodist Church. A feud started and Rawlins plotted to wipe out the Carter family. It was arranged that Moore and Milton, Jesse and Leonard Rawlins were to go to the Carter house and kill the family while they sat at the supper table. Some noise caused Willie and Bell Carter to run into the yard. The guns of the murderers spoke and the girl fell dead. The boy, shot through the body, dragged himself into the house and told who had done the firing.

KAISER VISITS KING.

Indulges in Earnest Conversation From the First.

Copenhagen, Aug. 1.—The meeting between Emperor William of Germany and King Christian yesterday was of a quiet and informal character.

The forts and warships fired royal salutes on the arrival of the imperial yacht Hohenzollern, King Christian was attired in the uniform of a German Uhlan.

The Monarchs embraced and Emperor William conveyed to King Christian the greetings of Emperor Nicholas of Russia. The party immediately entered carriages and drove to Bernstoff Castle. Throughout the drive the Emperor was in earnest conversation with the King and took little notice of the decorations or the populace.

The Monarchs walked together in the palace gardens and last night there was a state dinner.

A Hamilton Man Killed.

Hamilton, Aug. 1.—Patrick Seery, Grand Trunk Railway yard foreman, was killed yesterday morning about 1 o'clock in the west end of the yard, while coupling cars. He was walking between two coal cars that were being shunted, and was holding the lever which operates the lock in the car couplings, when his foot struck the end of a switch rail and caused him to fall between the cars. When he was removed from the car wheels he was dead. The deceased was about 29 years of age.

Fell Under Wagon Wheels.

Toronto, Aug. 1.—While playing on the street yesterday afternoon little Robbie Allan of 135 Lansdowne avenue fell under a delivery wagon and a wheel passed over the back of his head. He now lies at his home in a very critical condition.

Seed Wheat Admitted Free.

Ottawa, Aug. 1.—Turkey red wheat for use as seed by bona fide farmers in Manitoba and the Northwest Territories, will be admitted into Canada without paying customs duty until September, 1906. The duty was 12 cents.

Sailor Has the Fever.

Santiago, Cuba, Aug. 1.—Five of the crew of the steamer Athenians, from Colon, were brought ashore yesterday and placed in the inspection hospital. One of the sailors has since developed quite positive symptoms of yellow fever.

Fleet Sails For Quebec.

London, Aug. 1.—(C. A. P.)—The second cruiser squadron of the Atlantic fleet under Prince Louis of Battenberg left for Quebec early yesterday morning.

ABSOLUTE SECURITY.

'BLOOD POISON'

On account of its terrible effects, blood disease is called the king of all diseases. It may be either hereditary or contracted; so while it may not be a crime to have the disease, it is a crime to permit it to remain in the system. It may manifest itself in the form of Scrofula, Eczema, rheumatic pains, stiff or swollen joints, sickness of the skin, eruptions or blotches, ulcers in the mouth or on the tongue, sore throat, falling out of hair, disordered stomach, and a general depression of the system. If you have any of these symptoms don't neglect yourself. You have no time to lose. Beware of "old fogy" treatment—beware of mineral poisons—beware of Quacks and Fakirs. OUR NEW METHOD TREATMENT is guaranteed to cure this disease, never to return. Bank Bonds will protect you. Our treatment is not injurious in any way, but reaches the very root of the disease and eliminates all poison from the system. The symptoms of disease gradually disappear. The blood becomes pure and enriched, the whole system is cleansed and purified, and the patient feels prepared anew for the duties and the pleasures of life. CURES GUARANTEED OR NO PAY. 25 Years in Detroit. 250,000 Cured.

Consultation Free. Question Blank for Home Treatment and Books Free.

A PETERBOROUGH BOY

WHO HAS SUCCEEDED IN AMERICA'S METROPOLIS

Mr. George A. Perry, After an Absence of Twenty-nine Years, Has Returned to Visit the Scenes of His Childhood--Is Now a Mechanical Specialist on The New York World--One of the Many Peterborough Boys Who Have Risen in the World--His Experiences in the Domain of Uncle Sam--Americans Have High Regard for Canadians, Who are Promoted Rapidly There.

From a half-fledged printer, who learned his trade, or partly so, in the office of one of the local papers, to mechanical specialist of the New York World, in some respects the greatest newspaper in the world, is the story in a nutshell, of the success of a former Peterborough boy, Mr. George A. Perry, who, after an absence of 29 years, during which time he has only passed through Peterborough once, has returned to spend a few days at his old home here, and to renew the acquaintances of former years.

The story of Mr. Perry's success in Uncle Sam's domains is, in some respects, a remarkable one, and in others it is but the story in duplicate of many other Canadian boys, who have gone to the United States and fought their way to the front.

Twenty-nine years ago, Mr. Perry, then a young boy, ran away from home, as many boys have done before, and since, and, as many others have done, has won his way to the front by hard work, and plenty of it. He went to the States, for in those days the exodus was from Canada to the States, whereas, now, the stream is the other way. He drifted from one place to the other, trying first one occupation, then another never dreaming that he was a printer, because he had been taught that one had to spend a certain number of years learning the trade before he could pass as a 'knight of the stick," and it was only after he had literally been starved into it that he went to a printing office to look for a job, in the thought that perhaps he could get work sweeping out, or something else.

He was put at work on the case, and surprised himself, as well as those who engaged him, by finding that he was as good a printer, and, in fact, a better one, than those he worked with, and it was only a short time before he was placed at the head of the office.

In this respect Mr. Perry believes that his experience might be applied to Canada as a whole, if they could only be starved into a conviction that they had as good a country, and could do as well as Americans, they would get along far better than they do.

At any rates, Mr. Perry's progress after this was rapid. He soon came to the conclusion that Cairo, Ill., the little town in which he "came to himself," was not big enough for him, and he went to St. Louis, where he worked at his trade. After this he travelled through a number of the States of the Union as a printer.

He married in Rochester, and went to Texas, where he lived a few years, and moved to Colorado, where he started a newspaper. This enterprise promised well and he started another. Then the panic of 1893 came and the whole thing was upset and Mr. Perry came East again and worked in New York, where he has lived ever since, and has no particular desire to move. He has a position of responsibility on the World, and like hundreds of other Canadians, is meeting with success. It is a fact which is remarkable and still pleasing, that of six of the large daily newspapers in New York, five of them are controlled, as far as the mechanical part is concerned, by Canadians.

Newspaper work in New York is very much different from what it is in Canada. The World employs many hundreds of men, about 180 in the composing room alone, and 25 artists are kept busy illustrating its pages. Mr. Parry states that it is impossible for a man, unless he has practically unlimited capital, to start in the newspaper publishing business in New York. Only one man in recent years, W. R. Hearst, has made a success, and it cost him $20,000,000 to get a start in the business.

In the estimation of the Americans Canada is attaining a new importance. During recent years a great amount of American capital has been invested in Canada, and the people are getting to have a better impression of this country.

Mr. Perry states that he has heard many Americans speak very highly of Peterborough, which is becoming quite well known in New York, principally because of the fact that a great many New Yorkers in going to the lakes stop off here, and by this means have seen considerable of the city.

Mr. Perry will remain here for a couple of weeks and will visit his brother, who lives north of Murmora.

BOY SCALDED BY HIS MOTHER

A Serious Accident Which Occurred Verulam.

Two Year-Old Son of Mr. John Rutherford Probably Fatally Burned.

On Thursday of last week, about noon, a serious and possibly fatal accident occurred at Mr. John Rutherford's, in South Verulam. Outside the kitchen there is a shed in which cooking is done in hot weather, and Mrs. Rutherford had been part-boiling some slices of meat in a frying pan. After removing the meat she carried the pan out of the shed, and, just as she was opposite the kitchen door her youngest child, a boy about two years old, rushed out and came into such violent contact with the pan that the almost boiling water it contained was spilt over his head, face and shoulders, but fortunately none of it went into either of his eyes. He was, of course, terribly scalded, and Dr. Graham, of Fenelon Falls, who was in attendance upon him as quickly as possible, at first feared the accident would prove fatal, but later he said he had hopes of the poor little patient's recovery, though at that time he was not out of danger.

EXCURSION WAS WELL PATRONIZED

Salvationists Enjoy a Pleasant Outing--Riverdale S. S. Picnic.

This morning a well patronized excursion under the auspices of the Salvation Army Sunday school, left the Wolfe street wharf at 8.15 per the steamer City of Peterborough. The excursion has been an annual success and this year it promises to be the greatest yet.

The objective point is Jubilee Point where a good programme of sports will be run off. The excursionists were accompanied by their splendid band, which will furnish music on the trip.

Pains in the Chest.

Mr. John Clark, Port Hope, Ont., states: "Last winter I was so bad with a cold that I could not speak above a whisper, and had great pains in the chest. A friend advised me to try Dr. Chase's Syrup of Linseed and Turpentine, and one bottle cured my cold which I believe would have proven very serious if I had not used this medicine."

Surveyors Lost.

Grand Trunk Pacific Engineer Deschene, whose home is in Eastern Canada, is lost in the pathless forest north of Sturgeon Lake, where he had been making preliminary surveys. He had about a dozen men with him and all have been searching for him since last Tuesday.

"DAYLIGHT STORE"

Pants Week!

This is Pants Week!

Its the usual sale—part of the regular Midsummer Clearance.

Pants are one of the most wanted features of every man's wardrobe.

These Pants exactly meet the requirements in

Fashion, Fit and Value

of the most fastidious and particular dressers. It isn't a picked over variety. They are Pants that have no ready-to-wear equals; neither are they surpassable by the made-to-order kind.

Here are our Pant Week Prices

(I uy as many pairs as you can use)

3.50 and 4.00 quality for 2.90
3.00 " " 2.50
2.50 " 2.75 " " 1.95

This is certainly a great opportunity to get exceptional value in Pants. Come everybody—there's a hearty welcome for all.

409—411 George Street, Peterborough

CUSTOM RECEIPTS FOR JULY SHOW A BIG INCREASE

The customs receipts at the local office still continue to increase. Last July when the figures reached $17,-400.44, it was thought that for a month in which imports were small, an extremely high figure had been reached, but large as were the receipts last year those of 1905 surpass them, the receipts for July being $22,532.78, or an increase of $5,-132.34 over those of last year for the same month. This is a most satisfactory increase, and indicates, as perhaps nothing else more assuredly does, the growth of the industrial and mercantile business of Peterborough.

TROUBLE FOR THE INSPECTOR

Some Alleged Violations of the Plumbing By-Law.

Statement That Inexperienced Men are Sent to do Work.

There is, it appears, some trouble developing in connection with the enforcing of the Plumbing By-law, and the inspector is experiencing no little difficulty in knowing how to administer the provisions of the by-law. The latter says that the plumbers shall employ practical and competent men to do the work, and it appears according to the inspector that they are not all observing its provisions in this respect, at any rate. It is claimed that in some cases inexperienced boys with probably one or two years' experience are sent out to do work which should be done by men who have served their time at the trade. They are usually sent out with an experienced man who starts them on the job, and they are then left to do the work alone. The inspector is of the opinion that this is contrary to the by-law, and he may enforce its provisions to the extent of making it necessary to have an experienced man on the job until it is completed.

GREAT FIND OF INDIAN RELICS

Made on Sugar Island, Rice Lake.

Some Peterborough Tourists Discover Indian "Mealing" Stones.

The serpent mound at Mining Point, is not the only great Indian relic field in the Rice Lake region. On the west shore of Sugar Island, the bank as it weathers away, reveals many remains, principally of pottery, some with beautiful ornamentation. But all other discoveries pale into insignificance before the great find of a fishing party, containing several Peterborough young men. While exploring the interior of the island, in the interests of fishing, the young men in a sequestered part, came upon several curiously hollowed stones. Each stone contained a deep, smooth cavity. It was at once correctly surmised that these were 'mealing" stones, the primitive implements used by the Indians to crush corn for their daily meal. Highly elated the party carefully gathered up the rocks, and a patriotic Peterborough young man who has made a brilliant fishing record, forwarded his stone to the Victoria Museum here. The whole party was in high feather over their wonderful find till—but as Kipling would say, "that's another story." A day or two after the "find" the farmer who has cattle feeding on Sugar Island, went down to see after his stock. He was deeply disgusted when he found that the blocks of rock salt, which he had left for his cattle to lick, had disappeared. These blocks hollowed out by the licking tongues of the cattle, were the "mealing" stones the verdant amateur archaeologists had carried away. The farmer has a pair of No. 9 boots ready for any more relic hunters, and he thinks that if water snakes were as plentiful and fresh as land suckers, the fish supply would impede navigation.

FUNERAL WAS LARGELY ATTENDED

Remains of the Late William Long Laid to Rest.

The funeral of the late William Long took place at 2.30 o'clock this afternoon from the family residence, Water street, and proceeded to the Little Lake Cemetery. A large number of friends paid their last respects to the dead, and showed the esteem in which the deceased was held.

The funeral was in charge of Court Peterborough C. O. F., of which deceased was a member. The services at the residence were conducted by Rev. Dr. Crothers and at the graveside by Walter Hooper, District Dept., High Chief Ranger, and Wm. Kemp, Chap.

The pall-bearers were Wm. Batten, W. Hooper, Jas. Jackson, W. Kennedy, E. Moore and J. Ross.

ALDERMEN RECEIVE THEIR PHOTOGRAPHS

Handsome Group Pictures Presented to Them.

The members of the City Council have a much higher opinion of themselves to-day. Last night Ald. E. F. Mason presented, on behalf of the city, to each of the members of the Council a group photo of the aggregation of city fathers. Some of them, in fact, got two. Those who were in last year's council, and, as this year's as well, were so favoured. Ald. Mason was of the opinion that while this year's council was the best looking, that of 1904 gave one the impression that they were men who would not change their minds.

To-day some of the aldermen were not at work, and it was suggested that they were at home supervising the hanging of the new pictures.

CITY NEWS OF TO-DAY

There was no meeting of the Barbers' Union last night.

—There was no quorum at the Charity Board meeting last night.

—Quaker Bitters, the Great Blood Purifier, at Ormond & Walsh, Druggists. Blood

—Show Case for sale cheap. Apply at the Examiner, 2 doors west of post office.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonel street. 'Phone 199.

—Mr. Bain, of Auburn, made a catch of a 16 1-2 lb. 'lange in the river just above the Auburn dam on Saturday afternoon.

—Chas. May withdrew his charge of assault against Oscar Harold, bartender, at the National, and paid the costs, amounting to $2.85.

—We clean, press and do minor repairs to your wardrobe for a trifling fee. Telephone 575, and we will send for and deliver your parcels. "My Valet," George street.

—The ordinary Old Boy visiting Belleville, according to the Brockville Recorder, was given the privof slaking his thirst at the Corby water fountain, but the real Old Chaps got a touch at Harry's I.X.L. bank.

—A story is being told to-day of two well known local young men who had made arrangements to take an automobile trip to McCracken's Landing yesterday. It appears however that their plans miscarried and instead of going by auto they decided to accept the method of going by traction engine, which one of their friends placed at their disposal.

PETERBORO' BOY DIED IN SAULT

Roy W. Wylie, a Former Resident of This City, Passed Away.

Was Well Known in Peterborough—His Death Occurred Sunday.

Special to the Examiner.

Sault Ste. Marie, July 31.—A very sad death occurred here on July 27 in the person of Roy W. Wylie, eldest son of B. M. Wylie, of Stealton, late of Peterborough.

Roy will be remembered by a large circle of friends in Peterborough, and particularly by the staff of the Examiner, where he was employed prior to leaving Peterborough.

At the time of his decease he was engaged as head waiter on one of Algoma Central's steamships, and during the return trip from Collingwood on July 2 he was suddenly stricken with hemmhorage of the lungs.

On arrival at the Sault, medical aid was at once procured, but notwithstanding the united efforts of the best physicians, he gradually sank, and on the arrival of his brother Ernest from Toronto on the evening of the 27th, he seemed to more rapidly decline, and at 11.30, surrounded by his loved ones, he passed home.

Roy was nearing his 22nd birthday, and what makes his early death so sad in the extreme is his leaving a young widow, Ida, daughter of Wm. and Elizabeth Money, of the Sault. They had only been married a few months, and the devotion with which she attended his last illness was pathetically beautiful.

The funeral took place from his father's residence, on Saturday, 29th, to Greenwood Cemetery. The only brother of the deceased, Ernest, was chief pall-bearer, while the remainder were fellow-employees of the deceased.

The wreaths and floral decorations, which literally covered the casket and tables, bore abundant evidence of the esteem and affection in which Roy was held by all. A large anchor bearing the words "Husband, brother and son," from the family, and a pillow of roses and carnations from chief steward Richardson and wife were conspicuous amongst the rest.

Rev. D. McEachren, of St. Paul's Presbyterian Church, officiated at the funeral.

JULY JAUNT FROM COAST TO TOWN

Jottings of a Journey of Mr. J. S. Hughes.

He Brings a Pleasing Story of Promise From the West.

As noted in the personal column yesterday Mr. J. L. Hughes returned on Monday evening from a tour in the west of Canada and the United States, and in a few minutes conversation with the Examiner he spoke interestingly and in a general way of his journey. He left town just six weeks ago yesterday, going by rail to Owen Sound, thence by C.P.R. steamer to Sault Ste. Marie. At the latter place he crossed to the American "Soo." At even that time there was a bustle of excitement and expectation over the approaching celebration of the Semi-Centennial of the opening of the locks at that place. At this point he took the Michigan, St. Paul and Soo Railway, under control of the C.P.R., and went west to St. Paul. In passing through Michigan some parts were desolate indeed. In the pine regions the lumber had been stripped from the land leaving it a barren waste. There was to be seen here and there a shack saw-mill, with here and there a mean dwelling where some settler eked out a precarious existence. The entire scene showed the evil effects of forest destruction without care for the preservation of immature timber or attempts at reforestry. There was no attempt at farming visible.

St. Paul is described as beautiful.

J. Sutcliffe And Sons' REMNANT SALE

QUICK CLEARING PRICES

WAS ROBBERY THE OBJECT OF THIS MYSTERIOUS HOLD UP?

Mr. John Duncan Meets With an Interesting Experience on George Street on Monday Night—Two Men Stopped His Horse, But Upon Recognizing Him Allowed Him to Pass Unmolested—A Mystery as to Their Motive.

Mr. John Duncan met with an exciting experience on Monday night, while he was on his way home. It appears that Mr. Duncan was driving up George street, shortly after 12 o'clock, and when he reached the corner of George and London streets, two men who had been hiding under the trees near there, ran into the street, one of the men going to the horse's head, and stopping it, while the other came to the buggy in which Mr. Duncan was sitting.

What the object of these men was, can only be surmised, since as soon as they saw who it was they let the horse go, and with a 'Good night, Jack," left him.

Mr. Duncan is of the opinion that while he did not know who the men were, it is probable that they recognized him, and that he was not the one they thought it was, consequently they allowed him to proceed without molesting him further.

It i sbelieved that the intention of the men was to relieve the driver of any surplus cash he may have had on his person, and they either were afraid that Mr. Duncan would resist rather more strenuously than they expected or that they were mistaken in the persons. At any rate no harm came to the genial horsedealer and he was allowed to proceed on his journey.

POPULAR MAN GETS PROMOTION

Mr. E. C. Rice Removed to the Brantford Office of C. P. R.

Presented with Handsome Pipe this Morning—To Leave on Saturday.

Mr. E. C. Rice who for some years has filled most efficiently the position of operator at the city telegraph office of the C.P.R. here, has received word from headquarters of his promotion to the Brantford city office of the same company. Mr. Rice during the time that he has spent in the service of the company here, has made many friends, and has been popular with the patrons of the company as well as with the officials. He was always very obliging and his departure from town will be regretted sincerely by his wide circle of friends. Mr. Rice will leave on Saturday morning, spending that day and Sunday in Toronto, and he will go to the Telephone City to commence his duties on Monday morning.

To-day he was presented by the office boys under his charge, with a handsome pipe, silver mounted, and a leather pipe case, in recognition of his consideration for them in their work.

It is stated that Mr. Rice's successor will be Mr. D. Osborne, who for some time has filled a similar position with the G. N. W. Telegraph Company in this city.

FATAL DROWNING IN TRENT RIVER

Six Year-Old Son of Mr. T. H. O'Neil Lost His Life at Hastings.

Fell Into the Trent River and Lost His Life.

Hastings, Aug. 1.—A sad drowning accident occurred shortly after 5 o'clock this afternoon. Oscar, the six-year-old son of T. H. O'Neil, while giving his dog a swim in the Trent River, overbalanced and fell off the pier on which he was standing. He was in the water fifteen minutes before being found. Two doctors were called and worked with the body fully ninety minutes in an endeavour to resuscitate the boy, but their efforts were of no avail.

A COKE PLANT MAY BE ERECTED

Lake Superior Consolidated Company's Project.

Daily Output of Rails at the Soo Mills Nearly 500 Tons—Many Orders are Being Received.

Montreal, Aug. 1.—Mr. T. J. Drummond, Vice-President of the Lake Superior Consolidated Company, returned to Montreal to-day from the Soo, where he had attended a number of the company's executive meetings. He says the company have in view the erection of a coke plant with a capacity sufficient to supply the 150,000 tons of coke now consumed annually. A great many orders of various kinds have been received, and the present daily output amounts to 500 tons of rails and 450 to 500 tons of pig iron. The total output of rails since the mill was started eight months ago amounts to 100,000 tons. Mr. Drummond said the outlook is exceedingly bright.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

ANNUAL EXCURSION OF TABERNACLE

A Delightful Trip to Stony Lake To-day.

This morning about two hundred persons took in the annual excursion of the Bethany Tabernacle Sunday School. The party left by the regular G. T. R. train for Lakefield, where they boarded one of the Stony Lake steamers and took the sail around the lakes.

A strong committee had charge of the arrangements for the day's programme, and the prospects are good for a delightful day's outing. In the past the excursions under these auspices have been most successful, and there is every reason to believe that this year's will be no exception to the rule.

Peterboro's Leading Shirt Store

A Man to be Cool

Needs a soft bosom, thin, summery Shirt that is made to fit perfectly.

Why not feel right and be comfortable this summer?

We can help you out in this a whole lot if you come to us for your Shirts.

Crescents

DAIRYMEN TO CONVENE HERE

Expectation of Having Eastern Dairymen's Convention in This City.

A Deputation will Wait on City and County Councils to Secure this.

There is a probability that the next meeting of the Eastern Ontario Dairymen's Association will be held in Peterborough. At the meeting of the Cheese Board the matter was brought up by Mr. Riddell, the secretary of the Board, who referred to the fact that two years ago when the association decided to go to Belleville, Peterborough had then asked to have the meeting held here, but the claims of Belleville were considered stronger, and it went there. He understood that this year Belleville was after the meeting again, but Peterborough should be able to land it this time if proper representation were made to the executive of the association, which will meet in Toronto on Thursday, September 5.

The Peterborough Cheese Board, Mr. Riddell said, was looked upon as one of the best boards in Canada. There were only two in which a larger number of cheese were sold, and in many other respects it was superior to all the other boards. With the splendid dairy industry which has been developed around Peterborough, the dairymen around here should be influential enough to secure the meeting for this city.

A committee consisting of Messrs. Riddell, Middleton, Gillespie and Fitzgerald was appointed to wait upon the City and County Councils to enlist their support in asking that the next meeting be held here.

It is expected that the meeting will be held early in January, and will be attended by several hundred men, all of whom are interested in the dairy industry.

There is no doubt that the City and County Councils will be willing to support the Cheese Board in their efforts to get the dairymen here for the next meeting.

Mr. Riddell at this morning's meeting also referred to the fact that in the past the cheese had not always been paid for on delivery, which was against the rules of the Board.

The price at which cheese had been selling for the last few meetings was not satisfactory to Mr. Riddell, and he asked the buyers if they could not raise their figures some to-day.

FOR PICNIC OR CAMP

Clark's sliced Smoked Beef—the tastiest best thinly sliced and dry cured full of lovely beefy flavour.

MARRIED

MACKNESS—SOMERVILLE.—At St. Luke's Church, Wednesday, August 2nd, 1905, by Rev. H. A. Langford, M. A., rector, James Mackness to Vida Somerville, Somerville, Haliburton County.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches.

A Tool Factory.

The London Tool Company has purchased eight acres of land at Hamilton on which to erect a factory.

Pirated Music.

The London, Eng., police have seized 295,000 copies of pirated music in some stables in Bentley road, Kingsland.

Land Values Increase.

Toronto's assessment appeals show values on Yonge street have gone up $200 a foot between King and Alhert.

Burnley Holiday-Makers.

Sixty thousand holiday-makers left Burnley, Lancashire, in four days lately. This is more than half of the town's inhabitants.

A Novel Wedding Trip.

A youthful bride and bridegroom rode to and from St. Paul's church, Blackpool, on a tandem bicycle profusely decorated with flowers.

Big Building Boom.

It is expected that the aggregate value of building permits in Winnipeg for the season will be about $10,000,000. Up to date the amount is $7,700,000. The permits are mainly for residences and residential blocks.

Farm Immigrants.

Owing to big demand for farm labourers in the Ottawa Valley, the immigration department has succeeded in placing several hundred new arrivals in Canada, whose original intention was to go to the West, with farmers in this district.

An Unenviable Experience.

A party of prominent Winnipeg people had an unenviable experience on Lake Winnipeg in a fierce storm on Saturday night in the steamer Burson. Captain Hall got seasick, and the vessel was at the mercy of the waves for a considerable time. Finally Ross Sutherland, barrister, took the helm, and with his assistance the storm was weathered.

An Incorrigible Girl.

A young girl who was caught stealing money in Woodstock, was given over to the Children's Aid Society. A good home was found for her, but in a few days she stole various articles and ran away. The society found another home for her, and in three days she had made a bundle of stolen goods and again took flight. It is now purposed to send her to the Alexander school, Toronto.

Water Supply Failing.

One of the three artesian wells which suppl the water for the town of Galt, has ceased to flow, thus causing a very serious shortage in view of the season of the year. A new well will be drilled at once, or the dry one will be bored to a still greater depth. As a result of the diminished supply the water commissioners have ordered the street waterings to be discontinued and the water takers cautioned to use the taps sparingly.

Whitby's Sugar Factory.

The Keystone Sugar Company have bought the harbour docks, warehouse and land of the Whitby Harbour Company, a splendid site for the sugar company, with shipping facilities. The establishment of this industry involves an expenditure of at least half a million dollars. The town voted $25,000 to be paid when sugar is made. Beets have been extensively grown for the last three years, and the farmers of York, Ontario and Durham counties will supply the factory next season. A thousand acres are under crop at the present time.

EDWARD VII. TO ROOSEVELT.

Is Sending Books Descriptive of the Royal Collections.

London, Aug. 2.—Sir Purdon Clarke had a sudden summons to appear before the King at Buckingham Palace for a farewell audience before his departure for New York and was decorated with the commandership of the Victorian Order.

The King, who conversed with Sir Purdon for about three-quarters of an hour, was most gracious in his appreciation of the splendid work done by the retiring director of the South Ken-

SIR PURDON CLARKE.

sington Museum, and said to him: "Remember you are retiring with distinction."

King Edward also charged Sir Purdon with a message to the President of the United States, to whom he is to present in the King's name a copy of all the books that have been written or compiled on the Royal collections.

Sir Purdon wanted to ask the King for special permission to retain his uniform, but His Majesty, as though he had read his thoughts, anticipated the question by telling Sir Purdon he could wear his uniform on special occasions, although he is leaving the service.

Escaped an Operation.

"I had itching piles for six years, and the doctors told me there was no cure for me unless an operation. Dr. Chase's Ointment completely cured me in one week. As that was six months ago, and there has been no return of the old trouble I believe that the cure is a permanent one."—Mr. J. Mawer, Roden, Man.

"Soo's" Semi-Centennial.

Sault Ste. Marie, Mich., Aug. 2.—To-day and Thursday representatives of the United States Government and the State of Michigan, assisted by representatives of Canada, will celebrate the semi-centennial of the Sault Ste. Marie canal. It is just fifty years since the St. Mary's Falls Canal was opened to traffic, making possible the cheap transportation of Lake Superior ores. The hotels on both sides of the river are filled to overflowing. The celebration is made possible by an appropriation of $10,000 by the United States and $15,000 by the State of Michigan, and the contributions of a considerable amount by the vessel interests of the great lakes.

Str. Argyle Taken Off Shoal.

Toronto, Aug. 2.—From Whitby last night the Ontario Navigation Co. received word that their boat, the Argyle, had been safely brought into port. Temporary repairs have been ordered to be made there, after which the boat will proceed to the Kingston drydocks. Commander Spain, wreck commissioner of the Dominion Government, has announced his intenton of making a personal enquiry into the wreck of the boat, in this instance the department of marine is acting upon its own initiative.

Three Years For Stealing.

London, Aug. 2.—At the police court yesterday morning, Chas. Prosser was sentenced to three years in the penitentiary for stealing bond wires from the Springbank line of the street railway. Prosser has already received three years for a similar offence.

Mrs. John Tuke, wife of Conductor Tuke of the street railway, committed suicide yesterday morning by drinking carbolic acid.

Dean of Rupert's Land.

Winnipeg, Aug. 2.—G. F. Coombs, senior canon of St. John's Cathedral, has been notified by the Bishop of Rupert's Land that he is to be dean of Rupert's Land, filling the vacancy formerly occupied by the present bishop. The new dean has been a member of the chapter for 23 years, and is an M.A. of St. John's College, Cambridge.

Ten Closed.

Ottawa, Aug. 2.—Ten hotels were closed up in Ottawa yesterday, the three months given them to sell out their stock expiring yesterday.

Fever Suspects Released.

New York, Aug. 2.—All but two of the yellow fever suspects were released yesterday.

RUSSSIAN CZAR IS OBSTINATE

Will Pay Neither Money Nor Territory for Peace--Go on Till Enemy Crushed--Gen. Linevitch Inspired With Complete Confidence That the Army is Ready for Any Task—Japs Continue to Defeat the Russians on Sakhalin Island--The Japanese Have Occupied Palero.

London, Aug. 2.—A despatch to The Times from St. Petersburg says that another Imperial telegram, even more warlike than the Emperor's reply to the Orenburg clergy, appears in to-day's official Messenger. The Emperor, replying to an address from Khabarovsk heartily approves the recommendation to continue the war until the enemy is crushed, and above all not to think of the concession of territory or the payment of an indemnity.

Linevitch is Inspired.

St. Petersburg, Aug. 2.—Gen. Linevitch has telegraphed to the Emperor, under date of July 25, denying the frequently published report that his army was completely surrounded. The flanks have never been turned, although the Japanese sought to do so, "the Japanese, who are some distance from our principal positions, having failed in their attempts to approach them."

The general adds, "The morale of the troops inspires me with complete confidence that the army is ready for any task."

After Some Hard Fighting.

Tokio, Aug. 2.—An official report from Japanese headquarters on Sakhalin says:

"The Japanese army on July 28 defeated the Russian eight kilometres south of Rykoff and later occupied Palero after hard fighting. The Russians retired southward.

Gen. Saragoshi, commander-in-chief of the Sakhalin forces ordered the establishment of a civil administration on July 30.

Czar and His Ministers.

St. Petersburg, Aug. 2.—The Council of Ministers assembled at Peterhof yesterday afternoon under the Presidency of the Emperor to examine the projects for a national assembly. The meeting was proceeded by a Te Deum. The Ministers will reside at Peterhof during the discussion, which is expected to occupy several sessions.

Workmen Strike, Pray and Parade.

Reval, Russia, Aug. 2.—A strike began yesterday at the Dvigatel works, where the workmen offered up prayers before marching on the streets. They visited other factories and demanded a cessation of work. The Governor has posted a notice warning the people that arms will be used against crowds refusing to disperse. Lesser disorders have already occurred. The soldiery is now patrolling the streets.

H. J. HILL DIES.

For Twenty Years Was Manager of Toronto Industrial Exhibition—Began in Canada as Reporter.

Toronto, Aug. 2.—After an illness extending over years, during the last three months of which he has been confined to his bed, the death occurred last night at his island home of H. J. Hill, former manager of the Toronto Industrial Exhibition. Death was due to arterio-sclerosis, or hardening of the arteries, the result of the constant and sincere application to his work during the twenty-one years he was with the exhibition. To Mr. Hill's indefatigable

LATE H. J. HILL.

energy and resource, combined with the direction of the late J. J. Withrow, as president, is due the present proud position which Toronto's fair now holds throughout the world. He slept peacefully away.

Henry J. Hill was born in York, England, in 1843, and came to Toronto about 25 years ago, becoming a reporter on The City Press, and, later on the old Leader. By the energy and brilliancy he displayed he gradually came to the fore until he was finally appointed city editor of The Mail.

After a short time he was called upon to take the position as manager of the Toronto Industrial Exhibition. This post he filled for twenty-one years, and each successive year added more and more to his reputation as manager as the institution grew from that of a city show to the magnitude of that of the present.

In his management of the fair the success that it has attained stands as a monument to Mr. Hill. It was his ever active brain that suggested the new features, and that thought out the attractions that would bring the greatest to the credit of the fair. He brought Li Hung Chang to Toronto.

Mr. Hill married twice. His first wife was a Miss Rachael Clute. At her death four children survived her, Percy, Charles, Edith and "Coodie" of the "Isle of Spice" Ce. Later he married Miss Florence Prior, by whom three children survive.

About four years ago the strenuous life that attended the superintending of the exhibition began to tell upon Mr. Hill. His condition became serious physically, and he was ordered to take a rest. A leave of absence for a year was granted him by the board of managers, and he was, in 1902, retired. Dr. J. O. Orr succeeding him.

New Auditor-General.

Ottawa, Aug. 2.—John Fraser of the Finance Department assumed his new duties as Auditor-General yesterday morning. Before leaving Mr. McDougall called upon the employes in his office and asked them to be as loyal to their new chief as they were to him.

WHITE STAR TEUTONIC ON FIRE.

$5,000 Damage in Electrical Room—Firemen Rescue Three.

New York, July 29.—Fire which threatened the destruction of the steamer Teutonic of the White Star Line at her pier in the North River, at the foot of 11th street, broke out early last night, and before it was extinguished did damage amounting to more had $5,000. It was undecided last night whether it would be possible for the steamship to sail from port next Wednesday.

In the electrical room, where the fire started, nearly all of the machinery was damaged and the entire electric working of the ship was interrupted. Water poured into the room and ran down into the engines, and it is thought that they are also damaged.

John Burns, the storekeeper, who was in the room next to where the fire was, found it impossible to get out. His cries were heard by acting Battalion Chief Murray, who ran past the blazing room and carried the man, who was unconscious, to the deck. The heat drove the fireman back several times. The room adjoined the engine-room, where two stokers, James Ryer and John O'Connor, were at work. They were rescued unconscious by firemen.

NOTICE TO CREDITORS

In the matter of the estate of William Jobe, of the City of Peterborough, in the County of Peterborough, Candy Maker, Insolvent.

Notice is hereby given that the said William Jobe carrying on business as a Candy Maker at the said City of Peterborough, has made an assignment under R.S.O. 1897, chapter 147, of all his estate, credits and effects, to Ozias de Laplante, of the City of Peterborough, in the County of Peterborough, for the general benefit of his creditors.

A meeting of creditors will be held at the Office of the said Assignee, in the City of Peterborough, on Monday, the seventh day of August, 1905, at the hour of three o'clock in the afternoon, to receive a statement of affairs, appoint inspectors, and for the ordering of the affairs of the estate generally. Creditors are requested to file their claims with the Assignee, with proofs and particulars as required by the said Act, on or before the day of such meeting.

And notice is further given that after the seventh day of August, 1905, the Assignee will proceed to distribute the assets of the estate amongst the parties entitled thereto, having regard only to the claims of which notice shall then have been given, and that he will not be liable for the assets or any part thereof so distributed, to any person or persons of whose claims he shall not then have had notice.

OZIAS DE LAPLANTE, Assignee.

(W. E. JOHNSTON, Solicitor for the Assignee.

Dr. Hugo's Health Tablets for Women Make Healthy Women.

If you feel tired, nervous and irritable.

If you have headache, cold feet, indigestion, constipation and dragging-down pains.

If from any cause you are in a run-down condition.

If sleep doesn't refresh you and work is a bugbear, you need Dr. Hugo's Health Tablets for Women, and you need them now.

Remember, all these things are not discomforts, they are indications of a serious cause.

Don't wait until they result in some chronic disease. Nip them in the bud.

Dr. Hugo's Health Tablets taken now will ward off much pain and suffering—will add years to your life and put new life into the years. They make healthy women.

But you must have faith enough to buy one box. Improvement in your health will be noticed the first week.

50c. at dealers or by mail postpaid.

E. N. Robinson & Co., Coaticook, Que.

WHY YOU CAN'T SLEEP.

It's just like this. Somewhere in the brain cells or blood vessels that supply the brain with blood, there is SOMETHING WRONG. That wrong must be righted or you'll go to smash.

Your physically exhausted body needs building up, needs more nutritious blood, needs tone and vigor. Your only hope is FERROZONE, which completely overcomes sleeplessness.

FERROZONE

IS GOOD FOR THE SLEEPLESS.

Every FERROZONE Tablet contains more concentrated goodness than you'll get in quarts of liquid medicine. It benefits instantly.

FERROZONE fairly fills the blood with nourishment. Feeds it with iron and oxygen, invigorates as nothing else can.

The refreshing sleep of a little babe, the restfulness and comfort of childhood's days will come every night of your life by using FERROZONE. Avoid substitutes!

Ferrozone is sold by all dealers in 50c boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Any Troubles in Your BATHROOM?

If you are having any trouble with your CLOSET or BATHROOM CONVENIENCES, come round and have a talk with us.

A gentleman, attracted by the range of Sanitary Closets and excellent values we are offering, invested in a new one, although he already had one that was working not badly.

The way he looked over the Closets we arranged before him for inspection showed he had been sifting the matter, and knew how to prove and disprove the claims of dealers.

The saving of health and expensive plumbing repairs, warranted the investment, he said.

How is yours working? Bring your Bathroom Troubles to us. Our Toronto Stock is what we sell in our Peterborough Branch.

"NERVOUS AND IRRITABLE."
Peruna is Invaluable to Ailing Women.

Miss Celia Harrington, 806 Second avenue, Detroit, Mich., writes:
"Weakness has filled many months of my life with suffering. Through carelessness I caught a severe cold two years ago which settled in catarrh and seriously interfered with the regular functions of the body, and made me nervous and irritable. I began taking Peruna and found in it a faithful helper, as it enriched my blood and invigorated the whole system. I have no pains now and am always well."
Female weakness is generally dependent upon catarrh of the pelvic organs. Peruna cures catarrh wherever located.
Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio, for free literature.

WHEN "QUACK" GRASS BECOMES A BLESSING

Rightly Dealt With it Makes Good Food.

Quack grass is not difficult to manage, says a writer in an agricultural journal, but, like some other things, good in themselves, it becomes hateful when mismanaged. It may be made exceedingly valuable in comparison with other grasses, thought to be indispensable to us. Its persistent growth and fast hold upon the ground should make it one of the most highly valued of all the grasses. I cultivated it in a field of several acres of which it had taken entire possession, giving it liberal supplies of fertiliser and a spring harrowing with a heavy, sharp toothed harrow to loosen the soil, using it as green feed for my cows as well as for hay. One year I sowed clover seed with this quack grass after a thorough harrowing of the surface, and the yield was over two tons to the acre of the best hay. After four years of use in this way, the clover having run out, the land was plowed to a sufficient depth to expose the mat of roots, which was very thick, occupying most of the soil. I dug out one square foot of the sod a foot deep, and after shaking off the soil as much as possible the roots and grass weighed four pounds and one ounce, equivalent to about eighty tons of ordinary manure per acre. The land was put into corn, and after a few harrowings at intervals of two days the roots were dead by exposure to the sun and dry weather, so that there was very little trouble in working the corn. Then sugar beets and mangels were grown on part of the land and potatoes on the rest, wheat following, after which it was seeded to grass and clover. If I could have got the seed of the quick grass, I should certainly have sown that in preference to any other. As to the effects of this grass on the milk, my wife, after two or three churnings from the green quack grass, asked what I was giving the cows, as the butter had increased so much.

A Liberal Club House.

Plans for the proposed new Liberal Club building, at the corner of Queen's and Park avenues, London, are about completed, and at an early date tenders will be called and the contracts awarded, as it is the intention of the club to have the work completed before the winter. The building will be modern in every respect.

Chamberlain's
COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.
It has been used in nine epidemics of dysentery with perfect success.
It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.
It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.
When reduced with water and sweetened it is pleasant to take.
Every mem of a family should keep this remedy in his house. Buy it now. It may save life.
PRICE, 25 CENTS.

ENGLISH EMPLOYERS IN THEIR DEALINGS WITH THEIR WORKING PEOPLE

An Ideal Village Visited by the Members of the Canadian Manufacturers' Association—"Bournville, the Model Village," Established by Mr. Robert Cadbury, of Cadbury Cocoa Fame—His Solution of the Problem of Housing the People—How His Experiment Has Worked Out—Evidences That the People Appreciate His Efforts to Improve Their Condition.

During the recent trip of the Canadian manufacturers to England, the members saw something of the way in which the large firms there deal with their workpeople. In a great many instances, it was found that the lot of the employees was not nearly so enviable as was that of the Canadian workman. There were, however, some exceptions to the general rule, and in a few cases the employers have shown an interest in the welfare of their employees which has resulted in a most improved condition. One of the most prominent examples of this policy, is that presented by Mr. George Cadbury, of Cadbury cocoa fame.

This gentleman has established a village, which has been named Bourneville, and booklets have been prepared and were distributed to visitors. Mr. Ackerman secured one of them, and the story of the effort of Mr. Cadbury to improve the condition of his employees is told most interestingly in it. In part, it says:

The village to Bourneville lies in the north east of Worcestershire, 4 miles south west of Birmingham. Some of the houses were built in 1879, but the bulk of the village dates from 1895. The estate is now in the hands of the "Bournville Village Trust," by whom it is administered, but Bournville village owes its existence to Mr. George Cadbury, of the Manor House, Northfield. In the deed by which the property is handed over to the trustees the founder has clearly set forth his object. *It is there stated that*

"The founder is desirous of alleviating the evils which arise from the insanitary and insufficient accommodation supplied to large numbers of the working classes, and of securing to workers in factories some of the advantages of outdoor village life, with opportunities for the natural and healthful occupation of cultivating the soil."

Again—

"The object is declared to be the amelioration of the condition of the working class and labouring population in and around Birmingham, and elsewhere in Great Britain, by the provision of improved dwellings, with garden and open spaces to be enjoyed therewith."

The evils arising from the "insanitary and insufficient accommodation" dare referred to are now pretty generally recognized. Thousands of our fellow-countrymen are compelled to live under conditions which are a scandal to our civilization. They are housed in close, dirty, evil-smelling lanes and courts, deprived of fresh air and sunshine, strangers to the sight of grass and flowers and trees, without opportunity for healthy recreation, familiarised with evil from early childhood, and surrounded by vice and temptation on every hand.

All this inevitably tends to produce moral and physical deterioration. It is almost impossible for people to maintain a high standard of character and physique where all the conditions are adverse, and we have only to visit the places described in order to see how disastrous are the results. Little wonder it, while many battle bravely against their surroundings and rise superior to them, an immense number succumb and go to swell the mass of vicious criminal and diseased humanity which is a disgrace and menace to our country.

Further, it should be remembered that, even where the conditions are far removed from those just depicted, the lot of many is cast in those dismal, monotonous streets, so familiar in all our great towns, where gardens are an impossibility, and miles of brick and mortar intervene before the country can be reached, and where those who work during the day in office, factory or shop, must seek their recreation in the club, the theatre, the reading room or the public house, instead of in the pure, free air of the country.

These facts are of course open to all, but they were specially impressed on the mind of the founder, through his intercourse with the working men of Birmingham. For considerably over forty years he has been a teacher of a largely attended men's Bible class, going into Birmingham every Sunday morning at 7 o'clock for the purpose. In this way, and also as an employer of nearly four thousand work people, he came to know the life histories of hundreds of men, and was so profoundly impressed with the grevious disadvantage in which many were placed by the adverse conditions alluded to. In a word, he found himself in direct contact with the "housing problem." It was not something he had heard or read about, but an actual fact in lives of men whom he knew and visited again and again, in the midst of these very surroundings.

Thus confronted with the evil, Mr. Cadbury resolutely set himself to find a remedy. The most hopeful solution which presented itself was to give an opportunity for people to remove from the crowded city and settle amid the wholesome, helpful sights and sounds of the country. In a word, they must be brought back to the land.

Having come to this conclusion, Mr. Cadbury proceeded to set apart a large portion of his Bournville estate in order to give it practical effect. In doing this every precaution was taken in order to avoid repeating the evils of overcrowding, which it was sought to remedy.

There must be no crowding, either of cottages or the land, or of the people in the cottages. It was decided that each house must have a good sized garden, that no building must occupy more than one fourth part of the site on which it was erected, that the roads must be wide and tree-bordered, and one-tenth of the land, in addition to roads and gardens, must be reserved for parks and recreation grounds. On these lines the village of Bourneville was rapidly brought into existence, nearly 200 houses being built in one year.

Mr. Cadbury's first intention had been to sell the sites and cottages outright, and so create a class of small freeholders. It was, however, found that this would be open to many objections, the chief being the difficulty of insuring that the property thus sold would be administered by the new owners in harmony with the motives and wishes which inspired the vendor. The plan was, therefore, not carried into effect. Instead, it was decided to sell the houses and to let the land on leases of 999 years, charging ground rent for it, and inserting covenants in the leases to secure the accomplishment of the purpose of the lessor. To assist those who wished to avail themselves of this opportunity, but had not sufficient capital, mortgages were granted on the property and money advanced on most favourable terms. To those who paid less than half the cost of the house three per cent. was charged, and to those who paid half or more the rate was 2 1-2 per cent.

In this way 135 cottages were sold at cost price. This arrangement, while satisfactory in some respects, has been found in others to be open to some of the same objections that applied to the sale of the freeholds. It has, therefore, been discontinued, at least for the present, and the remaining cottages let to weekly tenants.

To avoid misunderstanding it should be said that the village is not reserved for those employed by Messrs. Cadbury Bros., Limited. It is not a scheme for their particular benefit, but a contribution towards solving the housing problem, especially as it exists in large cities. As a matter of fact less than half of the householders work at Messrs. Cadbury's, the others finding their occupation in Birmingham, or one of the neighbouring manufacturing villages. Situated within four miles of Birmingham, the city is easily accessible by rail, electric cars (come within a mile of the village, workmen's fare 2d.), or by bicycle.

Care has been taken in laying out the village to secure that it shall not only be healthful, but picturesque also. The ground is undulating and well wooded, and where possible, the trees have been carefully preserved. The cottages are semi-detached or in blocks of four, and the architect has been careful to avoid monotony by introducing a great variety of treatment.

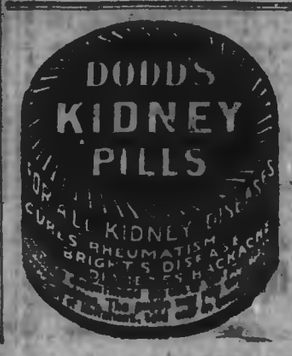
The average garden space allowed to each house is 600 square yards, and the gardens are laid out by the estate gardeners, when the houses are built, so that when a tenant takes a house he finds the garden already prepared, instead of having to begin by breaking up uncultivated land. As a rule the tenants take a deep interest in the gardens and cultivate them with success. The roads are 42 feet wide and are all planted with trees. Land has been reserved for parks, and a village green and children's playground have been laid out.

Speaking of the results, the booklet states that since the village was handed over to the trustees in 1900 building has been steadily proceeded with. There are now 691 houses belonging to, or administered by, the Trust. When to these are added the 135 houses already mentioned as having been sold, it brings the total to 534. There are also in addition 23 houses belonging to Messrs. Cadbury Bros., and standing on their land, and 38 houses built by the late Mr. Rich. Cadbury to provide an endowment for the almshouse erected by him. If these are included under the name Bourneville, it makes the number of homes 580 with a population of 2,800. The village is yet young, but every house is occupied. New houses are applied for long before they are completed, and tenants rarely leave unless obliged to do so owing to removal from the district.

The experiment has proved highly successful, and an inspection of this village was the source of great interest to the visiting Canadians.

Farm Help Scarce.

Farm help is reported by the Brantford Expositor to be very scarce in the vicinity of that city, and elsewhere in western Ontario. Wages like thirty and forty dollars a month with board, are by no means uncommon. Day labourers seldom get under $1.75 to $2 a day with board. One farmer talking to the Expositor, said that he had a couple of men hired at $2 a day, and knew half a dozen farmers who were simply watching a chance to get hold of labourers at the same money.



Soaps Containing Injurious Chemicals Eat Dirt but they also Destroy Clothes

You've probably used soap that cleaned your clothes quickly but have found out afterwards that it had destroyed them.

Sunlight Soap

is guaranteed to be absolutely pure, containing no ingredient that will injure the daintiest fabric.
It washes equally well in hard or soft water without boiling or hard rubbing. Follow the directions on the package and you will have a more successful wash with less labor.

WHY THE DISCRIMINATION?

A good deal of comment is being made in this city, says a Hamilton despatch, on the difference in the way the Dominion and Ontario Governments do things in the matter of civil servants. While the Conservative Government is making political changes in issuers of marriage licenses and threatening other more important changes, the Dominion Government is increasing the salaries of Conservative civil servants in this city. Out of nine recent increases in salaries in the Hamilton customs, six of them have come to Conservatives. Some customs officials in Peterborough are inquiring how Hamilton customs officials are favoured above themselves. Their remuneration has remained the same in some cases since their appointment several years ago, and this in spite of the fact that increased cost of living would make an advance in salary quite welcome. Why should Hamilton officials be favoured above those in Peterborough?

EDITORIAL NOTES.

The law of averages makes good in Montreal. The birth-rate there is exceedingly high as compared with Ontario cities, but the infant death-rate is also exceedingly high.

Repeated experiments having proved, says the Globe, that "Turkey red wheat" is the variety best adapted for sowing in the fall in the Northwest, a customs regulation has been adopted allowing it to be imported duty free for use as seed. This will lower its price twelve cents to the farmer.

Ne wJersey may be noted for its mosquitoes but there are no flies on some of its municipal councils. The Council of Hammontone N.J. has passed an ordinance allowing a rebate of $1 in taxes for each wheel on a wagon having a tire four inches or more in width. It has been found by test that vehicles with broad tires do not damage the gravel roads as much as the narrow tires and to make the change popular among farmers the rebate in taxes has been inaugurated. Not a bad idea to adopt in Ontario or Peterborough county.

Mr. Telford, the member for North Grey, is making restitution, or, at least, he reports that he is doing so. Of his extra $1000 he gives $500 to the Grey Agricultural Society. This is suggestive of the mistake of Ananias. That celebrated character professed to give up all the money, when, as a matter of fact, he was holding back half. — Mail and Empire.

This suggests the idea of the devil citing Scripture for his own purpose. The Conservative organ wishes to chide a member it is not politically friendly to, forgetting to point out that there are about 75 Conservative members of the House who have not offered to disgorge a cent of their extra sessional allowance. It should not be difficult for a party newspaper to be a little honest occasionally but the chief Conservative organ does not seem to encounter the occasion.

VISIT TO PETERBOROUGH

Of W. T. Pember, Toronto, Canada's Hair King.

In another column will be seen the advertisement of W. T. Pember, Toronto, Canada's Hair King, who will be in Peterborough at the Snowden House, on Tuesday, August 8th. Mr. Pember has on exhibition hair goods of every description, comprising the very latest styles for ladies and and gents. If a message is left at the hotel he will call at your residence. It will repay you to see Mr. Pember as he is one of the most prominent Hair Dealers, Hair Dressers and Scalp Specilaists in Canada.

A Swift One.

H. M. S. Drake, flagship of Prince Louis of Battenburg, commanding the British cruiser squadron, which will shortly arrive at Quebec, holds a record of 24 knots per hour, steaming on regular service with full stores on board.

TWO VIEWS UPON FREE CHURCH PEWS

Majority of Toronto Churches Have Free Pews.

Some Justification for the Leased Church Pew.

The free pew system in churches is coming into more general use than is realized by most people, if Toronto may betaken as a criterion. Says The News:—

The Baptist churches all have free seats, and there are only a few exceptions to the rule in the whole country. Of the 38 Anglican churches here, 30 have free pews. Those that rent are St. James' Cathedral, St. Paul's, Trinity East, St. George's, St. Johns Church of the Redeemer, Church of the Ascension, and Church of the Messiah.

The Roman Catholic churches are nearly all free. The exceptions are: St. Michael's, St. Patrick's and Holy Family. In these, also, some of the seats are free, even some of the centre aisle seats being free in the Holy Family Church. The policy of free seats is not attended with financial difficulties. St. Mary's, the largest parish in the city, has free seats, and gets along quite satisfactorily.

The Presbyterian churches are free with only one exception—New St. Andrew's. The seats are allocated as far as possible by a committee on seating. This has been the general practice in the Presbyterian churches here for the past 25 or 30 years. Some never had rented seats. There has been no financial difficulty. The running expenses of the churches are provided by means of envelope collections, in which the members voluntarily contribute stated amounts weekly and this provides a regular and permanent source of revenue to which the loose collections are supplementary. The Methodist churches pursue a different policy from the four preceding denominations. With but a few exceptions, including Annette street Methodist church at the Junction and the Centennial Methodist church on Dovercourt road, the pews are rented. The trustee boards have kept to this policy mainly for the purpose of having a certain and regular source of revenue. It is also argued that under this plan it is easier to keep whole families together during the service, which is held to be very desirable, and at the present time is said to be difficult under the free pew system.

By way of comment the Brantford Expositor remarks:—As regards the principle at stake it is difficult to find any justification for the pew system, but when it comes to expediency much can be said in its favour. Churches cannot be run without money. The preacher and his family are not sustained, in a material sense, by heavenly manna, and the sexton, the organist and the coal man also demand ready cash, if a sufficiency of the latter is forthcoming voluntarily so much the better, but the pew system helps to reach a good many people who wish to get their religion, as they get their clothing—at the bargain counter and are unwilling to pay more than necessity demands for salvation or for anything else.

We do not see that much has been gained by abolition of pews if the allocation of seats to families is still maintained. Most people, it is true, are creatures of habit and like to sit on the same plank of a lacrosse bleacher; and in the same pew in church, but if "free pews" are to carry with them all they ought to do there will be no more proprietary rights in a church than there are in a place of public amusement which has done away with the "reserve" list.

"A SUCCESSFUL DEVERILL MAN"

Mr. Mark Curtis Receives Recognition in England.

His Home Paper Makes Reference to His Success Here.

The Warminster and Westburg Journal of a recent date has an interesting reference to Mr. and Mrs. Mark Curtis' golden wedding recently celebrated. It is headed "A Successful Deverill Man," and the article says:—

We have received a copy of a Canadian paper—the Evening Examiner, Peterborough, Ontario—which contains a lengthy account of the golden wedding celebration of Mr. and Mrs. Mark Curtis, both of whom have recollections of this parish, which Mr. Curtis left in 1854, emigrating to Canada to his uncle who was farming there. In a sketch of Mr. Curtis' career which is given, it is stated that the journey took seventy days, the sea voyage being done in a sailing vessel, in which provisions ran short through the length of time taken on the voyage. Later Mr. Curtis' parents came out, and with them Mrs. Curtis, who was then Miss Dunning, and fifty years ago the young Wiltshire couple in Canada were married. The elder Curtis started a brickyard, which on his death passed to his son, whose family now carry it on, as well as run a farm. Mr. and Mrs. Curtis have a family of five sons and one daughter, and a brother of Mr. Curtis (David) is also in the country. Excellent portraits of Mr. and Mrs. Curtis accompany the article, while note is made that on the Sunday the Rector of the church Mr. Curtis attends made reference to the interesting event. No doubt there are readers of the Journal who will remember the couple, though we are afraid the Deverills have changed much since 1854.

Pains in the Chest.

Mr. John Clark, Port Hope, Ont., states: "Last winter I was so bad with a cold that I could not speak above a whisper, and had great pains in the chest. A friend advised me to try Dr. Chase's Syrup of Linseed and Turpentine, and one bottle cured my cold which I believe would have proven very serious if I had not used this medicine."

LOCOMOTIVES TREBLE IN SIZE

Monster Engines Used on the Northern Pacific.

Latest Machines Weigh 202 Tons—The Limit May Not be Reached Yet.

Enginemen employed on the Northern Pacific in the Spokane District, were awed eleven years ago by the arrival of a new series of locomotives, weighing 72 tons apiece. These engines were the largest ever sent to the Spokane division and were regarded as marvels of the engine builders' handicraft.

Last week the Northern Pacific received on its Spokane division the first instalment of some 202 ton engines.

"We thought the very limit had been reached with the 72 ton engines," says Master Mechanic Frank B. Childs, "but now that we have received 202 ton machines we are more chary about believing that a weight limit is a known quantity."

The new class of engines is embraced within two classifications. One is freight locomotives, each weighing 202 tons, with the normal load of twelve tons of coal and 9000 to 9000 gallons of water. The other is passenger motors, somewhat lighter. These engines are among the largest in the United States.

Various conditions have combined to render the use of such locomotives imperative, but all centre on the wonderful development of the Pacific Northwest. A prime factor is the necessity of maintaining time in handling freight and passenger business. The Northern Pacific is to-day running on a time card almost identical with that in use for years past. When this card was adopted the country was filled with long runs, where engines were enabled to maintain speed without losing time in spots. To-day there are points where long stops are required to handle the business of the road, and the task of making these stops and maintaining time has become almost insoluble, when the management determined upon the purchase of locomotives that could run faster between stops and on heavy grades where lighter engines could not be expected to make time.

The Spokane division of the Northern Pacific now has 142 engines in active service, and the new power just arriving will swell the aggregate to 631.

So many labour saving devices are introduced that the lot of the men on the new engines will be pleasant despite their enormous size. On the passenger engines the bulk of the oiling is obviated by the use of hard grease cellars in the main bearings by which one charge of the solid grease that looks so much like common soap will carry the machine several thousand miles.

ADJT. BURROWS LEAVING CANADA

Former Salvation Army Officer Stationed Here Going to the U. S.

Next Sunday Adjt. Burrows, of Toronto, but formerly of Peterborough, where some six years ago he was stationed as a captain, will visit the town corps of the Salvation Army again, this time to farewell before going to the United States. When he was stationed here, Adjt. Burrows made a great many friends, who will regret to learn of his intended departure from this country, and there is no doubt that there will be a large number of persons at the barracks on Sunday to bid him farewell.

A Constable's Act.

In a charge of attempted suicide against a domestic servant at Birmingham, Eng., it was stated that a constable saved the life of the girl, who had taken poison, by administering an emetic of whitewash, which he scraped from a kitchen ceiling and mixed in a cup of water.

Stomach and Liver Troubles.

Mr. Alex. M. Finn, Inkerman, N.B., writes: "I have used Dr. Chase's Kidney-Liver Pills for derangements of the kidneys and liver and stomach troubles, and can certify that they did me a good deal of good. I can heartily recommend them to anyone suffering as I did."

"Let Go" Prices

Every wide-awake merchant knows that there's a time to "let go" prices, and LeBrun & Co. believe August is the right time. The price tickets show how we're doing it.

GOOD PROSPETS FOR DAIRYING

Mr. W. G. Rook Speaks Encouragingly for the Industry.

Took Pictures of Members of Peterborough Cheese Board This Morning.

Mr. W. Rook, advertising manager of the Canadian Dairyman, was in town to-day, and was a visitor at the meeting of the Cheese Board. Prior to the meeting of the Board the salesmen, buyers and officers of the Board had their photos taken in a group outside the Ontario Bank) and the picture will be reproduced in the next issue of the Dairyman. Mr. Rook was of the opinion that the Peterborough Board was one of best conducted in the country, and he was greatly pleased with the way in which the business was carried on.

Mr. Rook is making a tour of the Province in the interests of the paper referred to above, and expressed himself as being greatly pleased with the prospects for the dairy industry in Ontario, but stated that in no place that he has visited did he see such evidences of progress and prosperity as he noticed in Peterborough.

The dairy industry throughout the country is in a healthy condition, and the prospects for the future are bright.

HIGHEST PRICE OF THE SEASON

10 7-8c. Was Received This Morning for Cheese.

5149 Boxes Were Boarded—All Sold Except One Factory.

At this morning's meeting of the Peterborough Cheese Board, 5149 boxes were boarded and sold, the ruling price being 10 7-8 cents, which is considerably higher than that obtained at any previous meeting of the Board this year.

Mr. Whitton got the majority of the cheese, his purchases amounting to about 3500 boxes, for which he paid 10 7-8 cents. Messrs. Kerr and Fitzgerald also bought some quantities of cheese at the same price, while the rest sold at 9 13-16 cents. All the cheese, except Stony Lake, was sold, that factory remaining unsold.

The buyers present were Messrs. Craigbead, Kerr, Fitzgerald, Cook, Whitton, Gillespie, Rollins, Wrighton, Morton.

The following factories boarded the number of cheese set opposite:

Keene	215
Warminster	170
Shearer	110
Central Smith	210
North Smith	195
Villiers	110
Warsaw	120
Westwood	200
Oakdale	150
Missing Link	108
Daisy D.	65
Lakefield	140
Pine Grove	150
Peterborough	91
Otonabee Union	80
Maple Leaf	175
Myrtle	216
Ormonde	210
Young's Point	80
Lang	150
Fraserville	170
Indian River	175
Nort hDummer	85
Ballyduff	68
East Emily	145
Trewern	172
Bensfort	170
Cedardale	100
Stony Lake	62
Crown	140
Mount Plesant	92
Norwood	110
Fleetwood	195
Buckhorn	150
South Burleigh	44
Brickley	106
Shamrock	90
Dartford	140

The bidding was opened by Mr. Whitton, who offered 10 1-4c; Mr. Fitzgerald raised to 10 3-8c, Mr. Whitton to 10 1-2, and Mr. Fitzgerald bid 10 9-16, Mr. Whitton after a long wait said 10 5-8c; Mr. Wrighton raised to 10 3-4, and Mr. Whitton bid 10 13-16. At this point a motion was made that an adjournment for one week be made, but an amendment that the said be proceeded with was carried.

Mr. Whitton, at 10 13-16, called Ormonde, Shamrock, Dartford, Norwood, Brickley, Fleetwood, Warminster, Warsaw, Lang, Fraserville, Indian River, Maple Leaf, Bensfort, Villiers, Shearer, North Smith, Lakefield, Pine Grove, East Emily, Oakdale, Trewern. All accepted.

Mr. Fitzgerald bid 10 7-8c, and called Buckhorn, Myrtle, Westwood.

Mr. Kerr at the same price, bought Keene, Central Smith, Missing Link. He offered 10 13-16 for further selections, and called Cedardale, Mount Pleasant, Peterborough, Ballyduff, Daisy D., Young's Point, North Dummer, Otonabee Union, South Burleigh.

Mr. Whitton bought Crown at the same price.

The Board then adjourned for three weeks.

SALVATIONISTS AT JUBILEE PT.

Annual Excursion Yesterday Was a Great Success.

A Most Enjoyable Trip Down the Otonabee River.

Yesterday the annual excursion of the Salvation Army Sunday school took place under most pleasing auspices to Jubilee Point. The day was most favourable for the success of the trip, and the two or three hundred scholars and parents who made the journey to the Point yesterday by the steamer City of Peterborough, spent a thoroughly enjoyable day. The steamer left the Wolfe street wharf shortly after after eight o'clock, the band, under the leadership of Instructor Packham, rendering a couple of selections before the boat left her moorings, and on the trip down the river a number of selections were given to the delight of the excursionists.

The sail down the river was a thoroughly enjoyable one, and the Point was reached about noon.

All disembarked, and tables were quickly spread and dinner partaken of, after which the band gave a programme and a Salvation meeting was held, and at its conclusion the sports for the children were run off, the results being:

Girls' Races.

Girls under 3, Myrtle McAmmond, Laura Thomas.

Girls under 5, Alice Cunningham, Louise Braund.

Girls under 8, Reta Quibell, Mossie Brooks, Nellie Crowter, Flora Card.

Girls, under 10, Beulah Payton, Hilda Card.

Girls under 12, Florence Blogg, Eva Jobs.

Girls under 15, Lucinda Meeks, Pearl Crowter.

Young ladies' race, Eveline Hice, Pearl Hollingshead.

Married women's race, Mrs. R. Routley, Mrs. C. Gadd.

Boys' Races.

Boys under 5, Melville Killingbeck, Stanley Braund.

Boys under 8, Wilfred Miller, Herbie Payton, Bernard Fowler, Mendell Braund.

Boys under 10, Alvin Mehaffy, Gale Sager.

Boys under 12, Earl Steep, Harry Quibell, Victor Boorman.

Young men's race, Herbert Spenceley, J. Brownlee.

Married men's race, T. H. Brooks, Fred Gray.

Find your boots race, T. H. Brooks, Jabes Vincent, Jos. Thomas.

These races were very warmly contested and some interesting finishes were made.

During the afternoon a number of the young men and boys enjoyed a swim, one young man even going in without taking the preliminary precaution of disrobing. He was fished out however, and no serious results followed.

The boat left the Point at five o'clock, and after a delightful evening sail the Wolfe street wharf was reached at eight o'clock, the whole party being thoroughly satisfied with the day's outing.

Mr. Sager, Mr. Butcher, and Mr. J. Cunningham accompanied the excursion and lent their assitance towards making it a success.

At Oke's.

We are receiving fine raspberries, blue berries, and cherries. Would advise early buying, especially of cherries, as they will soon be done. S. A. OKE, 376 George street. Telephone, 18.

LAWN MOWERS

Sharpened, repaired and put in first-class order, at Jas. H. Metherall's, 223-225 Hunter Street.

MR. McCAIG'S FATHER BURIED

Former Resident of Peterboro' Bereft of Father.

Deceased Was Buried in Collingwood —Large Funeral.

A despatch from Collingwood tells of the funeral of the late Donald McCaig, father of Mr. J. McCaig, formerly of Peterborough. The despatch referred to says:

The funeral of the late Donald McCaig took place here to-day, and was largely attended by friends and citizens. The service was conducted by Rev. J. A. Cranston, of the Presbyterian church. The pall-bearers were Messrs. G. D. Cooper, W. A. Copeland, W. Williams, G. Brown, J. Breckenridge and W. Ward. The family of the deceased were nearly all present.

In the death of Mr. McCaig the cause of education in Ontario loses an enthusiastic and capable supporter. Mr. McCaig, after a preparatory course at Dr. Tassie's school, began his teaching career in the Township of Waterloo. He taught subsequently in Port Hope and in the Paisley block, and about this time was married to Miss Helen Smith, daughter of the late Alexander Smith, of Aberfoyle, Ont. After two years' teaching in Erin he, in partnership with Alexander McMillan, late Assistant City Treasurer of Toronto, bought out the Rockwood Academy from Mr. Wm. Wetherell, where he continued to work for seven years, ultimately disposing of his interest to Mr. McMillan.

The work of this institution was widely and favourably known, and did important service in the interests of secondary education before the high school system of Ontario had become established. The value of its training is remembered by many who have gained prominence in the educational and business world.

After serving as principal in the Berlin and Galt public schools the deceased accepted an appointment under the Ontario Government as inspector of schools for Algoma, which position he filled for twenty years. He had resigned only a few weeks before his death. In this capacity he did the kind of valuable pioneer work to which his energies and ambition naturally attracted him. He was a gentleman of the highest integrity and trust, and was universally esteemed and respected by teachers and friends. He leaves a widow and nine children to cherish his memory. Three sons have made homes in the west—Mr. J. McCaig is inspector of schools in the Edmonton district; Dr. Alex. McCaig is practicing in Sault Ste Marie, and Spencer McCaig is clerk of customs at the port of Lathbridge. Mrs. McCaig and daughters reside in Collingwood.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

In considering telephone problems it is universally conceded that "service" is the matter of first importance. Every other consideration, even rates, is subordinate to this feature—"good service". The telephone is no longer a luxury but a necessity in every industry of the country. An inefficient telephone service would practically paralyze at least every commercial community.

No branch of public service on this Continent has shown steadier or more rapid progress in the direction of efficiency than has the telephone, and, in this progressive movement, Canada has kept well in the vanguard.

Barring one or two isolated cases, based on very indefinite information, the most searching inquiry by the Parliamentary Committee has failed to bring forth any substantial complaint against the Bell Telephone Company's service, local or long distance. We are therefore justified in assuming that the Company has in this respect fully discharged its obligations towards the public. The Company has, in what is conceded to be the most important feature of its obligations, justified its continued existence and its claim to public support.

We may be pardoned for digressing so far as to say that service superior to all competitors has been the foundation of success to this Company.

RAILWAY FROM CAPE TO CAIRO

Most Difficult Link in the Railway Forged.

The Zambesi Has Been Bridged at the Victoria Falls—Gorge is 650 Feet Wide and 400 Feet High.

The bridge over the River Zambesi at Victoria Falls, in Rhodesia, to be opened for traffic in a few days, says Engineering, may be regarded as the most difficult link to wield in the great chain projected by the late Cecil Rhodes to connect Cape Town with Cairo. The Falls are situated 1,631 miles by rail from Cape Town on the south, and 960 miles by the railway from Beira on the east coast. Before Cecil Rhodes died the railway had been completed from Cape Town to Bulawayo—1,362 miles—and work was in progress for the extension of the line northwards to the Wankie coalfields to the Falls, a distance of 277 miles. The work of designing and constructing the steelwork of the bridge was timed so that it might be despatched from this country by the time the railway reached the Falls in April, 1904. The distance by the alternative route from Beira is made up of disposal of the university governors. The Mashonaland, southern Rhodesia, 170 miles from thence to Salisbury, and 366 miles from Salisbury to Bulawayo. These lines are operated by the Beira & Mashonaland Railway Company, which is also associated with the Rhodesia Railway Company. The bridge is situated in the gorge issuing from the chasm into which the water falls, and about 700 yrds below the cataract, the gorge here being approximately 650 feet wide at the top, with a height above the rapids of about 400 feet. The design for the bridge was prepared by Mr. G. A. Hobson, M. Inst., C. E., a member of the firm of Sir Douglas Fox & Co. The principal features of the total length of 650 feet is a main span of 500 feet from centre to centre of the bearing pins in the form of an arch with a true parabolic curve, and built as a cantilever from each bank. At the southern end there is an ordinary lattice girder span from the bank to the end-posts of the arch, of 77 feet 6 inches in length, while on the northern side there is a corresponding girder span of 67 feet 6 inches. The rise of the main arch is 90 feet, and the height above ordinary water-level 253 feet. The width at the springing of the arch is 50 feet 8 inches between the centres of booms, at the top 27 feet 8 inches, and between parapets 29 feet. There are two lines of rails, although the existing railway track from Cape Town to the bridge is only a single line of 3 feet 6 inch gauge. But a width sufficient for a double line across the bridge was necessary, in order to provide sufficient lateral stability. The total weight of steel in the bridge is 1,650 tons. The approximate cost, including erection, was $350,000.

DEAFNESS CANNOT BE CURED

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Portrait of the King.

Mr. Thomas M. Linsdall, who lives at Littlehall road, Chapham, London, who describes himself as "the champion typist of the world," has typewritten a portrait of the King, which contains over 100,000 impressions from the stamps of the machine. The King has accepted the portrait.

WATER BASEBALL IS THE LATEST SPORT.

Water baseball is the latest sporting game and it is enjoying a boom that is almost a mania.

One need not be a great ball player nor a star swimmer to play the game. All it requires is a rudimentary knowledge of baseball and fair swimming ability. The outfit consists of a tennis ball, a yard or less of broomstick and four rafts, one large and three small.

The batsman and the catcher stand on the big raft. On a small raft ten yards away stands the pitcher. He may deliver the ball in any style he chooses so that it crosses the plate. In striking everything goes but, single swat or foul tip. There are five men on a side. The moment the bat and ball come in contact the batsman must start for the first base.

It doesn't matter how the ball is hit, yess count it safe. Indeed, it is a triumph of skill to turn and swing with the ball and speed it flying past the batcher.

Suppose you have driven a good ball out near third base. You pile overboard with a dive toward first. As you rise to the surface you see the third baseman and pitcher furiously swimming after the ball.

To your excited eyes it seems as if first base is a mile away. As you near the base you see the pitcher seize the ball and turn in the water to throw it. But it is no easy matter to throw a ball while treading water, and the chances are that the throw is a bad one and you are safe.

You now turn your attention toward second. To steal it seems easy, and so, as soon as the pitcher delivers the ball, you start. But if all goes well with the other team when you have gone about a third of the distance you notice that the second baseman has the ball. Giving up hope of gaining second, you turn to regain first, only to note that the first baseman has followed you and waits for the ball about five feet to your rear.

You again turn your efforts toward second, only to see the second baseman swimming behind you. With much splashing you try to evade this latest comer, but you are put out and retired amid the yells of the onlookers. The game is full of fun. Sometimes an ardent baseman causes the raft to tilt until the player loses his balance and in his efforts to regain the centre of the raft it will shoot from under him and he will land smack on the surface of the water.

The game is full of unexpected fancy stunts. The spectators laugh even more than they do at the ludicrous happenings in indoor baseball, for the rolling and tumbling in the water make the mishaps twice as funny.

It is most important to have one keen-eyed watcher constantly looking out for all the players who are in the water, so that there will be no danger of accident.

FOOTBALL.

The Business College Kickers will hold a practice at the Oval on Thursday evening at 7 o'clock p. m. All interested in the game are cordially invited.

BOWLING-ON-THE-GREEN.

Result of games last evening:

W H Isaac	J Cunningham
Dr. Wightman	W Smith
R Cotterell, sk 22,	S Sharpe, sk 5.
Geo Stephenson	A W Ballechem

R Sturgeon, sk 12,	C K Martin, sk 16.
G E Elliott	J Robertson
A B Kidd	H McBain
G B Giroux	W M Lang
W E Talbot, sk 15	A Moore, sk 17.

Schedule for to-night:—

Loch vs. Talbot.
McClung vs. Runnels.
McIntyre vs. Medd.
Moore vs. Ferguson.
Giroux vs. Johnston.

BASEBALL.

The Lindsay ball team is running an excursion to Oshawa on their Civic Holiday, when the Red Birds will run up against the Oshawa bunch. But it will be another spill in Bill Cinnamon's option.

* * * *

St. Andrew's team to play Charlotte street on the Patterson street grounds to-night in the Gould League final, with the following players:—Carpenter, Beresford, McDonald, Cameron, Dobson, Thornton, Butcher, Holley, Patterson, Miller. All players are requested to be on hand at 6.45 sharp.

* * * *

The Midland League games scheduled for Saturday are Peterborough at Port Hope and Bowmanville at Cobourg. Both games are sure to be great contests and if the teams put up their usual style of play the visitors look like winners.

LACROSSE.

The members of the Young Peterboroughs are asked to turn out to practice every night this week in preparation for the game on Saturday in Campbellford.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, questions or replies. Anything of a scurrilous personal nature will be prohibited.

Editor of Post Card Column:

Dear Sir,—Just a word in your favour. As a constant reader of the Examiner, I wish to express my appreciation of your enterprise and unselfish forethought in instituting and carrying on so successfully this column of short communications. This gives one and all an equal opportunity of expressing their opinions on any subject and in any way—critically, suggestively, or otherwise. Your enterprise is to be highly commended.

Yours respectfully,

A SUBSCRIBER.

Editor of Post Card Column:

Dear Sir,—George street merchant (between Simcoe and Hunter) remarked to-day that there are roads in Burleigh far better than George street between the streets named. The street, especially on the west side at some points between the car track and the curb is worn into deep holes and after the late rain, Acting Street Commissioner Ashum broke up the Macadam to make trenches to carry the water into the gutter. A pretty thing to see in a city like Peterborough. The Aldermen must be together when the Macadam is spoilt in this idea not make an impression on them. For shame!

FLANEUR.

Editor of Post Card Column:

Dear Editor,—I wish to have a dig at the street authorities for the way they have dug holes on George street to let the water out of the mud holes, I think. (Note.—The rest of this communication is of the same respect as an other which was in type before its reception).

Editor of Post Card Column:

Dear Sir,—I noticed under this heading of last night's Examiner, a communication signed "Moderation," and in reading the item was surprised, indeed. If "Moderation's" intimation is correct and if there is a law prohibiting citizens from taking water (in any quantity) from public fountains, when the said citizens help maintain the said fountain, then I "dare" to say that the said citizens should take steps to have that law changed, as it jeopardizes their own interests.

"Moderation", enough, does not seem to know that there are two public fountains at the point mentioned. One for horses, is running continuously, while the other, for pedestrians, is an automatic affair, and runs only while you "pant". The water from this fountain is iced by ice being placed on coils of pipes beneath the platform, and so long as the water is not allowed to run faster than it will become cold (and I doubt if one could carry away water fast enough with two pails to cause this trouble) the town authorities should have no kick coming.

Yours truly,

DUTT IN.

Dear Sir,—I notice in your post card column, a complaint about unruly passengers on a street car. The complaint does not help the authorities to remedy the matter. If the number of the car and the conductor of a car in which such alleged misconduct took place were reported (in confidence) to the manager the would make enquiries and remedy the trouble for it is to the direct interest of the railway company to please and accommodate the public. Give the company a chance to do the right thing by furnishing definite information.

Yours truly,

CONDUCTOR.

A TWO-FOR-ONE-SHOT.

When you use Ozone use "Celery King" with it. Whatever kind of Ozone you buy you will need to use "Celery King" which is a companion remedy to Ozone.

The purest form of Ozone is "Solution of Ozone (the coupon kind.)" Each bottle contains about twice as much for your money as other brands, besides which each bottle contains a coupon entitling you to a package of "Celery King" free. This is a great advantage as you save money on the Ozone and also get the "Celery King" which you would otherwise have to buy.

No other brand of Ozone contains these coupons. "Solution of Ozone (the coupon kind)" is fifty cents and one dollar at your drug store including the coupon for the package of "Celery King." Take no other kind and if your druggist does not carry it write to the Public Drug Co., Bridgeburg, Ont. Sold by W. B. WARNE. 11

FRUIT

As a Medicine.

Fruit has been used as a medicine for thousands of years. Every one knows its value as a laxative. The pure juice of apples acts on the kidneys and makes more urinary excretion than any other remedy in the world—but the patient must take half a pint three or four times a day. Apple juice is most curative in kidney disease. The juice of four large oranges taken before each meal and on retiring at night has more curative action on the skin than any remedy ever discovered. Orange juice clears and beautifies the complexion. Again, fruit acts on the bowels and makes them move—acts on the liver and makes more bile flow, which is the natural purgative of the body—and thus cures constipation. An Ottawa physician after years of labor has discovered a process of combining and concentrating the juices of apples, oranges, prunes and figs—and by forcing into the united juices one more atom of bitter from the orange peels, a new fruit is obtained which has all the valuable medicinal qualities of fresh ripe fruit and in a more marked degree. The new and stronger fruit is condensed into powder, made into tablets, with the addition of tonics, and sold under the name of "Fruit-a-tives" or "Fruit Liver Tablets." It has been proven in hundreds of cases that "Fruit-a-tives" are a positive cure for constipation, biliousness, headaches, kidney and liver diseases and all blood impurities. "Fruit-a-tives" are fruit, concentrated and made stronger than ordinary fruit. For sale at Druggists 50c. a box or 6 boxes for $2.50, or sent on receipt of price by FRUIT-A-TIVES LIMITED, Ottawa.

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c. at all dealers or EDMANSON, BATES & Co., Toronto.

DR. CHASE'S OINTMENT.

JUST DIRT

is about all that can be said about an unimproved vacant lot—save when you take location and the future into consideration. We can show you some "pay dirt" that isn't in a mine, tho' it may prove to be a mine. Real Estate mines—properties, that is—are what we deal in. Ask us about them.

Harwood P. O.

AN EXPLOSION OF GASOLINE

Twenty-Five Gananoque People Have Unpleasant Time--Two Men Severely Burned—Women Faint and Several Throw Themselves Over the Side of the Launch "I'll See"—Relieving Skiff Overloaded and Excitement Was High for a Time—Craft Was of Yankee Registration.

Gananoque, Aug. 2.—The launch I'll See, in command of Captain Wessel, left Taylor & Green's wharf at 10.30 yesterday morning with 25 passengers, mostly women and children, all bound for Kingston.

The boat had proceeded but 300 yards from the shore when flames arose from leaking gasoline, followed by a terrific explosion. Two male occupants of the engine room were severely burned, some ladies fainted, and several threw themselves over the side and hung on, waiting for help.

Rescue was near in the form of island launches and skiffs all hurrying to the scene. The skiffs were quickly loaded, and in the excitement one was overloaded, but other skiffs relieved her of her party. Some of the women would not leave the I'll See, but hung on the side while a visiting launch towed the boat to the railway wharf. The Rathbun Company's fire apparatus was handed over to the citizens, and the fire was put out in a few minutes.

Some of the passengers were at once driven home in a carriage, others were lying on the wharf in a dead faint after being removed from the boat, but restoratives were applied, and all were right in a few minutes.

The I'll See is of Yankee registration, and would have been seized in Kingston on arrival for carrying passengers from one Canadian port to another.

Circular Saw Tragedy.

Kingsville, Aug. 2.—Jesse Seygley of Pelee Island while running a portable saw mill on his farm fell in front of the saw and was cut in two, the saw splitting his head, cutting lengthwise of his body and coming out at his hip.

Mr. Seygley leaves a wife and three sons, the eldest 18 years of age. He was a Forester and a member of Pelee Municipal Council, and was 44 years of age. He was also an active church worker and superintendent for years of the South Side Methodist Sunday school.

Six-Year-Old Boy Falls Into the Trent.

Hastings, Aug. 2.—Yesterday afternoon Oscar, the six-year-old son of T. H. O'Neil, was drowned in the Trent River. He was giving a dog a swim, and in throwing it in over-balanced and fell off the pier on which he was standing. He was in the water 15 minutes before being found. Two doctors were called and worked on him fully 90 minutes in an endeavor to bring him to, but it was of no avail.

On Holidays, Drowns.

Ottawa, Aug. 2.—W. H. Bangs of the city post office staff, was drowned while in swimming in the Rideau River near Manolick where he was spending his holidays. He took a cramp and sank.

Triple Drowning.

Poughkeepsie, N. Y., Aug. 2.—Virgil Burdick and Edward Hunt, farmers, and a boy named Burdick, aged 10, were drowned in Sylvan Lake Monday night, while fishing from an overloaded boat.

Fished With Dynamite.

Buffalo, N. Y., Aug. 2.—Richard Johnson, 62 years old, was blown to pieces by dynamite while rowing across the Niagara river at Tonawanda yesterday. Charles Duffy and Charles Sturges were with Johnson in the boat. Duffy's legs were torn by the explosion, but Sturges escaped uninjured. One side of the boat was shattered, but Sturges managed to keep it afloat until the party was rescued. Johnson it is said was about to explode a stick of dynamite to kill fish.

The Jolt Was Fatal.

Winnipeg, Aug. 2.—A Finlander named Otto Gustafson was killed by a C. P. R. work train near Rosser Monday afternoon. The brakes were turned on suddenly and almost instantly released, which caused him to fall under the wheels. An inquest will be held.

Body Identified.

Uxbridge, Aug. 2.—The body of the young man killed on the railway track north of here on Sunday has been identified as that of Osborne Chase, eldest son of Benjamin Chase, about four miles west of here.

Windstorm's Havoc.

Beaumont, Texas, Aug. 2.—Word reached here last night that one white boy and two negroes had been killed outright, and that twenty other persons were more or less seriously injured during a heavy wind storm which struck Bessmay, La., yesterday afternoon.

Killed by Submarine Mine.

Stockholm, Sweden, Aug. 2.—Seven sailors were killed and eight severely injured yesterday by the explosion of a submarine mine during mining practice in the Sandham Roads near Stockholm. A boat containing the victims struck the mine and was blown into the air.

BY LETTERS PATENT.

King Edward Makes Governor-General Also Commander-in-Chief.

London, Aug. 2.—(C. A. P.)—It was officially announced in last night's London Gazette that the King has, by letters patent, under the great seal, constituted the office of Governor-General and Command-in-Chief of Canada, and that Earl Grey is appointed to the extended office.

Yellow Fever Deaths.

New Orleans, Aug. 2.—Yesterday witnessed an increase in the number of deaths from yellow fever. There was, however, the usual large preponderance of Italian names in the list, both of new cases and deaths. Despite the increased mortality the health authorities expressed no concern over the situation.

Premier's Flying Trip.

Montreal, Aug. 2.—Sir Wilfrid Laurier paid a flying visit to the city yesterday, returning to Ottawa at 4 p. m. The Premier and Lady Laurier will go to Arthabaskaville for a few days

When life's autumn comes, women, worn out by the burdens of motherhood, yet shrink from that second "change of life" which will banish these burdens forever. They fear a change in form, in feature, in personal attractiveness. Such fears are largely warranted by the effects which this change produces in many women. But no woman need fear these fears if well.

Those who have used Dr. Pierce's Favorite Prescription do not suffer from the change of life either in face, form or feelings as do other women. This fact is due to the intimate connection of the general health with the health of the organs peculiarly feminine. By preserving the health of these organs and relieving the system from the debilitating drains, ulcers and inflammations which sap its health, "Favorite Prescription" paves the way for this natural change to come in Nature's way, without the idea of capacity to please others or personal inability to enjoy life.

"Your 'Favorite Prescription' brought me safely through that difficult period, called 'change of life,'" writes Mrs. Mary Ensminger, of 24 E. Ankeny St., Portland, Oregon. "This change made a very unpleasant disturbance through my entire system. I had hot and cold flashes, sick headaches, became excited, frustrated, nervous and irritable. My appetite was fitful and for days I was unable to eat a fair meal. My aunt recommended me to try Dr. Pierce's Favorite Prescription and it made a great change for the better. Within two weeks the unpleasant feelings had disappeared. I have a husband and eight children to have the care of a large family but was able to attend to my household duties without any difficulty and passed the period without any more trouble. I can recommend your 'Favorite Prescription' as a grand medicine for women."

You may be willing that somebody else shall say that their baby is "just as good" as yours, but you don't want that baby substituted for yours. Let dealers say what they like about other medicines being "just as good" but don't let them substitute anything for "Favorite Prescription." It is absolutely unequaled.

ON TRAINING OF CHILDREN

Contribution to This Work By Luther Burbank.

AIM AND OBJECT OF HIS LIFE

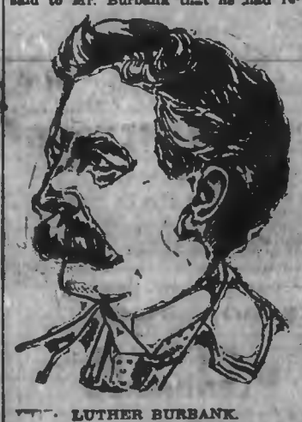
Would Introduce Into Child Training the Scientific Ideas That He Employs Every Day for the Improvement of Plant Life — Says Dr. Barnardo Is Really Pursuing This End.

St. Louis, Aug. 2.—Luther Burbank, the famous California horticulturist, declares that the great object and aim of his life is to apply to the training of children those scientific ideas which he has so successfully employed in working transformation in plant life.

The Rev. Dr. James W. Lee, pastor of St. John's Southern Methodist Church, has returned from a trip to Santa Rosa, Cal., whither he went for an interview with Mr. Burbank. He said to Mr. Burbank that he had referred to Barnardo of London, who has educated some 60,000 waif children in the ninety-three homes which he has founded in various parts of England, with the result that only 2 per cent. of them have turned out bad. Mr. Burbank replied that he had studied Barnardo methods of rearing children and that the latter was doing in the realm of human life what he (Burbank) was doing in the realm of plant life.

"Barnardo," he continued, "has demonstrated that infinitely more can be done with children than with weeds and plants. Whenever human beings recognise these realities in the realms of human life and begin to apply scientific principles to the training of children, then humanity will enter upon a new stage of existence."

Mr. Burbank said that in his opinion every person should be physically, morally and spiritually perfect, and could be if the same attention were paid to his or her training that he was giving to weeds. He declared that, just as he had wrought seeming miracles with plants by bringing them into contact with those elements of their environment to which they rapidly responded, those who have the care of children should seek to train them by bringing their natures into relation with all the elements of their environment to which they are potentially responsive.



LUTHER BURBANK.

NOT BURBANK METHOD.

Three Chicago Lads Sentenced to Imprisonment For Life.

Chicago, Aug. 2.—Life sentences were imposed by Judge Albert S. Barnes yesterday upon three youthful hold-up men who pleaded guilty to a murder and four highway robberies committed Monday night.

George Plummer, 17 years old, was sent to Joliet Penitentiary for life for the murder of Michael White.

Thomas Talley, 20 years old, and Thomas Sherwin, 18 years old, his companion, was given a life term in the prison of Pontiac as punishment for the robberies.

They were not held as responsible with Plummer on the murder charge.

500 WITNESSES SUMMONED.

In Suit Involving Half a Million Against G.T.R.

Bloomfield, Vt. Aug. 2.—A suit against the Grand Trunk Railway, involving an aggregate of half a million dollars was argued yesterday forenoon.

The suit was brought by the Connecticut Valley Lumber Company, which claims that 30,000 acres of timber land, owned by the company, were destroyed in 1903 by a fire said to have been caused by a locomotive of the defendant corporation. Damages of $300,000 is the claim of the Connecticut Valley Co.

Upon the finding of the referees rests the cases of several other lumber firms with losses aggregating $200,000 by the same fire, as these firms have agreed that the Connecticut Valley suit shall be regarded as a test.

The hearing is to be extended. More than 500 witnesses have been summoned.

Tired all the Time.

Mrs. George Beattie, Carr's Brook, Colchester Co., N. S., writes: "Last spring I was very much run down, felt tire all the time, and did not seem to have life or energy enough to do my work. Three boxes of Dr. Chase's Nerve Food did me a world of good, and made work a pleasure to me. I have not had occasion to use any medicine since, and have recommended Dr. Chase's Nerve Food to all my friends."

Railway Strike Ordered.

Denver, Colo., Aug. 2.—An order was sent out yesterday on the Denver and Rio Grande Railway to all track and water service men on that road who are members of the brotherhood to go on strike at 6 o'clock p. m. August 2 owing to the refusal of the officers of the company to accept the schedule presented by the brotherhood or to submit the matters in question to arbitration. More than 2,000 employes are affected.

Telegraphers Ordered to Strike.

St. Paul, Minn., Aug. 2.—A general strike of the telegraphers on the lines of the Great Northern and Northern Pacific Railways was ordered at 11 o'clock last night by President Perham of the O. R. T.

Found Dead in Field.

Comber, Aug. 2.—George Smith, having been gone longer than usual, members of the family started to search for him, only to find his lifeless body in the pasture field. Deceased was aged about 65 years.

Portugal Accepts.

Tangier, Morocco, Aug. 2.—Portugal has accepted the invitation of the Sultan to send a representative to the conference.

Abbey's Effervescent Salt

Every second, of every minute, of every hour, of every day, of every year—someone is taking Abbey's Effervescent Salt. It is used wherever civilization has penetrated. The march of progress and good health is under the banner of Abbey's Effervescent Salt.

At all Druggists. 25c. and 60c. a bottle.

IT is not the amount of heat you generate in the boiler that makes a successful heating system. It is the amount of heat you use.

We have succeeded in designing a boiler that holds and uses more of the heat generated in the fire-pot than any other boiler on the market.

Oxford Hot Water Boiler

Sides of the fire-pot slant inwards above the fire, so that instead of the heat sliding up through the flues it sharply impinges against these inclined walls. In first water section nearest fire, the flues are bell-shaped, so that a very great surface is exposed.

The Oxford Boiler saves fuel because every bit of the heat generated by it is used.

Complete details of Oxford Boiler superiority is told in our catalogue. It's free.

Corner George and Brock Streets Telephone.

SANOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the Northwest Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year, during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

CUTICURA SOAP

The World's Greatest Skin Soap.

The World's Sweetest Toilet Soap.

Sale Greater than the World's Product of Other Skin Soaps.

Sold Wherever Civilization Has Penetrated.

Millions of the world's best people use Cuticura Soap, assisted by Cuticura Ointment, the great skin cure, and purest and sweetest of emollients, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, for annoying irritations, or too free or offensive perspiration, for ulcerative weaknesses, and many sanative, antiseptic purposes which readily suggest themselves to women, especially mothers, as well as for all the purposes of the toilet, bath, and nursery.

Cuticura Soap combines delicate emollient properties derived from Cuticura, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in one soap at one price the most effective skin and complexion soap, and the purest and sweetest toilet, bath, and nursery soap.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney. Potter Drug & Chem. Corp., Boston, Sole Props.

Send for "How to Preserve, Purify, and Beautify the Skin, Scalp, Hair, and Hands." Mailed Free.

SOME ACCIDENTS AT WARSAW

A Child Broke Her Leg and Another Badly Cut.

Funeral of Late Dr. Meacham—Personal News of Interest.

From our Own Correspondent.

Warsaw, Tuesday, Aug. 1.—Mrs. J. H. Brown and children are visiting friends at Stony Lake.

Mr. Nathan Payne spent a few days at Stony Lake with Mr. Levi Payne.

Mr. Jas. Hall, of Indian River, was in the village on business on Thursday.

Mr. and Mrs. John Mason are visiting their daughter, Mrs. W. A. Sanderson at her cottage, Stony Lake.

Mrs. David Edwards, of Lakefield, is visiting Mr. and Mrs. Joseph Edwards.

Mrs. J. Allen, of Toronto, is visiting her sister, Mrs. Dawson Tighe.

Mr. and Mrs. W. J. Campbell, of Belleville, are visiting relatives and friends in the neighborhood.

Mr. Wm. Watts, of Gananoque, is spending his holidays with his parents here.

Mr. Clarence Snider, of Peterborough, spent Saturday and Sunday in the village.

Mr. and Mrs. W. K. Payne, of Peterborough, were in the village on Saturday attending the funeral of the late Dr. Meacham.

Miss Crossen has returned from Peterborough, where she has been spending a couple of weeks.

Miss A. Wannamaker, of Lakefield, is visiting Miss M. Tucker.

Miss Clara Moloney, of Toledo, O., is visiting Mr. D. Moloney.

Miss Minnie Sullivan, of Mount Pleasant, Mich., is visiting relatives in this vicinity.

A garden party will be given on the lawn at the Manse on August 8. Ice cream and refreshments will be served, after which a musical and literary programme will be rendered.

The flour mills were closed for a few days last week while some repairs were being made to the flume and water-wheel.

Mrs. Thos. Chatten, of Peterborough, who has been visiting relatives here, returned home on Saturday.

Rev. Mr. Pickford, of Norwood, conducted the service at St. Mark's Church on Sunday.

Mr. Thos. Miller returned on Friday from his western trip. He spent two weeks in Deloraine, Man., and reports the crops good in that section.

A fall over a buggy shaft was the cause of Mr. Chas. McNutt's eldest child breaking her leg. Dr. Baker, of Lakefield, is in attendance.

A runaway team of horses was the cause of some excitement between the grist mill and the hotel on Monday morning.

Dr. T. Douglas, wife and children, arrived in the village on Monday. The doctor has purchased the medicines, and is for the present occupying the office, of the late Dr. Meacham. Previous to coming here the doctor has for thirteen years been practising in Western Ontario.

Mrs. Joseph Cooper leaves on Wednesday for Bolivar, N.Y. She will also visit friends in Port Hope and Toronto.

Master Theadore, son of Mr. A. Helps, while playing, fell among some stones and received a bad cut on the forehead. The wound was dressed and several stitches put in by Dr. Douglas.

The funeral of the late Dr. Meacham, which took place on Saturday, was very largely attended. The remains were taken to the Methodist church where service was held, the Rev. J. Seccombe, of Belleville; Rev. H. McQuade, of Bridgenorth; Rev. F. H. Battersby, of Young's Point; Rev. W. L. Atkinson, and Rev. G. Nicoll, of this place, taking part. A great many flowers were placed on the casket, among which was a wreath from the congregation, and an anchor from the Woman's Missionary Society. The pall bearers were, Messrs. Wm. Watson, M. Snider, Urish Payne, A. F. Choate, E. Hawthorne and John Marr. The members of the Dummer Council, with which the late doctor was connected, as Medical Health Officer, attended in a body. A large number of friends from a distance were among those who paid their respects. The late Dr. Meacham will be greatly missed in this community, more, perhaps, by the members of the Methodist church, among whom he was an untiring worker, in the Sunday School, of which he was Superintendent, in the class meeting and in the services of the church, which he often conducted in the absence of the pastor. In his professional duties, his skill as a physician and surgeon was well known, and his work was attended with much success.

THE official tests by the Inland Revenue Department of the Canadian Government show the Royal to be a pure baking powder, superior to all others in leavening strength.

It therefore makes purer, more wholesome and economical food than any other baking powder or leavening agent.

Royal Baking Powder is more convenient for use than cream of tartar and soda and makes finer-flavored food.

ROYAL BAKING POWDER CO., NEW YORK.

MUCH BUILDING IN HAVELOCK

That Town is Experiencing a Building Boom.

Eighty New Structures Will Soon be Ready—Many Visitors to the Town—Sporting Notes.

From Our Own Correspondent.

Havelock, July 31.—Mrs. E. M. Crawford, who has been the guest of her son, Dr. H. Crawford, M.D., M.A., of town, for the past two months, is very ill.

The Misses Jarvis, of Ottawa, and Master Anthony and Miss D. Reid, of Campbellford, were the guests of Mrs. H. Caplan on Saturday.

Mr. B. Reinholt, of Winnipeg, spent Saturday and Sunday the guest of Mr. I. Barlow on his way to Toronto.

Rev. H. Caplan left for a two weeks' vacation to the summer resort the Lower St. Lawrence, Caconna, P. Q. Mr. Caplan has been ill for the past few weeks and we hope that he will be very much improved in health when he returns.

Owing to the bye given by the C. L. A. to the local lacrosse team, they will on Wednesday cross sticks for the first time in the semi-finals with the Young Torontos, who have won their district in the west. The locals are getting in shape to give the westerners a hard struggle for their money, when a week from today the locals play the return match in Toronto.

Mr. G. A. Ghent, LL.D., who has been enjoying his summer vacation at Petrolea, returned on Friday evening.

Friends may be pleased to hear that Miss Maude Caplan, of the Buffalo General Hospital, has successfully passed her recent examinations.

Mr. and Mrs. Derricott and daughter Clara returned on Saturday from an extended visit to friends in Toronto and points west.

Miss Jennie Cartwright left on Monday for an extended visit to points through the Eastern States.

Mrs. A. Carmichael returned from her visit to friends in C. O. Junction.

Master Wm. Bryans, who has been visiting friends in West Peterborough for the past month, returned to town on Monday.

Owing to the Rev. Caplan being away there will be no service in St. John's Church next Sunday.

Miss Elgin Watson spent Monday in Peterborough.

Miss Ludwig, who has been the guest of her sister, Mrs. W. J. Boyd, for the past month, returned to her home in Montreal on Tuesday.

Mr. J. Farrett left for the general meeting of the I. O. F. Grand Lodge in Ohio on Friday last.

Mrs. E. Williams returned on Friday evening after an extended visit to friends in Toronto.

Mrs. E. Munro, of Peterborough, who has been the guest of Miss Stella Armstrong for the past week, returned to her home on Monday.

We are pleased to hear that Mr. Sam Cross, who was operated on for appendicitis last week, is improving rapidly and was removed to his home on Monday.

Friends may be pleased to learn that Mrs. Alex. Innis, who left here a few weeks ago for a trip east for the benefit of her health, is recovering rapidly.

Mr. H. Wing left on Monday for a visit to friends in Smith's Falls, and he will then go to Seeley's Bay, the home of his brother, Mr. J. Wing.

Miss K. Graham, of Hastings, has been the guest of Miss Jennie Barlow for the past week.

Mrs. B. Eckert and family, of Madoc, have been the guests of Mrs. P. McNicholl for the past week.

Miss Pauline Weir, of Norwood, was the guest of Mrs. Jas. M. Watson last week.

Miss Grace Moore and Miss E. Mulligan, of Kingston, were the guests of Mrs. C. B. Fanning for the past week.

Miss Nina Ferguson, of Belleville is the guest of Mrs. T. H. Patterson.

Miss Flosie Foster, of Norwood, is the guest of Miss Annie Bryans.

The Misses Mulrooney have returned from an extended visit to friends in Toronto.

About the first of October we will be able to boast of eight new houses ready for habitation. At the present time it is next to an impossibility to get a house to live in.

Havelock still leads in the T. V. Baseball League, and it is altogether likely that the local bunch will carry the flag home this year. McCory has let the boys to victory in all but one game so far, when the field support was very poor.

A very narrow escape happened to Mr. Geo. Crowley at Trent River on Friday last, where he was fishing above the bridge. Mr. Crowley, being out in a canoe, thought he had a bite, and commenced to pull, as he thought, the fish in from the side of the boat, when he gave a sudden tug and the boat upset, giving him a bath. Not being able to swim, he was brought to shore by a party who saw the accident.

All the new houses now being erected, are having the electric wires took for the Electric Light Company.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spare the suffering; she is a veritable storehouse of pleasing rewards for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ, or parasite, that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send ten cents in stamps for sample to the Herpicide Co., Detroit, Mich. Ormond and Walsh, special agents.

SOLD LIQUOR AFTER HOURS ON SATURDAY

Local Hotel Keeper was Fined—General Police Court News.

A good example of brotherly love was shown in court this morning when a local hotel keeper had his younger brother "up" on a charge of being drunk and disorderly in his hotel. The Magistrate imposed a fine of $2 and $2.60 costs.

John Kelly indulged too freely in the flowing bowl and the fun cost him $2 extra.

A local hotel keeper was fined $20 and $13.40 costs for selling liquor after hours Saturday night.

TO REFORM ALL THE FALL FAIRS

Department of Agriculture Will Write to Secure This.

A Policy of Weeding Out the Weak Fairs—Special Exhibitions to Be Provided.

A somewhat radical programme of reform is being mooted by Mr. Cowan superintendent of Fairs, in conjunction with Mr. F. C. Elford, of the Dominion Department of Agriculture.

The movement is largely in the direction of consolidation, and aims to make the fair less of a spectacle and more of an educational institution. Mr. Elford has written the Provincial Department, offering to go into a common scheme of demonstration at two fairs—Beachburg and Simcoe—this year. The officials of both these fairs will be asked to suggest educational features which may be carried out for the instruction of farmers.

Among Chicken Coops.

One decided item on the programme it will be the poultry demonstration. The killing, packing, plucking, and feeding of birds will be all gone into on a scientific basis. The cost of raising poultry will also be considered. A model poultry house will be on exhibition.

Labour-saving will be a conspicuous feature on this concerted programme. This is important, in view of the relative scarcity of hired help. A further step in the mechanization of the farm will be taken in the display of gasoline engines. One of these engines will be exhibited as running a cream separator, an ensilage cutter, a pump and a sewing machine all at once. This will enable the farmer to sit by the fire and do his chores.

Consolidate Fairs.

If the present performance of the Department is carried out there will soon be a revolution in the fall fairs of Ontario. Mr. Cowan believes that a great step will be to eliminate a number of existing fairs and to concentrate upon a fewer number. He thinks that, better exhibits can be secured, better buildings erected and higher prizes offered.

The contention is—with the aid of the Agricultural Associations—to combine the fairs not eliminated into a number of groups. Each group will be recommended to go in for specialized exhibits. A common travelling exhibit of special lines will be suggested for every fair in a given group. An attempt will be made to keep in touch with the British markets so that the needs of the British consumers may be demonstrated for the benefit of the Canadian producer. One man will be recommended to take charge of each group of fairs just as dairy instructors now combine cheese factories into a common district. These fair superiors would be expected to spend all their time during the summer in looking after fairs. Thus the old haphazard township fair with a few fat cattle and fat "pumpkins" and a green trot is scheduled to pass away.—Toronto News.

WERE WEDDED IN ST. LUKE'S

Miss Ida Sumerville Married to Mr. Mackness.

This afternoon at 2 o'clock at St. Luke's church a quiet wedding was performed by the Rector, E. A. Langfeldt, M.A. The contracting parties were Mr. James Mackness, of Easonville, Haliburton County, and Miss Vida Somerville, daughter of Mr. Wm. John Somerville, of the same place.

The bride was dressed in white and carried a bouquet of flowers. They were unattended. Mr. and Mrs. Mackness will remain a few days in the city, and afterwards will go to Easonville to live.

REV. F. J. SCOTT NOW A BENEDICT

Popular Pastor of Murray Street Church Married on Tuesday

His Bride Miss Della May Lemon of Lemonville, Ont.

An announcement which will come with considerable surprise except to his more intimate friends, is that of the wedding of Rev. Freeman J. Scott, B.A., the popular young pastor of Murray street Baptist church.

On Tuesday, Aug. 1st, at the residence of Mrs. James Lemon, at Lemonville, York County, the wedding of Rev. F. J. Scott, of this city, to Miss Della May Lemon, daughter of Mrs. Jas. Lemon, took place. The ceremony was performed by Rev. Geo. Williams, Baptist minister of that town. A number of the friends of the bride and groom, the former being a popular young lady, with her large number of friends in that vicinity, were present.

The honeymoon will be spent in Toronto, Muskoka and Sparta, the latter place being Rev. Mr. Scott's home.

They will remain away a month, at the end of which time they will come to Peterborough to reside.

While a few of the most intimate friends of the energetic pastor of the Murray street church were aware that the interesting event chronicled above was to take place in the not distant future, to the majority of the people in the city the fact that he has joined the benedicts will be learned with surprise.

His many friends here will join in congratulations, and there is no doubt that Mrs. Scott will be well received by the church.

QUICK CLEARING PRICES

THE OTONABEE CO. OFFERS LOW RATE

$10 Per Year for Incandescent Lights for Streets.

Meeting of the Fire, Water and Light Committee Last Night—No Modifications for Opera House.

The prospects for cheaper lighting of the streets are good just now.

At the meeting of the Fire, Water and Light Committee last night, the Otonabee Power Company's offer to supply incandescent lights at $10 per year each, $2 per year less than the price at present paid to the Peterborough Light and Power Co., was accepted, and an agreement will be entered into between the council and the company.

Those present were Ald. Johnston, chairman; Hicks, McIntyre, Tovey and Adams.

A verbal request was made by Mr. R. H. Bradburn in regard to modification of the Building Bylaw with respect to the construction of a wall in the new opera house building.

The matter was considered fully by the committee, and a motion by Ald. Tovey, seconded by Ald. McIntyre, that Mr. Bradburn be requested to be governed by the provisions of the Building Bylaw, in respect to the construction of the external wall of the new opera house, facing George street, was carried.

The Otonabee Power Co. wrote to the committee offering to furnish incandescent lights for streets for $10 per year each. In answer to this offer Ald. Adams moved, seconded by Ald. McIntyre, that the committee recommend that an agreement be entered into with the Otonabee Power Co. for such incandescent lights for street lighting as the council may desire to order from the company at the rate of $10 per year per lamp of 32 candle power, the company to furnish the lamps and all material required, and do all the work, and keep the lights lighted all night, and every night in the year, the company not to be compelled to put in lights at a greater distance than 500 feet from an existing incandescent light of the company, and the agreement to contain a provision that the rights of the town to do its own lighting at any time will not be prejudiced by allowing the company to do street lighting.

At this juncture Ald. Crowe entered the meeting, and amendments to the Building Bylaw, and also to the proposed bylaw fathered by Ald. Crowe, regulating the repair and removal of buildings was considered by the committee, but no action was taken.

QUIET WEDDING AT ST. JOHN'S CHURCH

Miss Jessie Campbell Married to Mr. J. Chambers.

On Monday evening at 7 o'clock, a quiet wedding was performed at St. John's church, by Rev. J. C. Davidson. The contracting parties were Miss Jessie Campbell and Mr. Joshua Chambers, both residing in Monaghan.

The bride's dress was of grey poplin cloth, and was most becoming. They were unattended and after the ceremony, left for their future home in North Monaghan.

Seized Steamer Sold.

The American schooner, Samoset, which was seized last fall for violating the Canadian fishery laws, was sold at auction at Sydney by order of the admiralty court. She was purchased by Robert Musgrave for $2015.

NOBLE RED MAN AGAIN SAVES HIS WHITE BROTHER FROM WATERY GRAVE

Two Young Men From This City, Members of "Skitterville" Camps, at Rainy Point, Were Clinging to Upturned Canoe When They Were Rescued by Mr. Daniel Cow---An Experience Which Was An Unpleasant One To Those Participating In It---Indians' Services to the White Man---Another Water Accident.

On Monday afternoon two young men from this city, had a narrow escape from drowning in Rice Lake. A party of about fifteen young people from Peterborough, are camped at Rainy Point, under the chaperonage of Mrs. Gilbert, and on Monday Mr. Archie Lang and Mr. Fred Howson, two of the party, were out sailing in a canoe off the point, when in a squall their craft capsized, and they were thrown into the water. Fortunately they were able to reach the overturned craft, and to it they clung for some time. At first no one noticed their dangerous plight and it looked as if they might have to stay there some time before they could be rescued. The waves were running high, and a strong wind was also blowing, adding to their danger.

At last, however, Mr. Daniel Cow, one of the Indians of the Rice Lake Reserve, noticed the two young men, and in spite of the fact that the waves were still rolling high, he launched a canoe and went to their rescue. The young men were finally getting into his craft were brought safely to shore.

This is the second time during the last ten days that the red men of the Hiawatha Reserve have rescued their white brothers from watery graves. Needless to say that the other members of "Skitterville" camp were greatly relieved when their companions reached the camp in safety.

Another accident was narrowly averted at the lake the same day, but in this case it was not a human being that was in danger, but a cow. This animal belonged to Mr. Daniel Cow. It swam out into the lake about a mile, and was about to drown, when Mr. Joseph Lukes rescued it.

THE FIRST THRESHING IN NORTH MONAGHAN.

Probably the first threshing of the season has been done in North Monaghan. A few days ago Mr. Harry Clarke, near Springville, threshed peas in the field, and yesterday Mr. John Clarek performed a similar operation.

In a few days no doubt there will be a good deal of threshing of peas and wheat to make room in the barns for later crops, such as oats, but not to the extent of last year. Though the crops are first class, there is not so large a bulk of straw.

HUCKLEBERRY PARTY DROVE TWO NIGHTS.

On Monday night about a dozen young people from the vicinity of Coldsprings, organized by Mr. and Mrs. Sidney Bennett, drove to Buckhorn on a huckleberry-picking expedition. They left Coldsprings about nine o'clock and drove all night, reaching their destination early in the morning. They spent the day gathering the luscious fruit, and at night again started on their twenty-five-mile ride, home being reached on Wednesday morning.

A delightful outing was spent, and the expedition was productive of berry satisfactory results.

ANOTHER INFANT DEATH RECORDED

Death of Rosalie Wescott, of North Monaghan, This Morning.

The death occurred this morning of Rosalie Leona Marguerite, infant daughter of Mr. E. Wescott, who resides near St. Peter's cemetery, in North Monaghan. The young child had been scalded, and blood poisoning set in, resulting in its death.

The funeral takes place from the residence to-morrow afternoon at 2 o'clock, and will proceed to the Little Lake Cemetery for interment.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

ANNUAL OUTING OF THE ALLIANCE

Bethany Tabernacle Sunday School Excursion a Success

A Good Crowd Enjoyed a Delightful Sail Through the Kawartha Lakes.

Yesterday was an ideal day for a picnic, and those who went with the Bethany Tabernacle picnic up the lakes enjoyed a pleasant days outing in that "land of smiling waters and sunshine."

The excursionists, to the number of 200 left yesterday morning by the regular G.T.R. train for Lakefield, where they boarded the steamer Stony Lake, and went on her regular trip through the lakes. Some of the crowd stayed off at McCracken's, and waited for the return of the boat, which went on to Burleigh Falls where a stop over of half an hour was enjoyed.

The excursion returned to the city about 7 o'clock last evening, and everyone expressed himself as well satisfied that they had a very pleasant day's outing.

A PICTON DEPUTATION PASSES THROUGH THE CITY ON AN INSPECTION TOUR

Rev. W. L. Armitage, and M. L. Warren, of Picton, are on a Tour of Inspection of High Schools—Their Visit to This City, However Was Not For This Purpose—Picton Council Will Spend Money For the Erection of a New School in That Progressive Town.

Rev. W. L. Armitage and Mr. M. L. Warren, of Picton, the former a previous rector of All Saints' Church here, were in town last night on their return from Lindsay. Their trip to Lindsay was for the purpose of inspecting the high school with a view of obtaining ideas which will help them in the construction of a new high school building in Picton.

Their visit to this city, however, was, it need hardly be said, not for that purpose. Mr. Warren is the chairman of the School Board of Picton, and when the Board decided to erect a new high school they commissioned Mr. Warren and Mr. Armitage to take a trip to pick up ideas with a view of incorporating them into their new structure.

They have visited Port Hope, Cobourg and Lindsay, and will go to Napanee before their return to Picton.

The institute at Cobourg is a very handsome building, and is a credit to that town, and from it a number of excellent ideas were learned by the deputation.

Mr. Warren, who is a progressive educationalist, was surprised to learn that in a city of the size of Peterborough, the Collegiate Institute should not be a more modern one than it was found to be, and after having seen it he almost changed his decision in reference to the necessity for a new high school for Picton. If the people of Peterborough were so easily satisfied that they did not want a new Collegiate institute, Picton could worry along for a few years.

It appears, however, that the people of that town are progressive, and they want to provide the best education possible for their children, hence their decision to sanction the erection of a new high school.

Mr. Armitage and Mr. Warren left the city this morning for Napanee.

ACCIDENT NARROWLY AVERTED AT STATION

Young Woman Had Narrow Escape From Serious Injury.

There was considerable confusion at the G. T. R. station this morning when the trains for Port Hope, Belleville, Lindsay and Lakefield were in the yards at nearly the same time. There was a considerable crowd on the station platform, and many were at a loss to know which train to take, as there was no way of distinguishing them, as there should be signs indicating their destination.

This morning, as the train for Lindsay with the All Saints' choir excursion was pulling out, several passengers boarded it at the last moment, as usual.

A young woman was on the first step of the moving train, when a brakeman jumped on, and to all appearances he elbowed her off, nearly causing her to fall under the wheels. But fortunately, no serious results followed, except that the young woman lost her dignity and a pleasant day's outing.

The Ontario Agricultural Department has received a report from New Zealand, stating that experiments have been made there with milking machines, and that they were a great success. Four cows are milked by one machine, operated by one man.

Drowned While Fishing.

Virgil Burdick and Edward Hunt farmers, and a boy named Burdick, aged 16, were drowned in Sylvan Lake while fishing from an overloaded boat. When far from the shore the boat upset and all the occupants were drowned.

Monks were Ejected.

The Viceroy of Canton has ejected the monks from the monastery at Canton, in consequence of their opposition to a proposed school, and has sold the monastery and its lands at auction, realizing $300,000. He is spending the money in establishing a normal school on foreign lines for the children of two provinces.

Killed in Auto.

An automobile containing John P. Sheehan, proprietor of a wholesale liquor store, and G. W. Sayles, an insurance agent, was struck by a passenger train at the West Shore railroad crossing here early to-day. Sayles was instantly killed. Sheehan was unhurt and the automobile was cut in two.

Montreal Strikers.

A large body of striking carpenters made a hostile demonstration against non-union men, employed on a building being erected by non-union workers this afternoon and the battle threatened to assume such serious proportions that the police had to be called out and the crowd vanished. A number of arrests were made.

Department Abolished.

The Construction Department of the Canadian Pacific Railway Central Division, has practically been abolished. J. G. Sullivan, engineer of construction, has resigned to take a position on the construction of the Panama Canal, and with his departure the operating department will assume the completion of the branch lines projected in the West.

Great Wheat Crop.

The wheat crop in the Northwest Territories will be moved this year as early as Manitoba's. The Northwestern harvest is generally about two weeks' later than the province's, and this expectation is an evidence of the very advanced condition of the growing grain. This statement was made yesterday by Mr. J. A. McGregor, of the C. P. R., after a thorough tour of the wheat belt. The number of building permits in Winnipeg in July beat all records, aggregating $700,000.

Youthful Thugs.

Life sentences were imposed by Judge Albert S. Barnes yesterday upon three youthful hold-up men who pleaded guilty to a murder and four highway robberies committed last May. George Plummer, 17 years old, was sent to Joliet penitentiary for life for the murder of Michael White. Thomas Kelly, 20 years old, and Thomas Sherwin, 18 years old, his companions, were given life punishment for the robberies. They were not held responsible with Plummer on the murder charge.

Died on Wedding Day.

From the joy of a marriage feast to the gloom of a funeral assembly was plunged the household of Giovanni Marino in Brooklyn, and his pretty 16-year-old daughter tearfully laid aside her bridal robes to garb herself in black for her husband of two hours had died while their friends were celebrating their union. Stephano Pitre, 20 years old, met his death under circumstances that caused the police to make an investigation, but they found nothing to warrant a belief other than that an illness of two days, aggravated by the excitement of his wedding, had been too much of a strain on a heart already weak.

Snake on Girl's Arm.

When Miss Margaret Deardorf, who lives near Gettysburg, Pa., was engaged in making up her brother's bed this morning a large black snake crawled out from under the pillow and coiled itself around her right arm. The terrified girl attempted to tear the snake away with her left hand, but in an instant the writhing coils of the serpent had encircled her left wrist also and her arms were squeezed together as if in a vice. Screaming for help, she ran from the house into the garden, where her brother was working. Mr. Deardorf could not kill the snake with a club for fear of hurting his sister, but soon succeeded in cutting off the reptile's head with a penknife. The snake made no effort to bite and the girl was uninjured except for the bruises where the coils of the serpent crushed the muscles.

RUSSIANS CAME TO LEARN TERMS

Witte Defines His Position as Russian Peace Envoy--Denies News by Wireless--Russian Statesman Says His Ardent Desire is That the Two Chivalrous Foes, First Acquainted on the Field of Battle, May Enter Upon Long and Lasting Friendship --Tumen in Flood.

New York, Aug. 3.—Sergius Witte the Russian peace plenipotentiary on his arrival here yesterday afternoon, emphatically denied having said that Japan's peace terms were intolerable, as reported by wireless from the Kaiser Wilhelm Der Grosse. He also denied positively that he had predicted that the conference would break up in a week.

When the Kaiser Wilhelm Der Grosse arrived at the pier M. Witte handed to Prof. De Maartens, the following statement, which Prof. De Maartens read aloud:

"For the friendly greetings of the American newspapers upon my first

M. SERGIUS WITTE.

visit to the hospital shores of the United States I offer my heartfelt thanks. This kind attention touches me all the more profoundly because I realize the vastness of the power wielded by the press of the United States and admire the keen intelligence with which it is uniformly directed. I am glad to be able to add that I also appreciate the ethical worth of the aims for the attainment of which that power is so often so successfully employed. One of the noblest of these aims is the establishment of peace and friendship among nations and it is to the praiseworthy efforts of the people of the United States in this direction that my visit to the new world is attributable. For it is in compliance with the American people's desire for peace, of which President Roosevelt is the authorised exponent, that His Majesty the Czar has empowered me to come hither and ascertain the conditions which our gallant adversary deems necessary and adequate as a basis for peace negotiations.

Longs To Be Friends.

"I need hardly point out that it is my ardent desire, that the two chivalrous foes, who first became acquainted on the field of battle, may have found in each others sterling qualities motives powerful enough to cultivate that acquaintanceship until it ripens into lasting friendship. Meanwhile, however, the terms offered must first be ascertained, weighed and judged admissible by Russia before she can proceed to formal negotiations. Hitherto, as you are aware, it was customary in cases like this to settle all such preliminaries before the meeting of the plenipotentiaries, whose task it was to come to a final agreement on the matters under discussion. Now, the very fact that His Majesty the Czar consented to take a course involving departure from this ancient diplomatic usage and to appoint a mission to learn the nature of our brave enemy's terms is an eloquent token of the friendly feeling which he and his subjects continue to cherish towards the people of the United States. I say continue to cherish because at no epoch in our history have our traditional relations with this great republic been other than cordial. And now I would like to say, aye, and to prove to your people who live less in the past than in the future, that it is the fervent wish of the Emperor and the people of Russia further to strengthen the ties of friendship which have hitherto subsisted between the two nations.

Proof of Friendship.

"It is in virtue of that sincere desire that His Majesty the Czar, waiving all other considerations, has unhesitatingly accepted the cordial invitation of your first citizen and genial leader. And if my mission should prove in all other respects barren and the endeavor to find a common basis for peace negotiations should fail for the time being, the signal proof of friendship given by His Majesty the Czar and the Russian nation would still stand out as a memorable event fraught, I trust with far reaching and beneficient results to the two great peoples of the West and East."

Russians Unable to Retreat.

Seoul, Aug. 3.—The heaviest rains in thirty years have occurred and the Tumen River is flooded. The Russians, who have been holding semi-permanent works south of the river, have been cut off from Vladivostock and are unable to retreat.

RUSSIAN REFORMS.

Discussed Freely and Frankly Before Czar of All the Russias.

St. Petersburg, Aug. 3.—There was no session Tuesday of the commission, which has under consideration the national assembly scheme. Emperor Nicholas presided at the second meeting, which was held yesterday afternoon.

At the first meeting on Tuesday the Imperial Palace at Peterhof was the battle ground of the contending forces. In the matter of reform, For five hours, taking advantage of the Emperor's request, there was the freest and frankest discussion of the situation and the needs of Russia.

Almost a score of the members of the conference took an active part in the discussion. Bouligine, Minister of the Interior, and Gen. Trepoff, assistant Minister of the Interior, were among the leading advocates of immediate reform and the convocation of the representatives of the people, while under the banner of the old order, M. Pobiedonostseff, procurator general of the Holy Synod, faithful to the traditions of a lifetime, had arraigned Count Lamsdorff, Minister of Foreign Affairs, and others, who insisted that the present, with the war abroad, and the disorders at home, was no time to summon a popular assembly or institute sweeping changes in the Government of the Empire.

Reformers Lead.

The partisans of reform were in the majority, including, besides the leaders already mentioned, many members of the Council of State.

The feature of the meeting is said to have been a sensational speech delivered by Count Ignatieff, who had been sent by the Emperor to investigate the situation in the south after the mutiny on the battleship Kniaz Potemkine, and who declared plainly that the condition there made immediate and extensive reforms imperative. At the same time, he declared, order must be preserved and the agitators kept within bounds, with a firm hand.

Firmness Needed.

Gen. Trepoff, Minister Bouligine and Count Solesy, also emphasized the necessity of adopting firm measures while instituting reforms. Other progressivists dwelt more upon the necessity of the immediate convocation of the people.

When the speechmaking was finally ended and the attitude of the council manifested, consideration of the Bouligine proposition was taken up and this discussion was continued at yesterday's meeting at Peterhof.

W. H. WILDER. A WRECK.

Horrible Tale From Chicago — Labor Sluggers Torture a Man In Their Prison For Three Weeks.

Chicago, Aug. 3.—Evidence came to light yesterday showing that the professional labor sluggers maintain a victims' hospital, where men are kept prisoners and subjected to the most terrible tortures. The grand jury, which just adjourned, had a strong hint of the existence of such a place where the victims were maimed and sometimes killed, but out of the mutterings and half cracked cries for mercy of William H. Wilder, express messenger and veteran of the Spanish war, there is found clear clues to this modern inquisition and torture chamber.

Knocked down on the street by three men, chloroformed and dragged up three flights of stairs to a darkened room, where he was stripped naked, Wilder was kept for three weeks. Every day and night his tormentors would visit him, prick him with brad awls, burn his feet with matches and his mouth with acid, force open his throat until he was unconscious, until when he was finally flung out upon the street, he was a mental and physical wreck.

His feet and arms bear the terrible marks where the drawn ropes cut into his flesh. His tongue is one solid blister, seared by acid and red hot irons, while over his body are burns inflicted by lighted candles. Yesterday his condition was extremely critical, and he will probably die without being able to throw any further light upon his case, denounced by the authorities as the most outrageous crime the dark ages.

Wilder, who is claim agent for the Johnson Express Co., had incurred the bitter enmity of the unions because of his fearless attitude.

Packed at the Oven's Mouth

We do things right at the Mooney bakery. Crackers are packed piping hot from the ovens. The moisture-proof paper and air-tight tins retain all the freshness and crispness, no matter where or when you buy them.

MOONEY'S PERFECTION CREAM SODA BISCUIT

They come to your table just as inviting and delicious as though you ate them at the ovens in the bakery. At all grocers in 1 and 3 lb. packages.

NEW BATCH OF FISH
STORIES ARE REPORTED
FROM STONY LAKE

An Interesting Series of Late Personal Items from the Region of Kawarthadom—Big Catch of Fish Stolen From the Victoria House—How the Summer Residents of the Lakes Region Escape the Tropical Heat—Many Visitors From Peterborough are Spending Their Vacation at the Lakes.

McCracken's Landing, Aug. 2.

Last night's dance at the Juniper Pavilion was attended by the usual large number, and was a most charming affair indeed. A feature of the evening was the delightful rendering by Mr. Harvey H. Shepherd of a number of songs, which added greatly to the pleasure of the event.

A fishing party, of about twenty guests of the Victoria House went up to Jack's Creek yesterday in the yacht Mayflower. A number of good catches were reported, the party bringing in as a result of the trip four large lunge and about 50 bass.

Four large bass were stolen from the lawn in front of the Victoria House last night at about 9 o'clock. The fish were, the property of Mr. Cummings, of Cleveland, who had just returned from the expedition to Jack's Creek. He had spread his catch out upon the grass as a tangible evidence of his prowess with the bamboo, and after a few minutes absence, returned to find them gone. An amateur Sherlock Holmes, who undertook to secure the recovery of the booty as well as the apprehension of the culprit who committed the deed, by a series of a lightning brain manipulations which were well worthy of the great sleuth, discovered the cache wherein the "swag" was hidden, but was unfortunately a few moments too subsequent to prevent the departure of a man of bucolic appearance, whose tall form was silhouetted against the silver rim of the moon, as he sped over the hilltop into the darkness beyond. The remainder of the story (when it occurs) will be presented by the Examiner in all its gory details in No. 81 of the Sherlock Holmes Series.

That hot weather innovations are not confined to the metropolitan districts has been demonstrated by ingenious plan of two summer sojourners upon the Burleigh shore to escape the heat of the recent sultry spell. Compared with their device, electric fans, highballs and ice cream sodas may simply be classed among the "also-rans." During the recent period when the mercury was haunting the ninety mark, these two gentlemen made their downy couches in a secluded spot beneath the rafters of the ice-house, to which ice-clated position above the sawdust they returned nightly to seek repose after the strenuosities of the day in the hum-drum world beneath.

Mr. J. Cayle Brown came up to Sandy Point, Clear Lake, yesterday.

Rev. Mr. Quarrington and party, of Toronto, are at Mr. Gordon's Island, "Oaklands," where they will spend two weeks.

Mr. McCarthy, of Toronto, came up to his island, near McCracken's Landing, yesterday.

A large party of Toronto gentlemen is occupying Mr. Tate's cottage.

Mr. White, of Toronto, will occupy Mr. Lillierap's cottage for the month of August.

Mr. Fred. Clarke has moved up to Mr. Jackson's new cottage at Eel's Creek.

Mr. R. Shortly returned home from the lakes yesterday.

Mr. Waters, of "Water Lee Brae," went down to Peterborough yesterday.

Mr. Colville, Toronto, has returned again to his cottage on Beverly Island, which has just been vacated by a number of Toronto ladies.

Mr. Theodore Crawford, Lakefield, came up to his cottage yesterday afternoon.

Mr. J. J. McBain, of "Bona Vista," has returned to the city.

Mr. Thos. Barrie's new cottage, which is now almost completed, presents a very attractive appearance, and adds greatly to the beauty of that portion of the lake.

Mr. R. Winch came up to the lakes yesterday.

Mr. Will Martin is camping at McCracken's landing during his two weeks' vacation.

Mr. Harry Thompson has returned home from the lakes.

Messrs. Armstrong and Williams and party, are camping on Juniper Island.

Miss Evelyn Dowitt, of Auburn, N. Y., has returned home from a two weeks' visit at "Springside."

A party of five young ladies are occupying Mr. Burnham's cottage.

Mr. O. LaPointe has arrived at the lake with his handsome yacht "Armathyne."

Dr. Pard, Pittsburgh, came up to the cottage yesterday.

Mr. Jno. Holmes is occupying his cottage near Burleigh Falls.

Mr. and Mrs. Bain came up to Mr. Dumble's cottage, "Ballyragit," yesterday.

A party consisting of Messrs. Chas. and Allan Donnelly and Miss Donnelly, of Pittsburgh, and Mr. Robt. Beah, Chicago, have arrived on their handsome yacht "Strathmore," at the Victoria House, where they will remain for a few days.

Mr. A. V. Wood is spending a week's outing at the Victoria House.

The following party is at "Idleside": Miss Oakley, Mr. and Mrs. Davis, Toronto; Misses O. and E. Goodfellow, Mrs. R. McWhinnie, Mr. W. G. Elliot, Mr. Chas. Elliot and Miss M. Stewart, of Peterborough.

Miss Dorothy Hastings and Mr. Harvey H. Shepherd are guests at "Kilkenny."

Mr. and Mrs. R. Harcourt, of Guelph, are at Grassy Island.

Miss Jessie A. Wilson, Gananeque, and Miss Ethel Best, Peterborough, are guests at "Ojar."

Mr. and Mrs. R. S. Hedgeth and Mr. Robt. W. Begge, of Jersey City, are at "Kawartha Lodge."

Mr. G. B. Vaullericom, of the Review, took a trip up the lakes yesterday.

Mr. F. D. Roxburgh, Norwood, is occupying his cottage, "Rocklands."

Chamberlain's
COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of summer colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

PRICE, 25 CENTS.

Pains in the Chest.

Mr. John Clark, Port Hope, Ont., states: "Last winter I was so bad with a cold that I could not speak above a whisper, and had great pains in the chest. A friend advised me to try Dr. Chase's Syrup of Linseed and Turpentine, and one bottle cured my cold which I believe would have proven very serious if I had not used this medicine."

PATENT REPORT.

Below will be found a list of Canadian patents recently secured through the agency of Messrs. Marion & Marion, Patent Attorneys, Montreal, Canada, and Washington, D. C.

Information relating to any of these will be supplied free of charge by applying to the above-named firm.

George Hutchinson, Wellington, N. Z., milking machinery.

Messrs. Pillington & Nattrass, Wellington, N. Z., churn.

Gunnar E. Cassel, Stockholm, Sweden, electrolytical production of ammonia, etc.

Messrs. Wingfield & Baiding, Short, Vict., Australia, cases and devices for holding and disintegrating tobacco and other substances.

Friedrich Aug. von Oldenburg, Germany, arrangement of screw propeller blades, etc.

Samuel & Ross Bench, Middlesex, Eng., elastic tyres or rims for wheels.

Dr. Josef Fassbinberg, Germany, process of treating ores.

—Mr. Bruce Gillespie, the former popular drygoods clerk of Peterborough, has accepted an engagement with Messrs. Robert Fair & Co. He will be associated with Mr. Louis Johnson in the dress goods and silks department.

FARM HELP IS SERIOUS PROBLEM

How One Victoria County Man Solved it

Would Pay Farmers to Keep Stock and Have Work for Man Year Around.

A special correspondent to the Farmers' Sun, writing on the farm help problem, says:—

In Durham and Victoria, as in other sections, it is very hard to secure help on the farms. Herd wheat, barley, alsike clover, and in many cases hay, are all demanding attention, and in an effort to secure help some farmers are offering $50.00 per month with board and cannot secure it at this price.

Mr. Campbell of Woodhill seems to have solved the labour problem, and his method might well be adopted by many farmers. Methods of farming are practiced which demand considerable help throughout the season. Help is secured in the spring for the season, and then when harvest and haying come on there is no need for so many extra men. It is much easier to secure help on a farm, or anything else, if employment can be offered for a considerable length of time, and if farmers would invest more largely in stock and employ methods which would demand help for the whole season they would find the labour problem simplified to a great extent.

DAIRY PRODUCTS IN GOOD DEMAND

Season of 1905 so far One of Best in the History

Present Prices are 2 or 3c Higher Than Last Year.

The Toronto News of last night, in reporting the meeting of the Peterborough cheese board, referred to the dairy situation generally in Canada, and said:

The dairy season of 1905 so far has been one of the most prosperous on record for the Canadian producer. The export demand has been unusually active, and shipments from Montreal since the opening of navigation total 875,836 boxes, or 131,294 boxes more than a year ago, a record only once before exceeded. This was in the banner year 1903, when over one million boxes were exported up to August 1st. Prices are now 2 to 3 cents higher than a year ago and the aggregate volume of the exports for the year should nearly total that of 1903, when the exports for the season represented a return to the Canadian dairymen of $21,562,288. Last year prices were as low as 6 1-2 cents on the country boards, but the bottom figure this year has been 8 13-16 cents, a higher figure than was reached during the entire season of 1903.

High Prices Due to Export Trade.

Light stocks in England and an improved demand from there has been largely responsible for the big rise in values, and the same applies to butter. Canadian creamery has found a better market abroad this year than ever before, exports reflecting a substantial increase over any preceding year, while the value of the product is about 3 to 4 cents above the level of a year ago, and about the same difference exists between the prices of 1903 and those now prevailing.

It is this tremendous growth in the exports to England and the increasing favour of the Canadian product there that is responsible for the high prices which the Canadian housewife is compelled to pay for her cheese and butter supplies this year. The shipping demand has created a scarcity on home supplies, and no relief is looked for during the remainder of the year.

Hubby Wouldn't Buy Hat.

Henry Bertram, a farmer, is in a critical condition at his home, near Neligh, from wounds inflicted by his wife with a pitchfork. Mrs. Bertram requested her husband to buy her a new hat. He refused. Hot words were followed by an exchange of blows. Then the wife looked for more effective weapon than her bare fists. Her young son, at her request, fetched her a pitchfork. In her rage she plied it strenuously that Bertram was soon lying upon the ground, unconscious and with blood streaming from countless wounds about his head and body. Taking pity, Mrs. Bertram helped to carry him into the house and sent her son for a surgeon.

A Fatal Storm.

Word reached Beaumont, Tex., last night that one white boy and two negro boys had been killed outright and that 20 other persons were more or less seriously injured during a heavy wind storm which struck Beaumont, La., Monday afternoon. The town is situated in a forest of pine timber and the wind uprooted several trees, which fell on houses, killing or injuring the occupants. Telegraph and telephone communication with the scene of the storm is interrupted.

By All Grocers.

WHEN buying a range the oven construction should be your first consideration. Its baking and roasting qualities are of the utmost importance to you. A poor oven means ruined food, waste of coal, late meals and many heartaches. The Imperial Oxford Range is the result of years of experience and scientific study. It has taken years to evolve it, and years of use have proven it without a peer. There are a number of exclusive features in the construction of the

Imperial Oxford Range

that give it advantages found in no other. Of these exclusive features the most important is the heat-diffusing oven flue. This flue draws the cold air in from outside the range, superheats it and distributes it through perforations in the top of the oven. This insures fresh, heated air evenly distributed throughout the oven, the moist vapors of the oven being drawn off by openings provided for the purpose.

The Imperial Oxford Range, by this construction, gives a dry, even heat, which roasts or bakes an article thoroughly and evenly, the heat in all parts of the oven is equal, the fire side being no hotter than the other side.

If your dealer doesn't handle the Imperial Oxford Range, write to us and we will send you our catalogue and tell you where you can see the range.

SINFUL HABITS IN YOUTH
MAKE NERVOUS, WEAK, DISEASED MEN.

THE RESULT of ignorance and folly in youth, overexertion of mind and body followed by lost and exhausted vitality are certainly wrecking the lives and future happiness of thousands of promising young men. Some take fatal wittings at an early age, at the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no comfort there. Too violating confessed in all sections of the country, the workshop, the pulpit, the trades and the professions are guaranteed cures. New Method Treatment or No Pay. You run no risk. 25 years in Detroit. Book sealed.
CURED WHEN ALL ELSE FAILED. No cases need without cure undertaken.
"I am 33 years of age and married. When young I led a gay life. Early indiscretions and later excesses made trouble for me. I became weak and nervous. My kidneys became affected and I feared Bright's Disease. Married life was unsatisfactory and my home unhappy. I tried everything—all failed till I took treatment from Drs. Kennedy & Kergan. Their New Method built me up mentally, physically and sexually. I feel and act like a man in every respect. They treated me six years ago. They are honest, skilful and responsible financially, so why patronize Quacks and Fakirs when you can be cured by reliable doctors."—W. A. Bethel.

THURSDAY, AUGUST 3, 1905.

LOOKING AHEAD.

Late despatches confirm previous reports as to the prosperity and industrial importance of the revived "Soo" industries. The latest reports tell of the establishment of coke ovens to supply the 150,000 tons of coke used in the operations during the year. There is a steady production of steel rails at the rate of 500 tons per day, the works having turned out 100,000 tons, representing $2,800,000, nearly three million dollars, which would have gone out of the country if the late Ross Government had not come to the assistance of the dormant concerns, and that without the use of a dollar—only the use of the credit of the Province. All this money retained in the country, not to speak of the industrial activity, the giving of employment, the payment of wages and the stimulation of commerce in the furnishing of supplies is the result of looking ahead. The Conservative Opposition in the House denounced the proposition in the most violent terms of condemnation, but events have completely justified the enterprising foresight and patriotism of the late Ross Government in coming to the rescue of, and putting into operative condition, the greatest cluster of industries, employed in the development of national resources, in the Province.

The building of the Provincial railway, the Temiskaming and Northern was also another happy inspiration, and the immediate effects of its construction, great as they are, are limited in comparison with the possibilities foreshadowed. Its extension to a junction with the Grand Trunk Pacific will open up to settlement and industrial development a great area of timber and mineral resources, provide for increased population, and in the process of development of now dormant, and consequently now worthless resources, set in motion a train of industrial and commercial activities that will contribute very largely to the wealth and importance of Ontario. The proposed and probable extension of the line to Hudson Bay give this province a salt water harbour and further contributes to the realisation of the tremendous national assets with which Ontario is endowed. While the late Government is to be credited with the inception of this great railway enterprise, the present Government of the province is deserving, to a large degree, of credit for the energy with which it is carrying out the scheme, whose importance must appeal forcibly to the most unthinking. Great national enterprises furnish an occasion for the relegation of party politics to momentary obscurity and for the union of all classes in the effort to maintain this province in the foremost position, in almost every respect, which she holds in the provincial sisterhood of the Dominion. And to accomplish this will be no light matter. The newly created provinces in the North-west, with their tremendous wheat growing potentialities will be formidable rivals for a leading place and though it will be long before they may hope to rival Ontario in industrial productiveness, they seem admirably equipped to become serious rivals in the matter of population, political influence and wealth-production. Then the great natural resources of Quebec promise to be made more accessible by the construction of the Grand Trunk Pacific, which will give an impetus to the growth of that province, while the fecundity of the people operating with the prevalence of race suicide in Ontario, will have a serious effect upon the relative growth and ultimate ratio of populations.

Ten hotels have been closed in Ottawa. The ten proprietors were accused of offensive partizanship—this consisting in the proprietors being Liberals and voting Liberal. Another ten-stroke evidence of the success of Hon. Mr. Whitney in wielding a non-partisan axe in license administration. Mr. Whitney's promise of removing the license law from political control is largely redeemed by removing Liberal license commissioners and inspectors from his control and supplying their places with Conservative partizans.

ALDERMEN WILL HAVE TO BE MORE PROMPT.

There will have to be a radical change in the method of conducting the committee meetings of the City Council, at least there will have to be, if some of the members are to attend the meetings.

Recently the Council and committee meetings, though announced to start at eight o'clock, never commence until half past that hour, and it is usually nearer nine before they get to business.

Last night a meeting of the Fire, Water and Light Committee was called. Ald. Johnston was there at 7.50, and, after waiting a few minutes, another alderman came in. Eight o'clock came and no one else showed up until after that hour, when another member of the committee came. Three members and the city clerk sat discussing the weather until 8.30, when Ald. Tovey, the fourth member of the committee, and the number required to make a quorum, arrived.

In answer to a question as to why he was late, Ald. Tovey said that if the committee meeting was called for eight o'clock, and started at that hour, he would be there, but he did not propose to come to the council chamber, and sit around for half an hour waiting for the meeting to begin. The lax methods of the council in wasting time talking on non-essentials and not starting the meetings on time, was commented on severely by Ald. Tovey, who said that if he were chairman of a committee and the members were not on hand at the hour named for calling a meeting, he would go home and not hold a meeting at all.

400 PERSONS TOOK TEA AT JACKSON PARK

Jackson Park is proving very popular with the people of this city, and yesterday and last night there were fully 4,000 people there. The greater part of these, of course, went up at night to see the moving pictures, and to hear the band but it is stated on good authority that 400 persons took tea in the park last night. These were made up of small parties who had gone out there by trolley to spend a few hours of the afternoon, and take their tea. It is becoming popular for the young lady employees of the large city stores to take their tea at this park, and yesterday two of these pleasing little tea parties took place. At noon the ladies of Messrs. Robt. Fair & Co's staff went out to the park for lunch, and in the evening the lady members of A. W. Cressman's staff, went to the park for tea and spent the rest of the evening there.

Last night the Street Railway carried more passengers on the Jackson Park line than has ever been carried before in one day, the moving pictures proving a great drawing card to the people.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Dear Editor, — The other day I took a Smith street car near Park street with the intention of going to Dublin street. On my arrival at Charlotte street to my surprise the conductor reversed his trolley and went back on his tracks. He then stated that after six o'clock the Smith street car did not run any further than George street. How are the public to know this? There is no placard to show this. More than this, at Charlotte street there was another car which just moved out of the way, which I could have got if the conductor had told me. Why this chumpishness? I don't want to walk when I pay for a ride.

CORNS.

Editor Examiner, — Why in the name of common sense and good business don't the Grand Trunk authorities label the trains at the station? With three or four trains leaving at practically the same time mistakes in taking the wrong train occur almost daily. They used to have placards to hang on trains. Are they called in? If nothing better can be got the backs of time cards could be chalked with the destination of trains, so that travellers may not be led astray. Next time I register a kick it will be at the head office.

Yours, etc.,
TRAVELLER.

Editor Post Card Column, — Dear Sir,—I called with a friend at the bar of a hotel last night to get a drink of—well, buttermilk—and I noticed a placard conspicuously displayed bearing the prohibition, 'No Swearing.' In view of that I'll buy my—buttermilk — in this shop hereafter, for I can be sure that the place will be orderly and decent. I am not conspicuously pious, but yet I am often shocked and disgusted with the blood-curdling swearing to be too often heard on our streets. I think if I were a policeman, I could find plenty of occasion to punish blackguards who use profane language in public places.

Yours truly,
DAVID.

Editor of Post Card Column:

Dear Mr. Editor,—It seems that the piscatorial proclivities of the Police Magistrate must be very strong, when he remands police court business to go to Ballyraget. It appears that he prefers soaking his bait in the crystal waters of Stony Lake to soaking culprits in the police court.

ONLOOKER.

DANDRUFF CAUSED BY A GERM

A New Discovery That Kills the Germ and Prevents Baldness.

Pretty nearly all the hair preparations for dandruff have some merit in allaying itching of the scalp, and in being a fairly good dressing for the hair, but there is only one that recognises what causes dandruff, falling hair, and baldness, and that destroys the cause, a little germ — and that is Newbro's Herpicide. This germ eats its way into the scalp; it digs up the scalp into little white scales. Unless it is destroyed there is no permanent stopping of falling hair and cure of dandruff and baldness. Newbro's Herpicide kills the germ. "Destroy the cause you remove the effect." Sold by leading druggists. Send ten cents in stamps for a sample to the Herpicide Co., Detroit, Mich. Ormond and Walsh, special agents.

LIQUOR CASE WAS LAID OVER

Until Authorities on the Subject are Looked Up

Charge of Theft Dismissed With a Warning—Police Court News.

There was a good attendance at this morning's police court as there were two cases of more than ordinary interest on the boards. The first was the enlarged case against a boy charged with stealing a sum of money amounting to $16 from Geo. Lang, grocer. The story is as follows:—On Sunday, April 9th, Mrs. Lang two sons and her daughter left the house and put the key in a hiding place at the back and went for a walk. When they came back nothing unusual was noticed about the house, but Monday morning Stewart Lang missed his watch and asked if the money was all right. Mrs. Lang had left her purse in a drawer and upon investigation found the purse still there, but the cash amounting to $16 or $18 was missing. Suspicion fell on two boys who were seen standing near the house when the family went out the afternoon before.

Everett Sullivan, a small boy, was called into the witness-box, and when asked what he knew about the matter said "I don't knoww anything about it".

When questioned as to her neighbours Mrs. Lang said one of the boys suspected lived a few doors away, and a French family lived next door. The oldest child in the French family was a girl of 12, but there was a boy of about 7 years. "And are there no others between the boy and girl?" asked Mr. O'Connel. "No." "Well, that's something more unusual, especially in a French family."

R. E. Wood, who appeared for the Crown, said there was no case, and the prisoner was discharged with a warning to keep away from everything that was likely to cause suspicion to fall on him.

The next case was a charge against the proprietor of a hotel for selling liquor to a minor on Saturday night. The hotel-keeper had already been fined for selling liquor after hours on the same night, and Mr. Hatton, who appeared for the defendant, argued that according to the spirit of the act a man could not be fined again for offences committed at the same time on the same day. The Magistrate was inclined to favour Mr. Hatton's view, but laid the case over until next week intending to look up authorities in the meantime.

There were other charges against the same hotel-keeper to come up tomorrow and Monday morning, but the Magistrate has a voyage up the lakes in view and did not want his holiday spoiled. These charges were remanded until next week also.

"Let Go" Prices

Every wide-awake merchant knows that there's a time to "let go" prices, and LeBrun & Co. believe August is the right time. The price tickets show how we're doing it.

INTERESTING SOCIAL
EVENT TOOK PLACE AT
MILLBROOK YESTERDAY

Fashionable Wedding---The Bride, Miss Henrietta Reid, one of Millbrook's Charming Young Ladies---Groom Was Dr. Samuel Wesley Clarke---Ceremony Performed by Rev. Dr. Chown, of Toronto---Many Peterborough Friends of the Bride Were Present at the Wedding---Other Interesting Happenings in Millbrook.

Special Staff Correspondence.

Millbrook, Aug. 3.—Millbrook was the scene of a fashionable wedding yesterday afternoon the contracting parties being well and popularly known to a wide circle of friends in and around the village. The bride was Miss Henrietta Reid, niece of the late Samuel Jameson, and one of Millbrook's most charming young ladies, and the groom was Dr. Samuel Wesley Clarke a prominent citizen of the same place.

The happy event took place at the beautiful residence of the bride, King street, which had been very prettily decorated for the occasion. The ceremony was performed by Rev. Dr. Chown, of Toronto, cousin of the groom, in the presence of a large number of invited guests, many of whom were from out of town points. At 2.30 o'clock the groom, supported by Mr. E. W. Lamprey, local manager of the Bank of Toronto, entered the drawing room and took up his position under the large bay window which was very profusely banked with palms, sweet peas and asparagus ferns. Just previous to the entry of the groom, Miss Ethel Richardson sang "O Promise Me," by De Koven, and as Lohengrin's wedding march was played by Miss Mabel Clarry, the bride entered, being given away by her brother, Mr. Charles Reid, Newtonville. She was charmingly attired in a handsome gown of white silk figured net over white liberty silk and prettily trimmed with white satin baby ribbon and lace. She wore the conventional bridal veil and carried a shower bouquet of white roses and maiden hair fern. There were three bridesmaids, Miss Bertha Reid, sister of the bride and Miss Farrow, of Goderich and Miss Gertrude Argue, cousins of the bride. They were all similarly attired in pretty gowns of pale blue silk trimmed with lace and ribbon. They carried large bouquets of pink roses.

The ushers were Messrs. Watson Clarke, of town, and Mr. Ernest Buchanan, Toronto.

At the conclusion of the ceremony, Miss Clarry played Mendelssohn's wedding march, and as the register was being signed Miss Richardson sang "O Perfect Love."

The wedding supper which followed and which was served in the dining room, was supplied by Mr. H. Long, of Peterborough.

The newly married couple received the hearty congratulations of their hosts of friends after which they left on the afternoon G.T.R. train for Toronto. They will then leave by boat for Montreal, Quebec and other eastern points of interest. The bride's going away gown was of white chiffon broad cloth, trimmed with white silk braid, with Eaton coat opening over a blouse of allover lace over white silk, and trimmed with touches of pale blue. She wore a dainty little hat of white straw.

The presents to the bride were handsome, costly and numerous, the groom's present to the bride being a beautiful gold watch and chain.

Dr. and Mrs. Clarke's many friends in Millbrook and elsewhere will join in wishing them many years of happiness.

Dr. and Mrs. H. A. Hassard are on a visit to Winnipeg.

Rev. Mr. and Mrs. Clare and family left yesterday for Bobcaygeon where they will spend the next few weeks.

Mrs. A. St. A. Smith and family who have been residing in the village leave this week for Keene to join Mr. Smith, who is now living in that village, having been some time ago transferred to the management of the Keene agency of the Bank of Toronto.

The Walsh-Steele camping party left this week for their annual outing at Highland Park, Otonabee River.

Mr. Lewis Wedlock has joined the the local staff of the Bank of Toronto.

Mr. Alfred Walsh, of the Bank of Toronto, has returned from a holiday trip to Montreal.

Mr. and Mrs. A. E. Duncan and family of Cleveland, are visiting at the residence of Mr. George A. Duncan.

Rev. Mr. and Mrs. Phelps, of Lindsay are guests at the residence of Mr. L. S. Clarry, "Farnham Hall."

Mrs. Arthur Mulligan, is visiting her mother Mrs. Samuel Eakins, Main street.

Miss Isabelle Howel, Montreal is visiting her parents, Mr. and Mrs. Richard Howell.

Miss Dobell, of Sunderland, is the guest of Mrs. Robert Ruddy.

Miss Might, of Peterborough, is the guest of her aunt, Miss R. Hetherington.

Miss Laura Farrell, of Goderich, is the guest of Miss Bertha Reid.

BUSY CORNERS IN A BUSY CITY

The Evening Assault Upon the Street Cars.

At certain hours in the evening the corners of Charlotte and George streets and the junction of Charlotte and Park streets presents quite a metropolitan appearance of traffic activity. Especially at the latter corner is this noticeable. At one time last night there were six or seven cars, including the torch-light procession of trailers, all see-sawing, crossing and recrossing in a brilliant kaleidoscopic mix-up like a shower of November meteors. And every car was packed with humanity. The attractions of Jackson Park are accountable for this rush, the moving pictures being the moving spirit.

THE RIVERDALERS AT BURLEIGH FALLS

Annual Excursion of the Sunday School To-day.

To-day the annual excursion of the Riverdale Sunday school is being held. The steamer Water Lily with about 125 persons on board, went up over the Lift Lock, after having taken on board her load of passengers down the river. The objective point of the excursion was Burleigh Falls, where dinner would be taken, and after a few hours spent there the return journey would be commenced.

The splendid weather and the genial crowd insured a delightful day's outing.

PROMOTION FOR A JOURNALIST

Mr. S. S. Moore Accepts Position in Buffalo.

Has Been City Editor of Local Paper for Five Years.

The many friends in Peterborough of Mr. S. S. Moore, who for the last five years has filled with credit to himself and with profit to his employers, the position of city editor of the Review, will learn with regret that he has decided to leave this city.

Mr. Moore's ability has been recognised in Buffalo, and he has been offered a responsible position on the Buffalo Courier, the most influential paper in that city, and he expects to leave Peterborough in about a week to commence his duties on that paper.

He is one of the most popular young men in the city, and has been prominent in social circles. He is a charter member of the local lodge of Canadian Elks, and has filled the office of secretary. He is also a prominent member of Otonabee Lodge, I. O. O. F. In the B.A.C. he was also one of the most influential members.

In his newer and larger sphere of newspaper work his progress will be watched with interest. He is a competent journalist and that he will "make good" in his new responsibilities no one doubts.

PROGRAMME FOR THE RECEPTION

Of the Old Boys on Monday Has Been Arranged.

A Band and Procession—Ald. Leary Has His Plans Laid.

The plans for the reception and entertainment of the old boys who will visit the city on Monday have been practically completed. Ald. Leary, who was appointed to the chairmanship of the reception committee, has written to Mr. F. G. Roberts, who was in this city recently arranging for the visit of the old boys, telling him of the plans proposed for their reception, and he received a letter from him this morning stating that the suggestions made are quite satisfactory to the Toronto people.

Ald. Leary has arranged for the 57th band to be at the G.T.R. station on the arrival of the train, which will leave Toronto at 7.15 a.m., and will escort the visitors to the Central Park, where the Mayor will give an address of welcome. This will conclude the reception ceremonies as far as the civic authorities are concerned. After this the visitors will go to spend the day with their friends.

The Band will eat a bole of $30 in the $50 appropriation, and the balance, $20, will be spent in decorating the streets, the contract for this work having been let to Mr. A. Kingscote. He will place streamers across the streets, and in other ways make the city look as good as possible to welcome the visitors. The original intention of the old boys was to have brought a band with them from the city, but this was found to be too expensive.

It is probable that the greater number of the old boys will come on Saturday. The Oddfellows of Toronto are running their annual excursion from Toronto to Peterborough, and all who can get away before Sunday will come on Saturday and spend the three days in the city.

The prospects are that there will be a good crowd in the city on Monday, and the people of the town should do their best to decorate their residences and places of business so that those coming here to spend a few days will see that they are welcome.

ALL SAINTS' CHOIR EXCURSION TO-DAY

To Sturgeon Point for the Regatta—Port Hope Excursion.

This morning about one hundred took in the All Saints' choir excursion to Sturgeon Point. The party left by the regular G. T. R. train for Lindsay, where they boarded a boat for the Point.

The regatta at Sturgeon Point is in progress to-day and the excursionists are sure of a good time. Owing to the number of people out of town the number who took in the trip was necessarily small, but this will not interfere with those who went having a good time.

A large excursion of the Standard Ideal Sanitary Company's employees, passed through this morning by special train from Port Hope. The excursion went on to Lakefield, where they will board one of the steamers for a trip around the Lakes.

Second Bowler Personally Conducted Excursion.

District Passenger Agent McDonald, of the Grand Trunk Railway, has received from Mr. Bowler, at San Francisco, a letter in which he states that he has the happiest party he has ever travelled with, and that they are having a delightful trip, and that the dining car service, which is being operated by the Grand Trunk, has given great satisfaction.

The second party is now being formed, and will leave Toronto, August 29th. Rate of $150.00 covers round trip ticket, berth in sleeper, meals in dining car, and lodging at hotels in Los Angeles, San Francisco, and Portland, Oregon, a number of side trips, etc. Send for itinerary, which may be obtained from principal Grand Trunk agents, or by addressing E. C. Bowler, Room 396, Union Station, Toronto. 10d27

No furnace drudgery in the Bison

The most exasperating mystery a man can have is a cranky furnace. The dirt and soot; the ash sifting and draft worry of many heaters, make life a burden. With the new "Bison" hot water heater, there are no worries. Its drafts are so simple a child can understand them, the shaking down apparatus is operated with the slightest effort, shaking down and sifting in one operation. It is a clean, simple, economical heater, perfectly safe, as it burns its own gas, no matter how the drafts are set. Write to H. R. Ives Co., Limited, Montreal, for an interesting booklet which fully describes it.

ALBERT COLLEGE

BELLEVILLE, ONT.

320 Students enrolled last year—165 young ladies, and 155 young men.

PRESBYSERIANS WERE DEFEATED

Last Night in Final Game by the Score of 10—0

Charlotte Street Will Likely be Again Guild League League Champions.

Charlotte Street practically cinched the Guild League championship last night when they defeated St. Andrew's in the first of the final games for that honour. The play was not of the championship variety, and the Presbyterians were decidedly off colour, especially in the second when 13 men faced Swanston, and it seemed as if every ball he sent up was batted out.

The game was late in starting and this, with the long second innings, made it possible to play only three innings. Swanston started in to pitch for St. Andrew's and was fairly effective in the first, but in the second he was faced to the four corners of the lot, several of the hits being for extra bases. Patterson was put in the box in the third and shut the Methodists out in the one, two, three order.

For the champions Roddy pitched a fair game and received good support and no runs were chalked up against him, while ten runs were credited to Charlotte Street.

St. Andrew's went first to bat, Thornton let McDonald's fly get past him, but Foley, Lang, out to short, Crowe got tangled up over Donaldson's fly to the fence, and the runner cut to second but came back safe, but was called out by the umpire, thus retiring the side.

Lang walked four wide ones and stole second. McWilliams hit to Dobson and was safe, Lang ran into Dobson, but in the mix-up he held the ball and touched the runner. Crowe got free transportation, Roddy grounded out to first. Ryan hit to right and McWilliams and Crowe crossed the pan on errors. Thornton retired the side by flying out to left.

St. Andrew's went to bat intent on evening up, but Miller and Swanston fanned. Thornton was safe on his grounder to first and stole second and third. It was up to Dobson to bat in a run, but he failed to connect.

The Methodists indulged in a batting feast in their half of the second and before the side was retired no less than 13 men had been at the plate. Heasley started off with a single and Squires following with a double to centre, scoring Heasley. Thornton was safe on Dobson's error. There was a blocked ball behind the plate, and before Swanston could get back into the box two more runs had been added. Lang doubled to left, Foley missed McWilliams' fly and Lang scored. Crowe was next on hand with another two-sacker sending in McWilliams. Roddy flew out to second, but Ryan and Williams got presents and the burn came round again to Heasley, who hit to short and was safe on an error, Ryan scoring. Squires had another double this time, sending the ball into a lot across the street. Many thought it was a foul, but as the umpire didn't take the trouble to go over and see a fair ball was allowed, and Williams and Heasley walked in. Thornton again put an end to the proceedings by fouling out to first.

It was useless for the Presbyterians to attempt to even up in the third. Dutcher hit through the pitcher's box to short, but was nailed out stealing second, when he had apparently stole safely under Squires, Patterson fanned, and McDonald hit safely to short, but was out trying to purloin second.

The last of the third was played by moonlight. Patterson was sent in to relieve and McDonald and Dunford exchanged positions. The Methodists could do nothing with the new twirler, Lang flew out to second, and McWilliams and Crowe could not solve the puzzle.

After last night's performance it looks like a sure thing that the Methodists will hold the coveted Examiner trophy for another season.

The following is the line-up of the teams:—

St. Andrew's (0)—McDonald, 1 b.; Foley, 2 b.; Dunsford, c. and 1 b.; Miller, c. f.; Swanston, p. and r. f.; Thornton, s. s.; Dobson, s. s.; Dutcher, l. f.; Patterson, c. f. and p.

Charlotte Street (10)— Lang, c.; McWilliams, s. s.; Crowe, 1. f.; Roddy, p.; Ryan, c. f.; Heasley, 1 b.; Squires, 3 b.; Thornton, c. f.

Stomach and Liver Troubles.

Mr. Alex. M. Finn, Inkerman, N.B., writes: "I have used Dr. Chase's Kidney-Liver Pills for derangements of the kidneys and liver and stomach troubles, and can certify that they did me a good deal of good. I can heartily recommend them to anyone suffering as I did."

HOW CANADIAN SHOTS SECURED THE FAMOUS KOLAPORE CUP TROPHY

London Sportsman to Hand, Sent by Col. Serg. Moore, Tells How by Splendid Marksmanship at Short Ranges, Canadians Secured Big Lead—Transvaalers Could Not Pull It Down—A Close and Exciting Enter-Empire Contest in Which Canadians Prove Themselves The Better Shots.

How the Canadians won the famous Kolapore cup at the recent Bisley meet is the subject of an interesting article in the last issue of the London Sportsman, to hand, and sent to this paper by Col. Serg. Moore, of the 57th Regiment Peterborough Rangers, the local representative on the Bisley team. The Sportsman, which is a recognized authority on such matters, also gives a brief history of the growth of the Empire's contests for this cup, as follows:—

After an interval of eight years, Canada has regained possession of the international trophy, popularly known as the Kolapore cup. Times have greatly changed since His Highness the late Rajah of Kolapore presented this curiously wrought trophy to the National Rifle Association. The competition for its possession has become keener as the Empire has expanded, or, perhaps, as the bonds of kinship between the Mother Country and the colonies have drawn closer together. From 1871 to 1896 Canada was the only serious opponent that the Mother Country had to meet, and during those years the Canadians only carried off the cup on six occasions, three times with the Snider rifle and three times with the Martini-Henry. In 1897, with the introduction of the .303 magazine rifle, a change came over the scene, and both of the old contestants were beaten by the colony of Victoria. In the following year the little island of Guernsey put in a successful claim, but for three subsequent years the cup remained in possession of the Mother Country. Then a new and very powerful claimant came forward—the great colony of Australia. For two years in succession the Rajah's cup was carried to the Antipodes, and last year by the sons of the Empire from far-away New Zealand. This year our youngest colony—the Transvaal—sent over a team, which, from what has already been seen at Bisley, was justly confident of contesting the issue. Canada, New Zealand, Guernsey, and the Mother Country were the other competitors for possession of the trophy.

The weather was simply magnificent, but probably from a marksman's point of view the light was rather too strong. A refreshing breeze blew across the ranges from left to right, and must have put the skill of the marksmen to rather a severe test. A large number of spectators watched the shooting from the rear of the firing point, and were enabled to follow its progress with an intelligent interest through the admirable arrangement by which every shot is registered on a large blackboard on an easel at the back of each team.

At 200 yards Canada had a lead of only five points over the Transvaal, and New Zealand, 360 as against 355, the Mother Country coming forth with 351. It is somewhat curious that at this range, where possibles are generally so prolific, not a single competitor made the full score, and only four made 34. Going back to 500 yards Canada put on 351 as against 355 by the Transvaal, 353 by New Zealand, and 353 by the Mother Country, so that at this range the Canadians only led by a single point over the Transvaal. The only possibles at 500 yards were made by Capt. Elliott (Canada) and Lieut. E. Collier (London Rifle Brigade). The position when the teams went back to the 600 yards firing point was extremely exciting. Shooting had however, not been long in progress before it was seen that the Transvaal was receding from the splendid position it had achieved. The Mother Country, on the other hand, made a magnificent rally, and had the satisfaction of reaching the highest score at the range. C.M.S. Fraser (Banff Artillery) made a highest possible, a distinction also gained by Sergt. J. Smith (Guernsey), the only two full scores at 600 yards. The early advantage gained by the Canadians won them the match.

BOWLING-ON-THE-GREEN.

* * * *

LACROSSE

The management of the Canadian Lacrosse Association clubs are beginning to feel the pinch of the fat salaries they are paying. The Toronto club is the first to start on the policy of retrenchment, and already three of their players have been notified that their stipends will be reduced to about one-half the contract figures. The ostensible reason given for this move is that the men notified have not practised properly and did not produce the goods on the field. Still when the salary list amounts to over $400 a week the income should be materially greater than the gates so far this season suggest.

LACROSSE.

Peterborough and Bowmanville Lacrosse teams played here Wednesday, the visitors being victorious in a score of 6-5. Mr. Thos. Port Hope, referred the game. This gives Peterborough the District Championship, and with their best team playing junior lacrosse they should make a big bid for the Ontario junior championship.—Statesman.

* * * *

In the semi-final C.L.A. series the Young Toronto's will play in Havelock on Monday, August 7th, and Havelock play in Toronto on Saturday, August 12th.

* * * *

The Executive of the C.L.A. have arranged for the following semi-final games in the junior series:—August 9, Young Toronto at Bloor; August 12, Bloor at Young Toronto; August 5, Midland at Peterborough; August 17, Peterborough at Midland.

The arrangement as suggested above is not one which commends itself at all favourably to the local team. There is no good reason why the Peterborough team should be sent to Midland to play off. There are other district winners selected much nearer than Midland, and the local team will make strenuous objection to being sent to that town so early in the semi-finals. There are other teams in the vicinity of Midland and these should be made to play off before Peterborough is sent on a 150 or 200 mile jaunt.

BASEBALL.

Saturday next our locals will do battle with those Peterborough fellows that played the other day for $100—and didn't get it. But as Peterborough is tied for first place in the Midland League a victory over Port Hope on Saturday would to the visitors be much better than $100. To have a chance for the reg flag Peterborough will have to win Saturday's game, but from present appearances they do not look strong enough. It is just as important for the locals to win this game and you can bet they will put forth every effort to do so. The game is called for 3.30 o'clock so be there on time. Batteries—Peterborough, Douglas, Quinlan and Rattray; Port Hope—Coughlin and Andrus.

* * * *

A meeting of the Midland League will be held next Monday in Bowmanville to consider the Bowmanville-Cobourg protest.

* * * *

And now they say that Lindsay is thinking of challenging Bowmanville to a game for a hundred dollars a side bet! Poor Willie Cinnamon must have 'em again. To lead a bunch of broken down ball tossers like the Redskins against Bowmanville's veterans, would be a slaughter of the innocents.—Gossip.

* * * *

On Saturday afternoon at the Riverside Park an interesting game of ball will be played between a picked team from St. Andrew's and Charlotte Street teams against the Night Owls. This game should afford plenty of interest since both teams are capable of playing fast ball. An admission of 10c will be charged.

* * * *

What promises to be one of the best ball games of the season will be played on Saturday afternoon at 2.30 on the Riverside Park, when the undefeated Night Owls will try conclusions with the pick of Charlotte street, champions, and St. Andrew's, runners-up, of the Guild League.

This is the only attraction for Saturday afternoon and because the game will be played on its merits, everybody should turn out and encourage the players, some of whom will likely be soon seen on the seniors' line up.

LOCAL HORSES AT KINGSTON RACES

Minnie Bell Took Second Money in 2:28 Class.

Kingston, Aug. 3.—(Special) — The Eastern Ontario Racing Circuit meet in progress here for three days concluded this afternoon with these results:—

HOUSES FOR SALE

We can sell you brick houses in different parts of the town, ranging in price from $250.00 up to $6,000.

Good country store with Post Office attached about 3 miles from Peterborough, well situated. Good bargain.

We have several good farms for sale, which would make admirable homes at different prices.

STABLER, SWITZER & CO.,
Real Estate and Insurance Agents, Office under town clock, entrance of Market.

A TWO-FOR-ONE-SHOT.

When you use Ozone use "Celery King" with it. Whatever kind of Ozone you buy you will need to use "Celery King" which is a companion remedy to Ozone.

The purest form of Ozone is "Solution of Ozone (the coupon kind.)" Each bottle contains about twice as much for your money as other brands, besides which each bottle contains a coupon entitling you to a package of 'Celery King' free. This is a great advantage as you save money on the Ozone and also get the "Celery King" which you would otherwise have to buy.

No other brand of Ozone contains these coupons. 'Solution of Ozone (the coupon kind)' is fifty cents and one dollar at your drug store including the coupon for the package of "Celery King." Take no other kind and if your druggist does not carry it write to the Public Drug Co., Bridgeburg, Ont. Sold by W. B. Warne. 11

THE KAISER SAYS KING OR REPUBLIC

No Hope For a Bernadotte as Monarch of Norway--Kaiser Nominates Charles--It is Either This Danish Prince or a Republic, According to the Opinion of Emperor Wilhelm of Germany--Kaiser Will Support a Monarchy---Coalition Cabinet Formed for Sweden.

Copenhagen, Aug 3.—Since his arrival at the Danish court, Emperor William appears to have become convinced that there is no hope of a Prince of the house of Bernadotte becoming King of Norway. His Majesty now favors Prince Charles of Denmark, and he is quoted as saying:

"If Prince Charles does not become King, Norway will become a republic. Of course I prefer a Monarchy and therefore shall hereafter support the candidacy of Prince Charles."

King Christian and some of the Danish Princes lunched with Emperor William on the Hohenzollern yesterday.

New Swedish Cabinet Formed.

Stockholm, Sweden, Aug. 3.—A coalition Ministry was formed yesterday with Herr Lundeberg as Premier. He was largely responsible for the conditions framed by the special committee of the Riksdag for the dissolution of the union, and King Oscar selected him for the Premiership as His Majesty considered it desirable that the same influence which dominated the work of the committee should prevail during the negotiations for the carrying out of its program.

THE PACIFIC CABLE.

Press Co-operation Big Aid in the Aims of the Empire.

London, Aug. 3.—(C. A. P.)—The Morning Post, referring to the "All Red" cable system, says a mutual understanding is the basis of successful co-operation amongst the partner nations of the Empire. It can only exist through the agency of the press. Take for example the crisis of 1899. Australians and Canadians felt themselves unable to form an independent judgment of the situation in South Africa because their press failed to supply them with adequate information. This deficiency was the result of prohibitive cable rates not only from England to the Colonies but from South Africa to Canada and Australia.

Again at the time when efforts were being made to bring questions of Imperial commerce and defence into the sphere of practical politics it was important that the utterances of prominent statesmen and the Parliamentary debates in London, Ottawa and Melbourne should be adequately reported by cable in the daily press throughout the Empire. In connection with the fiscal controversy, protagonists in each of the three countries may be heard complaining that their speeches are misrepresented in the summaries cabled abroad. If so the error probably arises mainly from the necessity for condensation.

Sir Sanford Fleming, in The Empire Review, says that he contemplates the reduction of the cable rate to Australia from three shillings to tenpence per word, and even then that it will be possible financially for a State-owned cable to transmit press messages up to a certain limit free of charge.

TRACED THROUGH A WOMAN.

Montreal Express Clerk Arrested in New York—Stole $4,000.

New York, Aug. 3.—Frederick W. Story, 22 years of age, of Montreal, was arrested last night by private detectives on a charge of grand larceny. He was taken to police headquarters and the police of Montreal were notified.

Story was a clerk employed by the Dominion Express Co. Between April 14 and 17 last, it is alleged, he stole $2,000 in cash and $2,000 in cheques. He left suddenly on July 16, it is alleged, arriving in New York the next day.

Story is said to have been traced through a woman with whom he was friendly.

The police say he admitted the theft, exonerating anyone else from blame.

Lithographers Go Out.

Toronto, Aug. 3.—Members of the Lithographic Transferrers and Lithographic Printers' Unions have decided to strike for union recognition in the shops here and went out yesterday. The Employers' Association has determined to fight and expect a large staff of English workmen to take strikers' places ere long. The lithographers have no other stated grievance.

The Telegraphers Strike.

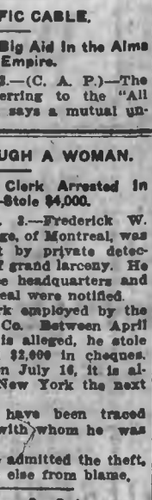
Helena, Mont., Aug 3.—Despatches from Montana points indicate that the strike order was generally obeyed by the telegraphers on the Northern Pacific and Great Northern. The men claim the walkout is absolutely perfect. Train No. 6 known as the Burlington Flyer, was tied up as a result of the telegraphers strike Tuesday night.

Manager Furlong Badly Burned.

Montreal, Aug. 3.—James Furlong, manager of Sparrow Amusement Co., was badly burned at Stagathe. Mr. Furlong was doing some work at Mr. Sparrow's country home when an acetylene gas tank, which they were refilling, exploded.

STOMACHS ON STILTS.

The man who puts on stilts does not increase his actual stature. He only feels taller. Stimulants are the stilts of the stomach. They make a man feel better for the time being, but he feels a great deal worse for them afterward.



The need of the man whose stomach is "weak" is not stimulation but strength. Dr. Pierce's Golden Medical Discovery perfectly answers that need. It contains no alcohol or whisky. It cures the weak, foul stomach with its attendant bad smelling breath, coated tongue, bad taste, poor appetite and kindred symptoms.

"In the year 1899 I had an attack of indigestion and got so bad that my home doctor said he could not do me any good," writes Mr. G. Trant, of Gordonville, Texas. "I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles, and when I commenced using it I was so weak could hardly walk about the house. By the time I had used one bottle my stomach and bowels commenced to heal. There were strips of the lining of my stomach or bowels (I don't know which) as large as a man's two fingers passed and I had a good deal of misery in my stomach and bowels, and also in the rectum especially. I could not eat anything without having much distress afterward, but by the time I had taken eight bottles of the 'Golden Medical Discovery' I was sound and well, and could eat anything I pleased without suffering in the least. Could also do as much work in a day as I ever could. I have not suffered from the trouble since, and it was four years ago that I was so sick."

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.

CELEBRATION AT THE SOO

Semi-Centennial of First Canal Begins Spectacularly.

NAVAL AND ARMY PARADES

Vice-President Fairbanks of the United States and Solicitor-General of Canada, Hon. R. Lemieux, Present—Mr. Fairbanks Taken Suddenly Ill—Both Sees in Holiday Dress—The Fireworks Display.

Sault. Ste. Marie, Aug. 3.—The people of the two Soos joined yesterday in celebrating the semi-centennial of the construction of the first canal lock on the American side of the St. Mary's River. In the celebration they were assisted by 10,000 visitors from all points of the compass who flocked in Tuesday and yesterday morning until the accommodation of the two towns was greatly overtaxed. The scene witnessed yesterday was one not soon to be forgotten, especially as it is significant in marking the great growth of the commerce of the upper lakes during the last fifty years. The day's program began with a big salute of cannon and the blowing of many whistles at sunrise. That event was followed by a marine parade, which was taken part in by nearly all the vessels of both nationalities in the harbor. The United States revenue steamer Tuscarora acted as flagship and carried Vice-President Fairbanks and Governor Warner of Michigan.

Marshal Was Engineer of First Canal.

Solicitor-General Lemieux, representing the Dominion Government, was on board the Algoma Central steamer Philadelphia, which acted as flagship of the Canadian fleet taking part. He was accompanied by other prominent Canadian visitors. The route of the procession was up the American canal about the upper river and down the Canadian canal, after which they passed in review before Brady pier on the American side. It was taken part in by the United States regulars, State and Naval militia to the number of about 700 and citizens in carriages. The chief marshal of the parade was Charles T. Harvey of Toronto, who was engineer in charge of the construction of the lock on the American side, the semi-centennial of which is now being celebrated.

Two Hours of Fire Worship.

The illuminations as on view last evening, were the most beautiful spectacle of the celebration. A veritable wall of fire extended from the lower part of the Michigan Soo up along the water front and canal across the international bridge to the Canadian canal and pulp mills. The outlines of the pulp mills and Canadian canal offices were strong with lights and resembled very much the illuminations of a big exposition. There was also the added beauty of thousands of yards of bunting and flags. At 10 o'clock and lasting until after midnight displays of fireworks were given from both banks of the rapids. The displays included about a hundred parts, showing numerous figures of all kinds and involving an expenditure of about $4,000.

Vice-President Ill.

Vice-President Fairbanks was seised with an acute attack of indigestion at the reception last night and had to be assisted from the stand in the park. He walked to the Iroquois Hotel and repaired to his room immediately. To all callers he sent word he would be unable to see anyone until morning.

Yellow Fever Cases.

New Orleans, La., Aug. 3.—The yellow fever record up to 6 p.m. is as follows: New cases, 23; total cases to date, 378; deaths to-day, 11; total deaths to date, 79; new foci, 4; total foci, 54.

TEMISKAMING RAILWAY.

Soon to Be Located to Junction With Grand Trunk Pacific.

Montreal, Aug. 3.—The Temiskaming Railway Commission sat here yesterday, the chairman, C. B. Smith, and D. Murphy, ex-M. P. P., being present.

At the conclusion of the meeting the statement was made to the effect that the line would soon be located to its proposed junction with the Grand Trunk Pacific, a distance of 275 miles. The finest possible timber land has been found, as well as an extensive clay belt. The engineering difficulties will not be insuperable.

By next year 200 miles of track will have been completed, about 113 miles being now operated by the commission.

The statement was also made that the traffic in the completed section had exceeded the most optimistic calculations of the commissioners and that the tourist travel had also been very large.

Job For Brockville Man.

Brockville, Aug. 3.—Robert Laidlaw of The Brockville Recorder staff and a newspaper man well-known throughout the Province for the last 25 years, has been appointed a position in the archives Department, Ottawa. He will enter upon his new duties about September 1. Mr. Laidlaw comes originally from Guelph, and has done newspaper work in Winnipeg, Guelph, Woodstock and Brockville.

Captain May Be Released.

New York, Aug. 3.—The Herald prints a special cable from Montevideo, via Galveston, Texas: The Montevidean and Times asserts there is no truth in the report of diplomatic intervention regarding the barque Agnes G. Donahoe and adds that the sentence condemning the captain and crew to three years' imprisonment for seal poaching will probably be revoked by the High Court of Justice.

Snap For Quebec Lawyer.

Quebec, Aug. 3.—On Saturday next the bar of the Province of Quebec will meet in this city to elect a chief compiler of judicial reports for the Province. There are three candidates for the position. The position represents a revenue of $5,000 a year.

Deserter Captured.

Brockville, Aug. 3.—Thomson, a deserter from the Engineer Corps, Stanley Barracks, Toronto, was arrested here yesterday at the request of the officer commanding. Thomson skipped Tuesday night and was found at his home here.

Charged With Arson.

Stoughton, N. W. T., Aug. 3.—Duncan McNabb is under arrest here, charged with arson. On Saturday, it is alleged, he set fire to the Stoughton Hotel, in which he had an interest, and which was damaged to the extent of $200.

Escaped an Operation.

"I had itching piles for six years, and the doctors told me there was no cure for me unless an operation. Dr. Chase's Ointment completely cured me in one week. As that was six months ago, and there has been no return of the old trouble I believe no return of the old trouble I believe that the cure is a permanent one."—Mr. J. Mawer, Roden, Man.

DISMAL FRUIT OUTLOOK.

Grubs and Other Spoiling Factors Have Been at Work.

Ottawa, Aug. 3.—Mr. McNeill, Dominion fruit inspector, has issued a report on crop prospects which doesn't give any cause for cheers. It is rather a dismal outlook.

Grubs and all sorts of evils are rampant, although the good effects of spraying are more apparent than ever.

Apples will be light, but more than 50 per cent. of last year.

There won't be any pears for export.

Peaches will be a poor crop.

Cherries are rotting.

The prospects are 200,000 barrels of apples for export from the Annapolis Valley.

The British Columbia crop will be an average one, while the Northwest yield will be heavier.

Next Year In Hamilton.

St. Catharines, Aug. 3.—At the Provincial Firemen's Association convention at Merritton yesterday morning, Hamilton was chosen as the place of meeting next year. These officers were elected: President, S. A. Moffat, Merriton; first vice-president, W. J. Pollard, Hamilton; second vice-president, A. J. Fisher, Thorold; secretary, W. J. Armstrong, Toronto Junction; treasurer, W. J. Miller, Smith's Falls.

For a Uniform Divorce Law.

Harrisburg, Pa., Aug. 3.—Governor Pennypacker has sent to the Governors of the various States a communication requesting their co-operation in the creation of legislation for uniform divorce laws.

A supply of cold boiled ham, sliced for the table, and other ready cooked deicacies, on the counter.

Corner George and Brock Streets Telephone.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba, or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

HISTORIC LANDMARK
IN DUMMER TOWNSHIP
LICKED UP BY FLAMES

Oldest House in That Township is Destroyed by Fire, Along With a New Brick House Owned by Mr. Frank Harding—Origin of the Fire is a Mystery—Old House Burned is Mentioned in Mrs. Moody's Book, "Roughing It In The Bush."

Special to the Examiner

Warsaw, Aug. 3.—This afternoon a disastrous fire occurred in Dummer, when a new brick house, owned and occupied by Mr. Frank Harding, about three miles from this village, was totally destroyed. The origin of the fire is not yet known here, but it burned fiercely when it once started, and though every possible effort was made to save the property, this was impossible. A large portion of the furniture was destroyed before it could be taken from the burning building. In addition to the house mentioned, an old structure near it was also destroyed. This building was one of the oldest, if not altogether so, of any house in Dummer, and historic interest is lent to it by the fact that in Mrs. Moody's work, "Roughing It in the Bush," this identical house is mentioned as an historic landmark.

The house was insured in the London Mutual for $700, and the contents for $150 in the same company. This insurance will not nearly cover the loss.

The house was a new one, erected only a couple of years ago.

PERSONAL MENTION

If You Have a Visitor or if You are Yourself Going on a Visit, or Have Just Returned, Send Word to the Examiner. Telephone the Editorial Rooms No. 234, or Drop a Card in the Post Office, or Come Into the Office and Tell the Reporters. The Examiner Wants to Get the News, and Your Friends Will Like to Read It.

Mr. F. H. Dobbin, of the Peterborough Review, passed through yesterday to Sturgeon Point to make arrangements for the reception of his family, who will spend a month there.—Lindsay Post.

On St. Ann's Day, 37 years ago, Father Kelly was ordained a priest in St. Mary's Cathedral, Kingston. St. Ann's Day this year the Rev. gentleman prayed at the Shrine of St. Ann de Beaupre.

The St. Catharines Standard of Monday last said: At Welland avenue church last evening the choir was assisted by Miss Florence Hall, of Peterborough. She possesses a remarkably sweet, powerful voice, over which she has perfect control. Every note was listened to with the greatest interest and pleasure.

CITY NEWS OF TO-DAY

—Quakes Bitters, the Great Blood Purifier, at Ormond & Walsh, Druggists. 15eod

—Show Case for sale cheap. Apply at the Framery, 2 doors west of post office.

—This afternoon a party of young people went down the river on the City of Peterborough.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonnel street. 'Phone 169.

—A considerable stretch of the street railway track on George street near Sherbrooke, is being repaired.

—If the person who advertised for white kid glove will call at the Examiner office, she may know of its whereabouts.

—Some of those who passed Central Park early this afternoon received a good sprinkling from one of the revolving lawn sprinklers placed near the sidewalk.

—We clean, press and do minor repairs to your wardrobe for a trifling fee. Telephone 575, and we will send for and deliver your parcels. "My Valet," George street.

—A number of men are employed at present removing the stones in the river below the bridge at Hastings. Every spring the swift water washes the stones into heaps a few rods below the stone-ways. Last fall these stones were all removed in October but at present they are nearly as bad as ever.

—At the Shrine of St. Ann de Beaupre there were present on St. Ann's Day this year the Archbishop of Quebec and the Archbishop of Kingston. Also there were present over 50 priests from all over Canada and the United States. At least 5,000 people took part in the procession, of whom 1,500 were from Ontario.

—The spectacle, the Fall of Port Arthur, that is to be presented nightly at the Canadian National Exhibition in Toronto, from August 29th, to September 9th, inclusive, will be on a scale of exceptional magnitude. There will be seven or eight hundred people in it, and the space occupied will cover an acre and a half. It has been planned on a scale that is well calculated to impress the spectators. There will also be companies of native Russians and Japanese. Tons of fireworks bomb shells, and so on, will be used while the scenery will be as near as possible a replica of the forts that surrounded Port Arthur during the siege. The final scene will be on a scale of unexcelled grandeur.

5000 PEOPLE SAW MOVING PICTURES

In Jackson Park Last Night—Change of Programme To-Night.

The crowd at Jackson Park broke all records last night. The slope in front of the canvas was crowded with people and a conservative estimate puts the crowd at five thousand. Of these two thousand were carried by the street cars.

An entire change of programme was announced for last night, but the new pictures had gone astray on the road and did not arrive here in time, but they will be put on to-night.

Thanks to the kindness of Mr. Roy several new slides were added to the programme. These included pictures of the Lift Lock, 'Peterborough Ben," "Blind Billy," and several comic views.

There will likely be another busy night again for the street cars to-night.

The open car got off the rails at the oval at the park last night, just as the crowd was dispersing. Only a few minutes delay was caused however.

PRETTY WEDDING AT PORT HOPE

Nuptials of Miss Ida Grace Gould and Mr. John F. Garfat.

A very pretty wedding, of interest to some Peterborough people, was solemnized in Port Hope on Monday. Among the many guests present was Miss Estelle Ackerman of this city.

The following account of the ceremony appears in the Port Hope Guide:—

A very pretty wedding was solemnized at the residence of the bride's parents to-day at high noon, when Ada Grace, eldest daughter of Mr. and Mrs. E. B. Gould, King street, was united in marriage to John Franklin Garfat, only son of Mr. and Mrs. Wm. Garfat, Walton street. A large number of guests, both from town and outside points, were present, and the bride was the recipient of many beautiful presents. Mr. and Mrs. Garfat left by the flyer for Toronto and will visit Montreal and New York State before returning.

SPORT NOTES.

The Old Boys' will be here Monday with the Royal Canadians, and all patrons of baseball will be given the opportunity of seeing the fastest kind of ball, when the Royals and Pirates meet in the afternoon on Riverside Park.

VISIT TO PETERBOROUGH

Of W. T. Pember, Toronto, Canada's Hair King.

In another column will be seen the advertisement of W. T. Pember, Toronto, Canada's Hair King, who will be in Peterborough at the Snowden House, on Tuesday, August 8th. Mr. Pember has on exhibition hair goods of every description, comprising the very latest styles for ladies and and gents. If a message is left at the hotel he will call at your residence. It will repay you to see Mr. Pember as he is one of the most prominent Hair Dealers, Hair Dressers and Scalp Specialists in Canada.

At Oke's.

We are receiving fine raspberries, blue berries, and cherries. Would advise early buying, especially of cherries, as they will soon be done. G. A. OKE, 376 George street. Telephone, 18.

ALL SAINTS' AT STURGEON

Some Good Contests Witnessed at the Regatta.

Crowd Which Accompanied the Choir Was Small But Jolly.

Yesterday morning one hundred and thirty persons took advantage of an opportunity of having a pleasant outing and also of seeing some good boating at the Sturgeon Point Regatta by taking in the excursion under the auspices of All Saint's Choir.

The party left at 8 o'clock by the regular G.T.R. train for Lindsay where a steamer was boarded for Sturgeon Point, which was reached about eleven o'clock.

At the Point they found a great crowd from the surrounding district on hand for the regatta. There were excursions from Lindsay, Fenelon Falls, Bobcaygeon, Cheemong and other resorts at the lakes.

After dinner the local party went down to the shore and spent a pleasant afternoon viewing the races. Some exciting finishes were made, and their interest was increased when several Peterborough young people came out to the fore.

Owing to the lack of wind the sailing races were not sailed until late in the afternoon, and the excursionists were thus unable to witness all of them, as their boat for Lindsay left early in the evening to make connections with the train.

Everybody arrived home safe and tired, but all were satisfied that there had been nothing wanting to make the outing a pleasant one.

WILL THESE JUSTICES OF THE PEACE GET WHITNEY'S AXE?

List of the J. P.'s in Peterborough County Who, It Is Alleged, Will be Dismissed by the Whitney Government—Many of Those Mentioned Have Been in Office for Years and Conservatives Were Appointed by Liberal Government.

Toronto advices state that it is the intention of the Whitney Government to cancel the commissions of all the justices of the peace throughout the Province, and to make new appointments. The inference is left, however, that some of the present holders may be reappointed.

In view of this announcement the following list of J. P.s now holding commissions in Peterborough County, will be read with interest.

The date given is that upon which the persons named were given the commissions:

F. J. Bell, Peterborough, October 9, 1873.
John Brackenridge, Westwood, March, 1863.
Dr. Geo. Burnham, Peterborough, July 13, 1887.
C. R. D. Booth, Apsley, April 17, 1890.
John Brown, Rockdale, March 25, 1895.
James Bogue, Peterborough, August 8, 1900.
James Clark, Douro, March 25, 1882.
Wm. Caldwell, Peterborough, July 12, 1887.
Paul Costello, Ennismore, July 12, 1887.
Patrick Crough, Ennismore July 12, 1887.
J. W. Campbell, Peterborough, March 27, 1899.
Nathaniel Crowe, Bobcaygeon, July 12, 1887.
Thos. Corkery, Peterborough, December 2, 1892.
Thos. J. Drain, Norwood, October 26, 1894.
Jas. M. Drummond, Peterborough, March 25, 1887.
A. C. Dunlop, Keene, August 25, 1876.
D. W. Dumble, Peterborough.
F. J. Davis, Bobcaygeon, July 12, 1887.
Geo. Edmison, Peterborough.
Wm. Eyres, Peterborough, June, 14, 1892.
B. J. Edmison, Peterborough, February 21, 1901.
V. Eastwood, Peterborough, February 5, 1903.
Ed. M. Elliott, Peterborough, August 3, 1904.
Robt. Fife, Peterborough, August 25, 1876.
John A. Fowler, Peterborough, January 4, 1898.
G. J. Galvin, Lakefield, August 25, 1876.

ANOTHER BIG CEMENT MIXER WAS SHIPPED TO LAKEFIELD

A rotary cement mixer similar to that which was upset into the ditch at the Smith street crossing of the G. T. R. on the Lakefield line, passed through the city to-day, and was sent out to Lakefield on the regular train this morning.

In making the curve at the place where the trouble occurred last time, the trainmen were particularly careful, and the mixer did not leave the cars this time.

These immense machines are to be added to the equipment of the Lakefield Portland Cement Company, and when installed will double the capacity of those works.

A DANGEROUS PRACTIE WHICH MAY RESULT FATALLY

Some day there will be a fatality recorded at the G. T. R. station, and the fault will not be with the railway authorities either.

The excursion season seems to make people reckless, for they take risks then which under ordinary circumstances they would not think of. With the cars crowded, scores of people will wait until the train starts to move, before they make an attempt to board it, and then, with the platforms crowded they have to cling to the steps until they can force their way on to the cars.

Some day some one will fall from the steps, and go under the wheels, as it is quite easy to do, and a lesson, dearly bought, will then be taught—a lesson that may be of no use except to the victim's surviving friends.

MAYOR BEST GETS A "BID" TO LONDON'S SEMI-CENTENNIAL

On Monday, August 7th, the City of London will celebrate the semi-centennial of its elevation to the dignity of cityhood, and His Worship Mayor Best has received an invitation to be present to help in the celebration. Mr. Best, however, has had to send his regrets. On that day the Old Boys from Toronto will visit Peterborough and in connection therewith the Mayor has an important function to attend to, that of delivering an address of welcome to the visitors in the Central Park.

London was made a city just fifty years ago, and the intention is to celebrate in royal style, and al

RADIAL RAILWAY ARRANGEMENTS

No Probability of New Stock Being Issued.

Line To Young's Point Will be Bonded—Conviction That It Will Pay Well.

A report to the effect that the Peterborough Radial Railway Company intended to issue new stock, which would be offered to the public, this fall, was currently circulated in the city to-day. It appears, however, that such is not the case, at any rate, Mr. Larmouth states that such a thing has not been considered by the management of the Company.

At the present time $100,000 in stock has been issued and it has all been taken up. It is said to be probable that the new road to Young's Point, which will be constructed in the near future will be bonded, but as to issuing new stock this has not been considered.

An estimate of the cost of the new line has not been made yet, because the engineers have not reported on the survey. It is expected that this report would be received early in the week, when the cost will be figured on. Mr. Larmouth is of the opinion that popular as the cars are this summer, they will be five times more so when the new line is completed, and the people can get there easily.

The thousands of people who at the present time travel to the park to see the moving pictures has convinced the management that the extension of the line to the lake would pay handsomely.

57TH BAND TO-NIGHT IN VICTORIA PARK

Best Popular Programme of the Season Will be Presented.

The following programme will be presented in Victoria Park to-night, and is considered to be the best popular list presented this season:

March, 'Crimson Flush" .....

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches.

Tattoo a Success.

Galt's military tattoo was such a success, a repetition is proposed, with the 48th Highlanders and the Grenadier Bands of Toronto and the 29th Regiment band as outside contributors.

Keep Away from Brantford.

Chief Slemin of Brantford gives notice to all tramps and hoboes of all descriptions attempting to infest the city that they will be arrested on sight, and advises them to give Brantford a wide berth.

Killed by Lightning.

During a very severe electric storm Clinton Young, of Springfield, while mowing, took refuge under a willow tree. Lightning struck the tree. Young was rendered unconscious and the horse knocked down.

On to James' Bay.

A second surveying party has been sent out on the Temiscamingue Railway to hasten the survey to the projected G. T. P. The exploration party to locate a harbour on James Bay, is on its way to the Coast.

Covicted of Smuggling.

Six convictions for smuggling have been secured at Willow Bunch by Corp. Barnes, of the N.W.M.P., within a month. The last was that of L. Cane, who was found guilty of smuggling horses and sentenced to a fine of $50.

Killed in Manitoba.

A Finlander named Otto Gustafson was killed by a C.P.R. work train near Rosser. The brakes were turned on suddenly and almost instantly released, which caused him to fall under the wheels. An inquest will be held.

The Best Pay Dirt.

Arthur Milne, who has been in the Klondike for the past eight years, was successful, and has invested in real estate in the vicinity of Calgary. He says the best kind of "pay dirt" in the Klondike is hotels or gambling resorts, all of which are thriving.

Sawn in Two.

Jesse Seyglo, of Pelee Island, running a portable sawmill on his farm, fell in front of the saw and was cut in two, the saw splitting his head, cutting lengthwise of his body and coming out at his hip. Death was instantaneous. He leaves a wife and three sons.

Work on Pere Marquette.

The Pere Marquette shopmen at St. Thomas, who had been working five hours a day during July, have resumed work on the ten-hour-a-day schedule and there being a great deal of work on hand, the prospects are the men will put in ten hours a day from now on.

Rat Gnaws Toe.

Regina Moeller, 7218 Avenue A., Parkville, Brooklyn, awoke yesterday morning in pain with a rat gnawing the second toe of her right foot. The parents hearing her screams rushed into her room and found the rat holding on to her toe. On seeing them it jumped across the child's body and out of the open window. A doctor cauterized four wounds.

An Army of Tramps.

From various points on the frontier some reports that droves of tramps are entering the country on the railways from the States. At Brantford a few nights back a gang of the footpads was discovered in a box car and the local police had some trouble in routing them out, and placing them under lock and key.

Embalmed Milk.

H. B. Sutton, one of the St Thomas milkmen whose samples of milk were declared to contain a noxious drug, formaldehyde, has challenged the local sanitary authorities to take legal proceedings against him in order that he may have an opportunity of clearing himself of the suspicion of being one of the guilty parties. He solemnly declares that no formaldhayde had been placed in the milk taken from him for analysis.

Heat Bad for Hotels.

During recent heat waves in England it has been observed that very little business was done in alcoholic drinks at the public bars, while the sellers of iced drinks have been kept going at full pressure. The total abstinence of the majority of labour leaders, the strong condemnation of alcohol by the medical profession generally, the high rate of income tax and tight money are considered the chief factors in the remarkable change noted in the public taste, and the wave of temperance that is sweeping over the country.

A Confidential German.

A man with a strong German accent, representing himself as a seller of champagnes, took a number of orders in Port Stanley and London recently. At London he formed the acquaintance of a business man on Richmond street, and a widow residing on Talbot street. He confided to them that the champagne business was really a blind and what he was there for was to secure a man and woman whose names he could use as having received $10,000 from a lottery in which they had held tickets. The landlady consented to receive the $10,000 and in the meantime advanced the alleged lottery agent $450. The man has not since been seen.

DOCUMENT IS NOW READY FOR SIGNATURES

New Instrument to Bind Britain and Japan Closer—Earl Percy is Guarded—Says the Changes Which May be Made by the War in the Far East Were as Yet Impossible of Discussion—Baltic Sea Scare to Turn Out a Blessing in Disguise.

London, Aug. 4.—In connection with the statement of Earl Percy in the House of Commons yesterday afternoon concerning Great Britain's foreign policy, the Associated Press understands that negotiations for the renewal of the Anglo-Japanese alliance have progressed a deal further than was indicated by Earl Percy's guarded allusion to it. It is believed, in fact, that little remains to be done beyond signing the new instrument.

Earl Percy is Guarded.

London, Aug. 4.—The session of the House of Commons yesterday was taken up with a discusion of the foreign policy.

Earl Percy, Under Secretary of Foreign Affairs, said that under the present circumstances it was impossible to discuss the changes in the Far East that might be brought about by the war, or changes that might be desirable to introduce into the Anglo-Japanese alliance. He thought that the general state of Europe presented no cause for anxiety.

Reverting to the Far East he said that it was true that while Great Britain in common with other countries was losing trade in China, Japan's trade in that country was increasing.

Efforts were being made to obtain fresh markets in the interior, he continued, and China had promised, if the Chinese were unable to finance the proposed railway through the Yangtse Valley to the Redstone Basin in the Province of Szechuan, to apply first to the British and American capital to build it.

Great Britain, he said, was now negotiating with France for the joint construction of the line.

The motive for Earl Percy's reticence was a desire to avoid Parliamentary discussion on the subject, while peace negotiations were proceeding.

Sir Charles Dilke, who initiated the discussion, intimated that a renewal of the Angle-Japanese alliance would be warmly supported by the Liberal party.

It is stated that Japan recently has given further considerable orders for khaki cloth in the Bradford.

BRITAIN AND BALTIC SEA.

British Fleet's Visit to Baltic Sea Approved by Germany.

London, Aug. 4.—The forthcoming visit of the British fleet to the Baltic Sea appears more than likely to mark the beginning of more cordial relations between Germany and Great Britain, instead of, as has been suggested in some quarters, adding to the friction now existing. The proposed visit was known to the German Foreign Office months ago and suggestions that objections were raised by Germany are unfounded.

Ernest George Pretyman, Secretary of the Admiralty, yesterday in reply to questions, stated definitely that no protests regarding the visit of the fleet had been received. Friendly comment on the pending cruise from German Baltic ports creates the belief that it will help along King Edward's desire for good relations between Germany and Great Britain, and the announcement of Emperor William's support of the candidacy of Prince Charles of Denmark for the Norwegian throne is accepted as an indication that the German ruler proposes to work in the same direction.

The report is received that Emperor William will meet King Edward during the latter's forthcoming trip to Marienbad.

Kaiser to Meet King.

Berlin, Aug. 4.—No confirmation was obtainable last night of the report that a meeting has been arranged between Emperor William and King Edward, but the news is regarded by the press in general as probably true, as it is assumed that both rulers are anxious to assuage the embitterment between the two peoples.

King Oscar Visits Warships.

Stockholm, Aug. 4.—King Oscar, who was recently created a German admiral by Emperor William, yesterday visited the German squadron. His Majesty gave a fete last night in honor of the squadron.

Riksdag Closes.

Stockholm, Sweden, Aug. 4.—The extraordinary session of the Riksdag was brought to a close yesterday. King Oscar was not present, but was represented by the new Premier, Christian Lunderberg. In declaring the session closed the Speaker of the lower House said the situation still contained disquieting elements, but Sweden would be absolved from blame if a breach occurred after the offer made by the Riksdag.

Bold Brandon Jewelry Robbery.

Brandon, Man., Aug. 4.—During the half holiday yesterday afternoon the jewelry store of Mallette and Matthews was burglarized in broad daylight and 50 diamond rings, valued at about $5,000 stolen. Edward Murphy was arrested shortly afterwards, charged with the crime. Tuesday night William Singerman, a jeweler exhibiting at the fair, had his entire consignment of jewellry, valued at $1,500, stolen.

THE PEACE DIPLOMATS.

Will Meet President of the United States on the Battleship Mayflower at Oyster Bay.

New York, Aug. 4.—Acting for the President, Mr. Peirce, Third Assistant Secretary of State, yesterday communicated to Baron Rosen, the Russian Ambassador, and Mr. Takahira, the Japanese Minister, the official program for the formal presentation to the President of the Russian and Japanese plenipotentiaries to the Washington conference.

As the President's representative, Mr. Peirce will accompany Baron Komura and Minister Takahira and their suite to the pier of the New York Yacht Club at East 33rd street, at 9 o'clock Saturday morning, where the delegation will board the protected cruiser Aroma, and the vessel will start for Oyster Bay.

Half an hour later Mr. Peirce will perform a similar ceremony for M. Witte and Baron Rosen, the Russian plenipotentiaries, and their suite, who will go aboard the protected cruiser Chattanooga.

Arriving at Oyster Bay about noon, the Pacific squadron will anchor, its arrival being heralded by the firing of the ambassadorial salute of 19 guns for each mission from the Galveston, Mayflower and Dolphin, which will be in waiting to convey the plenipotentiaries to Portsmouth.

The President will board the Mayflower about 1 o'clock. He will be given the Presidential salute, of 21 guns, from all the vessels in the harbor, and as soon as his flag is hoisted on the Mayflower the Japanese plenipotentiaries will come on board and be presented by Assistant Secretary Peirce.

Half an hour later the Russian envoys will be presented. Immediately the President will formally present the Russian and Japanese plenipotentiaries to each other. A buffet luncheon will follow.

Under convoy of the cruiser Galveston the Russians, on the Mayflower, and the Japanese on the Dolphin, will sail for Portsmouth. The squadron will not arrive there before 10 o'clock Monday morning.

Linevitch's Army.

Tokio, Aug. 4.—An unofficial report has been received to the effect that General Linevitch's first army is disposed near Chungamnee; that the second army holds the Fenghwa-Patienchen line, and that the third army occupies positions in the vicinity of Tsoma. Bodies of cavalry protect the extremities of either wings.

Torpedo Boats Active.

It is officially reported that two Russian torpedo boat destroyers appeared off Chung Ching on the northern coast of Corea, at 4.40 o'clock yesterday morning, and attacked the Keisho, a small merchant steamer. The destroyers fired sixty shots, seven of which hit the port side of the engine room and bridge, killing the captain and one boy, and wounding two of the crew. The destroyers then ceased to fire, and steamed toward Vladivostock at 5 o'clock. The Keisho was able to continue her voyage and escaped.

Civil Staff For Sakhalin.

Tokio, Aug. 4.—The civil administration staff will leave for the Island of Sakhalin August 6, and establish headquarters at Alexandrovsk.

DISMISS WHITECAPPERS.

Witnesses Exonerate Men Charged, But Inquiries Will Continue.

Chatham, Aug. 4.—The preliminary hearing in the case of the Wheatley whitecappers was held yesterday in the County Police Court before Magistrate Houston.

In all, eleven witnesses were examined, and the evidence taken went to show that the affair took place as has previously been recorded in detail. No evidence could be brought forward against the prisoners. In fact, the testimony of the witnesses went in many cases to show that the defendants were not present at the outrage.

The case was in consequence dismissed.

Crown Attorney Smith, when seen afterwards stated that the case would not be dropped, but that further investigation would be made with a view to bringing the offenders to justice.

Toronto Wins Penalty Suits.

Toronto, Aug. 4.—The city wins the penalty suits against the Toronto Railway Company, and by the judgment of Judge Snider, which was announced yesterday, is awarded $18,100, the penalties of $100 per day for 181 days. The first penalty suit was commenced on May 2, 1904, and for every day since so that the city's claim against the company now total $45,600. This finding of Judge Snider practically carries with it the results in the remaining suits pending, and leaves the company liable to the city for $100 a day until the city engineer's schedule is reasonably compiled with. The city authorities are jubilant. General Manager Fleming has nothing to say about it.

THE BEST IS CHEAPEST

"Solution of Ozone (the coupon kind) is the purest and best form in which Ozone is put up. Each bottle of it contains a coupon entitling you to a package of "Celery King", the well known laxative which should always be used with Ozone.

By buying "Solution of Ozone (the coupon kind)" you get Ozone in its most efficient form and you get about twice as much of it for your money as of other brands. You also get the package of "Celery King" without charge.

No other brand of Ozone offers this advantage because no other firm can give you the "Celery King." This is the only way to procure the full value of your Ozone purchase

"Solution of Ozone (the coupon kind)" is fifty cents and one dollar at your druggists, and if he hasn't it the Public Drug Co., Bridgeburg Ont., will see that you are supplied. Sold by W. B. WARNE. 12

HOTELMAN PAYS ANOTHER FINE

For Selling Liquor to His Guests on Sunday

Case Upon Which Judgment Was Reserved Was Dismissed.

The "system of persecution" as Mr. Hatton termed it was carried on against a certain hotel keeper this morning. The charge laid was for selling liquor on Sunday, July 23.

Several witnesses were subpoenaed but only two were called into the box. The first was Milton Chambers, who drove the hotel 'bus. He was very unsatisfactory, and did not seem to remember much about what occurred on the day in question. He did remember that he had been doing some work in the bar (with the bartender and in the meantime had a drink of lager; but if there was anybody else around the place who had a drink, he didn't remember it.

Albert Welsh, a Lindsay youth, next gave his evidence. He said that he, with two others, had been guests at the hotel over Sunday; and that he had ordered drinks for the three and had paid for them.

Mr. Hatton, who appeared for the defendant, said that the guests had the privilege of ordering drinks. The magistrate thought that if a guest bought liquor during lawful hours in the hotel, he could drink it on Sunday; but this case was a sale of liquor on Sunday, and he imposed a fine of $20 and $4.60 costs.

The case of selling liquor to a minor upon which judgment had been reserved was dismissed. The liquor had been sold after hours on Saturday night and at the same time had been sold to a minor. A fine with costs had already been imposed for selling the liquor after hours, and according to the spirit of the act the Magistrate thought that the proprietor of the hotel could not be fined twice for one and the same offence.

ONE HUNDRED DOLLAR BILL LOST

A Smooth Trick Worked on Buffalo Express Offices.

Business Looking Man Who Rattled the Clerks and Incidentally Beat Them.

Buffalo, Aug. 2.—One day last week a big, well-dressed, busy-looking man walked up to the cashier's window at the Wells, Fargo & Co. Express office in this city and called for a money order for $1. He gave his name as J. W. Morgan. In payment for the money order he pulled out a genuine $100 bill, remarking that he thought he had a $10 bill in his pocket somewhere, but didn't seem able to find it.

Cashier Frederick H. Etsch, of the express company, made out the money order and gave it to the man, together with a fifty-dollar bill, two twenties, a five, a two and a one and 97 cents in change, the dollar and three cents being deducted for the money order.

Morgan walked away from the window, but came back a minute later, and asked if he could have change for the $50 bill. The cashier gave it to him in $10 bills. Then Morgan said:

"Come to think of it, I would like to hang on to that $100 bill I gave you as long as I can. Do you mind giving me that again?"

Mr. Etsch seemed willing to do anything to oblige. He handed the man the $100 bill and received back the $50 bill. Morgan walked out, and Etsch did not see that he had been flim-flammed until next morning when he figured up his accounts and found he was $50 short.

The next day Morgan went into the National Express Company's office at Rochester and worked precisely the same game. It is said that the day before he came here he also successfully operated at the Adams Express Company's office in Erie, Pa. He seemed to be on a regular circuit of 100-mile jumps, and no one knows how long he has been going. It is thought that in each office he was preceded by a confederate, who bought a $1 order and gave a $50 bill in payment, as it always happened that in the express companies' tills there was a $50 bill for him to operate with.

Says Cashier Etsch: "The man appeared to be a business man. He acted a bit cranky at the beginning of the transaction, for which reason I continued to oblige him. I was very busy at the time, there being two other customers at the window and three drivers at the other window awaiting settlement of their sheets. Upon finding myself short the next morning, I rechecked all the other accounts and found all of them correct. I then recollected the transaction of the day before."

The Rochester cashier was both more suspicious and less busy than the Buffalo man. Soon after the sleek stranger had gone, the Rochester man figured his accounts and found he was out $50. He immediately got an officer and started out to find Morgan. Making for the Central station, where the next train out of town was to leave, they found Morgan awaiting the going of the train. They arrested him. He gave his name to the Rochester police as Charles Wilson and said he was a Southerner. He is about 33 years old. When searched he had $210 in money and seven diamonds. Sullivan & Mamm and George Raines, of Rochester, were retained by him as his attorneys, and he was held in $1,000 bail.

Four Facts For Sick Women To Consider

Lydia E. Pinkham's Vegetable Compound Has an Unequalled Record of Cures—Mrs. Pinkham's Advice Is Confidential, Free, and always Helpful

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful menstruation, leucorrhœa, displacements of the uterus, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, all uterine and ovarian inflammation, weakness and displacements, regulating menstruation perfectly and overcoming its pains. It has also proved itself invaluable in preparing for childbirth and the change of life.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

FOURTH.—Every ailing woman in Canada is asked to accept the following invitation. It is free, will bring you health and may save your life.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

MR. GEO. BENNETT'S OFFICIAL REPORT

To the Ontario Government on the Condition of Crops in North Monaghan.

Mr. G. W. Bennet, of North Monaghan, after careful observation and inquiry, has reported the crop prospects of North Monaghan, for the vicinity in which he resides, to the Department of Agriculture, Toronto. His report will say in effect that the hay crop is generally light, considerable clover having been frost killed. Cereals are generally good. Winter wheat is a good yield with good quality, and other cereals will also be good. The yield and quality of oats, however, depends upon almost immediate rain which is badly needed for other crops, especially potatoes and field roots, of which the latter are very promising of yield, especially with speedy rain.

In regard to fruits, particularly apples, the promise is only fair, and the quality and yield seem to deteriorate with the season of ripening. Early apples, the least valuable variety and utilized with the greatest difficulty, are fairly good. Fall apples not quite so good, and winter apples will not be near a good average. On the whole, nothing like general crop failure seems to be indicated.

Pains in the Chest.

Mr. John Clark, Port Hope, Ont., states: "Last winter I was so bad with a cold that I could not speak above a whisper, and had rgeat pains in the chest. A friend advised me to try Dr. Chase's Syrup of Linseed and Turpentine, and one bottle cured my cold which I believe would have proven very serious if I had not used this medicine."

The Principal Part of Zutoo

Is a vegetable ingredient imported from Japan. Another ingredient, is soda—just the old-fashioned soda. Yet Zutoo will cure headache as quickly as any drug and without injury to the system.

Any Troubles In Your BATHROOM?

If you are having any trouble with your CLOSET or BATHROOM CONVENIENCES, come round and have a talk with us.

A gentleman, attracted by the range of Sanitary Closets and excellent values we are offering, invested in a new one, although he already had one that was working not badly.

The way he looked over the Closets we arranged before him for inspection showed he had been sifting the matter, and knew how to prove and disprove the claims of dealers.

The saving of health and expensive plumbing repairs, warranted the investment, he said.

How is yours working? Bring your Bathroom Troubles to us. Our Toronto Stock is what we sell in our Peterborough Branch.

MANY NEW VISITORS
ARRIVE TO SPEND
VACATION AT STONY LAKE

Kawartha Lakes Region Becoming More and More Popular --Many Peterborough People are There Spending a Few Weeks Rest--Dances are Becoming More Enjoyable Than Ever Before in History of the Lake--Most Interesting Happenings of the Last Few Days From All Quarters of the Lakes.

Special Staff Correspondence

Stony Lake, Aug. 3.—The dance last night at Juniper was largely attended.

The dances this year are more enjoyable than ever before in the history of the lake and have drawn a crowd nightly which taxes the capacity of the pavilion. Those in attendance came from all parts of the lake, and many new faces are always in evidence. Among those who assisted in supplying the music last night were Messrs. McKay and Koch, Mr. Rupert Daniel and Miss Morrow. A delightful feature of the evening's amusement was the music of Messrs. Koch and McKay, who rendered a number of charming selections upon the guitar and mandolin, which were greatly appreciated.

Mr. Bruce Paton and Mr. C. E. Preston, of New York, are spending the week at the Victoria House.

Mr. Gillet, of Cobourg, went home yesterday.

Mr. Forgie and party, of Pittsburgh, are guests at Mr. Moore's cottage, "Ojar."

Mr. R. Hall returned home yesterday after spending a few days at the lakes as the guest of Mr. Graham Ferguson.

Mr. Dodsworth, accompanied by a party of fifteen choir boys, of Pittsburgh, came up the lakes yesterday.

The steamer Stony Lake had a very busy day yesterday. It had on board, besides the 150 excursionists of the Bethany Tabernacle, 125 passengers.

Mr. Stock came up to his cottage, "Ivanhoe," yesterday.

Among those who took in the round trip on the steamer Stony Lake yesterday were Mrs. M. Kennealy, Lakefield; Mrs. Halpin, Peterborough; Mr. and Mrs. Kirn, Peterborough; Messrs. Jack McFadden and Fred. Laplante.

Mr. Ronald McKee has returned home, after a vacation spent at the Victoria House.

Miss Neil and Miss Maggie McCabe are spending a few days at South Beach.

Mr. and Mrs. K. G. Loch came up to their cottage yesterday.

Miss Morrow is the guest of Miss Mollie Young, Juniper Island camp.

Miss Etta Mae Cramer, of Cleveland, went down to Peterborough yesterday to spend the day with Miss Alta Bradd.

Dr. Morrison came up to his cottage, "Elfin Nook," last night.

Mr. Hitchings and party are at Miss Tralle's Island.

Mr. Graham Ferguson took a trip down to the city yesterday.

Miss Mabel Armstrong is the guest of Miss Alberta Gooding at Strathormond-on-the-Lake.

Crown Attorney Curry, of Toronto, came up to his cottage, "Eagle Mount," last night.

Messrs. F. Davey, Adolph J. Tegler, Joseph Desnigan, of Rochester, and Nicholas Wetzel, of Auburn, N. Y., are at "Tenderfoot Camp."

CHICAGO HAS A MURDER SQUAD

Plan of Chief of Police to Deal With Criminals.

A New Bureau Organized to Have Full Charge of These Cases.

Chicago, Aug. 3.—A "murder squadron," in which will be enrolled the cleverest detectives on the police force, will be recruited at once by Chief Collins as an adjunct to his scheme for cleaning Chicago of hold-up men and other dangerous criminals. The squad will work under a new murder bureau, to be patterned after the similar bureau at Scotland Yard, London, and under the direction of Assistant Chief Schuettler its mission will be to handle all cases of death by violence and to send the perpetrators to the gallows or to the penitentiary.

It is purposed to give the new bureau full swing in all murder cases, and the effect will be looked for not only in the quick-solving of murder mysteries, but also in the strengthening of the state's attorney's office so that convictions will be made surer.

The innovation in Chicago police methods was suggested at a conference between Chief Collins and Assistant State Attorney Olson, and its adoption is expected to strike a heavy blow at crime.

The squadron will consist of eight or a dozen men whose mettle and ability as detectives have been demonstrated during their terms of office. Enrollment on the squad will be the highest honour that can be given to a member of the force, and the competition to get the place is expected to key up the whole department to a higher pitch of efficiency.

The new bureau will have absolute charge of the evidence to be used in murder trials. As soon as a crime is committed members of the squadron will be hurried to the scene. They will be accompanied by a photographer and artists, who will get pictures and sketches of the premises and surroundings as they are found.

All property of value in aiding the prosecution will be taken to the bureau quarters, where it will be kept in a vault until the capture and trial of the murderers. As it stands at present the tangible evidence is scattered around various police stations. Much of it is lost, and often the state prosecutors have difficulty in making a case and getting a conviction.

As an example of the present laxity in the preservation of tangible evidence the police point to the car barn murders, where the state's attorney's office had great difficulty in prosecuting the case against the automatic gun bandits because one of the bullets extracted from one of the victims had been lost.

The pick of the detectives that will constitute the murder squadron will be under Assistant Chief Schuettler, who has been selected to command because of his notable record as a murderer catcher. He has ferreted out some of the most mysterious crimes in the history of the department, among them the Molkowski murder in 1888, the Luetgert murder and the car barn robbery and murders.

The men who will serve on the squad have not been picked yet. Among those said to be under consideration are Fred. Hirsch, of Summerdale; John Sheehan, Harrison street; B. Burns and Dennis (Bree), Hyde Park; William Blaul, William Howe and Lieutenant George Prins. The west side has also furnished a number of candidates.

Fifteen years ago Schuettler had command of a similar squad that dealt with murders and burglaries. While it was in existence it trailed down some of the most mysterious cases that ever had come to the attention of the police.

"I expect great results from this special detail," said the chief. "The system has been for individual officers to look after their own cases, and in several murder cases the evidence has been badly mixed because of lack of system."

Great good will result from the establishment of the bureau," said Assistant State's Attorney Olson. "The records show that since January 1, there have been sixty-five murders and homicides with intent to kill committed in Chicago. London, with a population of 4,000,000, averages only twenty murders a year."

Chamberlain's
COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his house. Buy it now. It may save life.

Price, 25 Cents.

FORTUNES IN COBALT CAMP

Millions of Dollars Worth Have Been Taken out Already

This May be the World's Richest Silver Deposit.

Mr. Wallace Macleod, in a special article written for the Globe says: The stupidest man in the street can recognize the silver veins at Cobalt, running as they often do with the straightness of a railway track. It will not take five or ten years for Cobalt to prove itself. It has proved itself already. As yet, however, few outside of the camp itself know about Cobalt. The original discovery dates back from November, 1903, but it took a year for those who were conversant with the discovery to realize its importance, and it was only in May last that the camp began to get busy.

Cobalt is to-day the scene of no less than thirteen shipping mines. Nine of these have started in within the past three months, some of them within a month. And other mines will begin operations at no long intervals from now on. The mines which have been started within the past three months are known as the Foster, Lawson, Silver-Cobalt, Canada Iron and Furnace Co., Buffalo, Hudson Bay, Violet and O'Brien, a total of eight. The mines that have been shipping longer than three months are the New Ontario, Nipissing, La Rose, and the McKinley and Darragh, four in all.

Authentic Information.

During the two weeks ending July 25th, the writer visited all these mines and obtained the latest and most reliable information in regard to each of them. His report on several of the mines was read over to the officials after it was prepared for the press, and verified by them as correct. The following information may therefore be taken as authentic. Every effort was made to obtain the actual facts about the mines as they exist to-day. The following summary will give a general idea of the present position of the Cobalt company:

Mine.	Production to Date.	Veins Discovered.	Men Employed.
La Rose	$425,000	13	40
McKinley and Darragh	75,000	3	14
Nipissing	600,000	22	70
New Ontario	400,000	9	24
Foster	60,000	13	22
Silver-Cobalt	112,500	4	30
Lawson	60,000	3	10
Hargrave		1	9
Can. Furnace	200,000	2	31
Buffalo	150,000	5	30
Hudson Bay	75,000	1	6
Violet		3	10
O'Brien	50,000	6	20
	$1,227,500	81	287

The World's Greatest.

Who can estimate the money value of the Cobalt camp? It is a bewildering proposition. No one is bold enough to make an estimate. A statement by Mr. Reddington, the manager of the New Ontario mine, fairly well indicates the indefiniteness of the problem as to the value and possibilities of Cobalt. He said all he knew for certain was there was at least two million dollars' worth of ore in sight in their claim, but it would not surprise him if the total production of the mine reached fifty or one hundred million. He was speaking of one property of eighty acres. According to the smelter returns received by La Rose Mining Company there must be at least three million dollars in sight in a portion of a single vein 125 inches in length by ninety feet in depth, and the company has several other veins equally rich.

NATIONAL UNION MUNICIPALITIES

Western Towns to Co-operate With Those of the East.

The Government Telephone Policy Endorsed.

"It was the most successful convention the Union of Canadian Municipalities has yet held," remarked Mr. W. D. Lighthall, of Montreal, secretary of the union. Mr. Lighthall had just returned from his long trip, and was far too tired to succumb to the wiles of the interviewer beyond general remarks.

Winnipeg, he said, had been chosen as the scene of the convention in order to arouse the interest of the new western municipalities in the work of the union. In this they were eminently successful. Practically all the large municipalities of Manitoba, the Northwest and British Columbia sent delegates, and evinced the warmest interest in the work of the union. The result of the convention, said Mr. Lighthall, would undoubtedly be to widen the scope of its work. It should also, he thought, prove of very great benefit to the young western municipalities, which are laying the foundations of what must eventually be great towns and cities. Previous to this convention the western municipalities took little interest in the union's work, but most of them have now become affiliated with it, and will prove a great addition of strength to its fight for the conservation of municipal rights and against franchise grabbers.

Endorsed Mulock Telephone Policy.

One of the most important features of the convention was the passing of a resolution emphatically endorsing the course taken by Sir William Mulock in conducting the telephone investigation, and promising him all the support the union was capable of. The telephone question particularly affects the West, where there are many independent and some municipal telephone systems.

This was Mr. Lighthall's first visit to the West, and he, with most of the other delegates, was astonished at the rapid advances evident on all sides, both municipally and individually, in the establishment of a regime of solid prosperity.

One of the most striking features of the trip was the three hundred miles' run around Brandon and Souris wheat fields, through what is probably the richest tract of new country in the world.

Hard on Rockefeller.

"John D. Rockefeller is the greatest criminal of the age." In these words Governor Robert M. La Follette, of Wisconsin, denounced the richest man in the world in an address delivered at the state fair grounds, before the Illinois Baptist Chautauqua yesterday. The declaration was greeted with cheers. Governor La Follette's address was a stern arraignment of corrupt politicians, state and national, and of the monopolies that control the industrial and commercial life of the United States. He scored the Armours and other large packers, that there would be an end to the people's patience soon.

UNION LABEL

FRIDAY, AUGUST 4, 1905.

VERY LIKE A HOLD-UP.

Discussing the grant made by the Ontario Government under ex-Premier Ross to the Grand Trunk Pacific Railway, the Mail and Empire concludes by saying:

"When the entire issue is sifted it comes to this: A contract once made is morally binding. While a Legislature has the power to cancel it, and to take back what it has given, this power cannot be exercised, except in extreme cases. It certainly cannot be exercised without rendering the State liable for damages if any action has been taken in good faith by the party of the second part under the contract. The best way out for both interests is through negotiation. Drastic action may lead to complication, and further loss, while a treaty may give relief."

This, says the Toronto Star, is an interesting proposal. The bargain was made between the Province and the company, and the Mail says it is morally binding; it could only be cancelled in an extreme case, and even then damages would have to be paid. The party organ, therefore, intimates to the Grand Trunk Pacific people that if they don't want to have the contract cancelled they had better step up and settle with the party that now governs. They must negotiate. They must make a treaty with the ruling party. If the treaty is negotiated by the railway men in the proper spirit, no doubt the Government will recognize the contention that the contract is morally binding. If they do not step up and "negotiate," there will be trouble. What a delicacy the Mail has in diplomacy.

CANALS STILL FACTORS.

The day of canals is by no means over. An important consideration in connection with the Trent Canal whose completion, the interests of both national and local development demand. As pointed out a day or two ago the celebration of the Semi-Centennial of the opening of the "Soo" locks gives prominence to the very important part played by it in the interests of internal navigation. This canal and lock are now considered the busiest of the world's artificial waterways. The traffic by way of the Soo canals, American and Canadian, during 1904, was 32,000,000 net tons, 27,000,000 of which was through the American canal. The traffic o fthe Suez canal in 1904 was 12,000,000 net tons. The Soo canal has developed the vast mineral wealth of the Lake Superior region and has furnished a cheap and convenient outlet for the transportation of grain, flour and other products to the East and to Europe. In like manner the Trent Canal once completed, is designed to promote a similar development of the internal resources of the country independently of the great work it can accomplish in moving the grain products of the great Canadian West and the stimulus it will give to inter-provincial trade.

EDITORIAL NOTES.

Russia still continues its diaphanous bluff in declaring its intention to not think of peace till the enemy is crushed. Meanwhile, Japan goes serenely on crushing the enemy at every turn. "Whom the gods would destroy, they first make mad."

British moneyed men last year placed $580,000,000 of $760,000,000 invested outside of the United Kingdom. Of this 175 millions went to the United States, 150 millions to Japan, in war loans, 85 millions to South Africa, and 56 millions to Canada, the rest being scattered over Australia, Brasil, Chili, Egypt, etc.

We note that the Toronto World presents a portrait of Hon. Mr. Hanna, with the information that the Provincial Secretary is a provisional director of a new bank. It may be ahh right, but in Ross' time the World saw only evil in ministers on directorates, and it used to stigmatize such as "guine pigs," "grafters," and the like. But, of course, remarks the Hamilton Times, there's nothing the matter with Hanna.

It might be an equitable appendage to the increase of sessional indemnity of members of Parliament if the hotels, cafes, restaurants and boarding-house keepers in Ottawa were to make a proportionate increase in the price of drink, meals and lodgings. If Klondike scales of indemnity prevail, why not Klondike scales of prices?

The statement that Bishop Dowling has successfully withstood an operation in St. Joseph's Hospital, Guelph, will be glad news to his many friends and co-religionists in this city. His lordship went to the hospital about a week ago, presumably suffering from a slight indisposition, and only last Sunday was announced to be greatly improved. Yesterday morning, however, three Guelph physicians, Drs. Howitt, Robinson and J. Howitt, performed what proved to be a highly successful operation. The bishop is doing splendidly.

The Grand Trunk Railway are making elaborate preparations for extensively advertising the attractions of the Temagami district and adjacent points of New Ontario. The Grand Trunk is enterprising in this regard, but if they had paid more attention to the attractions of the Kawartha Lakes as a summer resort, and provided first-class railway service, the receipts of the company would have been more largely augmented and many more tourists made happy by a knowledge of one of the most charming summer resort regions in Canada.

No better indication could be had of the rapid progress of the Canadian West than the fact that the Grand Trunk Railway Company is about to double the mail-carrying capacity of their morning train from Toronto to North Bay. Some time this week two brand new cars from the London shops will arrive in Toronto to meet the growing volume of mail matter which is daily flowing from Ontario points to the rapidly increasing population of the prairies. The West is no longer a backwoods or a pioneer country. It means that the people have passed the stage when all thought turned on plowing and harvesting, and are now in closer touch with the outside world.

The Ottawa Conservatives are ravenous for spoils, and there does not appear to be any way for Mr. Whitney to appease their hunger save by manufacturing offices, as he did for Sam Price, of St. Thomas, and some others. An Ottawa special to the Globe says:—"The Tory appetite for office is such that Mr. Whitney cannot satisfy it at all, although he is endeavouring to do so. The Registrarship of this city has been vacant since the day of the general election, yet it cannot be filled, because there are not enough offices to go round. The two bailiffs appointed by the late Government were dismissed and now it has been necessary to appoint three to do the work, which was conveniently done heretofore by two."

The action of the Whitney Government in importing a Yankee financial expert to look into Ontario finances is, to a considerable extent, paralleled by its action in reorganising the staff of the Agricultural College. Two of the former members of the staff have "resigned," and of the three appointed in their stead, two are native Yankees. Apart altogether from the alien labour law, the appointment of foreigners over the heads of Canadians is unpatriotic, and the outcome of an unpatriotic policy. We certainly have in Ontario, or at least in Canada, native born and educated British Canadian subjects fitted to occupy the positions and enjoy the honours and emoluments appertaining to the high offices in question. Judging by the results we need not go to the Yankees to learn how to successfully cultivate our soil or make cheese, and butter. The appointment of these foreigners is an insulting slight to Canadian talent. The Conservatives are experts at waving the old flag at election times, but when it comes to the distribution of positions of honour and emolument, Canadian boys born, bred and brained under the old flag, have to "take a back seat" to a foreigner who talks through his nose and hates everything British but British gold.

SEPARATE SCHOOL BOARD MEETING

Regular Monthly Meeting Was Held on Wednesday.

The regular meeting of the Separate School Board was held on Wednesday night, the members present being Messrs. Murty, (Chairman); Burns, Henry, Carruth, Goselin, Hickey, Hourigan, and Primeau.

The minutes of the last meeting were read and confirmed.

Accounts were received from:—

A. H. Stratton & Co.	$11 13
F. S. Schneider & Co.	4 00
G. W. Green	1 75
F. R. J. Macpherson	15 60
City Grocery Co.	5 95

Referred to the Finance Committee.

The Treasury Department enclosing cheque for $509 in payment of grant for 1905.—Received.

On motion of Messrs. Goslin and Henry, the matter of having the needed repairs in the schools which requires to be done during the holidays was left in the hands of the Property Committee.

The Board adjourned.

WANTON WASTE OF OUR RESOURCES

Destruction of Fish is Deprecated by Mr. C. B. Foster

Says if Properly Developed Northern Ontario May be Made Playground For Half the Continent.

"Millions of revenue will be secured to this Province if a policy is pursued to encourage the development of Northern Ontario as the summer playground for more than half the continent, which it is naturally suited to become."

This was the statement of Mr. C. B. Foster, District Passenger Agent of the C.P.R., who has just returned from the north, and was greatly impressed with the wonderful natural advantages of the country as a summer resort.

"The region between Georgian Bay and James Bay is full of beautiful lakes and rivers, well stocked with fish, and the climate and surroundings are all that could be desired," said Mr. Foster. "But it requires developing and should be advertised more. Another very important mattr that requires attention is the protection of the fish and game of that district. The laws should be a little stricter and should be better enforced. But this is hardly possible without a strong public sentiment behind the regulations. If the people of Ontario appreciated as they should what an asset this great summer resort can be made to the Province they would be much more interested in protecting the fish and game, which are one of its great attractions. At the present time fish are caught in great numbers—far more than can be used — and thrown away to rot. This should not be allowed. It shows a want of the real sporting spirit, and it will only result in the depleting of those waters."

A Fish Story.

In urging the need of restricting the catching of fish to the dictates of a proper sporting spirit, Mr. Foster told a good summer yarn of a gentleman who has gone up there regularly for some years. "He used to go fishing a couple of hours every day during his two or three weeks' stay. Every time he caught a fish he drew it out, weighed it with small scales he carried, made a note of it, and threw it in again. He did this with ten or a dozen a day, taking home what he wished to use and no more. He had the real sporting spirit, and saw no sense in throwing the fish on the bank to rot after he had attained his object. Netting is prohibited, of course, but even the free use of the hook and line will be very serious. There was a case I saw the other day where a man and his wife caught 60 or 70 fish when they could not possibly use more than 10 or 15.

Where We Will Benefit.

"The Government should start a campaign to educate the people regarding the significance and importance of the protective regulations," continued Mr. Foster. "This has been done in the State of Maine, where it is claimed that every summer tourist who goes into the State takes one pound of fish and game, and leaves $5 in the pockets of the people. I think the inspectors are doing all they can, but they could do more if they had better backing in the shape of public sentiment. The number of fish to be caught should be limited and inspection should be thorough.

In New Zealand the Government has a portfolio for advertising the resources of the country and its facilities for various manufactures, and along with this they try to develop the tourist trade. They endeavour to protect and encourage the sporting intrest, and also advertise abroad. They have offices for this purpose—London and New York. They also have lectures delivered and the people are educated as to the importance of the subject. I think the same course could very profitably be adopted in this country. Northern Ontario is an ideal place to spend a summer vacation, and we have close beside us a large population who are just looking for such a thing, not to speak of others who would come from other countries."

"Let Go" Prices

Every wide-awake merchant knows that there's a time to "let go" prices, and LeBrun & Co. believe August is the right time. The price tickets show how we're doing it.

Summer Underwear — 20c, 25c and 50c. The 50c line is silk finished and sold for 75c.

Outing Shirts—regular 75c and $1.25—August prices 50c and 75c

Fancy and Plain White Vests reduced to $1.00, $1.25 and $1.50.

Fancy Socks, reduced to 10c, 15c, 20c—Regular 20c to 25c.

Just received 15 dozen Soft Front Negligee Shirts, latest patterns, regular $1.00 and $1.25—August price 75c

H. LeBrun & Co. Two Entrances George and Hunter streets

Forman

315 George Street,

Has been a citizen of your progressive city for a little over a year.

Your kind appreciation has brought to him a steadily growing business.

Other interests have called him elsewhere and he takes this opportunity of thanking the people of Peterborough and vicinity for the liberal patronage bestowed, and would assure them it has been fully appreciated and he will carry away pleasant memories them and their town.

Mr. John Hill

who has bought the business will be pleased to see all former patrons and many new ones.

We solicit for him a fair trial believing he will prove worthy of your confidence.

With very best wishes for the people and city of Peterborough.

W. C. Forman

TIME'S UP

TAN SHOES MUST GO

We never carry over TAN SHOES. There's plenty of time to wear them but not so much time to sell them. So we have been through our stock and put

A Farewell Price

On every pair of TAN SHOES we own and now they must vacate. Men's, Women's and Children's Tan Shoes of every style at prices so low that you'll not be able to resist the temptation of buying a Few Pair.

Come At Once To

EXCITING EXPERIENCE

OF TWO YOUNG LADIES ON STONY LAKE WATERS

Inexperienced Canoeists Went Out Into the Lake With a New Boat Which Leaked and With Difficulty They Reached Shore—Yesterday's Excursion From Port Hope and the Programme of Sports—Regatta at Clear Lake Next Week—Many Interesting Personal Items—Peterborough Visitors at the Lakes.

Special Staff Correspondence.

Stony Lake, August 4th. — Last night's dance at the Juniper Island Pavilion, was not so largely attended as those of the previous evenings of this week. This was not surprising in view of the fact that the regular nightly attendance has exceeded by far that of any previous year. The masquerade ball on Saturday evening is being looked forward to with great interest, and to judge by the preparations being made for it there is no doubt that it will be one of the most pleasing social functions of the season.

Port Hope Excursion.

The excursion yesterday of the employees of the Standard Ideal Sanitary Co., of Port Hope, to McCracken's Landing, was one of the largest and most enjoyable of the season. The party, which numbered over 400, came from Port Hope by the morning G. T. R. train to Lakefield, and thence to the Lakes by the steamer Stony Lake, the commodious steamer carrying as well a large number of regular passengers.

The excursion reached McCracken's about 11 o'clock, where the day was most enjoyably spent. The 45th Regiment Band was in attendance and contributed greatly to the pleasure of the outing by the charming musical selections which they rendered during the day.

After the party had landed a programme of sports was proceeded with and furnished much amusement not only to the excursionists but to the many campers and cottagers, as well, who assembled to witness them.

The following were the events, prize winners and prizes:

Boys' Boat race.
1—H. Eldridge, mouth organ.
2—J. Lewis, knife.
3—C. Miller, magnifying glass.

Girls' Race.
1—Olive Rankin, hand glass.
2—L. Armstrong, fan.

Ladies' Hammer Race.
1—Mrs. J. Lawrenceson, lady's bath tub.

Men's Smoking Race.
1—P. Rowdon, gentleman's bath tub.

Hop, Step and Jump.
1—J. Henderson, pair cuff links.
2—R. Winters, bill pole.

Fat Man's Race.
1—J. Swegart, pipe.
2—G. Orr, fish tray.

Tots' Race.
1—Miss Ruby Dunlop, horse.
2—Other entries, a book each.

Ladies' Race.
2—Miss Lee, chatelaine bag.
2—Miss Lee, Chatelaine bag.

Running broad jump.
1—W. Blood, silver tray.

Peanut Scramble.
11—L. Armstrong, cup and saucer.
2—H. Jewell, cup and saucer.

Consolation Race.
1—Thos. Graham, $4 chair.

Three-Legged Race.
1—T. Graham, box of cigars.
2—W. Lawrenceson, box cigars.

Quarter Mile Race.
Q 11—R. Winters, box cigars.

The prizes were awarded on the return trip. The committee in charge of the affair, who are to be congratulated upon the success with which their efforts were rewarded, was composed of the following gentlemen: Messrs. F. Powers, F. Thomas, F. Dickenson, H. Davis and J. Stevens.

The members of the party spoke in the highest terms of the charming nature of the trip, and will undoubtedly look forward with great pleasure to a return next season. The party returned by the regular boat at four o'clock.

Ladies' Thrilling Experience.

An exciting incident occurred on Tuesday afternoon which might have been attended with serious consequences had it not been for the coolness and presence of mind of the participants.

Two young ladies, who were quite unfamiliar with the art of canoeing, ventured out some distance upon the lake in a canoe which had just arrived from the factory, and was given its initial plunge into aqua pura. The bodies, notwithstanding the fact that they were novices, made an excellent start, but when some distance out noticed that the craft leaked considerably, and on continuing their journey the influx of water gradually assumed alarming proportions. They naturally became somewhat panic-stricken, but their terror was only momentary, however. After turning as rapidly as possible, they struck resolutely for the shore, by this time about half a mile distant. The boat filled rapidly, and before a landing was effected, was more than half full. A number of people who were out upon the lake hastily responded to the calls of the ladies for assistance without being aware of the perilous nature of their position. By dint of unusual exertions the fair canoeists made the return journey unassisted, in record time, and reached terra firma with a feeling of gratitude which may easily be imagined.

West End Regatta.

The West End Regatta, which will be held on Tuesday next at Clear Lake, is awakening a lively interest, and present prospects point to a highly interesting programme of aquatic sports. It is expected that the canoeing events will be keenly contested, and that in each there will be a large number of entries. The spot chosen, Sandy Point, is an ideal one for such an affair, the cool, grassy slopes leading down to the Point, forming a natural amphitheatre, from which one commands an excellent view of the course, and admirably suits the purpose of the spectator.

Personal Notes.

Mr. Richard Hall went down to the city yesterday.

Mr. J. S. Knapman came up to his cottage last night.

Mr. and Mrs. O. V. Cramer left for their home in Cleveland this morning, after a two weeks' sojourn at the Victoria House.

Mr. W. J. Green is a guest of Hon. J. R. and Mrs. Stratton at Strathormond-on-the-Lake.

Ald. Leary took a trip up the lakes on Tuesday.

Among the recent arrivals at the Victoria House were Mr. and Mrs. J. W. Binnie, Westmount, Que.; Mrs. G. S. McCabe, Richmond, Ind.; Mr. E. W. McCabe, Pittsburgh, Pa.; Mrs. H. H. Gray, Indianapolis, Ind.; Miss N. A. Seitz, Rochester; Miss H. C. Diemer, Rochester; Mr. A. L. Baum, New York; Miss M. Wollstein, New York; Mrs. J. E. Harris, Rochester; Mrs. Crisfield, Rochester.

Miss Gertrude Young returned to the city yesterday for a few days.

Mr. and Mrs. Ebersol, of Cleveland, returned home yesterday after a week's stay at the Victoria House.

Mr. C. C. Brayley, of Toronto, has returned home after a three weeks' stay at "Pepacton."

Mr. C. Seymour has returned home from a week's outing at Glenwood.

Miss Elaye Pense, of Kingston, is a guest at Brittania.

PERSONAL MENTION

At Oke's.

We are receiving fine raspberries, blue berries, and cherries. Would advise early buying, especially of cherries, as they will soon be done. H. A. OKE, 370 George street. Telephone, 16.

TWO EXCURSIONS BROUGHT ONE THOUSAND PEOPLE HERE

Yesterday there were at one time in the city two excursion parties, from different points, and numbering, in the aggregate, nearly one thousand people.

The Orillia firemen and band ran an excursion yesterday to Port Hope. The special train carried over five hundred people. It reached this city during the forenoon, and a goodly number of the passengers disembarked here, preferring to spend the day here to going to Port Hope.

On the return trip the train stopped here about three hours, leaving after the nine o'clock train from Lindsay had arrived, and during this interval the excursionists had an opportunity of seeing the city. The band, which accompanied the excursion, played several selections on the street.

About six o'clock the special train from Lakefield, carrying the employees of the Ideal Sanitary Mfg. Co., of Port Hope, from the Lakes, arrived in the city, carrying another crowd, numbering well up to half a thousand, and for two hours the population was augmented by nearly one thousand persons. They paraded the streets and made the town lively.

DATE WAS FIXED FOR CHEMONG REGATTA

A Hop Will Also be Held—Committees Were Appointed.

The committee in charge of the Chemong regatta held a meeting last night to decide the date for the annual regatta.

August 22nd was definitely fixed upon as the date, and it was further decided to have a ball in the evening. Committees were appointed and an appropriation was set aside for prizes.

The regatta at Chemong has always been a successful affair, and is ever looked forward to by those who enjoy boating.

This year the entries promise to be larger than ever, and some good races will be witnessed.

CAUSE OF FALLING HAIR.

Dandruff, Which is a Germ Disease—Kill the Germ.

Falling hair is caused by dandruff, which is a germ disease. The germ in burrowing into the root of the hair, where it destroys the vitality of the hair, causing the hair to fall out, digs up the cuticule in little scales, called dandruff or scurf. You can't stop the falling hair without curing the dandruff, and you can't cure the dandruff without killing the dandruff germ. "Destroy the cause, you remove the effect." Newbro's Herpicide is also a delightful hair dressing. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Company, Detroit, Mich. Ormond & Walsh, special agents.

BIRTHS.

MAHER.—At 238 Stewart street, Peterborough, on Friday, August 4th, 1905, the wife of Mr. Jos. Maher, of a daughter.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

At the opening of the enquiry by the Parliamentary Special Committee on Telephone Systems it was charged that the existing Telephone Companies in Canada had absolutely neglected and discouraged the extension of the Telephone to rural communities. The person who made this charge was either ignorant of the facts, or he made a sweeping misstatement wilfully.

The sworn testimony of the officials of THE BELL TELEPHONE COMPANY OF CANADA shows that this Company has been giving constant attention to this branch of Telephone development since 1887—that we have been fifteen years in advance of the times in exploiting rural service. The Company has spent thousands of dollars in promoting and constructing rural Telephone Lines, many of which had afterwards to be abandoned for lack of support, and others have been maintained for years at a loss as an educative example. This has been supplemented by frequent and expensive personal canvasses over many districts to induce development of this class of service. Where rural communities have preferred to supply their own Telephone service on the co-operative plan, the Bell Telephone Company has aided and encouraged them by loaning experienced men to supervise their line construction and installation of instruments, and afterwards by making further expert inspection and repairs. This Company has then given connection to such lines with its Local and Long Distance Systems where the equipment of the local concern was in condition to give satisfactory service, and where they were not in direct competition with this Company's own business. The Bell Telephone Company has in addition to its own extensive and rapidly extending rural line system, working arrangements and an exchange of service with about forty such local systems.

It is only within the past three years that farmers have come generally to realize the practical advantage to them of Telephone service. Previous to that, farmers regarded the Telephone as a luxury which a few were prepared to pay for for a time, but in most cases soon to be abandoned. Even yet a great many farmers see an advantage only in being connected with their neighbours. But they are commencing to realise the necessity to them as well as to those in towns and cities of being connected with one general system, constructed in such a thorough manner as will insure permanency and a constant and efficient service.

The Bell Telephone Company of Canada has been doing pioneer work in this as in other branches of Telephone development for twenty years, and is to-day in advance of the movement. We have now over two thousand rural Telephone subscribers and nearly eight hundred Toll Offices supplying service to rural communities. As we have pointed out, development of this class of service has only fairly begun. The season of 1905 will add more farmers' Telephones to the Company's system than all the years before, and already hundreds of extensions for 1906 have been approved or are now being exploited.

The policy of the Bell Telephone Company of Canada, declared before the Special Committee, has been, and will continue to be, to develop Telephone service for every interest and every section of Canada in which it operates, and in this respect to keep pace with the public requirements. We may add that we deserve the continued support and confidence of the people by giving an efficient service at reasonable rates.

PETERBORO' YACHTSMEN DID WELL YESTERDAY AT STURGEON POINT

Two Peterborough Built Dinghies Took First and Second Places in Fast Race Yesterday—Most Successful Regatta in History of This Interesting Annual Event—3000 Persons Were Present—Seven Special Excursions to the Point—Peterborough Contestants Took Good Share of the Prizes.

Special to the Examiner

Lindsay, Aug. 4.—The annual regatta at Sturgeon Point yesterday was by all odds the most successful in the history of that popular resort. Not only were the races more interesting, but the attendance was much larger, a conservative estimate placing the number of persons present at 3,000, and they came from all over the lakes. No less than seven excursions were run to the park yesterday from the following places: Peterborough, Chemong, Fenelon Falls, Bracebridge, and three from Lindsay. The crowds were so great that the trains were running to Lindsay last night until 10.30, bringing the passengers home from the regatta.

One of the most notable features of the event was the fact that the Peterborough people captured the major part of the prizes, and in the dinghy sailing race, out of a large number of entries, two Peterborough built boats captured first and second prizes, the others being Toronto boats, and the third boat was beaten by two miles. The winning boat was sailed by Mr. Hopwood, of Chemong, and Mr. Milne Hamilton, of this city, took second place. There were from thirty to forty launches on the lake, and the scene which presented itself to the visitors was indeed a pleasing one.

The committee in whose charge the regatta arrangements were are to be warmly congratulated upon their success, and future events of a similar character will, by reason of the success of yesterday, be looked forward to with pleasure.

The winners of the different events yesterday were:

Sailing Race, for the championship flag—S. A. Bates, Stony Lake.

Canoe Sailing—Bert. Hopkins, Chemong; Geo. Bratt, Lindsay.

Canoe Paddling, tandem—Simpson and Jordan, Lindsay; Weekes and Roy, Peterborough.

Canoe Paddling, ladies' tandem—Misses Allan and Grantham, Lindsay; Misses Hunter and Hamilton, Peterborough.

Canoe Paddling, boys' tandem—Messrs. Knowlson and Warner, Nicholls and Quinn.

Ladies' and Gentlemen's Canoe Race—Miss E. O'Leary and Mr. A. Simpson, Miss Allan and Mr. W. Gross.

Miss E. O'Leary and Mr. A. Simpson, Miss Allan and Mr. W. Gross.

Crab Race—Mr C. McDonald, Lindsay; Mr. A. Weekes, Peterborough.

Canoe Paddling, four ladies—Lindsay ladies—Misses Allan, May Allan, O'Leary and Grantham; Chemong ladies. The latter made a splendid run and were a good second.

Canoe Paddling, men's singles—P. Nicholls, H. Simpson, G. Warner, Lindsay.

Gasoline Launch, any size—Bates' "Foxy," Wilson's "Roy," Cullen's "We're Here," Morgan's "Alva."

16-Foot Gasoline Launch—Hopkins' "Viking," Jones' "Water Baby." There were seven entries in this race.

Gunwale Races—Fred. Hopkins, F. McDonald.

Dinghy Race—W. J. Hopwood, Chemong; Milne Hamilton, Peterborough.

Upset Race—A. Weekes, Peterborough, F. Hopkins, Chemong.

Tilting Tournament—Hopkins brothers, Ryerson brothers.

It will thus be seen that in the races Peterborough contestants more than held their own with those from other places.

THE LOCAL BOWLERS WON AT MILLBROOK

Defeated Them in a Friendly Game Yesterday—The Local Games.

Two rinks of bowlers visited Millbrook yesterday afternoon and spent two hours most pleasantly as guests of the Millbrook Bowling Club. The play throughout was very close and at times most exciting, as not more than a couple of points separated the contestants at the close of forty ends' play, Peterborough eventually winning by the following score—36 to 34. The rinks were as follows:—

W H Lunn	Wm Leech
Dr. Marshall	R Dawson
J E Dies	D Hampden
W E Talbot, skip	R J Cluff, sk 16.
M C Ketchum	Rev. R W Spencer
A W Kidd	E T Adams
D H Moore	A A Smith
C H Giroux, sk 18.	J R Eakins, sk 18.

The following games were played last evening:—

W H Lunn	J Titterson
R Cotterell	W Smith
F H Dixon	R Sourgeon
H Saunels, sk 15.	B Frost, sk 7.
Dr. Caldwell	A Bellegham
C B Stevenson	J H Farquhar
A E Kidd	J W Green
D Belleghem, sk 27.	G K Martin, sk 3.
C E Elliott	W Johnston
J Cunningham	W Robinson
C H Giroux, sk 22.	W H Moore, sk 9.
R Mitchell	W Dayman
J E Dies	S Sharpe
A Moore,	T E Pratt
J McIntyre, sk 15.	W Thompson, sk 11.

Schedule for to-night:—

Martin vs. Talbot.
Lech vs. Saunels.
McClung vs. Kidd.
McIntyre vs. Thompson.
D H Moore vs. Johnston.

TO-MORROW'S GAME AT PORT HOPE

A Great Contest is Assured, But the Locals Are Out To Win.

There are only two games scheduled in the Midland League to-morrow, but those two are very important as to the leadership in the league is at stake.

Bowmanville goes to Cobourg and the odds are in their favour. The locals journey to Port Hope to play the match in that place and if they do not have an attack of stage fright they ought to come out on top.

The match between Burnside is the plainstay of the lake town team, but he will meet his match in Gaskins, who will probably dish up the shoots for the Pirates. The Port Hopers are out to win, but the locals are also going down for the same purpose and a good close game is sure to result.

ROYAL CANADIANS HERE ON MONDAY

The Greatest Game of the Season Will be Played on Monday.

Posters are out announcing the great game on Monday. The Old Boys are coming down one thousand strong, bringing with them the Royal Canadians, the strongest amateur nine in Toronto. The Royals have never been beaten and Oshawa using their battery administered the first defeat to Bowmanville. This will give the fans a good opportunity of comparing the play in the Midland League with the play in the Toronto Senior League. The game will be pulled off on Riverside Park at 2 o'clock sharp.

BASEBALL.

The work of Mr. Stacey, who umpired the game between Charlotte Street and St. Andrew's on Wednesday night, was satisfactory to both teams, and the references to it in last night's issue of this paper were fully justified. Mr. Stacey, this year, has been one of the best umpires in the Gulf League.

* * * * *

Charlotte Street team will give a couple of men to the team which will play against the Night Owls to-morrow at the Riverside Park.

* * * * *

To-night the last half of the final game for the Gulf League championship will be pulled off on the Petterson street grounds. Charlotte Street has ten runs to St. Andrew's nil and look like sure things, but as they say "you never can tell". The line-up of the teams will likely be the same as on Wednesday night.

* * * * *

Belleghem's home run will likely be the only one recorded in the competition for the $5.00 hat donated by Mr. Jim Thompson to the one making the most home runs in the Havelock team during the League games since he presented the headgear.—Havelock Standard.

Stomach and Liver Troubles.

Mr. Alex. M. Finn, Inkerman, B.B., writes: "I have used Dr. Chase's Kidney-Liver Pills for derangements of the kidneys and liver and stomach troubles, and can certify that they did me a good deal of good. I can heartily recommend them to anyone suffering as I did."

—The Farmers' Institute of East Peterborough has arranged to hold a two days' meeting at Keene about the first of December, at which they judging of five breed horses, cattle and swine will be taken up. This should induce a very large attendance at the meeting.

ANNUAL LADIES' GOLF MEETING

Will be Held on Links of Royal Montreal Golf Club

The Royal Canadian Association's Annual Meeting.

The fourth annual ladies' meeting of the Royal Canadian Golf Association will be held on September 18th, 19th, 20th, 21st and 22nd, on the links of the Royal Montreal Golf Club, of Dixie, P.Q.

The annual handicap of the Association and the ladies' championship of Canada will be played for.

Annual Handicap of the Association.

First, second and third prize and prize for best gross score.—Open to lady members of a club belonging to the Association, and who have resided or been domiciled in Canada for a period of six months prior to the 18th September, 1905. One round of 18 holes, medal play, handicaps limited to 18 strokes. Play off of ties to be decided by the Executive Committee.

Ladies' Championship of Canada.

First prize, the Association Gold Medal.

Second prize, the Association Silver Medal.

The sixteen players returning the best gross scores in the annual handicap will be drawn against each other for the ladies' championship. Each game shall consist of 18 holes match play. Ties in the qualifying round or in the match play to be decided by the first additional hole won.

The sixteen players returning the second best gross scores will be drawn against each other in the consolation competition for a prize to be given by the Association. In the event of there being over 40 entries there will be a second consolation to be played for on the same conditions as the Consolation.

Competitions in driving, and in approaching and putting, will also be held, in each of which there will be a first and second prize.

Programme.

Monday, Sept. 18.

2 p.m.—Open handicap and qualifying round for the ladies' championship, and consolation competition. Medal play 18 holes.

Tuesday, Sept. 19.

2. p.m.—Championship competition; first round. Consolation competition; first round. Match play 18 holes.

Wednesday, Sept. 20.

10.00 a.m.—Driving competition.

2.30 p.m. — Championship competition; second round, Consolation competition; second round.

Thursday, Sept. 21.

10.00 a.m. — Approaching and putting competitions.

2.30 p.m. — Championship competition; semi-finals. Consolation competition; semi-finals.

Friday, Sept. 22.

10.30 a.m. — Championship competition; finals. Consolation competition; finals.

In the event of the finals for the championship or consolation being between a Quebec and an Ontario player, the match will be played at 2.30 p.m.

2 p.m. — Interprovincial Match. — Quebec vs. Ontario. Each team shall consist of not less than ten players.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. BOWEL POISON.

Thousands of Men and Women Poisoned and Don't Know It.

HOW TO FIND OUT.

Bowel poison means blood tainted by foul secretions absorbed from the bowels. Here are the symptoms:

If your skin is disfigured by eruptions, humors, pimples, blotches, sores or eczema; if you itch and burn and your skin is scaly and rough; if you feel tired and worn out, your nerves weak, constipated, cross and depressed; if your head feels heavy and aching, your eyes blur and specks float across your vision; if you have cold feet and your hands get sweaty and sticky—if you have these danger signals they point unerringly to bowel poison, impure blood, and show that your stomach, liver and bowels are not working right.

Smith's Pineapple and Butternut Pills are what you must have to make your bowels right; they will remove the impurities from your blood by toning up the liver and bowels so that they will perform their functions naturally and regularly. They cleanse and invigorate the blood by stimulating the sluggish liver and regulating the bowels by their gentle laxative action. They are a sure and unfailing cure for bowel poison in young or old.

Smith's Pineapple and Butternut Pills cure constipation, biliousness and headache in one night, 25 cents, all dealers.

All genuine signed W. F. Smith.

THE LIBERALS OF ALBERTA MEET

Convention At Calgary Decides On Party Contest.

MACLEAN HITS HIS LEADER

Member For South York Declares the Conservative Party Was Never So Badly Handled — Clique Rule and Insidious Attack Upon Those Who Are for Bigger and Cleaner Play.

Wexford, Ont., Aug. 4.—Mr. W. F. Maclean, M. P. for South York; made his first public deliverance after the recent session at Ottawa, at a meeting last night in the little hall near the Methodist Church here, which is about a mile and a half from his residence, and took the opportunity of lashing out vigorously at Liberals and Conservatives alike. His speech was largely an explanation of why he did not accept the additional $1,000 sessional indemnity and a criticism of both parties in connection with the autonomy bills and the increased indemnities and the salary voted to the leader of the Opposition.

Conservative Party Badly Handled.

Mr. Maclean expressed regret that some of the Conservatives from Ontario were still in touch with Graham-Tupper methods, and said the Conservative party was badly in need of some reorganization, while the rank and file of the party in the Province was good; he never saw such good material so badly handled as had happened since the death of Sir John Macdonald. "They do not," he said, "believe in principles, they do not believe in high-class, open organization, in a great national convention of Conservatives to readjust and renew their principles in the light of progress, but are for clique rule by clique methods and insidious attack on those who are for bigger, wider and cleaner play."

ALBERTA LIBERALS.

Platform Upon Which They Will Go to the Province.

Calgary, Aug. 4.—The Provincial Liberal convention opened here yesterday and organized. The proceedings were most unanimous and harmonious, and, though vital questions affecting the future of Alberta were under consideration, there was not even a division during the adoption of the platform. The officers elected are:—Honorary Presidents, Hon. Frank Oliver, P. Talbot, M.P., Dr. Stewart of Calgary, M. Mackenzie of MacLeod; President, A. C. Rutherford, M. L. A., Strathcona; Secretary-Treasurer, C. A. Stewart, Calgary; Vice-Presidents, C. W. Cross of Edmonton, W. Cushing of Calgary, A. R. Dixon of Strathcona, A. B. Macdonald of MacLeod.

Dr. Deveber, M. L. A., Lethbridge, proposed a resolution to the effect "that as the Conservative convention called at Moose Jaw by Mr. Borden had organized a Territorial association, and had resolved to place party candidates in the field in all the electoral divisions at the next election, which resolution had not been disavowed or rescinded, but the officers then appointed had accepted and retained office, the Liberals should place candidates in the field in every constituency for the election for the new Legislature. This was carried enthusiastically by a standing vote. Last night the Calgary Liberals are entertaining thev visitors at a banquet.

The platform as adoped contains fifteen clauses. The first clause adherence to Liberal principles and tradition, and to responsible Government; for vigorous repression of monopolistic encroachment; for steady progressive administration, and watchful and continued attention to the wants of new settlers.

The second declares adherence to the principle of Provincial rights and a determination to maintain unimpaired the full legislative and executive authority of Alberta under the constitution.

Clause three declares for an efficient system of common schools, giving to all classes the opportunity for good education, and that schools should receive liberal financial aid, but should be under the direct supervision and control of a Provincial department.

Clause four asserts a desire to acquire and retain Provincial franchises, although recognizing that business enterprise should be encouraged in every legitimate way.

Clause five declares for fostering agricultural and ranching industries by establishing dairy instruction, and encouraging cheese factories, creameries, forestry, fruit growing, live stock breeding, and all branches of institutions calculated to be of advantage to the industries.

Clauses six, seven, eight and nine favor strong administration and progressive road-building by the Province, investigation of the Hudson's Bay route and encouragement of mining.

Clause ten regrets the necessity which existed for the introduction of the exemption of the railway lands clause in the Alberta act and urges its removal at the earliest date possible.

Clause eleven suggests that the Federal Government take immediate steps to set aside sufficient public money to permanently endow a Provincial university and agricultural college in connection therewith.

Clause twelve firmly declares against incurring public debt by pledging, alienating, or hypothecating any Provincial assets, as the revenue provided in the act are sufficient for all the present or prospective requirements of a Provincial Government.

Clause thirteen arrays the Liberal party on the side of the municipalities, urging that they be given every opportunity to retain or acquire public utilities, and that protection be given them against corporations in so doing.

Clause fourteen expresses conviction that in establishing public institutions or buildings all parts of the Province should be duly considered, with a view to public convenience and prompt despatch of business.

Clause fifteen calls for the vigorous administration of justice and a simple method of protecting civil rights.

TIRED OUT.

There's many a wife sits in the growing darkness of an evening, knowing what it is to feel tired out; as if there was not another ounce of effort left in her. But if healthy she knows how sound her slumber will be and how refreshed the morning will find her. But it's another thing for the sick woman to feel tired out. Rest only seems to increase her suffering. She feels acutely the aching back and throbbing nerves.

Sick women, hundreds of thousands of them, have been made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I am pleased to inform you of the benefit I received from using Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,'" writes Mrs. Elizabeth A. Oswold, of 25 Grant Street, Windsor, Essex Co., Ontario, Canada. "Was quite discouraged when I wrote asking your advice, as the physicians here told me I could get no relief except by an operation. Suffered for four years from irregular and profuse menstruation, had sick and nervous headaches most of the time, and at times could hardly walk across the floor from weakness. I thank God there is such a remedy as Dr. Pierce's Favorite Prescription for suffering women. Before I had taken the first bottle the headaches had left me and it was not long before regularity was established and still continues so. Have just finished house-cleaning which I never expected to be able to do again, and can truly say I never felt better than at present. I gladly recommend 'Favorite Prescription' to all who suffer from female weakness. It has cured me and made me stronger in every way. Neither my husband nor myself can say enough in its praise."

The selfish seller who urges some substitute is thinking of the larger profit he'll make and not of your best good.

BAND PLAY IS NOW AT AN END

Semi-Centennial Celebration At the "Soo" is Ended.

THE TRIUMPH OF COMMERCE

Prominent Men Speak—Fitting Close to Commemoration of Historical Event —Vice-President Fairbanks, Hon. Mr. Lemieux and Hon. Raoul Dandurand Utter Appropriate Sentiments— Tie That Binds.

Sault Ste. Marie, Aug. 4.—The big celebration of the semi-centennial of th construction of the first canal lock on the American side of the St. Mar's River was concluded yesterday afternoon. Yesterday's exercises were chiefly speechmaking by the official visitors representative of the United States, Michigan and the Canadian Governments. The exercises were held on the canal park, which was filled with crowds almost as large as those of Wednesday. The speakers included Hon. Chase S. Osborne, who welcomed the visitors; Vice-President Fairbanks, Governor Warner of Michigan, Hon. Peter White of Marquette, Attorney-General Lemieux and Senator Dandurand, representing Canada, and others.

Vice-President Fairbanks, in his address, said:

"We cordially welcome our friends from Canada to share in this celebration. The event we commemorate is of mutual interest to the people of the two countries. There, side by side, are the great locks, one constructed by the United States and the other by the Dominion of Canada. Through them passes interchangably the commerce of the two countries. Here they will stand in close fellowship for centuries to come. We trust that they will always be symbolical of cordial relations and neighborly regard of the two peoples through whose veins flows the blood of a common ancestry.

We owe allegiance to different institutions. Above us are different flags, emblems of the mightiest powers upon this earth. We have no sense of rivalry except in those ways which make for a higher and better civilization.

"There are no fortifications along our common frontier; no battleships upon the waters which divide us. These are not needed now and we trust that, in God's providence, they shall never be required. We are the respecters of each others institutions, of each others laws, of each others rights. We are bound to each other by strong social ties and sentiments of mutual respect.

"The national policies of the United States and Canada may not be in accord. If they be not, it will be due to no unfriendliness of purpose, but to that sense of duty which each primarily owes to its own. The sceptre of commercial power is speedily passing into American control. The conquest will be achieved by men of trade and not by men of war. It will come by an irresistible law of commercial gravity."

Boom For the St. Lawrence.

Hon. Rudolphe Lemieux said, in part: "If ever there was an occasion when both Americans and Canadians should unite in the celebration of an event calculated to bring — nay, to assure peace and harmony between the two countries, this, indeed, was the most fitting, the most appropriate. With the good-will of both and with a fair policy in matters concerning trade relations, there is in store for them a future of much brightness as will overshadow all other nations, past or present."

Hon. Roaul Dandurand, Speaker of the Senate of Canada, said: "We know what you have done for the betterment of navigation on the lakes and how helpful you have been to our mariners. We hope to be able before another half century is completed to reciprocate in kind by offering you a direct outlet to the sea, through a 20-foot waterway via the Ottawa and St. Lawrence Rivers, thus saving you the annoyance of twice breaking bulk before reaching a European port."

CONSERVATIVE WHIP.

George Taylor, M. P., Promises to Remove Tax on U. S. Fishermen.

Watertown, N. Y., Aug. 4.—At the annual meeting of the St. Lawrence River Anglers' Association, held at Alexandria Bay, George Taylor, member of the Canadian Parliament, promised the abolition of the present embargo on American fishermen in Canadian waters, whereby a license of $5 per rod is required.

The following officers were elected: President, C. R. Skinner, Watertown; treasurer, R. P. Grant, Clayton; secretary, W. H. Thompson, Alexandria Bay.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

EVIDENCE BY DEDUCTION OF ILLEGAL DEER SHOOTING

There is a great deal of interest developed at present over the revision of the game laws in relation to the preservation of game. It may not be generally known that deer are being shot perhaps every day in the north country. As evidence the following incident may be presented. Some tourists, were, a few days ago, enjoying a fish on the north shore of Stony Lake. Suddenly two rifle shots were heard. Presently, the baying of hounds, hot on the scent, was heard, and these sounds suddenly ceased, when the hounds came to their quarry which had been brought down by the ambushing rifleman. Thus without seeing anything the whole story was told to the tourists. The hounds had raised a deer, men. Thus without seeing anything the men that owned them had shot a deer in the close season. Ocular demonstration and a shoal of eye-witnesses were not needed.

CITY COUNCIL ASKED TO HELP THE LOCAL DAIRYMEN

At the next meeting of the City Council, which will be held on Monday night, the question of what action the council should take in reference to securing the next annual meeting of the Eastern Ontario Dairymen's Association, will probably come up for discussion.

It will be remembered that at the cheese board meeting on Wednesday, the matter was discussed and a committee appointed to confer with the City and County Councils in reference to making some forts to get the dairymen to come here for their meeting in January next.

Yesterday Mayor Best received a letter from Mr. G. A. Gillespie, in which he asked for an appointment with the council to bring the matter before them.

The Peterborough district is a most important one from a dairy standpoint, the number of cheese sold here being the third largest of any board in the Dominion, and it is felt that it is but a just recognition of the importance of this district.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions. Inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Mr. Editor,—Isn't it humiliating? I noticed in last night's Examiner that Rev. W. L. Armitage, a former resident of Peterborough, and Mr. Warren, chairman of the Picton High School Board, are on a tour of inspection of collegiate institute buildings in search of pointers. No doubt, Mr. Armitage has often told Mr. Warren what a bright, busy and go-ahead place Peterborough is. How will it strike him when he sees that he can see splendid high school buildings in such one-horse, dead-alive towns as Lindsay, Cobourg and Napanee, while the great city of Peterborough has only a one-horse institute building, repeatedly condemned by the inspectors and borrowed to boot from the Public School Board? Isn't it humiliating? CITIZEN.

Editor Post Card Column, — Allow me to call the attention of the proper authorities to the fact that the sidewalk on Smith street from Park street east, is in a very dangerous condition for pedestrians. One, two and three planks are missing at half a dozen different places, and the conditions are just right for a broken leg, and the subsequent law suit which would probably follow. This portion of the street is very poorly lighted at night, but is now used by hundred going to and coming from Jackson Park in the evenings. PRECAUTION.

Post Card Editor, — Why is it that in your report of yesterday's and to-day's police court, you omitted to tell your readers the name of the hotel keeper who was found guilty of illegal selling of liquor? If a hotel keeper breaks the law, and thus lowers the reputation of his hotel, law abiding citizens should know the name of the offending hotel man in order to avoid him. PRO BONO PUBLICO.

Post Card Editor, — Though some people seem to make fun of the council's action in granting $50 for the "Old Boys' Home-Coming," let me, as one of many, commend this very wise action. There is no need of wasting the people's money by giving large grants to such celebrations, for there are quite a number of them. Besides, the Peterborough citizens have their hearts in the right place, and are right glad know that they are welcome without to welcome the "Old Boys" who having the streets decorated at the public expense. TAXPAYER.

Editor Post Card Column, — Dear Sir, — Permit me to register a kick in the "Kickers' Column." My grievance is this: Though Jackson Park is visited by thousands during the course of a week, there is no means of quenching one's thirst. There is a spring at the northern side of the park, but no means whatever, of obtaining water from said spring—no tin cup, glass, or even an empty tomato tin. Whose duty is it to remedy this state of affairs? A granite cup with a chain attached and fastened to the planking would be a great convenience. And if the spring were thoroughly cleaned, and the surroundings tidied a little, it would not be amiss. J. R.

VISIT TO PETERBOROUGH

Of W. T. Pember, Toronto, Canada's Hair King.

In another column will be seen the advertisement of W. T. Pember, Toronto, Canada's Hair King, who will be in Peterborough at the Snowden House, on Tuesday, August 8th. Mr. Pember has on exhibition hair goods of every description, comprising the very latest styles for ladies and and gents. If a message is left at the hotel he will call at your residence. It will repay you to see Mr. Pember as he is one of the most prominent Hair Dealers, Hair Dressers and Scalp Specialists in Canada.

VERY HIGHLY VALUED BROOCH PHOTOGRAPH

Was The Only Portrait of a Deceased Relative.

In the "lost" column of the Examiner an advertisement for the recovery of a gold-mounted photograph brooch appears. The owner is especially anxious for the return of the brooch, as apart from its intrinsic value, it contains the only portrait of the deceased relative of the owner, that was in her possession.

—Lindsay Post.—"It is just possible that Mayor Bay's dream of a 20 mills reduced rate may be dispelled before long. We are informed that Mr. Wm. Steers, who served five years as a Police Magistrate of Lindsay at a salary of $800 per year, has rediscovered that his good natured acceptance of that amount instead of $1,000, the salary mentioned in the statutes was ultra vires, and that in reality he was committing a wrongful act in thus divesting himself of a portion of the perquisites attached to the position.' Such being the case Mr. Steers has decided to bow to the inevitable and has, we are informed, made a demand upon the Council for the amount of the difference — something like $1,000."

CITY NEWS OF TO-DAY

—The Finance Committee meets to-night at 8 o'clock.

—Quaker Bitters, the Great Blood Purifier, at Ormond & Walsh, Druggists. 15eod

—Show Case for sale cheap. Apply at the Framery, 2 doors west of post office.

—A knife was left in a local lawyer's office to-day, and, wonderful to relate, it was recovered.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonnel street. 'Phone 189.

—Regular meeting of Court Peterborough, No. 29, C. O. F., will be held this evening in their hall, Simcoe street.

—Mr. Stewart, advance agent for the Norris & Rowe's shows, is in town and is billing the show here for August 29th.

—Tuesday, August 8th, is Hastings' civic holiday, and St. George's church of that village, will run an excursion to this city.

—The Salvation Army Band is running a moonlight excursion down the river per City of Peterborough on Wednesday evening, Aug. 9.

—The fire brigade received a call last night to extinguish a blaze in the rubbish heap on Townsend street. No damage, but much good, was done by the fire.

—This afternoon as a young man was delivering some goods a can of tea fell out of the rig, and several pounds of the precious leaves were scattered in the mud.

—A number of new series of moving pictures will be shown at the park next week. Mr. Larmonth received word to-day that they had been sent from New York.

—We clean, press and do minor repairs to your wardrobe for a trifling fee. Telephone 575, and we will send for and deliver your parcels. "My Valet," George street.

—Mr. James Laing has started to fit up his new drug store in the fifth ward, in the store formerly occupied by Mr. R. J. Weir, as a grocery store. The new store will be fitted up in the most modern style.

—Bowmanville's assessment last year was $1,095,595, and the rate on taxation was 23 mills. This year the assessment under the new act has increased to $1,112,249 and the rate will be 25 mills on the dollar.

—The engine of a freight train on the G. T. R., blew out a cylinder head a short distance the other side of Jackson Park last night about 8. The yard engine had to bring the engine and train down to the station.

—The Norwood Register, reporting the excursion to the Thousand Islands, says: 'At the close of the service we had the pleasure of greeting friends from other places, and among them the Rev. J. G. Lewis, B. A., of Peterborough, well known in Norwood. Then we joined the umbrella procession and went home, walking cautiously, for we had seen others come to grief on the slimy, board walks."

—There was a big gathering of all sorts and conditions of men, women and children last night at Jackson Park. The moving pictures were excellent and entertaining, while the music presented by the band, though only twelve out of the full band were present, was of concert calibre. A cornet solo, incidental to a Scottish selection, by Mr. Arthur Seward, was distinguished by a beautiful roundness and richness of tone quality.

—Mr. Fred. Rowe, of Campbellford, met with a painful accident at the shoe factory last week while fixing a part of the machine at which he was working. Venturing too near, his arm was caught by the belt and he was whirled toward the shafting. By some fortunate circumstance, however, before the pulley was reached, he fell, with the result that his arm was broken and he received a general shaking up. Mr. Rowe was assisted to his home.

—Mr. Isaac Lain, a farmer who resides in Stanwood, and who has been in failing health for some months past, on the advice of his physician has been taking the fresh air cure. He has been sleeping nights in a tent which he erected on his farm. On account of the rain last Saturday night he did not occupy it as usual. Some rowdy, taking advantage of Mr. Lain's absence, cut and slashed the tent with a knife, besides overturning the bed.

—A Marmora hotel proprietor is mourning the loss of $76, which he claims he was deprived of while in Havelock on Monday, July 24. Just how he came to part with his wad the hotel man is not prepared to state, but from reliable information it appears that he partook too freely of the liquid that inebriates, and while sleeping off the effects the money disappeared. Is the moral necessary?—Standard.

—Mr. C. O'Reilly last week received a cheque for $48.50, being the East Peterborough Institute's share of the net receipts on the recent Farmers' Institute excursion to Guelph. The total receipts paid over by the Railway Company amounted to $200.05, which after deducting expenses for advertising, bill posting and other expenses amounting to $54.55 left a balance to be divided between the three Institutes of $145.50.—Norwood Register.

—A quick piece of work was performed last week, when the foundation of the new bank was laid. The foundation, which is 25x50 feet and seven feet in depth, and includes a cistern and foundation for a vault, was laid with concrete in a day and a half. Messrs. Rapid Bros., the contractors, using a small portable concrete mixer. The work is of a very substantial character and is said to be much superior to stone work. —Lakefield News.

—Mr. J. L. Richmond has purchased the business of Mr. A. Cunningham, photographer, of Norwood, who is this week moving to the west. Mr. Richmond will carry on the business in connection with his gallery at Peterborough. Further announcement in regard to this will be made later. Mr. Richmond is not altogether a stranger to the people of this section, having been in business in Campbellford for a number of years before moving to Peterborough. Many persons in this vicinity are acquainted with him and the quality of his work.—Register.

—Mr. Samuel Hughes, Grand View, Man., writing to the Bowmanville Statesman, says: "I have lived in Manitoba fifteen years and have never seen better prospects of a bumper crop. Quarter sections (160 acres) of wheat from 4 to 5 feet in height is a common sight. If any Durhamite doubts me let them come out and see.

—Taxes in this town, says the Bowmanville Statesman, are expected to be 23 mills on the dollar, made up as follows:—Town rate 9 mills, school 6 1-2 mills, debentures 8 mills, county rate 1 1-2 mills. For some unexplained reason the counties rate is 2 mills more than last year. Can it be that the new C. C's are more liberal with the funds than their predecessors or how comes it thus?

—In the district about Millbrook and Bethany the barley crop has been damaged to quite an extent by the late spring frost. Oats are also affected to some extent, but not so badly. In some cases the barley is so stunted in growth that it is being cut with the mower. Rust has affected the oats quite badly, and the wheat has also been injured to some extent.—Farmers' Sun.

—At Cavanville this year, says the Farmers' Sun the old cheese factory has, like the one at Darlington, been turned into a cream separating plant. The milk is drawn to the factory where it is put through the separator. The cream is shipped to Toronto and the skim milk is fed to hogs at the factory. Results so far have been very satisfactory, but it is probable that when farmers realize the value of the skim milk they will insist on having it all returned instead of allowing it to be fed at the factory.

—Work on the new concrete entrance piers going into the locks at Young's Point and at Lovesick will begin next week. The King Edward, drawing a scow loaded with 500 bags of cement, went up on Tuesday to Lovesick, where the entrance pier will be continued about 150 feet. Mr. Ed. Lajoie will be the foreman on the work, which will require a month to complete. Mr. Alex. Richardson will have charge of the operations at Young's Point and the pier will be about 300 feet long and 4 feet wide. The appearance of the Point will be greatly improved by the entrance pier.

—A tragic death occurred at Cobourg on Monday of last week, Miss Nettie Carruthers, youngest daughter of the late M. J. D. Carruthers, Hamilton township, accompanied by her sister, was cycling from her home to the residence of her uncle, only about a mile distant. She was taken suddenly ill and expired in about fifteen minutes, and before she could be taken to her home. She had been in her usual health all day and assisted in the household duties in her home. Her father, who died last October was a well known agriculturist and an estimable citizen. Her mother, one brother and one sister are left.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Second Bowler Personally Conducted Excursion.

District Passenger Agent McDonald, of the Grand Trunk Railway, has received from Mr. Bowler, at San Francisco, a letter in which he states that he has the happiest party he has ever travelled with, and that they are having a delightful trip, and that the dining car service, which is being operated by the Grand Trunk, has given great satisfaction.

The second party is now being formed, and will leave Toronto, August 25th. Rate of $150.00 covers round trip ticket, berth in sleeper, meals in dining car, and lodging at hotels in Los Angeles, San Francisco, and Portland, Oregon, a number of side trips, etc. Send for itinerary, which may be obtained from principal Grand Trunk agents, or by addressing E. C. Bowler, Room 308, Union Station, Toronto. 10d27

ESCAPED FROM FATAL INJURY

Bicyclist Ran Between Team of Cab Horses.

And Escaped With Comparatively Trifling Hurts.

A thrilling incident—thrilling for a few minutes at least, happened near the corner of Hunter and George streets, on Hunter street at noon to-day. Harry Cross employed at Denne's flour and feed store, was delivering a sack of meal by bicycle, and by some mishap he ran plump into a team of Globe cab horses. For a moment, he was in imminent danger of being trampled to death, but the horses, admirably controlled by driver, behaved like intelligent beings and the lad suffered no serious injury except a hurt to one arm. The wheel was, however, fatally injured. The escape from death was remarkable.

Hol For Niagara.

This is your trip on Civic Holiday, Monday, August 14th, under the successful management of Court Littlejohn, C.O.F. Excursion goes to Toronto via special G.T.R., then across Lake Ontario to Niagara Falls by the Niagara Navigation Company's magnificent lake steamers and the Niagara Falls Park and River Railway over the weird "Whirlpool Route." Return tickets $2.05 to Toronto; $2.20 to Niagara Falls. Toronto tickets good for two days; Niagara Falls tickets good for three days. Tickets on sale at W. Braton's and from members of committee. Year by year this trip grows increasingly popular. 1cod

A WATER PIC-NIC ON AT HIAWATHA

Novel Aquatic Entertainment on August 11th.

Pic-nic, Prizes and Fireworks on Rice Lake.

The Indians of Hiawatha are not only aboriginal, but original. Mr. Johnson Paudash has devised and made arrangements for the first water picnic in the history of Canada. This water picnic, which will be held on Rice Lake at the Hiawatha Reserve, on Friday evening, August 11th, will be a unique affair. The picnic personnel will consist of a young man and a lady partner to a canoe, which will be gaily decorated and provided with a supply of fireworks, which will be set off during the float of the canoes, which will be grouped in the most convenient and effective manner.

Prizes donated by Hon. J. R. Stratton and Mr. R. R. Hall will be awarded to the two best decorated canoes and the handsomest and best dressed ladies, the combined charms of the two to be considered in awarding the prize. The picnic features consist in the luncheon which is to be provided by the lady, while her companion provides the fireworks. The start for the lake will be made at 8.30.

White persons are cordially invited to take part in the picnic; any person so doing must provide himself with a canoe and partner, and provisions for the picnic before arrival at the picnic "grounds."

SAID FAREWELL TO TWO MEMBERS

B. A. C. Club Loses Two Prominent Members.

They Were Presented With Gold Rings Last Night.

Last night the members of the B.A.C. took farewell of two of their members in rather an unusual fashion. Mr. S. S. Moore, who is to leave town next week and another prominent member to soon to enter the bonds of matrimony were said farewell to in an appropriate manner.

The members of the club took boats, and, going down the river to Crawford's Grove, took tea in bachelor style, and, around a camp fire, presentations of gold rings, engraved with monograms, were made to the two departing members, accompanied by addresses by the officers of the Club, expressions of regret at their departure and acknowledgments by the recipients in suitable terms.

Mr. Moore, since the institution of this club, has been one of the most prominent members and his departure from town will be deeply regretted by the membership of the club.

A feature of the evening was a spectacular bombardment from land by means of rockets by forces generalled by Lieut. Best, against the water force under the command of Mr. J. W. Wood, who headed the rebel forces. The rebel forces were literally routed and surrendered unconditionally.

HAIR SOFT AS SILK.

New Scientific Treatment Kills Dandruff Germs, and Makes Hair Soft.

It is an accepted fact, a proven fact, that dandruff is a germ disease; and it is also a demonstrated fact that Newbro's Herpicide kills the dandruff germ. Without dandruff falling hair would stop and thin hair will thicken. Herpicide not only kills the dandruff germ, but it also makes hair as soft as silk. It is the most delightful hair dressing made. It cleanses the scalp from dandruff and keeps it clean and healthy. Itching and irritation are instantly relieved, and permanently cured. There's nothing "just as good." Take no substitute. Ask for "Herpicide." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents.

BIRTHS.

WRIGHT.—At 425 Bethune street, Peterborough, on Monday, July 31st, 1905, the wife of John J. Wright, of a son.

MR. AND MRS. EASTWOOD HAD NARROW ESCAPE IN LITTLE BOB WATER

Skiff Encountered a Snag and Hole Was Made in Boat's Bottom—Both Were in the Water for Half an Hour Before They Were Rescued—A Very Narrow Escape From Drowning on Thursday.

Day before yesterday, Mr. and Mrs. Vincent Eastwood had a very narrow escape from contributing to the long list of fatalities which have so far this year, marked the boating season. They were spending their holidays at Bobcaygeon, and while out on a little fishing expedition at Little Bob, the boat they were using struck a snag, which pierced the rather shaky planks of the hull, and held the craft impaled. When the boat began to fill with water it heeled over and Mrs. Eastwood becoming alarmed, in the excitement of the moment, jumped into the water. Mr. Eastwood, seeing this, also leaped overboard, and seizing Mrs. Eastwood with one hand, clung to the impaled craft with the other. In spite of energetic cries for help they remained in this unpleasantly perilous position from twenty minutes to half an hour. Their cries for help were at last heard by a man with a punt, who was in the vicinity, and the work of rescue was speedily accomplished. Mr. and Mrs. Eastwood are heartily congratulated by their hosts of friends in the city on their fortunate escape, with no more serious injury than the inconvenience suffered.

NIAGARA CATARACT TO SERVE GREAT AND NOBLE PURPOSE

It may not have occurred to many aesthetically inclined Canadians that the power plants on either side of that interesting natural feature, the Niagara cataract, might be destined to serve a great and noble purpose in preserving its beauties from practical annihilation. Such, however, seems to be the case. They have created a vested interest, says the Montreal Herald, of a kind which courts and legislative bodies on both sides of the border are likely to respect and which would be seriously threatened by the latest scheme for further annihilation of the celebrated Wonder of the World. It might have been supposed, a good many years ago, that the public interest in the beauty and the scientific value of the world's most magnificent waterfall, was also a vested interest; but if such was ever the case it was vested in too many owners for its own protection, and we must be thankful that it is now allied with another interest which goes direct to the pockets of a powerful body of shareholders.

For Mr. Alton D. Adams has conceived the immense idea of erecting a 200 foot dam at the foot of the lower Niagara rapids, near Lewiston and securing thereby a great many millions electric horse-power at a lower cost than is possible by any other use of the waterhead between Lake Erie and Lake Ontario. He admits that there are two objections to this scheme. One is that as his dam would be 100 feet above the bottom of the Niagara Falls, it would take precisely that much off the length of the cataract proper and would appreciably affect its scenic and artistic value. That, however, is a minor point. The real saving clause that bars Mr. Adams' scheme from execution in all its beauty is that it would take a hundred feet, more or less, off the water-head of the power developments of half a score of strong chartered companies that are already operating at the falls. Therefore Mr. Adams is willing to restrict his dam to a height of 160 feet, which would "work no substantial injury either to the natural falls or the existing power plants," and would simply drown out the rapids below the falls and convert the whirlpool into a comparative mill pond. There is, it is true, an electric railway which would also be flooded by the proposition and another which would be effectually ruined as a scenic route, but, doubtless both these could be acquired or compensated for a sum that would be a mere drop in the bucket of profits of so stupendous a power development. As for the misguided persons who regard the lower rapids as the most beautiful thing in the Niagara river, they could move on somewhere else, or content themselves with moving pictures taken before the destruction. A 160-foot dam is good for 2,500,000 horse power at this point; and what does a piece of scenery amount to in terms of H. P. and K. W.?

A LONE REPORTER IN CHINATOWN

Quest of Beauty Fraught With Difficulties.

Chinese Lady Arrived and all Her Fellow Countrymen Knew That She Came to See the Fair.

The arrival of an addition to Toronto's female Chinese population is so rare an occurrence that a Mail and Empire reporter yesterday afternoon sought to discover the whereabouts of a pretty little Chinese woman who arrived in the course of the morning in or in the course of the morning on the G.T.R. express from North Bay. The only knowledge of her destination possessed by the Union Station officials was that she had gone to a shop on York street, and with this vague clue the reporter started on a tour of Toronto's polyglot thoroughfare.

His reception at Charlie Sing's laundry, 101 York street, was not encouraging. There were two Charleys, and both of them met all questions with a blank stare and an utter ignorance of English which accorded ill with the glib replies forthcoming to complaints about lost collars and torn buttonholes. Charley's late remarks, though unintelligible, were not reassuring, and the reporter, with vivid recollections of all he had ever read of the yellow peril, and the Highbinder mysteries, decided to go on to the next place.

Fortune smiled at Lee Chong Lung's tea store. An intelligent young Chinaman answered the reporter's rapid-fire questions as well as he could, while a kindly old Celestial, with a sparse beard and a marvellous pipe, interjected remarks in the chop-suey dialect. Between the two the seeker after knowledge acquired the information that a Chinese lady had arrived, and was up the street, at No. 189, the young Chinaman believed. There were only four or five Chinese ladies in Toronto.

Chong Lee's laundry at No. 189 seemed to be a likely find for investigation, but there was in slang parlance, "nothing doing". By a process of natural selection the reporter proceeded to interrogate the only Chinaman wearing European dress. The six or eight other Celestials present proceeded to exchange natural pleasantries and uncomplimentary remarks on the reporter's personal appearance. Here, also, the arrival of the tiny-footed belle was a matter of knowledge, but it required a deal of questioning to discover that No. 189 was the place. The reporter departed, and a burst of laughter followed a final guttural sally at his expense.

At Sing Woon and Co's. grocery store the inquisitor found the trail and lost it again. Had he not guessed Richmond Street his search have fancied he had never left Chong Yee's shirt-mangling establishment, for there again the official spokesman wore Occidental garb, while his compatriots in various stages of native undress kept up a running accompaniment of Mark Twain jokes in their original Confucian tongue. The few facts elicited were like barren islets in a sea of "don't knows". Did they know what a newspaper was? They didn't. Had a Chinese lady arrived that day? She had. What was her name? Don't know. Did she come alone? No, she didn't. Who came with her? A man. Her husband? Yes. Where were they? Don't know. Gone out? Yes, gone. Would they be back? Don't know. Had they come to live in Toronto? Don't know. Where had they come from? (Victoria. What had they come for? See the Fair. (Kind regards to Dr. Orr; Lord Roberts, please write.) What was her husband's name? Don't know. Could they be seen during the evening? Don't know. Could they talk English? A little.

And the reporter had to let it go at that, thus endeth the quest of the Chinese lady.

LAWN MOWERS

Sharpened, repaired and put in first-class order, at Jas. H. Rotheral's, 223-225 Hunter Street.

MUST MAKE CLAIMS ON THE COUNTY BEFORE SEPTEMBER 1ST

Last night a meeting of the Finance Committee of the City Council was held, when a big batch of accounts was presented. A letter was read from Mr. E. M. Elliott, county treasurer, in reference to the accounts between the city and the county, and the latter asked that if the city had any claim on the county they make such claim before September first next.

THEY WERE BOYS TOGETHER IN HISTORIC PRECOSTT

The late lamented Major Walsh and Father Keilty were boys together in the historic town of Prescott. In the beginning of July Father Keilty spent a couple of the happiest hours of his life in the company of the gallant major, going over old-time incidents. Major Walsh lived the strenuous life in the slate—Father Keilty has lived the strenuous life in the church.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches.

Sea Promenade.

A new sea promenade just completed at a cost of $2,250,000, has been opened at Blackpool, Eng.

A Peculiar Fire.

A fire, which broke out at a private house at Silver street, Edmonton, Eng., a few days back, was attributed to spontaneous combustion, caused by the heat of the sun igniting the birds' nests which had been built under the eaves.

$5000 Jewelry Stolen.

During the half holiday the jewellery store of Mallette & Matthews, of Brandon, was burglarized in broad daylight and fifty diamond rings, valued at about $5,000, stolen. Edward Murphy was arrested shortly afterwards.

Gored by Bull.

The wife of Andre Yunicat, a Galician settler at Etheibert, Man., was attacked by a bull yesterday and gored so badly that there is little hop eof her recovery. The horns of the enraged animal penetrated the woman's abdomen.

A New Penitentiary.

The Government has decided to make the new jail at Edmonton a penitentiary, and the announcement will be issued in a few days. A large proportion of the criminals in the Manitoba penitentiary have come from the Northwest Territories. They can be sent in future to Edmonton.

Boy Recovering.

Argan Gignas, the boy who was bitten by a rattlesnake at Sandwich, and whose parents engaged a "magician" to charm off the effects of the bite, now has a doctor attending him. His body is badly swollen and he is suffering greatly, but will recover.

Appropriating Funds.

On a warrant received in Toronto from Newry, County Down, Ireland, Hamilton Jardine Livingstone was arrested charged with misappropriating $900 in 1903. Livingstone was trustee for the money on behalf of Michael Fearon and children and Mrs. Fearon, all of Newry. He has been in Toronto for some time.

A Prospector Injured.

H. L. Johnston, a prospector, was pinned down in a tunnel near Nelson, B.C., by half a ton of rock and dirt caving in upon him in a tunnel. Although badly injured he succeeded after two hours' unremitting exertion in freeing himself, and in ten hours more he crawled inch by inch to Nelson depot, where he received medical attention.

Fishermen Lost.

A fishing boat belonging to the English Bay cannery was found adrift in the gulf, near Vancouver. The boat had a net out, which, when hauled in, contained 500 fish. According to the boat's number, it belongs to Nicholas Brown and partner (name unknown), who are thought to have been drowned in a squall last night.

All Records Broken.

All records were again broken last month by the tonnage through the canals at Sault Ste. Marie. The total was 6,705,700, over a million tons more than a year ago in July. The total so far this year is nearly twenty million tons, nearly twice as great as up to this time in 1904. There were 838 passages through the Canada canal with a tonnage of 838,017.

Mr. Maclean's Price.

The James Bay Railway, for its right of way through Donlands, the property of Mr. W. F. Maclean, M.P., will pay $3,000. The amount was arranged between the parties. The James Bay Railway originally placed the value of that part of Donlands expropriated at $2,200, but Mr. Maclean refused to accept the figure, and held out to submit the question to arbitration. The area is about eight and one-half acres.

A Man with Nerve.

Charley Leake, 71, said to be the oldest man in the Klondike region, has had his right eye ruined by a sharp stick on a stump that was being taken up striking it. He suffered intense agony but bore it like a hero. His other eye was seriously injured some time back by creosote. A short time ago an accident at the mine where he was working fractured three ribs. He walked all the way down to town, had medical treatment and walked all the way back. Any other man would have been carried to the hospital in a conveyance and remained there for some time.

Port Hope Man's Experience.

John B. Dame, a former Port Hope boy, was riding through Eaton canyon, near Pasadena, Cal., with a party of friends along a path at places not over two feet wide, when his horse shied and horse and rider rolled over towards the lower section of the trail, 700 feet below, on the edge of an abyss of 1,200 feet. In some way the camera on Mr. Dame's back became wedged in a root and held him and a friend rushed to his assistance and dragged him back to safety before the straps parted. Even before Dame had reached the lower trail the heavy horse had plunged over the age of the precipice and dropped like a plummet into the well 1,200 feet deep, its body bounding among the tree tops on the mountain side and its bones being crushed to minute fragments against the rocks.

CHARLOTTE ST. AGAIN CHAMPIONS

Defeated St. Andrew's in Final Game—Score 21-0.

Score for Last Night's Half Was 11-0—No Sensational Plays.

RODDY, p.
LAING, c.
HEASLIP, 1 b.
SQUIRES, 2 b.
WILLIAMS, 3 b.
McWILLIAMS, s. s.
CROWE, l. f.
RYAN, c. f.
THORNTON, r. f.

It was like another slaughter of the innocents to see the champion Charlotte Street nine shut out St. Andrew's again last night. The playing of the Methodists was on the whole, fast, but the Presbyterians were again off colour, especially in the field. The Saints were short of men, our Walt and Derocher made up for the deficiencies.

Roddy pitched a good game for the champions, and the Saints could not find him when hits meant runs. Patterson was on the slab for St. Andrew's. His offerings were taken to kindly, and he was laced to the four corners of the lot for eleven tallies to the Saints' nil.

No sensational plays were pulled off, but a double play, Laing to Heaslip, in the opening innings retired the Presbyterians in order.

THE STRATTON TROPHY.

Emblematic of the Guild Baseball League, Championship Won Last Night for the Second Year in Succession by the Charlotte Street Team.

St. Andrew's went first to bat and was made on the grounder to short. Miller fouled out to Laing, who tossed the ball to first, catching Dunsford before he could return. Thornton was an easy out, pitcher to first.

Roddy opened for the champs with a grounder and was safe. He stole second and trotted home on a throw to centre to catch him napping. Ryan flew out to first, but Williams was safe on a fumble by short stop. Heaslip flew out to third, but Squires hit a safe one to second and Williams scored on a pass ball. Thornton was hit by a pitched ball and Squires scored on another pass. Lang came on with a two-bagger across the street scoring Thornton. Lang stole second and third and came in on a low throw to third. Butcher took McWilliams' fly near the fence and the side was retired. Score 3-0.

Watt was hit on the ankle by the first ball sent up, and Dunsford ran for him. Squires made a good catch of Dobson's fly, and Butcher and Patterson could not locate the sphere.

The Methodists again had a turn at the bat, and still further fattened up the score. Crowe waited for four wide ones, Roddy followed with a hit through Dunsford and Ryan followed with a hot one to the same place, Crowe and Roddy completing the circuit. McWilliams ran for Ryan and registered another tally on Patterson's fumble of Williams' grounder. Heaslip went out by the short stop to first route, and Williams came in with another run on a pass ball. Squires grounded to pitcher, and Thornton fanned.

It was one, two, three for the Saints in the sixth. McDonald flew out to short. Williams made a good stop of Derocher's hot grounder and soaked it across in time to first, and McWilliams took care of Dunsford's high fly.

Another tally was registered for Charlotte Street in their half. Lang hit a grounder through short to right. McWilliams wingled, and scored on Crowe's double. Roddy struck out and Ryan got free transportation. Thornton ran for Ryan, but was nipped nicely, completing third. Williams failed to meet the leather and the game was over; and Charlotte Street are champions to 1905.

The following is the line-up for the teams:—

Charlotte Street.—Laing, c.; McWilliams, s. s.; Crowe, l. f.; Roddy, p.; Ryan, r. f.; Williams, 3 b.; Heaslip, 1 b.; Squires, 2 b.; Thornton, c. f.

St. Andrew's.—McDonald, c.; Derocher, 2 b.; Dunsford, 1 b.; Miller, c. f.; Thornton, 3 b.; Watt, r. f.; Dobson, s. s.; Butcher, l. f.; Patterson, p.

BOWLING-ON-THE-GREEN.

Games played last night:—

A Belleghem	R Matchett
A R Kidd	T E Pratt
G H Giroux	W Aitchison
S T Meild, sk 8.	A Moore, sk 6.
A Belleghem	W. Bradburn

Greer vs. Sturgeon.

BASEBALL.

Bowmanville plays in Cobourg to-day. McAllister will likely be on the slab for Cobourg and the Grays may get their humps.

• • • •

The following team will represent Peterborough in Port Hope to-day:—Quinlan, p.; Rattray, c.; Douglas, 1 b.; Greene, 2 b.; Callahan, 3 b.; Shea, s. s.; Sheridan, l. f.; Connors, c. f.; Pilling, r. f.

• • • •

Surphlis, of Port Hope, is one of the best twirlers in the league and the locals will have to don their batting clothes and keep their eyes peeled to win.

• • • •

The Night Owls are playing a picked team from the Guild League on Riverside Park this afternoon.

• • • •

Remember Monday's great game with the undefeated Royal Canadians of Toronto.

SPRINGVILLE LADY SEES A NOVELTY

Water Taken From Drills to Paris Green Potatoes.

Interesting Personal Items From Springville—Harvesting Has Started.

Special to the Examiner.

Springville, Aug. 4.—The harvesting in this vicinity is progressing rapidly. Mr. Herb. Reynolds has done the first threshing of the season for Mr. Harry Clark. Mr. Reynolds' wind-stacking machine has proved most satisfactory to the farmers.

Rev. Geo. Yule, of the Springville Presbyterian church, has returned from Cobourg with his family, where he was visiting friends.

Mrs. Frank Staples visited recently in Fenelon Falls, and has returned, but reports a very wet season; and as evidence, cites an experience which she saw. A man in that neighbourhood was putting paris green on his potatoes, and the ground was so wet and muddy that he had to take off his shoes and stocking and go in his bare feet. He was also able to get water in the drills to mix the paris green in.

Mr. F. Seldon, of Greenwood, is visiting in this vicinity. Mr. Seldon seldom fails to have an enjoyable time when he visits here.

Miss White, of Lindsay, is visiting her sister, Miss Ella White, at Mr. John Forester's.

Pains in the Chest.

Mr. John Clark, Port Hope, Ont., states: "Last winter I was so bad with a cold that I could not speak above a whisper, and had rgeat pains in the chest. A friend advised me to try Dr. Chase's Syrup of Linseed and Turpentine, and one bottle cured my cold which I believe would have proven very serious if I had not used this medicine."

Favorite Note Papers.

Try "A. H. S." note size writing tablets in ivory, white, pure linen and Irish linen, 15c each. "A. H. S." letter size writing tablets in pure linen, Irish linen, ivory, white and Grecian bond, 25c each. Envelopes to match all tablets, 10c per package.

A. H. Stratton & Co.

MURPHY WILL GO TO THE ASYLUM

The Next Time He Appears for Assaulting Little Children.

Family Troubles Aired in Court—Wm. Marks Bound Over to Keep the Peace—Police Court News.

Considerable interest centered in this morning's Police Court proceedings as Joseph Murphy, better known as "coal shed" Murphy, figured prominently in the prisoners' box.

Murphy bowed his head, and heard a charge against him of assaulting two small children, Irene and Reuben Maitland, aged 5 and 8 years, respectively. Joseph pleaded not guilty, and the case was proceeded with.

Mrs. Maitland said that on Friday morning the boy was playing in the shed with a companion when the prisoner came in and grabbed him and took him out into the lane and slapped him several times over the face. The little girl was also crying, and she said that she had also been slapped. Both children said they had been slapped "for nothing at all."

"Was he sober," asked the magistrate.

"I doubt if he's in his right mind," said the chief.

Murphy's story was as follows:—"I was going down George street on business when a lot of boys on the corner began to call me names. One of the boys I chased, ran down a lane, and I caught the first boy I saw and slapped him. I don't think I ever saw the boy before, but I took the law into my own hands as that was my only remedy."

"And does a man of your age use such a remedy on a little baby", asked His Worship.

"Will you listen to what I have to say", was Murphy's retort.

The Magistrate said he would allow Joe to go, not that he did not deserve punishment but because he was a man of poor judgment. But the next time you come before me for an act like this I will probably send you to a lunatic asylum. Exit Murphy.

The next case on the boards was a charge of assault against William Marks. The case involved some family troubles and was conducted in a private court. Marks had struck his wife in a fit of passion arising over a dispute about money matters, but he seemed anxious for a reconciliation.

He was fined $5 and $2.60 costs and was bound over to keep the peace on $400 bonds; $200 personal surety and two bonds of $100 each. The fine was paid and Marks thought he could get his employer to take the two $100 bonds.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c, at all dealers or EDMANSON, BATES & Co., Toronto.
DR. CHASE'S OINTMENT.

Dr. Hugo's Health Tablets for
Women
These tablets are the prescription of Dr. Hugo, of Paris, a distinguished specialist in women's diseases—a prescription for which thousands of women in Europe have paid $50. They are compounded for the special needs of women alone—embody the results of the very latest medical discoveries—contain ingredients recently discovered that no other remedy contains—are a compound remedy, containing something for every organ of the female system—are purely vegetable, containing neither alcohol nor opium.

Any Troubles In Your BATHROOM?
If you are having any trouble with your CLOSET or BATHROOM CONVENIENCES, come round and have a talk with us.
A gentleman, attracted by the range of Sanitary Closets and excellent values we are offering, invested in a new one, although he already had one that was working not badly.
The way he looked over the Closets we arranged before him for inspection showed he had been sifting the matter, and knew how to prove and disprove the claims of dealers.
The saving of health and expensive plumbing repairs, warranted the investment, he said.
How is yours working? Bring your Bathroom Troubles to us. Our Toronto Stock is what we sell in our Peterborough Branch.

STONY LAKE'S EARLY DAYS COMPARED WITH PRESENT DAY SITUATION

A Peterborough Old Boy Who Paid a Visit There This Week Gives an Interesting Interview in Which He Refers to the Great Increase in Popularity of This Resort—A Talk on the Difference Between City and Town Life by One Who Has Seen Both—Some Good Advice to Young Men—Chicago and New York Methods of Being Bad.

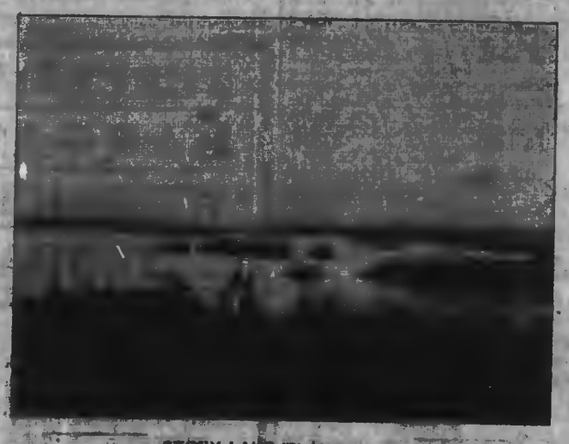
Among the pilgrims to Stony Lake this week, was Mr. C. H. Allison, of New York, an old Peterborough boy, who has always in his heart a warm spot for his native town and country. Mr. Allison was seen by an Examiner reporter, and, when asked to give his "impressions," said:

"Stony Lake to-day is vastly different from the Stony Lake I first knew, back in the eighties. Think of it! 'Back in the eighties.' It makes me realize I am getting old, although were it not that almost a score of years have intervened, with their varied activities and experiences, I could easily enough imagine that 'time has turned back in its flight,' and I was once more 'doing the town' for the Examiner, and had just returned from my annual vacation at the Lake. But new scenes, and new faces, serve to remind me that the old days can be no more than a mere memory. In place of the tents, canoes and campfires that appeal to the reminiscent eye, there are cottages, stores, hotels, launches and social functions, that aspire to swelldom; flannel shirts, gingham gowns and umbrageous straw hats have given way to the natty outing costumes, and dainty muslin gowns, which mark the relentless advance of civilization into even the wilds of nature.

A STONY LAKE COTTAGE.

Early Stony Lake.

"How well I remember my first experience at Stony Lake. I believe there was then but one cottage between Burleigh and Young's Point—certainly not more than two or three. A party of about sixteen young people had made arrangements for a two weeks' 'camp' on Otter Island. Saturday night three or four of the boys, myself among them, took the train for Lakefield, with all the baggage and supplies—tents, cots, barrels and boxes of provisions, trunks, canoes and innumerable impedimenta of all sorts. Leaving Lakefield, the boat was so filled with passengers that by the time it reached Otter Island, after making an unusual number of stops, the midnight hour was about to strike. And what a night it was! Calm, cool, and bleaker than the shades of Inferno. The little steamer probed her nose in between two big rocks, and the task of disembarking began. With admirable foresight our lanterns had been carefully tied up inside the bedding and the bedding roped so securely, that the job of getting at them was given up in despair. While the boat stood by, we could see well enough to unload our outfit, though we stumbled and sprawled over the boulders and into the holes between them at every step. With the departure of the boat the Cimmerian darkness settled down into a deeper obscurity, eclipsing even the stars. We had planned to put up at least one tent that night for shelter but after a few abortive attempts to find a level space larger than a postage stamp, our shins being scraped and our tempers ruffled for our pains, we resigned ourselves to the inevitable and, spreading our cots on the rocky surface as best we could, by the instinct of feeling, with only the canopy of heaven over our heads, we sought a few hours rest before beginning the serious business of campmaking at daybreak. I do not recollect, if they ever told me, how the other boys slept; my own agony I never shall forget. Tired beyond endurance after the unwonted physical exercise of hauling our baggage to and from both boat and train. I yet was unable to sleep for more than five consecutive minutes. Mosquitoes seemed to swarm about me. I felt I was freezing stiff. The sides of the cots were prison bonds. Every bone was aching, every nerve jumping. Neither sleep nor daylight would come to relieve me of my distress during that interminable night. So I suffered on, in heart sick silence, rather than disturb the other fellows, of whose sympathy I was properly doubtful anyway; and as I turned over in my mind the possibilities of never seeing another sunrise, and went through an imaginary scene, in which my cold, dead body was found by my horror-stricken comrades when they wakened in the morning—lo! my eyes opened, and there was old Sol peeping at me from over Juniper way. In a few minutes all hands were up, ashes and



STONY LAKE ISLAND DOTS.

stiff joints were forgotten, and over our coffee we were able to appreciate the glories of Stony Lake. No need to tell Examiner readers of the beautiful vista unfolded to our vision. I have seen scores of summer resorts and watering-places in the years that have passed since I frequented Stony Lake; but few, if any, can lay claim to superior natural attractions. None of them, at least, have created the same strong impression on my mind—an impression that never fades and one which will have the sympathetic understanding of every lover of nature.

Conditions Contrasted.

"Camping in the old days meant sleeping in tents; cooking on an improvised stove of boulders; dining al fresco in one's shirt sleeves; canoe trips and fishing by day; roaring camp-fires, songs and music at night; with a gentle lullaby from the wave-kissed shores of your little islet to woo the goddess of slumber. It was a hearty, happy, rough-and-ready existence that is fast being crowded out by the "comforts" of modern life. But the old charm is still there. Nothing can rob Stony Lake of its picturesque environment, its manifold promise of health and rest. I judge there are ten times the number of visitors to Stony Lake than there were, say fifteen years ago, and I expect it will become increasingly popular each year. Indeed, were its attractions more widely known there would undoubtedly be a tremendous influx of people."

"You have doubtless observed great changes in Stony Lake, and in Peterborough as well?"

The City's Growth.

"Peterborough, too, has grown apace. Peterborough has become more than a place on the map. It is a city "de facto and de jure," as a proud and prominent lawyer-citizen remarked to me the other day. Quite recently I read in the Daily Consular Bulletin, issued by the United States Department of Commerce, that a New York theatrical syndicate had secured a contract for building a $30,000 opera house at Peterborough, Ont. The radial railway has been often mentioned in the press and trade periodicals of the United States. Your lift lock, and incidentally the Trent waterway, are "household words" everywhere on the continent. Peterborough's industries, also, come in for more or less publicity throughout the business world. In short, Peterborough has become a city of both national and international fame. May she continue to grow and prosper."

"I suppose, though, you prefer Chicago or New York? By the way, Mr. Allison, what are your impressions of those great cities?"

City and Country.

"uPt it down in your note book, my boy, that life in a big city is not all peaches and cream. Cities have a fascination which to many are irresistible; but when people tell me that city folks are so much "smarter," brighter and broader-minded than "provincials," or get more enjoyment out of life—"it is to laugh." Human nature is the same the world over. There is the same hum-drum, work-a-day world there as here; that is to say for 999 out of every thousand. Great events transpire daily in New York and Chicago, but the average citizen knows no more about them than he reads in the papers—just as you do. I do not admit though, that big cities are less moral or more wicked than smaller towns.' As I said before, human nature is everywhere the same. The only difference is that in cities the criminality is concentrated. I do not believe that there is more deviltry perpetrated in one day in Greater New York, for instance, than in all of Canada—and the population of the two communities, if I may call them so, is approximately the same. Some day when you have time just collect all the news of crimes and misdemeanors reported throughout Canada in one day, and compare the results with those obtained from a New York paper—the yellowest journal you can find. I will venture to say my estimate will not be disproven by the facts. It is because the casual reader does not stop to think of the relative populations that he gets the impression New York or Chicago are extremely wicked cities.

Relative Toughness.

"Chicago, perhaps, has a worse reputation in this respect than New York—undeservedly so, I believe. There is a fundamental difference in the forms of rascality prevalent in the two places. Chicago criminals are bad conscienceless fellows, who shoot you down or club you within an inch of your life if you don't give up your money. New York has probably less thuggery, but so-called "refined vice" takes its place and numbers as many or more victims. Crime in Chicago stalks boldly abroad, seeking whom it may devour; in New York the silken net, the iron hand beneath the velvet glove, are employed. In Chicago you look out for a man with a gun or a billy; in New York you distrust everyone, for the man who is your nicest neighbour may be the means of your downfall.

"But after all, a straightforward, honest man, going quietly about his own business and keeping in his proper sphere, will have as serene a life in either big city as in Peterborough. The cities are full of good people, whose existence is never heard of outside their own immediate circle of acquaintances. These are not the people who get their names in the papers, and they far outnumber those whose deeds of fame or ill-fame are telegraphed as the "news of the day."

"What are the distinctive features of New York and Chicago?"

Two Cities Contrasted.

"New York is crowded and noisy; it runs to cats and children. The next time you visit New York take a walk in the evening (after school hours) along any residence street—more particularly a street lined with tenement or apartment buildings, in each of which are housed from ten to fifty families. You haven't realized what "Bedlam let loose" means until you have had this experience. The census has never yet determined whether children or cats are the more numerous. Chicago, on the other hand, is dirty, unkempt, poorly-lighted and policed, but there is more home life for people of modern ate means. Houses in New York are for millionaires only; the middle class must go to New Jersey, Brooklyn or the outlying sections of Manhattan for comfortable homes; while the poor must remain cooped up in stifling tenements. Chicago has within her borders and accessible to the business part of the city large sections devoted to little homes for persons of limited income.

Advice to the Boy.

"I suppose the rush to the cities will continue for there seems to be an allurement about them that few can resist; yet the man who is doing well or fairly well, in Peterborough may congratulate himself that he has avoided the great maelstroms which have swallowed up so many thousands of well-meaning, but deluded seekers after wealth, excitement or pleasure. The same talents that spell success in the big cities of the United States will win competence in Peterborough. You have here in enterprising, law-abiding and more or less metropolitan little city, with splendid opportunities for active business careers and at the same time a quiet, rational mode of living. You have all the best of it."

BRITISH PRECEDENT.

Some of our good Conservative political brethren are, theoretically, of course, more loyal than the King, and greater sticklers for constitutionality than the Imperial Privy Council. At the time of the appointment of Sir John Boyd and Mr. Justice Falconbridge as a Royal Commission to investigate a charge of a political character, there was a tremendous outcry made by Conservative journals, and politicians, to the effect that the Bench was degraded by dragging judges into the arena of political controversy. This tender solicitude for the good name of the judiciary, and for keeping the ermine stainless, did not prevent these purists from abusing the judges, as if they were horse thieves, when they returned a judgment adverse to Conservative desires, though in accordance with the evidence. The appointment of the judges was declared un-British and unconstitutional. Yet, according to a copy of the London, Eng., Daily Express, of July 26th, Mr. Justice Farwell, a distinguished Chancery Judge, and one of His Majesty's Judges of the High Court of Justice, has been appointed a member, and chairman to boot, of the Royal Commission instituted to investigate charges involving the responsibility of the British Government in regard to the management of some branches of the South African war. Great Britain is the home of our precedents, and what is right and seemly in Great Britain, should be so here. Our judiciary is just as high in character as that across the water, and as able to stand the strain of possible contamination by judicially investigating matters of a political character.

CREDIT TO WHOM CREDIT.

Mr. C. D. Warren's statement to the News of the conditions at Sault Ste. Marie, was thoroughly satisfactory. While we have never thought that the province should have taken direct financial responsibility for an industrial enterprise whose career had been marked by gross extravagance and mismanagement, it is none the less satisfactory to know that the re-organization promises to be successful and that a great network of prosperous enterprises will be established at the Sault. Probably without Government assistance this result would have been achieved. With so many millions at risk we may be sure that there would be persistent and desperate efforts to prevent a total collapse. But, however that may be two men deserve much credit for the results achieved. These are Mr. C. D. Warren and Mr. N. W. Rowell, K. C. It would be hard to over-estimate the value of Mr. Rowell's services as representing the Government, in untangling the extraordinary maze of confusion and embarrassment which had developed in connection with these enterprises. It is not understood by the public, and probably never will be fully understood, that his was the master mind which adjusted the relations between the province and the company and solved the almost insuperable difficulties which were met at every step of the reorganization. Nor is it understood that although he performed these great services for the province, he drew no money from the provincial treasury. While it is perhaps natural that the Whitney Government should have accepted his resignation, as one of the Board of Directors, it is satisfactory to know that he is still the solicitor for the company, that into this connection no political consideration can enter, and that, therefore the company and the province will continue to profit by his experience, ability and integrity.

From another standpoint Mr. Warren of course stands foremost among the men who were instrumental in restoring the fortunes of the Sault enterprises. He thus rendered both industrial and provincial service of great value. Altogether the province will rejoice that such successful results have been achieved, and that the outlook seems so promising. It is encouraging also to know that the relations between the Whitney Government and the company are so cordial. But that was to be expected. Outside of the reasonable protection of the public interest, the Government, like its predecessor, must be greatly anxious for the success of these enterprises in the full knowledge of how much such success means both for New and Old Ontario.—Toronto News.

As the foregoing tends to prove, the more the action of the Ross Government in connection with the placing of the tottering "Soo" industries firmly on their feet, commends itself to the people of the country who are interested in the advancement of its industrial interests. The Conservative opposition, led and headed by Mr. Whitney, which the News now commends for their friendly attitude towards the "Soo" industries, could not find language violent enough to express their disapprobation of the Government's action, and their blue-ruin prophecies of failure and complete collapse. But, as the saying goes, nothing succeeds like success. The works are revived and humming away at a merry and steady rate. Now, the party that had more kick than half pence for them in the hour of adversity, are striving to show that Codlin, not Short, is the friend of the "Soo" industries. This illustrates how far-seeing and enterprising, how solicitous for the advancement of the Provincial interests was the late Ross Government, and how wise was their selection of instruments to bring about and give effect to the reorganization. Mr. N. W. Rowell, whom the News lauds with such effusive commendation, was the choice of the Government, and Mr. Warren, who also comes in for much praise for the practical success he is making of the industries, was selected for the position of directing genius of the reorganized industries by the Ross Government on the nomination of Hon. Mr. Stratton, late Provincial Secretary. That the selection was a wise one is shown by the great success that is attending his administration. There seems to be not the slightest possibility of even an approximate realization of the fear and foreboding expressed by the timid Conservative Opposition that the enterprise would fail and the Province be mulcted. The payments in respect to the bond issues have heretofore been promptly met, and the next instalment of interest due about the end of the year will undoubtedly be paid upon maturity. Among the many features of enterprises with which the Ross Government is to be credited, their generous, far-seeing and hopeful policy in relation to the "Soo" industries, not to speak of the provincial railway enterprises, are deserving of grateful recognition.

SOME PRAISE FOR THE LUMBERMEN

"Cottager" Writes to Commend Them for Driving Logs Expeditiously.

Editor Examiner:

Dear Sir,—In former years some of the cottagers at Stony Lake have had reason to complain of the length of time which they were shut in their cottages by reason of the fact that the mill owners delayed in driving their logs from Hurricane Point to Clear Lake. This year, however, on account of the abundant water supply and the new system adopted of placing the logs in smaller booms, and towing them, the cottagers have no undergone any inconvenience, and we desire to convey to the companies using the Stony Lake waters for driving their logs, the appreciation we feel at their readiness to not undergone any inconvenience, the cottagers as little as possible.

The men employed by the companies on the drives have also conducted their work in a way which gives evidence of the fact that they are obliging, and are anxious to do all in their power to help those whose cottages are situated on the route of the logs. The lumbermen and their employees have been most obliging, and I wish to convey the thanks of the cottagers. The Dickson Company has, in my judgment, been fortunate in securing as a woodsmanager a man of the ability of Mr. Cresswell, and he has evidenced a desire to meet the wishes of the cottagers in every way.

COTTAGER."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for Constipation.

A Brave Deed.

A deed of courage and bravery, with which all Kootenay is ringing, is told of, and the hero is a modest prospector, named H. L. Johnson. He recently discovered a quartz and gold lead on a mountain top overlooking the Nelson & Fort Sheppard Railway depot at Nelson, while he was in the tunnel a cave-in took place, under which he was partially buried.

THE WHOLE TRENT CANAL SYSTEM IS NOW BUOYED

The whole system of the Trent Canal has now been marked by buoys from Hastings to the northern end of the canal. Yesterday the King Edward, with a staff of men, was over the river completing the work and at the present time the route is better marked than it has ever been before. The navigators of the Otonabee waters appreciate fully the great convenience which the more perfect marking of the river gives, and there will be much less danger in the future in navigating the river than there has been in the past.

QUARTER OF A CENTURY AGO

Interesting Extracts From The Examiner of 25 Years Ago.

The Examiner continues to-day the publication of a series of news items taken from the files of this paper, published in the corresponding week of 1880:

• • • •

The Midland Railway is being laid with steel rails, replacing the iron ones now in use.

• • • •

Mr. T. Beatty, the veterinary surgeon, while treating a vicious horse, was attacked by the animal, and seriously injured. Thirty stitches had to be put in the calf of his leg.

• • • •

The assessment rolls of the village of Ashburnham for 1880, show a total assessment of $337,730. The rate on the dollar has been fixed at 10 1-2 mills.

• • • •

Peterborough's assessment for 1880 was $2,494,350.

• • • •

At a meeting of the Brown Memorial Committee held on Tuesday evening, at which the Mayor, Rev. V. Clementi and Mr. J. R. Stratton, secretary, were present, the list of subscriptions was declared closed, and the secretary instructed to forward the amount collected to the Central Committee, Toronto. The amount collected was $114.50.

• • • •

There is a movement on foot for the reduction of the number of councillors to eight, two for each ward.

• • • •

At the annual meeting of the High Court, Canadian Order of Foresters, at Clinton, Thomas Bithray, of town, was elected H. J. W.

• • • •

Mr. J. C. Bailey, engineer of the Toronto and Ottawa Railway on Tuesday commenced an examination of the country from Peterborough to Toronto, by way of Cavanville and south of Lake Scugog. He asserts that Mr. Gooderham intends to go on with the work, and those who are skeptical on the subject will be convinced by the logic of facts at an early date.

• • • •

On Monday night about 11 o'clock a terrible commotion was heard in the stables of Mr. R. N. Roddy. On investigation it was found that a stallion belonging to Mr. John Ryan had broken loose and attacked the stallion "Old Hambletonian." The latter animal being tied, could not defend himself and was killed.

• • • •

At the meeting of the council a bylaw was passed regulating the running at large of cows in the public streets during certain prohibited hours.

• • • •

A communication was received from Mr. John Ludgate asking the council to pay one-half of the cost of the footbridge over the Dickson dam, built for public convenience.

• • • •

Consternation has been caused by the receipt of a message to the effect that there has been another Afghan horror and that General Burrows' forces have been annihilated.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

At Oke's.

We are receiving fine raspberries, blue berries, and cherries. Would advise early buying, especially of cherries, as they will soon be done. H. A. OKE, 376 George street. Telephone, 16

Two Entrances

George and Hunter streets

Forman

315 George Street,

Has been a citizen of your progressive city for a little over a year.

Your kind appreciation has brought to him a steadily growing business.

Other interests have called him elsewhere and he takes this opportunity of thanking the people of Peterborough and vicinity for the liberal patronage bestowed, and would assure them it has been fully appreciated and he will carry away pleasant memories them and their town.

Mr. John Hill

who has bought the business will be pleased to see all former patrons and many new ones.

We solicit for him a fair trial believing he will prove worthy of your confidence.

With very best wishes for the people and city of Peterborough.

W. C. Forman

TIME'S UP

TAN SHOES MUST GO

We never carry over TAN SHOES. There's plenty of time to wear them but not so much time to sell them. So we have been through our stock and put

Fountain Pens

Do as thousands of others do and carry a Fountain Pen in your pocket and you need not worry as to pen and ink.

You will always have a pen to your own liking ever ready to do you service.

To the traveller, a good Fountain Pen is as indespensable as it is to the business man.

Waterman's "Ideal"

is one that can always be recommended and will be found a very practical present to give to some friend—Prices

$2.50 to $5.00

We would also call your attention to our own Special Fountain Pen—

Stratton's "Special"

For those who do not care to buy a high-priced Pen, we can guarantee this Pen of "ours" as a good easy writer, and sells at

$1.00

It doesn't leak and soil your clothes and fingers, nor does it clog. It's a daisy for the money.

We would like to have your judgment on this line.

CITY NEWS OF TO-DAY

—Quaker Bitters, the Great Blood Purifier, at Ormond & Walsh, Druggists. 15eod

—Show Case for sale cheap. Apply at the Framery, 2 doors west of post office.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonnel street. 'Phone 199.

—Rev. E. A. Langfeldt will celebrate the Holy Communion at St. John's church to-morrow morning at 8.30.

—Several Cobourg old boys left on the noon train to-day to attend the Old Boys' Reunion in that town on Monday.

—It was a busy time for everybody at the gas works last week. 70,000 cubic feet of gas a day were made.

—We clean, press and do minor repairs to your wardrobe for a trifling fee. Telephone 575, and we will send for and deliver your parcels. "My Valet," George street.

—The Trusts and Guarantee Company, Limited, 14 King street west, Toronto, forwards will forms and gives suggestions free of charge to those desiring information in reto drawing a will.

—Word was received to-day that the residence of Mr. W. Ford, Superintendent of Mount Pleasant Cemetery, Toronto, was burned this morning. No particulars were given. Mr. Ford was formerly superintendent of the Little Lake Cemetery here.

—Rev. J. A. Wilson, of Hamilton, will again preach here to-morrow. In the morning he will preach in St. Paul's to the united congregations of Knox and St. Paul's churches, and in the evening he will again address the united congregations in Knox church.

—The fittings now in use in the Peterborough post office, including pigeon holes and office fixtures, are being replaced next week. These fittings will be sold en bloc, or in any quantity. Anyone desirous of having a nice set of pigeon holes can be suited. Apply to D. Belleghem, contractor. 3d

—Speaking of the recent Y.P.S. excursion, to this city, from Cannington, the Ontario Gleaner finishes its favourable report by saying: The citizens of Peterborough did everything in their power to give the western people an enjoyable outing. Their kindness was much appreciated by the visitors.

—The pulpit of George street Methodist church will be occupied during the absence of Dr. Crothers by Rev. Ellwood Bowerman, residing for the present at 544 Bethune street. The evening service in the interest of young men, from text, "He pitched his tent toward Sodom." All welcome.

—Mr. Joe McConnell of Lindsay, met with a painful accident on Sunday last while he was out in a gasoline launch. His left trouser leg got caught in a set screw and his leg being pulled over the engine, was badly torn near the ankles. A number of stitches had to be put in by Dr. Gillespie and Joe will likely have to use crutches for a time. —Watchman-Warder.

—The Port Hope Guide says: Recently Dr. R. A. Corbett notified the Coupoil that the agreement of Port Hope Electric Light and Power Company for lighting the town would terminate six months hence. A notice signed by the Mayor and Clerk of the municipality has been sent Dr. Corbett notifying him to have the electric light poles removed from the different streets of the town within six months of said notice.

—A good story is being told of a well known local clergyman. While in Peterborough the other day he entered a barber shop to get shaved. The proprietor had evidently been celebrating the night before, and his hand was far from being steady. He got along very well at first, but finally the razor slipped and took a piece out of the clergyman's chin. "There," exclaimed the divine, "you see what your whiskey does for you." "Yes," replied the barber, "it makes the skin very tender." — Lindsay Watchman-Warder.

—During the last few days the 'lunge gathered in by the fishermen have been somewhat scanty, and a great surprise always accompanies the capture of a member of this tribe. But imagine the astonishment of Dr. Edwin, of "Satisfaction Camp," when he hauled out a monster snapping turtle the other day. The doctor was on the point of bringing into the boat a fine 'lunge when this turtle thinking that it had a better claim on the fish than he, protested strongly against this fact, by catching hold of the 'lunge to make away with it, but the doctor being the stronger of the two, won the tug-of-war, and the prize.

THE BEST STOVE CO.

STEADILY ADVERTISED.

A Good Range, Given Proper Publicity, Finds a Big Sale.

McClary's "Pandora" a Household Word in all Canada.

The McClary Manufacturing Co., of London, Ont., start their fall advertising in this issue, and are again specializing on their Pandora Range. The Pandora is practically a new range, having been first placed on the market about three years ago. During that time its makers have advertised in the best weekly papers to a very large extent, with the result that the Pandora is well known from one end of Canada to the other. The advertising, of course, has been backed up by a high-class, modern article. The present series of ads. explain a few of the leading virtues of the Pandora range, and doubtless every woman wanting a good stove will examine this famous range before buying.

VISIT TO PETERBOROUGH

Of W. T. Pember, Toronto, Canada's Hair King.

In another column will be seen the advertisement of W. T. Pember, Toronto, Canada's Hair King, who will be in Peterborough at the Snowden House, on Tuesday, August 8th. Miss Louise Quinn, of Rochester, N.Y., and Miss May Quinn, of Clinton, Iowa, who have been the guests

SOME CHANGES IMMINENT IN G. T. R. DISTRICT OFFICIALS

The Examiner is informed that a number of important changes in the district officials of the G.T.R. are contemplated in the near future. One of these is said to be the promotion of Mr. T. Irwin, the present trainmaster of this division, with headquarters at Lindsay to the position of assistant superintendent, under Mr. Tiffin, and his removal to Toronto. The present assistant superintendent, Mr. Lynch is said to be slated for the superintendency of a western division. As to Mr. Irwin's successor here, it is gossip around the streets that it will be between Mr. Kelly and Mr. McMillan, both popular conductors at present running out of this station, one on the flyer to Toronto, and the other on the Belleville train.

It has been impossible to confirm these reports, here, as the official notice of the changes, if there are to be any, will come from Toronto.

SMALL BLAZE GAVE FIREMEN A RUN

Fire at a North End Residence—Damage Slight.

The firemen received a call about 8.15 this morning to extinguish a blaze at the residence of Mrs. Barrie, 623 George street. The fire started in the bedding but its origin is a mystery.

Some of the neighbors quickly organized a bucket brigade and the fire was almost extinguished when the firemen arrived. The bedding and bed were burned and some of the other effects in the room were damaged by smoke and water.

DIED AFTER A LONG ILLNESS

Late Mr. Heny Juby was ill for Sixteen Months.

Last night, after an illness extending over a period of 16 months, the death occurred of Mr. Henry Juby. The deceased had been suffering for some time and in June an operation was performed for appendicitis, but it did not have the desired effect, and the patient gradually sank, his death occurring about 10 o'clock last night at his home, 44 George street.

The late Mr. Juby was 39 years of age and had been a resident of the city for seven years, during which time he was employed with the G.T. Railway in the freight house, and with the Geo. Matthew's Company. He leaves to mourn his loss, a wife and three children, two boys and one girl, besides five brothers and five sisters, all living near Belleville. One brother, James, has been in Peterborough during the period of the deceased's illness. Mr. Juby's mother is also living in Belleville.

Deceased was a member of Lansdowne Lodge S. O. E., under the auspices of which the funeral will take place on Monday morning at 8 o'clock from the family residence to the G.T. R. station and the remains will be conveyed to Madoc Junction, where the enterment will take place in the family burying ground.

S. O. E. Attention!

There will be a special meeting of Lansdowne Lodge, S.O.E., this, Saturday, evening at 7.30 o'clock, in their hall, to arrange for the funeral of their late brother, Henry E. Juby.

S.A. OKE, F. KITNEY,
Secretary. President.

Chemong Park Cottagers Association.

The annual meeting of the Chemong Park Cottagers Association will be held at the Hotel Chemong on Saturday evening, August 5th, at 8.30 p.m., and a full attendance of property owners is requested as important business will be transacted.
W. J. Hopwood, secretary. 1t

Second Bowler Personally Conducted Excursion.

District Passenger Agent McDonald, of the Grand Trunk Railway, has received from Mr. Bowler, at San Francisco, a letter in which he states that he has the happiest party he has ever travelled with, and that they are having a delightful trip, and that the dining car service, which is being operated by the Grand Trunk, has given great satisfaction.

The second party is now being formed, and will leave Toronto, August 29th. Rate of $150.00 covers round trip ticket, berth in sleeper, meals in dining car, and lodging at hotels in Los Angeles, San Francisco, and Portland, Oregon, a number of side trips, etc. Send for itinerary, which may be obtained from principal Grand Trunk agents, or by addressing E. C. Bowler, Room 308, Union Station, Toronto. 10d27

Mr. and Mrs. R. H. Portye, were up the Lakes yesterday.

Miss Winifred Clark who is the guest of Mr. Alfred Thomas, Pompadour Island, caught a 15 lb. 'lunge while out trolling last evening with Mr. Thomas.

Fishing Good Yesterday.

A party composed of Dr. Jackman, Dr. Barnes and Mr. Warne, who are guests at the Victoria House, returned last night from a two day fishing trip to White Lake. The party brought home about 35 bass as a result of the expedition.

Many good catches were reported yesterday from different parts of the lake, the atmospheric conditions being particularly favourable to those on a quest in the haunts of the finny tribe.

American Cousin Was Dissatisfied

On one of the rough days of the early part of the week several of the passengers upon one of the local steamers were the involuntary auditors of a conversation which took place upon the upper deck, at a moment when the gale was particularly violent. One of the principals was a lady whose rapid rise to social prominence was the result of a "bull movement" upon the stock market whereby her husband had been a financial gainer. That she was an "Americran" was proclaimed in no uncertain tones, not only by the strident vocal announcements contained in animated asides to a female friend, but equally as unmistakably in her dress and demeanor. After her frequent references to the ennui occasioned by a visit to Canada, she invariably returned to the "stock" subject of the delights of "dear old Chicago." The thought appeared to oppress her and caused her to indulge in a silent period of introspection, from which she finally roused herself, in a crowning gem of thought, which came in the nature of an audible rumination, — "Dear me! How tiresome this trip is. Goodness! What a relief it will be to be landed once more on vice versa."

Note—The key to the last "Joke" will be furnished on application to this office.

BLACK BASS ARE PLENTIFUL IN STONY LAKE WATERS

Yesterday morning about twenty-five black bass were caught from the dock at Kilkenny. The first was landed by Miss Mildred Jeffrey of Toronto, who happened to drop her line in before going sailing. In a minute she hooked a large bass and so great was her surprise she had to be assisted in landing it. Every rod and line in camp was soon brought out and some lively catches made. Preparations are being made by the large number of guests at Kilkenny for the Masquerade Dance on Saturday night. Some original and interesting costumes are promised. Mr. Rupert Donell hooked a 14lb. lunge near Shirt Island yesterday.

COACH STATION AT MILLBROOK REPLACED BY NEW STRUCTURE

Yesterday work was begun on the reconstruction of the Millbrook G. T. R. station, which was destroyed by fire some months ago. A force of fifteen men is employed on the work and the erection of the new building, which will be a credit to the town and the company, will be rushed. The new station will be considerably larger than the one destroyed by fire, and a new concrete platform will be constructed.

Since the old building was burned, the business has been carried on in a coach and a box car, which were run on to a siding laid for the purpose.

"DAYLIGHT STORE"

Pants Week!

This is Pants Week!
Its the usual sale—part of the regular Midsummer Clearance.
Pants are one of the most wanted features of every man's wardrobe.
These Pants exactly meet the requirements in

Fashion, Fit and Value

of the most fastidious and particular dressers. It isn't a picked over variety. They are Pants that have no ready-to-wear equals; neither are they surpassable by the made-to-order kind.

Here are our Pant Week Prices
(Buy as many pairs as you can use)

3.50 and 4.00 quality for **2.90**
3.00 " " **2.50**
2.50 " 2.75 " " **1.95**

This is certainly a great opportunity to get exceptional value in Pants. Come everybody—there's a hearty welcome for all.

Clothiers and Furnishers to Men Who Know.
409—411 George Street, Peterborough

SPORT NOTES.

Peterborough sportsmen have again added to their laurels. At the regatta held on Thursday, at Sturgeon Point, the largest and most successful in the history of the regattas at that popular point, the most coveted prizes went to Peterborough people, notably that for sailing dinghies. The first two prizes were won by Peterborough yachtsmen, Messrs. Hopwood and Hamilton, and the fact that the boats which they sailed were both made in this city, is another circumstance of which residents of Peterborough may well be proud. Misses Hamilton and Hunter and Messrs. Weeks and Roy, were also among the winners at that regatta, and all who entered from this city made most creditable showings. It seems to be an acknowledged fact, that when Peterborough people go in for sports or, in fact, anything, they go into it with the idea of winning, which they usually succeed in doing, and the achievements of local ladies and gentlemen at Sturgeon Point, will still further serve to place this city amongst the very foremost in the province in this particular line, as indeed it is also in the lead in other respects.

The Locust Hill Clippers, last year champions of the Midland Football League, and the team which again carried off that honour, has added to the renown which that achievement has brought them by running off with the Intermediate championship of the Ontario Football Association, by defeating the Dundas Scots and, according to despatches, the defeat was somewhat of a surprise, not only to the defeated team, but also to many others interested in the game, because, while it was known that the Clippers had captured the Stratton Cup, representing the championship of the Midland League, it was generally conceded that the style of football played in the West was superior to that played by teams in the East, an idea which recent events have shown was a decidedly erroneous one. This win for the Locust Hill team will serve to call more attention to the League, which was organized by a local football enthusiast, Dr. Morgan, and the trophy representing the championship of which was donated by another local gentleman, Hon. J. R. Stratton. The Clippers, in addition to winning the Intermediate championship of the Ontario Association, are now after the scalps of the Seaforth team, the senior champions, and there is good reason to believe that the Seaforth team will find it all they are capable of to defeat the fast team from Locust Hill. In fact, it is doubtful if a game can be arranged between the two teams.

The Guild League championship has again been decided, and, as last season, the cup representing the championship, goes to Charlotte street team, who have now won it twice in succession, and have only to win it once more for it to become their absolute property. The series of games in this League this season has been most interesting, and the quality of the ball has been on the whole, considerably superior to that of last year. All the teams were stronger than they were in 1904 and the Charlotte street team notably so. In the absence of a City League, the games in the Guild League have aroused considerable interest in the game, and the different contests have been witnessed by large numbers of enthusiasts. On the whole, the best of good feeling has prevailed between the different teams in the League, and the Executive has had a comparatively easy time. The result of the games seems to have shown pretty conclusively that the Charlotte street team was the better team, although had St. John's team been thoroughly organized early in the season there might have been a different tale to unfold now. These two teams were, judging by the results, considerably the best teams in the League, although there is no doubt that the last two games between the winners of the two districts have not shown St. Andrew's team up in their best light, because they have played better ball earlier in the season than they have given evidence of during these games.

The local lacrosse team now starts on the second round of games, entering the semi-finals, and are drawn to play Midland. On the face of it, this does not seem to be a fair arrangement, either to the local team, or to their opponents, because of the distance which the teams will have to travel, but, while the Executive of the C. L. A. recognize this fact, they say that there is really no help for it. The Midland team has won its district without having had to play a game, all the other teams in that group having defaulted to them, which would go to show that the Midland team is a pretty dangerous aggregation, and the home team may have their work cut out to win from them. The first game is scheduled to be played here on Wednesday, August 9th, and should be a good hard contest. The local team has had easy propositions so far this season, but, according to indications, Midland is something different from anything they have been up against this season. This is the town that "Eli" Hanley comes from, and the prospects are that the players on the Midland team are no novices at the game. The return game will be played in Midland on some day, not as yet decided upon, during the following week.

THE CHURCHES

ST. PETER'S CATHEDRAL. — At St. Peter's Cathedral there will be three masses celebrated — at 8.00 a. m., low mass; children's mass at 9.15 a.m.; high mass at 10.30; Vespers at 7.00 p. m., with sermon.

ST. JOHN'S CHURCH.—Rev. J. C. Davidson, rector. Aug. 6, 7th Sunday after Trinity. Services.—8.30 a. m., Holy Communion; 11.00 a. m., Morning Prayer and Sermon; 3.00 p. m., Sunday School and Bible Class; 7.00 p. m., Evensong and Sermon.

ST. LUKE'S CHURCH.—Rev. E. A. Langfeldt, M. A., rector. 7th Sunday after Trinity, August 6th. Services.—10.00 a. m., Sunday School; 11.00 a. m., Morning Prayer and Holy Communion; 7.00 p. m., Evensong and Sermon.

The rector will preach at both services. Subject for the sermon at the morning service, "Faith Healing", and for the evening sermon, "Faithless Israel."

ALL SAINTS' CHURCH — (corner of Rubidge and Sherbrooke streets) Rev. Wm. Major, rector. August 6th, 7th Sunday after Trinity. Services.—8.30 a. m., Holy Communion; Morning Prayer and Sermon at 11.00 a. m.; Evensong and Sermon at 7.00 p. m.

ST. ANDREW'S CHURCH.—(Presbyterian) corner of Rubidge and Brock streets, Rev. Jas. G. Potter, B. A., minister. Services, 11 a. m. and 7 p.m. Sabbath School at 3.15 p. m.; Young Ladies' Bible Class at 3 p. m. Young Men's Union 3.15 p. m. Monday 8.00 p. m. Young People's Guild; Prayer Meeting Wednesday at 8.00 p. m.

ST. PAUL'S CHURCH. — Rev. E. F. Torrance, D. D., pastor; Rev. W. MacD. MacKay, assistant pastor. Services.—11.00 a. m., Rev. J. A. Wilson, of Hamilton, will preach to the united congregations of St. Paul's and Knox Churches. 7.00 p. m., no service.

To-morrow being the first Sunday in the month the usual collections for missions will be taken up.

KNOX CHURCH. — (Presbyterian) corner of Wolfe and Reid streets. Services.—11.00 a. m., no service; 7.00 p. m., Rev. J. A. Wilson, of Hamilton, to the united congregations of St. Paul's and Knox Churches.

To-morrow being the first Sunday in the month the usual collections for missions will be taken up.

GEORGE STREET METHODIST CHURCH.—Rev. Dr. Crothers pastor. Services.—11.00 a. m. and at 7.00 p. m., by the Rev. Ellwood Bowerman; 2.30 p. m., Sunday School and Bible Class.

CHARLOTTE STREET METHODIST CHURCH.—Rev. W. J. Jolliffe, B. C. L., pastor. Services at 11.00 a.m., and at 7.00 p. m.; Sunday School and Bible Class at 3.00 p. m.; Epworth League on Monday evening at 8.00 o'clock.

PARK STREET BAPTIST CHURCH.—Rev. A. H. Brase, pastor. Services.—11.00 a. m., and 7.00 p. m.; Sunday School and Bible Classes. Strangers made welcome. Hymn Books provided. Short services with a twenty minute sermon.

MURRAY STREET BAPTIST CHURCH —Rev. Freeman J. Scott, B. A., B. Th., pastor. Services 11.00 a.m. and 7.00 p.m; 10.00 a.m. Sunday School and Bible Class; B. Y. P. U. meets every Monday evening at 8 o'clock; Regular Prayer Service on Wednesday evening at 8 o'clock.

Rev. J. Deacon, of Norwood, will preach both morning and evening.

MARK ST. METHODIST CHURCH.—Rev. J. G. Lewis, B. A., pastor. Preaching service at 11 a. m. and 7 p. m. Sunday School and Bible Class at 2.45 p.m.; Epworth League meeting at 8 p. m. Prayer Meeting on Wednesday evening at 8 o'clock. The pastor will have charge of both services. Free seats. All cordially invited.

PETERBOROUGH SATURDAY AUGUST 5 1905

Running The Multi-Millionaire Household

BY OSBORN SPENCER.

No more remarkable change has come about within the past few years, than, by reason of the phenomenal growth of their wealth, has taken place in the "running" of the households of the rich.

It is not all very long since these households were carried on much as they were half a century ago. Then the master of the house generally, though sometimes its mistress, looked after most of the buying for the household, including the marketing, while the mistress of the house almost invariably gave personal attention to the details of its carrying on, even if she had a hired housekeeper to assist her.

This old system still survives in a few Philadelphia families. In that city it is by no means unusual, to this day, to see the old-school head of one or another old, old family visit the market, accompanied by a trusty servant, bearing a huge basket. From stall to stall go master and man, the former inspecting, bargaining for, and ordering, roasts, fish, fowl, various vegetables and other foods.

When the big basket is filled, the master proceeds on his way down town to business, if he is in business; if not, he goes about whatever social or other pursuits he affects, while the servant goes home with the basket. This is the old colonial system, exactly, and it is is carried out to its logical conclusion by the master of the house looking after his own household accounts, even to keeping the family books himself, and making the entries therein with his own hand.

There is a story that at least one of the richest Federal Senators looks after his household expenditures in the same way, much of the time, when he is in Washington.

Modern Households Too Big for the Old Way.

But the households of the rich of to-day are altogether too big to be carried on after this fashion. They often number from fifty to one hundred and fifty persons, the expense of running them for a year is enough to make what was a very respectable fortune only a few years ago, comparatively, and the accounts are so complicated as to require the services of an expert bookkeeper. Not infrequently the accounts are almost as intricate as the books of a big corporation. Indeed, the household books of more than one multi-millionaire railway man are modelled on the books of the railway line through won its wealth and social prestige.

In households of this sort, where the affairs of the family money mill are so engrossing as to take all the time and energy of the head of the house, and her social duties so extensive as to overwhelm the mistress, the executive household head is a hired employee per force. In one family this employee is said to be known as the "chatelaine," though it seems strange that any woman to whom it rightfully belonged would readily surrender this title, originally meaning the "mistress of the castle," to another.

Sometimes she is called the steward ess, as she would be in a hotel, and sometimes merely the housekeeper; but whatever else title, some one, almost always a woman, has to be employed in every multi-millionaire family of social pretentions to act as executive head, to put into operation the briefly expressed wishes of both master and mistress of the house.

Duties of the Modern Household Executive.

The duties of the modern multi-millionaire household's executive head are multifarious.

In the summer time, when the family is living at its country place, her authority extends in a way to the uttermost boundaries of the estate. Butler and chambermaids, coachman, chief stableman and head gardener, all take orders from her.

Of course, her rule does not extend to the small details concerning the work done by such employees as the coachman, the head gardener and the stableman. Each of these manages the internal affairs of his own little domain as it pleases him, but from the coachman receives his orders as to what turnouts shall be brought out each day and when; the head stableman gets from her his directions regarding the saddle horses that are wanted, and from her the head gardener receives directions as to the flowers that are wanted at the house.

Furthermore, all these submit their accounts to her and it is she who draws their attention to any undue expensiveness that may develop in the conduct of their departments in the little world that makes up the establishment maintained by their multi-millionaire employer.

If there is a housekeeper under this functionary, then the latter probably acts as social secretary to the mistress of the house. Generally, though, this is not the arrangement, the social secretary's work being done by a woman who has no other duties to perform. In any event the household force is divided into three classes: The maids, the butler's "staff," and the kitchen forces. The last named are headed by the chef—sometimes there are two—and he has from three to five helpers. The kitchen is the most expensive of the three departments. There are probably few ten thousand dollar cooks now in the United States, but some of them are very well paid indeed. The butler is another well paid employee, and, almost without exception, he, as well as the chef, is an importation. The head cooks and head waiters in many of the multi-millionaire houses are better paid (when it is remembered that the pay includes "keep" and at least two new suits a year) than most active railroad men for instance. Yet the Americans who become chefs or butlers are about as scarce as strawberries in December.

The writer, in fact, never heard of an American occupying a place either as chef or butler. Full bred American coachmen, head gardners and stablemen are by no means unknown, though even in these situations the foreign born are much in the majority.

Each Servant Specially Trained.

To get back to the conduct of the multi-millionaire household, it should be understood that each employee is carefully trained to do his part or her part perfectly.

It is the duty of one of the maids, for instance, to see to it that cut flowers are freshly supplied, daily, or as often as necessary; another maid dusts the hall, others look after the bed chambers, and so on. The butler's staff has entire charge of the ground floor, the basement and the cellars, excepting the laundry and the charmed region over which the chef presides. Each member of the butler's staff is expected to perform certain well-defined duties and no others. If, by reason of temporary short-handedness about the house, one of them does the work of another, it is always as a favour and never exacted as a duty.

Both the butler and his helpers—in fact, all the servant members of the household—are trained to receive and execute orders with the utmost of those to whom of right orders should be given; never to display the slightest interest in the conversation of their "superiors," either guests or members of the family, and, in general, to behave as if born to render service. This, the foreign born menservants of the modern multi-millionaire family have no difficulty in doing, and the household executive is rarely troubled by a change in the personnel of the butler's staff. There are plenty of butlers who feel proud of having served the same family for ten, fifteen, even twenty years or more.

It is not so with the maids. Many of them are of American birth and the household executive in the multi-millionaire's home often finds the servant problem above the ground floor as serious as any middle class housewife finds it in her modest home.

It should be said of the wooden faced butler and his assistants that in general they are really as independent-minded as any one else. Their apparent submissiveness and their indifference to what is going on about them are only surface indications, by no means borne out by their unvoiced mental attitude. They earn their wages by a show of deference and by somewhat ostentatious obedience when on duty. It is only when off duty and among his own kind that the imported servant in an American multi-millionaire family speaks his mind and shows his real self.

Then, sometimes, he gives utterance to the most extraordinary sentiments; then, if he knows and trusts you, he will tell you what he thinks of the country. Invariably he will say he stays on this side of the ocean only because the wages here are high. He doesn't like to think of his son and daughter going back, and he never plans for either to be a house servant, like himself, on either side of the ocean.

How the Bills are Paid.

"The office" where the household executive spends certain hours every day is one of the most important apartments in the modern multi-millionaire's establishment. It is not conspicuous enough to attract the attention of guests, but it is the heat centre of the household's activity and intelligence as much as is the manager's office in a big hotel.

It is there that the household bills are paid and filed; it is there that the books are kept; it is there that the expenses of the place each month are compared with the expenses of previous months as carefully as the expenses of the great corporation whose profits furnish the family income are compared by the corporation's accounting department. In some cases the household bills are formally audited once a month by an expert accountant sent from the corporation's main office.

In almost every case all orders for supplies are made out on blank forms, similar to the purchasing forms used by big corporations, and are good only when signed by the stewardess, or whatever the household executive may be termed, and countersigned either by the head of the family or one of his most trusted office employees. The wages account is generally liquidated by a cheque from the head of the house, drawn to the order of the household executive, cashed by her and paid to the employes in currency to suit.

Details of the Executive's Work.

It is the household executive, whatever her title, who watches closely the costly silver, the delicate cut glass and the dainty chinaware of the house. It is she who sees to it that renewals both in the household table service and the household linen are made at the proper time. It is a part of her duty to prevent leakages either through carelessness or through pilfering.

She must keep harmonious the discordant personalities sure to be brought together in any aggregation of people as numerous as a modern multi-millionaire's household. There are sure to be differences, even quarrels, between gardner and butler, and chef, stableman and coachman, and coachman and gardener, to say nothing of the inevitable tittings out among the women of the household. These she must soothe over herself, if possible, keeping all knowledge of them from either the business ridden master or the socially driven mistress of the house.

The household executive, too, must look after the daily menus, for which purpose she must have at least one session every day with the chef. Often after she has arranged the dinner menu, the real chatelaine will suggest re-arrangement, sometimes so late in the day as to make the chef sulky; such a situation calls into play all the tact the stewardess has at her command.

When guests are coming for a "week end" stay, and especially for a two weeks' house party, she invariably has her hands full. It is she who is held responsible for the guests' quarters. It is she who must see to it that they are conveyed from the station to the house in good style the station to the house in good style at the beginning of the visit, and from house to station at its close. She has measurably to look after their comfort during their stay; to see that those who wish to drive have their wishes gratified, that there are boats for those who wish to sail or row, that there are mounts for those who delight in horseback riding, and so on.

The master and the mistress of the house assist her as much as they may, of course, but more than any one else, in many houses she is responsible for the comfort of all concerned.

The Comfort of the Guests.

Neither pains nor money is spared in the arrangements for the comfort of the guests by the American multi-millionaire family. Some of the newer houses have special guests' wings. In these wings there are suites of three rooms, including bath, for visiting couples, and single rooms with bath for single guests. In Manitoba No. 1 hard.

some houses the quarters of each guest are furnished with a telephone, mounted on a pretty stand near the bed, by means of which a guest, at any time of day or night, may order a meal sent to his room or converse with a friend in New York or Chicago.

In one house each guest chamber is furnished with silver-framed cards telling where the nearest drug store is located; the name, address and telephone number of the hostess' family physician; the location of all th churches in the vicinity, with the stated services; the time of arrival and departure of all railroad trains, and a variety of such local information as might be interesting and useful to the guest.

No convenience that has ever been thought of by the most up-to-date hotel man has been overlooked in that house, and besides a lot of things not dreamed of in the outfitting of any hotel on earth have been provided.

In almost all the really well conducted country houses each guest finds, upon retiring to his quarters for the night, a copy of the programme for the next day's entertainment. From it, if the party is big enough to warrant a variety of amusements, he is expected to make his selection, and, later, either to communicate his choice to the mistress of the house or her hired "chatelaine." The programme, of course, has been prepared with special referenda to the known preferences of the guests. Though indicated in general by the master and mistress of the house, it is the ever useful paid "chatelaine" who works it out in detail.

Where is This Paragon to be Found?

Busy as the household executive is kept when many guests are being entertained, she is much busier just before and during the family's change of residence from town to country, and vice versa. It is her province to see that the quarters to which they are going are in apple pie order when they get there and that there are no hitches in the removal. This means that she must come as near to being in two places at once as a human being possibly can, and that before, during and after the shifting of the family's base she must be unusually busy, unusually tactful, unusually alert.

Now, where do the multi-millionaire families find women qualified to perform all the duties of the "household executive" I have described? Is she "social secretary," almost always is, or is she generally imported like the butler? What is she paid? Is her compensation sufficient to make her occupation attractive from the financial point of view?

To be frank about it, not a very large proportion of the multi-millionaires have succeeded, so far, in finding such women at all, either of American or foreign birth. In houses not yet supplied with them the duties described above are shared by different members of the household forces. In such cases, the mistress of the house—the real chatelaine—sometimes actually assumes her rightful place as director of the household, as the mistress of an English "great house" always does.

In one case the master of the house remains at home one day of every week, if possible, and straightens up the ends and ends of household management. In another the master of the house, very rich and with no business cares, is himself chief household executive. In another the former captain of the family steam yacht, now sold, divides the household executive work with the mistress of the house, the housekeeper and the auditor of the big commercial establishment which the master of the house has created and now directs.

But there actually are several just such women, "chatelaines," "stewardesses," what you will, who act as household executives in certain famous multi-millionaire homes and the number is increasing, though not as fast as the multi-millionaire class could wish. Most of these women are American; some are widows of former wealth and social standing of their own, and in one or two instances, the work has been taken up successfully by unmarried young American women of good education who have deliberately chosen it for a life occupation.

The pay runs from $1,500 to $4,000 or $5,000, the smallest figures given being nearer the average than the largest, but the pay is "net"—that is, it carries full subsistence with it—and often when the family goes to Europe the household executive goes, too, without expense to herself. Besides, she has many perquisites, and these grow as the length of her service increases, providing the master of the house doesn't lose his fortune in the modern scramble for more money and yet more money.

Take it altogether, the job isn't so bad for one who is fitted for it by training and natural ability, though it would swamp many a woman of very superior mentality and attainments.

NEW INDUSTRY FOR THE CANADIAN WEST

South Alberta Branches Out Into a Wheat Growing Country--3,000,000 Bushels Estimated as the Yield for 1905---Irrigation in Alberta Has Passed the Experimental Stage.

Winnipeg, Aug. 3.—Most successful experiments in the cultivation of fall wheat are being made in the Dauphin district. Dominion Immigration Commissioner Smith received this week excellent samples of fall wheat grown from a field of sixty acres, growing near Dauphin town. The grain is now almost ready for the binder, and will give a heavy yield. Commissioner Smith has ordered a large number of samples for exhibition purposes abroad.

The production of fall wheat in Alberta has definitely passed the experimental stage, and it is now regarded as a staple industry. It is estimated that 3,000,000 bushels in all will be harvested this year, compared with an actual harvest of 152,152 bushels last year. It is expected that the grain area of the two new Provinces will be devoted almost exclusively to winter wheat cultivation, within a few years, and if this prediction is verified, the Territories will have the largest winter wheat area on the continent, thus greatly adding to the resources of the West.

Winter wheat has several advantages over the spring sowing variety. Not only is the yield greater, but the fact that it ripens earlier, by spreading the harvest season over a longer time, would be an element of importance in solving the labour problem. The Kansas wheat which is grown here, is one of the hardest varieties of winter wheat, is much superior to the usual Ontario varieties, and, indeed, is comparable to Manitoba No. 1 hard for milling purposes.

The acreage grown in Alberta to winter, or, as it is more generally called, fall wheat, has increased during the past three years to such an extent as to attract the attention of grain men and millers not only in Canada, but in the States also. The first fall wheat seems to have grown about fifteen years ago in the neighbourhood of Pincher Creek, in Southern Alberta, and after a few years the success of the venture attracted such attention that fall wheat is now grown as far north as the Edmonton district. The first samples introduced were of the white or soft variety, chiefly Dawson's Golden Chaff, from Ontario, and Odessa, from the State of Utah. As these were in favour there; but when in 1901 the Canadian Pacific Railway Company, in order to stimulate further the cultivation of fall wheat, imported a quantity of choice seed they included in that shipment a couple of carloads of the Kansas Turkey Red variety, which has become so popular that E. E. Thompson, of High River, a very large and enthusiastic producer, estimates that of the 25,000 acres of fall wheat which will be harvested south of Calgary next month, three-fourths are of that variety.

Besides being apparently hardier, more suited to the climatic conditions of Alberta, and not shelling so readily as other varieties when over-ripe, Turkey Red possesses superior milling properties, grading No. 1 Northern, which is only one grade below the

A SCARCITY OF LEMONS IN CITY

Price Has Recently Advanced One Hundred Per Cent.

Result is That Fewer Lemons are Being Used—The Cause.

"Lemons have advanced 100 per cent. in the past three week," said a local merchant this morning. "For crates that we formerly paid $3.50 we now have to pay just $7." As a consequence fewer lemons are being used than for some time past. The increase has occurred in the past few weeks. From 20c. a dozen they jumped to 30c, then to 35. Just what they stayed for several days but now they have gone up to 40 cents per dozen. That is for the fine November cuttings. The latest cuttings are now in, but they are not very good. However, they bring the price, for 60 cts. a dozen is being asked for them. Unless conditions change, this, it is expected, will soon drop to about 40 cents. This year has been the highest price paid for the favourite fruit for some time. Should the weather become hot again, the demand in the big cities will become heavy, and then up will go the price still higher. Should the weather keep steady, it is thought that the price may soon go down again. As for oranges, their are few to be obtained in the city, and what there are of the best varieties bring about 5 cents each. Owing to the great loss in shipping, and the high price, it does not pay the merchants here to handle them.

The loss in shipping is explained in this way: The fruit comes in refrigerator cars and shortly after coming out they spoil very quickly, our informant stating that out of five boxes he only got three. The demand also is slight, and their absence is not much missed at this time of the year.

A Good Move.

The licensed victuallers of Birkenhead, Eng., are enjoying supernumerated policemen to watch drunken men and women in the streets, and prevent them from entering their public houses.

OGILVIE'S ROYAL HOUSEHOLD

"Royal Household" is in a class by itself.

Flour that gives half nourishment and double work to digest is not good flour.

Cheap and inferior flour gives the digestive organs double work and half pay—inferior flours contain indigestible waste—
—this waste must first be overcome by nature,—that means extra digestive work.

Indigestibles destroy the nutriment of flour, therefore poor flour gives more work and less nutriment to the system.

Royal Household Flour is in a class by itself—it is the only really pure flour—and it is pure because it is purified and sterilized by electricity. —it is the most easily digested and most nourishing because it is absolutely pure.

The moment a woman puts her hands into "Royal Household" she knows it is a finer flour than she ever used before.

OUR DAILY BREAD

The mechanic and every hard-working man ought to take sufficient interest in the Bread he eats to see that the loaf contains good strong nutritive food. If it is made from

"ROYAL HOUSEHOLD"

FLOUR. There is none better, because of the strength-giving properties of the Manitoba Wheat in it.

Sold only in Peterboro', wholesale and retail by

GEO. MATHER

Elevator along side G. T. R. Freight Sheds

THE best range thermometer ever invented will not produce satisfactory baking from a poor oven. A fluctuating oven heat means guess-work baking.

The Imperial Oxford oven has a steady, even heat. You don't require to touch the fire or move a damper. Baking with an Imperial Oxford is an exact science. Just place the article in the oven and time it—the oven does the rest. It is the Diffusive Flue of the

Imperial Oxford Range

that makes this possible. This flue draws in fresh air from outside the range, it is superheated and discharged through a grating into the oven. This heated fresh air permeats every part of the oven and keeps it at an even high temperature.

Write us for literature explaining more fully the exclusive features of the Imperial Oxford Range and the address of the nearest dealer who can show it to you. 22

THE TOTAL ABSTINENCE UNION OF AMERICA CONVENTION IN WILKESBARRE, PA.

Rev. Dr. O'Brien Will go to Wilkesbarre as Delegate of the Local T. A. S.—Prospects That This Convention Will be the Most Successful in Union's History—President Roosevelt Will Attend the Convention—Cardinal Gibbons Will Also be Present—The Programme—Local Delegate Will Leave Here on Monday.

On Monday Rev. Dr. O'Brien will start for Wilkesbarre, Pa., where he will attend the annual convention of the Catholic Total Abstinence Union, of America, which will open Tuesday evening. Dr. O'Brien will go as the delegate from St. Peter's T.A.S., and will remain at Niagara Falls over Monday night, starting from there for Wilkesbarre, early Tuesday morning.

The prospects are that the convention this year will be the most successful in the history of the Union. The "Bulletin," the official organ of the Union, in reference to the convention says:—

The various committees appointed by the Union of Scranton to perfect arrangements for the annual

REV. DR. O'BRIEN,
Who Will Go To Wilkesbarre, Pa., As The Delegate To The T. A. U. of America.

convention of the Catholic Total Abstinence Union of America, have practically completed their work. Nothing has been left undone that would tend to make the coming convention the most imposing and successful in the history of the Union, and at the same time the comfort and welfare of delegates and visitors will be looked after.

The municipal authorities have heartily co-operated with the committee, and the public demonstration that will witness the assembly of total abstainers will no doubt attract widespread attention.

The committee have extended invitations to the mayors of all the large cities in Pennsylvania, and acceptance have been received from many, among them, from Mayor Weaver, of Philadelphia.

President Roosevelt's party will be made up as follows:

The President, Assistant Secretary Barnes, Master Kermit Roosevelt, Master Philip Roosevelt, Master Hall Roosevelt, Dr. C. F. Stokes, U.S.N.; Mr. M. C. Latta, Mr. Jacob A. Rus, Mr. F. H. Tyree, Mr. James Sloan, Jr.

In addition, several members of the Cabinet are expected to be present. Cardinal Gibbons has assured the Committee that if possible he will attend, and a definite reply is expected from him during the week.

Railway Rates.

To people within a radius of two hundred miles of Wilkesbarre a rate of a single fare, plus twenty-five cents, for the round trip has been established. To those coming from a greater distance a rate of a fare and a third, plus twenty-five cents, has been established by the different railway associations. Those coming from a point beyond two hundred miles are required to get a certificate, when properly countersigned by the General Secretary of the Union, entitles them to a return ticket for one-third fare.

Programme.

Tuesday evening.—Meeting of the Executive Council, Spiritual Directors, Presidents and Secretaries of local unions, at Hotel Sterling at 9 p.m. Commencing at 8 o'clock on that evening a reception will be tendered to the visiting delegates at this hotel.

Wednesday, August 9.

8.30 a.m.—Delegates will assemble at Hotel Sterling, to proceed to St. Mary's church, where Pontifical High Mass will be celebrated at 9 o'clock by the Right Rev. Michael John Hoban, D. D., Bishop of Scranton, who will also deliver an address of welcome to the delegates.

11 a.m.—Meeting of the Convention in Armory Hall.

2.30 p.m.—Session of Convention.

Wednesday evening. — Meeting of the delegates at Armory Hall at 8.30. On this evening the Catholic Protectory Band, of New York, will give a concert.

Thursday, August 10.

8 a.m.—Requiem Mass for deceased members at St. Mary's Church, Right Rev. Regis Canevin, President of the National Union, will be the celebrant.

9 a.m.—Session of the Convention.

12 m.—Parade of the societies of the Scranton Union. Arrangements have been made for 12,000 people to take part in this parade.

2.45 p.m.—President Roosevelt and party will be received at the Lehigh Valley station by the officers of the Union and Committee, and escorted to the grand stand erected on the river common, where a public demonstration will be held and several addresses delivered by prominent people, among whom will be the President and Cardinal Gibbons.

5 p.m.—Exercises at Wyoming Monument.

8 p.m.—Public demonstration in Armory Hall, at which addresses will be made by prominent total abstainers.

Friday, August 11.

Sessions of the convention, at the conclusion of which visiting delegates will be taken by trolley to surrounding places of interest.

Saturday, August 12.

All day outing at Harvey's Lake.

The Executive Council of the Union for the year 1904-05 is as follows:

President — Rt. Rev. J. F. R. Canevin, Pittsburg, Pa.

1st Vice-President—Edwin Mulready, Rockland, Mass.

2nd Vice-President — C. L. Anderson, Dubuque, Iowa.

3rd Vice-President — Mrs. L. M. Lake, 1806 Hickory street, St. Louis, Mo.

Secretary—J. Washington Logue, Stephen Girard Building, Phila., Pa.

Treasurer—Rev. J. J. Curran, Wilkesbarre, Pa.

THE DISCOVERY OF COBALT MINES

The New Ontario Minerals Were Found in Ross' Time.

The Building of the Railroad Up There Laid to the Find—Director T. W. Gibson Tells of What was Done.

Toronto, Aug. 4.—The mining developments in Coleman Township, and especially at Cobalt, was the subject of much comment at the legislative buildings. The only criticism offered was in regard to the failure to yield credit to the Bureau of Mines for the discovery of the value of the deposits, or to recognise the importance of the nickel at Cobalt. Silver, cobalt and arsenic are mentioned as the three metals produced.

Mr. Thomas W. Gibson, director of the Bureau of Mines, was interviewed on this point, and stated that he considered the nickel ore to be of great importance. The first discovery made was of nicolite, which contains 43 or 44 per cent. of nickel. Cobalt has already fallen in value from 30 to 40 per cent. on account of the abundance of the Coleman deposits.

"I was in the Temagami country," continued Mr. Gibson, in reply to a question, "late in the fall of 1903, and I saw a sample of this nicolite ore at Haileybury, uncovered during the excavation for the railway, and I received a specimen of it from Mr. Southworth, who accompanied me. I recognized it as a valuable ore of a kind previously unknown in Ontario. The prospectors thought it was copper from the coppery tint of the nicolite. On my return to the city I at once communicated with Prof. Miller, the Provincial Geologist who was in another part of the Province, and had him go to the locality and make an examination. He reached there early in November, and fortunately was able to examine all the veins then discovered, four in number, before the snow fell, which came about the 11th or 12th of the month. At that time the prospectors did not know that they had silver, but Mr. Miller extracted large nuggets and plates from the vein with his pick and pointed it out to them. Mr. Miller's report was at once made public. The information sent in was published in the papers at the time, but was received with considerable incredulity.

"The bureau determined to make a thorough explanation of the district as soon as spring opened. Prof. Miller and several assistants took the field and worked out the geology very thoroughly over practically the whole area, which has proven to be valuable. The geology, as shown on previous maps, was quite incorrect. The ore veins occur in slate breccia, or conglomerate. One or two veins were found in the diabase, which previous observers had erroneously concluded was the prevailing rock in that area.

"As a result of the explorations made by Prof. Miller and his assistants in 1904, a geological map of the region was published in April, 1905, in plenty of time for the prospecting season. The map has full marginal notes, and has been of very great service to prospectors in the field."

"Could you say anything of the policy adopted towards the Crown lands in this region?"

"In November, 1903, immediately after the first discoveries were made, the late Government, by an order-in-Council, withdrew a belt of land ten miles in width, on both sides of the Temiskaming & Northern Ontario Railway from Widdifield Township to New Liskeard, which included the district in question. I may say that while the lands were withdrawn the suggestion was made to the Government that this rich area should be thoroughly explored, the mines located and then the lands offered for sale by public auction. It was believed that a very large sum might have been realised, perhaps sufficient to defray a large part of the cost of constructing the T. and O. Railway. This course, it was thought, would have been quite justifiable, the discovery being directly due to the construction of the railway, which was being built at public cost. Had the railway not been built the discovery would not have been made. A memorandum to this effect was submitted to the late Government. The suggestion was not adopted and the lands were replaced on this market, but the size of the claims was cut down to forty acres, and only one claim allowed to each discovery. This resulted in much more widely distributed ownership than would have been possible under the previous regulations."

PASSED MANY A SLEEPLESS NIGHT

Till He Used Dodd's Dyspepsia Tablets—They Set H. S. Barnes Right on His Feet.

Hot weather and Indigestion travel hand-in-hand each helping to make the other more disagreeable. For when the stomach lags in its work the body grows weak, and weakened bodies cannot stand inconveniences of any kind.

The remedy is to help the stomach and the way to help the stomach needs is contained in Dodd's Dyspepsia Tablets. Those who have used them will tell you that. H. S. Barnes, of Rat Portage, has used them and he says:

"I was a victim of Dyspepsia and residents of Dodd's Dyspepsia Tablets led me to try them. The effect was marvellous. They set me right on my feet after having spent many a sleepless night suffering from a disordered condition of the stomach."

Dodd's Dyspepsia Tablets cure all stomach ailments. One or two Tablets taken after a hearty meal is an insurance policy against discomfort of any kind.

Nuggets for Souvenirs.

The visiting party of American engineers at Dawson and the gold creeeks were asked by the mine owners to pick up as souvenirs of the trip as many nuggets as they cared to carry away, just as in Niagara district the owner would invite you to pick peaches from the trees in his grove. They were also provided with pans to pan out the smaller gold.

Stomach and Liver Troubles.

Mr. Alex. M. Finn, Inkerman, B.B., writes: "I have used Dr. Chase's Kidney-Liver Pills for derangements of the kidneys and liver and stomach troubles, and can certify that they did me a good deal of good. I can heartily recommend them to anyone suffering as I did."

Want Soldiers Bodies.

The French Government some time ago expressed a wish that the bodies of French soldiers who died while prisoners during the Franco-Prussian war, should be returned to France. Emperor William has ordred that this be done and that military honours shall be rendered in every instance during the transfer.

The Return of Sherlock Holmes

By A. CONAN DOYLE,

Author of "The Adventures of Sherlock Holmes," "The Hound of the Baskervilles," "The Sign of the Four," "A Study In Scarlet," Etc.

ILLUSTRATED BY F. D. STEELE

The Adventure of the Three Students

No. 9 of the Series

(Copyright, 1904, by A. Conan Doyle and Collier's Weekly.)
(Copyright, 1905, by McClure, Phillips & Co.)

IT was in the year '95 that a combination of events into which I need not enter caused Mr. Sherlock Holmes and myself to spend some weeks in one of our great university towns, and it was during this time that the small but instructive adventure which I am about to relate befell us. It will be obvious that any details which would help the reader to exactly identify the college or the criminal would be injudicious and offensive. So painful a scandal may well be allowed to die out. With due discretion the incident itself may, however, be described, since it serves to illustrate some of those qualities for which my friend was remarkable. I will endeavor in my statement to avoid such terms as would serve to limit the events to any particular place or give a clew as to the people concerned.

We were residing at the time in furnished lodgings close to a library where Sherlock Holmes was pursuing some laborious researches in early English charters—researches which led to results so striking that they may be the subject of one of my future narratives. Here it was that one evening we received a visit from an acquaintance, Mr. Hilton Soames, tutor and lecturer at the College of St. Luke's. Mr. Soames was a tall, spare man, of a nervous and excitable temperament. I had always known him to be restless in his manner, but on this particular occasion he was in such a state of uncontrollable agitation that it was clear something of unusual had occurred.

"I trust, Mr. Holmes, that you can devote me a few hours of your valuable time. We have had a very painful incident at St. Luke's, and really, but for the happy chance of your being in town, I should have been at a loss what to do."

"I am very busy just now, and I desire no distractions," my friend answered. "I should much prefer that you called in the aid of the police."

"No, no, my dear sir; such a course is utterly impossible. When once the police is evoked it cannot be stayed for an, and this is just one of those cases where, for the credit of the college, it is most essential to avoid scandal. Your discretion is as well known as your powers, and you are the one man in the world who can help me. I beg you, Mr. Holmes, to do what you can."

My friend's temper had not improved since he had been deprived of the congenial surroundings of Baker street. Without his scrapbook, his chemicals and his homely untidiness he was an uncomfortable man. He shrugged his shoulders in ungracious acquiescence, while our visitor in hurried words and with much excitable gesticulation poured forth his story.

"I must explain to you, Mr. Holmes, that tomorrow is the first day of the examination for the Fortescue scholarship. I am one of the examiners. My subject is Greek, and the first of the papers consists of a large passage of Greek translation which the candidate has not seen. This passage is printed on the examination paper, and it would naturally be an immense advantage if the candidate could prepare it in advance. For this reason great care is taken to keep the paper secret.

"Today about 3 o'clock the proofs of this paper arrived from the printers. The exercise consists of half a chapter of Thucydides. I had to read it over carefully, as the text must be absolutely correct. At 4:30 my task was not yet completed. I had, however, promised to take tea in a friend's rooms, so I left the proof upon my desk. I was absent more than an hour.

"You are aware, Mr. Holmes, that our college doors are double—a green baize one within and a heavy oak one without? As I approached my outer door I was amazed to see a key in it. For an instant I imagined that I had left my own there, but on feeling in my pocket I found that it was all right. The only duplicate which existed, so far as I knew, was that which belonged to my servant, Bannister, a man who has looked after my room for ten years and whose honesty is absolutely above suspicion. I found that the key was indeed his, that he had entered my room to know if I wanted tea and that he had very carelessly left the key in the door when he came out. His visit to my room must have been within a very few minutes of my leaving it. His forgetfulness about the key would have mattered little upon any other occasion, but on this one day it has produced the most deplorable consequences.

"The moment I looked at my table I was aware that some one had rummaged among my papers. The proof was in three long slips. I had left them all together. Now I found that one of them was lying on the floor, one was on the side table near the window and the third was where I had left it."

Holmes stirred for the first time.

"The first page on the floor, the second in the window, the third where you left it?" said he.

"Exactly, Mr. Holmes. You amaze me. How could you possibly know that?"

"Pray continue your very interesting statement."

"For an instant I imagined that Bannister had taken the unpardonable liberty of examining my papers. He denied it, however, with the utmost earnestness, and I am convinced that he was speaking the truth. The alternative was that some one passing had observed the key in the door, had known that I was out and had entered to look at the papers. A large sum of money is at stake, for the scholarship is a very valuable one, and an unscrupulous man might very well run a risk in order to gain an advantage over his fellows.

"Bannister was very much upset by the incident. He had nearly fainted when we found that the papers had undoubtedly been tampered with. I gave him a little brandy and left him collapsed in a chair, while I made a most careful examination of the room. I soon saw that the intruder had left other traces of his presence besides the rumpled papers. On the table in the window were several shreds from a pencil which had been sharpened. A broken tip of lead was lying there also. Evidently the rascal had copied the paper in a great hurry, had broken his pencil and had been compelled to put a fresh point to it."

"Excellent!" said Holmes, who was recovering his good humor as his attention became more engrossed by the case. "Fortune has been your friend."

"This was not all. I have a new writing table with a fine surface of red leather. I am prepared to swear, and so is Bannister, that it was smooth and unstained. Now I found a clean cut in it about three inches long—not a mere scratch, but a positive cut. Not only this, but on the table I found a small ball of black dough or clay, with specks of something which looks like sawdust in it. I am convinced that these marks were left by the man who rifled the papers. There were no foot-

Copyright by Collier's Weekly.

Bannister.

marks and no other evidence as to his identity. I was at my wits' ends when suddenly the happy thought occurred to me that you were in the town, and I came straight round to put the matter into your hands. Do help me, Mr. Holmes. You see my dilemma. Either I must find the man or else the examination must be postponed until fresh papers are prepared, and since this cannot be done without explanation there will ensue a hideous scandal which will throw a cloud not only on the college but on the university. Above all things I desire to settle the matter quietly and discreetly."

"I shall be happy to look into it and to give you such advice as I can," said Holmes, rising and putting on his overcoat. "The case is not entirely devoid of interest. Had any one visited you in your room after the papers came to you?"

"Yes; young Daniel Rae, an Indian student, who lives on the same stair, came in to ask me some particulars about the examination."

"For which he was entered?"

"Yes."

"And the papers were on your table?"

"To the best of my belief they were rolled up."

"But might be recognized as proofs?"

"Possibly."

"No one else in your room?"

"No."

"Did any one know that these proofs would be there?"

"No one save the printer."

"Did this man Bannister know?"

"No; certainly not. No one knew."

"Where is Bannister now?"

"He was very ill, poor fellow! I left him collapsed in the chair, I was in such a hurry to come to you."

"You left your door open?"

"I locked up the papers first."

"Then it amounts to this, Mr. Soames, that, unless the Indian student recognized the roll as being proofs, the man who tampered with them came upon them accidentally without knowing that they were there."

"So it seems to me."

Holmes gave an enigmatic smile.

"Well," said he, "let us go round. Not one of your cases, Watson—mental, not physical. All right; come if you want to. Now, Mr. Soames, at your disposal."

The sitting room of our client opened by a long, low, latticed window on to the ancient lichen tinted court of the old college. A Gothic arched door led to a worn stone staircase. On the ground floor was the tutor's room. Above were three students, one on each story. It was already twilight when we reached the scene of our problem. Holmes halted and looked earnestly at the window; then he approached it, and, standing on tiptoe with his neck craned, he looked into the room.

"He must have entered through the door. There is no opening except the one pane," said our learned guide.

"Dear me!" said Holmes, and he smiled in a singular way as he glanced at our companion. "Well, if there is nothing to be learned here we had best go inside."

The lecturer unlocked the outer door and ushered us into his room. We stood at the entrance while Holmes made an examination of the carpet.

"I am afraid there are no signs here," said he. "One could hardly hope for any upon so dry a day. Your servant seems to have quite recovered. You left him in a chair, you say. Which chair?"

"By the window there."

"I see. Near this little table. You can come in now. I have finished with the carpet. Let us take the little table first. Of course what has happened is very clear. The man entered and took the papers, sheet by sheet, from the central table. He carried them over to the window table, because from there he could see if you came across the courtyard and so could effect an escape."

"As a matter of fact he could not," said Soames, "for I entered by the side door."

"Ah, that's good! Well, anyhow, that was in his mind. Let me see the three strips. No finger impressions—no! Well, he carried over this one first, and he copied it. How long would it take him to do that, using every possible contraction? A quarter of an hour, not less. Then he tossed it down and seized the next. He was in the midst of that when your return caused him to make a very hurried retreat—very hurried, since he had not time to replace the papers which would tell you that he had been there. You were not aware of any hurrying feet on the stair as you entered the outer door?"

"No, I can't say I was."

"Well, he wrote so furiously that he broke his pencil, and had, as you observe, to sharpen it again. This is of interest, Watson. The pencil was not an ordinary one. It was above the usual size, with a soft lead, the outer color was dark blue, the maker's name was printed in silver lettering, and the piece remaining is only about an inch and a half long. Look for such a pencil, Mr. Soames, and you have got your man. When I add that he possesses a large and very blunt knife you have an additional aid."

Mr. Soames was somewhat overwhelmed by this flood of information. "I can follow the other points," said he, "but, really, in this matter of the length"—

Holmes held out a small chip with the letters NN and a space of clear wood after them.

"You see?"

"No, I fear that even now"—

"Watson, I have always done you an injustice. There are others. What could this NN be? It is at the end of a word. You are aware that Johann Faber is the most common maker's name. Is it not clear that there is just as much of the pencil left as usually follows the Johann?" He held the small table sideways to the electric light. "I was hoping that if the paper on which he wrote was thin some trace of it might come through upon this polished surface. No, I see nothing. I don't think there is anything more to be learned here. Now for the central table. This small pellet is, I presume, the black, doughy mass you spoke of. Roughly pyramidal in shape and hollowed out, I perceive. As you say, there appear to be grains of sawdust in it. Dear me, this is very interesting. And the cut—a positive tear, I see. It began with a thin scratch and ended with a jagged hole. I am much indebted to you for directing my attention to this case, Mr. Soames. Where does that lead to?"

"To my bedroom."

"Have you been in it since your adventure?"

"No, I came straight away for you."

"I should like to have a glance round. What a charming, old fashioned room! Perhaps you will kindly wait a minute until I have examined the floor. No, I see nothing. What about this curtain? You hang your clothes behind it. If any one were forced to conceal himself in this room he must do it there, since the bed is too low and the wardrobe too shallow. No one there, I suppose?"

As Holmes drew the curtain I was aware from some little rigidity and alertness of his attitude that he was prepared for an emergency. As a matter of fact, the drawn curtain disclos-

Daulat Rae.

ed nothing but three or four suits of clothes hanging from a line of pegs. Holmes turned away and stooped suddenly to the floor.

"Hello! What's this?" said he.

It was a small pyramid of black, putty like stuff, exactly like the one upon the table of the study. Holmes held it out on his open palm in the glare of the electric light.

"Your visitor seems to have left traces in your bedroom as well as in your sitting room, Mr. Soames."

"What could he have wanted there?"

"I think it is clear enough. You came back by an unexpected way, and so he had no warning until you were at the very door. What could he do? He caught up everything which would betray him, and he rushed into your bedroom to conceal himself."

"Good gracious, Mr. Holmes, do you mean to tell me that all the time I was talking to Bannister in this room we had the man prisoner if we had only known it?"

"So I read it."

"Surely there is another alternative, Mr. Holmes. I don't know whether you observed my bedroom window?"

"Lattice paned, lead framework, three separate windows, one swinging on hinge and large enough to admit a man."

"Exactly. And it looks out on an angle of the courtyard so as to be partly invisible. The man might have effected his entrance there, left traces as he passed through the bedroom, and finally, finding the door open, have escaped that way."

Holmes shook his head impatiently.

"Let us be practical," said he. "I understand you to say that there are three students who use this stair and are in the habit of passing your door?"

"Yes, there are."

"And they are all in for this examination?"

"Yes."

"Have you any reason to suspect any one of them more than the others?"

Soames hesitated.

"It is a very delicate question," said he. "One hardly likes to throw suspicion where there are no proofs."

BROKEN SLEEP
MORNING TIREDNESS

Unable to sleep indicates starved nerves and weak blood. You'll never be well till the system is better nourished—that's sure.

What you need is a nutritive tonic like FERROZONE, which vitalizes and enriches the blood, fortifies the nerves, instills new energy into worn-out organs. At once you feel better. Your spirits improve, and day by day you gain in strength and power.

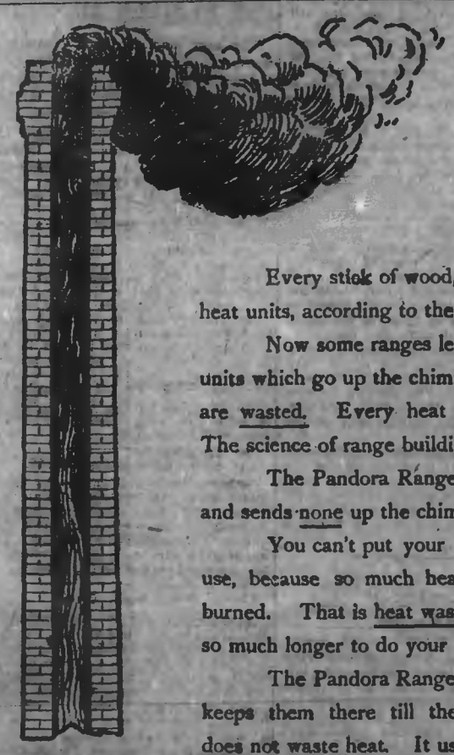
FERROZONE

ALWAYS CURES.

No remedy removes that gone, exhausted feeling like FERROZONE. In every case it completely cures the cause of sleeplessness and restores the sufferer to robust health in a short time.

Use FERROZONE and your sleep will be as restful and sound as an infant's. In the morning you'll feel capable and ready for the day's toil. Don't lose the sound, vigorous health FERROZONE is sure to bring you. Get FERROZONE to-day and beware of substitutes.

Ferrozone is sold only in tin boxes, or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.



Where does your Heat go to?

Every stick of wood, every piece of coal contains a certain number of heat units, according to the size and quality of the stick or chunk.

Now some ranges let these heat units escape up the chimney. Heat units which go up the chimney do not heat the oven or the frying-pan. They are wasted. Every heat unit that is wasted is money lost, money burnt. The science of range building is the successful utilization of all the heat units.

The Pandora Range is the only range that utilizes all the heat units and sends none up the chimney.

You can't put your hand over the chimney when some ranges are in use, because so much heat goes up the chimney. Your hand would be burned. That is heat wasted, [illegible] wasted, time wasted, because it takes so much longer to do your work when a large part of your heat is lost.

The Pandora Range is built to keep all the heat units in the range—keeps them there till the heat is exhausted—it is the only range that does not waste heat. It uses all the heat there is in the coal or wood.

That's the kind of range you want in your kitchen—it is economical—it saves coal, wood, money, time. It makes kitchen work easy.

Chamberlain's COLIC, CHOLERA AND DiarrhoeaRemedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should kedp this remedy in his home. Buy it now. It may save life.

WORK ON G. T. P. TO BEGIN SOON

Plans of Portion of Western Section Approved.

BEGIN BUYING RIGHT OF WAY

Agents Are Purchasing in Portage la Prairie District — The Line Will Parallel C. P. R. and C. N. R. Part of the Way—Tenders Are Called For the Construction of 275 Miles of the Main Line.

Ottawa, Aug. 5.—At a meeting of the Cabinet yesterday plans of the Grand Trunk Pacific for the location of their road from Portage la Prairie, 275 miles westward, were approved. This was the principal business for which the meeting was held. At the last meeting, a week ago yesterday, Hon. H. R. Emmerson presented his recommendation approving of the plans. This recommendation was laid before a committee of the Cabinet, and the committee's report was discussed and approved yesterday. Messrs. C. M. Hays, William Wainwright and F. W. Morse, who were in the city in connection with the matter, left by the 3.30 train for Montreal.

The Route Proposed.

From Portage la Prairie the Grand Trunk Pacific will almost parallel the main line of the Canadian Pacific to a point a little west of MacGregor, and then proceed in a straight line west to the Assiniboine River. The line runs about half-way between the Manitoba & Northwestern and the Canadian Pacific main line for some distance west of MacGregor. It is located between twelve and fourteen miles north of Brandon and a little south of Rapid City. There will be a spur line into Brandon. The Grand Trunk Pacific will cross the Arrow River about Crandell, then run west up to the Assiniboine River near Crowe. From Crowe it runs due west to township 36, range 13, and crosses the second meridian a *little north of Sumner.* The plans will not be given to the public until the order in Council approving of the same has been signed by the Governor-General.

Buying the Right of Way.

Portage la Prairie, Aug. 5.—An important move which indicates business on the part of the Grand Trunk Pacific is in progress in this vicinity, namely, the securing of the right of way for the new transcontinental line.

Tenders Called For.

Montreal, Aug. 5.—The Grand Trunk Pacific Railway Co. have invited a number of contractors to tender for the construction of 275 miles of the main line, directly west of Portage la Prairie. Plans and specifications will be on view at the head office of the company here from August 8 to 28. It is understood that tenders for any part or for the whole of the 275 miles will be considered. After examining the plans here intending tenderers will no doubt go over the ground.

Hamilton Man Killed.

Hamilton, Aug. 5.—Word was received yesterday of the death of Samuel Crawford, 281 North Bay street, at Brockton, N. Y. His body was found lying on the railway track. He had been employed as a mason's helper by William Hancock, but set out last Monday to visit his aunt in New York. He left New York Thursday to return to his home. The body will be brought to Hamilton for burial.

Fatal Fall From Window.

Port Huron, Aug. 5.—Walter Fowler, aged about thirty years, a resident of Watford, Ont., fell from his seat on the window ledge of an upstairs room occupied by a friend, whom he was visiting, to the stone walk below at midnight Thursday night, and was instantly killed. His skull was fractured in several places.

Killed By Stick of Timber.

Vancouver, B. C., Aug. 4.—Norman McLeod, brother of Dan McLeod, former champion wrestler of the world, was killed yesterday on the steamer Manuka, a stick of timber falling on his head.

Girl Burns to Death.

Watertown, N. Y., Aug. 4.—Florence Tiff, two years old, daughter of Truman Tiff, a Lewis County farmer, was burned to death yesterday while playing with matches in a hay pile.

$1000 REWARD

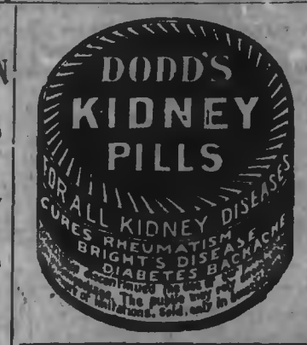
is offered as a guarantee that neither Dr. Pierce's Favorite Prescription nor Dr. Pierce's Golden Medical Discovery contains alcohol, opium, or any harmful drug. Any one publishing false statements concerning their ingredients will be prosecuted. Doctor Pierce's Family Remedies are compounds of medicinal principles, scientifically extracted from native roots that cure the diseases for which they are recommended. They are medicines which have enjoyed the public confidence for over a third of a century. They are medicines not beverages, made to satisfy a craving for "booze."

"Golden Medical Discovery" regulates and invigorates stomach, liver and bowels, and cures dyspepsia, purifies the blood and tones up the system generally.

"Favorite Prescription" cures female weakness, irregularities, exhausting drains, painful periods and kindred ailments peculiar to women. Accept no substitute for these medicines, each of which has a record of marvelous cures. Substitution means selfishness on the part of the dealer who is looking for the greater profit on an inferior article.

"Our daughter who was attending college became very nervous, and we were advised to try Dr. Pierce's Favorite Prescription," writes Mrs. M. C. Fox, of 97 E. Leonard St., Grand Rapids, Mich. "We did so and then you advised us to get the 'Golden Medical Discovery' also. She took four bottles of the 'Prescription' and three of the 'Golden Medical Discovery,' and you never saw such a change in a person. She said she did not feel like the same person. She was about seventeen years old at the time. I will gladly recommend Dr. Pierce's medicines to every one. I advise parents who have young daughters who suffer from nervous troubles to try Dr. Pierce's Favorite Prescription at once. I am sure it will help them."

$50,000 GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 680,000 copies a few years ago, at $1.50 per copy. Last year we gave away $50,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will your share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only for book in cloth paper covers, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.



OFF FOR BOSTON.

4,000 Ottawa People Give the 43rd Regiment Good Send Off.

Ottawa, Aug. 5.—Fully 4,000 people gathered at the Central station yesterday afternoon to give the 43rd Regiment a send-off as it started on the trip to Providence and Boston.

43rd May Visit Boston.

Washington, Aug. 5.—The State Department yesterday telegraphed the British Ambassador, and the American Consul-General at Ottawa, that the Governors of New Hampshire, Vermont and Massachusetts have formally consented to passage through those States of the Forty-third Canadian Regiment (the Duke of Cornwall's Own), who are now in Ottawa awaiting to proceed to visit Providence and Boston.

Swollen Ankles.

Spots Before the Eyes—Dropsy Indicated—Cured by Bu-Ju, The Kidney Pill.

Dropsy is the effect of bad blood, *and bad blood is caused by deranged* kidneys. The sewers of the body become clogged, and uric acid and other foreign elements are not thrown from the system. Bu-Ju, The Kidney Pill, the best kidney remedy on the market, heals and strengthens the kidneys, enabling them to perform their important functions. Read what a resident of Thamesville says:

"I have taken three boxes of your Bu-Ju Pills, and feel greatly benefitted by their use. They have entirely removed the pains from my back, and the spots before my eyes have entirely disappeared. My ankles were badly swollen, but I now feel quite well. WM. McKENZIE,

Thamesville, Ont.'

Such speedy relief and cure are within the reach of all similarly afflicted. Bu-Ju, The Kidney Pill is sold by druggists generally. Ask for it, and do not be put off with substitutes. *Nothing else is as good as* Bu-Ju. 7

ROYAL HENLEY REGATAT.

Events Friday at Port Dalhousie Augur For Excellent Meeting.

St. Catharines, Aug. 5.—Although thousands did not see them there were some splendid contests at the Royal Henley Regatta on the course at Port Dalhousie yesterday, but after the sun broke brightly at the commencement of the first race it stayed that way till they were over and a thousand people, half of them ladies, witnessed nine most interesting events. The success of yesterday's racing augurs well for the quality of sport expected to-day. The 19th Regiment Band played during the waits.

The honors were pretty well distributed. Rat Portage, Ottawa, Detroit, Dons, Argonauts, Torontos and Hamilton all figured in front at the finish. The only finals decided were the junior doubles, which went to the Argonauts; single pairs, Argonauts. Junior singles, won by litred Craig of Detroit, who is a splendid oarsman, with a graceful style of sculling, perhaps rather deficient in body work, but nevertheless pleasing and effective. His defeat of Graham of the Torontos was no discredit to Graham, for Craig rowed an exceptionally fine race.

Rat Portage and Ottawa are strong in the junior fours, and when they come together in the finals it will be a great tug of war. The Ottawa doubles are too fast for the Buffalo Mutuals, and this was the easiest win of the afternoon.

McAllister, the Hamilton sculler, looked like a winner from Sprinks of the Torontos for the first half of the race, but the local exponent made it a most popular win by overhauling the Hamiltonian and beating him in a grand race.

IN PEACEFUL MOOD.

Germany Desires No Conflict With the British Empire.

London, Aug. 5.—The Berlin correspondent of The Times cables:—The question of Anglo-German relations continues to be the subject of persistent discussion. The responsibility for the present state of public feeling rests solely with the agencies which have continuously misrepresented the motives of those who entertained scepticism with regard to the sincerity of the German policy. Until Germany is prepared to give practical proof of the sincerity of her intentions her relations towards Great Britain must remain as to-day, unless she is determined to aggravate the situation by open defiance. There are good reasons for believing that the last thing the German Government desires at this moment is a conflict of any kind with the British Empire.

Bitten by a Rattler.

Sandwich, Aug. 4.—Arzan, the 14-year-old son of Napoleon Gignac, three miles from here is suffering seriously from the bite of a rattlesnake received while berry-picking. The boy ran home where simple remedies were applied. No doctor was called. The boy's legs and body are badly swollen.

Penitentiary at Edmonton.

Ottawa, Aug. 4.—The new jail at Edmonton will be made a penitentiary. A large proportion of the criminals in the Manitoba Penitentiary have come from the Northwest Territories. They can be sent in future to Edmonton. The new jail will have forty-three cells.

Jealous Husband's' Act.

Essex, Aug. 5.—James Anchor, a farmer in Malden Township, has been sent to Sandwich Jail to await trial on the charge of a murderous assault upon his wife. His mind is believed to be affected by jealousy.

IN YELLOW FEVER'S ZONE.

Extreme Measures Taken by Country Districts to Guard Themselves.

New Orleans, Aug 5.—Extreme measures which some of the country districts are taking to guard themselves from yellow fever threaten to put a stop to train service and may bring the Federal Government into the fever situation in the South.

The most radical action thus far taken is that of the police board of Calcasieu the second largest parish in the state. It has passed resolutions ordering that all traffic, travel and intercourse between Calcasieu and points east, north and west shall cease at once and that no one shall be permitted to enter the limits of the parish until further orders. In consequence of this resolution the Southern Pacific has been ordered from yesterday to run no more trains through Calcasieu, which means the abandonment of the through service of the line to the west. The effect of the order is to stop all mail service into or through Calcasieu.

Grant Parish has instituted a shotgun quarantine, stopped all trains and shut herself off completely from mail service. Lafayette, La., has issued orders that only mail and disinfected freight shall come into that parish. Tensas parish has quarantined all passengers, baggage, household goods, fruit and fabrics. Precautions as radical as these have been taken in many other sections of the south and there is apparently as great a panic now prevailing as at any time during 1897, the bulk of the country laymen refusing to put their faith in the mosquito theory.

FLOATED IN THE BAY.

William A. McKelvey, Toronto, Takes His Own Life.

Toronto, Aug. 5.—The body of William A. McKelvey was found floating in the bay at the foot of York street yesterday morning. The body was weighted with a stone of about 12 pounds.

McKelvey was a manufacturer, or agent, for a machine for mixing concrete. He had a desk in the office of McLaughlin and Johnston, Room 501, McKinnon Building. He is supposed to have two brothers in Chicago, in the same business, and also a wife and family.

The body was taken to the morgue. Coroner Pickering will hold an inquest. On the body was found a number of letters, a gold watch and charm and memorandum books. He had been missing a week or more. W. A. Rogers of 49 Yonge street Arcade identified the body.

Acts Like a Lunatic.

Buffalo, Aug. 5.—A man giving his name as Charles Howard, and his residence as Seaforth, Ont., is under arrest at Niagara Falls, N. Y. He was acting in a peculiar manner, and was locked up for safety. He claimed that some one had squirted cold water on him while he was asleep, and the blood from his heart had all run out of his body. He expected to die any moment, and he bid the police officer and Dr. Miller, who was called to examine him, farewell. A commission in lunacy will be appointed, and if insane he will be taken to the Buffalo State Hospital.

HOT WEATHER AILMENTS.

The best medicine in the world to ward off summer complaints is Baby's Own Tablets, and it is the best medicine to cure them if they attack little ones unexpectedly. At the first sign of illness during the hot weather give the child Baby's Own Tablets, or in a few hours the trouble may be beyond cure. These Tablets cure all stomach troubles, diarrhoea and cholera infantum, and if occasionally given to the well child will prevent them. Mrs. Edward Clark, MacGregor, Ont., says: "I used Baby's Own Tablets for my little girl who suffered from colic and bowel troubles and I found them the most satisfactory medicine I ever tried." This is the experience of all mothers who have used this medicine. Keep the tablets in the house during the hot weather months and you can feel that your children are safe. Sold by all druggists or sent by mail at 25 cents a box by writing the Dr. Williams' Medicine Co., Brockville, Ont.

Indian Earthquake Kills 18.

Lahore, Punjab, Aug. 5.—An earthquake shook the Village of Kalu yesterday, and rocks, displaced from the surrounding mountains, crushed four horses, killing fourteen persons. The earthquake also destroyed a house at Mandi, killing four of the inmates.

Frost Spoils Crops.

Port Arthur, Aug. 5.—Heavy frost in the White Fish districts has caused great loss through settlers' crops being cut down. It will be a severe blow to many of them, as most went into country with but little, and the crops means much to them.

Left For Home.

Ottawa, Aug. 5.—Hon. Frank Oliver left for the west on the C. P. R. Transcontinental yesterday afternoon.

The Disorders of Digestion

Arising From Torpid Liver, Kidneys and Bowels Cured by Dr. Chase's Kidney-Liver Pills.

Most of the ills of every-day life come from derangements of the digestive system.

The liver becomes clogged and torpid, the kidneys inactive, and the bowels constipated. The poisonous waste matter is thrown back into the blood stream, and the result is some deadly form of disease.

It is not necessary to be continually dosing if you use Dr. Chase's Kidney-Liver Pills.

This treatment acts directly and promptly on the liver, kidneys and bowels, and insures their proper working.

Indigestion, dyspepsia, kidney disease, backache, liver complaint, biliousness and constipation are the ailments for which Dr. Chase's Kidney-Liver Pills are most frequently used for.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Sunlight Soap freshens and preserves Linoleums and Oilcloths.

SUNLIGHT SOAP

If you wash linoleums and oilcloths with ordinary soap you will find the colors will fade. You can preserve their colors and make them last a long time if you wash them with Sunlight Soap. When dirty, wash with warm water and Sunlight Soap, rinse with clean water and wipe completely dry with a soft cloth. Use Sunlight Soap throughout the house. It makes homes bright and hearts light. It contains no impurities or free alkalis to injure the most delicate fabric.

ASK FOR THE OCTAGON BAR.

Sunlight Soap washes the clothes white and won't injure the hands.

LEVER BROTHERS LIMITED, TORONTO. 7a

BLOOD DISEASE CURED.

If you ever contracted any Blood or Private Disease, you are never safe until the virus or poison has been eradicated from the system. Don't be satisfied with a "patch up" by some family doctor. Our New Method is Guaranteed to Cure or No Pay. No Names Used without Written consent.

Cured When all Else Failed

"Could I live my early life over, this testimonial would not be necessary, though it was no more useful than thousands of other young men. Early indiscretions, later excesses, exposure to contagious diseases all helped to break down my system. When I commenced to realize my condition I was almost frantic. Doctor after doctor treated me but only gave me relief—not a cure. Hot Springs helped me, but did not cure me. The symptoms always returned. Mercury and Potash drove the poison into my system instead of driving it out. I bless the day your New Method Treatment was recommended to me. I investigated who you were first, and finding you had over 25 years' experience and responsible financially, I gave you my case under a guarantee. You cured me permanently, and in six years there has not been a sore, pain, ulcer or any other symptom of the blood disease."

25 Years in Detroit. 250,000 Cured. M. A. CONLEY.

We treat and cure Varicocele, Blood Poison, Nervous Debility, Stricture, Impotency, Secret Drains, Kidney and Bladder Diseases.

Consultation Free. Question Blank for Home Treatment and Books Free.

DRS. KENNEDY & KERGAN, 140 SHELBY STREET. DETROIT, MICH.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba, the Northwest Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

The Return of SHERLOCK HOLMES

By A. CONAN DOYLE.

Author of "The Adventures of Sherlock Holmes," "The Hound of the Baskervilles," "The Sign of the Four," "A Study in Scarlet," Etc.

ILLUSTRATED BY F. D. STEELE

(Continued from page 9.)

"Let us hear the suspicions. I will look after the proofs."

"I will tell you, then, in a few words the character of the three men who inhabit these rooms. The lower of the three is Gilchrist, a fine scholar and athlete; plays in the Rugby team and the cricket team for the college and got his blue for the hurdles and the long jump. He is a fine, manly fellow. His father was the notorious Sir Jabes Gilchrist, who ruined himself on the turf. My scholar has been left very poor, but he is hardworking and industrious. He will do well.

"The second floor is inhabited by Daulat Ras, the Indian. He is a quiet, inscrutable fellow, as most of these Indians are. He is well up in his work, though his Greek is his weak subject. He is steady and methodical.

"The top floor belongs to Miles McLaren. He is a brilliant fellow when he chooses to work—one of the brightest intellects of the university—but he is wayward, dissipated and unprincipled. He was nearly expelled over a card scandal in his first year. He has been idling all this term, and he must look forward with dread to the examination."

"Then it is he whom you suspect?"

"I dare not go so far as that, but of the three he is perhaps the least unlikely."

"Exactly. Now, Mr. Soames, let us have a look at your servant, Bannister."

He was a little, white faced, clean shaven, grimly haired fellow of fifty. He was still suffering from this sudden disturbance of the quiet routine of his life. His plump face was twitching with his nervousness, and his fingers could not keep still.

"We are investigating this unhappy business, Bannister," said his master.

"Yes, sir."

"I understand," said Holmes, "that you left your key in the door?"

"Yes, sir."

"Was it not very extraordinary that you should do this on the very day when there were these papers inside?"

"It was most unfortunate, sir. But I have occasionally done the same thing at other times."

"When did you enter the room?"

"It was about half past 4. That is Mr. Soames' tea time."

"How long did you stay?"

"When I saw that he was absent, I withdrew at once."

"Did you look at these papers on the table?"

"No, sir; certainly not."

"How came you to leave the key in the door?"

"I had the tea tray in my hand. I thought I would come back for the key. Then I forgot."

"Has the outer door a spring lock?"

"No, sir."

"Then it was open all the time?"

"Yes, sir."

"Any one in the room could get out?"

"Yes, sir."

"When Mr. Soames returned and called for you, you were very much disturbed?"

"Yes, sir. Such a thing has never happened during the many years that I have been here. I nearly fainted, sir."

"So I understand. Where were you when you began to feel bad?"

"Where was I, sir? Why, here, near the door."

"That is singular, because you sat down in that chair over yonder near the corner. Why did you pass these other chairs?"

"I don't know, sir. It didn't matter to me where I sat."

"I really don't think he knew much about it, Mr. Holmes. He was looking very bad—quite ghastly."

"You stayed here when your master left?"

"Only for a minute or so; then I locked the door and went to my room."

"Whom did you suspect?"

"Oh, I would not venture to say, sir. I don't believe there is any gentleman in this university who is capable of pressing by such an action. No, sir; I'll not believe it."

"Thank you; that will do," said Holmes. "Oh, one more word. You have not mentioned to any of the three gentlemen whom you attend that anything is amiss?"

"No, sir; not a word."

"You haven't seen any of them?"

"No, sir."

"Very good. Now, Mr. Soames, we will take a walk in the quadrangle, if you please."

Three yellow squares of light shone above us in the gathering gloom.

"Your three birds are all in their nests," said Holmes, looking up. "Hello! What's that? One of them seems restless enough."

It was the Indian, whose dark silhouette appeared suddenly upon his blind. He was pacing swiftly up and down his room.

"I should like to have a peep at each of them," said Holmes. "Is it possible?"

"No difficulty in the world," Soames answered. "This set of rooms is quite the oldest in the college, and it is not unusual for visitors to go over them. Come along, and I will personally conduct you."

"No names, please!" said Holmes as we knocked at Gilchrist's door. A tall, fair haired, slim young fellow opened it and made us welcome when he understood our errand. There were some really curious pieces of mediaeval domestic architecture within. Holmes was so charmed with one of them that he insisted on drawing it in his notebook, broke his pencil, had to borrow one from our host and finally borrowed a knife to sharpen his own. The same curious accident happened to him in the rooms of the Indian—a silent little hook nosed fellow, who eyed us askance and was obviously glad when Holmes' architectural studies had come to an end. I could not see that in either case Holmes had come upon the clew for which he was searching. Only at the third did our visit prove abortive. The outer door would not open to our knock and nothing more substantial than a torrent of bad language came from behind it. "I don't care who you are. You can go to blazes!" roared the angry voice. "Tomorrow's the exam., and I won't be drawn by any one."

"A rude fellow!" said our guide, flushing with anger as we withdrew down the stair. "Of course he did not realise that it was I who was knocking, but none the less his conduct was very uncourteous and, indeed, under the circumstances rather auspicious."

Holmes' response was a curious one.

"Can you tell me his exact height?" he asked.

"Really, Mr. Holmes, I cannot undertake to say. He is taller than the Indian, not so tall as Gilchrist. I suppose five foot six would be about it."

"That is very important," said Holmes. "And now, Mr. Soames, I wish you good night."

Our guide cried aloud in his astonishment and dismay. "Good gracious, Mr. Holmes, you are surely not going to leave me in this abrupt fashion! You don't seem to realize the position. Tomorrow is the examination. I must take some definite action tonight. I cannot allow the examination to be held if one of the papers has been tampered with. The situation must be faced."

"You must leave it as it is. I shall drop round early tomorrow morning and chat the matter over. It is possible that I may be in a position then to indicate some course of action. Meanwhile, you change nothing—nothing at all."

"Very good, Mr. Holmes."

"You can be perfectly easy in your mind. We shall certainly find some way out of your difficulties. I will take the black clay with me; also the pencil cuttings. Goodby."

When we were out in the darkness of the quadrangle we again looked up at the windows. The Indian still paced his room. The others were invisible.

"Well, Watson, what do you think of it?" Holmes asked as we came out into the main street. "Quite a little parlor game—sort of three card trick is it not? There are your three men. It must be one of them. You take your choice. Which is yours?"

"The foul mouthed fellow at the top. He is the one with the worst record. And yet that Indian was a sly fellow also. Why should he be pacing his room all the time?"

"There is nothing in that. Many men do it when they are trying to learn anything by heart."

"He looked at us in a queer way."

"So would you if a flock of strangers came in on you when you were preparing for an examination next day and every moment was of value. No, I see nothing in that. Pencils, too, and knives—all was satisfactory. But that fellow does puzzle me."

"Who?"

"Why, Bannister, the servant. What's his game in the matter?"

"He impressed me as being a perfectly honest man."

"So he did me. That's the puzzling part. Why should a perfectly honest man—well, well, here's a large stationer's. We shall begin our researches here."

There were only four stationers of any consequence in the town, and at each Holmes produced his pencil chips and bid high for a duplicate. All were agreed that one could be ordered, but that it was not a usual size of pencil and that it was seldom kept in stock. My friend did not appear to be depressed by his failure, but shrugged his shoulders in half humorous resignation.

"No good, my dear Watson. This, the best and only final clew, has run to nothing. But, indeed, I have little doubt that we can build up a sufficient case without it. By Jove, my dear fellow, it is nearly 9, and the landlady babbled of green peas at 7:30. What with your eternal tobacco, Watson, and your irregularity at meals, I expect that you will get notice to quit and that I shall share your downfall—not, however, before we have solved the problem of the perfidious tutor, the careless servant and the three enterprising students."

Holmes made no further allusion to the matter that day, though he sat lost in thought for a long time after our belated dinner. At 8 in the morning he came into my room just as I finished my toilet.

"Well, Watson," said he, "it is time we went down to St. Luke's. Can you do without breakfast?"

"Certainly."

"Soames will be in a dreadful fidget until we are able to tell him something positive."

"Have you anything positive to tell him?"

"I think so."

"You have formed a conclusion?"

"Yes, my dear Watson; I have solved the mystery."

"But what fresh evidence could you have got?"

"Aha! It is not for nothing that I have turned myself out of bed at the untimely hour of 6. I have put in two

Copyright by Collier's Weekly.
Miles McLaren.

hours' hard work and covered at least five miles, with something to show for it. Look at that!"

He held out his hand. On the palm were three little pyramids of black, doughy clay.

"Why, Holmes, you had only two yesterday."

"And one more this morning. It is a fair argument that wherever No. 3 came from is also the source of Nos. 1 and 2. Eh, Watson? Well, come along and put friend Soames out of his pain."

The unfortunate tutor was certainly in a state of pitiable agitation when we found him in his chambers. In a few hours the examination would commence, and he was still in the dilemma between making the facts public and allowing the culprit to compete for the valuable scholarship. He could hardly stand still, so great was his mental agitation, and he ran toward Holmes with two eager hands outstretched.

"Thank heaven that you have come! I feared that you had given it up in despair. What am I to do? Shall the examination proceed?"

"Yes, let it proceed, by all means."

"But this rascal"—

"He shall not compete."

"You know him?"

"I think so. If this matter is not to become public we must give ourselves certain powers and resolve ourselves into a small private court martial. You there, if you please, Soames! Watson, you here! I'll take the armchair in the middle. I think that we are now sufficiently imposing to strike terror into a guilty breast. Kindly ring the bell!"

Bannister entered and shrank back in evident surprise and fear at our judicial appearance.

"You will kindly close the door," said Holmes. "Now, Bannister, will you please tell us the truth about yesterday's incident?"

The man turned white to the roots of his hair.

"I have told you everything, sir."

"Nothing to add?"

"Nothing at all, sir."

"Well, then, I must make some suggestions to you. When you sat down on that chair yesterday did you do so in order to conceal some object which would have shown who had been in the room?"

Bannister's face was ghastly.

"No, sir; certainly not."

"It is only a suggestion," said Holmes suavely. "I frankly admit that I am unable to prove it. But it seems probable enough, since the moment that Mr. Soames' back was turned you released the man who was hiding in that bedroom."

Bannister licked his dry lips.

"There was no man, sir."

"Ah, that's a pity, Bannister. Up to now you may have spoken the truth, but now I know that you have lied."

The man's face set in sullen defiance.

"There was no man, sir."

"Come, come, Bannister!"

"No, sir; there was no one."

"In that case you can give us no further information. Would you please remain in the room? Stand over there near the bedroom door. Now, Soames, I am going to ask you to have the great kindness to go up to the room of young Gilchrist and to ask him to step down into yours."

An instant later the tutor returned, bringing with him the student. He was a fine figure of a man—tall, lithe and agile, with a springy step and a pleas-

Copyright by Collier's Weekly.
Gilchrist.

ant open face. His troubled blue eyes glanced at each of us and finally rested with an expression of blank dismay upon Bannister in the farther corner.

"Just close the door," said Holmes. "Now, Mr. Gilchrist, we are all quite alone here, and no one need ever know one word of what passes between us. We can be perfectly frank with each other. We want to know, Mr. Gilchrist, how you, an honorable man, ever came to commit such an action as that of yesterday."

The unfortunate young man staggered back and cast a look full of horror and reproach at Bannister.

"No, no, Mr. Gilchrist, sir, I never said a word—never one word!" cried the servant.

"No, but you have now," said Holmes. "Now, sir, you must see that after Bannister's words your position is hopeless and that your only chance lies in a frank confession."

For a moment Gilchrist, with upraised hand, tried to control his writhing features. The next he had thrown himself on his knees beside the table, and, burying his face in his hands, he had burst into a storm of passionate sobbing.

"Come, come," said Holmes kindly, "it is human to err, and at least no one can accuse you of being a callous criminal. Perhaps it would be easier for you if I were to tell Mr. Soames what occurred, and you can check me where I am wrong. Shall I do so? Well, well, don't trouble to answer. Listen, and see that I do you no injustice."

"From the moment, Mr. Soames, that you said to me that no one, not even Bannister, could have told that the papers were in your room the case began to take a definite shape in my mind. The printer one could, of course, dismiss. He could examine the papers in his own office. The Indian I also thought nothing of. If the proofs were in roll he could not possibly know what they were. On the other hand, it seemed an unthinkable coincidence that a man should dare to enter the room, and that by chance on that very day the papers were on the table. I dismissed that. The man who entered knew that the papers were there. How did he know?

"When I approached your room I examined the window. You amused me by supposing that I was contem-

CRAMPS CURED.

I was troubled with Cramps for a long time, and had several doctors attend me, but their medicine did not seem to do me any good. I got three bottles of Dr. Fowler's Extract of Wild Strawberry, and it cured me. It is the only medicine I can recommend. I would not be without it in my house.

A. DEMERCHANT,
Bath, Ont.

WEAK BOWELS CURED.

After a severe attack of Typhoid Fever my bowels were left in a very weak condition, and I could get nothing to do me any good until I commenced taking Dr. Fowler's Extract of Wild Strawberry. I take a great deal of pleasure in recommending it to all sufferers from bowel complaint.

MRS. JNO. M. STEWART,
Little Current, Ont.

SUMMER COMPLAINT CURED.

I take pleasure in recommending Dr. Fowler's Extract of Wild Strawberry. Last summer I had a severe attack of Summer Complaint, and one bottle cured me.

MISS G. LE BROCQ,
North Bay, Ont.

DYSENTERY CURED.

I was very bad with Dysentery and used Dr. Fowler's Extract of Wild Strawberry, and it completely cured me. We keep it constantly on hand, and could not get along without it. It has saved us lots of doctor bills.

E. M. ADAMS,
Stanbridge East, Ont.

Refuse Substitutes.—Price 35c.—They're Dangerous.

DIARRHOEA AND CRAMPS.

I take pleasure in telling you what Dr. Fowler's Extract of Wild Strawberry has done for me. I was taken with Diarrhoea and severe Cramps in the Stomach. I secured a bottle of your medicine and had only taken a few doses when my trouble disappeared. In the future I will always keep it in the house ready for use.

MRS. M. JACKSON,
Normandale, Ont.

BABIES TEETHING.

Ever since my mother first knew of the wonderful curative qualities of Dr. Fowler's Extract of Wild Strawberry, it has always been kept in the house. She says that it always acts like magic, and especially when given to teething babies.

ESTELLA IRWIN,
Delta, Ont.

The Difference Between Expert and Unskilful Tea Blending

THE qualities of different teas prove that there is a distinct difference between expert Red Rose blending methods and the usual methods.

Several kinds of teas may be blended, but if unskilfully selected they will not combine to make a perfect blend; they will retain their original individual characteristics with their roughness and harshness emphasized.

Such tea is bitter, poorly flavored in the cup (and there is much of it in bulk and package form on the market). It emphasizes the result of inexperience, lack of knowledge of combining qualities of different teas, imperfect blending, poor selection, and the hundred and one other causes of poor tea.

But my expert Red Rose blenders select the right grades of strong, rich Indian teas and delicate fragrant Ceylon teas, and produce Red Rose Tea with entirely new characteristics—a tea with that "rich fruity flavor"—a tea so exquisitely different and better than any brand of Ceylon alone, that no one who once tries it ever goes back to Ceylon again.

Red Rose Tea

is good Tea

T. H. Estabrooks
St. John, N.B., Toronto, Winnipeg

The barley used in Carling's Ale is grown in the most favored barley growing sections in the world, and selected by Carling's own experts.

Every pound is put through a machine which separates all imperfect grains and foreign substances.

The same expense and care is given to every part of the Carling process—the result is that Carling's Ale is popularly known as Canada's favorite beverage.

Sold by all enterprising dealers.

Carling's Ale

BABY TODD'S CURE OF SORE EYES

Over Two Years of Awful Suffering—Eyes Stuck Together and Would Bleed When Washed Open In the Morning—Every Lash Fell Out.

ANOTHER WONDERFUL CURE BY CUTICURA

"I feel it my duty to tell of two most wonderful cures of sore eyes by Cuticura Ointment. My little son had an attack of measles which left the eyes in a shockingly bad state. The lids became inflamed and sore and every lash fell out. For two years and ten months I tried many eye ointments and lotions, besides following every advice given me, but nothing seemed to do them any good. They would be stuck in the morning, and I had to bathe them in warm milk and water, which was a very trying duty, as the eyelids would always bleed, causing the child untold suffering.

"I had heard a lot about Cuticura Ointment, so I thought I would try it, and from the first application I have had cause to be thankful. Before I had used one box of Ointment the lashes showed signs of growing, and at the end of a few months he had a crop of lashes of which any person might be proud.

"I recommended Cuticura to a Mrs. Phillips for her child, who also had sore eyes, and her little one was cured with less than one box. I have advised dozens of people to use Cuticura Ointment, often stopping them in the street, as I did Mrs. Phillips, who was a total stranger to me. I have such implicit faith in it that I have written to relatives in England and Ireland telling them of its wonderful virtues.

"I am sending you this testimonial of my own free will, in the hope that others may be benefited as we have been. (signed) Mrs. C. Todd, Old South Head Road, Waverly, Sydney, N. S. W." Reference, Messrs. R. Towns & Co., Sydney.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney. Potter Drug & Chem. Corp., Boston, Sole Props.

Mailed Free, "All About Baby's Skin and Scalp."

THE RETURN OF SHERLOCK HOLMES

(Continued from Page 11.)

plating the possibility of some one having in broad daylight, under the eyes of all these opposite rooms, forced himself through it. Such an idea was absurd. I was measuring how tall a man would need to be in order to see as he passed what papers were on the central table. I am six feet high, and I could do it with an effort. No one less than that would have a chance. Already, you see, I had reason to think that if one of your three students was a man of unusual height he was the most worth watching of the three.

"I entered, and I took you into my confidence as to the suggestions of the side table. Of the center table I could make nothing until in your description of Gilchrist you mentioned that he was a long distance jumper. Then the whole thing came to me in an instant, and I only needed certain corroborative proofs, which I speedily obtained.

"What happened was this: This young fellow had employed his afternoon at the athletic grounds, where he had been practicing the jump. He returned carrying his jumping shoes, which are provided, as you are aware, with several sharp spikes. As he passed your window he saw, by means of his great height, these proofs upon your table and conjectured what they were. No harm would have been done had it not been that as he passed your door he perceived the key which had been left by the carelessness of your servant. A sudden impulse came over him to enter and see if they were indeed the proofs. It was not a dangerous exploit, for he could always pretend that he had simply looked in to ask a question.

"Well, when he saw that they were indeed the proofs it was then that he yielded to temptation. He put his shoes on the table. What was it you put on that chair near the window?"

"Gloves," said the young man.

Holmes looked triumphantly at Bannister. "He put his gloves on the chair, and he took the proofs, sheet by sheet, to copy them. He thought the tutor must return by the main gate and that he would see him. As we know, he came back by the side gate. Suddenly he heard him at the very door. There was no possible escape. He forget his gloves, but he caught up his shoes and darted into the bedroom. You observe that the scratch on that table is slight at one side, but deepens in the direction of the bedroom door. That is clear to enough to show us that the stick had been drawn in that direction and that the culprit had taken refuge there. The earth round the spike had been left on the table, and a second sample was loosened and fell in the bedroom. I may add that I walked out to the athletic grounds this morning, saw that tenacious black clay is used in the jumping pit and carried away a specimen of it, together with some of the fine tan or sawdust which is strewn over it to prevent the athlete from slipping. Have I told the truth, Mr. Gilchrist?"

The student had drawn himself erect.

"Yes, sir; it is true," said he.

"Good heavens! Have you nothing to add?" cried Soames.

"Yes, sir, I have, but the shock of this disgraceful exposure has bewildered me. I have a letter here Mr. Soames, which I wrote to you early this morning in the middle of a restless night. It was before I knew that my sin had found me out. Here it is, sir. You will see that I have said: 'I have determined not to go in for the examination. I have been offered a commission in the Rhodesian police, and I am going out to South Africa at once.'"

"I am indeed pleased to hear that you did not intend to profit by your unfair advantage," said Soames. "But why did you change your purpose?"

Gilchrist pointed to Bannister.

"There is the man who set me in the right path," said he.

"Come now, Bannister," said Holmes. "It will be clear to you from what I have said that only you could have let this young man out, since you were left in the room and must have locked the door when you went out. As to his escaping by that window, it was incredible. Can you not clear up the last point in this mystery and tell us the reasons for your action?"

"It was simple enough, sir, if you only had known, but with all your cleverness it was impossible that you could know. Time was, sir, when I was butler to old Sir Jabez Gilchrist, this young gentleman's father. When he was ruined I came to the college as servant, but I never forgot my old employer because he was down in the world. I watched his son all I could for the sake of old days. Well, sir, when I came into this room yesterday, when the alarm was given, the very first thing I saw was Mr. Gilchrist's tan gloves a-lying in that chair. I knew those gloves well, and I understood their message. If Mr. Soames saw them the game was up. I flopped down into that chair, and nothing would budge me until Mr. Soames went for you. Then out came my poor young master, whom I had dandled on my knee, and confessed it all to me. Wasn't it natural, sir, that I should save him, and wasn't it natural also that I should try to speak to him as his dead father would have done and make him understand that he could not profit by such a deed? Could you blame me, sir?"

"No, indeed," said Holmes heartily, springing to his feet. "Well, Soames, I think we have cleared your little problem up, and our breakfast awaits us at home. Come, Watson. As to you, sir, I trust that a bright future awaits you in Rhodesia. For once you have fallen low. Let us see in the future how high you can rise."

CANNOT PUNISH FARMER.

Cornwall Man Worked But Didn't Break Lord's Day Act.

Cornwall, Aug. 4.—It is not often that any one in this section is charged with failure to observe the Lord's day, and consequently considerable interest was aroused by the charge laid against Mr. Bronson, a farmer, who was accused of building a fence, hauling in and unloading hay on a Sunday.

The case came up before D. Davis, police magistrate. Bronson's solicitor held that the Lord's Day Act of the consolidated statutes of Upper Canada did not place farmers in the class of persons prohibited from labor on Sunday, and the the Privy Council had declared the Ontario legislation on this point ultra vires.

The magistrate agreed with this and said that as he understood the law he could not convict the accused.

Two Boilermakers Injured.

Petrolea, Aug. 4.—Yesterday afternoon about 1.30 an explosion occurred at McCort's Oil Co.'s refinery. Two boilermakers, Patrick Kelly and William Hammond, were doing some repairs to one of the stills, and by some means the steam exploded. Kelly is seriously burned, while Hammond came off somewhat luckier. At present its impossible to say what will be the result of Kelly's injuries.

Thrown From Buggy, Dies.

Brockville, Aug. 4.—From injuries sustained in a runaway on Tuesday, Frank Smith died Wednesday night of concussion of the brain. He and a lady friend were thrown from a buggy which collided with another vehicle. Smith at first was not thought to be seriously injured. He was 21 years of age.

Smuggled Cigarettes Seized.

Montreal, Aug. 4.—Special Officer O'Grady of the Customs Department Wednesday seized 70,000 cigarettes on board the C. P. R. Atlantic steamer Montreal, from Antwerp. The second cook and steerage steward are held in connection with the smuggling.

WIN FOR THE CHINESE.

Canadian Pacific Railway Worsted in Suit Over Collision at Sea.

London, Aug. 5.—(C. A. P.)—The Privy Council has refused the C. P. R., owners of the Empress of India, leave to appeal in their suit against the Chinese Government. The application was dismissed with costs.

The case arose over a collision between the Empress of India and a Chinese cruiser, while the latter was endeavoring to arrest a couple of reformers supposed to be on the former. Each vessel held the other responsible for the damage.

AILING WOMEN.

Gain Health and Strength Through Dr. Williams' Pink Pills.

Bloodlessness is the surest starting point of consumption. When your blood is thin and weak and watery your whole health declines. Your face grows pale, your lips and gums white, your appetite fails, and your heart jumps and flutters at the least excitement. You have frequent attacks of headache and dizziness, and sometimes fainting spells. You are always weak and wretched and lose heart in everything. These are the sign posts of consumption and you may easily slip into a hopeless decline if you do not build up your blood with Dr. Williams' Pink Pills. They actually make new, strong, rich, red blood, which brings back your rosy cheeks, your hearty appetite, your strength, energy and general good health. Here is strong proof from Mrs. Samuel Behle, wife of a well known merchant and contractor, at Sheet Harbour, N.S. Mrs. Behle says: "Some years ago I became so run down and distressingly weak that life seemed not worth living. I had a bad cough, was tired out at the least exertion and was unable to do even light housework. I had the best of medical aid and medicines, but did not get any better and grew so seriously ill that I was at last confined to bed and my friends thought I was in a decline. My cough grew worse and I dispaired of getting better. My husband then brought me Dr. Williams' Pink Pills and to my joy the yason began to help me. Gradually my strength returned, my appetite improved, and the cough left me, and day by day I grew better until I was again a well woman. I have since had perfect health and when I compare my condition now with the state I was in when I began taking Dr. Williams' Pink Pills no one need wonder that I am enthusiastic in praising this medicine."

Cases of this kind can only be cured by filling the veins with new, rich blood, and every dose of Dr. Williams' Pink Pills make rich health-restoring blood, which goes right to the root of the disease. That is why these pills cure everyday ailments, like anaemia, heart troubles, indigestion, nervousness, headaches and backaches, neuralgia, kidney troubles, rheumatism, erysipelas, and the special ailments of womanhood and girlhood. All these troubles are rooted in the blood and Dr. Williams' Pink Pills is the only medicine that actually makes new blood. Common medicine cannot do this, so you should insist upon getting the genuine pills with the full name, "Dr. Williams' Pink Pills for Pale People," on the wrapper around every box. If in doubt send direct to the Dr. Williams' Medicine Co., of Brockville, Ont., and the pills will be sent by mail at 50 cents a box or six boxes for $2.50.

NEW TRIPLE ALLIANCE.

Between Great Britain, France and the United States.

London, Aug. 5.—(C. A. P.)—The Evening Standard, in an editorial on the proposed alliance between Great Britain, France and the United States, says: "It might be supposed that the term 'British' was a stumbling block, for it is or has been our clear impression that not much love was lost between Canada and her neighbor, but we see no reason to fear any insurmountable objection on the part of Canada to such a proposal. On the contrary, it must be agreeable to our French-Canadian colonists, who will see their way to draw nearer to the motherland of their origin without any sacrifice of the advantages of British citizenship, or any loss of their pride and confidence in the might of the British Empire, and this is a consideration that may, perhaps, weigh with France."

Motor Boat World Beater.

Bridgeport, Conn., Aug. 5.—A trial trip just made by a motor boat built from plans of Charles F. Herreshoff at the plant of the American and British Manufacturing Co. here is said to have demonstrated that the craft is the fastest ever built. Although Mr. Herreshoff has declined to give out figures at present, he said the boat was a world beater, and intimated that she made much better time than 35 miles an hour.

RECEPTION OF PEACE ENVOYS

M. Witte an Baron Rosen Formally Presented to President.

FIRST MEETING OF ENVOYS

Tuesday Will Likely See Exchange of Credentials—Sensitive to Ubiquitous Camera Fiends, Baron Rosen Asks Relief — Program of the Plenipotentiaries—Reception of Joint Delegations Now Arranged.

Oyster Bay, Aug. 5.—Yesterday M. Witte visited President Roosevelt and was formally presented. He was accompanied by Baron de Rosen.

Saturday, Aug. 5.—Reception of the peace envoys of Russia and Japan by President Roosevelt on board the yacht Mayflower. Introductions and luncheon.

Sunday, Aug. 6.—Voyage by sea to Portsmouth, N. H., of the plenipotentiaries, the Russians on the Mayflower, the Japanese on the Dolphin.

Monday, Aug. 7.—Reception and luncheon at Portsmouth Navy Yard by Rear Admiral Mead. Reception of the Governor of New Hampshire and National Guard escort to the Hotel Wentworth.

Tuesday, Aug. 8.—Probably first meeting of the plenipotentiaries, for exchange of credentials.

Arrangement For Joint Reception.

Final arrangements were completed last night for the reception by President Roosevelt of the Russian and Japanese peace envoys to-day. The reception, which will be a formal greeting to the representatives of the belligerent powers by President Roosevelt on behalf of the United States Government will take place at 1.30 p. m. on the cruiser Mayflower, the finest vessel of her class in the United States navy. Every honor due to their rank will be paid to the envoys and a cordial greeting will be given by the President on behalf of the American people.

Sergius Witte and Baron Rosen, the envoys of the Emperor of Russia to the peace conference, were guests yesterday of the President and Mrs. Roosevelt at Sagamore Hill. They arrived at Oyster Bay unaccompanied by any other Russian official.

Objects to Being "Snapped."

When Mr. Witte and Baron Rosen reached Sagamore Hill, and the former had been presented to the President, Baron Rosen entered a vigorous protest personally to the President against the annoyance to which they had been subjected by the photographers at the Oyster Bay station. The President called two secret service officers and gave them directions to go to the station and endeavor to avert the annoyance on the return of the envoys to take a train for New York.

President Roosevelt yesterday received Syngamon Rhee and Rev. P. K. Yoon, two Coreans, who arrived here Thursday night to present to him a memorial, asking him to look after the interests of Corea in the proceedings of the forthcoming peace conference.

RUSSIAN NATIONAL ASSEMBLY.

Thirty-Four Clauses of the Project and the Compromise Adopted.

St. Petersburg, Aug. 5.—The Council sitting at Peterhoff on Tuesday approved the first thirty-four clauses of the National Assembly project without important modifications, despite the determined opposition of M. Pobiedonostseff, Procurator-General of the Holy Synod, and his adherents.

At Thursday's sitting, after an animated discussion on the question as to whether bills rejected by the assembly should be referred to the Emperor or merely to the Minister concerned, the Council adopted Count Bobrinsky's compromise resolution, which in effect was that bills rejected by a two-thirds majority should not be submitted to the Emperor, but if rejected by less than two thirds both majority and minority reports should be submitted to His Majesty for arbitration.

60 Strikers Shot Down.

St. Petersburg, Aug. 5.—An official account received here yesterday of the strike on the Novorossisk-Vladi-Kavkas strike on the Novorossisk-Vladi-Kavkas Railway, describes a sanguinary encounter between the troops and workmen who were attempting to prevent the departure of a mail train.

After one Cossack had been killed the strikers advanced menacingly, whereupon the infantry fired, killing 20 of the strikers and wounding 22.

Relief Ship Spoken.

Christiania, Norway, Aug. 5.—The Arctic vessel Dangry reports that on July 16 she spoke the Magdalene, the relief ship for the Zeigler Polar expedition in latitude 74 degrees 26 minutes north, longitude 10 degrees 23 minutes west. The Magdalene reported all well.

CHECK UPON JAP ADVANCE

More Fighting in Manchuria With Honors to Russia.

SURRENDER OF A GARRISON

Sakhalin Island in the Hands of the Japanese—Governor, 70 Officers and 3,200 Men Are Prisoners — A Big Battle Soon—Rival Army Forces Now Within Rifle Shot on the Tuman River.

Cruising Off Vladivostock.

Godzeyadani, Manchuria, Aug. 5.—Despatches received from Corea report that the Japanese have begun a simultaneous advance from Kuanchoderi against the Musariet and Piatsabang Passes, but that both columns were checked under pressure of the Russian advance detachments. The Russian losses, the despatches say were insignificant. Japanese warships are reported to be cruising off the mouth of Peter the Great Bay, on which Vladivostock is situated, their lights often being visible from Russian Island.

Chinese arriving from the south say that the Japanese are most active in establishing trade relations in Southern Manchuria, and that over a score of large business houses have been established at Yinkow and that 2,000 Japanese sutlers and larger traders follow close on the heels of the army.

A Big Battle Soon.

Tokio, Aug. 5.—It is reported that the advance guards of the hostile forces south of the Tumen River are within rifle range. An early conflict is regarded as inevitable.

GARRISON SURRENDERS.

Governor, 70 Officers and 3,200 Men on Sakhalin Are Prisoners.

Tokio, Aug. 5.—A report giving details of the final pursuit and surrender of the majority of the Russian garrison on Sakhalin Island has been received as follows:

"An independent cavalry column on the afternoon of July 28 attacked the enemy south of Paleo and routed him, driving him southward, capturing two field guns, besides a number of rifles and a quantity of ammunition.

"On July 29 the cavalry, being reinforced, vigorously pursued the enemy south of Taylan, which lies twenty-five miles south of Rykoff. The enemy halted at Onol, twenty-five miles south of Taylan, and at 5 o'clock on the morning of July 30 sent a letter under a flag of truce to the Japanese commanding officer from Gen. Liapnoff, the Russian Governor, saying that the lack of bandage materials and medicines and the consequent inability to succor the wounded compelled him from a sense of humanity to terminate hostilities.

Jap Terms Accepted.

"The commander of the Japanese force replied, demanding the delivery of all war supplies and property of the Russian Government, the uninjured, and the delivery of all maps, records and papers relating to the Russian civil and military administration, and requiring their delivery in reply at 10 o'clock on the morning of July 31, otherwise an attacking movement would immediately be started.

"Col. Toilvitch, on behalf of Governor Liapnoff, met Col. Kokumi, Japanese Chief of Staff, on the morning of July 31, and accepted the proposed terms.

"Governor Liapnoff, 70 officers and 3,200 men of the Russan garrison then surrendered.

"The spoils, consisting of clothing, papers and military supplies, are now under investigation."

Contract Is Dissolved.

Caracas, Venezuela, Aug. 5.—The Federal Court of Cassation yesterday gave final judgment in the matter of the proceedings instituted against the Compagnie Francis des Cables Telegraphics, or the French Cable Co., confirming the dissolution of the contract of the Government with this company.

MANY HUNDREDS OF OLD PETERBOROUGH GIRLS AND BOYS VISIT THE OLD HOME

Annual Re-Union of the Former Residents of This Town Who Are Now Living in Toronto—Special Trains This Morning and Regular Trains on Saturday Night and This Morning Bring Old Boys to the New City—The Old Home Decorated in Their Honor—Mayor Best's Address of Welcome to the Visitors—Mr. Clarence Bell, President, Replies on Behalf of the Old Boys—How the Day Was Spent.

To-day the city is in the hands of the "Old Boys." They began to arrive on Saturday from Toronto, when the Oddfellows of that city ran an excursion to Peterborough. A train of fourteen coaches loaded with human freight, left Toronto at 2 o'clock, and reached here shortly after 6 o'clock.

They spent the Sunday visiting their friends here, and this morning were up bright and early to welcome the Old Boys who arrived this morning.

About 500 of the former residents of Peterborough from Toronto came to the city this morning. They came in one special and on the regular train at 11.40. By a misunder-

MR. CLARENCE BELL,
President Old Boys' Association, 1905

standing the special train which was due to leave the Union Station at 8 o'clock pulled out at 7.15, and the result was that a great many who had intended to come to spend the day here were unable to do so from this reason.

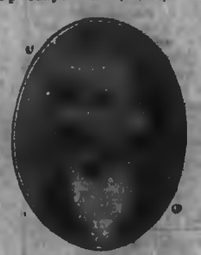
Two specials ran to Lindsay with the Victoria Old Boys, and a number of those who missed the first train came to Lindsay on one of the specials and from there they came in on the regular.

It is estimated that about five hundred Old Boys and Old Girls returned to the city this morning to spend

MR. R. A. CARDWELL,
Secretary Old Boys' Association.

the day with friends, and to a great many this was their first visit since the town was made into a city.

The programme as laid out for the reception of the Old Boys, was materially curtailed because of the mix-up at the Toronto station, by which the party did not all come on one train, and instead of the parade to the park, as was intended, this was dispensed with and the official civic welcome was extended at the station. Those who welcomed the Old Boys on behalf of the city were: His Worship Mayor Best, Ald. Leary,



REV. DR. SPEER,
Hon.-President Old Boys' Association.

chairman of the Reception Committee: Aldermen Adams, Hicks, Mason and Begley. The Mayor gave the following address of welcome to the Old Boys at the station:

Ladies and Gentlemen:—

It is with especial pleasure that I welcome you to Peterborough on behalf of the Council, and on behalf of the citizens of Peterborough. We are always pleased to receive visitors, but when these visitors are as is the case to-day, are our own boys and girls, former citizens and neighbours, who have come back to see the old town, our pleasure is greatly increased. Some of you have been away for a longer, and some of you for a shorter time; but whether long or short you will see changes. Time passes rapidly and always brings changes, and we are glad to be able to say that the alterations in your old home have been those of advancement. Peterborough has grown, her borders

HON. SENATOR COX,
Hon.-President Old Boys' Association.

have been extended, her population increased, and now factories, new homes, and new business houses have been erected. We know you feel an interest still in Peterborough; your presence here proves that, if any proof were needed; and you can look with satisfaction upon the signs of advancement that you will see throughout the city. In the deliberations of the council and public bodies, if you listened to them, you would hear familiar subjects discussed. We are still trying to get the Trent Canal completed, and we still talk of erecting a new collegiate institute building. These things will come, and with the completion of the historic waterway we will look for

MR. J. W. FLAVELLE,
Hon.-President Old Boys' Association.

further advantages. In the meantime we will not be on our oars, and with the same enterprise and energy that our citizens have shown in the past, Peterborough will continue on the road of growth and progress.

Let me repeat that we give you a hearty welcome. We hope that your visit will be most pleased, and that you will again before long give us the pleasure of welcoming you to your old home in which we all feel such a deep interest.

Mr. Clarence Bell, president of the Peterborough County Old Boys' Association, of Toronto, made the following reply:—

Mr. Mayor, Aldermen of the City of Peterborough, Ladies, and Gentlemen,—

On behalf of the Peterborough County Old Boys Association, no

MR. F. G. ROBERTS,
Member Executive, Old Boys' Association.

words that I can offer can in the least suggest to you our appreciation of the hearty welcome and the kind words contained in your address. While it is pleasant at all times to revisit the scenes of one's childhood and meet again old friends it is doubly so when greeted with flying banners and a band.

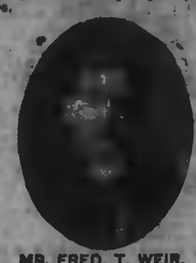
It was most unfortunate that the railway company found it necessary to divide our party into two sections, otherwise we would have been able to show you our numbers in a large procession. Nevertheless we have brought with us 600 persons to enjoy your hospitality, including in the county.

We note with great satisfaction the evidences on every side of the prosperity of which you speak; and it was with no little pride that we learned of the old town's elevation to the status of a city.

We congratulate you, Mr. Mayor and aldermen, on being the first executive of the new city.

The mention of the Trent Valley Canal and the old Collegiate Institute, recall old memories to even the most ancient of us, and we trust with you that some day in the near future you will inform us upon our return that both have been completed.

We will go back to-night with pleasant memories of our visit, made doubly so by your reception, with an increased loyalty to the county of our birth, and with the hope that the progress of your pace, great as it has been, will be far outstripped by the growth and prosperity of the future.



MR. FRED. T. WEIR,
Member Executive, Old Boys' Association.

The decorations in honour of the visiting boys and girls, though unpretentious, were very pretty, and did credit to Mr. A. Kingscote, by whom the work was done.

In addition to the decorations placed by the city, a number of the leading business houses and hotels, as well a residences, were decorated with flags and bunting, and the city presented a very handsome appearance.

The 57th Band, under Bandmaster Gliddon, was at the station, and as

MR. WM. BRYCE,
Member Executive, Old Boys' Association.

the trains arrived welcomed the visitors by playing "The Boys of the Old Brigade."

Many local people who had friends in Toronto, and who were expected to spend the day here, were at the station to extend the glad hand to their old friends, and there were many happy greetings exchanged.

The parade to the park did not take place because there were no Old Boys to form it. As soon as they had alighted from the train, they were hurried off by waiting friends, and, as a consequence, there was no formal parade, but the streets leading from the station were lined with Old Boys and Old Girls, their arms linked with those who

LATE MR. GEO. McBURNEY,
At Time of His Death,
Second Vice-President Old Boys' Association.

were welcoming them home again.

This afternoon a baseball game at the Riverside Park between the Royal Canadians of Toronto, and the local senior nine, is taking place.

Those who did not wish to go to the ball game spent the afternoon in driving around the new city, and the lift lock was one of the most popular objective points. A great many of the visitors had never seen this massive structure before, and it was a great surprise to them to see such an immense work.

Many of the visitors will remain over night, but the majority will return by the specials and regular trains to-night, the former leaving at 7.15 and 10 o'clock.

This trip of the Old Boys, though not planned on such an elaborate scale as that of two years ago, has proved to be a most enjoyable one, and the general opinion expressed by the visitors is that the outing has in every respect been a pleasant one.

Carnegie's Refusal.

Andrew Carnegie is stated in a Pittsburg despatch to have very curtly refused a request from McKeesport for a contribution towards the erection of a city music hall. Strong opposition had been shown in McKeesport to the voting of civic funds to keep the Carnegie library going, and as a last resort some one acquainted Charles H. Schwab with the facts and Schwab sent a check for $2,500. Carnegie resented being ignored. Boiled down, his refusal of a music hall grant meant, "Mr. Carnegie has no more money to give to the people of McKeesport."

PARENTS BLAMED FOR THE MISDEEDS

Of Their Children, According to "Citizen's" Views.

Attributes Prevalence of Child Criminals to Attitude of the Parents.

Peterborough, August 6th, 1905.

Dear Mr. Editor,—As the bad boy nuisance is on the increase, would you kindly allow me space in your valuable columns to give a few facts, of which in my opinion is the cause.

As an instance of what bad boys and girls the law has to deal with, take Jonie Carr, the slayer of the Ridgway baby, in Toronto, some time ago. What was the cause of her committing so rash an act? In my opinion it would be very hard to tell exactly what was the cause. She had a sister older than herself and a brother younger than herself. She loved her little brother, but hated her sister; and lastly she was governed by a stepmother who probably did not use her in the way she would have been used. There are a few homes in town of which my attention has been called, where there is never family prayer or where grace is never said before meals, but where quarrels and everything is resorted to to make the home very unpleasant for the children and thus causing them to drift away into bad ways, and thus the blame for the wrong doing of children and even grown up boys and girls rest on the parents. There are some parents in town who take the hard earned money which their boys and girls have earned away from them in order to satisfy their own selfish wants, and in some cases parents will give some friends who happen along for a fortnight or more, a real good time, while if it was their own sons or daughters they would get the cold hand every time. In conclusion, Mr. Editor, permit me to say that these are only a few of the main facts of some parents—a recital of which would take up considerable space but which would clearly show the detestible attitude of many parents.

Yours truly,
CITIZEN.

A Sixty Hours' Run.

Walter Scott, the Death Valley miner who is reported to own a treasure cot which holds enough gold to pay off the U. S. national debt, has returned from New York to Los Angeles. He says New York "skinned" him of about everything he had that was lying around loose. He is going to shorter another special across the continent after loading up with another lot of the precious. "You put it down in your little book," said he to an interviewer, "that Scotty is going to make the run from the Pacific to the Atlantic coast next time in sixty hours."

His Name Will Be Charles.

London, Aug. 7.—The christening of the infant son of the Prince and Princess of Wales will be specially interesting from the fact that one of the names given him is Charles. The young prince is the first of the Royal blood to bear that name since "Bonnie" Prince Charlie, son of James II.

THE SKIRMISHES FOR PEACE ARE ON

President Roosevelt Introduces Jap and Russian Envoys—Then Leads to Luncheon—In the Off-Handed Freedom of a Buffet Repast Question of Precedence Was Ignored and Plenipotentiaries Became Comrades For an Hour—The U. S. President Proposed a Notable Peace Toast.

Oyster Bay, N. Y., Aug. 7.—History was made in Oyster Bay Saturday, Russians and Japanese clasped hands and greeted one another with all outward evidence of cordiality, and for the first time since the nations began to have relations one with another, an executive of a great power received the envoys of two belligerent countries on a mission of peace.

President Roosevelt, on behalf of the United States, extended formal greetings to the representatives of Russia

PRESIDENT BETWEEN WARRING MONARCHS.

and Japan, introduced to plenipotentiaries to one another and entertained them at an elaborate luncheon, at which Russians and Japanese fraternised with one another as comrades.

The day was ideal. The handsome yacht Mayflower, on which the formal reception of the plenipotentiaries took place, swung at anchor at the entrance to Oyster Bay. By its side was the despatch boat Dolphin. Two miles out the cruiser Galveston was anchored, in waiting to convoy the vessels bearing the envoys to Portsmouth, N. H.

In order that no embarrassing questions of precedence should arise, it was determined that the luncheon should be a buffet luncheon.

Japanese Were First.

The cruiser Tacoma, with the Japanese envoys and their suite on board, from New York came to anchor at 12.30 o'clock, half a mile from the Mayflower.

As the Japanese mission, headed by Baron Komura and Minister Takahira, ascended the gangway, all attired in black frock coats and shiny silk hats, the band sounded three ruffles and then played a rollicking march.

Their reception was brief and was as devoid of formality as the nature of the occasion would permit. Baron Komura and Minister Takahira shook hands cordially with the President.

Baron Komura then presented to the President the twelve members of his suite. The President gave particularly cordial greetings to Commander Takahira, the naval attache of the Japanese legation, addressing him as "comrade," and to Mr. Hanahara, the third secretary of legation, with both of whom he is personally acquainted. The President then introduced the envoys to the army and naval officers present, after which, with Baron Komura and Minister Takahira, he retired to an inner cabin for a brief consultation prior to the arrival of the Russian mission.

Russians Come to Anchor.

The cruiser Chattanooga with the Russian envoys on board anchored near the Mayflower at 1.05 p. m. They were received precisely at the Japanese had been, and they, too, were ushered into the cabin where the President was in waiting to receive them.

During the reception of the Russian mission, the Japanese envoys and the members of their suite were in one of the forward cabins.

President Roosevelt shook hands with M. Witte and Baron Rosen, exchanging with them informal but purely personal felicitations. After receiving the members of the suite and presenting all in turn to his personal guests, the President then brought the two sets of envoys together, introducing them formally to one another.

A Notable Scene.

It was a notable scene as the diminutive Baron Komura shook hands with the giant Witte. The greetings of the members of the two special missions were distinctly formal, but not the slightest suggestion of enmity was shown on either side. Neither by word nor action did they indicate even by indirection, anything but the utmost cordiality.

Careful to avoid any strain, President Roosevelt, as soon as possible after the introductions, suggested that the party proceed to the main saloon, where luncheon was in waiting. The President himself led the pary followed in order by M. Witte Baron Komura, Ambassador Rosen and Minister Takahira. Although the luncheon was a standup affair, the President escorted the four envoys to chairs in one corner of the saloon, and, in half a minute through tact and delicacy, the whole party was engaged in animated conversation over their dishes. The conversation generally was in French, as M. Witte speaks very little English. Baron Rosen and Baron Komura chatted as if they had been life-long friends, and Minister Takahira, at no time particularly communicative, entered into the conversation with zest and interest.

Roosevelt's Peace Toast.

Before the luncheon had proceeded far, President Roosevelt rose from his chair and turning to the assemblage raised his hand for silence. On an instant there was a hush. Bowing to the envoys President Roosevelt said: "Gentlemen, I propose a toast to which I have the honor to ask you to drink in silence, standing. I drink to the welfare and prosperity of the sovereigns and the people of the two great nations whose representatives have met one another on this ship. It is my most earnest hope and prayer, in the interest of, not only these two great powers, but of all civilized mankind, that a just and lasting peace may be speedily concluded between them."

Saying Good-Bye.

M. Witte and Baron Komura both cordially thanked him. The President then took cordial leave of the envoys and their suites.

The Japanese envoys and their suites were next to leave. They shook hands with the Russian plenipotentiaries, expressing to them their personal gratification with the pleasant meeting they had had. As they went aboard the Dolphin the red sun flag of Japan was broken out at the peak of that vessel, and at the same moment the Russian flag was raised over the Mayflower.

At 5 o'clock the little squadron got under way and steamed down Long Island Sound, the Galveston in the lead, followed closely by the Dolphin and the Mayflower.

The vessels are scheduled to arrive at Portsmouth this morning at 10 o'clock.

Delayed a Day.

Newport, R. I., Aug. 7.—Owing to thick weather the peace squadron will be unable to reach Portsmouth to-day, and the delay will necessitate a postponement of the opening proceedings for one day.

Japs Threw Peace Missles.

Sitaitse, Manchuria, Aug. 7.—The Japanese are throwing proclamations into the Russians lines, urging the Russians, on account of impending peace, not to undertake reconnaissances, the result of which would be useless loss of life.

New Russian Loan.

St. Petersburg, Aug. 7.—The Government has decided on the issuance of another internal loan to the amount of $100,000,000, of which, however, only $75,000,000 may be issued at first. The loan will be practically of the same nature and under the same conditions as that of March last and will probably be issued in about a fortnight.

RUSS POPULAR ASSEMBLY.

Peterhoff Proceedings Make Grand Dukes Appear Anxious For Reform.

St. Petersburg, Aug. 7.—After months of preparation and anxious waiting, the project for a new popular representative assembly is now undergoing final revision, and its completion and promulgation are thought to be a matter of days only. It is understood the councillors thus far have recommended no sweeping changes in the project as it came from the council of the Ministers.

The reactionaries, at Saturday's session of the commission at Peterhoff, made strong efforts to secure the rejection of alteration of two important provisions of the project, but the sentiment of the commission and of the Emperor and the grand Dukes prevented any step backward. As at the previous sessions, the Emperor's advisors continued to discuss the needs of the country with remarkable frankness.

The article over which the main conflict arose comprised paragraph 42 of the project, providing that the assembly's rejection of any preparation submitted to it by a two-thirds majority is absolutely final, with no recourse whatever.

The discussions at Peterhoff give color to a current report that Emperor Nicholas and the grand dukes appear to be the most liberal-minded and the most truly anxious for reform among the members of the conference.

The chief defect of the project, as analyzed by one of the members of the council of the Empire, is its lack of adequate guarantee to protect the crown against encroachments by the assembly.

FIENDISH WARSAW CRIME.

Bind Manager in Wheelbarrow and Pitch Him Into Sewer.

Warsaw, Russian Poland, Aug. 7.—Detectives Saturday made a successful raid on a coffee house on Crochmalna street, in the Jewish quarter, and captured 70 members of the social democratic party, 30 of whom are organizers.

The manager of the big flour mills in the Slodowice district has been drowned in a sewer by strikers. The men bound the manager with ropes, put him in a wheelbarrow, trundled him away and pitched him into the sewer.

His Life is Forfeit.

Moscow, Aug. 7.—The former school teacher, Mullkovsky, who on July 11 shot and killed Major-Gen. Count Shuvaloff, prefect of police, was Saturday sentenced to death by a court-martial.

AN UNKNOWN GETS $800.

Express Robbery at Sudbury—Money Spent at the Soos.

Sault Ste. Marie, Ont., Aug. 7.—The Western Express Co. was robbed of $800 at Sudbury by an unknown man. The money was addressed to the Traders' Bank of Canada. Officers tracked the money to both Soos, where it has been spent. It is supposed to have been taken while the man in charge was investigating the fatal accident to a man on the railroad.

During Robbery at Galt.

Galt, Aug. 7.—Two men held up Mrs. George Scott of Hunter's Corners in her house on Saturday. They perpetrated the robbery at noon, and secured $40 of church funds, belonging to the Bible Christians, for whom Mr. Scott is treasurer.

Suspect Foul Play.

St. John's, Que., Aug. 7.—The body of a man was found yesterday on the bank of the River Richelieu, near the canal. The body was without coat, vest or boots. There is a bruise on the face and another on the back of the head. The man is between 30 and 40 years of age and is reported to be a Polynesian, who had been working at the Singer plant. Yesterday was pay-day at the works. The matter will be investigated by the authorities.

Guilty of Abduction.

St. Thomas, Aug. 7.—William Weir of Port Bruce, a married man, 35 to 40 years of age, was arraigned for trial before Magistrate Hunt Saturday morning on the charge of abducting 14-year-old Florence Mowers of Port Bruce. He was found guilty and remanded a week for sentence.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches.

Lost Their Licenses.

The Central Hotel and Galt House, Galt, having lost their bar licenses, refused to allow their sheds and stables to be used by the farmers as heretofore.

Bass in Thames.

The two years' restriction on black bass fishing in the north branch of of the Ontario Thames ending 1st of the present month, has resulted in the river being found well stocked with bass once more.

American Boycott.

The boycott against America has started in Yokohama, the Chinese refusing to handle freight on the Pacific mail steamer, Manchuria, for Hong Kong. The Chinese will hold a meeting to-morrow to organize the movement.

Preacher Drowned,

Mrs. Lewis Steinbachel, together with her three children and three children of Rev. D. F. Lynch, a neighbour, are all believed to have been drowned in the Little River, near Wichita, Kan., yesterday. The party went out boating, and early to-day had not returned.

Surplus of Bachelors.

The borough of South River, New Brunswick, has discovered that its male population exceeds its female population by 453, and all of these are single. South River has offered to share these eligibles with the girls of this city, where there are many more women than men.

Trouble at Dundas.

Dundas council desires to tap the stream above the townw hich at present supplies power to the plants of the Fisher paper mills and other establishments, for additional water. An injunction has been applied for by the millers who state the proposed drain on the stream, which is already very low, would practically put an end to business at the mills.

Terrier Gives a Scare.

Patrolman Corbett, New York, was attracted by shrieks and screams to No. 302, East 88th street, and found a pet terrier in a state of frenzy. It had chased Mrs. Helen Straub, his mistress, out of her room and she and others had to take refuge on the fire escape, and some on tables. As Corbett entered, the terrier sprang at his throat but was knocked over with a blow from the policeman's club, and took refuge in the bath room, where Corbett finished him with a shot.

Magistrate Daly "Retires."

The Police Magistrate of Napanee, James Daly, has resigned, after eighteen years service and will live a retired life. He goed to British Columbia next week on a visit. Mr. Daly was the magistrate who last December insisted upon the evidence being taken in the case of the Napanee hotelman who pleaded guilty to selling liquor after hours, and in which case it was shown that Premier Whitney had enjoyed a hot Scotch in his room after the town clock had tolled the eleventh hour at night.

Manufactured "Rust."

A farmer in North Dakota exhibited specimens of "black-rust" on wheat. The Chicago crop experts were amazed. "The worst case we have ever seen," they exclaimed, and immediately telegraphed sensational accounts of the spread of the blight to headquarters, with the result that the wheat market advanced. The wily farmer subsequently announced that he had gold-bricked the "experts." He had manufactured the "rust" by means of shoe blacking and acids.

"Doped" Whiskey.

Daniel Cooin, a dock labourer, and Charles Knauer, a machinist, are dead at the Milwaukee house of correction, and four others are dangerqualyi ill there from the effects of what is believed to be "doped" whiskey. Those in a critical condition are James McGarvey and Paul Settler, dock labourers, and William Foy and Joseph Bauer, sailors. The men were arrested for being drunk, and shortly after reaching the house of correction, developed cases of delirium tremens in an aggravated form. It is suspected that wood alcohol had been mixed with the whiskey, and if the saloon which sold the stuff can be located by the police, warrants for manslaughter will be issued.

ALL RUN DOWN

Weak---Nervous---Unstrung.

Thousands get run down and become invalids before they realize anything is wrong. By permitting low vitality to develop, the way is paved for fevers, pneumonia and diphtheria. To put off makes it all the harder to get well. The time to repair the system is right now, before the damage gets any worse. The remedy is Ferrozone; it revitalizes, renews, builds up vitality that outlasts old age.

FERROZONE is a genuine invigorator that banishes weakness, and instils surplus force and vigor into every organ of the body. Ferrozone sharpens the appetite, produces rich nutritious blood, and thereby contributes that sense of buoyancy that adds so enormously to one's pleasure and usefulness in life.

For all forms of debility, weakness, lack of blood or nerve tone, sleeplessness, tiredness and exhaustion, there is no medicine so vitalizing and potent as Ferrozone. Even one trial demonstrates its rapidly and certainty of action.

To restore the energy of youth, to get back your vital stamina and reserve force, there is positively no treatment so certain as Ferrozone. You have only to try Ferrozone to know the enormous benefit it invariably brings to all in poor health.

FERROZONE

Miss Dorothy E. Leduc of Chester gives the following convincing evidence of Ferrozone's power:—"My work compels me to rise early in the morning and work ten hours daily as a saleslady. Last Spring I was run down, lost my color, and fell off in weight. I seemed to lack ambition and the life was out of me. A friend recommended Ferrozone, and I took one tablet after meals with wonderful results. Ferrozone brought back my complexion, and has given me new strength and abundance of energy and spirits. I would advise all young ladies to use Ferrozone."

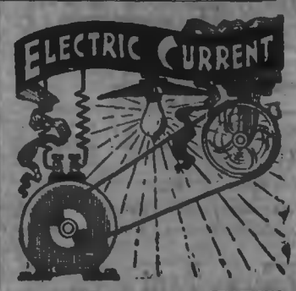
Mrs. H. G. Wilder of Dexter says:—"My daughter was not very well last Winter, and lost her strength completely when the Spring came. I gave her Ferrozone, and am glad to say it did wonders. After six boxes were used my daughter was strong, and looked the picture of health."

Gave New Strength

FERROZONE

It makes the weak strong, the sick well, and assures lasting good health.

WARNING—Beware of any substitute for Ferrozone; it alone can cure you. Sold by all druggists and dealers in medicine, only in 50c boxes containing 50 chocolate-coated tablets. By mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.



Let us talk with you about **WIRING** your home, office, store or factory. Now is the time to get proper light installed for the fall and winter.

We can get you up a handsome Window Effect with Electric Light, something new and original.

All work under our own personal supervision.

McGregor & Reid

428 George St. 'Phone 395

Any Troubles in Your BATHROOM?

If you are having any trouble with your CLOSET or BATHROOM CONVENIENCES, come round and have a talk with us.

A gentleman, attracted by the range of Sanitary Closets and excellent values we are offering, invested in a new one, although he already had one that was working not badly.

The way he looked over the Closets we arranged before him for inspection showed he had been sifting the matter, and knew how to prove and disprove the claims of dealers.

The saving of health and expensive plumbing repairs, warranted the investment, he said.

How is yours working? Bring your Bathroom Troubles to us. Our Toronto Stock is what we sell in our Peterborough Branch.

HEALING BY FAITH

REV. E. A. LANGFELDT Discusses the Subject In a Sermon.

Yesterday morning Rev. E. A. Langfeldt, at St. Luke's, preached on the subject of "Faith Healing." He took for his text St. Luke xii. 5, 6: "Are not five sparrows sold for two farthings, and not one of them is forgotten beforehand? But even the very hairs of your head are all numbered."

Mr. Langfeldt began by saying that in the dispensation of God there was no such a thing as mere chance. The true believer recognizes God's hand in sickness or other physical ailments and discomforts. It is absurd to suppose that sickness or any bodily suffering comes upon us by accident or by the iron rule of a natural law that knows no master, and has no object. Sometimes it is sent as a chastening. "The Lord struck the child that Uriah's wife bare unto David, and it was very sick." It was well with the child, for it was safely sheltered in the bosom of Him who struck it, but the blow was designed to reach the father's heart.

All through the Bible we find facts relating to His presence and power as being in every disease, whether commissioned to minister to the good of the people, or sent to punish the proud and unbelieving.

Those who bow before the authority of the sacred Scriptures know that their bodily, afflictions, no matter how sore they may be, are to be traced directly or indirectly to the will of God. Why He permits them is another questions, and what Christians are to do when smarting under His strokes is a question of very great importance, especially in these days. There are thousands of godly and sincere people who insist that the prayer of faith will remove and remove disease, and hence that all medical and remedial agencies should be discarded, because their use implies a lack of confidence in the power and willingness of God to heal. But if we would calmly and intelligently consider this subject, which is of vital moment to the sick, it must not be forgotten in the first place, that similar claims substantiated by abundant evidence, are put forth by those with whom the Christian can have no fellowship. Spiritualists, confidently led by Satan, point with triumph to the numbers healed of deadly diseases by mediums. Christian Science, so-called, that is not Christian, but wholly unchristian in its blasphemous assertions and teachings, can tell of thousands who have been restored to health by their mutterings. Beams of abandoned brutality, and other memorials of conquered disease at religious shrines, attest the reality of the benefit received by pilgrims who crowd together for healing.

These facts show that the believer should not be moved from Scripture by mere success. The Lord tells us that the time is coming when false Christs and false prophets shall show great signs and wonders, insomuch that if it were possible, they shall deceive the very elect.

It must be noted that most of those cures wrought by faith healing are of a serious and hysterical character. Persons of morbid temperament can easily imagine that they have diseases of various kinds. Anything that will take their minds away from themselves and lead them to believe that restoration is possible, is equally an effective remedy. But a true child of God would rather be sick than to resort to methods that dishonour the Lord Jesus Christ, and are contrary to His Word.

Faith-healers, as a general thing, go too far or not far enough. They lay great stress upon the power the Lord gave to His apostles to heal sick, but the commission extends much beyond this. "Heal the sick, cleanse the lepers, raise the dead, cast out demons." Those who claim supernatural powers in the exercise of faith do not pretend to cleanse the leper, to raise the dead, to speak in foreign tongues, to drink poison; and yet, surely, they ought to do these things as well as to heal the sick, if they are acting under apostolic commission. We must also notice that the cures wrought by the Lord Jesus and the apostles were instantaneous and complete. There was no slow and imperfect recovery, as with the modern faith healers, nor were there any failures, except in one instance of unbelief. But the failures in the faith healing of our day are vastly in excess of the numbers cured, of course, the failures are kept hidden in secret.

The gift of healing is not bestowed upon all as generally believed and taught. It is plainly written: "To one is given by the Spirit the word of wisdom, to another the word of knowledge by the same spirit, to another the gifts of healing by the same Spirit. Are all apostles? Have all the gifts of healing?" etc. Admitting that the gift of healing was not confined to the times of the Apostles, but that it might be bestowed even now, if there were faith to receive it, it does not follow that everyone has the gift, or that every sufferer can be relieved. Therefore the assertion so often heard, that everybody who has faith can be healed, can be utterly unscriptural, as is the common disregard of the injunction, "Is any sick among you? Let him call for the elders of the church." A devout mem. of a pious woman going about to call on the sick, often unsolicited, can by no possible stretch of the imagination, be converted into the elders of the church.

In praying for the sick it is easy to lose sight of an essential feature of prayer. The Son of God could pray, when His sweat was as it were, great drops of blood falling down to the ground, and—as if He would give a touching example to His suffering followers. Without submission to the will of God as infinitely right and wise, prayer is not prayer, and one is often shocked by an exhibition among the faith-healers of a rashness and an irreverence that might indeed bring down upon them the wrath of God. It is worthy of remark that even the Apostles could not always heal, nor where they are exempt from the law of bodily suffering. It may be good to be strong but it is better to have the power of Christ resting over us and around us in our weakness. It may be good to be in health, but it is better to remember that sickness is not the worst thing that can befall a Christian.

God has purposes of love to accomplish through disease and pain, of which we may know nothing at present, and while still praying in the simplicity of an unfaltering confidence, we are not to suppose that His omnipotence is a mere servant to obey our behests, apart from His power and wise counsels. If nothing else was gained by our sickness, it teaches us our need, for they that be whole need not a physician, but they that are sick." It is when shut up in a sickroom the Christian feels the nearness of the Great Physician, the sympathizing Jesus.

Whether, then, in active or passive service, it is the believer's duty to do or suffer the will of God. We read of some who accomplished great things for the Kingdom of God by their valiant acts; of others we read, that they suffered for the Kingdom of God. Do you suppose that the sufferings of the second class were less acceptable to God, or less dear to His heart, than the deeds of the first class with their magnificent achievements? Nay, if there were any difference, they were nearer to Him, as loving parents always feel a special tenderness for his afflicted children. They obeyed His will, and did their appointed work as well, and as truly, as their brethren in the field of battle. The growing and silent submissive children of our Father shall soon find to their everlasting joy, that They also serve who only stand and wait."

"I cannot feel
That all is real when darkening clouds conceal
The shining sun,
But then I know
God lives and loves; and say, since it is so,
Thy will be done."

DIVER BATTLES WITH HUGE FISH

Arthur Cannon's Fight at Bottom of Sea.

Gunner in Diving Suit, While Arranging Torpedoes for Test, Kills Big Flounder With Knife.

Newport, Aug. 6.—A battle between a giant flounder and a diver teaching United States navy gunners to set torpedoes beneath the surface of the water occurred to-day between Jamestown and this city, and not until the men gave the signal to be drawn up and appeared with the fish he had killed, did those at the life lines and the air pump know of the combat. The victor to-night partook of the fish with his mates.

Arthur Cannon, gunner, had taken movie seamen-gunners into sixty feet of water to explain the science of planting torpedoes and mines. He went below alone, in his suit, to rearrange the explosives for a test. No signal was received from him for five minutes, and the suggestion of trouble given by the agitation of the water did not alarm the men on the float. The flounder, bigger than any the fishermen in the vicinity had ever seen, was swimming in and out among the torpedoes.

Cannon, fearful that the fish would explode one of the shells, closed in and tried to drive it away. The flounder was resistant, however, and for several minutes sparred with the diver, who finally caught it as it made a lightning dash for him. Cannon's long knife lunged into the fish's side and after a few quick twists the battle was over.

90 Years for Russell Sage.

Russell Sage began his 90th year yesterday. He was down town in New York the previous day attending to business as usual. He attends at his office two or three times a week, but no longer spends the whole of the business day at his desk. He has been in fairly good health the past year.

OZONE SOLUTION

"Ozone" kills the inside germs and "Celery King" is a tonic laxative.

Ask your druggist for "Solution of Ozone, the coupon kind," manufactured by the Public Drug Co., Bridgeburg, Ont., sold by W. S. Warne.

OLD NEWSPAPER MAN'S DEATH

Mr. Geo. Wilson, of the Port Hope Guide Died Suddenly.

Was in His 81st Year and Had Been in the Newspaper Business for Many Years.

On Saturday night in Port Hope the death occurred of the oldest newspaper man in this province, if not in the Dominion, in the person of Mr. Geo. Wilson, for many years editor and proprietor of the Port Hope Daily Guide. The deceased was in his 81st year, and has been ailing for some months, but prior to this illness, which was the first he had suffered in his life, he had attended to his business, being at his desk in the office every morning at 7 o'clock, and remaining there until 6 o'clock. He has spent practically his lifetime in the newspaper business, which he has made a success of. About a month ago his wife died, and he was so ill at that time that he was not told of her death until after her funeral.

The late Mr. Wilson was very highly respected in Port Hope, and wherever he was known, and the news of his death will be received with regret by his many friends scattered throughout the Dominion. All of his sons are engaged in the newspaper business. Two in Winnipeg, one in Port Hope and one in Toronto, and all have been singularly successful in the business in which they received their training from their father.

The funeral took place this afternoon in Port Hope. The business will still be conducted by Mr. Wilson, Jr., who for some years has taken the active management.

MAKING A NIGHT OF IT IN LONDON

Dr. Hutchinson Tells the Commons of Triumph of the Aliens in West-End.

(London 'Morning Leader.')

Dr. Hutchinson's description in the debate of the Aliens Bill of a night out in the West-end (the aristocratic quarter) was a masterpiece which kept the House echoing with uproarious laughter at the end of every sentence he said. "We have heard much in this debate about the aliens of the East-end (the slum district)—what about aliens of the West-end (Cheers) A man comes up to town to enjoy himself for a night—('Oh, oh!')—just to see what's going on—('Oh, oh, oh!')—well, bishops do it sometimes! He goes to an hotel in the West-end—(cheers) and he's received by a French manager and books his room, a German waiter shows him to the lift, and a Swiss takes him up. (Laughter) When he's changed his clothes he orders his dinner from a French menu (Gayety). It is served by German waiters, and cooked by a French chef. Then he goes out ('Oh, oh!') in a motor car driven by a Spanish chauffeur—(Loud cheers) — and he goes to the Italian opera! (Shouts of laughter.)

"There he hears foreign singers supported by a foreign band, playing foreign music, save only may be the band looking as all like an Englishman being the conductor who plays the triangle (as Mr. Grant Lawson was in the chair acting as chairman of committees, and he was once described by Mr. T. P. O'Connor as 'the gentleman who plays the triangle in the band,' this bit brought down the House, and there were fourpeals of applause and shrieks of laughter). 'Then,' continued Dr. Hutchinson with perfect solemnity of face and tone, 'he leaves the opera ('Oh, oh, oh!') and he goes—(A Voice: 'Ah!')—to an Italian restaurant where he has foreign wine, Turkish coffee, and an Egyptian cigarette.'

"The aliens of the East-end help to make cheap clothes and boots and so forth for the working classes and the poor, and so we hear a great deal about them. The aliens at the West-end contribute to the pleasure of the rich, and nothing is said about them. Now, all these aliens in the West-end are keeping out native labour, and you know very well that this bill will not keep out of this country one capable alien workman who can really compete with British labour." Dr. Hutchinson sat down amid roars of cheering and laughter, and it was recognized by all members that the hon. gentleman knew how to make a night of it.

Pains in the Chest.

Mr. John Clark, Port Hope, Ont., writes: "Last winter I was so bad with a cold that I could not speak above a whisper, and had great pains in the chest. A friend advised me to try Dr. Chase's Syrup of Linseed and Turpentine, and one bottle cured my cold which I believe would have proven very serious if I had not used this medicine."

Lost Her Children.

After searching for months to locate her children, Mrs. Caroline B. Dodson, formerly of Fort Sheridan Ill., wife of Major Lorenzo P. Davison, a retired army officer now in quartine at Fort Leavenworth, found them yesterday afternoon at the Metropolitan Hotel in Kansas City, Kan. These of the children were in the custody of Mrs. L. White, sister of Major Davison. Mrs. Davison brought habeas corpus proceedings to recover the children, and Judge Moore gave her custody of the youngest boy on her furnishing a $500 bond to appear at the hearing Monday. Major Davison retains the remaining three children and gave bonds in $1,500 to have them in court at the time stated.

PILES Dr. Chase's Ointment will relieve and cure for each and every form of Itching, Blinding, Bleeding, Protruding Piles. MONDAY, AUGUST 7, 1905.

TOO MUCH REPRESENTATION.

Are our representative institutions too large and too numerous? inquires the Ottawa Free rPess.

Is there a loss of vital strength, a dissipation of power, a waste of energy through the unnecessary duplication of the governing machinery or through the expansive membership of our representative institutions? A correspondent declares that a very large proportion of the people of Canada think they are over represented all the way up from the township councils to the House of Commons and Senate, and that as regards Parliament the undercurrent of opinion is to enlarge the constituencies, lessen the number of representatives and pay better salaries. The idea is fascinating, looked at in the abstract; but when it is taken up in a practical spirit and made the subject of concrete application, it is obvious that it is surrounded with difficulties. Every constituency is willing enough that its neighbour's ox should be gored, but where is the one that is ready to have the wound inflicted on its own? The increasing cost of legislative and administrative institutions is one that must impress every student of the country's political conditions; but while that forces itself upon his attention he must bear in mind that the development goes on apace. The country's trade itself has doubled during the last nine years. The population is growing rapidly. The next census will probably see it between seven and eight millions. The sphere of settlement is ever expanding, and the area of cultivation always enlarging. The volume of wealth is increasing and the range of industrial activity widening. With all these evidence of ceaseless and restless energy, would it not be rash to assume that we are over-represented, or that there is unnecessary duplication of governing machinery? The correspondent thinks that by reducing the number of parliamentry representatives and paying them better, the equality of the representation will be improved. But is there any real ground for supposing that this would be the case? Would the people always choose the wisest and the best? History has not proved this to be the case in the past. Human experience has almost invariably been that in a large representative gathering you are likely to find a larger number of men of intellectual capacity than in a smaller one. The matter is one for the people themselves; but it would require to be very thoroughly discussed before action is taken. The suggestion is made that a plebiscite should be held, and a plebiscite on such a subject would be extremely interesting; but before the country is ready to give a verdict on the question a vast amount of educational work will have to be undertaken on the platform and in the press.

VETERAN JOURNALIST DEAD.

Saturday night, one of the oldest, if not the oldest, newspaper men in the country passed away in the person of Mr. Geo. Wilson, editor and proprietor of the Port Hope Daily and Weekly Guide. During his adult life of forty years he had witnessed great changes and great progress in Canada, has been associated with much of it, and has helped it on through the medium of his newspapers. He had always been a staunch Liberal, and had done yeoman service for the cause, both as a journalist and as a citizen. His voice and power have always been used to promote the cause of moral reform and the betterment of the moral condition of the community. He was a cordial hater, that is, he handled public and civic questions without gloves and sometimes his zeal developed rather agressive opposition. But he was to be given credit with having done what he thought right according to his point of view. From his long residence in Port Hope and his long connection with journalism he was widely known in the Midland district, and as widely respected. He was an energetic worker, and in spite of his advanced years, kept in harness till almost the end. It is given to few men to have engaged successfully in active journaliam half a score of years beyond the Psalmist's limit of man's life. While his outspoken advocacy of what he thought was right may have made him enemies; yet with the disappearance of the momentary irritation, a high degree of respect for honest purpose remained, and there are thousands, both political friends and political foes who will remember with kindly tributes to his worth, the late George Wilson, who is laid at rest to-day in Port Hope cemetery.

EDITORIAL NOTES.

Mr. McLean, M.P., of the Toronto World thinks the Conservative party wants a new leader. The leadership of the Opposition embarrassed with a salary of $7,000 is now a tempting target for ambitious politicians.

Magistrate Jelfs, of Hamilton, has won the hearts of the young man, whose girl has an expensive fondness and capacity for ice cream. He has decided that ice cream is not a necessity — that, therefore, it is not permissable to sell it on Sunday.

In a recent speech delivered in London, Lord Minto expressed surprise at finding statements made by English writers respecting Canadians which were utterly contrary to his experience. But he said, there were persons who come to this country and after wandering about a few days went home and wrote books in which they assumed to know more about Canada and Canadians than those who had lived in the country for years and had made its affairs their constant study. This sarcasm is well deserved.

If the hand of the Whitney Government is stayed in the matter of discharging Liberal officials it will be because of the easiness with which retaliation can be restored to. Speaking of this matter, the Woodstock Sentinel-Review says:—The Dominion Government has set an example of moderation in such matters. It is a well known fact that there are numerous officials, who were appointed by the previous administration, in this and other parts of the Dominion, whose usefulness as public servants is altogether a thing of the past. Yet the administration rather than give colour to the charge that it was introducing the spoils system has left them undisturbed.

Premier Whitney has the last laugh. Police Magistrate Daly, of Napanee, who insisted on taking the evidence in the case of the Napanee hotel man who sold liquor after hours, wherein it was shown that Mr. Whitney enjoyed a cold Scotch also after hours, is retired. Mr. Daly is now carrying his head around in his hand—Mr. Whitney has lopped it off. Serves him right. Hasn't a great political chief a right, like Falstaff, to "take mine ease in my inn," without the Caledonian character of his ease being blazoned broadcast throughout the country? Mr. Whitney likes Scotch, and Mr. Daly is Irish; therefore he won't get any more Daly bread out of the Provincial pantry.

What is a sessional indemnity, is a question sometimes asked. It is simply a payment to a member of Parliament to insure him against pecuniary loss in the service of his country. It is not assumed to be a payment, but simply a guarantee against loss. Under these circumstances it is true that in the majority of cases, $1500 a session was a sufficient sum. The average member will return home with a considerable portion of his indemnity to the good, while others will far exceed the limit. The man who found his sessional indemnity of $1500 inadequate, would find $2,500 or $3,350 insufficient to indemnify him. If he lives the rapid life in the capital — if he plays the game of poker as indifferently as he plays the game of politics — he wouldn't have much left at the end of the session out of $10,000 indemnity.

BRITISH CAPITAL IN CANADA.

It has been the fashion with uninformed Canadians to blame the financiers of the Mother Land for an alleged failure to invest in Canadian securities and enterprises.

The charge might not have been substantiated even in the past. At present it reaches the point of absurdity.

The London Times recently published a table showing the amount of the new capital created in the first half of 1905. It shows that in the first six months of the present year no less than £182,721,486 was subscribed by British investors in enterprises in Canada and several parts of the world. Some of the figures, outside the United Kingdom are:

United States..... ....£41,359,767
Japan..... 30,200,000
South Africa..... 15,513,529
Canada..... 10,786,287
South America..... 6,658,200
India 5,383,707
Australasia..... 2,800,000

Japan ranks high naturally by reason of her immense war expenditures. The United States heads the list by reason of the extensiveness of American industrial enterprises and, of course, the great preponderance of population. But the figures for Canada, nearly eleven million pounds, shows that in proportion to population, Canada has engaged a notable share of the British investment, a larger share, indeed, than has been had by any other country in the world.

The investments in Canada include £6,102,000 for the three issues of the Grand Trunk Pacific, floated during the half year, and £1,025,000 for the Canada Atlantic; £2,523,237 for Canadian Northern issues; £60,000 for the Imperial Paper Mills at Sturgeon Falls, Ont.; £150,000 for the Montreal Light, Heat and Power Company; £78,000 for Quebec City; £400,000 for the Shawinigan Water and Pulp Company, and £450,000 for the Western Canada Pulp and Paper Company.

INTIMIDATION CASE DISMISSED

"Persecution" of Hotelman Practically Ended.

Separate School Plumbing Damaged, But Two Small Suspects Were Discharged.

The campaign against a certain hotelman practically came to an end this morning, the final proceeding being a charge of intimidating a witness by threats to swear falsely.

The charge was a very serious one, fell through because the evidence was very vague and nothing was particularized.

Chas. Forsyth was first called to give evidence. He said he had given evidence against the hotell keeper in a liquor case last week. On last Tuesday night in company with Harold Coons and another he had driven here from Bridgenorth. They put up at the house of the hotelman charged, and went in. They met the proprietor in the hall, and he swore that the first man, who went up into the witness box, and said he got a glass of liquor in his house, he would put him down.

Forsyth said he was frightened, but thought that if he went into the witness box and told lies, the police would turn him down. He was caught between two fires, and was in a quandry; but resolved, to swear the truth, the whole truth, and nothing but the truth.

Coons was next called into the box. He said he had hired a horse on credit on Tuesday, and drove here in the afternoon. He saw the hotel keeper who asked if he knew how Forsyth was going to swear, and if he saw Forsyth to bring him down.

Coons went back to Bridgenorth and brought Forsyth back to the hotel in the evening. The proprietor met them in the hall, and said, "If any man got up and swore that he got liquor in his house the rest of the bunch would turn him down."

After that they went home, and did not even have a drink.

In reply to a question, Coons said the horse hire had not been paid yet.

In summing up, the magistrate said the language was too vague, and that he was not at liberty to draw conclusions. The threat was not one to try and compel the witness to absent himself or swear falsely, and he could not draw conclusions as to the meaning of certain phrases in the evidence, so as to make the evidence appear strong against the man charged. He said he must be fair and could make no conviction, and the charge was dismissed.

Two small boys appeared before his Worship on a charge of damaging some pipe on the Separate School property. The pipe was laid inside the chimney and had been stuffed for seven or eight feet with wood, sand and mortar. Considerable expense was entailed in tearing down part of the chimney and getting out several lengths of pipe.

The boys had been playing around the school, and suspicion rested on them, but from the evidence given it could not be proved that they were guilty of the act, and they were discharged.

LAWN MOWERS.

Sharpened, repaired and put in first-class order, at Jas. H. Metherall's, 223-225 Hunter Street.

"Let Go" Prices

Every wide-awake merchant knows that there's a time to "let go" prices, and LeBrun & Co. believe August is the right time. The price tickets show how we're doing it.

MR. W. H. FOORD LOSES BY FIRE

Former Cemetery Superintendent Loses Residence in Toronto.

Loss is $4500—Origin of the Fire is a Mystery.

Superintendent W. H. Foord's residence at Mount Pleasant Cemetery in Toronto, former superintendent of the Little Lake Cemetery in Peterborough, was destroyed by fire on Friday night. Mr. Foord and his family left home at about 8 o'clock to visit some friends in the city. Some boys first discovered the outbreak at about 10 o'clock, when they saw smoke issuing from the building. They gave the alarm, and the North Toronto Brigade promptly turned out. As a frame residence near by appeared to be in danger, a telephone message was sent to Yonge street fire station. The chemical engine was sent up and did some good work. The fire burned furiously for some time, and the building was completely destroyed. The loss on the building and contents is estimated at $4,500. The fire broke out in the cellar, but its origin is a mystery.

TOURISTS HAVE NARROW ESCAPES FROM DROWNING IN STONY LAKE WATERS

A Number of Upsets Reported From the Kawartha Lakes —Mr. Arthur Wood, of Peterborough, Upset While Sailing—Miss Jones, Miss Hastings and Mr. Shepherd, Three Kilkenny Guests, in Trouble at White Lake—Many Passengers Travelled on Saturday's Steamers—Eko Camp at McCracken's Landing—Personal Items.

A number of narrow escapes from drowning were reported from various parts of the lake on Saturday, most of which were occasioned by the roughness of the weather. Mr. Arthur Wood, of Peterborough, had the misfortune to have a "spill" when sailing in a canoe off McCracken's Landing. Two young men also took an involuntary plunge some distance out from the Juniper Store. An unfortunate incident occurred at the wharf at that point on Saturday evening when a young lady, who had just arrived in costume for the ball, slipped in the darkness and confusion from the planks into the water, which, fortunately, is not deep at that point. She was quickly rescued from her uncomfortable position by a spectator.

An incident surrounded by more peril, however, occurred near the approach to White Lake, when a party composed of Miss Hastings, Miss Jones, and Mr. Sheppard, who who are guests at Kilkenny were upset in a manner surrounded by imminent danger. The trio were in a canoe, and while passing through a narrow spot with projecting rocks on either side, through which the water rushes rapidly, the craft unfortunately struck a rock which impeded its progress and caused it to be hurled by the force of the water, with great violence against the boulders. The canoe was badly shattered, one side being badly crushed by the violent action of the water. The members of the party escaped, fortunately without serious injury.

Saturday's Steamer Trip.

The influx to Kawartha waters of tourists, campers, and cottagers, which has been remarkable in it's proportions all through the present season, continued last week with increased vigour. The heavy passenger traffic on the boats throughout the week, was brought to a record-breaking conclusion on Saturday night, when what was probably the most remarkable cargo ever shipped upon a Stony Lake boat was conveyed up by the Steamer Empress. From bow to stern the interior of the boat could only be described as an indiscriminate mass of passengers, merchandise and baggage. An inventory of the cargo would doubtless prove an interesting document, if not from a literary, at least from a commercial standpoint, and the situation was not without it's perils, notwithstanding it's predominating humourous aspect. Delicate, consumptive looking females juggled with immense trunks piled ceiling high in a most fearless manner in their endeavour to locate missing articles which they "knew" must be in a certain spot because they "had left them there." Men were scarcely so profuse in perspiration, but relied more upon profanity. Nothing was too weird to be included in the cargo. Even baby carriages towered majestically aloft upon the mass of boxes of provisions beneath. A man seated upon a salt barrel was heard to heave a sigh, and remark that he "supposed that when a carriage had arrived off a Stony Lake island it would be a case of 'Rock-a-Bye Baby.'" After his auditors had dropped him silently into the Lake, a solemn hushness once more reigned supreme.

Eko Camp at McCracken's.

The following members of Eko Camp went up to McCracken's landing on Saturday, where they will be joined at a later date by a number of others.—Messrs. Jack Gemmell, Manson Comstock, Terret Glover, E. M. Best and Jack Watt. The members of the Club are this year located in a comfortable and commodious tent situated at the point which they occupied some years ago. Owing to the recent sensational "bull-movement" in wheat, the club has decided that a field of this variety of grain is too great a luxury for camping purposes, and have therefore decided to remain content with cornering the fish-market.

Mr. R. H. Bradburn's gasoline launch is this year being utilized by the club, for cruising and transportation purposes and is proving a great convenience and adding greatly to the pleasure of the Camp.

Sunday Services.

The Sunday services at the pavilion yesterday were largely attended. The morning service was conducted by Rev. Mr. Clokey, of Braddock, Pa., who preached an able and eloquent sermon from the text, Luke xi, 13. Mr. Harold Goldey sang with beautiful effect, a vocal solo, "Somewhere." Song service was held in the evening.

Personal Notes.

Mr. H. Le Brun went up to his cottage, "Bellechasse," on Saturday evening.

Mr. and Mrs. John Crane went up to their cottage, "Glad-Hal-Ken," on Saturday.

Mr. J. H. Connell spent Sunday at Stony Lake.

Mr. and Mrs. John Nugent went up to their cottage, Little Otter Island, Saturday night.

Mrs. Olea and Mrs. Brodigan are guests of Mr. John Nugent, Stony Lake.

Mr. Wilson Cameron spent Sunday at Stony Lake.

Mr. K. G. Lesh went up to his cottage, Stony Lake, on Saturday.

Messrs. E. S. Clerry and W. T. Hall were guests at the Victoria House over Sunday.

Mr. Ross Cameron spent Sunday as the guest of Mr. W. H. Meldrum, Stony Lake.

Miss B. Costello and Messrs. B. Young, of Peterborough, and Dr. Gibson, of Lakefield, spent Sunday at Acorn Camp, Juniper Island.

Mr. A. W. McPherson is a guest at "Headlands," of Mr. Wm. Irwin.

Mr. Branchette spent Sunday at the lakes.

Mr. Alfred Cox, of Toronto, is a guest at Kilkenny.

Mrs. Trebilcock, of Toronto, is a guest at Glenwood.

Misses Eva and Alta Bradd are guests of Miss Ruby Eakins, at Stony Lake.

Miss Isabel Hay is a guest at Sheriff Hall's cottage, Stony Lake.

Miss Allison Hamilton is the guest of Miss Marlie Hall, at Stony Lake.

Miss Vieve Hanter is a guest of Hon. J. R. and Mrs. Stratton at Strathormond-on-the-Lake.

Mr. F. D. Kerr spent Sunday a guest of Hon. J. R. and Mrs. Stratton at Strathormond-on-the-Lake.

Miss Edna Stanger and Miss Miller are guests at Mr. F. S. Schneider's cottage, Stony Lake.

Mr. David Carlyle spent Sunday at Mr. Cooly's cottage.

Mr. W. H. Meldrum went up to Stony Lake on Saturday.

Mr. W. G. Ferguson spent Sunday at his cottage.

Mr. Wm. Jones, of Toronto, went up to his cottage, Eagle Mount, on Saturday.

Mr. C. M. Roger came up to his cottage, Juniper Island, on Saturday.

Mr. E. H. D. Hall spent Sunday a guest of Mr. Alexander.

Mr. T. A. Mulhern is spending a few days at Burleigh.

Mrs. B. Herbert and Miss Herbert, of Rochester, are the guests of Miss Laura Macfarlane, Lovesick, for a week.

Mr. Arthur Mann returned home on Saturday, after spending a two weeks' vacation at Mr. Shortly's cottage.

Rev. J. A. Wilson has returned to his home in Hamilton after a week's stay at the lakes.

Sheriff Paxton, of Whitby, returned home to-day after a three weeks' stay at "Rayburn."

Messrs. Harry Macdonald, of the Toronto World, and Dr. Chas. Gewelter, of Fergus, are camping at McCracken's Landing.

Messrs. Horace Walker and Hefus Sawers spent Sunday as guests of Mr. W. H. Meldrum.

Mr. W. Harold Claxton spent Sunday at the Victoria House.

Mr. V. H. Edwards, of the Ontario Bank staff, his brother, Mr. E. S. Edwards, and Mr. C. F. Foster, of Toronto, spent Sunday as guests at the Victoria House.

Messrs. W. L. Bravender and F. H. Kilbourn, of Lakefield, spent Sunday at the Victoria House.

Messrs. W. S. Davidson, of Peterborough, and R. J. Dewar, of Toronto, were guests of the Victoria House over Sunday.

Messrs. Willis Garrow, Louis A. Potvin and W. J. O'Brien are guests at the Victoria House.

On Monday, Tuesday and Wednesday Nights of this week, Special Car will not run round trip after seven o'clock.

FIRE DESTROYS P. J. SCOLLARD'S SHEDS AND STABLES IN ENNISMORE

A fire occurred at Ennismore on Sunday morning about four o'clock which destroyed the sheds and stables of Mr. P. J. Scollard, at the Cross. During the heavy thunder storm on Sunday morning Mr. Scollard's buildings were struck by lightning, and in a few minutes, were in flames. The church bell was rung and a bucket brigade was formed, but their efforts were devoted largely to saving the house and store, the outbuildings being too far gone to save.

No definite information is available as to the extent of the loss, but it is understood that the sheds and stables, with the greater part of the contents are destroyed, and that there was no insurance.

Fortunately the dwelling and store were saved.

A NARROW ESCAPE FROM DROWNING AT "GLENWOOD"

Three young ladies and a would-be rescuer yesterday at "Glenwood" Stony Lake had a very narrow escape from drowning. The young ladies went in bathing, and on account of the boom being broken, they got in beyond their depth and disappeared from view. A young man who was near and saw the danger in which they were, swam out to their assistance, but he was unable to do anything, for as soon as he reached them they pulled him under the water with them before he could bring them to safety.

The whole quartette were in danger of being drowned, when another rescuer went to their help, and brought them ashore. They were completely exhausted, and spent the rest of the day in bed recovering from the shock.

Mrs. Sharpe

281 George Street, corner of King, opposite J. J. Turner & Sons.

THE Oxford Hot Water Boiler takes advantage of every known scientific point which will increase the generation and distribution of heat.

We have increased its power enormously by making the walls of the fire pot slant towards above the fire. This gives a greater surface for the direct action of the rays of heat.

Oxford Hot Water Boiler

The fast water section over the fire is double depth, with half-shaped flues, which also increases the surface directly displayed to the action of the heat.

These are but two of the exclusive points which make the Oxford Hot Water Boiler the most economical and most efficient home-warming apparatus on the market. If you will drop us a post card, we will send you our catalogue, which explains the whole system.

STILL A TIE FOR THE LEAGUE LEADERSHIP

Although the Local Team Lost to Port Hope on Saturday by 3-2—A Close Game Which Was Won by Port Hope in the Last Half of the Ninth—Quinlan Pitched Good Ball and With a Few Good Hitters Would Have Won the Game—Bowmanville Lost Too, So That the Standing Still Remains the Same.

Peterborough's baseball team is still leading the Midland League. Tied with the Bowmanville team although on Saturday the game between the local nine and Port Hope was won by the latter. It was, one of the most closely contested games recorded in the Midland League this season, and it looked one time as if the Peterboroughs were going to win out.

In the first innings the Port Hope team got two runs over the plate and for the next seven innings it was a series of short outs, Quinlan pitching great ball, and a number of the heavy-hitting Port Hopers fanning the air, ten in all, including Andrus, the best batter on the Port Hope team. The game really belonged to the visiting team, for they played, on the whole, better ball, but in the last half of the 9th, with the score two all, the first three men up got on bases on a hit and two errors, and, with the bases full, Rattray dropped Blood's third strike, and the winning run came in making the score 3-2.

It was a hard game to lose, and, with the regular team on, there is little doubt that a victory would have been recorded for the visiting team. But it is useless to speculate upon what might have been. The fact remains that the visiting team lost, and the circumstances which entered into the defeat, do not count on the league standing.

Port Hope's "skin diamond" was the scene of the conflict, which, was witnessed by a packed grand stand, who cheered lustily for the winners.

The features of the game were Quinlan's pitching, and a running one-hand catch of a fly by Thompson, the diminutive left fielder of the Port Hope team. Surphlis also pitched good ball and was not hit at all freely by the visiting team. With a little more batting the game would have been won. In the first innings the home team scored twice on two hits and an error, but after that innings Quinlan settled down and the Port Hope team had considerable difficulty in connecting with his shoots. He only passed two more and hit one.

The Game.

In the first the visitors were easy outs. Sheridan flew to short and Green and Shea struck out. In their half Port Hope were lucky and started out strong looking like easy winners. Andrus singled, Thompson drove out, a two bagger, Watters got first on Callaghan's error and Andrus scored. Henderson drove out to second and Thompson scored on a fielder's choice. The next three were out. Blood fanning, Brown to his grounder to Quinlan, and Boney the same to Shea.

In the second, Thompson's great running catch of Douglas' fly robbed him of a hit. Connors fanned the air and Rattray, after he had hit safely to right field, was caught stealing 2nd. Port Hope tried hard to score in this innings. After two men, Pethick and Surphlis had struck out. Andrus got four balls. Thompson beat out his grounder to Shea and Watters hit to right field, but Ollie, by a nice throw to the plate, caught Andrus coming home. Callaghan and Quinlan struck out in the third and Ollie flew out to centre field. In the second half Henderson and Blood also fell victims to Quinlan's shoots and Brown was out on his grounder to Callaghan.

In the fourth Sheridan, Green and Shea were out on infield flies. After Boney had hit the ball for three bases, Surphlis and Andrus fanned and Thompson grounded to Shea.

The fifth was the lucky one for the visitors and one run was scored. Douglas got to second base on a hit and an error by Brown. Connors flew to Surphlis. Rattray batted a fly to centre, but a chance to double was lost by Henderson dropping the ball, and Shea, who ran for Douglas, scored. Callaghan fanned and Rattray was out stealing second.

Sheridan took care of Watters' fly in the last half. Henderson got first on Callaghan's error. Blood sacrificed, but Brown grounded to Quinlan.

The visitors scored again in the sixth. Pethick robbed Ollie of a hit, and the runner got first base and was advanced on Quinlan's hit. Sheridan hit safely, but Ollie was caught at third. Green fanned, but Shea's hit scored Quinlan. Douglas retired the side by fanning.

Three strike outs were credited to Quinlan in their half, Boney, Pethick and Surphlis being the victims. Things looked good for a score in the seventh, but it was not to be. Connors fanned, Rattray got first on Pethick's error, Callaghan popped up an infield fly, which no one got, Ollie grounded to two under Frainor hit safely along third, stole second and went to third on a pass. Fitzpatrick hit safely to short, Frainor scoring; Pilling fanned.

In the second Patterson was loaded on rather heavily. Dusty hit a beauty to deep centre. Campbell fanned, and Adamson hit safely to short. Gordon immortalized himself by his drive over the sawdust heap in left garden, which was good for the circuit, sending in Adamson ahead of him. O'Brien was safe on his grounder to pitcher, but Lafabre was out on his fly to third, and O'Brien was caught running at the same time.

There was something more doing in the third. Derocher made a pretty catch of Trainor's fly. Fitzpatrick reached first on an error. Pilling hit for two sacks, and completed the circuit on a high throw in to the plate. Dusty and Campbell were out on grounders.

More tallies were registered in the fourth. Adamson hit safely to second, Gordon hit through short for two, and O'Brien doubled to right, sending in two runs. Lafabre hit a grasser to pitcher, who played it to the plate, cutting off a run. O'Brien was caught off second. Trainor singled to centre and Fitz beat out a phoney hit. Pilling fouled out, and Trainor trotted in on a pass. Dust went out second toy first.

There was still more run-getting in the fifth. Campbell was given a hit; Adamson hit to Dobson, who played it to second, getting Campbell. McDonald could not handle Gordon's hot grounder, and O'Brien grounded out to first, Adamson crossing the pan. Lafabre was safe on Patterson's fumble of his grounder, but was caught on Trainor's grounder to second.

There was nothing do again until the eighth. Heasip got tied up over Lafabre's grasser; Trainor followed with a hit over first, and Fitzpatrick doubled to centre, scoring Lafabre and Trainor. Filling was hit that was pinched at second on Dusty's grounder. Campbell's grounder to pitcher was played to home, cutting off Fitz. Adamson's grounder to short was fatal for Campbell at second.

The Guild men were shut out from the fourth, and the Owls were out, with no innings to spare.

The following is the line-up of the teams:—

Night Owls:—O'Brien lb; Lafabre 2b; Trainor ss; Fitzpatrick cf; Pilling p; Dusty ss; Campbell rf; Adamson 2b; Gordon lf.

Guild Team:—Laug c; Thornton cf; Heaslip 3b; Dobson ss; McDonald 2b; Patterson p; Derocher rf; Cameron lf.

Umpire—Earls.

PETERBOROUGHS AGAIN DEFEATED

In a Good Game on Saturday in Campbellford

The Game was Always Close and Clean, But Bigger Team Won—Score 4—0.

The Young Peterboroughs journeyed Campbellford on Saturday to play the lacrosse team in that place. The visitors were up against a hard proposition, but gave the home bunch a game for their life. McCoy at second defence put up a star game and his work received plenty of applause.

The Campbellford lads are a husky bunch ranging in years from 18 or 19 up, while the visitors are all under that age. There are four of their team playing with Havelock in their game with the Young Torontos this afternoon. But the difference in ages did not prevent a good clean game.

The visitors were well pleased with the treatment they received. All the articles of the agreement were kept to the letter, which some of the teams with which games have been arranged, have failed to do, and a good clean game was played.

The following was the line-up of the two teams:—

Campbellford.		Peterborough.
Lowery	Goal.	Gorman
Glassie	Point.	Doris
Mitchell	Cover-Point.	W. A Donovan
Tait	First Defence.	Devlin
Shannon	Second Defence.	W. McCoy
Shea	Third Defence.	Fennie
Gorsky	Centre.	Clark
Bittle	Third Home.	G. Donovan
Doxie	Second Home.	Judge
Rowe	First Home.	Saunders
Reed	Outside Home.	Tucker
Peeling	Inside Home.	Lynch

LACROSSE.

On Wednesday the first game in the semi-finals for the junior championship of the C. L. A. will be played here between the local team and Midland. The latter team is said to be a pretty fast aggregation, and the prospects are that the game will be warmly contested. The Midland team won its district without having to play a game the other teams defaulting to them, so that the prospects for a fast game are good.

It will be played at the Riverside Park, and the return game probably a week from to-day at Midland.

Unemployed March.

Two of the organizers of the proposed march of Manchester unemployed on London, Messrs. Shivington and Smith, have been making speeches of an unusual character. Shivington advised those who were householders to make their wives and children chargeable to the union while they were on the march. The men, he continued, must have sustenance while on the march, and they get it. Prisoners were treated better than the unemployed, it was said, and if that were so, the sooner the unemployed became criminals the sooner they would be looked after.

At Oke's.

We are retailing fine raspberries, blackberries, and plums. Would advise early buying, especially of cherries, as they will soon be done. A. OKE, 376 George street. Telephone 36.

THE NIGHT OWLS AGAIN VICTORIOUS

Defeated Picked Guild Team by Score of 12-9.

Play was Interesting, But the Crowd Present was Small—Side Show Features.

On Saturday the undefeated Night Owls added another to their string of victories, when they took the scalps of a picked team from the article of ball put up was good, in spots, but some of the players had several errors placed to their credit.

Both pitchers were touched up rather freely at times, and their support could be improved on. Heasip was at the third corner, and put up a good fielding game. Derocher also figured on the line-up of the Leaguers; he took good care of right garden.

The game was interesting, and several side attractions, outside the game, furnished amusement for the spectators. The features of the game were Lang's steady work behind the bat, Gordon's home drive, and Cameron's perfect throw to the plate.

The Churchmen went to bat first. Lang got a life and stole second and third. Thornton fanned and Lang scored on a pass. Dunsford singled to left, Heaslip sacrificed, and Dobson fanned.

Another tally was registered for the Leaguers in the third. Cameron was out on his dump in front of the plate. Adamson tumbled Lang's grasser, and also dropped Thornton's pop fly, Lang bringing up at third. Lang crossing the pan on the play. Heaslip struck out.

In the fourth the air-ship sailed, and the Owls went on a short excursion. When they came down again no less than six tallies had been piled up. Dobson started the trouble with a single. McDonald beat out his phony hit, but Patterson grounded out. Derocher was hit, and the "To Let" signs were taken down from all the bases. "Mike" Cameron beat out his little bunt, scoring Dobson. Lang hit safe to short, and two more runs were registered on errors. Pilling bamboozled Thornton's grounder, and two more runs were chalked up. Dunsford's grounder to short was fatal. Heaslip again failed to connect safely.

For the Night Owls, the run-getting commenced at the first. With

MILNE HAMILTON AGAIN WINNER

Took Mr. R. M. Dennistoun's Flag on Saturday.

A Close Finish—Three Boats Crossed the Line Inside of One Minute.

A rather exciting sailing race took place on Saturday afternoon at Chemong Lake, for Mr. R. M. Dennistoun's flag. On account of the storm of Saturday afternoon the race did not take place until late in the afternoon. One of the buoys was washed away in the storm and the course was arranged so that from Pope's cottage of the southern end of the bridge and return three times, the length being six miles. The finish was extremely close, the 3 boats crossing the line inside of a minute of each other. Mr. Milne Hamilton won the race, finishing 30 seconds ahead of Mr. Hopwood, and Mr. Dennistoun came in 30 seconds later. Mr. Hollingshead's boat was distressed.

These weekly races are creating considerable interest at Chemong, and the whole summer population was out to see the finish.

Mr. Hollingshead met with an accident with his boat on Saturday. The mast went through the bottom of the boat, and as a result he will have a new and larger mast installed, and will make an attempt to win one of the races in the regatta on the 22nd.

Stomach and Liver Troubles.

Mr. Alex. M. Finn, Inkerman, B.B., writes: "I have used Dr. Chase's Kidney-Liver Pills for derangements of the kidneys and liver and stomach troubles, and can certify that they did me a good deal of good. I can heartily recommend them to anyone suffering as I did."

Chamberlain's
COLIC, CHOLERA AND Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

PRICE, 35 CENTS.

GAS WRECKS TWO STORES

Acetylene Explosion Injures Many People At Caledonia.

FOUR SEVERELY INJURED

Explosion Was Heard Five Miles Away, and Blew Out the Fronts of the Bakery of A. E. Jones and the Jewellery Store of George E. Culp —Rescue Volunteers Took 22 People Out of the Ruins.

Caledonia, Aug. 7.—About 9 o'clock Saturday evening the village was startled by a heavy explosion on Main-street, which, it is said, was heard plainly at York, some five miles away.

The explosion was in the bakery of A. E. Jones, and the entire front of the building, also that of George E. Culps' jewellery store, immediately joining, was blown into the street. The local agency of the Bell Telephone Co. was located with the former shop, and it was known that a large number of people had been within at the time of the explosion, and it was feared much loss of life had resulted. Contrary to the usual occurrence no fire followed.

The work of rescuing those within the wrecked buildings had to be done in darkness or by lanterns. Twenty-two people were taken out in an incredibly short time by ready volunteers, assisted by members of the fire brigade.

Some Who May Die.

Nearly all the injured required immediate medical aid, and several are so severely injured that at present their recovery is doubtful. The most severely injured are:

A. E. Jones, proprietor of bakery.
George Murray, Caledonia.
Gerard Delacherois, surveyor, Toronto.
Thomas Draper, clerk in bakery.

The remainder escaped with sprains, bruises from falling debris, and cuts from flying glass.

Delacherois was taken to Hamilton Hospital.

The remainder are being taken care of in their homes by local doctors.

Both stores are completely wrecked, and will have to be torn down.

The cause of the explosion will probably never be accurately known, but it is supposed to have been caused by a leak in the piping from an acetylene gas machine in the cellar, the gas being ignited from the cellar jet on the bake oven.

LEVEL CROSSING ACCIDENT.

Miss Ida Prong of Breslau Was Instantly Killed.

Breslau, Aug. 7.—A terrible accident, due to the local railway crossing, happened at Breslau about 4 o'clock yesterday afternoon, resulting in one death and the miraculous escape of two others.

Albert Berner, with Miss Ida Prong and Miss Annie Gole, was out driving, and was approaching the G. T. R. tracks at Breslau when the horse was frightened by a freight train. It became unmanageable and dashed into the side of the train, which was going over the crossing at the time.

Miss Prong was thrown out and instantly killed. Miss Gole fortunately escaped with only a deep cut on the head and with her shoulder very badly bruised, while Berner luckily escaped without a scratch.

The horse was killed and the buggy was smashed to atoms.

Miss Prong, who was 18 years of age, was the daughter of Henry Prong, who lives about two miles south of this place.

Killed On the Track.

Sault. Ste. Marie, Aug. 7.—A train struck Guiseppi Joccal, aged 28, single, an employe of the Algoma Steel Co., and killed him almost instantly. He was standing on the track and saw the train coming, but did not move.

Car Conductor Hurt.

Port Arthur, Aug. 7.—J. Carruthers, a street car conductor, was badly injured yesterday. He fell off a car while it was in motion and struck his head on the rocks.

Deadly Insecure Scaffolding.

Toronto, Aug. 7.—An insecure scaffolding caused the death of William A. Harvey, son of the late John H. Harvey at Naskay on Friday afternoon. He is a farmer and was working in the barn when the accident occurred.

Hurt In Collision, May Die.

Chatham, Aug. 7.—Shortly after 11 o'clock Saturday afternoon W. H. Kelly, employed at Wm. Gray & Sons Co., was wheeling home and was riding fast in order to escape a thunderstorm when he collided with a Dominion express wagon coming from the opposite direction. He was thrown from his wheel and his head struck violently against the pavement, rendering him unconscious. He is still unconscious.

Two Drownings at Port Carling.

Port Carling, Aug. 7.—E. T. Hayes, 25 years of age, whose home is near Beeton, was drowned in the Indian River here Saturday afternoon. He and a friend went in bathing just opposite R. T. Harris' residence, where he was staying. He swam a short distance along the bank of the river when he sank before his friend could reach him. The body was recovered in about 20 minutes.

A sailboat near Hammill's Point with a Mr. Morrey, his wife and four others was upset and Morrey was drowned. The body has not so far been recovered.

Lost Balance and Drowns.

Detroit, Aug. 7.—George Hemmel, a well-known fisherman, living back of Petite Cote, on the Canadian side of the Detroit River, was drowned in the American channel Saturday during the storm. Hemmel, while standing in the boat, lost his balance and fell overboard and sank from sight.

Takes Cramps and Drowns.

Woodstock, Aug. 7.—W. C. Stewart, aged 18 years, whose home is in Ottawa, was drowned in the Thames River, a couple of miles east of here, yesterday afternoon. He went in bathing at a spot in the river where the water is about twenty feet deep, and was taken with cramps and sank before aid could reach him.

Two Boys Drowned.

Pembroke, Aug. 7.—Two boys, aged 6 and 8 years, sons of Ernest Schmidt, contractor, were drowned in the Muskrat River yesterday afternoon. They were playing on a raft and slipped into the water. The bodies were recovered afterwards.

Car Falls Thirty Feet.

Port Hope, Aug. 7.—About 5 o'clock yesterday morning a serious accident occurred on the Grand Trunk Railway a few rods east of the station when a freight train, eastbound, left the track, allowing one car to pitch over the viaduct, a distance of over thirty feet and scattering its contents over the road below. The cause of the accident was a broken cross beam on one of the cars near the engine. No one was hurt.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

ROYAL HENLEY REGATTA.

Course At Port Dalhousie Marked By Rough Water on Saturday.

St. Catharines, Aug. 7.—In rougher water than it was thought the Royal Canadian Henley course at Port Dalhousie could ever be guilty of some grand rowing marked Saturday, the closing day of the big regatta. There was an immense crowd in attendance. The grand stand was filled, and from all points of vantage along the course the contests were witnessed by cheering spectators. The summary:

Senior singles—McGee of Toronto first, Feussell of New York second, Dufield of Detroit third. Time 8.15.

The finish of the first race between McGee of Toronto and Feussell of New York and Dufield of Detroit was very exciting. McGee won by a yard.

Junior fours—Ottawa first, Rat Portage second, Argonauts third. Time 7 minutes 23 seconds.

Intermediate doubles—Toronto first by two lengths, Argonauts second, Pennsylvania Barge Club third. Time 7.37 1-5.

Intermediate singles—Coulson of Hamilton first, Frech of Philadelphia second, Sprink of Toronto third. Time 8.49½.

Intermediate fours—Winnipeg first, Ottawa second, Won by one length. Time 7.21.

Senior eights—Argonauts first, Detroit second. Time 6.48½.

Junior Eights—Argos No 1 (Jackes str.) first, Argos No. 2 (Dixon str.) second, Dons of Toronto third, Detroit fourth. Time 6.51.

The junior eights beat the record by 25 seconds.

Senior fours—Winnipeg first, Argonauts second. Time 7.34 1-5.

Senior doubles—The Argonauts defaulted to the Torontos—McGee and McGrath.

New York Has Yellow Fever Death.

New York, Aug. 7.—One man died of yellow fever at New York's detention hospital at quarantine yesterday, making the third case of yellow fever discovered on ships entering New York this summer and the second death.

New Orleans, Aug. 7.—The fever report yesterday is encouraging, there were only two new subfoci, one uptown and one downtown. It is estimated that there are ow 233 cases under treatment.

Veteran Publisher Dies.

Port Hope, Aug. 7.—George Wilson, publisher of The Port Hope Guide, passaway Saturday evening after several weeks' illness.

THE REAL QUESTION.

? The real question of disease is "Can I be cured?" If you or anyone dear to you is losing strength, flesh, energy and vitality, if you are wise you will not spend time trying to figure out just what name to call the disease by.

It is almost impossible to draw the line where debility and weakness merge into consumption. Your trouble may not be consumption to-day, but you don't know what it *may become* to-morrow. Hundreds of people have been restored to robust health by Dr. Pierce's marvelous "Golden Medical Discovery" after reputable physicians had pronounced them consumptive beyond hope.

Were they in consumption? Nobody can ever know.

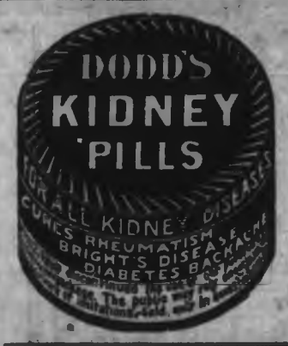
The important point is that they were hopelessly ill but this matchless "Discovery" restored and saved them.

"I was not able to do hardly any work at all," says Mrs. Jennie Dingman, of Vanburen, Hancock Co., Mich., "in a most interesting letter to Dr. Pierce. "I had pain in my left side and back, and had headache all the time. I tried your medicine and it helped me. Last spring I had a bad cough; I got so bad I had to be in bed all the time.

"My husband thought I had consumption. He wanted me to get a doctor, but I told him if it was consumption they could not help me. We thought we would try Dr. Pierce's Golden Medical Discovery and before I had taken one bottle the cough was stopped, and I have had no more of it returning. Your medicine is the best I have taken."

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain sealed envelope, absolutely free. His nearly 40 years experience as chief consulting physician of the Invalids' Hotel, at Buffalo, N. Y., has made him an expert in chronic diseases.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.



MANY LICENSES ARE ILLEGAL

Decision of Mr. Justice Duff o British Columbia.

DISCOVERY THAT STARTLES

Millions of Business Will Be Thrown Into Much Inconvenience—Provincial Fisheries Act Has Never Been Proclaimed, Although It Has Been Acted Upon For Years—What the Legal Experts Say.

Victoria, B. C., Aug. 7.—Incidental to an innocent injunction motion in the civil suit of the Capital City Packing Company vs. the Anglo-British Columbia Packing Company, argued before Justice Duff Saturday, the astounding fact became evident that not only are all the salmon trap licenses and leases held on Vancouver Island scarce worth the paper they are written upon, but all land, timber, fishery and other leases issued by the lands department here since 1899 are equally invalid and defective.

Both companies in the suit hold provincial leases for salmon traps at the same location in Renfrew district. The plaintiffs, as first lessees, claimed priority and exclusive rights in the site and fish taken, and are seeking to compel the removal of their rival canneries, traps, etc., also an accounting and payment for fish taken. The desired injunction was to prevent further fishing pending determination of the suit. It was refused.

Startling Discovery.

Justice Duff discovered that regulation of fishery interests could only be claimed by the British Columbia Government under the Provincial Fisheries Act. It contains explicit provision that it shall not be effective unless brought into force by proclamation of the Governor-in-Council. This has been overlooked; yet leases have been issued, fees and royalties collected and regulations enforced. The foreshore lease, however, has been issued under section 21 of the Land Act, by the chief commissioner of lands and works.

He holds they only convey such fishing rights "as may be vested in the Province," without asserting such rights in detail. But, by an amendment of the law, under the Joseph Martin regime, the right to execute such leases—or any under the Land Act—was removed from the individual Minister and vested in the Governor-in-Council, not to be binding or of value under the seal of the Province.

All Valueless.

This amendment has been ignored, and the chief commissioner has gone on issuing land, timber and other leases, aggregating many, many millions in value, and in which leading capitalists in all parts of Canada, America and Europe are concerned. Legal experts declare these leases are valueless, and unless a special session of the Legislature is convened, and the existent leases ratified by enactment, chaotic confusion and business panic throughout British Columbia would seem inevitable.

STRANGERS ROB JEWELLER.

J. S. Smith's Store at St. Catharines Minus $1,650 Worth of Diamonds.

St. Catharines, Aug. 7.—The most daring daylight robbery ever committed in this part of the country took place here Saturday afternoon, and the robbers got away with $1,650 worth of diamond rings. There is no clue to the present whereabouts of the robbers.

About 2 o'clock in the afternoon, while J. S. Smith, the proprietor, was at lunch, and two clerks and an apprentice were left in charge of his jewellery store, two strangers sauntered in, one asked the girl to show him some clocks. The other asked the other clerk to see some cut glass.

Both clerks declare that they kept both customers well in touch while they were in the store, yet when Mr. Smith came back he discovered that a tray of fifty-six diamond rings, worth about $1,650 wholesale, was gone. The tray of rings had been taken out of the show case. This was not a hard thing to do, as it only required reaching over and opening the door at the back.

A general alarm has been sent out.

R. W. Barker Dead.

Toronto, Aug. 7.—Mr. Robert W. Barker, secretary St. George's Society, and late postoffice inspector at Kingston, London and Toronto, died at his home, 227 St. George street, at 7.05 Sunday morning. He was in his 67th year. His father established in Kingston in 1833 the British Whig, from which he retired in 1875.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the Northwest Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

MASQUERADE BALL

ON SATURDAY AT JUNIPER

A PRONOUNCED SUCCESS

Most Interesting Social Event at the Lake This Season Was That Which Took Place on Saturday Night—A List of the Dancers in Costume—Many Beautiful and Elaborate Creations—The Introduction of the Pianola—A Delightful Social Function at Juniper Pavilion.

The Masquerade Ball, an event in which great interest has centred in social circles on the Lake during the past week, took place on Saturday evening at the Juniper Island Pavilion, and was an unqualified success. The magnificent results attending the efforts of the committee, who worked so energetically on behalf of the affair, surpassed even their greatest expectations.

Specially worthy of thanks for their lively interest and untiring efforts in this respect, were Hon. Lawrence Graham and Mr. "Jim" Eakins, both of whom have throughout the season won a well-merited appreciation for their continued interest in the charming social functions which have marked the summer season. Saturday's dance was without doubt the most successful affair of the kind in the history of the Lake.

General admiration was evoked by the charming nature of the costumes, many of which were most elaborate and beautiful creations; many were also unique in design, and evidenced a wealth of originality in conception, lending for this reason, an added charm. The ensemble effect, as the dancers glided round, of the varied and contrasting hues of the costumes, was very beautiful indeed, and formed in itself a pleasure which many who did not participate enjoyed greatly.

A feature of the evening was the introduction of the Pianola, which did excellent service in supplying the music. This was throughout of a charming character. A number of those present kindly lent their assistance with the essential part of the evening's pleasure, among whom were Miss Ada McBain, Mr. Harvey H. Sheppard, and Mr. Rupert Donell.

A number of selections by Mr. Bates' Gramophone were much appreciated.

A pleasant feature of the dance was the bake walk, the prize for which was most meritoriously carried off by the Misses Graham.

The winners of the second prize were Messrs. B. H. Shepherd and Geo. Pope.

Among those in costume were:
F. D. Kerr, Maine farmer.
W. S. Shaw, river driver.
Miss B. Clementi, Greek girl.
Miss White, Jap.
Miss Ada White, Night.
Miss Vivian White, Jap.
Mr. Charles White, Chef.
Mr. L. H. Graham, Highland chief.
Mrs. L. H. Graham, Canada.
Mr. Gordon H. Graham, Sunny Jim.
Miss Marjorie Graham, Dolly Varden.
Miss Elsie Graham, Jap.
De Lisle Scrieber, Scout.
Mrs. Atwood Martin, Jap.
Miss Marjorie Scrieber, Sultana.
Miss Ada McBain, Martha Washington.
Mr. Horace Rook, Cowboy.
M. Athens, Red Riding Hood.
Miss Marion Schreiber, Red Riding Hood.
Miss O. Schreiber, Trapper.
Miss Koch, Shepherd Girl.
Miss M. McIlraith, Study in scarlet
Miss Rice, Wood Nymph.
Mr. B. W. Rice, Spanish toreador.
Mr. S. E. Miller, Chinaman.
Miss E. Shaw, Geisha girl.
Miss Jane Hazle, Geisha girl.
Mr. S. Crocker, Chinaman.
Mr. C. Jackson, Chinaman.
Mr. Bogue, Chinaman.
Miss Hazel Hinatman, Geisha girl.
Miss Tedsicock, Geisha girl.
Miss Riddock, Geisha girl.
Miss Hamlin, Geisha girl.
Mr. F. W. Cox, Chinaman.
Miss S. Robinson, Maple Leaf Forever.
Miss A. Robinson, Mademoiselle Popcorn.
Miss Cook, Violets.
Miss Ethel Kidney, Colonial girl.
Mr. Acton, Batter.
Mr. Follet, sailor.
Mr. H. A. Withers, Swell Darkey.
Mr. Graham Ferguson, Student.

JACKSON PARK ALL THIS WEEK!
New Sets of Moving Pictures and 57th Regiment Band each evening, at the Park.

STREET RAILWAY NOTICE.
On Monday, Tuesday and Wednesday Nights of this week, Special Car will not run round trip after seven o'clock.

Second Bowler Personally Conducted Excursion.

District Passenger Agent McDonald, of the Grand Trunk Railway, has received from Mr. Bowler, at San Francisco, a letter in which he states that he has the happiest party he has ever travelled with, and that they are having a delightful trip, and that the dining car service, which is being operated by the Grand Trunk, has given great satisfaction.

The second party is now being formed, and will leave Toronto, August 29th. Rate of $150.00 covers round trip ticket, berth in sleeper, meals in dining car, and lodging at hotels in Los Angeles, San Francisco, and Portland, Oregon, a number of side trips, etc. Send for itinerary, which may be obtained from principal Grand Trunk agents, or by addressing E. C. Bowler, Room 308, Union Station, Toronto. 10d27

Husband's Ashes in a Jar.

With the remains of her husband in a jar on her arm, Mrs. Harley Denney this afternoon went into the office of the Wilmington Board of Health and asked for a burial permit. She coolly stated that a grave was ready, and the burial was to take place at 4 o'clock. Denney died in California last March and his body was cremated. The ashes were placed in a jar, and when the widow returned to this city she brought them in her trunk. This was contrary to law, as she had no permit to bring the body from California and no certificate attesting the cause of death. The Board refused the permit.

CITY NEWS OF TO-DAY

—The roof of the Protestant Home is being re-shingled.

—Quaker Bitters, the Great Blood Purifier, at Ormond & Walsh, Druggists. 15eod

—Show Case for sale cheap. Apply at the Framery, 2 doors west of post office.

—The steam road roller is doing some good work in the vicinity of St. Andrew's church.

—Mr. John Corkery, deputy postmaster has broken ground for a residence on Gilmour street.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonnel street. 'Phone 199.

—We clean, press and do minor repairs to your wardrobe for a trifling fee. Telephone 576, and we will send for and deliver your parcels. "My Valet," George street.

—Mrs. John Doherty is rebuilding her residence, Rubidge street, and converting it into a double dwelling. This house is one of the few remaining of the first buildings, being considerably over fifty years of age.

—Hello there! I suppose you are going to go with the C.G.E. Angling Club on their fourth annual excursion to Jubilee Point on Saturday, August 19th, by the steamer City of Peterborough. The jolly fishermen always give you a good time. Read their bills for particulars.

—The fittings now in use in the Peterborough post office, including pigeon holes and office fixtures, are being replaced next week. These fittings will be sold cheap, or in any quantity. Any one desirous of having a nice set of pigeon holes can be suited. Apply to D. Bellegham, contractor. 3d

—Ten thousand two hundred and forty acres of free grant land were homesteaded in the Winnipeg district during the month of July. The total number of entries at the Winnipeg land office was 94, each for 160 acres. Most of the land entered for is in the district between Lakes Winnipeg and Manitoba.

—A water picnic and float will be held at Hiawatha on Friday, August 11th. Gentlemen wishing to take part in the float are requested to secure a boat before arrival. Ladies are kindly requested to bring refreshments. The meeting will take place at the wharf at 2.30 o'clock p. m., sharp. Special prizes will be given by Hon. J. R. Stratton and Mr. R. R. Hall, M.P., for the best decorated boat and the best dressed lady. A programme of boat races has been arranged.

ANOTHER GERM DESTROYER

Herpicide is Death to Dandruff Germs.

The germ burrows into the scalp, throwing up the cuticle in thin scales, called dandruff, or scurf, and digging at the root of the hair, where it saps the hair's vitality. First comes brittle hair, then lustreless and dead-like hair, then falling hair, and, finally, baldness. Nine-tenths of the hair troubles are caused by dandruff. Without dandruff, hair will grow luxuriantly, as nature intended. "Herpicide" kills the dandruff germ, leaving the hair to grow unhampered, as it does with the American red man. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents.

JACKSON PARK ALL THIS WEEK!
New Sets of Moving Pictures and 57th Regiment Band each Evening, at the Park.

STREET RAILWAY NOTICE.
On Monday, Tuesday and Wednesday Nights of this week, Special Car will not run round trip after seven o'clock.

Lightning's Freak.

During a thunderstorm yesterday afternoon in New York lightning performed a peculiar freak. Louis Debiasto was sitting under his piazza in Valley street counting out his money preparatory to a trip to Italy. A flash of lightning nearly blinded him, and when he recovered his sight he found the lightning had struck the pocketbook and burned up the money, and yet Debiasto's hands were not even scorched. There was about $300 in the pocketbook, representing many years' savings. Debiasto was dazed for several hours.

Ho! For Niagara.

This is your trip on Civic Holiday, Monday, August 14th, under the successful management of Court Littlejohn, C.O.F. Excursion runs to Toronto via special G.T.R., then across Lake Ontario to Niagara Falls by the Niagara Navigation Company's magnificent lake steamers and the Niagara Falls Park and River Railway over the weird "Whirlpool Route." Return tickets $2.05 to Toronto; $2.20 to Niagara Falls. Toronto tickets good for two days; Niagara Falls tickets good for three days. Tickets on sale at W. Hunton's and from members of committee. Year by year this trip grows increasingly popular. dcgd

Forester-Hibernian Excursion.

To Jubilee, Civic Holiday, Aug. 14th. Catholic Order of Foresters and Ancient Order of Hibernians. UNIQUE FEATURE AT PARK STREET

Morning Services Conducted by Young People's Society.

A very unique feature was instituted into the morning services at Park street Baptist church yesterday morning. The service was conducted along the lines of a young peoples' meeting, with a few modifications.

In the absence of the pastor, and the difficulty of getting a supply, Mr. Alex. Haddow presided, and was assisted by Miss Clark Foster, Miss Alice Miller and Mr. Roy Jackson, who read very instructive and helpful papers.

This style of service was very popular, and will be repeated on the last Sunday morning of August.

THE STREET WATERING IS UNSATISFACTORY

Residents of the North End Make Complaint to the Council --State That Water Street is Neglected--Ald. Adams Says Mr. Blodgett is Master of the Situation--Other Parts of the City in Which the Service is Not Satisfactory to the Citizens--No Apparent Remedy.

A number of ratepayers and residents of the north end of the city on Water street, north of Argyle street, wrote to the Council complaining of the manner in which the street watering has been done in that part of the city, and in reply to the letter, Ald. Adams, Chairman of the Board of Works, explained last night that he had recently had a conference with the men who have the contracts for street watering, with a view of seeing if there was not some means by which a better service could be procured for the city. As far as the street in question is concerned, Mr. Blodgett, who has the contract for that portion of the city, seems to be master of the situation, because in his contract there is a clause which provides for a standpipe to be erected north of the railway on Water street and now it appears that the water commissioners will not tap the main there to place a standpipe in.

The chairman further stated that the man doing the watering apparently held the opinion that all that was required of them was to cover their territory twice a day, and they had stated that it was impossible for them to do more than that. They were union men, and started to work at seven, working until five o'clock, and apparently they did not intend to do any more work than could be done in those nine hours.

Ald. Hicks pointed out that it was not only in the territory referred to that there were complaints as to the way in which the watering has been done. In other parts where there were plenty of standpipes, the citizens are complaining that the streets are not properly watered. He thought that there should be some means by which the work could be inspected, and suggested that Mr. Peter Thompson could be instructed to attend to this and report to the city engineer.

Ald. Crowe and Ald. Tovey, speaking for their respective constituencies, stated that there were many complaints reaching them from residents of the particular parts of the city in which they live to the effect that the watering is not being done satisfactorily.

The matter was finally referred to the Board of Works, which was instructed to look into the matter and deal with it.

OVER 71 PER CENT. OF TAXES HAVE ALREADY BEEN PAID

The ratepayers of this city are apparently well able to pay their taxes. The tax collector, Mr. W. J. Greer, reports that he has already collected $81,830.45 of taxes, out of the $114,000 on the roll. This is over 71 per cent. of the taxes, and the showing is a remarkably good one, indicating as it does that the people prefer to pay their taxes and get the two per cent. discount for the amount paid before August 1. The showing this year is the best, proportionately, in the history of the town, the people apparently being in a better financial position than they have ever been before.

COUNCIL TO ASK FOR A TRANSFER

Wants to Change Lots With the Government.

Later Will Be Asked to Take McDonel Street Lots for Armory.

The council has decided to take action in reference to the change of lots at the Central Park, and a committee will confer with the Board of Education, and the Government will be asked to exchange the lots on Murray street for those facing on McDonel street, the object being to preserve the present Separate school building for the use of the city as a school building, until a Collegiate Institute has been erected, or afterwards, should it be required.

The matter was brought up at the council meeting last night by Ald. McIntyre, who moved that a committee be appointed to meet with the Board of Education. This motion was carried, and the committee, on motion of Ald. Hicks, will be Ald. Adams, Scott, Leary, Tovey, McIntyre and Batten, with Ald. Leary as chairman.

LAST NIGHT'S MIDNIGHT BLAZE

Removed an Old "Eye-Sore" in the South Ward.

About 11 o'clock last night the firemen were given a call to a fire on Sherbrooke street near Bethune. The scene of the blaze was in an old tumble-down house, which had been built in the early days, and had been re-modelled, lathed and plastered in more modern times.

The house had been visited by fire several years ago, and has not been repaired or occupied since. The shack has been an eye-sore in the south ward for many years and there are no feelings of regret now that the fiery element has completed its work.

When the brigade arrived on the scene it was seen that it was not worth while to fight the fire, and they turned their attention to the house and out-buildings of Mr. W. F. Hamilton, which are situated a few yards away.

The firemen worked hard and were successful in their efforts, and the fire was allowed to practically burn itself out.

Clark's Canned Meats
fill the requirements alike of camper and housekeeper. Wholesome, tasty and they are always ready.

DECK HAND GOT A DUCKING AT THE LOCKS

Employee on the Steamer "Beaver" Had a Narrow Escape on Saturday—Fell Between Dock Wall and Steamer —Many Improvements Being Made at the Locks—Increase of Traffic Through the Canal—Bensfort Wharf to be Built at Once—Material Has Been Shipped for the Work.

On Saturday afternoon as the steamer Beaver was returning through the locks on her regular weekly trip, one of the crew had an experience which he is not anxious to have repeated.

As is customary, one or two of the crew of the boats jump off and give a hand with the opening and closing of the gates, but on Saturday this man jumped before the boat was near enough to the wall, and stumbled, falling into the water between the boat and the stone-work.

But this member of the crew was a good swimmer and was quickly fished out. He was not injured, only sustaining a bad fright and a good ducking. After the mishap he got dried out and proceeded on the even tenor of his way.

There is also a tendency among some of the passengers on the boats to make a habit of jumping off and on the boats on the locks, but some day someone will fall short, and may not fare so well as the sailor man did on Saturday.

The grounds and works at the locks now present a very attractive appearance. New fencing has been put up, the grounds have been levelled and have been seeded or sodded, and the driveway has been covered with small gravel.

Electric lights have also been installed in the office and at the gates, and on the whole, the surroundings are immensely improved.

In another year, when the lawns will be in good shape, it will be more than one man's work to take care of the locks and keep the grounds trim-shape.

The traffic through the locks has increased considerably this season, and with the completion of the Trent Canal, Mr. Collins will be a very busy man.

This morning Alf. Macdonald's steam tug and barge passed through with a load of timber for the building of the new wharf at Bensfort.

The work on this wharf will commence as soon as possible, and at the same time other wharves, for which grants have been made will also be built.

PETERBOROUGH'S BISLEY HERO, COL.-SERG. MOORE, RETURNS TO NATIVE CITY

One of the Successful Contestants for the Kolapore Cup Tells of the Meet at Bisley and How Canadians' Win Was Received—Local Marksman is Modest in Speaking of His Own Successes--Was Received by King Edward --Canadians Were Well Treated--Pleasant Interview With Returned Hero.

Colour Sergt. W. H. Moore, Peterborough's representative on the Bisley team, returned to the city yesterday, after his trip to England. He was one of the first five Canadians to return, and they arrived in Montreal on Sunday, sailing by the steamer Bavarian. The others who came on that boat were: Captain A. Elliott, of Toronto; Staff-Sergt. Crowe, of Guelph; Sergt. Russell of Ottawa; and Private McConnell, of Ottawa.

Mr. Moore was warmly welcomed back by his many admirers here, and is kept busy to-day telling his comrades of his experiences at Bisley. Sergt. Moore was on the Canadian team which won the Kolapore Cup, the most coveted team prize at Bisley, and on that team his work was very little short of the best scores made by Captain Elliott.

The clever local shot is very modest in speaking of his successes, although he speaks very highly of the work of the Canadians.

To Captain Elliott of course belongs the distinction of winning the Kolapore Cup, with 103 to his credit.

The win was a very popular one, and the very first to rush up and mount the Canadian shoulder high were the tall, sun-burned soldiers of the Transvaal. The Englishmen were profuse in congratulations, and the New Zealanders and the others were not backward in showing their appreciation of the Canadian victory.

The wins of the Canadians were always popular with the other contestants, and in fact the Canadian marksmen were everywhere received with the greatest cordiality.

The inspection of the various teams by His Majesty the King, was a novel feature of the meet this year. Referring to the King's review of the Canadians, the returned marksman said; 'He came out on the grounds amid a blaze of gold and colour supplied by uniforms of his staff. They were so resplendent that I had difficulty finding His Majesty. When I did I was pleased and surprised. Of all the gorgeous band, he was the most democratic, and yet most distinguished. His uniform was not dazzling to the eye. His face was pleasing. His complexion was rosy and healthful, and his whole countenance was lighted by the most friendly blue eyes. He inspected our party and chatted for several minutes with Col. Hesselin. He expressed himself as greatly pleased with our showing."

On the whole, the trip to the popular shot of the 57th was a thoroughly enjoyable and successful one, and he has nothing but praise for the treatment he and the Canadian marksmen received at the hands of the English marksmen. While he was away, Sergt. Moore picked up a good many points, which doubtless he will use to good effect in his shooting here, and it is reasonable to expect that his work will continue to improve in the future.

The Canadian team had many enquiries put to them concerning Pte. Perry. His friends and admirers who last year watched him win the King's Prize for Canada were greatly disappointed that he did not try again this year. Perry is popular among the marksmen across the water.

The commandant, Col. Hesselin, will remain in England for two or three weeks yet. Besides the five members who landed in Montreal Sunday, Capt. Jones, of Prince Edward Island, returned on the Bavarian and landed at Rimouski.

A HUNDRED PEOPLE WERE BURIED IN A COLLAPSE

Special to the Examiner.

Albany, N. Y., Aug. 8.—Three hundred persons employed in the large department store of the John G. Myers' estate at 639-641 North Pearl street, had just gone to work this morning, when the whole centre of the building collapsed from roof to cellar. Nearly a hundred men, girls and children were carried down in the wreck. Thus far, all those taken out of the ruins have been alive. There is no doubt, however, that when the rescuers reach the bottom of the heap of debris they will find a number of dead. The estate has been making extensive repairs on the building, and the accident was caused by the removal of an iron pillar that supported the structure.

FIFTH WARD NO MORE BUT NOW "EAST PETERBOROUGH"

Ald. Batten does not like the term "Fifth Ward," as applied to the annexed portion of the city, formerly known as Ashburnham, and he wants the portion referred to called "East Peterborough." He brought the matter up at last night's council meeting, and said that a number of persons had spoken to him about it, and they were of the opinion that the term by which that part had been known since the union is neither dignified nor pretty, and the name suggested by him as a substitute would be preferable. He asked the newspapers of the city to refer to the proposed change.

ENGINE OF EARLY EXPRESS WAS DAMAGED BELOW OTTAWA

The C.P.R. morning express due here at 5.12 this morning, did not arrive until nearly noon, the cause of the delay being an accident to the engine below Ottawa. At the latter city, however, a special train was made up and it ran on the schedule of the regular train, arriving on the time to a minute. It did not, however carry the mail, which did not reach here until about 11 o'clock, the regular train then running as the second section of No. 5, the official title of the express.

As far as can be learned no injury was done by the accident beyond that sustained by the engine.

WHITE BLANKETS IN AMBULANCE

Chairman of Property Committee Authorized to Discard Grey Blankets.

Dan Spence Ambulance to be Improved—Ald. Batten Explains About the Ice.

Ald. Batten is going to have the Dan Spence memorial ambulance fitted up so that it will be more comfortable for those who have occasion to use it. At last night's meeting of the Council he fathered a motion authorizing the chairman of the Property Committee to purchase white blankets and sheets and other interior fittings for the ambulance. He explained that people had objected to the grey blankets which had been used in the past, and the chairman of the Property Committee never likes to have any complaints made concerning any property of the city in which he is interested; consequently he proposes to fit up the ambulance a little better in future.

An explanation was also vouchsafed by Ald. Batten, in reply to a question put by Ald. Hicks, in reference to the sudden change of mind exhibited by the chairman of the Property Committee when he decided to place ice in the city fountains. The explanation of Ald. Batten was quite satisfactory to the Council.

Pease Furnaces Pleases. 705 sold in Toronto last year. The Best Stove Co., Local Agents.

WANT AND REAL ESTATE ADS.

Get In The Best And Be In It Always

Male And Female Help

Can be quickly supplied by using EXAMINER WANT ADS. They bring speedy answers and are dependable for first-class help.

MUST GET PERMIT TO MOVE HOUSE

No Buildings Can Be Moved on Streets in Future Without One.

Ald. Crowe's By-law Passed—Amendment to the Building By-law.

Ald. Crowe's bylaw regulating the moving of building on the streets was passed last night. This by-law provides that when anyone wants to move a building from one location to another, such removal necessitating the building being taken on any street, application must be made to the city engineer for a permit, and $1 a day will be charged for the use of the street in moving the building. The person having the house moved, in making his application shall state all particulars, giving the place from which the structure is to be moved, stating the location to which the removal is to be made and the streets which will be used in the operation of moving.

Ald. Johnston's bylaw amending the building bylaw was passed last night also. The effect of the amendment is that a shed not more than one story high in the fire limits and 25 feet from the street line may be constructed of brick walls, not less than nine inches in thickness.

PRETTY WEDDING OF LOCAL INTEREST

Mrs. Margaret Kennedy, a Former Peterborough Lady, Married in Toronto.

A wedding of some local interest took place in Toronto on Monday morning, July 31, when Mrs. Margaret Kennedy, formerly of this city was united in marriage to Mr. Joseph Crawford.

The following account of the ceremoy wans given in the Toronto Evening Telegram:—

A pleasing matrimonial event, which took place in St. Paul's Church, Monday morning, July 31st, at 8 o'clock, had for its participants Mrs. Margaret Kennedy, of Toronto, formerly of Peterborough, and Mr. Joseph Crawford. The ceremony was performed by the Rev. Father Hand. The bride was attended by Miss Lorene Sullivan and the groom by Mr. Richard Carter. Mr. and Mrs. Crawford left at 9 o'clock for Niagara Falls and Buffalo, and on their return will take up residence in Toronto.

LAST OF THE SEASON.

We are receiving, this week, Fine Black Cherries. These will be the Last of the Season. Also Large Dry, Georgian Bay Blue-Berries.

A. H. Stratton & Co.

WENT OVER THE FALLS IN A CANOE IS EXPERIENCE OF TOURISTS

An Exciting Incident Recorded From Stony Lake--The Dance at the Pavilion Last Night Was an Enjoyable Event--Preparations for the At-Home are Progressing --Latest Happenings at the Lakes of Interest to Local People--Many Visitors There Spending a Vacation--Some Fish Stories.

Last night's dance at the Juniper Pavilion was attended by a large and jolly crowd, which overtaxed the capacity of the building. The attendance at, and interest in, the nightly dances appears to be constantly on the increase, and the huge success of Saturday evening undoubtedly tended to augment the general enthusiasm. Among those who assisted with the music were Messrs. Harvey Sheppard, Rupert Donell and Harry Macdonald. Among the large number in attendance were: Hon. J. R. and Mrs. Stratton, Hon. and Mrs. L. H. Graham, and the Misses Graham, Mr. Wm. Irwin, Mr. and Mrs. J. and Miss McBain, Miss Viova Hunter, Miss Carriere, Mr. F. D. Kerr, Misses Eva and Alta Bradd, Mr. A. W. McIlherson, Miss Annette Collins, Mr. Fred. Collins, Miss Allison Hamilton, Miss Mollie Moldrum, Misses Gertrude and Mollie and Mr. Leo Young, Miss P. Lundy, Mr. George Lundy, Mr. Frank Bradburn, Miss Eakins, Mr. "Jim" Eakins, Mr. Basil Hall, Messrs. Fred. and Alf. Cox, Mrs. and Miss Trebilcock, Miss Shaw, Miss Alice Donell, Miss Gertrude Pape, Miss Hastings, Mr. Meredith, Mr. Chas. Star, Mr. Gallows, Mr. Pape, Mr. Rupert Donell, Dr. Gaveller, Mr. Harry Macdonald, Mrs. Acton, Miss Emily Wade, Miss Sike (Rochester), Miss Darkin, Mrs. James B. Lea, Misses Edna and Hazel Lea (Toronto), Mr. Reesor.

Preparations for At-Home.

Special carpenters have been engaged to commence to-morrow to plane the floor of the pavilion and drive nails, and commence the work of erecting elevated seats for Mrs. Stratton's At Home on Thursday evening, Aug. 17th.

The 57th Regiment Band will be present. The arrangements have been made whereby Peterborough guests will return home upon the same evening by special boat and special train. The Peterborough party will come up by the regular 5.40 train and evening boat, arriving at the pavilion at 8 o'clock, and returning will leave Juniper at 11.30 o'clock for Lakefield, where a special train will await their arrival to convoy them home at one o'clock.

Mr. Turner will be up Thursday to decorate the pavilion.

Improvements at Juniper.

The Cottagers' Association have had placed south of the pavilion a new boom and landing for the steamers. The boom is about 250 feet in length and is proving a great convenience. The steamers now, as soon as the passengers disembark at the wharf remove to the boom till ready to leave.

Another boom is talked of, to be placed north from the present one about 300 feet, to allow the people on the lake an opportunity of landing without inconvenience.

The timbers of the boom have been removed from an old dam at Peterborough, which was built seventy years ago. They have been allowed to dry since last fall, upon the bake of the river. Mr. William Irwin has the matter in charge.

Mr. T. W. Robinson states that the boat wharf at Juniper will also be repaired, the timber for the purpose having already arrived.

Pic-nic at Fairy Lake.

A little picnic party visited Fairy Lake yesterday afternoon at which charming spot a most delightful time was spent. The party was composed of the following: Miss Allison Hamilton, The Misses Irwin, Miss Hunter, Miss Carriere, Miss Marlie Hall; and Messrs. A. W. MacPherson, "Doc" Shaw, Harry Hall, and Basil Hall.

Over Falls in a Canoe.

A large party, who assembled from various parts of the Lake, yesterday afternoon visited Perry's Creek, where an informal picnic was held. The party was composed of the following members: Mr. Attwood, Mrs. Attwood, R. Martin, (the distinguished author of "Emmy Lou,") Miss White, Miss Ada White, Mr. Charles White, Mr. "Jim" Eakins, Miss Eakins, Mr. Robert and Mr. Hubert Eakins, Miss Hall, Miss Helen Hall, Miss Gwen. Hall, Miss Alice Roger, Hon. and Mrs. L. H. Graham, Mr. Reynolds, Mr. Acton Langlois, Miss Marjorie Graham, Miss Elsie Graham, Miss Marion Schleber, Misses Alta and Eva Bradd, Mr. and Mrs. Koch, Miss Koch; Mr. Jack Koch.

Mr. Jas. Eakins and Mr. Acton Langlois performed the hazardous feat of "running" the Perry's creek falls. Their canoe was badly broken in the journey.

Bridal Party Departs.

Boschink has, in addition to its reputation for pretty girls and large mosquitoes, (a la New Jersey) is also famed for its water lilies, but it appears that summer residents in that section of the lake have grown more ambitious lately in the realm of horticulture, and the sturdy water lily is now supplanted in popular favour by the dainty orange-blossoms from the southern climes.

Yesterday afternoon a double bridal party left Kilkenny, at which place they were previous to their departure, united in a state of compound——bliss. The personnel of the party was Mr. and Mrs. Fred Mr. and Mrs. J. Mayo. The happiness of the contracting parties was evidently of a most infectious character, for it is reported that the newly made benedicts, just before their departure out-Hobsonized Hobson—and the feminine portion of the spectators had nothing but "Hobson's choice." Some large "catches" were recently reported from the wharf upon the island, but these are not a circumstance to what may be expected when the fish have fattened for some time upon a rice diet.

Swimming Record Broken.

Mr. Archie Reesor, of Markham, yesterday accomplished a swim, the record of which will live long in the annals of the aquatic art. Entering the water at the wharf at Struthmond-on-the-Lake, Mr. Reesor swam to Bear Island, thence to the shore of Otter Island, where he again changed his course, and in remarkably quick time reached Plum Pudding Island, and finished the concluding section of the course from that place to the starting point, in a remarkable burst of speed.

Mr. Reesor, it is believed contemplates entering next season in a swimming competition with Mr. Strickland. The course will be from Lakefield via Trent Canal and Otonabee River to Rice Lake. He is very popular with the young ladies of Stony Lake, and has won for himself a most enviable position in the good graces of a constantly widening circle of feminine friends.

Mr. Reesor, while he would not wish to be considered a fault-finder, or "knocker" in any sense of the word, believes that many of the fathers of the fair sex upon the lake do not obtain sufficient exercise in bathing by reason of their failure to take a correct stroke.

Echos From the Cottages.

Miss Loretta Kelly, of Norwood, and Miss Vivian Donohue of Peterough, spent the day at the lakes.

Miss Lillian Moore returned home Stony Lake yesterday.

Miss Mark and Miss Clarke, of Toronto, who have been spending a week at the Victoria House, returned home yesterday.

Miss May Donohue is visiting frinds at Young's Point.

Mowahuwawin Camp, composed of the following young men from Toronto are on Juniper Island,—Messrs. W. Williams, H. B. Dale, P. Garret, F. W. Armstrong, H. B. Knowland, W. McKenzie and Chas Fraser.

Miss Robertson, of Kingston, is a guest at "Bona Vista," of Mrs. J. J. McBain.

Mr. Rice is having a new wharf and boat house constructed upon Gramy Island.

Mr. Thomas Barrie's handsome new cottage is nearing completion.

Mr. K. G. Leeb secured a nice lunge yesterday.

Mr. F. D. Kerr, who is a guest of Hon. J. R. Stratton at Strathormond-on-the-Lake, was yesterday unkind enough to lure from their happy happy home in the deep, a lunge of gigantic proportions and also a nice bass.

Mr. Aston has had a new sailboat shipped to the lake. The handsome craft, which will be sailed by the boys, has been named the "Lieblings."

Miss Colville is the guest of Mrs. J. B. McWilliams at Burleigh.

Miss Hastings, who is a guest at Kilkenny, yesterday successfully negotiated a swim across the channel at that point.

Mr. R. Rogers, of Toronto, was fortunate enough to land two large lunge on Saturday.

PURCHASE LAND FOR NEW SEWER

$75 Will be Spent in Buying Strip of Land for Outfall Sewer.

Report of Board of Works at Last Night's Council Meeting.

The Board of Works reported as follows at last night's council meeting:

1. Tenders were received as follows for crushing and delivering stone:

S. Kennedy, $3 per cord.
John Gibson, $2.79 per cord.
T. A. Rehill, $2.85 per cord.

Your committee accepted Mr. Gibson's tender and authorized the solicitor to prepare an agreement with him, and to prepare a bylaw to authorize the execution of the agreement.

2. We recommend that the petitions to have sewers constructed on the lanes between Park street and Boswell avenue and Pearl avenue, be granted, provided an agreement is furnished prepared by the City solicitor from Mrs. Elizabeth S. Burnham, and Mrs. Elizabeth S. Boswell agreeing to pay half the cost of the sewer between Charlotte and King streets on Downie street and Park street from the point as designated by the city engineer, where the sewer would strike Park street where Downie street joins it to King street, when a sewer is constructed on that part of Downie and Park streets, with an additional undertaking to purchase the debentures issued at four per cent., at par for the work on the lanes as far as now laid out, and also for similar sewer work when the remainder of the park lots are laid out in streets and lanes to the boundary, provided the city solicitor is satisfied with it and provided the solicitor reports that having the sewers on the lanes will not make the municipality responsible for accidents that might occur on the lanes.

3. We recommend that Mr. Willis Chipman be paid $200 on account of work in connection with the Ward No. 5 sewer and outlet, and sedimentation tank.

4. We recommend that the matter of purchasing sand necessary for building the granolithic sidewalks be left to the chairman of the Board, and that it be paid for on his certificate.

As a supplementary report to the Board of Works' report, Ald. Adams moved, seconded by Ald. Batten that the chairman of the Board of Works be authorized to purchase a strip of land from Mrs. C. L. Davidson, 112 feet wide, on James street, extending south to the C. P. R. tracks along the right of way of the G. T. R., being the eastern part of lots Nos. 100 and 101, at $75, and that a cheque be issued in payment of the same.

This land, Ald. Adams explained, is required in connection with the outfall sewer in the fifth ward, and, although the Mayor objected to the resolution passing, in view of the fact that the sewer would in all probability exceed the price agreed upon at the union, $10,000, the motion was carried.

Monkey Brand Soap removes all stains, rust, dirt or tarnish — but won't wash clothes.

Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED

Health Fully Restored and the Joy of Life Regained

When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the BLUES, it is a sad picture. It is usually this way: She has been feeling "out of sorts"

for some time; head has ached and back also; has slept poorly, been quite nervous, and nearly fainted once or twice; head dizzy, and heart-beats very fast; then that bearing-down feeling, and during her menstrual period she is exceedingly despondent. Nothing pleases her. Her doctor says: "Cheer up: you have dyspepsia; you will be all right soon."

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, everlasting BLUES.

Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Madame Josephine Rinville, Mantal, Que. She writes:

Dear Mrs. Pinkham:—

"I suffered for four years with female troubles—inflammation of the stomach and fallopian tubes which caused me violent pain and often torture, so much so that I could not walk at times and attend to my daily duties. Life was misery to me. I was so blue and despondent I did not know which way to turn for relief. I had tried the doctors but they did not help me. I was advised to try Lydia E. Pinkham's Vegetable Compound, so I bought a bottle. I am glad that I did so, for I am well and strong to-day and the world looks bright, for I have perfect health, thanks to your medicine."

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

Women

To cure your headache, colds, and monthly pains without laying the foundation for diseased heart, nerves or stomach, remember there is only one safe remedy to take, and that is the purely vegetable one from Japan

Any Troubles In Your BATHROOM?

If you are having any trouble with your CLOSET or BATHROOM CONVENIENCES, come round and have a talk with us.

A gentleman, attracted by the range of Sanitary Closets and excellent values we are offering, invested in a new one, although he already had one that was working not badly.

The way he looked over the Closets we arranged before him for inspection showed he had been sifting the matter, and knew how to prove and disprove the claims of dealers.

The saving of health and expensive plumbing repairs, warranted the investment, he said.

How is yours working? Bring your Bathroom Troubles to us. Our Toronto Stock is what we sell in our Peterborough Branch.

COMMITTEE WILL NOW GO

WITH THE ENGINE EXPERT

TO INSPECT THE ENGINES

City Council Decides That it is Better to Send Some Aldermen With Mr. Gibbs--Action of the Committee of the Whole on This Question is Repudiated by the Council and Clause in the Report Struck Out--Aldermen Again Changed Their Mind--A Committee of Ald. Hall, Johnston, Hicks and the Mayor to Deal With the Matter.

Clause two of the report of the Committee of the Whole presented at last night's meeting was the subject of considerable discussion. It appears that since the meeting of the committee when it was decided to send Mr. Gibbs to Brantford and London, for the purpose as outlined in the clause of the report which follows, some of the aldermen have changed their minds, which, it may be remarked, is nothing strange for this year's council, and they now hold the opinion that it will be advisable to send some members of the council with Mr. Gibbs when he makes the trip. The chairman of the Fire, Water and Light Committee stated at the meeting last night that the Mayor had requested him to instruct Mr. Gibbs not to take his little jaunt until after the next meeting of the council, the reason for this request being that some of the aldermen had represented to him that it would be better to have some members of the council accompany the expert.

As a consequence of this decision the clause referred to was struck out of the report, and subsequently Ald. Hicks moved that the matter of the new fire engine be left in the hands of a committee composed of Ald. Hall, Johnston and the Mayor, who shall be authorized to consult an expert in the matter. This motion was carried, with the addition of Ald. Hicks' name to the committee, on the request of Ald. Hall.

The report follows:—

1. We recommend that the question of purchasing a stone crusher be referred to the Board of Works to enquire into.

2. Your Committee referred the question of purchasing a new fire engine to the Fire, Water and Light Committee with power to send a deputation to inspect an engine or engines. Later your Committee arranged with Mr. E. Gibbs to visit Brantford and London and inspect fire engines made at these cities and report to this Committee and we recommend that the expenses be paid on the certificate of the Mayor or the Chairman of the Fire, Water and Light Committee.

3. We authorized the Reception Committee to expend $50 in the reception of the Old Boys' excursionists on August 7th.

4. We authorized the chairman of the Fire, Water and Light Committee to arrange for the removal of the manure from the fire hall stable.

5. We recommend that Ald. Leary act as chairman of the Supervision Committee and that Ald. Adams act on that committee during the absence of Ald. Hall.

With the exception of clause 2, the report was adopted.

SOUTH BEACH A NEW

POPULAR SUMMER RESORT

AND ITS LATEST NEWS

One of the Most Pleasant Points on the Lake to Spend a Few Days Vacation—Those Who are Staying at This Popular Resort—Some Fish Stories—Advent of the Radial Railway Line Will Bring Many New Cottagers to This Point.

Special Staff Correspondence.

South Beach, Clear Lake, Aug. 7.—In one of "Old Gorgon Graham's Letters to His Son" he remarks that health is like any inheritance—you can spend the interest in work and play, but you mustn't break into the principal. Once you do, it's only a matter of time before you've got to place the remnants in the hands of a physician as a receiver—and receivers are mighty partial to fees and mighty slow to let go.

There's no use explaining why we keep on working. After forty years of close acquaintance with it, some of us have found that work is kind to its friends and harsh to its enemies. It gives the man who shines up to it all the money he wants and throws in a heap of fun and satisfaction to boot.

To the employer and employee to whom work is beginning to feel monotonous, let us suggest that instead of returning to your office tomorrow morning, take a run up the lakes and have a try at the fish, or a quiet loaf at South Beach. Perhaps you never cared to fish, or don't know what you would do if you hooked one, except to yell at it to go away; but a loaf in the shade and quiet, or a turned neck and a peeled nose would give you a little more rest for your food; and a little more taste for work.

I met a young fellow at Young's Point on Saturday—he'd just come down from McCracken's on the "Stony Lake" with the crowd returning from their vacation. He had on a "negligee" sunshade in imitation of marble, streaked with blue, sans hat band or any other ornament except a fish hook stuck in the crown. He was brimful of good spirits—seemed to know nearly everybody, and those he didn't know he tried hard to scrape up an acquaintance with. After a little closer conversation you find out he was "loading up" with summer resort chronicles for the Examiner, and was spoiling for an interview to see if he couldn't add an additional paragraph to his note-book. He was the picture of health. He didn't seem to care so much about hooking those twenty-five-pound fish lies as he was to manage to land a pretty heavy appetite and some big nights' sleep. When he gets back to his office you can bank on it that this young man will produce results like a ben in April with eggs at nineteen cents a dozen.

Speaking about fish, can your sporting editor give any satisfactory reason why the fish are so shy of the bait in Clear Lake and Stony Lake this season? If he can't, let me suggest one—that I don't believe there's a fish spiced for every visitor up the lakes this season. The summer resorts were never so crowded as they are now. Starting here at South Beach, it "bangs Bannagher" the way the tourists are flocking in. All the way up from McCracken's, Juniper, Burleigh, Viamede, Mount Julian, Boschink, Glenwood, Kilkenny, etc., etc.—comes the same answer: "jam-full." Then, the cottagers are much more numerous than ever, and more transients are coming and going than ever recorded. What's going to be done next year, if the street railway extends their line to Young's Point, is a proposition that will have to be answered quick. The sooner that big summer hotel is started, which has been so much talked of in the past, the better.

The following are the names of the guests registered at South Beach up to date: E. Tierney, Ottawa; W. J. Fuller, Toronto; S. H. Carr, Gerard Smith, Walter Carr, Lewis Carr, Dayton, O.; E. Clayton Smith, Rochester; J. W. Young, Peterborough; W. McClelland, Scranton, Pa.; Geo. H. Hafner, Rochester; P. T. Luthwilter, Wm. H. Petas, Rochester; Wm. Milburn, Peterborough; J. F. Murphy, Toronto; Miss Margaret McCabe, Miss Nell McCabe, Peterborough; Mr. and Mrs. M. W. Sackett, Meadville, Pa.; Mr. and Mrs. Seth Sprague Terry, New York City; Miss Fannie Holmes, Peterborough.

The prospect for connecting Young's Point with the Peterborough Radial Railway Company's line is beginning to make people think of the most eligible sites for summer cottages on the shores of Clear Lake, near this point. It would not be surprising if property owners on the Smith and Douro shores would soon begin to find a demand for parcels of land suitable for building summer homes, convenient to the railway terminus.

Lem, one of the favourite guides, who returned Saturday night after an all day's trawling expedition, said that "the fishing was very much like marrying a Chicago widow—very uncertain, unless a man has a heap of experience.

"Talking about fish," said Lem, "a peculiar thing happened only the other week off South Beach. You've seen a lumberman's punt—one of those big fellows that hold fifteen men. Well, this punt was anchored off shore with a line and one of those iron horse-weights. In the morning the punt was seen half a mile away. When we recovered it there were three fish teeth imbedded firmly in the horse-weight. The inference, of course, is—"

"Oh, come off," said Capt. Scollard, who had listened to the story.

"Sir," said Lem, "and the teeth are to be submitted to a scientist to determine what kind of a fish it was."

PILES
Dr. Chase's Ointment is a certain and guaranteed cure for Itching, Blind, Bleeding and Protruding Piles. You are not asked to buy this remedy until it has cured some one known to you, then you can get your money back if not satisfied. Dr. Chase's Ointment, 60 cents a box, at all dealers or Edmanson, Bates & Co., Toronto.
DR. CHASE'S OINTMENT.

SPECIAL SERVICES AT MARK STREET

Special Singing by Mr. Arrigg, of Toronto—Love-Feast Service.

Sunday was Quarterly Sunday at Mark street church, and sermons of a special character suitable to the occasion were given. The pastor, Rev. J. G. Lewis, preached very instructive sermons at both services, choosing for his evening text Psalm 27: 8: "When thou saidest, seek ye My face; My heart said unto thee, Thy face, Lord, will I seek."

Mr. Arrigg, of Toronto vocalist, sang at both services, rendering a duet in the morning with Miss Courtney. Mr. Partridge has a very clear voice and his singing was very much appreciated.

In the morning a love feast sermon was held from 10 to 11 o'clock, and was largely attended.

NO AGREEMENT FOR EXTRA LIGHT

Contract Not Entered Into With the Ontonabee Power Co.

Doubt as to Whether the City has any Right to Make a Contract.

The Fire, Water & Light Committee reported at last night's council meeting as follows:—

1.—That Ald. Adams assist on this committee during the absence of Ald. Hall.

2.—Your committee received tenders for a new steam fire engine and left the matter in abeyance until further enquiries had been made.

3.—We instructed the City Solicitor to prepare a by-law to amend the Building By-law so as to permit of the erection of sheds of one story in height in the fire limits of 9 inch brick walls.

4.—We received a verbal request from Mr. R. H. Bradburn in regard to a modification of the Building By-law with respect to the construction of a wall in the new opera house building, but requested Mr. Bradburn to be governed by the provisions of the by-law.

5.—We considered an offer from the Ontario Power Co. to furnish incandescent lights for $10 a year each and recommend that an agreement be entered into with the Ontario Power Company for such incandescent lights for street lighting as the Council may desire to order from the Company at the rate of $10 a year for lamps of 32 candle power, the Company to furnish the lamps and all material required and do all the work and keep the lights lighted all night and every night in the year, the Company not to be compelled to put in lights at a greater distance than 500 feet from an existing incandescent line of the Company, and the agreement to contain a provision that the rights of the city to do its own lighting at any time will not be prejudiced by allowing the Company to do street lighting.

The report was adopted, except clause 5, which is laid over for advice of the solicitor has been obtained on the question of whether the city has the power to make the agreement.

THE CITY PAYS ITS ACCOUNTS

Long List of Bills Which Were Ordered to be Paid.

City Must Make Claims on the County by September 1st—Ald. Adams and Solicitors to Act.

The Finance Committee reported as follows at last night's council meeting:—

1. Your committee received a letter through the City Solicitor, from the arbitrators between the County and City, with regard to the union of Ashburnham to the town, asking that the city may put in any claim it may have before September 1st next, and we referred the matter to the chairman of this committee, and Ald. Adams, to act with the solicitor.

2. We recommend that the following accounts be paid:

Wm. Hamilton Mfg. Co.	$ 16 18
J. and W. Netherall	19 50
Adamson & Dobbin	6 24

TUESDAY, AUGUST 8, 1905.

BE CAREFUL.

Within the past month, the daily papers have reported twenty-five or thirty boating accidents, with the loss of twenty or twenty-five lives, with more than that number of narrow escapes. These accidents occur chiefly in small sail boats, skiffs, and canoes. The majority of these, as of all other accidents, is due to carelessness, recklessness, thoughtlessness, or criminal stupidity. Under this last comes the fool who rocks the boat. The canoe is a favourite medium for fatal accidents. Properly used, the canoe is as safe as any other craft, but it must be used as a canoe, not as a floating wharf. It is as fatal to take liberties with a canoe as to take liberties with a woman's good name. No person who is not familiar with the ups and moods of canoes should be placed in charge of it, where another person's life is imperilled. And no person who is unable to swim well should venture into a canoe, either as propellor or passenger. There is nothing which contributes so much to a dignified carriage and repose of manner as a canoe, for it admits of no sudden or undignified movement, of no change of seats, no standing up, for every one knows that to the person who assumes an erect position in a canoe, particularly applies the injunction, 'Let him that standeth take heed lest he fall." To the average dweller at the waterside resorts, the advice of the fond mother to her daughter, to swim, without going "near the water," contradictory, as it appears, is good, unless a resolution to exercise the greatest care goes with every venture upon or into the water, either in boat or bathing suit. With care most boating accidents would be avoided; with careless or reckless-ness, most boating accidents happen, or, rather, are caused — they don't happen, they are produced—as a rule.

MATRIMONIAL.

The Ontario Government has adopted regulations intended to prevent the scandal resulting in connection with the hasty marriages of the "Gretna Green" order which take place at Windsor. Persons bitten with the mania of matrimony, ill-advised and hasty in their decision come across the river from Michigan, get a license and marry in haste to repent at leisure. It is stated that Michigan divorce courts have been filled with the disastrous sequences of these hasty weddings. With a generous spirit of reparation the courts on the American side lay the blame on the facility with which marriage licenses can be procured at Windsor, and not upon the facility with which divorces are granted in the easy divorce courts of Michigan. It is often said that persons getting married tie a knot with their tongues which they can't untie with their teeth. That doesn't hold in the United States where the knot can be untied with a two-dollar bill. However, it is proper that Ontario should do its share to lessen the possibility of sudden and ill-advised marriages, and this, it is thought can be done by the adoption of more stringent regulations in regard to the procuring of marriage licenses. It may easily come about that while a prospective happy pair are waiting a more less tedious process of license acquirement, a gleam of sense and judgment may dawn upon them and bring reflection and abandonment of a union for which neither are fitted. It is to be hoped that the measure proposed will be successful, for with the high idea prevailing in Canada of the sanctiety of the marriage vows it is deplorable that our marriage license law administration should be held up as a contributing element in the procuring of divorces. But if the Whitney Government undertakes to insure the success of marriage ventures and insure against matrimonial failures, they will have as big a contract almost as providing offices for all the Conservatives who are looking for rewards for political services in the shape of provincial offices.

IF HE WERE KING.

As William Findlay Maclean member for South York, and editor of the Toronto World, stands, self-confessed, the only strong man in British North America; the Gideon, who with a chosen band, consisting of the Toronto Telegram, the Toronto World, and the Winnipeg Tribune, is to lead the Conservative party to victory; the young, clean-shaven Joshua, who is to take the reins out of the feeble hands of obsolete Moseses like Borden, and Haggard and Foster; the only Daniel, who can read the writing on the wall; the solitary Curtius to leap with his thousand dollars into the abyss of public opinion; the David who is to slay the railway Goliath; the Judith who is to destroy the oppressor of his country; the Jael who is to pierce the ear of monopoly; the Attila, who is to act as God's scourge on grasping corporations—as W. F. Maclean, M.P., undertakes to be the emancipator, regenerator and everlasting preserver of the Dominion of Canada. Destiny having stamped, in large characters, the word IT on his forehead, it becomes important to analyse his frame of mind, and see if he is up to the job.

We submit that W. F. Maclean lacks that majestic, paleolithic impassivity which a benevolent despot should possess. He is forever sacrificing dignity to impulse, and playing bob with that repose of manner which impresses the vulgar with an appearance of reserve strength. Solon was a quiet man with the advantage over the member for South York of an imposing set of whiskers. Lycurgus knew when to keep his mouth shut. Cato, the Censor, talked as little as his office would permit. Cicero was beheaded for talking too much. Pericles never proposed to buy the C.P.R. for a dollar and a half, and to sell it for two dollars, thus making fifty cents on the transaction. The Gracchi lost ground through their excessive use of adjectives. Solomon approaches nearest to W. F. Maclean in sager mentality, but Solomon wrote too much—that Song of his is quite as indecent as any of W. F.'s speeches. The great reformers of history accomplished what they did by sticking to one thing. They laboured and they waited. They didn't chase all the butterflies they saw. They didn't throw away one toy to lick the paint off another. They didn't sting the flowers they found no honey in. They didn't try to represent the front page of a fads and fancies newspaper and a rural constituency at the same time. They didn't bewilder Parliament with the rapidity with which they could change their whims. They didn't claim all the rainbows as their own. They didn't get themselves spattered following all the glow worms that go a-dancing on a summer night. In short, they didn't wander all over the lot, but with a single mind and a set purpose they tended their particular corner, and got what they started out for.

We submit that W. F. Maclean lacks those stable qualities which would bind him to an idea for more than twenty-four hours at a stretch. He lacks the gift of friendship which makes friends. He thinks it better business from a newspaper standpoint to have enemies, because intelligent hostility lends zest to literary expression.

Intellectual unrest we might pardon, inconstancy of purpose we might condone; but W. F. Maclean has a graver fault still, which quite unfits him for the task he would assume. The member for South York is the most nervous man in the whole world. Far from cultivating the serenity of temper—the outward and visible symbol of a steadfast soul—which should be the attribute of Kings, the editor of the Toronto World is always up in the air. He would have us all going. You have only to look at his newspaper to see how he lives every day on the edge of a volcano. He never saunters down a country lane, whistling the while, that he doesn't trip on a precipice dug there over night by his enemies. When he walks through the bush lot at the Scarboro farm, he finds the trees full of mare's nests. He comes across all sorts of strange and terrible things—possums asleep, foxes hatching out goose eggs, enraged sheep pursuing panic-stricken tigers, canaries committing assault and battery on bald-headed eagles—signs and wonders indeed, which, if anybody other than W. F. Maclean saw them, would cause unbounded surprise.

As it is, we are apt to view Mr. Maclean's alarms with no livelier emotion than one of mild conjecture as to what shape the latest phantom will take. Mr. Maclean has a direful outlook on public life, but we can't always believe as if we were the fifth act of a tragedy put on the stage for the grim pleasure he will take in it.—Toronto Star.

THE MINES OF NEW ONTARIO.

Ottawa Journal.

Only a few weeks have passed since the prospectors announced the large findings of silver and cobalt in the Temiscamingue country. They exhibited their cobalt specimens quietly. But they took visible pride in the silver ore lumps which showed the virgin silver in nuggets as big as fifty cent pieces.

To-day experts declare the silver find at Cobalt to be the greatest in the history of silver mining. The shores of a little lake which aforetime threw back the shadow of the axeman alone, are now threaded by the tents of a crowded mining camp.

It seems that this part of New Ontario is about to jump quickly. The construction of the Temiscamingue Railway by the Ontario Government did much to attract the eyes of Canadians to the possibilities of the district. The Ross Government and its majority in the late Legislature, declared for a route which set the railway so far west of the Ottawa Valley as to encourage the flow of traffic to Toronto and Central Ontario generally, rather than to Eastern Ontario.

The question was fought out when the railway was projected and the Legislature decided on the western route. In the meantime Ottawa capitalists had done much to develop the Temiscamingue country. Mr. J. R. Booth had undertaken extensive lumbering operations. The late Mr. Abel Lumsden had established an efficient boat service, which is maintained now by the executors of the Lumsden estate; and for the past two or three years, Messrs. Edwards and Egan, with their associates, have been operating largely in Temiscamingue lumbering. It is possible then that a decent portion of the prosperity of New Ontario may come Ottawa-wards.

But that is for the future. In the meantime, though the cobalt silver camp is only a few weeks old, Mr. Whitney is urged to take some stand for the protection of the rights of the people; to act as the Dominion Government acted in the Yukon, and to secure to the province a due proportion of the value of the mineral products of the Temiscamingue mines.

He is reported to have said that he is deeply interested in the New Ontario discoveries. As to the question of governmental policy he would say only that when his colleagues returned from New Ontario the question of establishing smelters in the mining country, of exacting a royalty for the minerals developed, and kindred questions, would receive consideration.

New Ontario may be comparable with the Yukon in respect of potential wealth. But it is not a territory to be governed by Order-in-Council, and Mr. Whitney's task of administration of the argentiferous areas may call for the exercise of statesmanship in a high degree.

EDITORIAL NOTES

In Ontario Government phraseology, "retired," as applied to an Ontario Government official, of the Liberal brand, rhymes with "fired."

The Old Boys have come and gone. They were accompanied by some of the "Old Girls," who wouldn't, however, answer to the roll call under that name.

To-day's despatches note a gas explosion, in which twenty were hurt. That's nothing. There were gas explosions at Ottawa, during the last session of Parliament, in which six millions of people were hurt.

Dwellers in the southern half of this continent may poke fun at Canada when we are wrestling in the throes of blizzards, but we can go fishing in August without having a visit from yellow fever. We may lack oranges in April, but we also lack procession of hearses in July.

It would tend greatly to keep the conceptions of unthinking people clear on the subject of the National Transcontinental Railway, the Globe thinks, if all who know its proper name, would continually use it. The incorporated railway company, which is to construct one half of the line, and operate the whole of it, is called the "Grand Trunk Pacific Railway Company," but there is no "Grand Trunk Pacific Railway,"—it's the Transcontinental.

The Toronto Exhibition people have toned down their trumpets exceedingly much. It is no more Lord Roberts who is to open the Exhibition—he can't come. As a pis aller, Premier Whitney will manipulate the initiatory button, and let the Exhibition loose on a confiding country. And why not Premier Whitney? He is a great opener; he has opened about a thousand—more or less—Government offices. He has his hand in and should open the greatest exhibition with the greatest ease. It makes little difference who does the job, the Exhibition will swing along with the old time success, as we all hope it will do. The Toronto Exhibition is a credit to the city and the country. It exploits the prosperity and agricultural greatness of the country, and makes an annual holiday for thousands.

There is strenuous journalism in Hamilton. The two straight party papers quarrel like fishwives, and to vary their mutual slang-whanging they divert themselves by jumping upon the Herald, which poses as an independent, with both feet. On a recent day both papers had vitriolic paragraphs, both accusing the Herald with being both a rabid Tory sheet and a truckling Grit partizan. If all the Hamiltop newspapers would drop their mutual recriminations and discuss questions of public interest, Hamilton would not seem so much like a country village, where the rival newspapers, in default of news, wash each other's dirty journalistic linen in public.

Second Bowler Personally Conducted Excursion.

District Passenger Agent McDonald, of the Grand Trunk Railway, has received from Mr. Bowler, at San Francisco, a letter, in which he states that he has the happiest party he has ever travelled with, and that they are having a delightful trip, and that the dining car service, which is being operated by the Grand Trunk, has given great satisfaction.

The second party is now being formed, and will leave Toronto, August 29th. Rate of $150.00 covers round trip ticket, berth in sleeper, meals in dining car, and lodging at hotels in Los Angeles, San Francisco, and Portland, Oregon, a number of side trips, etc. Send for itinerary, which may be obtained from principal Grand Trunk agents, or by addressing E. C. Bowler, Room 308, Union Station, Toronto. 16d27

"Let Go" Prices

Every wide-awake merchant knows that there's a time to "let go" prices, and LeBrun & Co. believe August is the right time. The price tickets show how we're doing it.

Cressman's

A FLAG "OUTRAGE" AT McCRACKEN'S LANDING

Conspicuously Displayed American Flag Torn Down and Taken Away--American Colony at the Lakes Indignant Over the Affair---May Lead to Some International Complications.

Special Staff Correspondence.

McCracken's, Stony Lake, Aug. 8.—Last night an American flag, conspicuously displayed at McCracken's Landing, was torn down, and has disappeared. The members of the American colony are very indignant over what they consider an outrage. There is, so far, no clue, to the action in the event, the flag, which is described as a handsome one, having completely disappeared.

While we ungrudgingly extend our hospitality to American citizens who visit us there are some inclined to resent the prominence given to a foreign flag on Canadian soil and it is probably some person who considers himself agrieved in this respect who has taken the law into his own hands.

THE LACROSSE CLUB TO RUN A SPECIAL TRAIN

The Peterborough Lacrosse Club has completed arrangements by which a special train will be run to Midland on Monday, August 14th, Civic Holiday, the date on which the return game will be played in that town. A special train will run from this city returning the same day so that it will be an easy matter for all who wish to attend the game to do so. A low rate of $1.35 has been secured for the round trip.

There should be a good crowd to accompany the boys on this trip, as they will require all the support that can be given by the citizens.

THE BRIDE WAS A PETERBORO' LADY

Miss Nellie Gibson Married to Mr. J. Mackness.

At Chalmers' Church, Quebec, on Wednesday evening, 2nd August, at 6.30 o'clock, Sergeant J. Mackness, of the Royal Canadian Regiment, Quebec, was united in marriage to Miss Nellie Gibson, daughter of Mr. John Gibson, of Peterborough. The bride was becomingly attired in cream silk and carried a shower bouquet of white lilies. Sergeant-Instructor Kelly, Enniskilling Fusiliers, and Corporal Mackness, brother of the groom, officiated as best men, while Miss Jewel and Miss Jennie Gibson were bridesmaids. The groom's gift to the bride was a gold watch and chain and to the bridesmaids gold brooches. The presents were numerous and handsome, and included a magnificent set of cutlery from the Warrant Officers and Sergeants of the groom's Regiment. The young couple will take up their residence at 110 Scott street.

THE VISITORS LIKE THIS CITY

Cannington Excursionists Had a Pleasant Trip Here.

Citizens Did Their Utmost to Make Their Trip an Enjoyable One.

The Cannington Gleaner referring to the recent excursion to this city from that town says:—

The excursion of the Young People's Society of All Saint's Anglican Church of Cannington, held on Friday, July 28th to Peterborough, proved a success. The excursion started from Beaverton and went out on the regular morning train, via Blackwater, arriving at Peterborough about 12 o'clock. Over three hundred took in the trip, which was greatly enjoyed by all.

After dinner most of the excursionists embarked on the steamer Water Lily and barge at the Wolfe street wharf for a sail up the waters of the Trent Canal, via the Lift Lock, the mechanism of which the members of the party viewed with great interest. A return trip was made to the foot of George street, where a majority of the party took the street cars and made a trip of the city to all the leading places of interest.

The excursionists returned the same evening by special train, leaving Peterborough at 10.45 p.m. arriving at Cannington a few minutes before 12 o'clock.

The citizens of Peterborough did everything in their power to give the Western people an enjoyable outing. Their kindness was much appreciated by the visitors.

DEATH OF POPULAR OTONABEE FARMER

Decease of Thomas Sisson—Funeral To-morrow.

The death occurred yesterday afternoon at his home in Otonabee, of Thomas Sisson, aged 65.

Deceased has been farming in the Stewart settlement for a number of years and has a host of friends all through that section.

The family left to mourn his loss consists of his wife, one daughter, Miss George Stuart, and three sons, all of whom are grown up, but unmarried.

The funeral takes place from the family homestead, and will proceed to St. John's Cemetery, Cavan.

HAIR NATURALLY ABUNDANT

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of little truths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ, and so far the only hair preparation that will positively destroy the germ is Newbro's Herpicide — absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes the hair glossy and as soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send ten cents in stamps to The Herpicide Co., Detroit, Mich. Ormond & Walsh, special agents.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Editor of Post Card Column:

Dear Sir,—Why not make the Charlotte street road on the south side, between Aylmer and the creek, wider, by making the ditch nearer to the side walk and elevating the road with granite stone or gravel to near a level with the summit of the road and place an underground drain with manholes sufficient to carry off the surplus water to the creek. The pass age entrance to Lewis street sembles what kind of ability our city aldermen possess for road making.

Hoping a hint to the wise men sufficient.

TEAMSTER.

C. P. R. OFFICIALS ARE HERE ON AN INSPECTION TOUR

The district officials of the C.P.R. have been in the city during yesterday and to-day on an inspection tour. Yesterday forenoon a private car attached to the noon express, containing Mr. H. P. Timmerman, general superintendent; G. S. Spencer, divisional superintendent, and A. Mosley, roadmaster, arrived, and has been at the C.P.R. station ever since. The officials have spent the day inspecting the company's property here, using a motor car, which they have with them to go over the branch lines and sidings.

The inspection has been satisfactory and the visitors found everything in good shape.

FIRST SEMI-FINAL LACROSSE GAME HERE TO-MORROW

To-morrow at the Riverside Park the first semi-final lacrosse game of the season will be played, when the Midland team will line up against the local twelve in what should prove the most interesting game of the season so far. The visiting team has a good reputation, and without doubt the game will be warmly contested. The local team will make a big attempt to defeat the team from the smelter town on Georgian Bay, and to do this they will have to play fast lacrosse. The boys are looking for a good gate to-morrow to help them out on their trip to Midland on Monday.

There should be a good crowd at the game because it will be well worth watching, and because the team deserves good support.

AN INSTITUTION OF WHICH PETERBOROUGH PEOPLE SHOULD BE PROUD

The Tate Optical Company Possesses the Only Complete Lense Grinding and Manufacturing Plant Outside of the Large Cities—Glasses Manufactured From the Rough—Eyes in This Establishment are Not Fitted From a Made-Up Stock of Glasses, But From Glasses Manufactured Specially for the Requirements of the Eye—An American Gentleman's Pleasant Surprise.

"The people of Peterborough should be proud of, and should appreciate, an institution like that in your city," said an American gentleman, who is spending the summer at Chemong, to the Examiner. This remark was made yesterday, and was directed towards the Tate Optical Company, the office of which company is almost opposite that of this paper. The circumstances which called forth this remark were then explained. It appears that the gentleman in question had broken his glasses while boating on Chemong Lake, and was in despair, fearing that he would be unable to get them repaired until he returned to Buffalo, as they were difficult glasses to make. He was telling his troubles to a friend at the hotel, and the latter suggested sending the broken pieces to Mr. Babcock, of the Tate Optical Co. who, he said, could make any kind of glasses to suit any eye. The advice was carried out, though he confessed he was not particularly confident of the result. His fears were groundless, however, for the next day's mail brought him a new pair of glasses exactly the same as those which had been broken, and he was greatly pleased, both with the work of Mr. Babcock and with the promptness with which the job was done.

He was so well pleased, in fact, that the next day he came in to the city himself to see what kind of a place the Tate Optical Company had that enabled them to do such difficult work as that represented by the job which had been done for him. He was greatly surprised when Mr. Babcock, in answer to his question, took him through the workshops and showed him the splendidly equipped grinding and manufacturing plant, a plant which is equal to any seen in the larger cities.

The Examiner was interested in the matter by this time, and paid a visit to the Tate Optical Company's rooms to see the manner in which the work was done. It was a revelation to the Examiner that in a place of the size of Peterborough a plant of this kind could be found.

In this office eyes are not fitted from a case of glasses already cut, from which one may be selected which will suit the eye, but which in the majority of cases does not. Here the glass is ground right in the workshop, to suit the peculiarities of the particular eye which is being fitted, and there is no chance work about it. It simply has to be right. In no place outside of the large exclusive wholesale houses is this work done, and that in Peterborough there is a firm with such enterprise is a matter for congratulation.

That it is appreciated, is evidenced by the large and constantly growing business which this firm does, orders coming to it from Millbrook, Port Hope, Campbellford, Norwood, Hastings, Lindsay, Lakefield, Cobourg, Orillia, Kinmount and even from the Northwest.

The business was established eight years ago by Mr. J. G. Tate, and is now run and managed by Mr. G. N. Babcock, who took over the business and practice two years ago, but who still retains the firm name.

Mr. Babcock has been associated nearly all his life with the drug and medical profession, and took up optical work exclusively about ten years ago. The long experience which he has had, together with his knowledge of drugs, has no doubt contributed to his success in the optical work which the firm now enjoys.

It is a fact which should be patent to all that a knowledge of such a delicate member as the eye, cannot be gained in a few weeks, or even months of study, but is only the result of years of experience and study.

By reason of this fact the Tate Optical Company is in a position to give the most thorough attention to the work of fitting glasses to any eye which requires them, and with their complete manufacturing plant is able to guarantee satisfaction.

The lens grinding and manufacturing room is under the supervision of Mr. Charles Primeau, who has been with the firm for nearly six years, and is therefore thoroughly competent.

In addition to the work of manufacturing glasses and fitting eyes, glass artificial eyes are supplied, and ear instruments and camera goods sold.

The firm enjoys a wide patronage and that it is meeting with such success is a matter for congratulation, both on the part of the firm, and the citizens of Peterborough, who benefit by having such an institution in the city.

RAPID PROGRESS ON NEW OPERA HOUSE

Walls Rapidly Rising Under Brick-Layers' Trowel.

The work of building the wall of the new opera house is being rapidly proceeded with under the direction of the contractor, Mr. J. J. McPherson.

There are about fifteen bricklayers at work, and they keep the helpers busy bringing brick and mortar.

In the rear where the stage is to situated, a maze of scaffolding has been erected, and the wall there has been built up over fifteen feet. But on the sides the walls have only attained a height of eight or ten feet.

From present appearances, with favourable weather conditions, the work will be completed in less than six weeks.

Go to Cobourg on Civic Holiday.

The Iron Moulders' excursion on the Civic Holiday promises to be the most enjoyable of all the trips out of town. Cobourg is the summer home of numbers of rich Americans, and this fact makes it worthy of a visit. The Charlotte street Baseball Team will play a game with the Wharf Rats of Cobourg, Town League Winners. A pavilion is to be erected for dancing for those who enjoy it. Hot water provided. Adults 75 cents; children 40 cents. You can get tickets from members of the Committee, or at the Examiner office. 4d32

LOCALS DROPPED GAME TO ROYAL CANADIANS

By Score of 6-5, "Pirates" Made a Garrison Finish—The Needful Hit Did Not Come—Quinlan Was in Fine Form and Would Likely Have Won Had He Pitched the Whole Game—A Good Crowd Was Present—Intense Excitement.

The Pirates made a garrison finish of their game with the Royal Canadians yesterday, but there was not quite enough of the garrison for them to come out on top. In the seventh, with the score 6-1, it looked as if the Royals were going to walk away with the game quite handily; but they nearly played with the fire too long, and narrowly escaped being burnt. Quinlan was put into the box in the eighth and put them over like peas. He had five strike-outs in two innings, the other being a pop fly which Callaghan easily corralled. At the same time the Pirates took a brace and indulged in a batting streak, chalking up four tallies. In the ninth, with men on bases, and no one gone, the chance to pull the game out of the fire was bright. The excitement was intense, and the crowd began to encroach on the field; but the needful hit was not to come. Rattray fanned and Callaghan flew out to second. There was still a chance for Quinlan to win his own game, but he was robbed of a hit to left, and the game was over.

The visitors are a well-balanced team and can make any team on the Midland League circuit travel some to come out on top. Phelan, who is now doing the slab work, for Oshawa, was in the box. He reminds one forcibly of Harvey Parker in his game on the Oval with the long drop last year, but Parker would pick up the ball and send it up to the batter, while Phelan went through a winding up process like a yawning man.

For one reason the locals did not seem to be able to connect safely with his offering, which seemed slow and easy enough, but he nearly toyed with the gun too long and had a close call from getting hurt.

Douglas was in the box for the Pirates for the first seven innings and was landed on freely and heavily in spots. "Prunes" Quinlan, who replaced him for the last two innings was in fine fettle and steamed them over in great style. His corkscrew curves mystified the Royals, heavy hitters and they could do nothing with him.

The double umpire system was tried yesterday probably for the first time in the history of baseball in Peterborough. The plan worked well, Lacheur of town, and Johnston of Toronto, alternating on the bases and on strikes and balls. Johnston appeared to be a little off on strikes and balls, but on the whole the umpire's work was good.

It was another good day for gate receipts. The stand was crowded and the crowd extended around the fence. There was a large attendance of the fair sex, many of them being visitors, but a majority of them assisted in the general intense excitement, and rooted for the locals. In the eighth and ninth everyone was in a frenzy; the rooting was incessant and deafening, and those who heard it across the river knew that yell all too well.

The Game.

First innings—The visitors went first to bat, and Ray was promptly given free transportation. Macherell's hit to third was played to second, getting Ray. Thomas and Poulter fanned.

Graham was out on his own, Shea fanned, Bellaghem singled, but Rattray grounded out. Score 0-0.

Second—Williams fanned, Baker sauntered, Cadman hit to third and Callaghan dropped the ball; and Baker was caught napping a minute later. Love fanned, and Cadman died at third.

Callaghan flew out to third. Quinlan grounded out to second, and Connors fanned. Score 0-0.

Third—Phelan fanned on his hit to centre, and was caught on Connor's great throw to first. Ray waited for four wide ones. Mackerell's hit to short was put over to second, getting Ray. Thompson was out on his dump in front of the plate.

Earls fanned, Douglas was out on his pony hit, and Graham flew out to centre. Score 0-0.

Fourth—Poulter fanned, Williams' dump was fatal; Williams, Baker and Cadman each had singles to left, chalking up two runs. Phelan fanned.

Shea was safe on pass of his third strike. Bellaghem walked, and Rattray fouled out. Callaghan beat out his grounder, the pitcher fumbling and first dropping to the throw. "Dubbie" scoring, Quinlan's grounder to pitcher was fatal for Bellaghem at the plate, Connors grounded out. Score 2-1.

Fifth—Ray grounded out to first, Mackerell singled, Thomas grounded out Poulter, Walker and Williams fanned.

Earls grounded out, Douglas hit safely over second, and Graham grounded out. Shea singled and went to second on the throw in. With men on second and third Bellaghem grounded out. Score 2-1.

Sixth—Baker flew out to centre, Cadman singled, Love was safe on Bellaghem's error. Phelan hit to centre and two more tallies were registered, Phelan's hit to third caught Phelan at the plate, Mackerell grounded out.

Rattray went out, second to first, Callaghan flew out to left, Quinlan beat out his grounder to third, but Connors hit to short was fatal for "Prunes" at third. Score 4-1.

Seventh—Thomas doubled to centre, and Poulter fanned, Williams' hit to the sawdust pile should have only been good for two sacks, but he made the circuit on the high throw in and a block ball. Two more runs were chalked up. Baker grounded out, and Connors made a great catch of Cadmore long fly.

Earls flew out, Douglas grounded and Graham fanned. Score 6-1.

Eighth—Quinlan started up the Royals and Love, Phelan, and Ray never saw the ball.

The locals got three tallies in their half. Shea got put his hit to third, Bellaghem sauntered, and Rattray's single scored Shea. Bellaghem scored on a low throw to second. The excitement was intense, but Callaghan fouled out. Quinlan hit safely past first, "Ray" scoring. Connors flew out to left, but Earls singled to the same place. Douglas went out, pitcher to first. Score 6-4.

Ninth—It was one, two, three for the visitors again. Mackerell and Thomas fanned, and Poulter flew out to second.

Graham hit along first and was safe on Williams' muff. "Dubbie's" hit to pitcher was played to second, but the throw was muffed. Bellaghem's hit over second scored Graham. It only needed another hit to even matters up, but Rattray fanned, Callaghan and Quinlan flew out to left, and the game was over. Total score 6-5.

Mild Smallpox at Dresden.

Chatham, Aug. 8.—Smallpox has broken out in Dresden and vicinity. Seven cases have already been reported and three houses quarantined with a list of eight cases. The disease is of a mild type.

Venezuela Wants Torpedo Boats.

Genoa, Italy, Aug. 8.—The Venezuelan Government has placed an order here for six torpedo boats and one torpedo boat destroyer.

Strike to Involve 50,000 Men.

Cleveland, Aug. 8.—Five of the seven members of the executive board of the International Association of Bridge and Structural Iron Workers have voted in favor of a strike against the American Bridge Co. The strike is contingent on the action that may be taken by President Frank Buchanan. He is in Chicago. If the structural iron workers are called out on account of the grievances that exist at New Haven, Conn., it is said that 50,000 men will be involved, mostly in the eastern States.

Not Just as Good

When you go to your druggist to buy "Ozone" ask and demand "Solution of Ozone, the coupon kind". This will give you a twenty-five cent package of "Celery King". It will give you the best preparation of "Ozone" in the world and it gives you about twice as much for your money as other brands, sixteen ounces for fifty cents, over twice that much for a dollar and a package of the well known remedy "Celery King" free.

We put "Celery King" coupons in our "Ozone" because the people know "Celery King", because it gives better results with "Celery King" and because no other firm can give "Celery King" with "Ozone". It cures, that's the reason we give you a package free and that's the reason you should never buy any other kind.

Ask for "Solution of Ozone, the coupon kind". Fifty cents and one dollar at your drug store and don't take any other kind, because if you do you won't get a package of "Celery King".

Sold by W. B. WARNE.

THE SOUTHERN SCOURGE.

Total Deaths At New Orleans Monday 8; Total to Date 113.

New Orleans, La., Aug. 8.—Official yellow fever report to 6 p.m. yesterday: New cases, 32; total to date, 665; deaths yesterday, 8; total deaths to date, 113; new sub-foci, 4; total sub-foci to date 27.

With $70,000 in hand resulting from an assessment of the citizens of New Orleans, no difficulties stand in the way of immediate federal control of the fever situation. Dr. White estimates the total expenses for eradication at $1,500 to $2,000 per day. There is, therefore, available enough money to go forward with the federal plans at high pressure for a month or six weeks and long before that time, it is declared by Mayor Behrman and Chairman Darrington of the citizens committee, that the total of a quarter of a million asked for by the Government will be on hand. If complete success crowns the work of the marine hospital bureau, it is possible that the fever will be completely under control by Sept. 15, without requiring the expenditure of the maximum sum which is asked from the city to stamp out the disease.

Three Suspects.

New York, Aug. 8.—One passenger and two members of the crew of the steamer Comus, which arrived from New Orleans yesterday, were transferred to Hoffman Island for observation, all of them showing a high temperature. The steamer was detained at quarantine until 6.40 p.m., when she proceeded to her pier.

Test the Kidneys.

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy, there is no preparation so prompt and sure as through as Dr. Chase's Kidney-Liver Pills.

ALBERT COLLEGE

BELLEVILLE, ONT.

Chamberlain's
COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

TWO SISTERS ARE DROWNED

Four People Adrift in Leaky Boat and Only Two Saved.

EXPERIENCE OF A FARMER

Leslie Short of Foley Township Rendered Unconscious by Lightning Bolt, and Partially Paralyzed After Regaining Partial Consciousness Saves Some of His Stock by Crawling to Barns.

St. Hyacinthe, Que., Aug. 8.—Three young girls, daughters of Elzear Phaneuf of St. Hyacinthe, and a young man named Alphonse Sicotte, were about to cross the Yamaska River in a boat Sunday night, when they discovered that the boat was leaking badly. In the excitement the four upset the craft and two of the girls, named Anna and Laura, aged 17 and 14, respectively, went under the water before assistance could reach them. The other sister, named Amosa, aged 9, and the young man, Sicotte, clung to the boat, which was upside down, till they were rescued by some campers in the vicinity.

Farmer's Awful Experience.

Bowmanville, Aug. 8.—Leslie Short of Foley miraculously escaped death Sunday morning, when his barns and outbuildings were struck by lightning during the severe thunderstorm.

He was in the building at the time and was rendered unconscious by the shock, which paralyzed the lower part of his body. When he regained partial consciousness he crawled on his hands and knees and released a mare and colt and then crawled to the house.

All his buildings, with 50 tons of hay, farm implements, a cow, two calves, 25 pigs, cream separator and about 100 bushels of barley, were burned.

The buildings and contents were partly insured.

Houses Burned.

Brockville, Aug. 8.—During a severe thunderstorm Sunday morning lightning struck a house owned by E. Client. A large portion of the roof and one end of the house was torn away. The inmates were shocked but not injured.

A farmhouse on the Prescott road, a few miles from here, occupied by M. Powers, is reported to have been struck and burned.

Barns and Crops Burn.

Dutton, Aug. 8.—During a very severe electric storm on Saturday evening, the barns on the farm of Daniel Erskine, five miles north of this place, were struck by lightning and completely destroyed by fire, together with all this season's crops. Insurance $700.

CRUSHED UNDER SHEET STEEL.

Man Is Fearfully Crushed in Brockville Railway Yard.

Brockville, Aug. 8.—In the C. P. R. yards yesterday, R. Jacobs of the James Smart Co.'s Works received terrible injuries by a case of sheet steel weighing 600 pounds, which he was assisting in unloading, falling to the ground.

Jacobs was pined between one of the wheels and the steel, and when extricated it was found that every rib on his right side was crushed in. He also received other injuries.

His life is despaired of.

Ottawa Policeman Run Over.

Ottawa, Aug. 8.—Police Constable Harry Hatton was severely injured in an accident on the Chelsea road last night. He was run over by a bus laden with picknickers, and is in St. Luke's hospital suffering from broken ribs, fractured collar bone and other injuries. The outcome is doubtful.

Killed by Pitched Ball.

London, Aug. 8.—While playing ball yesterday afternoon at Tecumseh Park, Doty Webb of the Blue Label team, an outfielder, received fatal injuries. He was at the bat and was struck on the left temple by a pitched ball. He recovered sufficiently to return home, but later lapsed into unconsciousness and succumbed to compression of the brain.

TRAIN AND TROLLEY COLLIDE.

One Dead and Six Fatally Hurt—Gateman Under Arrest.

Cleveland, Aug. 8.—The last Pittsburg flyer No. 650, on the Cleveland and Pittsburg Railroad, crashed into an eastbound St. Clair street car at 9.30 o'clock Sunday night, killing a child and instantly and fatally injuring six people, while 15 others were seriously hurt.

The car contained 40 passengers, who were bound for their homes and for amusement resorts. Only a few escaped uninjured.

V. V. Lillie, the gateman employed by the Pennsylvania Co. at the St. Clair street crossing, has been placed under arrest. He admits that the gates were not lowered. Lillie is held upon the charge of manslaughter.

Gasoline Launch Explodes.

New York, Aug. 8.—The gasoline tank of the launch Chester, owned by Robt. Ingall of Carlstadt, N. J., exploded Sunday night. There were eight persons on board the launch, of whom six were rescued. The missing ones are Herbert Coter and William Adele, both of Paterson, N. J.

Excursion Boat Sinks.

Indianapolis, Ind., Aug. 8.—The excursion steamboat Sunshine sank yesterday afternoon at Broad Ripple Park, ten miles from the city, with 180 passengers on board. Only one woman was aboard, and she was rescued by a launch. No one was drowned, but several were injured in the panic.

THE REAL QUESTION.

The real question of disease is "Can I be cured?" If you or anyone dear to you is losing strength, flesh, energy and vitality, if you are wise you will not spend time trying to figure out just what name to call the disease by.

It is almost impossible to draw the line where debility and weakness merge into consumption. Your trouble may not be consumption to-day, but you don't know what it *may become* to-morrow. Hundreds of people have been restored to robust health by Dr. Pierce's marvelous "Golden Medical Discovery" after reputable physicians had pronounced them consumptive beyond hope.

Were they in consumption? Nobody can ever know.

The important point is that they were hopelessly ill but this matchless "Discovery" restored and saved them.

"I was not able to do hardly any work at all," says Mrs. Jennie Dingman, of Vanburen, Kalamazoo Co., Mich., in a most interesting letter to Dr. Pierce. "I had pain in my left side and back and had headache all the time. I tried your medicine and it helped me. Last spring I had a bad cough; I got so bad I had to be in bed all the time. My husband thought I had consumption. He wanted me to get a doctor, but I told him if it was consumption they could not help me. We thought we would try Dr. Pierce's Golden Medical Discovery and before I had taken one bottle the cough was stopped, and I have had no more of it remaining. Your medicine is the best I have taken."

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain sealed envelope, absolutely free. His nearly 40 years experience as chief consulting physician of the Invalids' Hotel, at Buffalo, N. Y., has made him an expert in chronic diseases.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.

Dysentery

IS a form of diarrhoea, and consists of copious and frequent liquid discharges from the bowels, accompanied by painful straining sensations. Dr. Fowler's Extract of Wild Strawberry is a specific for diarrhœa, dysentery, and all summer complaints, and has been a well-known remedy for 60 years. You are not taking a new and untried remedy when you use Dr. Fowler's Extract of Wild Strawberry.

Mrs M. A. SUMMERFIELD, Canboro, Ont., writes: "I have used Dr. Fowler's Extract of Wild Strawberry in my family for years, and have always found it a wonderful remedy for Diarrhœa and Dysentery. I know of a great many others who have used it with the most satisfactory results."

REFUSE ALL SUBSTITUTES.
THEY'RE DANGEROUS.

Pains in the Chest.

Mr. John Clark, Port Hope, Ont., states: "Last winter I was so bad with a cold that I could not speak above a whisper, and had great pains in the chest. A friend advised me to try Dr. Chase's Syrup of Linseed and Turpentine, and one bottle cured my cold which I believe would have proven very serious if I had not used this medicine."

PARADED 4,000 STRONG.

London Old Boys' Carnival and the City's Semi-Centennial.

London, Aug. 8.—The semi-centennial of the city and London Old Boys' carnival opened here yesterday afternoon with an immense parade, requiring an hour to pass a given point. There were 18 bands of music in the parade, and it is estimated that four thousand men were in line, including visiting old boys from Canadian and American cities, civic boards, Parliamentary representatives, members of fraternal organizations, veteran firemen and others. Thousands of people lined the streets and cheered the procession as it moved along.

During the afternoon and again in the evening a program of sports and special features was carried out at Queen's Park. Last night many of the visitors left for home, but a large part of those here will remain for the whole of the carnival, which extends over the week.

At Peterboro.

Peterboro, Aug. 8.—A large crowd of Peterboro Old Boys from Toronto arrived here by special train and were welcomed by the Mayor and reception committee of the City Council. The 57th band enlivened things with their music on the arrival of the train, playing "The Boys of the Old Brigade."

At Grand Valley.

Grand Valley, Aug. 8.—The Village of Grand Valley was in holiday attire yesterday in honor of the sixth annual excursion of the Dufferin Old Boys. In the afternoon about 1,500 people went to the park.

At Lindsay.

Lindsay, Aug. 8.—Lindsay received with open arms her old sons and daughters yesterday. The town was decorated with flags, bunting, etc., from one end to the other. Over 2,000 visitors came to celebrate, a third of them taking advantage of the special train on Saturday.

Reception For Staff-Sergt. Crowe.

Guelph, Aug. 8.—Staff-Sergt Charles H. Crowe returned yesterday from Bisley and was tendered a public reception and was made the recipient of a handsomely prepared address. Sergt. Crowe carried off the largest individual prize winnings amongst the Canadian team, and his glory created great enthusiasm here. In replying, Sergt. Crowe urged greater cultivation along the line of rifle shooting. Over three thousand citizens were present at the event, and the band was present and furnished music.

Gen. Roy Stone Dead.

New York, Aug. 8.—Gen. Roy Stone, veteran of two wars, died Saturday at his home, in Mendham, N. J., after a long illness, in his sixty-nine year. In civil life Gen. Stone was an engineer and was connected with many important works, including the blowing up of Hell Gate. He leaves a widow, who was Miss Marker, of Pennsylvania, and one daughter, the wife of Lord Monson, of England. He was known throughout Canada through his great interest in the good roads movement.

Universal Penny Postage.

London, Aug. 8.—Sir J. Ward, Postmaster-General of New Zealand, at the Postal United Congress at Rome, will move resolutions for the establishments of universal penny postage. He says it cannot be too clearly shown that he has the public opinion of the mother country behind him. The Universal Penny Postage League, which Henniker Heaton is founding, is likely to be very influentially supported. Approving letters are reaching him from all quarters.

WELCOMED THE KING IN A MIST

French Fleet Guests of King and Navy For a Week.

GIVE KING ROYAL SALUTE

King and Commanders Exchange Ceremonial Visit After Visitors Warm Reception at Cowes, Isle of Wight—Masses, When Rain Had Ceased, Came Out and Cheered the Frenchmen.

Cowes, Isle of Wight, Aug. 8.—The French fleet, consisting of eighteen battleships, cruisers and torpedo boat destroyers, under the command of Vice-Admiral Caillard, dropped anchor in the Solent yesterday afternoon to spend a week as guests of King Edward and the British navy. Heavy showers throughout the morning drenched the decorations ashore and afloat, and shrouded the great gathering of yachts and British warships collected to welcome the visitors in a heavy mist.

A temporary let-up of the rain brought out the sightseers, and thousands lined the sea front at Southsea and cheered Admiral Caillard's fleet as it passed. Off Spithead the first salutes were exchanged between the visitors and the land forts.

As the French vessels took up their anchorage parallel with the line of British warships, all of which were manned and dressed, they fired a Royal salute in honor of King Edward, whose standard was flying from the Royal yacht Victoria and Albert. The mass of spectators ashore and afloat gave the heartiest greeting to their neighbors from across the channel.

Yesterday afternoon was spent in ceremonial calls, commencing with the visit of Admiral Caillard, other French admirals and captains, to King Edward. His Majesty subsequently returned the visit on board Admiral Caillard's flagship, the Massena.

MARSTRAND OSCAR'S HAVEN.

Strenuous Time Fagged Swedish Monarch and He Goes to the Baths.

Stockholm, Sweden, Aug. 8.—King Oscar is leaving the capital in search of quiet and rest and Crown Prince Gustave will again be appointed regent. The King yesterday issued the following proclamation:

"As on the advice of my doctors, I must for some time seek quiet, fresh air and the baths in order to once more, with God's help, find health and strength, after the strenuous time so trying to body and mind, through which I have passed in consequence of the trials to which I have been subjected in the last few months, I wish, before handing over the reins of Government to my son, the Crown Prince, and before leaving the capital to renew the thanks to the Swedish people which I have previously expressed.

"I cannot sufficiently emphasize how dear to me the many proofs of love and sympathy which I have received from all directions have been, and how great a consolation they have been to me for the loss of a people, whom I wished with all my heart to unite with my Swedish people."

King Oscar will leave Monday next for Marstrand, Sweden, situated on a small island in the Kattegat.

That Chinese Boycott.

Yokohama, Aug. 8.—The Chinese here have agreed not to deal in American goods, not to ship goods on any American steamer, especially the Pacific Mail Co.'s steamship China, and to punish any Chinese dealing in American good through others; also not to deal with American banks and insurance companies. Chinese convicted of contravening this agreement will be heavily fined.

Prof. Bell's Father Dead.

Washington, Aug. 8.—Alexander Melville Bell, father of Prof. Alexander Graham Bell, died yesterday.

He was 86 years of age. Death was due to pneumonia, following an operation for diabetes. He was born in Scotland and was one of the three generations notable because of their developments of the art of instructing the deaf and dumb in methods of communication.

No Trace of Ziegler Expedition.

Baltimore, Aug. 8.—The Baltimore News yesterday received the following cablegram from Dr. Oliver L. Fassig of the Ziegler relief expedition: "Shannon Island, via Edinburgh, August 7, 1905—No members of Ziegler expedition, Shannon Island, July 31. Much ice north Atlantic. Reach New York 20th."

That "Rich Fruity Flavor"

RESULT of expert blending of strong, rich Indian Tea with delicate, fragrant Ceylon Tea. That "rich fruity flavor" has made Red Rose Tea the table beverage of thousands of homes.

It distinguishes Red Rose Tea from all other teas.

It makes it different from and better than any other tea—it's a flavor you won't forget. It makes

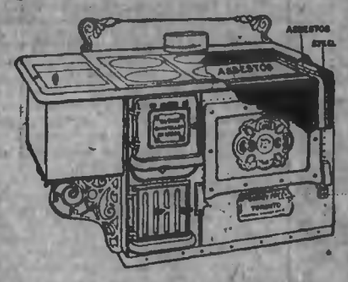
Red Rose Tea

good Tea

T. H. Estabrooks
St. John, N.B., Toronto, Winnipeg

Oxford Chancellor Range

The Oxford Chancellor Range is built to stand the wear and tear of years of usage. The body is constructed of heavy patent rolled steel plates, interlined throughout with asbestos millboard. The steel body is closely riveted together with specially clinched rivets, so that no matter how hot the fire the body will not warp and allow the heat to escape. This construction makes the Oxford Chancellor Range perfectly and permanently air-tight. No leakage into the flues, stopping the draft and impairing the oven heat, is possible.



The asbestos interlining insulates the heat of the range the outside of the range never getting overheated.

If you would know more of the Oxford Chancellor Range write us, and we'll tell you all about it and where you can see it.

Drs. KENNEDY & KERGAN

Specialists in the Treatment of Nervous, Blood, Private and Sexual Diseases of Men and Women. 25 Years in Detroit.

No Names used without Written Consent. Cures Guaranteed.

Thousands of young and middle-aged men are annually swept to a premature grave through early abuse or later excesses. Chas. Anderson was one of the victims, but was rescued in time. He says: "I learned an evil habit. A change soon came over me. I could feel it; my friends noticed it. I became nervous, despondent, gloomy, had no ambition, easily tired, evil forebodings, poor circulation, pimples on face, back weak, dreams and drains at night, tired and weak mornings, burning sensation. To make matters worse, I became reckless and contracted a blood disease. I tried many doctors and medical firms—all failed till Drs. Kennedy & Kergan took my case. In one week I felt better, and in a few weeks was entirely cured. They are the only reliable and honest Specialists in the country."

DEBILITY—We guarantee to cure you or no pay. You run no risk. We have a reputation and business at stake. Beware of frauds and impostors. We will pay $1,000 for any case we take that our NEW METHOD TREATMENT will not cure.

We treat and cure Nervous Debility, Varicocele, Stricture, Weak Parts, Kidney and Bladder Diseases. Consultation free. Books free. Call or write for Question List for Home Treatment.

DRS. KENNEDY & KERGAN Cor. Michigan Ave. Shelby St. Detroit, Mich.

No Waste of Heat In the "Bison" Hot Water Heater

The "Bison" has two drafts—a center draft to burn quickly, and a side draft to heat quickly.

The side draft carries the heat up a side flue passing up and down, and up again through a center flue, always in contact with water surfaces, trapping the heat and burning the gases. See illustration.

The draft is continuous, syphon-like in action, but always under easy control.

Not a particle of heat is lost—the sections get it all, the water heats quickly—the effect on the radiators is almost instantaneous — The "Bison" has more good heating points than all other heaters combined.

Telephone.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

PETERBOROUGH LIGHT AND POWER COMPANY OBJECTS TO A CONTRACT

Being Entered Into With the Otonabee Power Company to Supply Incandescent Lights for the City Streets—Says it Would be a Violation of Contract With Them—Many Communications Dealt With at the Monthly Meeting of the City Council Last Night—Second-hand Dealers Want License Fee Abolished.

Those present at the regular monthly meeting of the City Council last night were Mayor Best, and Aldermen Johnston, Begley, Hicks, Mason, Crowe, Leary, Hall, Tovey McIntyre, Batten, Scott and Adams.

The minutes of the last meeting were taken as read, and the communications were considered. These, and the manner in which they were dealt with are as follows:—

From W. H. Kelly, Rubidge street, suggesting the advisability of having the ownership of part of a lot of his determined, and requesting the Council to have a line struck and a valuation placed thereon. If the prices was reasonable he might purchase the said lot.—Town Solicitor, to report to the Property Committee.

From Dennistoun, Peck Kerr and Stevenson, pointing out that the acceptance of a recommendation to enter into a contract with the Otonabee Light and Power Company for street lights, would interfere with the rights conferred upon the Peterborough Light and Power Company, under the agreement of Feb. 2nd, 1904. It was pointed out that the latter company have agreed to furnish and supply electric light for such street lighting as may be required for the purpose of lighting the City of Peterborough and any additional territory added thereto, and and are prepared to carry out the terms of the contract by placing lamps of the power specified by the contract where they may be required by the contract.—Fire, Water and Light Committee.

From the City Engineer, drawing the attention of the Council to the necessity for ordering the steel girders and expanded metal for renewing the decks of the bridges on Hunter, Simcoe and George streets, as the material cannot be procured in less than six months after receipt of order at which time Mr. Evans will be ready to undertake the work. The Engineer has offers of 2 1-4 cents per pound for steel girders and 8 cents per square foot for expanded metal.—Board of Works with power to act.

From property owners, asking that a pipe sewer be constructed on Sherbrooke street from Park street to the Monaghan Road.—Board of Works.

From property owners, asking that a pipe sewer be constructed on Bonnell avenue from Charlotte to to King street. A similar petition was received from property owners on Pearl avenue, from Charlotte to King street.—Board of Works.

From the Otonabee Power Company, quoting a rate on 32 c.p. lamps, for street lighting, of $40 each per lamp per year, anywhere in connection with their lines or within any reasonable distance, the contract to be for a number of years.—Received.

From T. Q. Quartermaine, Secretary of the Board of Trade, enclosing, at the direction of the President, Mr. Hughes Charles, a letter from Charles Norris, advertising manager of the Mail and Empire, making a proposal with reference to advertising the town through that paper.—Manufacturers Committee.

From W. C. Simmons, 449 Reid street, asking permission to cut down and carry away the trees on the road allowance for Pearl avenue, between King and Charlotte streets. — Received.

From O. L. Waterman, M. T. Tutcher & Son, Robert Flynn and Robert Bagley, dealers in new and second hand furniture, asking that the imposition of ten dollars each for a license be thrown off for the reason among others; that every dealer in stoves and house furnishings is in the habit of taking second hand goods in part payment for new, and in selling the same as best they can. The petitioners were of opinion that every man in such business was compelled to do so in order to carry it on, and there was no license fee imposed upon such. — Finance Committee.

From Patrick McAvelia, asking to have a correction made in the measurement and assessment of his property on Rubidge street for sewer. —Engineer to report.

From E. M. Elliott, enclosing the award of John Carnegie and Wm. Casement, arbitrators of administration of justice accounts. Under this award the city will pay to the county each year the sum of $28.40.—Received.

From the Peterborough Cereal Company, asking for the privilege of putting in a light verandah along the north end of their mills as a protection to grain, flour and cereals, from unfavourable weather. The letter stated that there were now forty hands employed by the company, and that there are over 2,000 monthly customers. Granted.

From Thos. A. Lang, asking that a walk be built in front of his new house at the corner of Smith and Bethune streets. He also stated that he did not require sewer connection this year. Board of Works.

From Mary Finn, asking for remission of taxes. Court of Revision.

From property owners, asking that a granolithic walk be built on the north side of Smith street, from Downie street, 48 feet south. Board of Works.

From W. G. Morrow, Secretary-Treasurer of the Board of Education, asking that Chief Ronzel be appointed Truant Officer, at $50 a year, as usual. Finance Committee.

From D. W. Dumble, re Cambridge street, stating that he had executed to the Municipal Corporation those parts of lots 17 and 18, plan 35, required to continue the street southerly to Elm street, width 66 feet, and that the deed would be delivered when the new street was graded, gravelled, and rolled. Board of Works.

From Tennese Guerin, calling attention to the bad condition of the crossing leading to the Cook estate. Board of Works.

From property owners, asking that the walk on Auburn street, Ward 5, be repaired. Board of Works.

From Joseph Maher, on behalf of the T. A. S., asking that the taxes on the rooms of the T. A. S. be remitted as usual. Finance Committee.

From C. H. Rust, City Engineer, Toronto, enclosing a programme of the annual meeting of the American Society of Municipal Improvement which meets in Montreal in September. Committee of the Whole.

From the Otonabee Power Company, asking for the privilege of placing poles on certain streets. Committee of the Whole.

From Dumble & Johnston, stating that the mother of the late Margaret A. Lorey had instructed them to obtain compensation from the town because of the drowning of the girl on June 8 last, by falling through a hole in the old London street bridge which was then under the supervision of the town. Legal Committee.

From A. P. Poussette, stating that his client, Thomas W. Hubel, of Smith, claimed damages from the town for injury to his horses, which broke through Brock street bridge on July 5th last. Legal Committee.

Ald. Adams introduced a by-law authorising an agreement being entered into with John Gibson for crushing stone, on terms as set forth in the Board of Works report. It was given its several readings.

CITY NEWS OF TO-DAY

—Quaker Bitters, the Great Blood Purifier, at Ormond & Walsh, Druggists. 15eod

—The chief has a bunch of keys, which were picked up in Jackson Park.

—Show Case for sale cheap. Apply at the Frangery, 2 doors west of post office.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonnel street. 'Phone 199.

—Some bad boys stuck a sheet of fly-paper on to a dog's tail this morning, and collie roamed the streets, the butt of many a joke.

—There was nothing doing at the police court this morning. A case of "d. and d." was settled out of court by a fine of $3 and $4.15 costs.

—We clean, press and do minor repairs to your wardrobe for a trifle. Ingliss. Telephone 575, and we will send for and deliver your parcels. "My Valet," George street.

—Oshawa people are hoping that Toronto capitalists who are now looking over the ground may decide to establish a gas plant for the supply of light, heat and power.

—Guelph merchants have resolved to no longer give prizes to outside fall shows, nor will they advertise in programmes or circulars in connection with entertainments. They will confine themselves to newspapers. Wise resolve.

—The business staff of the Examiner was this morning presented with a box of thimbleberries by Mr. S. A. Oke, a shipment of which he just received. We can say from experience that they are first-class.

—The Salvation Army Band has chartered the steamer City of Peterborough to run a moonlight excursion down the river on Wednesday evening, August 9th. The boat will leave the wharf at 8 o'clock, and will return about 11 o'clock. A delightful trip is anticipated. It

—The fittings now in use in the Peterborough post office, including pigeon holes and office fixtures, are being replaced next week. These fittings will be sold en bloc, or in any quantity. Anyone desirous of having a nice set of pigeon holes can be suited. Apply to D. Bellegham, contractor. 3d

—The old house on Rubidge street, mentioned as being converted by Mrs. Doherty into a double dwelling, was built in 1839 — 66 years ago. It is probably among the oldest houses in the city. It contains enough timber to build a 200-acre barn in modern style. Under the kitchen annex 14 x 14 feet, were sills of clear stuff, pine, 14 x 14 inches square.

—Civic Holiday excursion to Toronto and Niagara Falls and return, via Canadian Pacific Railway Co. Toronto and return, $2.05, good to return August 15. Niagara Falls tickets $3.20, good to return August 10. All tickets good going only on train leaving Peterborough at 8 a.m. For tickets and all information see W. McIlroy, City Passenger Agent, 343 George street. 5d32

PERSONAL MENTION

If You Have a Visitor or if You are Yourself Going on a Visit, or Have Just Returned, Send Word to the Examiner, Telephone the Editorial Rooms No. 234 or Drop a Card in the Post Office, or Come Into the Office and Tell the Reporters. The Examiner Wants to Get the News, and Your Friends Will Like to Read It.

FIRST SESSION OF THE PEACE CONFERENCE WAS HELD TO-DAY

Special to the Examiner

Portsmouth, N. H., Aug. 9.—The first session of the peace conference began shortly after 10 o'clock this morning in the general stores building at the navy yards. Arriving in automobiles, the envoys of Russia and Japan were escorted by Secretary Pierce to the rooms on the second floor prepared for them. Then Mr. Pierce, when all were gathered in the council chamber, announced it was his pleasure, as the United States Government representative, to turn over the rooms for the use of the representatives of Japan and Russia, and to assure them of the deep interest the United States felt in the happy outcome of their labours. Then with a bow, Mr. Pierce withdrew to the rooms reserved for himself and the envoys of the two warring empires were left face to face to settle down to business.

Portsmouth, N. H., Aug. 9.—The first session of the peace conference lasted about an hour. No business was done besides exchanging credentials and arranging a programme for future sessions.

THE ODDFELLOWS ARE NOW IN SESSION

Annual Grand Encampment Opened Yesterday in Brockville —Reports of the Grand Master, Secretary and Treasurer—R. R. Bent Elected Grand Warden, and G. C. Mortimer Grand Patriarch.

Brockville, Aug. 8.—The I. O. O. F. Grand Encampment opened their 36th annual convention here this morning with an attendance considerably larger than the average.

The report of E. B. Butterworth, Grand Master, referred to the establishment of associations of Oddfellows in large centres, whose objects are as well to promote the principles of the order as to bring into mutual intercourse, socially as well as in the lodges, members of the order resident in those cities whose home lodge is elsewhere. The returns for the years 1902, 1903 and 1904 showed that the I. O. O. F. was gradually overcoming the yearly loss heretofore sustained through suspensions. The increase in membership this year is 1,843. The Grand Master recommended that the proposed resolution making it legal for State grand bodies to adopt a law authorizing the institution of lodges upon the petition of five third degree members in good standing, or upon the application of twenty persons eligible to membership in the order be passed. Satisfaction was expressed with the Relief Association, whose membership was now 18,400, and would be 20,000 next year.

The report of the Grand Secretary, J. B. King, showed that the bonds issued for lodge officers amounted to $137,580. The cost to the lodges bonded was $304.64. The Oddfellows' Home was reported in a satisfactory condition. The sum of $1,947 had recently been received from lodges and individuals, thus placing the home in good financial condition. The receipts were $6,594.73 and expenditure $6,353.67, leaving a credit balance of $241.67. The assets amounted to $20,580.47. The general receipts were $15,966.48, and expenditure $14,069.58.

The treasurer reported a balance on hand on December 31, 1904, of $2,035.29.

The result of the count of the ballots for Grand Warden was announced, Mr. R. B. Kent being elected by a majority of 38.

The following officers were elected: Grand Patriarch, Geo. C. Mortimer, Toronto; Grand High Priest, Joseph Powley, Kingston; Grand Senior Warden, R. N. Jennings, Palmerston; Grand Scribe, M. D. Dawson, London; Grand Treasurer, Edmund Beltz, London; Grand Junior Warden, Jas. C. Spence, Brantford; Grand Marshall, Richard Lee, Walkerton; Grand Sentinel, R. Ketcheson, Belleville; Grand O. Sentinel, Jas. F. Brush, Forest; Deputy Grand Patriarchs: No. 1, T. H. Wigle, Ruthven; No. 2, R. Logan, Morrisburg; No. 3, W. R. McDermack, Brantford; No. 5, J. A. Burwash, Jarvis; No. 6, R. R. Albertson, Niagara Falls; No. 7, B. Dykeman, Galt; No. 9, Wm. Lancombe, Sarnia; No. 10, G. Fraser, Parkhill; No. 12, R. N. Taylor, Exeter; No. 13, T. J. Elliott, Wingham; No. 14, G. B. Moogk, Waterloo; No. 16, Jos. Bell, Toronto; No. 17, L. Rogers, Oshawa; No. 18, J. Douglas, Walkerton; No. 20, A. Matthews, Belleville; No. 21, A. Bant, Kingston; No. 22, M. T. Pinkerton, Ottawa; No. 23, A. C. Miller, Brockville; No. 30, C. M. Tenkle, Quebec.

EXCHANGE OF CENTRAL PARK LOTS NOT TO BE MADE

There is not much prospect that the reported transfer of the Central Park lots between the Government and the Board of Education will be made, at any rate in the near future. This is the statement of Alderman Leary, the chairman of the special committee appointed by the council to confer with the members of the Board of Education in reference to the matter. Ald. Leary has decided that he will not call a meeting of his committee to meet the School Board, since he has seen a majority of the members of the Board and they are of the opinion that it will be better to allow the matter to lie dormant at the present time.

Ald. Leary states that what he is most anxious for, and what everyone that he has spoken to on the matter advocates, is that the armoury and the institute be erected on the west side of the lots. It appears that it has been arranged between the three parties interested, the city, the Board of Education and the Government, that both buildings should be erected on the centre of the lot, half way between George street and the western boundary, but since that time a considerable change of opinion has been developed, and now nearly everyone thinks that the best place for them is at the west side. Ald. Leary feels so strongly on the matter that if necessary he will postpone his trip to the west and stay here and fight it out.

If the change suggested is to be made, representatives will have to come from this city to the Government on the matter, since it has been decided otherwise by the Department.

It appears that there is no urgent necessity for the change in the lots, since the Board of Education has been given an agreement by which they have secured the right to use the present Separate School building.

NOT "FIFTH WARD" OR "EAST PETERBOROUGH" BUT "EAST CITY"

At a council meeting on Monday night Alderman Batten aired the injury to his aesthetic nature caused by designating the portion of the city formerly called Ashburnham, as the Fifth Ward. The title is certainly not elegant and has only the merit of being explicit. But Alderman Batten's proposed substitute, East Peterborough, is open to objection also. "East Peterborough" is the title of the electrical district representing a rural riding and its adoption would lead, especially at election times, to confusion. Besides East Peterborough being a strictly rural riding that name would be too bucolic and too little urban to designate the fifth part of a city. The worthy alderman requests the newspapers to use the title "East Peterborough," but the Examiner, for one, must decline, and will use another title till some better one can be suggested or officially adopted. The city of London is divided into different districts under the title of "City," "East City," "West City," etc. Now British precedent is good enough for the Examiner. Very many of our streets bear names of old country places like Edinburgh, London, Dublin, etc., and it strikes us that "East City" would be a good title for the old Ashburnham part of the city. The river is the natural boundary of the eastern ward of the city, the other wards having arbitrary boundaries. If we were to say in print or otherwise that a certain event was taking place on "Brown street, East City," the locality would be exactly and intelligently indicated—there would be no possibility of confusion. If however we were to say that the event happened on "Brown street, East Peterborough," that description might apply to Brown street Norwood, or Warsaw, or Havelock. For the present the Examiner will use the title "East City" to describe one of the finest quarters of the city, to wit, Ashburnham. As however, the subject of a fitting name may well be a matter of opinion, in order to elicit various views the Examiner's Post Card Column is thrown open to brief communications, and every one inclined is free to use for this special or for the general purpose for which it is maintained.

For A Fine Camp Drink.
add boiling water to a tin of Clark's Chicken or Tomato Soup. A stimulating cup before breakfast fishing.

MALONEY TO BE TRIED ON TUESDAY

Obtained Money Under False Pretences.

Also Charged With Theft — He is Wanted in Other Towns Throughout the Country.

The case of Maloney vs. Cook, which was to have a hearing before County Magistrate Edmonson this morning, was enlarged until next Tuesday as the Crown was not ready to proceed with the case.

Maloney had been travelling for Cook, and had not returned his samples. The employer laid a charge against him for the theft of these samples, and another charge of obtaining $4.00 under false pretences.

Mr. R. H. Wood appeared for the Crown and Mr. F. D. Kerr for the defendant.

Maloney was in town last winter and got employment from several merchants painting signs on their windows. In the spring he also visited here, representing himself as a detective in the employ of the C.P.R.

Maloney's record does not appear to be of the best as he is alleged to be wanted by the police in a number of towns and cities throughout the country.

A SOCIAL EVENT OF MUCH INTEREST

Wedding of Mr. Geo. Robertson to Miss Lena E. Frise.

Both Are Popular Young People—Will Reside in This City.

This morning a very interesting social event took place at the residence of Mr. John Frise, 176 McDonel street, when his youngest daughter Lena Eileen, was married to Mr. Geo. Robertson, accountant for Messrs. B. F. Ackerman & Co. The ceremony took place at 9 o'clock in the drawing room, which was beautifully decorated, and was performed in the presence of a number of the relatives and friends of the popular bride and groom, by Rev. B. J. Shorey, of Oshawa, a former pastor of the church with which the bride and groom have been prominently identified. The bride was dressed in a most becoming gown of pearl d'esprite over white silk and carried a bouquet of white bridal roses. Miss Alberta Frise, sister of the bride, performed the duties of bridesmaid, and was dressed in white organdie and carried pink roses. Mr. R. S. Merrell acted as groomsman.

After the wedding the usual dejeuner was served, and later the bride and groom started on their wedding tour, including visits at Beamsville, St. Catharines and other western cities, going by the 11.45 G. T. R. train, many friends being at the station to bid them a good farewell.

Mr. and Mrs. Robertson are both popular with a large circle of young people in the city. The former was for some years a member of the Athletic and Y.M.C.A. lacrosse clubs, and a player of more than ordinary ability. He was also prominent in church circles and was for some time president of the Epworth League of teh George street Church.

Their popularity was attested to by the fact that they were the recipients of a large number of valuable presents.

On their return they will reside at 353 McDonel street.

HIS CORONATION CELEBRATED

Edward VII. Celebrates His First Anniversary as King.

Reviews French and English Fleets Off Portsmouth.

(Special to the Examiner.)

Portsmouth, Eng., Aug. 9.—King Edward celebrated the anniversary of his coronation to-day by reviewing the combined French and British fleets, aggregating some seventy ships. Later the King proceeded to the French flagship, where he was the guest of Vice Admiral Gaillard at luncheon.

THEIR KINDNESS WAS RECOGNIZED

Letter of Thanks Received From Geo. Statom, of Campbellford.

His Family Was Stranded in Town a Week Ago and Received Assistance.

It will be remembered that a little over a week ago an English woman named Statom with nine small children was stranded in town without a penny. They had gone for a whole day without anything to eat, but when some charitably inclined persons heard of their plight they were taken to the Children's Shelter where their wants were attended to and they were also supplied with the necessary funds to go to Campbellford, where the father and an older son had settled on a farm.

Mr. Henry, Superintendent of the Shelter, has received the following letter of thanks from Mr. Statom, and which he has furnished to the Examiner for publication:

Campbellford, July 31st.

Dear Mr. Henry,—I now take the pleasure of thanking you and your kind friends, who took so much pains in looking after my wife and family over night, from the 24th to the 25th of this month. I am pleased to say that they arrived in Campbellford quite safe, and are going on nicely. Please excuse me for not thanking you before this, but to my the least I did not know your address, until this forenoon when I went for my mail.

Someone had put the Daily Examiner in my box, and as I read it it made my heart rejoice to know that the City of Peterborough possesses such men and women as yourself, Mr. Lloyd and Mrs. Peter Campbell.

I hope you will convey my best wishes and manifold thanks to all of them, and if at any time you may be in Campbellford please give us a call. I must now conclude, and believe me to be

Yours Faithfully,
GEO. STATOM,
Box 257.

KILL THE DANDRUFF GERM
Or Your Hair Will Fall Out Till You Become Bald.
Modern science has discovered that dandruff is caused by a germ that digs up the scalp in scales, as it burrows down to the roots of the hair, where it destroys the hair's vitality, causing falling hair, and ultimately, baldness. After Prof. Unna, Hamburg, Germany, discovered the dandruff germ, all efforts to find a remedy failed until the great laboratory discovery was made which resulted in Newbro's Herpicide. It stops at all other hair preparations frills the dandruff germ. Without dandruff, hair grows luxuriantly. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents

AN ASSEMBLY FOR RUSSIANS

Epoch-Making Change at Last to be Proclaimed—The Treaty Makers Meet—Peace Envoys at Portsmouth, N. H.—To-day They Meet Officially For the First Time—After Credentials are Approved, Business Will Begin—Conference May Extend Over Five Weeks.

St. Petersburg, Aug. 9.—The National Assembly project was finally approved at Peterhof last evening, and will be promulgated next Saturday, the anniversary of the birth of the Grand Duke Alexis Nikoalaievitch, heir to the Russian throne.

TREATY-MAKERS MEET.

Russian and Japanese Peace Plenipotentiaries at Portsmouth, N. H.—May Last Five Weeks.

Portsmouth, N. H., Aug. 9.—The Russian and Japanese peace missions are on the eve of facing each other for the purpose of seeking to end the war in the Far East and if possible consummating a permanent peace.

To-day they will meet in the naval stores building of the navy yard. The Russian plenipotentiaries will examine the credentials and powers which the Emperor of Japan has delegated to Baron Komura and Minister Takahira, and in turn the plenipotentiaries of the Japanese Emperor will scrutinise the powers which the Czar has conferred upon M. Witte and Baron Rosen.

The second day's session, Thursday or Friday, is expected to be devoted either to a consideration of the Japanese peace terms, or to a proposition for an armistice by the Russian plenipotentiaries. It has been estimated that if a basis of negotiation for peace is sume something like five weeks' time before a treaty can be perfected and signed.

The landing and reception of the envoys yesterday was replete with ceremony.

The envoys of both Japan and Russia were affected by the demonstration accorded them, and constantly raised their hats in acknowledgment of the salutes.

The envoys were met at the Court House by Assistant Secretary of State Pierce, who first presented M. Witte to Gov. McLaris and then Baron Komura. Then the senior Russian representative presented his suite to the chief executive officer of New Hampshire and the Japanese plenipotentiary did likewise.

Gov. McLane's formal speech of welcome was responded to by a profound bow by both parties. At the conclusion of the ceremonies the entire party was photographed.

When the Hotel Wentworth was reached there was an outburst of applause. Both suites took dinner at the same time in the main dining-room of the hotel. They had only half concluded their meal when the Russian envoys entered and were escorted to the extreme end of the room, directly past the Japanese table. No sign of recognition, however, was made by either.

As the guests of Rear Admiral Mead the plenipotentiaries and their suites last night were introduced to about 60 invited guests. Before leaving the Russian and Japanese diplomatists again greeted each other cordially.

Japs Take Lighthouse.

Tokio, Aug. 9.—The Navy Department announces that a force of Japanese landed at Port Imperator, 150 miles south of Kastries Bay, Siberia, and captured the lighthousekeeper, but released him and allowed him to continue in his duty. The lighthouse guard fled inland without making any resistance. When the Japanese first landed at Kastries Bay they captured two eight centimetre bronze guns with which the Russians were bombarded.

Something They Can Hit.

Canea, Crete, Aug. 9.—The Russian gunboat Khrabry, has bombarded and destroyed Castelli (on the north coast of the Island of Crete, about 18 miles east of Retimo), because the insurgents there opposed the landing of a Russian force to take over the customs house.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches.

Port Hope's Progress.

Port Hope is to have the new factory of the Standard Ideal Sanitary Company. The company by shipping goods from its present works to England, India, South Africa and South America.

Whitecappers Welcomed.

The homecoming from Chatham of the seven men charged with taking part in the castigation of Thomas Dulmage, was made the occasion of much rejoicing here. A large number of people met the party at the station and escorted them to the village, where supper was spread at the village hotel by the women of the place.

Result of Lightning.

The locality of Napanee was visited by a heavy thunder storm on Sunday and lightning struck and burned the barns of Elliott Wiggins, one mile from Napanee, and Dan McAuley's barn, about half a mile from Selby. Both barns contained a good portion of this year's crop.

Smuggling Aliens.

Joseph Snyder, his two sons, Albert and Richard, and David Marvan, living near Chippewa, Ont., who were arrested on Saturday night at Niagara Falls, on a charge of smuggling undesirable aliens into the country, were taken to Buffalo yesterday, and arraigned before United States Commissioner Keating. All entered a plea of not guilty. The proceedings were then adjourned until to-day.

A Spanish Quarrel.

A long standing quarrel between four of the municipal councillors here culminated at a fortuitous meeting at the Mercantile Club, at Malaga, Spain, when all of them drew revolvers and began firing at each other. When a survey was made of the field after the revolvers were emptied, it was found that one of the combatants was killed and two others seriously wounded.

Devonshire Scheme.

The Duke of Devonshire has opened a cheap cottage exhibition at Letchford, Hertfordshire. Owing to the impossibility of obtaining cottages at rates within their means, thousands of labourers in the country are compelled to remove to the large towns and cities, and the question of providing cheaper homes for the rural population is engaging the attention of many English landowners.

Eaten by Pig.

Little Mary Wightman, daughter of a farmer near Stratford, was playing in the barnyard, when her brother passed through and left the gate open and an old savage of a sow got in, knocked the child down and was crunching one of her arms and would certainly have killed her, in a very little while had her screams not attracted the attention of her mother, who flew to her rescue and drove off the sow.

A Good Schems.

Mr. and Mrs. White arrived at Walkerton recently and bought a bar of soap at a grocery store. They purched 75 sticks of soap off this bar, sprinkled a scent powder over it, and wrapped up the sticks in printed directions and sold the stock like hot cakes for erasing ink or other stains. The police requested their attendance before the local magistrate, who fined them $20 for pedling without a license. The story is told for the benefit of others.

Work on New Railway.

Construction on the new railway between Guelph and Goderich is proceeding at a rate that ensures passengers being carried over the line by the 12th of July next. At the Guelph end, 250 men are at work and at the other end 500, with teams in proportion. Forty miles will be ready for tracking from Guelph in a month's time.

Deporting Undesirables.

Deportations of undesirable immigrants from the United States aggregated over 1,000 in July against 617 in July 1904. United States Immigration Commissioner Watchorn says the condition of a large proportion of the incoming crowds is deplorable and that Europe is sending her rafraff into the United States. Special boards of enquiry are working hard to prevent the undesirable classes landing from the steamers.

Lioness Caused Panic.

In an attempt to capture or kill a lioness that escaped from a manageric at Blairgowrie, Perthshire, causing a panic among the spectators, a bullet passed through the closed door of a shop in which several persons had taken shelter and entered the eye of Mrs. Thorn, of West Mill. An attendant received a bullet in his ankle. The lioness was found and shot.

Yellow Fever in Mexico.

The superior Board of Health officials report but five cases of yellow fever in the Mexican Republics, four at Vera Cruz, and one at Coatacoalcos. One patient died at Vera Cruz Wednesday, and another case was found on the same day. All five cases are thoroughly isolated. The fight against the mosquito continues at all points. Daily reports are received from places where the disease is likely to manifest itself.

YOU ARE SICK!

You're uneasy, restless, without appetite. Still worse, you are thin and fagged out. Work must be done, but where is the strength coming from? Make your blood nutritious and you'll have lots of strength.

Your only hope is Ferrozone, the great food tonic.

FERROZONE

It's a blood maker, blood purifier, blood enricher. It brings sharp appetite, digests and converts all you eat into nourishment.

Ferrozone makes muscle, tissue, nerve. It strengthens in a week, builds up anyone in a month. Think of it. You'll live longer and feel better by using Ferrozone. Avoid substitutes.

Price 50c per box or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

THREE JAPS RELEASED.

Canadian Justice Holds That They Cannot Be Rejected—Were Ejected From the U. S.

Victoria, B. C., Aug. 9.—A habeas corpus application which promised to form the subject of international negotiations preliminary to amendment of the immigration laws of Canada, and the United States, has just been granted by Justice Duff returning three Japanese laborers to liberty.

The application was made at 10.30 and haste was necessary as the Japanese were detained on the steamship Tartar, scheduled to sail for the Orient at 11.

The affidavits disclose that the trio had arrived as passengers from Kobe, destined for the United States on the Tartar's inward voyage, July 28. They were rejected by Dr. Prentis of the United States immigration department on medical examination, and by him ordered returned to the port whence they had been brought, and the affidavits disclosed that pending the Tartar's outward sailing they were lawfully detained as prisoners aboard ship. The application was unopposed and the order made.

The Canadian immigration officers are allegedly powerless in the premises to prevent the undesirable strangers remaining in this Province, and the door is thus opened for Canada being made a dumping ground for the refuse of Asiatic immigration turned back under the law by the watchful officers of the United States immigration department for immigrants who could not secure admission under Canadian law, they to come consigned to Canada in the first instance.

ELECTION PROTEST.

Port Arthur and Rainy River Protest to Be Heard September 11.

Toronto, Aug. 9.—Of the thirteen protests entered after the recent Provincial elections, in one only, Port Arthur and Rainy River, Mr. Kennedy, Liberal M. P., are active preparations being made for bringing on the trial. In this case an examination of the poll books and ballots is being made by the respective counsel with a view to detecting and noting irregularities and facilitating the trial.

The examination is being made before Mr. William Elliott at Osgoode Hall, by order of Chief Justice Moss.

The trial is set for September 11 at Port Arthur.

CONSIDERED OUR STATUTES.

Mrs. Violet Chambers Refused Diverce From Ontario Man.

Buffalo, Aug. 9.—Justice Kenefick, in the Supreme Court yesterday denied the petition of Mrs. Violet C. G. Chambers for a diverce from her husband, James Chambers, a resident of Ontario. Mrs. Chambers was only 15 years old when she married. After living two months with her husband, she left him and came to Buffalo. The decision of Justice Kenefick in the case is interesting, because the statutes of the Dominion of Canada were consulted and governed his findings in the case.

Wins Medal for Judging.

Bowmanville, Aug. 9.—William T. Baker, eldest son of Thomas Baker, Soluna, County Commissioner of the united Counties of Durham and Northumberland, at the Dominion Industrial Exhibition at Winnipeg, won the gold medal sweepstakes and $36, taking first prize for judging horses; third on beef cattle; third in dairy cattle; second on mutton sheep, and third on bacon swine. Mr. Baker is a graduate of the Ontario Agricultural College, Guelph.

TUESDAY'S CASES 66.

Four Die of Yellow Jack At New Orleans

New Orleans, Aug. 9.—Official report of the yellow fever situation to 6 p.m.: New cases, 66; total to date, 616; deaths yesterday 4; total to date, 113; new sub-foci 17; total sub-foci to date, 118.

Wednesday is the day set for the general street cleaning movement. There will be a general suspension of business, all of the merchants volunteering to lend their carts and wagons and employes to assist in the work.

To Fight Yellow Jack.

Liverpool, Aug. 9.—Sir Alfred Jones, president of the Liverpool school of tropical medicine, has received a cablegram from Mayor Behrman of New Orleans, accepting the offer made Monday by Sir Alfred of the services of the school during the prevalence of yellow fever. Major-Surgeon Ronald Ross, professor of tropical medicine, and Dr. Robert Boyce, professor of pathology and dean of the school, will sail for New York on the Campania next Saturday, and on arrival will proceed at once to New Orleans.

Fever Area Spreads.

Houston, Texas, Aug. 9.—State Health Officer Taber has been advised that there are two cases of yellow fever at Bon Ami, La. The telegram states also that one of the patients was dead. The men were Italian refugees from New Orleans.

In Mexico.

Mexico City, Aug. 9.—The Superior Board of Health officials report but five cases of yellow fever in the republic, four at Vera Cruz and one at Coatacoalcos. One patient died at Vera Cruz on Wednesday, and another case was found on the same day.

Dr. Hugo's Health Tablets for

Women

Contain No Opium nor Whiskey

Dr. Hugo's Health Tablets for Women are a harmless vegetable compound put up in tablet form—chocolate coated, easy to take.

And yet without alcohol, without opium or other harmful drugs, there is no medicine in the world which acts so quickly. Improvement is noticed in one week. The first box starts a woman on the road to health.

The alcohol or opium in liquid preparations invariably, in the end, leave the patient in a more pitiable condition than in the beginning.

Dr. Hugo's Tablets make permanent and lasting cures of all the ills of women.

They make healthy women.

Any Troubles In Your BATHROOM?

If you are having any trouble with your CLOSET or BATHROOM CONVENIENCES, come round and have a talk with us.

A gentleman, attracted by the range of Sanitary Closets and excellent values we are offering, invested in a new one, although he already had one that was working not badly.

The way he looked over the Closets we arranged before him for inspection showed he had been sifting the matter, and knew how to prove and disprove the claims of dealers.

The saving of health and expensive plumbing repairs, warranted the investment, he said.

How is yours working? Bring your Bathroom Troubles to us. Our Toronto Stock is what we sell in our Peterborough Branch.

YESTERDAY'S REGATTA AT CLEAR LAKE WAS A PRONOUNCED SUCCESS

Cottagers Held a Most Enjoyable Function Yesterday—The Winners in the Different Events—Many Interesting Finishes—Some Further Developments in the Flag "Incident" at McCracken's—A Bear Seen on the Shores of Stony Lake—Personal Movements of Interest to Local People.

A large number attended the dance last night at the Juniper Pavilion and greatly enjoyed the charming nightly event.

West End Regatta.

The West End Regatta, under the auspices of the Stony Lake Cottagers' Association, was held yesterday afternoon at Sandy Point, Clear Lake, and was a distinct success, inasmuch as it fulfilled admirably the purpose for which it was intended. It was held, not so much with the purpose in view of securing a large entry list, and the number of events was thus somewhat limited. The programme was arranged for the commendable purpose of providing an informal try-out for intending participants in the larger event of Monday next, as well as furnishing an afternoon's amusement, in which the expectations of the committee in charge were amply realized.

The attendance was large and fairly representative of the various parts of the lake, many parties arriving in launches. A delightful feature of the affair, which was as thoroughly enjoyable in its social aspect as in its athletic, was the charming manner in which those present were entertained on board the house-boat Lotus by Mr. and Mrs. R. B. Rogers. The boat was anchored in a spot commanding an excellent view of the course, and many availed themselves of Mr. Rogers' kindness to witness the different events from this point of vantage. Many also viewed the races from the different yachts which were assembled.

Hon. J. R. Stratton officiated as judge of the events in a most efficient manner, while Lt.-Col. E. B. Edwards occupied the position of starter with equal satisfaction. The various races and their respective prize-winners were:

Mixed Tandem Canoe—
1. Hon. L. H. and Mrs. Graham.
2. Miss Collins and Mr. R. B. Rogers.
3. Mr. and Miss White.

Boys' Canoe; under 16—
1. Arthur Elliott.
2. Harold Wallace.

Ladies' Tandem Canoe—
1. Miss Gwen. Hall and Miss Alice Roger.
2. Miss Pearl Lundy and Miss Olive Bradburn.
3. The Misses Schrieber.
4. Miss Hastings, and Miss Dean, Hamilton.

Men's Tandem Canoe—
1. Mr. Geale and Mr. Harry Rogers.
2. Mr. R. B. Rogers and Mr. R. F. Choate.
3. Mr. Sheppard, and Mr. Star, Kilkenny.

Ladies' Skiff Race—
1. Miss Gwen. Hall.
2. Miss Marion Schrieber.
3. Miss Eleanor Collins.

Sailing Race—
Mr. J. Armstrong, Montreal, yacht "Ruth."

The different events were keenly contested, and close and exciting finishes were the order of the day.

The first race, the mixed tandem canoe, was a most interesting event, and some fast work was exhibited. It was won in a most exciting finish by Hon. L. H. and Mrs. Graham, who obtained a lead in the return journey to the flags, after a spirited contest with Miss Collins and Mr. R. B. Rogers.

The boys' canoe race, though it had but two starters, was intensely interesting from the view point of the spectator and caused much enthusiasm. The turn was made with the competitors abreast, but on the return journey Master Arthur Elliott pulled away from his opponent, Master Harold Wallace, winning by about one length. The work of the boys was highly creditable.

The next event the Ladies Tandem brought out a number of entries. It was one of the most spirited contests of the day and was won by Miss Gwen Hall and Miss Alice Roger, by a close margin from Miss Pearl Lundy and Miss Olive Bradburn, amid the wildest enthusiasm.

The succeeding race brought out the largest entry list of the day, and was a hair-raising exhibition, from start to finish, the result being a matter of speculation till the flags were reached with Mr. Geale and Mr. Harry Rogers leading by about 1-2 a length from Mr. R. B. Rogers and Mr. R. F. Choate. Hon. L. H. Graham and Mr. J. S. Chapman were among the "also-rans," but finished with a remarkable burst of speed.

The Ladies' Skiff Race had four starters and its finish was one of the most thrilling spectacles of the day. Miss Gwen. Hall was once more victorious, however, and won-out from Miss Marion Schrieber in an intensely interesting struggle.

There was but one entry in the sailing race, Mr. Armstrong rounding the course in quick time in his yacht, the "Ruth."

Deer Seen at Stony Lake.

Yesterday afternoon as Mr. Peter Carveth, one of the guides at the Victoria House, was crossing a field less than one-quarter of a mile from the Hotel, a large deer suddenly sprang from the woods directly in his path and made a terror-stricken flight through the shrubbery. Mr. Carveth owing to the stringent nature of the game laws with respect to the close season, and incidentally because he had no weapon was obliged to allow the animal to depart on its way.

He, however, quickly returned to the hotel, where a searching party was quickly instituted, which resulted out immediately in a quest for the "antlered monarch," some of whom took with them for protection in case of attack, a supply of firearms. Mr. Bert Huston who was a short distance in advance of the party quickly sighted His Horned Majesty a short distance from the spot where it was previously seen. The wild animal was, however, keenly upon the alert, and was strongly averse to a close inspection. The remainder of the party who had by this time arrived, had to remain content with a good view of the creature as he departed at a whirlwind clip.

The Flag Incident.

The flag incident which occurred at the Victoria House on Monday evening remains a leading topic of conversation upon the lake. Many theories have been advanced as to the probable participants in the tearing down of the stars and stripes. Many American guests and sojourners upon the lake regard it as a direct insult to their nationality, and are in consequence greatly incensed. Upon the other hand, however, many loyal Canadians strongly defend the action of the unknown parties who removed it during the night, freely expressing the opinion that too many flags bearing the stars and bars are flaunted in an offensive manner. Whatever, however, may be said in extenuation of the lowering of the flag from patriotic motives, its removal is to be deplored, and it is probable that unless it is returned promptly prosecutions will follow at an early date.

Personal Notes.

Crown Attorney Curry, of Toronto returned home from his cottage, Eagle Mount, yesterday.

Mr. J. Murphy, Toronto, returned home yesterday after a two weeks' stay at the lakes.

Mr. Sydney Mills is a guest at Mr. Craig's cottage, "Belle Isle."

Mr. F. M. Delafosse of Lakefield, was up to the Lakes yesterday.

Mr. A. B. Mitchell of Toronto, returned home yesterday from Sunnyside.

Miss Loomis of Pittsburg, is a guest at Burleigh Falls.

Mr. J. Cameron has returned home after spending a holiday at Syndicate Island.

Mr. H. O. Fisk, of Fern Rock cottage, went down to the city yesterday.

Mr. H. Fitzgerald of Lakefield, has returned home after a stay at Stony Lake.

Among a large party at Maplehurst, are: Miss M. P. Williams, Miss Jean Stewart of Norwood, Mss Blanche Williams of Campbellford, Messrs. R. J. and J. S. Williams, of Stirling, and Mr. F. V. Coffe, Norwood.

Recent arrivals at Glenwood are: Miss L. Reddick, and Miss G. Tomlinson, of Toronto; and Mr. Sydney Crockers Deer Park.

Miss Kate Meyer of Toronto, is staying at Edithena.

Mr. H. J. Rowe and Mr. Kenneth Zimmerman, are at Sandhaven.

The following party are at the Hermitage: Miss Banks Clementi, of Peterborough; Miss Vic Windsloe, of Ida; Miss Burnett, of Peterborough; Capt. C. H. Winslow, of Millbrook, and Mr. A. Payne, of Port Hope.

Mr. F. W. Burpham of Peterborough is a guest at Ballyraggit.

Mr. Harold Jobbitt of Peterborough is at Boschink.

Mrs. Charles McClelland of Peterborough, is at Boschink.

Miss Robina Patterson of Peterborough, is at Boschink.

Mrs. J. H. Connal and Miss Margaret Connal, of Peterborough, are at Boschink.

Mrs. A. H. Fenwick, of Toronto, is a guest of Mrs. John Crane at Gladhaiken.

The following party are at Pompadour: Mr. and Mrs. Wm. McClelland, Cleveland; Miss McClelland, of New York; Mr. and Mrs. Alfred Thomas, New York; Mr. and Mrs. John McClelland, New York; and Miss Helen McClelland, Cleveland.

Among the guests at Dulce Domum are Miss Grace Goodman, Miss Clara Goodman, and Miss Grace Goodman of Rochester.

Mr. E. M. Best returned to the city yesterday after a few days stay at Elko Camp.

Mr. A. Percival Earle, general manager of the Reliance Assurance Co., of Pittsburg, Pa., came up to Stony Lake last night for a short holiday. Mr. Earle is an old Peterborough boy who has attained a remarkable success in his profession across the border, and has received a warm welcome from his many old Peterborough friends since his return. After severing his connection with the North American Life, about two years ago, Mr. Earle accepted the position of actuary of the Reliance, one of the strongest and most progressive of American companies and has since been advanced to the office which he at present occupies.

Miss Ruby Ross and Mr. and Mrs. Botsford of Toronto, were guests at Rockport, the summer residence of Mr. and Mrs. C. B. Routley.

Mr. W. H. Meldrum, returned home from his cottage, "Cairndhu," yesterday.

Mr. Alf. Haskill, who has been occupying Mr. Graham Weir's cottage for a month, has returned home.

Among the arrivals this week at the Victoria House were: Dr. W. H. and Mrs. Bullis, of Rochester; Mr. Wm. H. Buckley, Sarnia, Mr. Chas. S. Fritz, London, Mr. and Mrs. James O. Ford and daughter, and Miss Aggie Ford, Oakville; Mr. and Mrs. J. F. Brown, Mrs. Capt. Brown, Miss W. Brown, Galt.

Mr. William Irwin went down to the city yesterday.

Mr. Clairview, who has been a guest at Mr. Z. Burnham's cottage, returned home yesterday.

Mr. Colville of Beverley Island, secured an eighteen pound lunge on Saturday.

WORK STARTED ON THE NEW PIERS

Improvements Inaugurated at Young's Point.

Many Visitors at the Point for the Summer—Other News.

From our Own Correspondent.

Young's Point, Aug. 9.—Farmers have commenced threshing in this neighbourhood, and Messrs. Geo. and Peter Ayotte's steam threshers are busy once more.

The rain on Saturday did a great deal of good to the country as the roots, garden produce, etc., were all dried up.

Work on the cement pier below the locks commenced on Monday, Mr. Alex. Richison, of Lakefield, is the overseer of the work. It will be a great improvement to the entrance of the locks here.

Miss M. Greenley, of Lindsay, was visiting friends here last week.

Misses L. Pope and B. Wier, of Peterborough, are visiting their friends here.

Mrs. L. Hendershot, who has been staying with Mrs. Robt. Young the past two weeks, left on Monday for her home in Ohio.

Miss Mary Walsh, of Rochester, is on a visit to her home here.

Mr. Bert Heard, of the General Electric Works of Peterborough, is home on an extended visit.

The Misses E. Tierney, of Ottawa, and M. McAllister, of Montreal, are visiting at Mr. Andrew Allen's.

Miss Mary McCauley, who paid a visit to her father and mother in Trenton the past three weeks, returned to the Point again.

The following guests are registered at the Lake View House: Mr. and Mrs. W. B. McKay, Rochester; Messrs. Geo. Carley, Al. Watt, B. Watson, F. Hunter, Hamilton; Misses Ida and B. McFarlane, and Fannie Hemingshoen, of Buffalo; Chas. Carl, St. Catharines; Mr. John McNamara, Pittsburgh; Mr. Chas. Glockland.

Mrs. Kearns and family and Miss Henry, of Toronto, are visiting at Mr. P. P. Young's.

Miss Loretta Guiry, of Enniskmore, is visiting Miss Ida Kearney.

Mr. W. G. Menzies, Peterborough; Miss Guiry, of Enniskmore; Misses Nellie and Maggie McCabe, of Peterborough; and Miss May Donohue, of Peterborough, are registered at South Beach.

Pains in the Chest.

Mr. John Clark, Port Hope, Ont., states: "Last winter I was so bad with a cold that I could not speak above a whisper, and had great pains in the chest. A friend advised me to try Dr. Chase's Syrup of Linseed and Turpentine, and one bottle cured my cold which I believe would have proven very serious if I had not used this medicine."

To Stop Scalpers.

As a result of the decision of the State Circuit Court upholding the railroad anti-scalping law, passed by the last Legislature, H. G. Caspary, of Portland, the broker upon whom a test of the law was made, has paid his fine in the municipal court, and, together with the other brokers under arrest, has agreed to leave the city and close his establishment. In railroad circles no little degree of satisfaction is expressed at the victory.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75 cents.

Take Hall's Family Pills for Constipation.

Many Travelling.

Over fifty thousand people travelled by water and a quarter of a million were carried by the street railway during the civic holiday at Toronto, Monday. No serious accident was reported.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of Itching, Bleeding and Protruding Piles. You take no risk in the purchase and if your neighbors ask what you can use it and get your money back if not satisfied. 60c. at all dealers or EDMANSON, BATES & Co., Toronto.
DR. CHASE'S OINTMENT.

Chamberlain's
COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every user of a family should keep this remedy in the house. Buy it now. It may save life.

PRICE, 35 CENTS.

A VENERABLE PASTOR CURED BY PE-RU-NA.

Pe-ru-na is a Catarrhal Tonic Especially Adapted to the Declining Powers of Old Age.

In old age the mucous membranes become thickened and partly lose their function.

This leads to partial loss of hearing, smell and taste, as well as digestive disturbances.

Peruna corrects all this by its specific operation on all the mucous membranes of the body.

One bottle will convince anyone. Once used and Peruna becomes a life-long stand-by with old and young.

Strong and Vigorous at the Age of Eighty-eight.

Rev. J. N. Parker, Utica, N. Y., writes: "In June, 1901, I lost my sense of hearing entirely. My hearing had been somewhat impaired for several years, but not so much effected but that I could hold converse with my friends; but in June, 1901, my sense of hearing left me so that I could hear no sound whatever. I was also troubled with rheumatic pains in my limbs. I commenced taking Peruna and now my hearing is restored as good as it was prior to June, 1901. My rheumatic pains are all gone. I cannot speak too highly of Peruna, and now when 88 years old can say it has invigorated my whole system. I cannot but think, dear Doctor, that you must feel very thankful to the all loving Father that you have been permitted to live, and by your skill be such a blessing as you have been to suffering humanity."—Rev. J. N. Parker.

A Bishop's Letter.

T. H. Lomax, D. D., Bishop 2nd Dist. A. M. E., of Charlotte, N. C., writes: "I recommend your Peruna to all who want a strengthening tonic and a very effective remedy for all catarrhal complaints."—T. H. Lomax.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

GUILTY OF MURDER.

It may seem rather a harsh assertion to accuse gentle ladies of murder, but the indictment can be proven. The vanity of woman and her fondness for display of attire—her slavishness to the decrees of fashio constitute contributory responsibility for the murder of a man in Florida, day before yesterday. An agent of the Audubon Society was shot by a bird stealer while endeavouring to prevent the destruction of a plumage bird. A murderous reprobate was engaged in destroying birds whose plumage he would sell for the decoration of ladies' hats. Now if the thoughtless and, in consequences, cruel, vanity of women had not created a demand for such plumage this murder would not have been seeking to slay the birds that produce them, and the humane agent of the society would not have been trying to prevent him and would not have been killed. Is it any strained reasoning that makes women morally, but at the same time, effectively, responsible for the murder of this man? It is not only an offence against the law of our land, but a crime against humanity to destroy our insectivorous birds, and nearly all come under this description. If one could in one devlish swoop destroy the bird life of the country, man would speedily starve; for it is due to our birds that insect pests are prevented from destroying all the fruits of the field, forest, orchard and garden.

EDITORIAL NOTES

The "Soo" of the 20th century, the new reorganized "Soo" that makes steel rails at more than 500 tons a day, that manufactreau 1,000 tons of wood pulp a day, employs more than 4,000 men, and has contracts for steel rails booked ahead until January 1, 1906—this is the "Soo" represented by C. D. Warren, who, with his entire board of directors, has just returned to Toronto from a trip to the hub of New Ontario.

So runs a telegraphic despatch from Toronto. But is does not, the Brantford Expositor points out, add that the "reorganized 'Soo'" is the outcome of assistance given by the late Liberal Government of Ontario, for the granting of which it was blackguarded without stint, both within and without the Legislative Assembly, by the Conservative party. Thus far the new organization has met promptly all the payments called for by that advance, which, in the long run, will not cost the Province a solitary cent. The glad news which comes daily from the "Soo" ought to make the provincial Conservatives feel very cheap.

The Conservative papers are beginning to be a thorn in Mr. Whitney's flesh, and are beginning to paint him as a little of a "grafter" himself. The Paris Review, a very consistent Conservative journal, voices the dolorous plaint:

> The Conservative papers throughout the Province are commenting on the manner in which the Whitney Government is distributing its advertising. Tenders for coal for the Institute for the Blind, Brantford, were advertised in the Morrisburg paper, but not in Brant County, and the same Morrisburg sheet has not only received every advertisement, but is said to be running overtime on other work. The Ross Government couldn't do business unless the Paris Review was received regularly, yet the present Government appears not to know that such a paper as The Galt Reformer is published.

The above contains a rather vigorous slap at Mr. Whitney. Morrisburg is the home of the paper which collars all the advertising, and Morrisburg is Mr. Whitney's home. This shows that the Premier interests himself personally in such trifling matters as the distribution or, as the Conservative newspaper puts it, concentration of Government advertising to his home organ.

CONCRETE BLOCKS AND THEIR PLACE IN BUILDING

Interesting Article From the Scientific American in Which the Increasing Use of Hollow Concrete Blocks for Building Material is Dealt With—Many Houses in Peterborough Constructed of This Class of Material.

That cement walls are to cut a big figure in future building operations is now plainly evident, and information upon the subject will be interesting to everybody. We here reproduce an article from the Scientific American on the subject: "Hollow Concrete Building Blocks; Their Manufacture and Use," by L. B. Powell:—

The comparatively recent advent of hollow concrete blocks into building construction is probably one of the most important innovations in the building industry, and one that is yet in its infancy. The use of concrete as building material is not recent, however, as there are still in existence dikes, dams, roadways, etc., built by the Romans of material corresponding almost exactly with our present-day concrete; it is the introduction of the hollow concrete building block machine that has made possible the gigantic strides taken by this new industry. Experiments along this line have been in process for many years, but it is only in the past few years that the results have been tangible.

The natural cement which was formerly used in concrete construction has been almost entirely replaced by its superior, artificial cement, and it is only with the latter cement that any advantageous results have been accomplished. It is interesting to note that where formerly a European Portland cement was specified as the standard of excellence, in recent years Canadian Portland cement has been so improved by exhaustive and expensive experiments that the domestic production is now conceded to be superior in every way to the foreign article. That an industry so new to this country, and one requiring so high a degree of technical knowledge, has leaped to first place, is doubtless due to the superiority of both raw material and method of production. Probably the best proof of the superiority of the product will be shown by a comparison of the production in the United States and Canada, in 1890 of 300,000 barrels, with that 1903 of 22,000,000 barrels.

Concrete, as is well known, is a perfect mixture of an aggregate, such as crushed stone, with sand and cement, the aggregate forming the body of the mass, while the sand fills up the voids between the aggregate, and the cement fills up the voids between the grains of sand. As the purpose of the concrete is to take the place of stone, it is therefore necessary that the mixture be so perfectly proportioned that each aggregate and each grain of sand has a coating of cement paste, so that when the block has dried thoroughly, the mass will be held in perfect rigidity by the hardening of the cement bond. The aggregate used may be of either gravel, crushed granite, quartz, or trap rock, and should be clean and free from dust, clay or iron rust, which will resist the adhesion of the cement bond. The sand should be as pure silica as possible, should be washed clean to be free from lime, vegetable matter, etc., and should be as sharp as possible. The proportions used in the mixing will depend on the sizes of the sand and the aggregate, and can only be determined by testing. This is one of the most important items to be considered, and none of the proportional rules laid down by the manufacturers of hollow concrete building-block machines should be followed, but the proper proportions should be determined by careful and repeated tests, measuring each ingredient carefully until a perfect mix has been secured. Power mixers should be used wherever possible, as by their use a more thoroughly uniform mix can be secured; and where there are any number of blocks to be made the power mixer will be found to be not only the best, but the cheapest, as the time and expense of mixing are considerably reduced thereby, while the quality of the mix is far superior to that of hand mixed. However, where hand mixing is found advisable, the aggregates should be spread evenly over the mixing board at a uniform depth, the sand spread over this, and the dry cement over the sand. Then this should be turned over at least three times, which should result, if properly turned, in the mass being free from streaks. Then the mass should be sprinkled and turned three times more, sprinkling at each turn, and then smoothing over to test for streaks. If streaks should appear, turn until they disappear. Lime is sometimes used to give a white finish and produce a hard waterproof block, but when it is considered that the life of lime is only from six to sixteen years, while good concrete should last forever, it will readily be realized that a block containing lime will, in a comparatively short time, crumble and deteriorate. In a like manner the use of vitriol, sodium, soda, argol, salt and other chemicals should be discouraged, as while they tend to harden a block in a shorter time, their life is short compared with the life of a good concrete building block. A good waterproof block may be made by mixing five per cent. of dry powdered alum with the dry cement and ten per cent. of a saturated solution of common washing soap with the water used in making the concrete. This will not affect the life of the block any way, and will result in a perfectly waterproof block being turned out.

With so many different styles of machines at such contrasted prices on the market, it will doubtless be a matter of uncertainty which make to use, and on this point the writer, for obvious reasons, cannot advise. The principle of the process is identical with that of moulding, the block being nothing more than a quantity of concrete stamped in a mould and dried. A carpenter could, in a few hours, make a block mold from wood that would form the first blocks in a satisfactory manner, but the model would soon be sprung out of shape upon subsequent tamping of the blocks.

The principal reason for buying a machine at all is to secure some means of making your blocks in as economical a manner as possible, at the same time securing one that will produce perfectly satisfactory blocks. It would therefore be best to secure a tried machine that has been in use long enough to demonstrate its value both as regards quality of product and also rapidity of production, as upon these depend the ultimate success of your venture. The only reason one would have need to buy a block machine would be to secure the advantages of labour saving, high quality of product, and rapidity of production, and for that reason the best machine on the market is the cheapest at any price. Many machines are so constructed that the block is formed face downward, so that the face of the block can be made of somewhat finer material, that can be waterproofed and coloured to suit the requirements of the users. On such machines it will be found possible to make the face hard and waterproof, without waterproofing the entire block, which is indeed not necessary if the block is made with a waterproof face; also, it will be possible by using a specially prepared and coloured mix for the face of the block, to produce blocks of any desired colour. After a layer of facing is placed in the machine, concrete is filled in and tamped by layers, the tamping being done either by hand or by power tamps. This is an important item, and one that must be considered carefully, as poor tamping will spoil blocks, perfect in mix and mould. Pressure will not form good blocks, as under pressure the concrete will be made compact at the top and bottom in thin layers, which will act as a seal to prevent the air from escaping. Continued pressure will compress the air and when the pressure is removed, the air expands, forcing its way through the particles of sand, and making a weak, porous stone, easily subject to disintegration.

Light and frequent tamping, however, works the air out and packs the grains of sand tightly in the voids of the aggregates. When the mould is well filled and tamped, the block should be readeased from the machine and set aside to be cured. At this point it will be wise to remember that a newly made block has no more strength than so much damp sand, and it should not be disturbed by handling after being moulded, as a crack once started will never unite and will utterly destroy the value of the block as a building factor.

As soon as the block has set enough to prevent the surface and corners being washed off, and the block kept well sprinkled for the first day. After that time it should be covered with hay, straw, burlap or any material capable of retaining moisture, and this covering kept moist for six days. If this is not possible the blocks should be sprayed by a flowing stream continuously for that time. It should always be remembered that the interior of the block is wet through and through by the nature of the mixture, and to insure uniform crystallization the exterior should be as thoroughly moist as the interior. After having been cured for seven days in the shade, the block should be placed in the sun and dried for ten days, after which time the block will be ready for use on the wall. A well-made block will easily have a tensile strength of 240 lbs. to the square inch and a crushing strength of one thousand pounds to the cubic inch, thus proving itself far superior to brick, while it is now well known, that concrete building blocks will outlive any kind of stone. On an improved automatic machine four men can make in one day blocks that will equal 6,000 bricks, wall measure. These blocks can be laid in one third of the time required to lay the same wall measure of brick, and by experienced labour, with one-quarter of the mortar required for the brick. The hollow concrete building block has the decided advantage of insuring a good circulation of air inside the wall to prevent any dampness and presents possibilities by its methods of manufacture, that are peculiar to no other building factor. Cut stone of any nature can be easily imitated so successfully as to defy detection, and an imitation brownstone house can be made from concrete blocks cheaper than an ordinary brick house. The three main things to consider in this manufacture are mixing, tamping and curing, careful attention to these points going far to insure the best quality of product.

"Let Go" Prices

Every wide-awake merchant knows that there's a time to "let go" prices, and LeBrun & Co. believe August is the right time. The price tickets show how we're doing it.

Cressman's

NEIGHBORS HAD A SQUABBLE

Plenty of Good Strong Language Was Used.

Evidence Was Contradictory and No Convictions Was Made—Troubles on Chamberlen Street.

Have you ever longed for a good strong word to express yourself sometimes? Well, at this morning's police court some neighbours had a little trouble of theirs aire, and before the court adjourned you could have the choice of the choicest of such words. As the Magistrate mildly put it, they seemed to have a language of their own on that corner.

Trouble has been brewing between two neighbours on Chamberlen street, Mrs. Hartley, or Wylder, and Wm. Taylor and his wife, Anna.

The trouble came to a head on Monday morning, when, according to Mrs. Wylder, Taylor had threatened to murder her and burn her shack. She was in the garden with the children, hoeing potatoes, when she noticed Taylor's hens in her pea-field. She sent her boy over and had the hens driven out. Suddenly Taylor appeared on the scene and commenced calling her and her boy some very pet names, and threatened to murder her and burn her shack.

Taylor then set his wife after her, and she chased her into her house, even coming up to the kitchen door, calling her names and daring her to come out.

Such threats, and her knowledge of Taylor, caused Mrs. Wylder a very sleepless night, and she wanted Taylor bound over to keep the peace.

It was now Taylor's turn. He went into the witness-box, and with a very self-satisfied and determined air, flatly denied all Mrs. Wylder's charges. He said there had been nothing said about murder and the burning of shacks; and then commenced with a story of vegetables stolen, eggs poached, and other things done which had led up to the present trouble. Taylor told the Magistrate that it might be advisable to issue warrants to arrest both Mrs. Wylder and her son.

In the meantime, Mrs. Wylder and Taylor's wife were indulging themselves on the bench with a fire of sarcastic remarks and frequently interrupting the evidence with a strong denial or a word of encouragement.

Mrs. Taylor at last got a free say in the witness-box. She was greatly excited, and was not sure whether the squabble occurred yesterday or Monday morning, but certainly there was trouble and lots of it.

It seems that for some time the two women have had little brushes and did not sustain the kindest of feelings towards each other, each accusing the other of some unbecoming act, until the trouble reached a climax on Monday morning.

In summing up, the Magistrate said he would not like to live near either of them as they had tongues of their own. Both parties concerned were very determined and very positive that their side of the story was right; and as the evidence of one side flatly contradicted the evidence of the other, he could make no conviction. His Worship further said that they were not wise, and had better patch up their troubles.

PRESENTATION TO A POPULAR MAN

Mr. S. S. Moore Given Address and Gold Locket.

Last evening in the business office of the Review a presentation was made to Mr. S. S. Moore, who, for the last five years, has filled the position of city editor of that paper, and who last night severed his connection with it to take a position with the Buffalo Courier. On behalf of the members of the whole staff, Mr. T. J. Begley, read an address to Mr. Moore, in which regret was expressed at his departure, and best wishes extended to his future success, and Mr. Jas. Browne presented Mr. Moore with a handsome solid gold locket, suitably engraved.

Mr. Moore was wholly surprised, and expressed in a few words his appreciation of the kindness shown him by his former associates.

Mr. Moore left to-day on the noon train for Buffalo, and he carries with him the best wishes of his numerous friends for his future success.

THE BRIDE WAS KNOWN HERE

Miss Annie Bickle Married in Canton Recently.

A wedding of considerable local interest, by reason of the fact that the bride was well known in this city, was that which took place in Canton recently. Reporting it, the Port Hope Guide, says:

At the Canton Methodist church, on Thursday, Augut 3rd, the marriage took place of Annie Maude Bickle, the youngest daughter of Mr. and Mrs. Thomas Bickle, to Morgan Stenford Hawkins, L.D.S., D. D. S. Rev. H. E. Curtis, of Chatham, N. J., brother-in-law of the groom, performed the ceremony, assisted by Rev. A. M. Irwin, B.A., B.D.

Promptly at three o'clock to the strains of the Wedding March, the bride entered the church on the arm of her father and proceeded to the altar, when the song, "O, Perfect Love," was rendered by Miss Annie Pedler of Peterborough.

The bride was gowned in white d'esprit over taffeta, with rose bud trimmings of ribbon and berths of hand made lace. She wore a veil and carried a bouquet of cream roses. The bridesmaid, Miss A. Marie Bickle, sister of the bride, was dressed in embroidered Swiss muslin, trimmed with chiffon lace; she wore a white chiffon hat and carried pink roses. Miss Gladys Bickle of Toronto, cousin of the bride, made a dainty little flower girl in white silk, with a shower bouquet of white sweet peas. The best man was Mr. Charles Hawkins, and the ushers were Messrs. Fred Carrelly and Will Bickle.

After the ceremony a reception was held at the bride's home, Ferndale, where congratulations were received on the lawn under an arch of evergreens, under which the word, "Joy," was outlined in white flowers.

The lunch rooms were prettily decorated with festoons of evergreens and a profusion of white flowers and ferns.

The groom's present to the bride was a Gourlay piano. To the bridesmaid a gold chain and pendant, and to the flower girl a pearl pin.

The presents received were elegant and costly, among which was a handsome mantel clock and sugar lifter, given by the church, where the bride was a faithful worker in the Sunday school and choir.

Guests numbering seventy, were present from Dawson City, London, Bobcaygeon, Cobourg and other centres.

The bride's going away gown was of blue cloth trimmed with white broadcloth and hat to match.

The happy couple left by the evening train for a trip through Western Ontario, and on their return will reside on Bidout street, Port Hope.

PERSONAL MENTION

If You Have a Visitor or if You are Yourself Going on a Visit, or Have Just Returned, Send Word to the Examiner. Telephone the Editorial Rooms No. 28, or Drop a Card in the Post Office, or Come Into the Office and Tell the Reporters. The Examiner Wants to Get the News, and Your Friends Will Like to Read it.

Mr. John Nugent returned from the lake last night.

Mr. and Mrs. Robt. Hall went up the lakes to-day.

Mr. W. G. Ferguson went up the lakes this afternoon.

Mr. W. H. Blanchette returned to-day after spending a few days at Mr. H. Le Brun's cottage, "Bellechasse."

Mr. Fred. Hall went to Kinmount Mr. G. W. Fitzgerald, Game Warden, went to Lindsay this morning.

Mr. and Mrs. Louie Houdry have returned home after spending a month at Harwood and Gore's Landing.

Rev. S. J. Shorey, of Oshawa, a former pastor of George Street Methodist church here, was in the city today.

Mr. Frank Cox, of Cleveland, Ohio, is visiting his mother, Mrs. A. Cox, after spending a vacation at the lakes.

Mr. and Mrs. J. J. Harding, of Rochester, N. Y., are in the city visiting the former's cousin, Mr. R. E. Harding.

Miss Marion Hastings and Miss Jeffery, of Toronto, have returned, after spending a month at Kilkenny, Stony Lake.

Mr. S. S. Moore, for the last five years city editor of the Review, left to-day for Buffalo, where he has accepted a situation.

Mr. R. A. Morrow and Mr. Archie Morrow returned last night from Stony Lake where they have spent the past few days.

Miss Hattie Holmes, of Buffalo, and Miss Lizzie Round, of Niagara Falls, N. Y., are in the city visiting, Mr. and Mrs. Christie, Park street.

Mr. and Mrs. Harry Ray and Miss Annabel Ray, of Toronto, spent Monday and Tuesday with Mrs. Ray's niece, Mrs. M. L. Henry, Brock street.

Mr. and Mrs. C. B. Routley, of Peterborough, and Mr. and Mrs. W. C. Routley, of Toronto, arrived in New York on Saturday last per S. S. Lucania.

Mr. Gordon Hoar, of Parkdale, came down with the old boys and was the guest of Mr. Miles Henry. Mr. Hoar has returned to his cottage on Toronto Island.

Mr. and Mrs. Leon LaFontaine, of Toronto, came down on the Old Boys excursion. They are the guests of Mrs. LaFontaine's sister, Mrs. J. D. Larocque, of the Montreal House.

Miss Estelle Foy Left this evening for her home in Toronto, and will return in September to resume her classes in kindergarten music at the conservatory.

Mr. James Seobell, Peterborough, was home over Sunday.....Miss Elsie E. Rundle, Bethesda, is spending her holidays with friends at Peterborough and Orillia. — Bowmanville Statesman.

Senator Dobson left for Peterborough this morning.....Mrs. T. McGimsie and children, of Chicago, are in town, guests of her cousin, Mrs. Jos. Brown, and other friends. They left to-day to visit Peterborough friends.—Lindsay Post.

Mrs. Robt. Hicks and her sister, Miss Isabel Menzies, left last night for Buffalo, where they take steamer for a three weeks' cruise of the lakes, visiting Milwaukee and other large cities. Alderman Hicks accompanied them as far as Buffalo.

Mr. Harry Roland, of Toronto, paid a flying visit to this city on Monday to make arrangements for a party of Toronto piscatorial artists, who intend ridding Stony Lake of all the finny tribe. While in the city Mr. Roland was the guest of Mr. Martin McFadden.

Mrs. J. J. Redmond, of Toronto, is the guest of her parents, Mr. and Mrs. H. Chambers, north ward. Mrs. Redmond will also visit friends in Peterborough, Norwood and Dunsford before returning.....Mr. Herb. Kendry, Peterborough, was in town today, a guest at the Simpson House .....Miss Pearl Butler, of Peterborough is visiting Lindsay friends. — Lindsay Post.

"Gladwood," the popular Stony Lake resort, is as popular as ever, the recent arrivals there being: Mr. and Mrs. Brown, Toronto; Mr. Milne and brother, Pittsburgh; Mrs. Miller, Pittsburgh; Miss McLeish, Miss Patterson and Miss Gilray, Toronto; Mr. Stewart McLeish, Toronto; Mr. N. E. Reid, Peterborough; Mr. Alf. Cox, Toronto; Mr. Frank Cox, Cleveland.; Mrs. Reddick, Mrs. Trebilcock, Mr. Percy, Manley, Toronto; Mr. and Mrs. King, Rochester; Mr. Lionel Miller, Mr. Thompson, Mr. Groll, Cleveland.

Go to Cobourg on Civic Holiday.

The Iron Moulders' excursion on the Civic Holiday promises to be the most enjoyable of all the trips out of town. Cobourg is the summer home of numbers of rich Americans, and this fact makes it worthy of a visit. The Charlotte street Baseball Team will play a game with the Wharf Rats of Cobourg, Town League Winners. A pavilion is to be erected for dancing for those who enjoy it. Hot water provided. Adults 35 cents; children 45 cents. You can get tickets from members of the Committee, or at the Examiner office. 4d32

BIRTHS.

CARPENTER.—At Gamebridge, on August 8th, 1905, to Mr. and Mrs. H. S. Carpenter, a son.

MR. AND MRS. C. B. ROUTLEY RETURN FROM TRIP TO CONTINENT

Mr. and Mrs. C. B. Routley returned to the city last night on the C. P. R. midnight train from Toronto, where they arrived yesterday from England and the continent.

Mr. and Mrs. Routley accompanied the Canadian Manufacturers' on the excursion to England and after spending a short time in that centre they left on a tour of the continent from which they have just returned. They are greatly pleased with their trip, which included a visit to the famous Alps, of Switzerland, and a journey through Germany and Belgium.

STONY LAKE HAS NEVER BEEN SO POPULAR AS NOW

"When the Radial Railway Company gets its lines extended to Young's Point," said one of the leading cottagers this morning, "there will be two thousand more people at the lakes for the summer than there are now, and never in the history of these Lakes have they been so popular as they are this year."

The fact that the beautiful resorts referred to above are meeting with public favour, needs no emphasis here. It is acknowledged that there there have never been so many summer residents at Stony Lake as there are this year, and the hotels and boarding house are all filled to overflowing, while the steamers and boats are doing a tremendous business. Yet with all the increased accommodation and improved facilities it has been almost impossible to handle the crowds.

The gentleman quoted above stated that if a service could be given by which Toronto people could reach the Lakes in four hours there would not be nearly enough accommodation there to shndle the crowd from Toronto, who would want to spend Sunday at the Lakes. As it is now they leave Toronto at two o'clock and do not reach their cottage until ten or eleven o'clock at night.

It is believed that with the railway line to the Point this will be remedied and a much quicker service given.

BIG BEND LUMBER COMPANY HOLDS ITS ANNUAL MEETING

Yesterday the annual meeting of the shareholders of the Big Bend Lumber Company, was held in the offices of Messrs. Hall, Medd and Davidson. There were about fifty of the shareholders present, fully 90 per cent. of the stock being represented.

The financial statement of the year was presented, and the operations had been of such a satisfactory nature that a dividend of eight per cent was declared.

The old Board of Directors was re-elected, the members being Messrs. Theo. Ludgate and Joseph Ludgate, of Arrowhead, B.C., George S. McCarter, Revelstoke, B.C., Wm. Flavelle and Geo. A. Jordan, Lindsay; H. W. Richardson, Kingston; J. Smith, Milburn, N. Y.; R. R. Hall, and Adam Hall, Peterborough.

At a subsequent meeting of the directors the officers were elected as follows:

President—Theo. Ludgate.

Vice-President and Manager — Adam Hall.

Secretary-Treasurer—H. Kirk.

The mills of the company are located at Arrowhead, B.C., and are among the best equipped in the Dominion. The capacity of the mills is 100,000 feet per day and the whole band mill is splendidly equipped. The power is derived from a battery of boilers of 100 horse power. A dry kiln of ample capacity to accommodate the entire output of the mill has been erected.

The prospects of the company are of the brightest, and the fact that at this, the first annual meeting of the shareholders, a dividend of eight per cent has been declared, should be sufficient evidence of the good prospects for the concern.

PORT HOPE'S SIDE OF LOST GAME

According to the Guide They Have the Better Team.

Says Peterborough's Two Runs Were Result of Errors.

Port Hope Guide, speaking of the game in that town on Saturday says:—

In one of the most exciting contests ever witnessed on the Port Hope Diamond the locals defeated the Peterborough nine on Saturday last by a score of 4-3. It was a great game and a great finish and the spectators certainly got their money's worth.

But the score by no means indicates the play. The locals had by far the better of the argument and there was scarcely an innings that a man was not left on 2nd and 3rd. Then the two runs that Peterborough did notch were on errors. Had the locals been a little smarter on bases they shouldn't have had much trouble in scoring at least six runs, but in this case 1 was just as good as 2 thousand so there is no room for a kick.

On the field every man was on the job and Surphlis received good support. Thompson's one hand catch of a fly after a long run was a feature of the game and Johnny was loudly applauded by the spectators.

Surphlis as usual was in great form and he shot them over in good style. Only two of the Peterboroughs men escaped without a strike-out and altogether he had in the neighbourhood of 15 strike-outs. Andrus dropped several on the third strike and was obliged to throw the ball to 1st. Consequently the putout is given to the first baseman while at the same time the man struck out. However, Andrus held eleven of them which is a pretty good showing. He did not not allow a man to walk nor did he hit one.

Quinlan, the opposing artist did good work but in the last of the ninth the locals hit him hard filling the bases and scoring before anyone was out.

Lack of space prevents us giving a more extended account, but from the score our readers can judge that it was pretty lively all.

Score by innings:—
